Subpart A—General

§ 680.1 Purpose and scope.

Regulations in this part implement policies developed by the North Pacific Fishery Management Council and approved by the Secretary of Commerce in accordance with the Magnuson-Stevens Fishery Conservation and Management Act. In addition to part 600 of this chapter, these regulations implement the following:

(a) *Fishery Management Plan (FMP) for Bering Sea and Aleutian Islands King and Tanner Crabs*. (b) *License Limitation Program*. Commercial fishing for crab species not included in the Crab Rationalization Program for crab fisheries of the Bering Sea and Aleutian Islands Area remains subject to the License Limitation Program for the commercial crab fisheries in the Bering Sea and Aleutian Islands Area under part 679 of this chapter.

(F) If a preseason application is timely and complete, NMFS will approve the application. If NMFS approves a preseason application for an exemption, the applicants will be able to receive an exemption during the crab fishing year if the applicants comply with the requirements for an inseason notice of exemption specified below at paragraph (p)(4)(iii).

(G) If NMFS denies a preseason application for any reason, the applicants may appeal the denial pursuant to 50 CFR 679.43.

(E) The effective date of the exemption is the day after NMFS receives a complete inseason notice. Any delivery of North Region IFQ or South Region IFQ outside the designated region prior to the effective date of the exemption is prohibited under § 680.7(a)(2) and (4). Any processing of North Region IPQ or South Region IPQ outside the designated region prior to the effective date of the exemption is prohibited under § 680.7(a)(2) and (4).

(q) *Initial administrative determination (IAD).* The Regional Administrator will prepare and send an IAD to the applicant following the expiration of the 30-day evidentiary period if the Regional Administrator determines that the information or evidence provided by the

applicant fails to support the applicant's claims and is insufficient to establish that the applicant meets the requirements, or if the additional information, evidence, or revised application is not provided within the time period specified in the letter that notifies the applicant of his or her 30-day evidentiary period. The IAD will indicate the deficiencies in the application, including any deficiencies with the information, the evidence submitted in support of the information, or the revised application. The IAD will also indicate which claims cannot be approved based on the available information or evidence. An applicant who receives an IAD may appeal under the appeals procedures set forth at 15 CFR part 906. If an applicant appeals an IAD denying an Application for Annual Crab IFQ, IPQ, or harvesting Cooperative IFQ Permit because the application was not timely filed, the appeal must be filed within 30 days after the date the IAD is issued. An applicant who avails himself or herself of the opportunity to appeal an IAD will not receive crab IFQ or IPQ until after the final resolution of that appeal in the applicant's favor.

(D) Third-party Data Provider provision. Notwithstanding any provision in this section, an Arbitration Organization required to supply or receive information under this section must hire administrative personnel or may contract with a person who will arrange for the receipt and delivery of information as required. Any such third party that receives such information cannot be affiliated with or employed by or related to any QS, PQS, IFQ, or IPQ holder in any crab QS fishery and must enter a contract that:

(1) Prohibits such third person from releasing any information received to any person except as specifically provided by this section; and

(2) Prohibits such third person from entering taking any employment from or establishing any relationship, except under a contract meeting the requirements of this section for a period of 3 years after the termination of the contract.

(v) *Costs.* A provision that authorizes the Arbitration Organization to enter into a contract with all other Arbitration Organizations for the payment of the costs of arbitration as specified under this section.

(A) The Arbitration Organizations must establish a contract that requires the payment of all costs of the Market Analyst, Formula Arbitrator, and Contract Arbitrator(s), dissemination of information concerning uncommitted IPQ to holders of uncommitted Arbitration IFQ, and the costs of such persons associated with lengthy season approach, share matching approach, Binding Arbitration, quality and performance disputes, to be shared equally so that IPQ holders pay 50 percent of the costs and Arbitration IFQ holders and Class A IFQ holders pay 50 percent of the costs.

(B) Each person shall pay an amount of the cost based on the amount of IPQ or IFQ held by that person at the time of application to an Arbitration Organization.

(C) PQS holders shall advance all costs and shall collect the contribution of IFQ holders at landing subject to terms mutually agreed to by the Arbitration Organizations.

(vi) *Negotiation methods.* A provision that prohibits the Arbitration Organization from engaging in any contract negotiations on behalf of its members, except for those necessary to hire the Market Analyst, Formula Arbitrator, and Contract Arbitrator(s).

(vii) *Enforcement of the contract.* Violations of the contract shall be enforced under civil law.

(3) *Provisions applying to Affiliated QS/IFQ Arbitration Organizations.* The provisions that allow for the provision of information to members, payment of costs, limits on the transfer of QS, PQS, IFQ, and IPQ, and enforcement of the contract as described under paragraphs (e)(2)(iv), (v), (vii), and (viii) will apply to the contract among members of an Affiliated QS/IFQ Arbitration Organization(s).

(4) *Process for selection of Market Analyst, Formula Arbitrator, and Contract Arbitrator(s).* (i) For each crab fishing year, QS holders who are members of Arbitration QS/IFQ Arbitration Organization(s) and PQS holders who are members of PQS/IPQ Arbitration Organization(s), by mutual agreement, will select one Market Analyst, one Formula Arbitrator, and Contract Arbitrator(s) for each crab QS fishery. The number of Contract Arbitrators selected for each fishery will be subject to the mutual agreement of those Arbitration Organizations. The selection of the Market Analyst and the Formula Arbitrator must occur in time to ensure the Market Report and non-binding price formula are produced within the time line established in paragraphs (f)(4)(i) and (g)(2)(viii)(B) of this section.

(ii) The Arbitration Organizations representing Arbitration QS holders and PQS holders in a crab fishery shall establish by mutual agreement the contractual obligations of the Market Analyst, Formula Arbitrator, and Contract Arbitrator(s) for each fishery. The contractual obligations of the Market Analyst, the Formula Arbitrator, and Contract Arbitrators will be enforced by the parties to the contract.

(iii) The same person may be chosen for the positions of Market Analyst and Formula Arbitrator for a fishery.

Fishery Conservation and Management

§ 680.20

(iv) A person selected to be a Contract Arbitrator may not be the Market Analyst or Formula Arbitrator, and shall not be affiliated with, employed by, or otherwise associated with, the Market Analyst or Formula Arbitrator, for that fishery.

(5) *Notification to NMFS.* Not later than June 1 for that crab fishing year, except as provided in paragraph (e)(6) of this section, the Arbitration Organizations representing the holders of Arbitration QS and PQS in each fishery shall notify NMFS of the persons selected as the Market Analyst, Formula Arbitrator, and Contract Arbitrator(s) for the fishery in accordance with paragraph (a)(3) of this section.

(6) *First-year implementation.* During 2005, the selection of and establishment of the contractual obligations of the Market Analyst, Formula Arbitrator, and Contract Arbitrator(s) as required under this section shall occur not later than September 1, 2005.

(7) *IFQ and IPQ issuance and selection of the Market Analyst, Formula Arbitrator, and Contract Arbitrator(s).* NMFS will not issue CVO IFQ and IPQ for a crab QS fishery until Arbitration Organizations establish by mutual agreement contracts with a Market Analyst, Formula Arbitrator, and Contract Arbitrator(s) for that fishery and notify NMFS.

(f) *Roles and standards for the Market Analyst and process for producing the Market Report.* (1) Except as provided in paragraph (f)(1)(ii) of this section:

(i) The Arbitration QS/IFQ Arbitration Organizations and the PQS/IPQ Arbitration Organizations shall establish a contract with the Market Analyst to produce a Market Report for each crab QS fishery. The terms of this contract must specify that the Market Analyst must produce a Market Report that shall provide an analysis of the market for products of that fishery.

(ii) The Arbitration QS/IFQ Arbitration Organizations and the PQS/IPQ Arbitration Organizations may, by mutual agreement, include a provision in the contract with the Market Analyst to forgo production of a Market Report for a crab QS fishery if the Arbitration QS/IFQ Arbitration Organizations and the PQS/IPQ Arbitration Organizations anticipate that the crab QS fishery will

not open for fishing during a crab fishing year. If such a provision is included in the contract with the Market Analyst, the Arbitration QS/IFQ Arbitration Organizations and the PQS/IPQ Arbitration Organizations must include a provision in the contract with the Market Analyst to produce a Market Report not later than the June 30 for the crab QS fishery that was expected to remain closed but subsequently opens for fishing during the crab fishing year.

(2) The contract with the Market Analyst must specify that:

(i) The Market Analyst will base the Market Report on a survey of the market for crab products produced by the fishery.

(ii) The Market Analyst will note generally the sources from which he or she gathered information. The Market Report must include only publicly available data and information. Data and information will be considered publicly available if they are published in a manner that makes them available, either for a fee or at no cost, to the public at large.

(iii) The Market Report shall consider the following factors:

(A) Current ex-vessel prices, including ex-vessel prices received for crab harvested under Class A IFQ, Class B IFQ, and CVC IFQ permits;

(B) Consumer and wholesale product prices for the processing sector and the participants in the arbitration (recognizing the impact of sales to affiliates on wholesale pricing);

(C) Innovations and developments of the harvesting and processing sectors and the participants in the arbitration (including new product forms);

(D) Efficiency and productivity of the harvesting and processing sectors (recognizing the limitations on efficiency and productivity arising out of the management program structure);

(E) Quality (including quality standards of markets served by the fishery and recognizing the influence of harvest strategies on the quality of landings);

(F) The interest of maintaining financially healthy and stable harvesting and processing sectors;

(G) Safety and expenditures for ensuring adequate safety;

§ 680.20

50 CFR Ch. VI (10–1–23 Edition)

(H) Timing and location of deliveries; and

(I) The cost of harvesting and processing less than the full IFQ or IPQ allocation (underages) to avoid penalties for overharvesting IFQ and a mechanism for reasonably accounting for deadloss.

(iv) There shall only be one annual Market Report for each fishery.

(v) The Market Analyst must not issue interim or supplemental reports for any crab QS fishery unless the Arbitration QS/IFQ Arbitration Organizations and the PQS/IPQ Arbitration Organizations, by mutual agreement, include a provision in the contract with the Market Analyst for the production of interim or supplemental reports for a crab QS fishery. If the Arbitration QS/IFQ Arbitration Organizations and the PQS/IPQ Arbitration Organizations have a mutual agreement to produce interim or supplemental reports, the contract with the Market Analyst must specify the terms and conditions under which those interim or supplemental reports will be produced.

(3) The Market Analyst shall not disclose any information to any person not required under this section.

(4) In 2005, the Market Report shall be produced not later than September 30, 2005 or 25 days prior to the first crab fishing season for that crab QS fishery whichever is later in that crab fishing year as required under this section.

(i) In all subsequent years and except as provided in paragraph (f)(1)(ii) of this section, the Market Report for each crab QS fishery must be produced not later than 50 days prior to the first crab fishing season for that crab QS fishery, unless the Arbitration QS/IFQ Arbitration Organizations and the PQS/IPQ Arbitration Organizations, by mutual agreement, include a provision in the contract with the Market Analyst to establish a different date for production of the Market Report for that crab QS fishery.

(ii) The contract with the Market Analyst must specify that the Market Analyst will provide the Market Report in that crab fishing year to:

(A) Each Arbitration Organization in that fishery;

(B) NMFS Alaska Region in accordance with paragraph (a)(3) of this section; and

(C) The Formula Arbitrator and any Contract Arbitrator(s) for the fishery.

(g) *Roles and standards for the Formula Arbitrator.* (1) Except as provided in paragraph (g)(1)(ii) of this section:

(i) The Arbitration QS/IFQ Arbitration Organizations and the PQS/IPQ Arbitration Organizations shall establish a contract with the Formula Arbitrator to produce a Non-Binding Price Formula for each crab QS fishery.

(ii) The Arbitration QS/IFQ Arbitration Organizations and the PQS/IPQ Arbitration Organizations may, by mutual agreement, include a provision in the contract with the Formula Arbitrator to forgo production of a Non-Binding Price Formula for a crab QS fishery if the Arbitration QS/IFQ Arbitration Organizations and the PQS/IPQ Arbitration Organizations anticipate that the crab QS fishery will not open for fishing during a crab fishing year. If such a provision is included in the contract with the Formula Arbitrator, the Arbitration QS/IFQ Arbitration Organizations and the PQS/IPQ Arbitration Organizations must include a provision in the contract with the Formula Arbitrator to produce a Non-Binding Price Formula not later than June 30 for the crab QS fishery that was expected to remain closed but subsequently opens for fishing during the crab fishing year.

(2) The contract with the Formula Arbitrator must specify that:

(i) The Formula Arbitrator will conduct a single annual fleet-wide analysis of the markets for crab to establish a Non-Binding Price Formula under which a fraction of the weighted average first wholesale prices for crab products from the fishery may be used to set an ex-vessel price; and

(ii) The Non-Binding Price Formula shall:

(A) Be based on the historical distribution of first wholesale revenues between fishermen and processors in the aggregate based on arm's length first wholesale prices and ex-vessel prices, taking into consideration the size of the harvest in each year; and

(B) Establish a price that preserves the historical division of revenues in

Fishery Conservation and Management

§ 680.20

the fishery while considering the following:

(1) Current ex-vessel prices, including ex-vessel prices received for crab harvested under Class A, Class B, and CVC IFQ permits;

(2) Consumer and wholesale product prices for the processing sector and the participants in arbitrations (recognizing the impact of sales to affiliates on wholesale pricing);

(3) Innovations and developments of the harvesting and processing sectors and the participants in arbitrations (including new product forms);

(4) Efficiency and productivity of the harvesting and processing sectors (recognizing the limitations on efficiency and productivity arising out of the management program structure);

(5) Quality (including quality standards of markets served by the fishery and recognizing the influence of harvest strategies on the quality of landings);

(6) The interest of maintaining financially healthy and stable harvesting and processing sectors;

(7) Safety and expenditures for ensuring adequate safety;

(8) Timing and location of deliveries; and

(9) The cost of harvesting and processing less than the full IFQ or IPQ allocation (underages) to avoid penalties for overharvesting IFQ and a mechanism for reasonably accounting for deadloss.

(C) Include identification of various relevant factors such as product form, delivery time, and delivery location.

(D) Consider the "highest arbitrated price" for the fishery from the previous crab fishing season, where the "highest arbitrated price" means the highest arbitrated price for arbitrations of IPQ and Arbitration IFQ which represent a minimum of at least 7 percent of the IPQ resulting from the PQS in that fishery. For purposes of this process, the Formula Arbitrator may aggregate up to three arbitration findings to collectively equal a minimum of 7 percent of the IPQ. When arbitration findings are aggregated with 2 or more entities, the lesser of the arbitrated prices of the arbitrated entities included to attain the 7 percent minimum be considered for the highest arbitrated price.

(iii) The Non-Binding Price Formula may rely on any relevant information available to the Formula Arbitrator, including, but not limited to,

(A) Information provided by the QS, PQS, IPQ and IFQ holders in the fishery, and

(B) The Market Report for the fishery.

(iv) The Formula Arbitrator:

(A) May meet with IFQ holders who are members of any single FCMA cooperative collectively;

(B) Shall meet with IPQ holders individually;

(C) Shall meet with distinct FCMA cooperatives individually; and

(D) Shall meet with IFQ holders who are not members of the same FCMA cooperative individually.

(v) The Formula Arbitrator may request any relevant information from QS, PQS, IPQ, and IFQ holders in the fishery, but the Formula Arbitrator shall not have subpoena power.

