

the Amendment 80 CQ permit holder's future Amendment 80 fee.

(f) *Appeals.* An Amendment 80 cooperative representative who receives an IAD for incomplete payment of an Amendment 80 fee may appeal under the appeals procedures set out a 15 CFR part 906.

(g) *Annual report.* Each year, NMFS will publish a report describing the Amendment 80 Cost Recovery Fee Program.

[81 FR 171, Jan. 5, 2016]

### Subpart I—Equipment and Operational Requirements for the Longline Catcher/Processor Subsector

#### § 679.100 Applicability.

The owner and operator of a vessel named on an LLP license with a Pacific cod catcher-processor hook-and-line endorsement for the Bering Sea, Aleutian Islands or both the Bering Sea and Aleutian Islands must comply with the requirements of this subpart.

(a) *Opt out selection.* Each year, the owner of a vessel subject to this subpart who does not intend to directed fish for Pacific cod in the BSAI or conduct groundfish CDQ fishing at any time during a year may, by November 1 of the year prior to fishing, submit to NMFS a completed notification form to opt out of directed fishing for Pacific cod in the BSAI and groundfish CDQ fishing in the upcoming year. The notification form is available on the NMFS Alaska Region Web site (<http://alaskafisheries.noaa.gov/>). Once the vessel owner has selected to opt out, the owner must ensure that the vessel is not used as a catcher/processor to conduct directed fishing for Pacific cod with hook-and-line gear in the BSAI or to conduct groundfish CDQ fishing during the specified year.

(b) *Monitoring option selection.* The owner of a vessel subject to this subpart that does not opt out under paragraph (a) of this section must submit a completed notification form for one of two monitoring options to NMFS. The notification form is available on the NMFS Alaska Region Web site (<http://alaskafisheries.noaa.gov/>). The vessel owner must comply with the selected

monitoring option at all times when the vessel is operating in either the BSAI or GOA groundfish fisheries when directed fishing for Pacific cod is open in the BSAI, or while the vessel is groundfish CDQ fishing. If NMFS does not receive a notification to opt out or a notification for one of the two monitoring options, NMFS will assign that vessel to the increased observer coverage option under paragraph (b)(1) of this section until the notification form has been received by NMFS.

(1) *Increased observer coverage option.* Under this option, the vessel owner and operator must ensure that—

(i) The vessel is in compliance with observer coverage requirements described at § 679.51(a)(2)(vi)(E)(I).

(ii) The vessel is in compliance with observer workload requirements described at § 679.51(a)(2)(iii).

(iii) An observer sampling station meeting the requirements at § 679.28(d) is available at all times, unless otherwise approved by NMFS.

(iv) All sets are made available for sampling by an observer.

(v) The Observer Program is notified by phone at 1 (907) 581-2060 (Dutch Harbor, AK) or 1 (907) 481-1770 (Kodiak, AK) at least 24 hours prior to departure when the vessel will be carrying an observer who has not previously been deployed on that vessel within the last 12 months. Subsequent to the vessel's departure notification, but prior to departure, NMFS may contact the vessel to arrange for a pre-cruise meeting. The pre-cruise meeting must minimally include the vessel operator or manager and any observers assigned to the vessel.

(2) *Scales option.* Under this option—

(i) The vessel owner and operator must ensure that—

(A) The vessel is in compliance with observer coverage requirements described at § 679.51(a)(2)(vi)(E)(2).

(B) All Pacific cod brought onboard the vessel is weighed on a NMFS-approved scale in compliance with the scale requirements at § 679.28(b), and that each set is weighed and recorded separately.

(C) An observer sampling station meeting the requirements at § 679.28(d) is available at all times, unless otherwise approved by NMFS.

## § 679.120

(D) The vessel is in compliance with the video monitoring requirements described at § 679.28(k).

(E) The Observer Program is notified by phone at 1 (907) 581-2060 (Dutch Harbor, AK) or 1 (907) 481-1770 (Kodiak, AK) at least 24 hours prior to departure when the vessel will be carrying an observer who has not previously been deployed on that vessel within the last 12 months. Subsequent to the vessel's departure notification, but prior to departure, NMFS may contact the vessel to arrange for a pre-cruise meeting. The pre-cruise meeting must minimally include the vessel operator or manager and any observers assigned to the vessel.

(ii) NMFS will use the weight of all catch that passes over the scale for the purposes of accounting for Pacific cod catch.

(iii) At the time NMFS approves the scale used to weigh Pacific cod, NMFS will provide the vessel owner or operator with one of the following designations on the scale inspection report that will be used for catch accounting of Pacific cod for the duration of the approval period:

(A) *Scale prior to bleeding.* If the scale is located before the location where Pacific cod are bled, a PRR of 1.00 will be applied to all catch weighed on the motion-compensated scale.

(B) *Scale between bleeding and holding area.* If Pacific cod are bled before being weighed and prior to the bleeding holding area, a PRR of 0.99 will be applied to all catch weighed on the scale.

(C) *Scale after holding area.* If Pacific cod are bled and placed in a bleeding holding area before being weighed, a PRR of 0.98 will be applied to all catch weighed on the scale.

(c) *Electronic logbooks.* The operator of a vessel subject to paragraph (b) of this section at any time during a year must comply with the requirements for electronic logbooks at § 679.5(f) at all times during that year.

## Subpart J [Reserved]

## 50 CFR Ch. VI (10-1-23 Edition)

### Subpart K—Halibut Deck Sorting

SOURCE: 84 FR 55054, Oct. 15, 2019, unless otherwise noted.

#### § 679.120 Halibut deck sorting.

(a) *Applicability.* The owner and operator of a mothership or catcher/processor using trawl gear in the non-pollock groundfish fisheries in the Gulf of Alaska and the Bering Sea and Aleutian Islands Management Area must comply with the requirements of this section when participating in halibut deck sorting as defined at § 679.2.

(b) *Catch monitoring requirements—(1) Catch weighing.* When halibut deck sorting, all catch, except halibut sorted on deck, must be weighed on a NMFS-approved scale in compliance with the scale requirements at § 679.28(b). Each haul must be weighed separately, all catch must be made available for sampling by a NMFS-certified observer, and no sorting of catch, except halibut sorted on deck, may take place prior to weighing. When halibut deck sorting, no fish may be weighed on a NMFS-approved scale used to weigh catch at sea unless two observers are available to complete data collection duties, one on deck and one in the factory. A visual signal, specified in paragraph (e)(8) of this section, must be used to indicate when catch may not be weighed.

(2) *Observer sampling station.* An observer sampling station meeting the requirements at § 679.28(d) must be available at all times.

(3) *Observer coverage requirements.* Comply with the observer coverage requirements at § 679.51(a)(2).

(4) *Sample storage.* Provide a storage space sufficient to accommodate a minimum of 10 observer sampling baskets. This space must be within or adjacent to the observer sampling station.

(5) *Vessel crew in tanks or bins.* Comply with the bin monitoring standards at § 679.28(i)(1).

(6) *Observer deck sampling station.* An observer deck sampling station meeting the requirements at § 679.28(d)(9) must be available at all times.

(7) *Video monitoring.* Comply with the video monitoring standards specified at § 679.28(l).