(vi) The Formula Arbitrator may obtain information from persons other than QS, PQS, IPQ, and IFQ holders in the fishery, if those persons agree to provide such data. Any information that is provided must be based on activities occurring more than three months prior to the date of submission to the Formula Arbitrator.

(vii) The Formula Arbitrator shall keep confidential the information that is not publicly available and not disclose the identity of the persons providing specific information.

(viii) (A) In 2005, the non-binding price formula shall be produced not later than September 30, 2005 or 25 days prior to the first crab fishing season for that crab QS fishery whichever is later in that crab fishing year as required under this section.

(B) In all subsequent years and except as provided in paragraph (g)(1)(ii) of this section, the Non-Binding Price Formula must be produced not later than 50 days prior to the first crab fishing season for that crab QS fishery, except that the Non-Binding Price Formulas for the western Aleutian Islands golden king crab fishery and the eastern Aleutian Islands golden king crab fishery must be produced not later than 30 days prior to the first crab fishing season for those crab QS fisheries.

(C) The contract with the Formula Arbitrator must specify that the Formula Arbitrator will provide the non-binding price formula in that crab fishing year to:

(1) Each Arbitration Organization in that fishery;

(2) NMFS in accordance with paragraph (a)(3) of this section; and

(3) The Market Analyst and all Contract Arbitrators in the fishery.

(ix) The Formula Arbitrator shall not disclose any information to any person unless required under this section.

(h) *Roles and standards for the Contract Arbitrator(s)*—(1) *General*. For each crab QS fishery, the Arbitration QS/IFQ Arbitration Organizations and PQS/IPQ Arbitration Organizations shall establish a contract with all Contract Arbitrators in that fishery that specifies that each Contract Arbitrator may be selected to resolve a dispute concerning the terms of delivery, price, or other factors in the fishery.

(2) *Selection of Contract Arbitrators*. The contract with the Contract Arbitrator shall specify the means by which the Contract Arbitrator will be selected to resolve specific disputes. This contract must specify that for any dispute for which the Contract Arbitrator is selected, the Contract Arbitrator will comply with the last best offer arbitration method as set forth in this section.

(3) *Negotiation and Binding Arbitration Procedure*. The contract with the Contract Arbitrator(s) shall specify the following approaches for negotiation and Binding Arbitration among members of the Arbitration Organizations:

(i) *Restrictions on collective negotiation*. An IFQ and an IPQ holder may negotiate individually. Groups of IFQ holders may negotiate collectively with an IPQ holder only under the following provisions:

(A) Members of an FCMA cooperatives may participate collectively with other members of the same FCMA cooperative in Binding Arbitration except as otherwise provided under this section.

(B) Members of different FCMA cooperatives shall not participate collectively in Binding Arbitration.

(C) IPQ holders shall not participate collectively. Only one IPQ holder shall

enter into Binding Arbitration with any IFQ holder or IPQ holder(s).

(D) An Arbitration Organization must not negotiate on behalf of a member. This shall not prohibit the members of an Arbitration IFQ Arbitration Organization from negotiation if the Arbitration Organization qualifies as an FCMA cooperative.

(ii) *Open negotiations*. At any time prior to the date of the first crab fishing season of a crab fishing year for that crab QS fishery, any holder of uncommitted Arbitration IFQ may negotiate with any holder of uncommitted IPQ, the price and delivery terms for that season for any uncommitted IFQ and uncommitted IPQ.

(A) Uncommitted Arbitration IFQ holders and Uncommitted IPQ holders may freely contact each other and initiate open negotiations.

(B) If Arbitration IFQ holders and IPQ holders do not reach an agreement on price, delivery terms, or other terms after committing shares, an Arbitration IFQ holder may initiate Binding Arbitration in accordance with the procedures specified in this section in order to resolve disputes in those price, delivery terms, or other terms.

(C) Once IFQ or IPQ has been committed, the IFQ holder and IPQ holder cannot engage in open negotiation using those shares.

(iii) *Lengthy season approach*. (A) Prior to the date of the first crab fishing season for that crab QS fishery in that crab fishing year a committed IPQ holder and one or more committed Arbitration IFQ holders may choose to adopt a Lengthy Season approach. The Lengthy Season approach is an alternative method to the Binding Arbitration proceedings.

(B) A Lengthy Season approach allows a committed IPQ holder and a committed Arbitration IFQ holder to agree to postpone negotiation of specific contract terms until a time during the crab fishing year as agreed upon by the Arbitration IFQ holder and IPQ holder participating in the negotiation. The Lengthy Season approach allows the Arbitration IFQ holders and IPQ holder involved in the negotiation to postpone Binding Arbitration, if necessary, until a time during the crab fishing year. If the parties ready a final

Fishery Conservation and Management

§ 680.20

agreement on the contract terms, Binding Arbitration is not necessary.

(C) If a committed IPQ holder and one or more committed Arbitration IFQ holder(s) are unable to reach an agreement on whether to adopt a Lengthy Season approach, they may request mediation to assist the parties in determining whether to adopt a Lengthy Season approach. The parties may request a Contract Arbitrator to act as a mediator. If the mediation proves unsuccessful or is not selected, the Arbitration IFQ holder may initiate enter Binding Arbitration to determine whether to adopt a lengthy season approach.

(1) Binding Arbitration may begin immediately with the same Contract Arbitrator.

(2) If the Contract Arbitrator serves as a mediator in an unsuccessful mediation, either party may request another Contract Arbitrator for the Binding Arbitration.

(iv) *Share matching.* (A) At any time 120 hours (five days) after NMFS issues IFQ and IPQ for that crab QS fishery in that crab fishing year, holders of uncommitted Arbitration IFQ may choose to commit the delivery of harvests of crab to be made with that uncommitted Arbitration IFQ to an uncommitted IPQ holder. The issuance of IFQ and IPQ for a crab QS fishery occurs on the time and date that IFQ and IPQ amounts for that crab QS fishery are posted on the NMFS, Alaska Region website at <http://www.fakr.noaa.gov>.

(B) To commit Arbitration IFQ, the holder of uncommitted IFQ must offer an amount of Arbitration IFQ:

(1) Not less than 50 percent of the Arbitration IFQ holder's total uncommitted Arbitration IFQ, or an amount of uncommitted Arbitration IFQ equal to the total amount of uncommitted IPQ available, whichever is less, if the Arbitration IFQ holder is not an FCMA cooperative; and

(2) Not less than 25 percent of the Arbitration IFQ holder's total uncommitted Arbitration IFQ, or an amount of uncommitted Arbitration IFQ equal to the total amount of uncommitted IPQ available, whichever is less, if the Arbitration IFQ holder is an FCMA cooperative.

(C) Any holder of uncommitted IPQ must accept all proposed Arbitration IFQ commitments, up to the amount of its uncommitted IPQ. The commitment of IPQ will take place on receipt of notice from the holder of uncommitted Arbitration IFQ of the intention to commit that IFQ.

(D) After matching, an Arbitration IFQ holder and an IPQ holder may decide to enter mediation to reach agreement on contract terms. The Arbitration IFQ holder and IPQ holder may request a Contract Arbitrator to act as a mediator to facilitate an agreement.

(1) If the mediation proves unsuccessful, or if mediation is not selected, the Arbitration IFQ holder may initiate Binding Arbitration which may begin immediately with the same Contract Arbitrator.

(2) If the Contract Arbitrator serves as a mediator in an unsuccessful mediation, the Arbitration IFQ holder may request another Contract Arbitrator for the Binding Arbitration.

(v) *Initiation of Binding Arbitration.* If an Arbitration IFQ holder intends to initiate Binding Arbitration, the Arbitration IFQ holder must initiate the Binding Arbitration procedure not later than 360 hours (15 days) after NMFS issues IFQ and IPQ for that crab QS fishery in that crab fishing year. Binding Arbitration is initiated after the committed Arbitration IFQ holder notifies a committed IPQ holder and selects a Contract Arbitrator. Binding Arbitration may be initiated to resolve price, terms of delivery, and other disputes. There will be only one Binding Arbitration Proceeding for an IPQ holder but multiple Arbitration IFQ holders may participate in this proceeding. This limitation on the timing of Binding Arbitration proceedings does not include proceedings that arise due to:

- (A) The lengthy season approach;
- (B) Performance disputes; and
- (C) Quality disputes.

(vi) *Joining a Binding Arbitration proceeding.* Any uncommitted Arbitration IFQ holder may join a Binding Arbitration proceeding as a party by committing the shares to the arbitration and providing notice to the IPQ holder and

the Contract Arbitrator(s). An Arbitration IFQ holder may join a Binding Arbitration proceeding only if uncommitted IPQ is available. Once shares are committed to a Binding Arbitration Proceeding they cannot be uncommitted. The contract with the Contract Arbitrator may specify the terms and timing of joining the proceedings.

(vii) *Arbitration schedule meeting.* The Contract Arbitrator shall meet with all parties to a Binding Arbitration proceeding as soon as possible once a Binding Arbitration proceeding has been initiated for the sole purpose of establishing a schedule for the Binding Arbitration. This schedule shall include the date by which the IPQ holder and Arbitration IFQ holder(s) must submit their last best offer and any supporting materials, and any additional meetings or mediation if agreed to by all parties. This meeting will discuss the schedule of the Binding Arbitration proceedings and not address terms of last best offers.

(viii) *Terms of last best offers.* The Contract Arbitrator will meet with the parties to the Binding Arbitration proceeding to determine the matters that must be included in the last best offer, which may include a fixed price or a price over a time period specified by the parties, a method for adjusting prices over a crab fishing year, or an advance price paid at the time of delivery.

(ix) *Submission of last best offers.* The parties to a Binding Arbitration proceeding shall each submit to the Contract Arbitrator(s) a last best offer defining all the terms specified for inclusion in a last best offer by the Contract Arbitrator. An Arbitration IFQ holder that is an FCMA cooperative may submit a last best offer that defines terms for the delivery of crab harvested by members of that FCMA cooperative with IFQ held by the cooperative. An Arbitration IFQ holder that is not an FCMA cooperative may submit a last best offer that defines the term of delivery of crab harvested with IFQ held by that person. The IPQ holder that is a party to the proceeding shall submit a single offer that defines terms for delivery of crab harvested with all IFQ that are subject to the proceedings.

(x) *Arbitration decisions.* The Contract Arbitrator(s) shall decide among each offer received from an Arbitration IFQ holder and the offer received from the IPQ holder. Each arbitration decision shall result in a binding contract between the IPQ holder and the Arbitration IFQ holder defined by the terms of the offer selected by Contract Arbitrator(s). An arbitration decision applies to all committed IFQ and committed IPQ in that arbitration.

(xi) *Announcement of decisions.* (A) If last best offers are submitted at least 15 days before the first crab fishing season for that crab fishing year for that crab QS fishery, arbitration decisions shall be issued no later than 10 days before the first crab fishing season for that crab fishing year for that crab QS fishery. Otherwise, the Contract Arbitrator will notify the parties of the arbitration decision within 5 days of the parties submitting their last best offers.

(B) The Contract Arbitrator will notify the parties by providing each Arbitration IFQ holder and IPQ holder that is a party to the Binding Arbitration proceeding, a copy of any decision. The decision is binding on the parties to the Binding Arbitration proceeding.

(4) *Basis for the Arbitration decision.* The contract with the Contract Arbitrator shall specify that the Contract Arbitrator will be subject to the following provisions when deciding which last best offer to select.

(i) The Contract Arbitrator's decision shall:

(A) Be based on the historical distribution of first wholesale revenues between fishermen and processors in the aggregate based on arm's length first wholesale prices and ex-vessel prices, taking into consideration the size of the harvest in each year; and

(B) Establish a price that preserves the historical division of revenues in the fishery while considering the following:

(1) Current ex-vessel prices, including ex-vessel prices received for crab harvested under Class A IFQ, Class B IFQ, and CVC IFQ permits;

(2) Consumer and wholesale product prices for the processing sector and the

Fishery Conservation and Management

§ 680.20

participants in the arbitration (recognizing the impact of sales to affiliates on wholesale pricing);

(3) Innovations and developments of the harvesting and processing sectors and the participants in the arbitration (including new product forms);

(4) Efficiency and productivity of the harvesting and processing sectors (recognizing the limitations on efficiency and productivity arising out of the management program structure);

(5) Quality (including quality standards of markets served by the fishery and recognizing the influence of harvest strategies on the quality of landings);

(6) The interest of maintaining financially healthy and stable harvesting and processing sectors;

(7) Safety and expenditures for ensuring adequate safety;

(8) Timing and location of deliveries; and

(9) The cost of harvesting and processing less than the full IFQ or IPQ allocation (underages) to avoid penalties for overharvesting IFQ and a mechanism for reasonably accounting for deadloss.

(C) Consider the Non-Binding Price Formula established in the fishery by the Formula Arbitrator.

(ii) The Contract Arbitrator's decision may rely on any relevant information available to the Contract Arbitrator, including, but not limited to:

(A) Information provided by the QS, PQS, IPQ and IFQ holders in the fishery regarding the factors identified in paragraph (h)(4)(i) of this section; and

(B) The Market Report for the fishery.

(iii) Each of the Arbitration IFQ holders and the IPQ holders that is party to the proceeding may provide the Contract Arbitrator with additional information to support its last best offer. The Contract Arbitrator must receive and consider all data submitted by the parties.

(iv) The Contract Arbitrator may request specific information from the Arbitration IFQ holder(s) and IPQ holder that will be useful in reaching a final decision. The Contract Arbitrator will not have subpoena power and it is in the sole discretion of the person from whom information is requested as to

whether to provide the requested information.

(5) *Limits on the release of data.* The parties to a Binding Arbitration proceeding shall be precluded from full access to the information provided to the Contract Arbitrator.

(i) Arbitration IFQ holders that are party to an arbitration proceeding shall have access only to information provided directly by the IPQ holder to the Contract Arbitrator for that Binding Arbitration proceeding.

(ii) IPQ holders that are party to an arbitration proceeding shall have access only to information provided directly by an Arbitration IFQ holder to the Contract Arbitrator for that Binding Arbitration proceeding.

(iii) The Contract Arbitrator shall keep confidential the information provided by any QS, PQS, IFQ, or IPQ holders in the fishery and not disclose the identity of the persons providing specific information except as provided in paragraph (h)(6) of this section.

(iv) The Arbitration IFQ holders and IPQ holders shall not release information received in a Binding Arbitration proceeding to persons who were not party to that Binding Arbitration proceeding other than the final result of that arbitration proceeding except as provided for in paragraph (h)(6) of this section.

(6) *Information provided to NMFS.* The Contract Arbitrator must provide any information, documents, or data required under this paragraph to NMFS in accordance with paragraph (a)(3) of this section not later than 30 days prior to the end of the crab fishing year for which the open negotiation or arbitration applied. The contract with the Contract Arbitrator must specify that the Contract Arbitrator provide NMFS with:

(i) A copy of any minutes from any meeting attended by that Contract Arbitrator between or among any PQS or IPQ holders concerning any negotiations under this section;

(ii) Any last-best offers made during the Binding Arbitration process, including all contract details, the names of other participants in the arbitration, and whether the bid was accepted by the Contract Arbitrator; and

(iii) A copy of any information, data, or documents given by the Contract Arbitrator to any person who is not a party to the particular arbitration for which that information was provided. The Contract Arbitrator must identify the arbitration to which the information, data, or documents apply, and the person to whom those information, data, or documents were provided.

(7) *Enforcement of Binding Arbitration decisions.* The decision of the Contract Arbitrator for Binding Arbitration shall be enforced among the parties to that arbitration.

(8) *Failure of Contract Arbitrator(s).* Except as provided for in paragraph (h)(6) of this section, the failure of a Contract Arbitrator to perform shall be enforced by the Arbitration Organizations.

(9) *Post Binding Arbitration opt-in.* (i) An Arbitration IFQ holder with uncommitted IFQ, may opt-in to any contract that results from a completed a Binding Arbitration procedure with any IPQ holder that has uncommitted IPQ.

(A) All the terms from the arbitrated contract will apply. The Contract Arbitrator may determine fees and a time frame by which a Post Binding Arbitration opt-in may occur if those terms are not specified in the arbitrated contract.

(B) Once exercised, the opt-in results in a contract that is binding on both the Arbitration IFQ and IPQ holder.

(ii) To initiate the opt-in process, the holder of uncommitted Arbitration IFQ will notify the holder of uncommitted IPQ in writing of its intent to opt-in.

(iii) Holders of uncommitted Arbitration IFQ may opt-in to a contract resulting from a completed Binding Arbitration procedure with a person that holds uncommitted IPQ for that fishery.

(iv) If the IPQ holder and the Arbitration IFQ holder are unable to resolve a dispute regarding whether the opt-in offer is consistent with the original contract from the completed Binding Arbitration procedure, the dispute may be decided by the Contract Arbitrator to the original arbitration that resulted in the contract to which the Arbitration IFQ holder is seeking to opt-in. The Contract Arbitrator will decide only whether the proposed opt-

in terms are consistent with the original contract.

(10) *Performance disputes.* If an IPQ holder and an Arbitration IFQ holder are unable to resolve disputes regarding the obligations to perform specific contract provisions after substantial negotiations or when time is of the essence, the issues of that dispute shall be submitted for Binding Arbitration before a Contract Arbitrator for that fishery.

(i) Binding Arbitration resulting from a performance dispute can occur at any point during or after the crab fishing year. The dispute must be raised by the IPQ holder or the Arbitration IFQ holder. Arbitration of that performance dispute must be initiated prior to the date of the first crab fishing season for the following crab fishing year in that crab QS fishery.

(ii) Performance dispute arbitration shall follow the applicable procedures described for a Binding Arbitration in paragraph (h)(3) of this section, except that the time frame for the procedure applicable to a performance dispute will be determined by the Contract Arbitrator once the dispute has been raised.

(iii) If a party fails to abide by the arbitration decision, a party may pursue available contract remedies.

(iv) The costs of arbitrating performance disputes shall be provided from the general fees collected by the Arbitration Organizations pursuant to paragraph (e) of this section.

(v) The Contract Arbitrator may assign fees to any party bringing frivolous complaints. Any such fees shall be paid by the party and not from the fees collected under paragraph (e)(2)(vi) of this section.

(11) *Quality disputes.* When disputes regarding the quality of the harvested crab arise within the context of an existing contract, the parties may settle the disputes within the context of the arbitration system according to the following:

(i) In cases where the IPQ holder and Arbitration IFQ holder(s) have agreed to a formula-based price for crab but where they cannot reach an agreement on the quality and price of the crab, the IPQ holder and Arbitration IFQ holder(s) will receive their share of the

Fishery Conservation and Management

§ 680.21

value of the amount of crab delivered based on the provisions of the contract.

(ii) In quality disputes where the Arbitration IFQ holders prefer to use actual ex-vessel price and not a formula-based price and a dispute arises regarding crab quality and price, the dispute should be referred to a mutually agreeable independent quality specialist firm. This independent quality specialist firm will determine the quality of the crab. This information will be used as the basis for subsequent price determinations. The IPQ holder and Arbitration IFQ holder(s) with this quality dispute shall share the cost of hiring the specialist firm and agree to abide by its findings according to the terms of their agreement.

(i) *Other procedures and administrative decisions.* The Arbitration Organizations, Market Analyst, Contract Arbitrator, Formula Arbitrator, and the Third Party Data Provider are authorized to adopt arbitration system procedures and make administrative decisions, including additional provisions in the various contracts, provided those actions are not inconsistent with any other provision in the regulations.

§ 680.21 Crab harvesting cooperatives.

This section governs the formation and operation of crab harvesting cooperatives. The regulations in this section apply only to crab harvesting cooperatives that have formed for the purpose of applying for and fishing under a crab harvesting cooperative IFQ permit issued by NMFS. Members of crab harvesting cooperatives that are not FCMA cooperatives should consult counsel before commencing any activity if the members are uncertain about the legality under the antitrust laws of the crab harvesting cooperative's proposed conduct.

(a) *Formation of crab harvesting cooperatives.* The following requirements apply to the formation of crab harvesting cooperatives.

(1) *Membership requirements.* A crab harvesting cooperative is limited to QS holders that hold any amount of CPO,

CVO, CPC, or CVC QS, and that NMFS has determined are eligible to receive crab IFQ.

(i) *Minimum number of members.* Each crab harvesting cooperative must include at least four unique QS holding entities. A unique QS holding entity is a QS holder or group of affiliated QS holders that are not affiliated with any other QS holders or QS holding entities in the crab harvesting cooperative. For the purpose of this paragraph, the term "affiliation" is defined at § 680.2.

(ii) *Voluntary nature of membership.* Membership in a crab harvesting cooperative is voluntary. No person may be required to join a crab harvesting cooperative, and no crab harvesting cooperative may be required to accept a member who the crab harvesting cooperative chooses not to accept.

(iii) *Membership in more than one crab harvesting cooperative.* (A) A QS holder may join one crab harvesting cooperative per CR fishery.

(B) Upon joining a crab harvesting cooperative for a CR fishery, NMFS will convert all of a QS holder's QS holdings for that CR fishery to crab harvesting cooperative IFQ.

(2) *Legal and organizational requirements.* A crab harvesting cooperative must meet the following legal and organizational requirements before it is eligible to apply for a crab harvesting cooperative IFQ permit:

(i) *Registered business entity.* Each crab harvesting cooperative must be formed as a partnership, corporation, or other legal business entity that is registered under the laws of one of the 50 states or the District of Columbia.

(ii) *Appointment of a designated representative.* Each crab harvesting cooperative must appoint an individual as designated representative to act on the crab harvesting cooperative's behalf and serve as contact point for NMFS for questions regarding the operation of the crab harvesting cooperative. The designated representative may be a member of the crab harvesting cooperative or some other individual authorized by the crab harvesting cooperative to act on its behalf.

(b) *Application for annual crab harvesting cooperative IFQ permits.* A crab harvesting cooperative IFQ permit is

an annual permit issued to a crab harvesting cooperative that establishes an annual catch limit of crab that is based on the collective QS holdings of the members of the crab harvesting cooperative that have been contributed by the members. A crab harvesting cooperative IFQ permit will list the IFQ amount, by fishery, held by the crab harvesting cooperative and identify the members of the crab harvesting cooperative. Each crab harvesting cooperative will be issued a separate IFQ permit for each type of QS held by a member (or members) of the crab harvesting cooperative.

(1) *June 15 application deadline.* A completed Application for Annual Crab Harvesting Cooperative Individual Fishing Quota (IFQ) Permit listing the name of each member of the crab harvesting cooperative must be submitted annually by each crab harvesting cooperative and received by NMFS no later than June 15 (or postmarked by this date, if sent via U.S. mail or a commercial carrier) for the upcoming crab fishing year for which the crab harvesting cooperative is applying to receive IFQ. If a complete application is not received by NMFS by this date, or postmarked by this date, the crab harvesting cooperative will not receive IFQ for the upcoming crab fishing year. In the event that NMFS has not received a complete and timely application by June 15, NMFS will presume that the application was timely filed if the applicant can provide NMFS with proof of timely filing. Each crab harvesting cooperative member is responsible for submitting a completed Application for Annual Crab Individual Fishing Quota Permit to NMFS by June 15 pursuant to § 680.4.

(2) *Contents.* A complete application must contain the following information:

(i) *Cooperative identification.* Enter the crab harvesting cooperative's legal name; type of business entity under which the crab harvesting cooperative is organized; state in which the crab harvesting cooperative is legally registered as a business entity; printed name of the crab harvesting cooperative's designated representative; the permanent business address, telephone number, facsimile number, and e-mail

address (if available) of the crab harvesting cooperative or its designated representative; and the signature of the crab harvesting cooperative's designated representative and date signed.

(ii) *Members of the cooperative.* Full name and NMFS Person ID of each member of the crab harvesting cooperative.

(iii) *Additional documentation.* For the application to be considered complete, the following documents must be attached to the application: the completed and signed annual application for crab IFQ/IPQ permit for all members of the crab harvesting cooperative, a copy of the business license issued by the state in which the crab harvesting cooperative is registered as a business entity, a copy of the articles of incorporation or partnership agreement of the crab harvesting cooperative, and a copy of the crab harvesting cooperative agreement signed by the members of the crab harvesting cooperative (if different from the articles of incorporation or partnership agreement of the crab harvesting cooperative).

(3) *Issuance of crab harvesting cooperative IFQ permits.* Upon receipt of a completed application for an annual crab harvesting cooperative IFQ permit that is subsequently approved, NMFS will issue one-year crab harvesting cooperative IFQ permits to the crab harvesting cooperative. The crab harvesting cooperative IFQ permits will list the crab IFQ amounts that are generated by the aggregate QS holdings of all members of the crab harvesting cooperative for each fishery, region, sector, and Class A/B IFQ categories. Issuance by NMFS of a crab harvesting cooperative IFQ permit is not a determination that the crab harvesting cooperative is formed or is operating in compliance with antitrust law.

(4) *Appeals.* A crab harvesting cooperative or person that is adversely affected by an initial administrative determination (IAD) that is associated with the issuance of a crab harvesting cooperative IFQ permit may appeal the IAD using the appeals procedures described in § 680.43.

(c) *Restrictions on fishing under a crab harvesting cooperative IFQ permit.* The following restrictions govern fishing

Fishery Conservation and Management

§ 680.21

for IFQ crab under a crab harvesting cooperative IFQ permit:

(1) *Maintenance of permit on board.* A copy of a crab harvesting cooperative IFQ permit must be maintained on board any vessel that is being used to harvest crab under the permit.

(2) *Persons eligible to harvest crab under a crab harvesting cooperative IFQ permit.* The only person eligible to harvest crab under a crab harvesting cooperative IFQ permit is the crab IFQ hired master under §680.4(g) who is operating a vessel in which at least a 10 percent ownership share is held by a member of the crab harvesting cooperative to whom the IFQ permit is issued.

(3) *Liability.* Each member of a crab harvesting cooperative is responsible for ensuring that members of the crab harvesting cooperative and crab IFQ hired masters of the crab harvesting cooperative comply with all regulations applicable to fishing for CR crab.

(d) *Transfers by members of a crab harvesting cooperative.* The following requirements address transfers of QS and IFQ by members of a crab harvesting cooperative.

(1) *Transfer of QS.* A member of a crab harvesting cooperative may acquire or divest QS at any time in accordance with the transfer procedures in §680.41. However, transfers of QS that occur after the June 15 deadline for crab harvesting cooperative IFQ permit applications will not be reflected in the type or amount of IFQ permit issued to the crab harvesting cooperative for that crab fishing year.

(2) *Transfer of individually held IFQ.* A member of a crab harvesting cooperative may acquire or divest individually held IFQ using the transfer procedures described in §680.41. However, any vessel used to harvest IFQ not held by a crab harvesting cooperative loses the vessel use cap exemption.

(3) *Transfer of crab harvesting cooperative IFQ prohibited.* A member of a crab harvesting cooperative may not acquire or divest crab harvesting cooperative IFQ. Crab harvesting cooperative IFQ may only be transferred between two crab harvesting cooperatives.

(e) *Transfers by crab harvesting cooperatives.* The following requirements address transfers of QS, IFQ, PQS, and

IPQ by crab harvesting cooperatives that have been issued crab harvesting cooperative IFQ permits.

(1) *Acquisition of QS, PQS, and IPQ prohibited.* A crab harvesting cooperative that has been issued a crab harvesting cooperative IFQ permit is prohibited from acquiring any amount of QS, PQS, or IPQ for the valid duration of the crab harvesting cooperative IFQ permit. A crab harvesting cooperative that acquires any amount of QS, PQS, or IPQ becomes ineligible to receive a crab harvesting cooperative IFQ permit.

(2) *Transfer of crab harvesting cooperative IFQ.* A crab harvesting cooperative may transfer its IFQ only to another crab harvesting cooperative. Crab harvesting cooperatives wishing to engage in an inter-cooperative transfer must complete an application for inter-cooperative transfer to transfer crab IFQ between crab harvesting cooperatives. A crab harvesting cooperative is prohibited from transferring any amount of crab harvesting cooperative IFQ to any entity that is not a crab harvesting cooperative operating under a crab harvesting cooperative IFQ permit.

(3) *Use caps.* Inter-cooperative transfers of IFQ will apply to the individual use caps of crab harvesting cooperative members through the designation of the crab harvesting cooperative members conducting the transfer.

(f) *Application for transfer of crab harvesting cooperative IFQ—(1) Completed application.* NMFS will process an application for transfer of crab harvesting cooperative individual fishing quota (IFQ) provided that a paper or electronic request form is completed by the applicant, with all applicable fields accurately filled in, and all required additional documentation is attached.

(2) *Certification of transferor—(i) Non-electronic submittal.* The transferor's designated representative must sign and date the application certifying that all information is true, correct, and complete. The transferor's designated representative must submit the paper application as indicated on the application.

(ii) *Electronic submittal.* The transferor's designated representative must

log into the system and create a transfer request as indicated on the computer screen. By using the transferor's NMFS ID, password, and Transfer Key and submitting the transfer request, the designated representative certifies that all information is true, correct, and complete.

(3) *Certification of transferee*—(i) *Non-electronic submittal*. The transferee's designated representative must sign and date the application certifying that all information is true, correct, and complete.

(ii) *Electronic submittal*. The transferee's designated representative must log into the system and accept the transfer request as indicated on the computer screen. By using the transferee's NMFS ID, password, and Transfer Key, the designated representative certifies that all information is true, correct, and complete.

(4) *Submittal information*. An application for transfer of crab harvesting cooperative IFQ crab QS or PQS may be submitted to NMFS as instructed on the application. Forms are available on the NMFS Alaska Region website at <http://alaskafisheries.noaa.gov>, or by contacting NMFS at 800-304-4846, Option 2.

(g) *Inseason changes to crab harvesting cooperative membership*. The following requirements address inseason changes to crab harvesting cooperative membership.

(1) *Eligible membership changes*. A crab harvesting cooperative may add a new member if that person becomes eligible to join the crab harvesting cooperative through the acquisition of any amount of the QS upon which the crab harvesting cooperative's annual IFQ permit was based, provided that the person acquiring the QS in question has been determined by NMFS to be eligible to hold IFQ. Likewise, a crab harvesting cooperative may remove a member if that person no longer holds any of the QS upon which the crab harvesting cooperative's annual IFQ permit was based.

(2) *Inseason membership changes are voluntary*. A crab harvesting cooperative is not required to add or remove members during the fishing season to reflect inseason transfers of QS. Each crab harvesting cooperative is free to

establish its own process for deciding whether or not to admit new members or to remove existing members during the fishing season to reflect changes in the QS holdings. No crab harvesting cooperative is required to admit a new QS holder that the crab harvesting cooperative chooses not to admit, regardless of whether the person in question has acquired any amount of QS upon which the crab harvesting cooperative's annual IFQ is based. If a crab harvesting cooperative chooses to make inseason membership changes, then it must comply with paragraph (g)(3) of this section.

(3) *Application for an inseason change in cooperative membership*. To change crab harvesting cooperative membership, a crab harvesting cooperative must submit to NMFS a revised application for an annual crab harvesting cooperative IFQ permit together with any revised supporting documents that are required to be submitted with the application. The revised application for an annual crab harvesting cooperative IFQ permit must be accompanied by a cover letter that indicates the revisions that have been made. Upon approval of the membership change, NMFS will issue a revised crab harvesting cooperative IFQ permit that reflects the change. A new member may not fish on behalf of a cooperative except as a crab IFQ hired master until NMFS issues a revised crab harvesting cooperative IFQ permit that reflects the change in membership.

(4) *Successors-in-interest*. If a member of a crab harvesting cooperative dies (in the case of an individual) or dissolves (in the case of a business entity), the QS held by that person will be transferred to the legal successor-in-interest. However, the crab harvesting cooperative IFQs generated by that person's QS holdings remain under the control of the crab harvesting cooperative for the valid duration of the crab harvesting cooperative IFQ permit. Each crab harvesting cooperative is free to establish its own internal procedures for admitting a successor-in-interest during the fishing season to reflect the transfer of QS due to the death or dissolution of a QS holder. The regulations in this section do not

require any crab harvesting cooperative to admit a successor-in-interest that the cooperative chooses not to admit. If a crab harvesting cooperative chooses to admit the successor-in-interest for membership, then the crab harvesting cooperative must comply with paragraph (g)(3) of this section.

§ 680.22 Sideboard protections for GOA groundfish fisheries.

The regulations in this section restrict the owners of vessels with a history of participation in the Bering Sea snow crab fishery from using the increased flexibility provided by the CR Program to expand their level of participation in GOA groundfish fisheries. These restrictions are commonly known as “sideboards.”

(a) *Vessels and LLP licenses subject to sideboard restrictions.* The sideboard fishing restrictions described in this section are based on a vessel’s fishing history and apply both to the fishing vessel itself and to any LLP license generated by that vessel’s fishing history. The criteria used to determine which vessels and LLP licenses are subject to GOA groundfish sideboard fishing restrictions are as follows:

(1) *Vessels subject to GOA groundfish sideboard directed fishing closures.* Any vessel that NMFS has determined meets one or both of the following criteria is subject to GOA groundfish sideboard directed fishing closures issued under paragraph (e) of this section except when participating in the Rockfish Program authorized under part 679, subpart G, of this chapter.

(i) Any non-AFA vessel that made a legal landing of Bering Sea snow crab (*C. opilio*) between January 1, 1996, and December 31, 2000, that generated any amount of Bering Sea snow crab (*C. opilio*) fishery QS; and

(ii) Any vessel named on an LLP license that was generated in whole or in part by the fishing history of a vessel meeting the criteria in paragraph (a)(1)(i) of this section.

(2) *Vessels prohibited from directed fishing for Pacific cod in the GOA.* Any vessel that NMFS has determined meets

either of the following two criteria is prohibited from directed fishing for Pacific cod in the GOA:

(i) Any vessel subject to GOA groundfish sideboard closures under paragraph (a)(1)(i) of this section that landed less than 50 mt (110,231 lb), in round weight equivalents, of groundfish harvested from the GOA between January 1, 1996, and December 31, 2000, or

(ii) Any vessel named on an LLP license that was generated in whole or in part by the fishing history of a vessel meeting the criteria in paragraph (a)(2)(i) of this section.

(3) *Vessels and LLP licenses exempt from Pacific cod sideboard closures in the GOA.* Any vessel or LLP license that NMFS has determined meets either of the following criteria is exempt from sideboard directed fishing closures for Pacific cod in the GOA:

(i) Any vessel subject to GOA groundfish closures under paragraph (a)(1)(i) of this section that landed less than 750,000 lb (340.2 mt), in raw weight equivalents, of Bering Sea snow crab and more than 680 mt (1,499,143 lb), in round weight equivalents, of Pacific cod harvested from the GOA between January 1, 1996, and December 31, 2000; and

(ii) Any LLP license that:

(A) Was initially issued based on the catch history of a vessel meeting the criteria in paragraph (a)(3)(i) of this section; and

(B) Did not generate crab QS based on legal landings from any vessel other than the vessel meeting the criteria in paragraph (a)(3)(i) of this section.

(4) *Vessels and LLP licenses exempt from pollock sideboard closures in the GOA.* Any vessel or LLP license that NMFS has determined meets either of the following criteria is exempt from sideboard directed fishing closures for pollock in the GOA:

(i) Any vessel subject to GOA groundfish closures under paragraph (a)(1)(i) of this section that landed less than 1,212,673 lb (550 mt), in raw weight equivalents, of Bering Sea snow crab, and had 20 or more legal landings of pollock harvested from the GOA between January 1, 1996, and December 31, 2000; and

(ii) Any LLP license that:

(A) Was initially issued based on the catch history of a vessel meeting the criteria in paragraph (a)(4)(i) of this section; and

(B) Did not generate crab QS based on legal landings from any vessel other than the vessel meeting the criteria in paragraph (a)(4)(i) of this section.

(b) *Notification of affected vessel owners and LLP license holders.* After NMFS determines which vessels and LLP licenses meet the criteria described in paragraph (a) of this section, NMFS will inform each vessel owner and LLP license holder in writing of the type of sideboard restriction and issue a revised Federal Fisheries Permit and/or LLP license that displays the restriction on the face of the permit or license.

(c) *Appeals.* A vessel owner or LLP license holder who believes that NMFS has incorrectly identified his or her vessel or LLP license as meeting the criteria for a GOA groundfish sideboard restriction may request reconsideration. All requests for reconsideration must be submitted in writing to the RAM Division, Alaska Region, NMFS, together with any documentation or evidence supporting the request. If the request for reconsideration is denied, affected persons may appeal using the procedures described at § 680.43.

(d) *Determination of GOA groundfish sideboard ratios.* Except for fixed gear sablefish, sideboard ratios for each GOA groundfish species, species group, season, operation type, gear type, and area, for which annual specifications are made, are established according to the following formulas:

(1) *Pacific cod.* The sideboard ratios for Pacific cod are calculated by dividing the aggregate retained catch of Pacific cod by vessels that are subject to sideboard directed fishing closures under paragraph (a)(1) of this section and that do not meet the criteria in paragraphs (a)(2) or (a)(3) of this section by the total retained catch of Pacific cod by all groundfish vessels between 1996 and 2000.

(2) *Pollock.* The sideboard ratios for pollock are calculated by dividing the aggregate retained catch of pollock by vessels that are subject to sideboard directed fishing closures under paragraph (a)(1) of this section and that do not

meet the criteria in paragraph (a)(4) of this section by the total retained catch of pollock by all groundfish vessels between 1996 and 2000.

(3) *Groundfish other than Pacific cod and pollock.* The sideboard ratios for groundfish species and species groups other than Pacific cod and pollock are calculated by dividing the aggregate landed catch by vessels subject to sideboard directed fishing closures under paragraph (a)(1) of this section by the total landed catch of that species by all groundfish vessels between 1996 and 2000.

(e) *Conversion of sideboard ratios into annual sideboard harvest limits.* NMFS will convert sideboard ratios into annual sideboard harvest limits according to the following procedures.

(1) *Annual sideboard harvest limits.* (i) Except as provided in paragraphs (e)(1)(ii) and (iii) of this section, annual sideboard harvest limits for each groundfish species, except fixed-gear sablefish, will be established by multiplying the sideboard ratios calculated under paragraph (d) of this section by the proposed and final TACs in each area for which a TAC is specified. If a TAC is further apportioned by season, the sideboard harvest limit also will be apportioned by season in the same ratio as the overall TAC. The resulting harvest limits expressed in metric tons will be published in the annual GOA groundfish harvest specification notices.

(ii) NMFS will not establish an annual sideboard harvest limit for Pacific cod for vessels that catch and process Pacific cod using hook-and-line gear in the Central GOA Regulatory Area if all eligible participants request that the sideboard harvest limit be removed in accordance with the requirements of paragraph (e)(1)(ii)(A) of this section. NMFS will not establish an annual sideboard harvest limit for Pacific cod for vessels that catch and process Pacific cod using hook-and-line gear in the Western GOA Regulatory Area if all eligible participants request that the sideboard harvest limit be removed in accordance with the requirements of paragraph (e)(1)(ii)(B) of this section. NMFS will publish notification of the removal of the sideboard harvest limit for Pacific cod for vessels that catch

and process Pacific cod using hook-and-line gear in the Central GOA Regulatory Area or the Western GOA Regulatory Area through the annual GOA groundfish harvest specifications (see § 679.20(c)(1)(iii) and (c)(3)(ii)).

(A) *Central GOA*. For the Central GOA Regulatory Area (Statistical Areas 620 and 630; see Figure 3 to 50 CFR part 679), the holders of all LLP licenses listed in Column A of Table 10 to this part must submit to NMFS a completed Request to Extinguish Pacific Cod Sideboard Limits for Hook-and-Line Catcher/Processors in the Western or Central GOA, and the request must be received by NMFS on or before May 18, 2016.

(B) *Western GOA*. For the Western GOA Regulatory Area (Statistical Area 610; see Figure 3 to 50 CFR part 679), the holders of all LLP licenses listed in Column B of Table 10 to this part must submit to NMFS a completed Request to Extinguish Pacific Cod Sideboard Limits for Hook-and-Line Catcher/Processors in the Western or Central GOA, and the request must be received by NMFS on or before May 18, 2016.

(iii) NMFS will not establish an annual sideboard harvest limit for groundfish species, other than Pacific cod apportioned to catcher vessels using pot gear in the Western and Central Regulatory Areas. Directed fishing for groundfish species, other than Pacific cod apportioned to catcher vessels using pot gear in the Western and Central Regulatory Areas, is prohibited.

(2) *Sideboard directed fishing allowance*. (i) If the Regional Administrator determines that a harvest limit for a species or species group has been or will be reached, the Regional Administrator may establish a sideboard directed fishing allowance for the species or species group applicable only to the group of crab vessels to which the sideboard limit applies.

(ii) If the Regional Administrator determines that a harvest limit is insufficient to support a directed fishery for that species or species group, then the Regional Administrator may set the sideboard directed fishing allowance at zero for that species or species group.

(3) *Directed fishing closures*. Upon attainment of a sideboard directed fishing allowance, the Regional Adminis-

trator will publish notification in the FEDERAL REGISTER prohibiting directed fishing for the species or species group in the specified subarea, regulatory area, or district. A directed fishing closure is effective for the duration of the fishing year or season.

(f) *Sideboard protections in the State of Alaska parallel groundfish fisheries*. Vessels subject to the sideboard restrictions under paragraph (a) of this section, with a Federal Fisheries Permit or LLP license, shall be subject to the regulations of this section while participating in any groundfish fishery in State waters adjacent to the GOA opened by the State of Alaska and for which the State of Alaska adopts a Federal fishing season.

§ 680.23 Equipment and operational requirements.

(a) *Catcher vessel requirements*. A catcher vessel used to harvest CR crab must:

(1) Carry and use a VMS as described in paragraph (d) of this section;

(2) Land all retained crab to an RCR operating under an approved catch monitoring plan as described in paragraph (g) of this section;

(b) *Catcher/processor requirements*. A catcher/processor used to harvest CR crab must:

(1) Carry and use a VMS as described in paragraph (d) of this section;

(2) Weigh all retained crab to be processed on board, in its raw form, on a scale approved by NMFS as described in paragraph (e) of this section;

(3) Land all retained crab not processed on board at an RCR;

(4) Offload all CR crab product processed onboard at a shoreside location in the United States accessible by road or regularly scheduled air service; and

(5) Provide an approved observer platform scale and test weights that meet the requirements in paragraph (e) of this section.

(c) *RCR requirements*. An RCR must:

(1) Ensure that all CR crab landings are weighed on a scale approved by the State in which the landing takes place.

(2) Ensure that all crab landing and weighing be conducted as specified in an approved crab monitoring plan as described in paragraph (g) of this section, and that a copy of the crab monitoring plan is made available to NMFS personnel or authorized officer upon demand.

(d) *Vessel Monitoring System (VMS) requirements*—(1) *General requirements.* General VMS requirements concerning the approval and installation of VMS components and the responsibilities of vessel owners and operators are detailed at § 679.28(f)(1) through (5).

(2) *VMS transmission requirements.* A vessel's transmitter must be transmitting if:

(i) The vessel is operating in any reporting area (see definitions at § 679.2) off Alaska;

(ii) The vessel has crab pots or crab pot hauling equipment, or a crab pot launcher onboard; and

(iii) The vessel has or is required to have a Federal crab vessel permit for that crab fishing year.

(e) *Scales approved by NMFS.* To be approved by NMFS, a scale used to weigh crab at sea must meet the type evaluation and initial inspection requirements set forth in § 679.28(b)(1) and (2). Once a scale is installed on a vessel and approved by NMFS for use, it must be reinspected annually as described in § 679.28(b) by requesting a scale inspection from NMFS. Each scale must be tested daily and meet the maximum permissible error (MPE) requirements described in paragraph (e)(1) of this section.

(1) *At-sea scale tests.* To verify that the scale meets the MPEs specified in this paragraph, the vessel operator must test each scale or scale system used to weigh CR crab one time during each 24-hour period when use of the scale is required. The vessel owner must ensure that these tests are performed in an accurate and timely manner.

(i) *Belt scales.* The MPE for the daily at-sea scale tests is plus or minus 3 percent of the known weight of the test material. The scale must be tested by weighing at least 400 kg (882 lb) of crab or an alternative material supplied by the scale manufacturer on the scale under test. The known weight of the

test material must be determined by weighing it on a platform scale approved for use under § 679.28 (b)(7).

(ii) *Automatic hopper scales.* An automatic hopper scale must be tested at its minimum and maximum capacity with approved test weights. Test weights must be placed in the bottom of the hopper unless an alternative testing method is approved by NMFS. The MPE for the daily at-sea scale tests is plus or minus 2 percent of the weight of the approved test weights.

(iii) *Platform scales used for observer sampling.* A platform scale used for observer sampling must be tested at 10, 25, and 50 kg (or 20, 50, and 100 lb if the scale is denominated in pounds) using approved test weights. The MPE for the daily at-sea scale test is plus or minus 0.5 percent if the scale is used to determine the known weight of test material for the purpose of testing a belt scale. If the scale is not used for that purpose, the MPE for the daily at-sea scale test is plus or minus 1 percent.

(iv) *Approved test weights.* Each test weight must have its weight stamped on or otherwise permanently affixed to it. The weight of each test weight must be annually certified by a National Institute of Standards and Technology approved metrology laboratory or approved for continued use by the NMFS authorized inspector at the time of the annual scale inspection.

(v) *Requirements for all scale tests.* (A) Notify the observer at least 15 minutes before the time that the test will be conducted, and conduct the test while the observer is present.

(B) Conduct the scale test and record the following information on the at-sea scale test report form:

- (1) Vessel name;
- (2) Month, day, and year of test;
- (3) Time test started to the nearest minute;
- (4) Known weight of test weights;
- (5) Weight of test weights recorded by scale;
- (6) Percent error as determined by subtracting the known weight of the test weights from the weight recorded on the scale, dividing that amount by the known weight of the test weights, and multiplying by 100; and

Fishery Conservation and Management

§ 680.23

(7) Sea conditions at the time of the scale test.

(C) Maintain the test report form on board the vessel until the end of the crab fishing year during which the tests were conducted, and make the report forms available to observers, NMFS personnel, or an authorized officer. In addition, the vessel owner must retain the scale test report forms for 3 years after the end of the crab fishing year during which the tests were performed. All scale test report forms must be signed by the vessel operator.

(2) *Scale maintenance.* The vessel owner must ensure that the vessel operator maintains the scale in proper operating condition throughout its use, that adjustments made to the scale are made so as to bring the performance errors as close as practicable to a zero value, and that no adjustment is made that will cause the scale to weigh inaccurately.

(3) *Printed reports from the scale.* The vessel owner must ensure that the printed reports are provided as required by this paragraph. Printed reports from the scale must be maintained on board the vessel until the end of the year during which the reports were made and be made available to NMFS or NMFS authorized personnel. In addition, the vessel owner must retain printed reports for 3 years after the end of the year during which the printouts were made.

(i) *Reports of catch weight and cumulative weight.* Reports must be printed at least once every 24 hours prior to submitting a CR crab landing report as described in §680.5. Reports must also be printed before any information stored in the scale computer memory is replaced. Scale weights must not be adjusted by the scale operator to account for the perceived weight of water, mud, debris, or other materials. Scale printouts must show:

(A) The vessel name and Federal crab vessel permit number;

(B) The weight of each load in the weighing cycle (hopper scales only);

(C) The date and time the information was printed;

(D) The total amount weighed since the last printout was made; and

(E) The total cumulative weight of all crab or other material weighed on the scale.

(ii) *Printed report from the audit trail.* The printed report must include the information specified in sections 2.3.1.8, 3.3.1.7, and 4.3.1.8 of appendix A to 50 CFR part 679. The printed report must be provided to the authorized scale inspector at each scale inspection and must also be printed at any time upon request of NMFS staff or other NMFS-authorized personnel.

(iii) *Platform scales used for observer sampling.* A platform scale used for observer sampling is not required to produce a printed record unless that scale is also used to obtain raw weight for a CR crab landing report.

(4) *Scale installation requirements.* Unless otherwise approved by NMFS, a scale used to obtain raw weight for a CR crab landing report must be installed such that:

(i) From the location where the observer samples unsorted crab, the observer can ensure that all crab are being weighed;

(ii) The scale may not be installed in a manner that facilitates bypassing. It must not be possible for the scale inspector and an assistant to bypass the scale with 100 kg (220 lb) of test material in less than 20 seconds.

(f) *Scales approved by the state.* Scale requirements in this paragraph are in addition to those requirements set forth by the State in which the scale is approved, and nothing in this paragraph may be construed to reduce or supersede the authority of the State to regulate, test, or approve scales within the State. Scales used to weigh CR crab that are also required to be approved by the State must meet the following requirements:

(1) *Verification of approval.* The scale must display a valid State sticker indicating that the scale was inspected and approved within the previous 12 months.

(2) *Visibility.* An RCR must ensure that the scale and scale display are visible simultaneously. NMFS personnel or NMFS authorized personnel, including observers, must be allowed to observe the weighing of crab on the scale and be allowed to read the scale display at all times.

§ 680.23

50 CFR Ch. VI (10-1-23 Edition)

(3) *Printed scale weights.* (i) An RCR must ensure that printouts of the scale weight of each delivery are made available to NMFS personnel or to NMFS authorized personnel, including observers, at the time printouts are generated. An RCR must maintain printouts on site until the end of the fishing year during which the printouts were made and make them available upon request by an authorized officer for 3 years after the end of the fishing year during which the printout was made.

(ii) A scale used to weigh any portion of a landing of CR crab must produce a printed record for each landing, or portion of each landing, weighed on that scale. The printed record must include:

- (A) The RCR's name;
- (B) The weight of each load in the weighing cycle;
- (C) The total weight of crab in each landing, or portion of the landing that was weighed on that scale;
- (D) The date and time the information is printed; and
- (E) The name and ADF&G vessel registration number of the vessel making the delivery. The scale operator may write this information on the scale printout in ink at the time of landing.

(4) *Inseason scale testing.* Scales used to weigh CR crab must be tested by RCR personnel when testing is requested by NMFS-staff or by NMFS-authorized personnel.

(i) *Inseason testing criteria.* To pass an inseason test, NMFS staff or NMFS-authorized personnel will verify that the scale display and printed information are clear and easily read under all conditions of normal operation, that weight values are visible on the display until the value is printed, and that the scale does not exceed the maximum permissible errors specified in the following table:

Test load in scale divisions	Maximum error in scale divisions
(A) 0-500	1
(B) 501-2,000	2
(C) 2,001-4,000	3
(D) >4,000	4

(ii) *Test weight requirements.* Scales must be tested with the amount and type of weight specified for each scale type in the following tables under para-

graphs (f)(4)(ii)(A) through (f)(4)(ii)(D) of this section:

(A) Automatic hopper 0 to 150 kg (0 to 300 lb) capacity.

Certified test weights	Other test material
(1) Minimum weight or 10 kg (20 lb), whichever is greater.	Minimum.
(2) Maximum	Maximum.

(B) Automatic hopper >150 kg (300 lb) capacity.

Certified test weights	Other test material
(1) Minimum weight or 10 kg (20 lb), whichever is greater.	Minimum.
(2) 25 percent of maximum of 150 kg (300 lb), whichever is greater.	Maximum.

(C) Platform, flatbed or hanging scales less than 150 kg (300 lb) capacity.

Certified test weights	Other test material
(1) 10 kg (20 lb)	Not Acceptable.
(2) Midpoint	Not Acceptable.
(3) Maximum	Not Acceptable.

(D) Platform, flatbed or hanging scales >150 kg (300 lb) capacity.

Certified test weights	Other test material
(1) 10 kg (20 lb)	Not Acceptable.
(2) 12.5 percent of maximum or 75 kg (150 lb), whichever is greater.	50 percent of maximum or 75 kg (150 lb), whichever is greater.
(3) 25 percent of maximum or 150 kg (300 lb), whichever is greater.	75 percent of maximum or 150 kg (300 lb), whichever is greater.

(iii) *Certified test weights.* An RCR must ensure that there are sufficient test weights on-site to test each scale used to weigh CR crab. Each test weight used for inseason scale testing must have its weight stamped on or otherwise permanently affixed to it. The weight of each test weight must be certified by a National Institute of Standards and Technology approved metrology laboratory every 2 years.

(iv) *Other test material.* When permitted in paragraph (f)(4)(ii) of this section, a scale may be tested with test material other than certified test weights.

(g) *Crab Monitoring Plans (CMP).* A CMP is a plan submitted by an RCR for each location or processing vessel

where the RCR wishes to take deliveries of CR crab. The CMP must detail how the RCR will meet the catch monitoring standards detailed in paragraph (g)(5) of this section. An RCR that processes only CR crab harvested under a CPO or CPC IFQ permit is not required to prepare a CMP.

(1) *CMP Approval.* NMFS will approve a CMP if it meets all the performance standards specified in paragraph (g)(5) of this section. The location or vessel identified in the CMP may be inspected by NMFS prior to approval of the CMP to ensure that the location conforms to the elements addressed in the CMP. If NMFS disapproves a CMP, the plant owner or manager may resubmit a revised CMP or file an administrative appeal as set forth under the administrative appeals procedures described in § 679.43.

(2) *Inspection scheduling.* The time and place of a CMP inspection may be arranged by submitting a written request for an inspection to NMFS, Alaska Region. An inspection must be requested no less than 10 working days before the requested inspection date. NMFS staff will conduct CMP inspections in any port located in the United States that can be reached by regularly scheduled commercial air service. The inspection request must include:

- (i) Name and signature of the person submitting the application and the date of the application;
- (ii) Address, telephone number, facsimile number, and e-mail address (if available) of the person submitting the application; and
- (iii) A proposed CMP detailing how the RCR will meet each of the standards in paragraph (g)(5) of this section.

(3) *Approval period.* NMFS will approve a CMP for 1 year if it meets the performance standards specified in paragraph (e)(2) of this section. An owner or manager must notify NMFS in writing if changes are made in plant operations or layout that do not conform to the CMP.

(4) *Changing an approved CMP.* An RCR may change an approved CMP by submitting a CMP addendum to NMFS. Depending on the nature and magnitude of the change requested, NMFS may require a CMP inspection as de-

scribed in paragraph (g)(2) of this section. A CMP addendum must contain:

- (i) Name and signature of the person submitting the addendum;
- (ii) Address, telephone number, facsimile number and e-mail address (if available) of the person submitting the addendum; and
- (iii) A complete description of the proposed CMP change.

(5) *CMP standards—(i) Crab sorting and weighing requirements.* All crab, including crab parts and crab that are dead or otherwise unmarketable, delivered to the RCR must be sorted and weighed by species. The CMP must detail how and where crab are sorted and weighed.

(ii) *Scales used for weighing crab.* The CMP must identify by serial number each scale used to weigh crab and describe the rationale for its use.

(iii) *Scale testing procedures.* Scales identified in the CMP must be accurate within the limits specified in paragraph (f)(4)(i) of this section. For each scale identified in the CMP a testing plan must be developed that:

- (A) Describes the procedure the plant will use to test the scale;
- (B) Lists the test weights and equipment required to test the scale;
- (C) Lists where the test weights and equipment will be stored; and
- (D) Lists the names of the personnel responsible for conducting the scale testing.

(iv) *Printed record.* An RCR must ensure that the scale produces a complete and accurate printed record of the weight of each species in a landing. All of the crab in a delivery must be weighed on a scale capable of producing a complete printed record as described in paragraph (e)(3) of this section. A printed record of each landing must be printed before the RCR submits a CR crab landing report.

(v) *Observation area.* Each CMP must designate an observation area. The observation area is a location designated on the CMP where an individual may monitor the offloading and weighing of crab. The observation area must meet the following standards:

§ 680.30

50 CFR Ch. VI (10–1–23 Edition)

(A) *Access to the observation area.* The observation area must be freely accessible to observer, NMFS staff or enforcement aides at any time during the effective period of the CMP.

(B) *Monitoring the offloading and weighing of crab.* From the observation area, an individual must have an unobstructed view or otherwise be able to monitor the entire offload of crab between the first location where crab are removed from the boat and a location where all sorting has taken place and each species has been weighed.

(C) *Other requirements.* The observation area must be sheltered from the weather and not exposed to unreasonable safety hazards.

(vi) *Plant liaison.* The CMP must designate a plant liaison. The plant liaison is responsible for:

(A) Orienting new observers, NMFS staff and enforcement aides to the plant;

(B) Assisting in the resolution of observer concerns; and

(C) Informing NMFS if changes must be made to the CMP.

(vii) *Drawing to scale of delivery location.* The CMP must be accompanied by a drawing to scale of the delivery location or vessel showing:

(A) Where and how crab are removed from the delivering vessel;

(B) The observation area;

(C) The location of each scale used to weigh crab; and

(D) Each location where crab is sorted.

(viii) *Single geographic location.* All offload and weighing locations detailed in a CMP must be located on the same vessel or in the same geographic location. If a CMP describes facilities for the offloading of vessels at more than one location, it must be possible to see all locations simultaneously.

§ 680.30 [Reserved]

Subpart C—Quota Management Measures

§ 680.40 Crab Quota Share (QS), Processor QS (PQS), Individual Fishing Quota (IFQ), and Individual Processor Quota (IPQ) Issuance.

(a) *Crab QS and Crab QS fisheries.* The Regional Administrator will issue crab QS for the crab QS fisheries defined in paragraph (a)(1) of this section. The Regional Administrator will annually issue IFQ based on the amount of QS a person holds. Crab harvested and retained in each crab QS fishery may be harvested and retained only by persons holding the appropriate crab IFQ for that crab QS fishery.

(1) *Allocations.* With the exception of the WAI golden king crab fishery, the Regional Administrator shall annually apportion 10 percent of the TAC specified by the State of Alaska for each of the fisheries described in Table 1 to this part to the Western Alaska CDQ program. Ten percent of the TAC in the Western Aleutian Islands golden king crab fishery will be allocated to the Adak community entity. The remaining TACs for the crab QS fisheries will be apportioned for use by QS holders in each fishery.

(2) *Official crab rationalization record.* The official crab rationalization record will be used to determine the amount of QS that is to be allocated for each crab QS fishery. The official crab rationalization record is presumed to be correct. An applicant for QS has the burden to prove otherwise. For the purposes of creating the official crab rationalization record the Regional Administrator will presume the following:

(i) An LLP license is presumed to have been used onboard the same vessel from which that LLP is derived, unless documentation is provided establishing otherwise.

(ii) If more than one person is claiming the same legal landings or legal processing activities, then each person eligible to receive QS or PQS based on those activities will receive an equal share of any resulting QS or PQS unless the applicants can provide written

Fishery Conservation and Management

§ 680.40

documentation establishing an alternative means for distributing the QS or PQS.

(iii) For the purposes of determining eligibility for CPO QS, a person is presumed to have processed BSAI crab in 1998 or 1999 if the vessel on which the applicant's LLP license is based processed such crab in those years.

(b) *QS sectors and regional designations*—(1) *General*. The Regional Administrator shall initially assign to qualified persons, crab QS that are specific to the crab QS fisheries defined in paragraph (a)(1) of this section. The crab QS amount issued will be based on legal landings made on vessels authorized to participate in those fisheries in four QS sectors:

(i) *Catcher Vessel Owner (CVO) QS* shall be initially issued to qualified persons defined in paragraph (b)(3) of this section based on legal landings of unprocessed crab.

(ii) *Catcher Vessel Crew (CVC) QS* shall be initially issued to qualified persons defined in paragraph (b)(3) of this section based on legal landings of unprocessed crab.

(iii) *Catcher/Processor Owner (CPO) QS* shall be initially issued to qualified persons defined in paragraph (b)(3) of this section based on legal landings of crab that were harvested and processed on the same vessel.

(iv) *Catcher/Processor Crew (CPC) QS* shall be initially issued to qualified

persons defined in paragraph (b)(3) of this section based on legal landings of crab that were harvested and processed on the same vessel.

(2) *Regional designations*. (i) Regional designations apply to:

(A) *North QS* if the legal landings that gave rise to the QS for a crab QS fishery were landed in the Bering Sea subarea north of 56°20' N. lat.; or

(B) *South QS* if the legal landings that gave rise to the QS for a crab QS fishery were not landed in the North Region, and all CVO QS allocated to the WAI crab QS fishery; or

(C) *West QS* for a portion of the QS allocated to the WAG crab QS fishery subject to the provisions under §680.40(c)(4).

(ii) Regional designations do not apply (Undesignated QS) to:

(A) Crab QS for the EBT or WBT crab QS fishery;

(B) Crab QS for that portion of the WAG QS fishery not regionally designated for the West region;

(C) CVC QS;

(D) CPO QS unless that QS is transferred to the CVO QS sector, in which case the regional designation is made by the recipient of the resulting CVO QS at the time of transfer; and

(E) CPC QS.

(iii) The regional designations that apply to each of the crab QS fisheries are specified in the following table:

Crab QS Fishery	North Region	South Region	West Region	Undesignated Region
(A) EAG	X	X		
(B) WAG			X	X
(C) EBT				X
(D) WBT				X
(E) BSS	X	X		
(F) BBR	X	X		
(G) PIK	X	X		
(H) SMB	X	X		
(I) WAI		X		

(iv) The regional designation ratios applied to QS and PQS for each crab QS fishery will be established based on the regional designations determined on

August 1, 2005. QS or PQS issued after this date will be issued in the same ratio.

(3) *Qualified person* means, for the purposes of QS issuance, a person, as defined in § 679.2, who at the time of application for QS meets the following criteria for each of the QS sectors:

(i) *CVO QS*. Holds one or more permanent, fully transferable crab LLP licenses and is a citizen of the United States;

(ii) *CPO QS*. (A) Holds one or more permanent, fully transferable crab LLP licenses with a Catcher/Processor designation and is a citizen of the United States; and

(B) Harvested and processed at sea any crab species in any BSAI crab fishery during the years 1998 or 1999.

(iii) *CVC QS and CPC QS*. (A) Is an individual who is a citizen of the United States, or his or her successor-in-interest if that individual is deceased;

(B) Has historical participation in the fishery demonstrated by being the individual named on a State of Alaska Interim Use Permit for a QS crab fishery and made at least one legal landing per year for any 3 eligibility years under that permit based on data from fish tickets maintained by the State of Alaska. The qualifying years are described in Column C of Table 7 to this part.

(C) Has recent participation in the fishery demonstrated by being the individual named on a State of Alaska Interim Use Permit for a QS crab fishery and made at least one legal landing under that permit in any 2 of 3 seasons based on data from fish tickets maintained by the State of Alaska. Those seasons are defined in Column D of Table 7 to this part; except that the requirement for recent participation does not apply if:

(1) The legal landings that qualify the individual for QS in the PIK crab QS fishery were made from a vessel that was less than 60 feet length overall; or

(2) If the individual who is otherwise eligible to receive an initial issuance of QS died while working as part of a harvesting crew in any U.S. commercial fishery.

(4) *Qualification for initial allocation of QS*—(i) *Qualifying year*. The qualifying years for each crab QS fishery are described in Column B of Table 7 to this part.

(ii) *Legal landing of crab* means, for the purpose of initial allocation of QS, crab harvested during the qualifying years specified in Column B of Table 7 to this part and landed in compliance with state and Federal permitting, landing, and reporting regulations in effect at the time of the landing.

(A) Legal landings exclude any deadloss, test fishing, fishing conducted under an experimental, exploratory, or scientific activity permit, or the fishery conducted under the Western Alaska CDQ Program.

(B) Landings made onboard a vessel that gave rise to a crab LLP license or made under the authority of an LLP license are non-severable from the crab LLP license until QS has been issued for those legal landings, except as provided for in paragraph (c)(2)(vii) of this section.

(C) Landings may only be used once for each QS sector for the purposes of allocating QS.

(D) Landings made from vessels which are used for purposes of receiving compensation through the BSAI Crab Capacity Reduction Program may not be used for the allocation of CVO QS or CPO QS.

(E) Legal landings for purposes of allocating QS for a crab QS fishery only include those landings that resulted in the issuance of an LLP license endorsed for that crab QS fishery, or landings that were made in that crab QS fishery under the authority of an LLP license endorsed for that crab QS fishery, except as provided for in paragraph (c)(2)(vii) of this section.

(iii) *Documentation*. Evidence of legal landings shall be limited to State of Alaska fish tickets.

(c) *Calculation of QS allocation*—(1) *General*. (i) For each permanent, fully transferable crab LLP license under which an applicant applies, CVO and CPO QS will be based on legal landings that resulted in the issuance of that license or from legal landings that were made under the authority of that license.

(ii) For each State of Alaska Interim Use Permit under which an applicant applies for CVC QS or CPC QS, the initial allocation of QS will be based on the legal landings that were made under the authority of that permit.

Fishery Conservation and Management

§ 680.40

(2) *Computation for initial issuance of QS.* (i) Based on the official crab rationalization record the Regional Administrator shall derive the annual harvest denominator (AHD) that represents the amount of legally landed crab in each crab QS fishery in each qualifying year as established in Column B of Table 7 to this part.

(ii) The initial QS pool is described in Table 8 to this part.

(iii) A person's initial allocation of QS shall be based on a percentage of the legal landings for the applicable sector in each crab QS fishery:

(A) Associated with crab LLP licenses held by the applicant for CVO or CPO QS; or

(B) Authorized under a State of Alaska Interim Use Permit held by the applicant for CVC or CPC QS.

(iv) The Regional Administrator shall calculate the allocation of CVO and CPO QS for each crab QS fishery "f" based on each fully transferable LLP license "l" held by a qualified person by the following formulas:

(A) Sum legal landings for each qualifying year, as described in Column B of Table 7 to this part, and divide that amount by the AHD for that year as follows:

$$(\sigma \text{ legal landings}_{lf} / \text{AHD}_f) \times 100 = \text{Percentage of the AHD}_{lf}$$

(B) In those fisheries where only a subset of the qualifying years are applied, the Regional Administrator will use the years that yield the highest percentages of each AHD as calculated in paragraph (c)(2)(iv)(A) of this section.

(C) Sum the highest percentages of the AHD's for that license as calculated under paragraph (c)(2)(iv)(B) of this section and divide by the number in Column E of Table 7 to this part (Subset of Qualifying Years). This yields the Average Percentage as presented in the following equation:

$$\sigma \text{ Percentages of the AHD}_{lf} / \text{Subset of Qualifying Years}_f = \text{Average Percentage}_{lf}$$

(D) Divide the Average percentage in paragraph (c)(2)(iv)(C) of this section for a license and fishery by the Sum of all Average Percentages for all licenses

for that fishery as presented in the following equation:

$$\text{Average Percentage}_{lf} / \sigma \text{ Average Percentage}_{sf} = \text{Percentage of the Total Percentages}_{lf}$$

(E) Multiply the Percentage of the Total Percentages in paragraph (c)(2)(iv)(D) of this section by the Initial QS Pool as described in Table 8 to this part. This yields the unadjusted number of QS units derived from a license for a fishery.

(F) Multiply the unadjusted number of QS units in paragraph (c)(2)(iv)(E) of this section by 97 percent. This yields the number of QS units to be allocated.

(G) Determine the percentage of legal landings in the subset of qualifying years associated with a LLP license with a catcher/processor designation that were processed on that vessel and multiply the amount calculated in paragraph (c)(2)(iv)(F) of this section by this percentage. This yields the amount of CPO QS to be allocated.

(H) Determine the percentage of legal landings in the subset of qualifying years associated with a LLP license that were not processed on that vessel and multiply the amount calculated in paragraph (c)(2)(iv)(F) of this section by this percentage. This yields the amount of CVO QS to be allocated.

(I) Determine the percentage of legal landings associated with an LLP license in the subset of qualifying years that were delivered in each region as defined in paragraph (b)(2) of this section. The amount calculated in paragraph (c)(2)(iv)(H) of this section is multiplied by the percentage for each region.

(J) The percentage calculated in paragraph (c)(2)(iv)(I) of this section may be adjusted according to the provisions at paragraphs (c)(3) and (c)(4) of this section.

(v) As shown in the formulas under this paragraph (c)(2)(v), the allocation of CVC and CPC QS for each crab QS fishery "f" based on each State of Alaska Interim Use Permit "i" held by each qualified person shall be calculated by the Regional Administrator as follows:

(A) Sum legal landings for each qualifying year as described in Column B of Table 7 to this part and divide

§ 680.40

50 CFR Ch. VI (10-1-23 Edition)

that amount by the AHD for that year using the following equation:

$$(\sigma \text{ legal landings}_{if}/\text{AHD}_f) \times 100 = \text{Percentage of the AHD}_{if}$$

(B) In those fisheries where only a subset of the qualifying years are applied, the Regional Administrator will use the years that yield the highest percentages of the AHD as calculated in paragraph (c)(2)(v)(A) of this section.

(C) Sum the highest percentages of the AHDs for that license calculated under paragraph (c)(2)(v)(B) of this section and divide by the number in Column E of Table 7 to this part (Subset of Qualifying Years). This yields the Average Percentage as presented in the following equation:

$$\sigma \text{ Percentages of the AHD}_{if}/\text{Subset of Qualifying Years}_f = \text{Average Percentage}_{if}$$

(D) Divide the Average Percentage in paragraph (c)(2)(v)(C) of this section for a permit and fishery by the Sum of all Average Percentages for all permits for that fishery as presented in the following equation:

$$\text{Average Percentage}_{if}/\sigma \text{ Average Percentage}_{sf} = \text{Percentage of the Total Percentages}_{if}$$

(E) Multiply the Percentage of the Total Percentages in paragraph (c)(2)(v)(E) of this section by the Initial QS Pool as described in Table 8 to this part. This yields the unadjusted number of QS units derived from a permit for a fishery.

(F) Multiply the unadjusted number of QS units in paragraph (c)(2)(v)(E) of this section by 3 percent. This yields the number of QS units to be allocated.

(G) Determine the percentage of legal landings in the subset of qualifying years associated with a permit that were processed on that vessel and multiply the amount calculated in paragraph (c)(2)(v)(F) of this section by this percentage. This yields the amount of CPC QS to be allocated.

(H) Determine the percentage of legal landings in the subset of qualifying years associated with a permit that were not processed on that vessel and multiply the amount calculated in paragraph (c)(2)(v)(F) of this section by this percentage. This yields the amount of CVC QS to be allocated.

(I) Determine the percentage of legal landings associated with a permit in the subset of qualifying years that were delivered in each region as defined in paragraph (b)(2) of this section. The amount calculated in paragraph (c)(2)(v)(H) of this section is multiplied by the percentage for each region.

(J) The percentage calculated in paragraph (c)(2)(v)(I) of this section may be adjusted according to the provisions at paragraphs (c)(3) and (c)(4) of this section. The amount calculated in paragraph (c)(2)(v)(H) of this section is multiplied by the percentage for each region. These regional QS designations do not apply to CVC QS.

(vi) *Sunken vessel provisions.* (A) If a person applies for CVO QS or CPO QS based, in whole or in part, on the activities of a vessel that sank, the Regional Administrator shall presume landings for that vessel for the crab fishing years between the time of vessel loss and the replacement of the vessel under § 679.4(k)(5)(v) of this chapter. These presumed landings shall be equivalent to 50 percent of the average legal landings for the qualifying years established in Column B of Table 7 to this part unaffected by the sinking. If the vessel sank during a qualifying year, the legal landings for that year will not be used as the basis for presumed landings;

(B) If a person applies for CVO QS or CPO QS based, in whole or in part, on the activities of a vessel that sank and:

(1) The person who owned the vessel that sank would have been denied eligibility to replace a sunken vessel under the provisions of Public Law 106-554; and

(2) The vessel that sank was replaced with a newly constructed vessel, with that vessel under construction no later than June 10, 2002. For purposes of this section a vessel is considered under construction once the keel for that vessel has been laid; and

(3) The newly constructed vessel participated in any Bering Sea crab fishery no later than October 31, 2002;

(4) Then the Regional Administrator shall presume landings for that vessel for the crab fishing years between the time of vessel loss and the replacement of the vessel. These presumed landings shall be equivalent to 50 percent of the

Fishery Conservation and Management

§ 680.40

average legal landings for the qualifying years established in Column B of Table 7 to this part unaffected by the sinking. If the vessel sank during a qualifying year, the legal landings for that year will not be used as the basis for presumed landings.

(vii) *LLP license history exemption.* An applicant for CVO or CPO QS who:

(A) Deployed a vessel in a crab QS fishery under the authority of an interim or permanent fully transferable LLP license; and

(B) Prior to January 1, 2002, received by transfer, as authorized by NMFS, a permanent fully transferable LLP license for use in that crab QS fishery to insure that a vessel would remain authorized to participate in the fishery, may choose to use as the legal landings which are the basis for QS allocation on his or her application for crab QS or PQS either:

(1) The legal landings made on that vessel for that crab QS fishery prior to the transfer of the permanent fully transferable LLP license for use on that vessel; or

(2) The legal landings made on the vessel that gave rise to the permanent fully transferable LLP license and the legal landings made under the authority of that same LLP license in that crab QS fishery prior to January 1, 2002.

(C) If the history described in paragraph (c)(2)(vii)(B)(1) of this section is being used by another person for an allocation with an LLP license, then the allocation in paragraph (c)(2)(vii) will be based on the legal landings as described under paragraph (c)(2)(vii)(B)(2) of this section.

(3) *Adjustment of CVO and CVC QS allocation for North and South regional designation.* The Regional Administrator may adjust the regional designation of QS to ensure that it is initially allocated in the same proportion as the regional designation of PQS for that crab QS fishery. A person who would receive QS based on the legal landings in only one region, will receive QS with only that regional designation. A person who would receive QS with more than one regional designation for that crab QS fishery would have his or her QS holdings regionally adjusted on a pro rata basis as follows:

(i) Determine the ratio of the Initial PQS pool in the North and South regions.

(ii) Multiply the Initial QS pool by the ratio of North and South PQS. This will yield the target QS pool for each region.

(iii) Sum the QS for all persons who are eligible to receive North QS yielding the unadjusted North QS pool, and sum the QS for all persons who are eligible to receive South QS yielding the unadjusted South QS pool.

(iv) To calculate the amount of QS available for adjustment, subtract the amount of QS for persons receiving North only QS from the unadjusted North QS pool and subtract the amount of QS for persons receiving South only QS from the unadjusted South QS pool, as presented in the following equations:

(A) Unadj. North QS – North QS only = North QS for [North & South] QS holders.

(B) Unadj. South QS – South QS only = South QS for [North & South] QS holders.

(v) Determine which region becomes the gaining region if the target QS pool is greater than the unadjusted QS pool.

(vi) Subtract the gaining region unadjusted QS pool from the gaining region target QS pool to calculate the number of QS units that need to be applied to the gaining region. This amount is the Adjustment Amount as presented in the following equation:

Unadj. gaining region QS – Target gaining region QS pool = Adjustment Amount

(vii) Divide the Adjustment Amount by the unadjusted losing region QS pool for North and South QS holders. This yields the regional adjustment factor (RAF) for each person as presented in the following equation:

Adj. Amount/unadjusted losing region QS pool for [North & South] QS holders = RAF

(viii) For each person (p) who holds both North and South Region QS, the QS adjustment (QS Adj. (p)) to that person's Unadjusted losing region QS is expressed in the following equation as:

QS adj. p = Unadjusted losing region QS p × RAF

(ix) The QS adjustment for person (p) is made by subtracting the QS adjustment from that person's unadjusted losing region QS amount and added to that person's unadjusted gaining region QS. These adjustments will yield the regional adjustment QS amounts for that person.

(4) *Regional designation of Western Aleutian Islands golden king crab.* Fifty percent of the CVO QS that is issued in the WAG crab QS fishery will be initially issued with a West regional designation. The West regional designation applies to QS for delivery west of 174° W. longitude. The remaining 50 percent of the CVO QS initially issued for this fishery is not subject to regional designation (Undesignated QS). A person (p) who would receive QS based on the legal landings in only one region will receive QS with only that regional designation. A person who would receive QS with more than one regional designation for that crab QS fishery would have his or her QS holdings regionally adjusted on a pro rata basis as follows:

(i) The West QS pool is equal to 50 percent of the initial QS pool.

(ii) The Undesignated QS pool is equal to 50 percent of the initial QS pool.

(iii) Sum the QS for all persons who are eligible to receive West QS yielding the unadjusted West QS pool, and sum the QS for all persons who are eligible to receive undesignated QS yielding the unadjusted undesignated QS pool.

(iv) To calculate the amount of QS available for adjustment, subtract the amount of QS for persons receiving West only QS from the unadjusted West QS pool and subtract the amount of QS for persons receiving undesignated only QS from the unadjusted undesignated QS pool, as presented in the following equation:

(A) Unadj. West QS – West QS only = West QS for [West & Undesignated] QS holders.

(B) Unadj. Undesignated QS – Undesignated QS only = Undesignated QS for [West & Undesignated] QS holders.

(v) Subtract the gaining region Unadjusted QS pool from the gaining region Target QS pool to calculate the number of QS units that will need to be

applied to the gaining region. This amount is the Adjustment Amount as presented in the following equation:

$$\text{Target gaining region QS pool} - \text{unadjusted region QS} = \text{Adjustment Amount}$$

(vi) Divide the Adjustment Amount by the unadjusted losing region QS pool for West and Undesignated QS holders. This yields the regional adjustment factor (RAF) for each person as presented in the following equation:

$$\text{Adj. Amount/unadjusted losing region QS pool for West \& Undesignated QS holders} = \text{RAF}$$

(vii) For each person (p) who holds both unadjusted West and Undesignated Region QS, the QS adjustment (QS Adj. p) to that person's Unadjusted West QS is expressed in the following equation as:

$$\text{QS adj. p} = \text{Unadjusted West QS p} \times \text{RAF}$$

(viii) The QS adjustment for person (p) is made by subtracting the QS adjustment for that person's unadjusted losing region QS amount and subtracted from that person's unadjusted gaining region QS. These adjustments will yield the regional adjustment QS amounts for that person.

(5) *Issuance of converted CPO QS.* (i) For each crab fishing year, the Regional Administrator may issue converted CPO QS for the BBR or BSS crab QS fishery with a North Region designation to an entity described in paragraph (c)(5)(ii), (c)(5)(iii), or (c)(5)(iv) of this section if NMFS has approved an application for converted CPO QS/IFQ for that crab fishing year.

(ii) Entity A is comprised only of Yardarm Knot, Inc. (NMFS ID # 675).

(iii) Entity B is comprised only of Blue Dutch, LLC (NMFS ID # 3163).

(iv) Entity C is comprised only of Trident Seafoods, Inc. (NMFS ID # 8184).

(v) NMFS will issue Entity A, B, or C, described in paragraphs (c)(5)(ii) through (c)(5)(iv) of this section, one unit of converted CPO for each unit of CVO QS and 0.9 units of PQS indicated in an approved application for converted CPO QS/IFQ.

(vi) For each crab fishing year, the Regional Administrator will not issue

Fishery Conservation and Management

§ 680.40

CPO QS for the BBR or BSS crab QS fishery:

(A) To Entity A described in paragraph (c)(5)(ii) of this section that is greater than the amount of converted CPO QS that may be derived from the amount of PQS units with a North Region designation initially issued by NMFS to Yardarm Knot, Inc. (NMFS ID # 675), and any affiliates of Yardarm Knot, Inc., as listed on an annual application for converted CPO QS/IFQ for that crab fishing year;

(B) To Entity B described in paragraph (c)(5)(iii) of this section that is greater than the amount of converted CPO QS that may be derived from the amount of PQS units with a North Region designation initially issued by NMFS to Blue Dutch, LLC, (NMFS ID # 3163) under paragraph (e)(3) of this section and any affiliates of Blue Dutch, LLC, as listed on an annual application for annual application for converted CPO QS/IFQ for that crab fishing year; and

(C) To Entity C described in paragraph (c)(5)(iv) of this section that is greater than the amount of converted CPO QS that may be derived from the amount of CVO QS units with a North Region designation initially issued by NMFS to Trident Seafoods, Inc. (NMFS ID # 8184), and any affiliates of Trident Seafoods, Inc., as listed on an annual application for converted CPO QS/IFQ for that crab fishing year;

(vii) CPO IFQ derived from converted CPO QS may be issued to a crab harvesting cooperative only if the entity described in paragraph (c)(5)(ii), (c)(5)(iii), or (c)(5)(iv) of this section holding the converted CPO QS is a member of that crab harvesting cooperative.

(6) *Offloading requirements for CPO IFQ derived from converted CPO QS.* Any crab harvested under a CPO IFQ permit derived from converted CPO QS must be offloaded in the Bering Sea subarea north of 56°20' N. lat.

(d) *Crab PQS and Crab PQS Fisheries—*
(1) *General.* The Regional Administrator shall initially assign to qualified persons defined in paragraph (d)(3) of this section crab PQS specific to crab QS fisheries defined in paragraph (a)(1) of this section. The crab PQS amount issued will be based on total legal proc-

essing of crab made in those crab QS fisheries. PQS shall yield annual IPQ as defined under paragraph (j) of this section.

(2) *Regional designations.* For each crab QS fishery, PQS shall be initially regionally designated based on the legal processing that gave rise to the PQS as follows:

(i) *North PQS* if the processing that gave rise to the PQS for a crab QS fishery occurred in the Bering Sea subarea north of 56°20' N. lat.; or

(ii) *South PQS* if the processing that gave rise the PQS for a crab QS fishery did not occur in the North Region, and PQS allocated to the WAI crab QS fishery; or

(iii) *West PQS* for a portion of the PQS allocated to the WAG crab QS fishery subject to the provisions under paragraph (e)(2) of this section; or

(iv) *Undesignated.* Regional designations do not apply to:

(A) That portion of the WAG crab QS fishery that is not regionally designated as West Region PQS; and

(B) The EBT or WBT crab QS fishery.

(v) The specific regional designations that apply to PQS in each of the crab QS fisheries are described in paragraph (b)(2)(iii) of this section.

(3) *Qualified person,* for the purposes of PQS issuance, means a person, as defined at §679.2, who at the time of application for PQS is a U.S. citizen, or a U.S. corporation, partnership, association, or other entity, and who:

(i) Legally processed any crab QS species established in paragraph (a)(1) of this section during 1998 or 1999 as demonstrated on the official crab rationalization record; or

(ii) Did not legally process any crab QS species during 1998 or 1999 according to the official crab rationalization record, but who:

(A) Processed BSS crab QS species in each crab season for that fishery during the period from 1988 through 1997; and

(B) From January 1, 1996, through June 10, 2002, invested in a processing facility, processing equipment, or a vessel for use in processing operations, including any improvements made to existing facilities with a total expenditure in excess of \$1,000,000; or

(C) Is the person to whom the history of legal processing of crab has been transferred by the express terms of a written contract that clearly and unambiguously provides that such legal processing of crab has been transferred. This provision would apply only if that applicant for PQS:

(1) Legally processed any crab QS species established in paragraph (a)(1) of this section during 1998 or 1999, as demonstrated on the official crab rationalization record; or

(2) Received history of crab processing that was legally processed during 1998 or 1999, as demonstrated on the official crab rationalization record.

(iii) Qualified persons, or their successors-in-interest, must exist at the time of application for PQS.

(iv) A former partner of a dissolved partnership or a former shareholder of a dissolved corporation who would otherwise be a qualified person may apply for PQS in proportion to his or her ownership interest in the dissolved partnership or corporation.

(v) A person who has acquired a processing corporation, partnership, or other entity that has a history of legal processing of crab is presumed to have received by transfer all of that history of legal processing of crab unless a clear and unambiguous written contract establishes otherwise.

(4) *Qualification for initial allocation of PQS*—(i) *Years*. The qualifying years for each crab QS fishery are designated in Table 9 to this part.

(ii) *Ownership interest*. Documentation of ownership interest in a dissolved partnership or corporation, association, or other entity shall be limited to corporate documents (e.g., articles of incorporation) or notarized statements signed by each former partner, shareholder or director, and specifying their proportions of interest.

(iii) *Legal processing of crab* means, for the purpose of initial allocation of PQS, raw crab pounds processed in the crab QS fisheries designated under paragraph (a)(1) of this section in compliance with state and Federal permitting, landing, and reporting regulations in effect at the time of the landing. Legal processing excludes any deadloss, processing of crab harvested in a test fishery or under a scientific,

education, exploratory, or experimental permit, or under the Western Alaska CDQ Program.

(iv) *Documentation*. Evidence of legal processing shall be limited to State of Alaska fish tickets, except that:

(A) NMFS may use information from a State of Alaska Commercial Operators Annual Report, State of Alaska fishery tax records, or evidence of direct payment from a receiver of crab to a harvester if that information indicates that the buyer of crab differs from the receiver indicated on State of Alaska fish ticket records; however:

(B) Information on State of Alaska fish tickets shall be presumed to be correct for the purpose of determining evidence of legal processing of crab. An applicant will have the burden of proving the validity of information submitted in an application that is inconsistent with the information on the State of Alaska fish ticket.

(e) *Calculation of PQS allocation*—(1) *Computation for initial issuance of PQS*.

(i) The Regional Administrator shall establish the Total Processing Denominator (TPD) which represents the amount of legally processed raw crab pounds in each crab QS fishery in all qualifying years.

(ii) For each crab QS fishery, the percentage of the initial PQS pool that will be distributed to each qualified person shall be based on their percentage of the TPD according to the following procedure:

(A) Sum the raw crab pounds purchased for each person for all qualifying years.

(B) Divide the sum calculated in paragraph (e)(1)(ii)(A) of this section by the TPD. Multiply by 100. This yields a person's percentage of the TPD.

(C) Sum the TPD percentages of all persons.

(D) Divide the percentage for a person calculated in paragraph (e)(1)(ii)(B) of this section by the sum calculated in paragraph (e)(1)(ii)(C) of this section for all persons. This yields a person's percentage of the TPD.

(E) Multiply the amount calculated in paragraph (e)(1)(ii)(D) of this section by the PQS pool for that crab QS fishery as that amount is defined in Table 8 to this part.

Fishery Conservation and Management

§ 680.40

(F) Determine the percentages of legally processed crab that were processed in each region. The percentages calculated in paragraph (e)(1)(ii)(E) of this section are multiplied by the amount determined within each regional designation. Regional designations will apply to that PQS according to the provisions established in paragraphs (d)(2) and (e)(2) of this section.

(2) *Regional designation of Western Aleutian Islands golden king crab.* (i) Fifty percent of the PQS that is issued in the WAG crab QS fishery will be issued with a West regional designation. The West regional designation applies to PQS for processing west of 174° N. long. The remaining 50 percent of the PQS issued for this fishery is Undesignated region PQS.

(ii) A person will receive only West PQS if, at the time of application, that person owns a crab processing facility that is located in the West region. A person will receive West region and Undesignated Region PQS if, at the time of application, that person does not own a crab processing facility located in the West region. Expressed algebraically, for any person (p) allocated both West region PQS and undesignated region PQS the formula is as follows:

(A) $PQS_{West} = PQS \times 0.50$

(B) $PQS_{Und.} = PQS \times 0.50$

(C) $PQS_{West} \text{ for } PQS_{West} \text{ \& Und. holders} = PQS_{West} - PQS_{West \text{ only}}$

(D) $PQS_{West} \text{ for Person}_p \text{ West \& Und.} = PQS_p \times PQS_{West} \text{ for } PQS_{West} \text{ \& Und. holders} / (PQS_{West} \text{ for } PQS_{West} \text{ \& Und. holders} + PQS_{Und.})$

(E) $PQS_{Und.} \text{ for Person}_p = PQS_p - PQS_{West} \text{ for Person}_p$

(iii) For purposes of the allocation of PQS in the WAG crab fishery:

(A) Ownership of a processing facility is defined as:

(1) A sole proprietor; or

(2) A relationship between two or more entities in which a person directly or indirectly owns a 10 percent or greater interest in another, or a third entity directly or indirectly owns a 10 percent or greater interest in both.

(B) A processing facility is a shore-side crab processor or a stationary floating crab processor.

(3) *PQS issued to Blue Dutch, LLC.* (i) Pursuant to Public Law 109-241, NMFS issued 3,015,229 units of PQS for the

BBR crab QS fishery and 7,516,253 units of PQS for the BSS crab QS fishery.

(ii) PQS units issued to Blue Dutch, LLC, under paragraph (e)(3)(i) of this section were assigned a regional designation according to the procedures established in paragraph (b)(2)(iv) of this section.

(iii) PQS units issued to Blue Dutch, LLC, under paragraph (e)(3)(i) of this section may not be transferred to any other person.

(f) *Application for crab QS or PQS—(1) General.* The Regional Administrator will issue QS and/or PQS to an applicant if a complete application for crab QS or PQS is submitted by or on behalf of the applicant during the specified application period, and if the applicant meets all criteria for eligibility as specified at paragraphs (b)(3) and (d)(3) of this section.

(i) The Regional Administrator will send application materials to the person identified by NMFS as an eligible applicant based on the official crab rationalization record. An application form may also be obtained from the Internet or requested from the Regional Administrator.

(ii) An application for crab QS or PQS may be submitted to NMFS as instructed on the application. Forms are available on the NMFS Alaska Region website at <http://alaskafisheries.noaa.gov>, or by contacting NMFS at 800-304-4846, Option 2.

(iii) An application that is post-marked, faxed, or hand delivered after the ending date for the application period for the Crab QS Program specified in the FEDERAL REGISTER will be denied.

(2) *Contents of application.* A complete application for crab QS or PQS must be signed by the applicant, or the individual representing the applicant, and include the following, as applicable:

(iii) *Fishery and QS/PQS type.* Indicate the crab QS fishery and type of QS/PQS for which applying.

(iv) *CVO or CPO QS.* (A) For vessels whose catch histories are being claimed for purposes of the crab QS program, enter the following information: name of the vessel, ADF&G vessel registration number, USCG documentation number, moratorium crab permit number(s), and crab LLP license number(s) held by the applicant and used on that vessel, qualifying years or seasons fished by fishery, and dates during which those permits were used on that vessel.

(B) Indicate (YES or NO) whether applicant is applying for QS for any crab QS fishery for which the applicant purchased an LLP license prior to January 1, 2002, in order to remain in that fishery. If YES, include LLP crab license number, and the vessel's name, ADF&G vessel registration number, and USCG documentation number.

(C) If the answer to paragraph (f)(2)(v)(A) or paragraph (f)(2)(v)(B) of this section is YES, enter State of Alaska Interim Use Permit number and the name, ADF&G vessel registration number, and USCG documentation number of vessel on which harvesting occurred. Select the qualifying years or seasons fished by QS fishery, and the dates during which those permits were used on that vessel;

(D) Indicate (YES or NO) whether a person is applying as the successor-in-

Fishery Conservation and Management

§ 680.40

interest to an eligible applicant. If YES, attach to the application documentation proving the person's status as a successor-in-interest and evidence of the death of the eligible applicant.

(vi) *Processor QS.* (A) Indicate (YES or NO) whether applicant processed any of the crab species included in the Crab QS program (see Table 1 to this part) in 1998 or 1999.

(B) If answer to paragraph (f)(2)(vi)(A) of this section is YES, enter the facility name and ADF&G processor code for each processing facility where crab, from any of the crab QS fisheries listed in Table 1 of this part, were processed and the qualifying years or seasons by fishery for which applicant is claiming eligibility for PQS.

(C) If answer to paragraph (f)(2)(vi)(A) of this section is NO, indicate (YES or NO) whether applicant is claiming eligibility under hardship provisions;

(D) If answer to paragraph (f)(2)(vi)(C) of this section is YES, both of the following provisions must apply to a processor to obtain hardship provisions. Attach documentation of the following circumstances:

(2) Applicant invested a total expenditure in excess of \$1,000,000 for any processing facility, processing equipment, or a vessel for use in processing operations, including any improvements made to existing facilities from January 1, 1996, to June 10, 2002;

(E) Indicate (YES or NO) whether applicant has entered into a Community Right of First Refusal (ROFR) contract consistent with paragraph (f)(3) of this section pertaining to the transfer of any PQS and/or IPQ subject to ROFR and issued as a result of this application.

(G) Any other information deemed necessary by the Regional Administrator.

(H) If applicant is applying to receive PQS for the WAG crab QS fishery, indicate (YES or NO) whether applicant owns a crab processing facility in the West region (see paragraph (b)(2) (iii) of this section).

(vii) *Applicant signature and certification.* The applicant must sign and date the application certifying that all information is true, correct, and complete to the best of his/her knowledge and belief. If the application is completed by an authorized representative, then authorization must accompany the application.

(3) *Notice and contract provisions for community right of first refusal (ROFR) for initial issuance of PQS.* (i) To be complete, an application for PQS from a person based on legal processing that occurred in an ECC, other than Adak, must also include an affidavit signed by the applicant stating that notice has been provided to the ECC of the applicant's intent to apply for PQS. If the ECC designates an entity to represent it in the exercise of ROFR under §680.41(1), then the application also must include an affidavit of completion of a contract for ROFR that includes the terms enacted under section 313(j) of the Magnuson-Stevens Act. The affidavit must be signed by the applicant for initial allocation of PQS and the ECC entity designated under §680.41(1)(2). A list of contract terms is available from the NMFS Alaska Region Web site at <http://www.fakr.noaa.gov>. A copy of these contract terms also will be made available by mail or facsimile by contacting the Regional Administrator at 907-586-7221.

(ii) To be complete, an application for crab QS or PQS from a person based on legal processing that occurred in the GOA north of a line at 56°20' N. lat. must also include an affidavit signed by the applicant stating that notice has been provided to the City of Kodiak and Kodiak Island Borough of the applicant's intent to apply for PQS. If the City of Kodiak and Kodiak Island Borough designate an entity to represent it in the exercise of ROFR under §680.41(1), then the application also must include an affidavit of completion of a contract for ROFR that includes

the terms enacted under the Consolidated Appropriations Act of 2004 (Pub. L. 108–199) and that is signed by the applicant for initial allocation of PQS and the ECC entity designated by the City of Kodiak and Kodiak Island Borough under §680.41(1)(2). A list of contract terms is available from the NMFS Alaska Region Web site at <http://www.fakr.noaa.gov>. A copy of these contract terms also will be made available by mail or facsimile by contacting the Regional Administrator at (907) 586–7221.

(4) *Application evaluation.* The Regional Administrator will evaluate Applications for Crab QS or PQS submitted during the specified application period and compare all claims in an application with the information in the official crab rationalization record. Claims in an application that are consistent with information in the official crab rationalization record will be accepted by the Regional Administrator. Inconsistent claims in the Applications for Crab QS or PQS, unless verified by documentation, will not be accepted. An applicant who submits inconsistent claims, or an applicant who fails to submit the information specified in paragraph (f)(2) of this section, will be provided a single 30-day evidentiary period as provided in paragraph (f)(5) of this section to submit the specified information, submit evidence to verify his or her inconsistent claims, or submit a revised application with claims consistent with information in the official crab rationalization record. An applicant who submits claims that are inconsistent with information in the official crab rationalization record has the burden of proving that the submitted claims are correct.

(5) *Additional information or evidence.* The Regional Administrator will evaluate additional information or evidence to support an applicant's inconsistent claims submitted prior to or within the 30-day evidentiary period. If the Regional Administrator determines that the additional information or evidence meets the applicant's burden of proving that the inconsistent claims in his or her application are correct, the official crab rationalization record will be amended and the information will be used in determining whether the appli-

cant is eligible for QS or PQS. However, if the Regional Administrator determines that the additional information or evidence does not meet the applicant's burden of proving that the inconsistent claims in his or her application are correct, the applicant will be notified by an IAD, that the applicant did not meet the burden of proof to change the information in the official crab rationalization record.

(6) *30-day evidentiary period.* The Regional Administrator will specify by letter a single 30-day evidentiary period during which an applicant may provide additional information or evidence to support the claims made in his or her application, or to submit a revised application with claims consistent with information in the official crab rationalization record, if the Regional Administrator determines that the applicant did not meet the burden of proving that the information on the application is correct through evidence provided with the application. Also, an applicant who fails to submit information as specified in paragraphs (b)(3)(iii) and (b)(3)(iv) of this section will have 30 days to provide that information. An applicant will be limited to one 30-day evidentiary period per application. Additional information or evidence, or a revised application, received after the 30-day evidentiary period specified in the letter has expired will not be considered for purposes of the IAD.

(7) *Right of First Refusal (ROFR) contract provisions.* If an ECC designates an entity to represent it in the exercise of ROFR under §680.41(1), then the Regional Administrator will not prepare an IAD on unverified claims or issue PQS until an affidavit is received from the applicant confirming the completion of a civil contract for ROFR as required under section 313(j) of the Magnuson-Stevens Act.

(8) *Initial administrative determinations (IAD).* The Regional Administrator will prepare and send an IAD to the applicant following the expiration of the 30-day evidentiary period if the Regional Administrator determines that the information or evidence provided by the applicant fails to support the applicant's claims and is insufficient to rebut the presumption that the official

crab rationalization record is correct, or if the additional information, evidence, or revised application is not provided within the time period specified in the letter that notifies the applicant of his or her 30-day evidentiary period. The IAD will indicate the deficiencies in the application, including any deficiencies with the information, the evidence submitted in support of the information, or the revised application. The IAD will also indicate which claims cannot be approved based on the available information or evidence. An applicant who receives an IAD may appeal pursuant to §679.43. An applicant who avails himself or herself of the opportunity to appeal an IAD will not receive crab QS or PQS until after the final resolution of that appeal in the applicant's favor.

(g) *Annual allocation of IFQ*—(1) *General*. IFQ is assigned based on the underlying QS. Except for CVC and CPC QS permit holders who fail to meet the participation requirements at paragraph (g)(2) of this section, the Regional Administrator shall assign crab IFQs to each person who holds QS and submits a complete annual application for crab IFQ/IPQ permit as described under §680.4. IFQ will be assigned to a crab QS fishery with the appropriate regional designation, QS sector, and IFQ class. This amount will represent the maximum amount of crab that may be harvested from the specified crab QS fishery by the person to whom it is assigned during the specified crab fishing year, unless the IFQ assignment is changed by the Regional Administrator because of an approved transfer, revoked, suspended, or modified under 15 CFR part 904.

(2) *Eligibility for CVC and CPC IFQ*. For each crab fishing year after June 30, 2018, individuals holding CVC or CPC QS permits must meet the participation requirements set forth in paragraphs (g)(2)(i) or (g)(2)(ii) of this section in order to receive CVC or CPC IFQ unless the CVC or CPC QS permit holder meets the exemption provided in paragraph (g)(2)(iii) of this section.

(i) The individual has participated as crew in at least one delivery of crab in any CR crab fishery during the three crab fishing years preceding the crab fishing year for which the individual is

filing an annual crab IFQ permit application. If the individual holds C share QS in a single CR crab fishery and that CR crab fishery is closed to fishing for an entire crab fishing year, NMFS will exclude that crab fishing year when determining whether the individual has satisfied this participation requirement.

(ii) The individual was an initial recipient of CVC or CPC QS and participated as crew in at least 30 days of fishing in a commercial fishery managed by the State of Alaska or in a U.S. commercial fishery in the U.S. Exclusive Economic Zone off Alaska during the three crab fishing years preceding the crab fishing year for which the individual is filing an annual crab IFQ permit application. Individuals may combine participation as crew in State and Federal commercial fisheries to meet this requirement. If the individual holds C share QS in a single CR crab fishery and that CR crab fishery is closed to fishing for an entire crab fishing year, NMFS will exclude that crab fishing year when determining whether the individual has satisfied this participation requirement.

(iii) All of the CVC or CPC QS permits held by the individual were acquired using the eligibility criteria in 50 CFR 680.41(c)(1)(vii)(B) and the individual has held those CVC or CPC QS permits for less than three full crab fishing years.

(3) *Withholding of CVC or CPC IFQ*. Beginning July 1, 2018, the Regional Administrator will withhold issuance of CVC or CPC IFQ to an individual who has not met the participation requirements set forth in paragraph (g)(2) of this section. The Regional Administrator will withhold an individual's CVC IFQ or CPC IFQ in accordance with the procedures set forth in paragraphs (g)(3)(i) and (ii) of this section.

(i) *Notice of C Share IFQ Withholding*. The Regional Administrator will issue a Notice of C Share IFQ Withholding to an individual holding CVC or CPC QS if, after reviewing the CVC or CPC QS holder's Application for Annual Crab IFQ Permit, the Regional Administrator determines that the CVC or CPC QS holder has failed to meet the participation requirements in paragraph (g)(2) of this section. A CVC or CPC QS

holder who receives a Notice of C Share IFQ Withholding will have 30 days to provide the Regional Administrator with information demonstrating participation as crew that meets the requirements of paragraph (g)(2) of this section.

(ii) *Initial administrative determination (IAD)*. The Regional Administrator will prepare and send an IAD to the CVC or CPC QS holder following the expiration of the 30-day evidentiary period if the Regional Administrator determines that the information or evidence provided by the CVC or CPC QS holder fails to demonstrate participation as crew and is insufficient to rebut the information included in the CVC or CPC QS holder's Applications for Annual Crab IFQ Permit, or if the additional information or evidence is not provided within the time period specified in the Notice of C Share IFQ Withholding. The IAD will explain the basis for the withholding of IFQ. A CVC or CPC QS holder who receives an IAD withholding IFQ may appeal under the appeals procedures set forth at 15 CFR part 906. A CVC or CPC QS holder who avails himself or herself of the opportunity to appeal an IAD withholding IFQ will not receive crab IFQ until after the final resolution of that appeal in the QS holder's favor.

(h) *Calculation of annual IFQ allocation*—(1) *General*. (i) The annual allocation of IFQ to any person (p) in any crab QS fishery (f) will be based on the TAC of crab for that crab QS fishery less the allocation to the Western Alaska CDQ Program ("CDQ Reserve") and Western Aleutian Islands golden king crab fishery. Expressed algebraically, the annual IFQ allocation formula is as follows:

(A) $IFQ\ TAC_f = TAC_f - (CDQ\ Reserve_f + Allocation\ for\ the\ Western\ Aleutian\ Island\ golden\ king\ crab\ fishery)$

(B) $IFQ_{pf} = IFQ\ TAC_f \times (QS_{pf}/QS\ pool_f)$

(ii) *CVO, CPO, CVC, and CPC IFQ*. Each year, 3 percent of the IFQ TAC_f will be allocated as CVC IFQ or CPC IFQ and 97 percent of the IFQ TAC_f will be allocated as CVO IFQ or CPO IFQ. Expressed algebraically, the formulas for the annual IFQ allocations are as follows:

(A) $CVC/CPC\ IFQ_f = IFQ\ TAC_f \times 0.03$

(B) $CVO/CPO\ IFQ_f = IFQ\ TAC_f \times 0.97$

(2) *Class A/B IFQ*. (i) QS shall yield Class A or Class B IFQ if:

(A) Initially assigned to the CVO QS sector; or

(B) Transferred to the CVO QS sector from the CPO QS sector.

(ii) The Class A/B IFQ TAC is the portion of the TAC assigned as Class A/B IFQ under paragraphs (h)(2)(i)(A) and (B) of this section.

(3) *Class A/B IFQ issuance ratio*. (i) Class A and Class B IFQ shall be assigned on an annual basis such that the total amount of Class A and B IFQ assigned in a crab fishing year in each crab QS fishery for each region will be in a ratio of 90 percent Class A IFQ and 10 percent Class B IFQ.

(ii) The Regional Administrator will determine the amount of Class A and Class B IFQ that is assigned to each QS holder. The Class A IFQ is calculated by allocating 90 percent of the Class A/B IFQ TAC (TAC_a) to Class A IFQ. A portion of the IFQ TAC_a is allocated to persons eligible to hold only Class A IFQ (TAC_a only), the remaining IFQ TAC (TAC_r) is allocated for harvest by a person (p) eligible to receive both Class A IFQ and Class B IFQ. Expressed algebraically, for an individual person (p) eligible to hold both Class A and Class B IFQ the annual allocation formula is as follows:

(A) $TAC_a = Class\ A/B\ IFQ\ TAC \times 0.90$

(B) $TAC_r = TAC_a - TAC_{a\ only}$

(C) $IFQ_{ap} = TAC_r / (Class\ A/B\ IFQ\ TAC - TAC_{a\ only}) \times IFQ_p$

(D) $IFQ_{bp} = IFQ_p - IFQ_{ap}$

(4) *Class A IFQ and Class B IFQ issuance to IPQ holders*. If a person holds IPQ and IFQ, then that person will be issued Class A IFQ only for the amount of IFQ equal to the amount of IPQ held by that person. Any remaining IFQ held by that person will be issued as Class A and Class B IFQ in a ratio so that the total Class A and Class B IFQ issued in that crab QS fishery is issued as 90 percent Class A IFQ and 10 percent Class B IFQ;

(5) *Class A IFQ and Class B IFQ issuance to persons affiliated with IPQ holders*. If an IPQ holder holds IPQ in excess of the amount of IFQ held by that person, all IFQ holders affiliated with that IPQ holder will receive only Class A IFQ in proportion to the amount of IFQ held by those affiliated

Fishery Conservation and Management

§ 680.40

persons relative to that amount of IPQ held by that IPQ holder. Any remaining IFQ held by persons affiliated with the IPQ holder will be issued as Class A and Class B IFQ in a ratio so that the total Class A and Class B IFQ issued in that fishery is issued as 90 percent Class A IFQ and 10 percent Class B IFQ.

(6) *CVC IFQ.* (i) QS that is initially allocated to the CVC QS sector shall yield CVC IFQ.

(ii) CVC IFQ is not subject to regional designation.

(7) *CPO IFQ.* (i) QS that is initially allocated to the CPO QS sector shall yield CPO IFQ.

(ii) CPO IFQ is not subject to regional designation.

(8) *CPC IFQ.* (i) QS that is initially allocated to the CPC QS sector shall yield CPC IFQ.

(ii) CPC IFQ is not subject to regional designation.

(9) *QS amounts for IFQ calculation.* For purposes of calculating IFQ for any crab fishing year, the amount of a person's QS and the amount of the QS pool for any crab QS fishery will be the amounts on record with the Alaska Region, NMFS, at the time of calculation.

(10) *Class A IFQ.* (i) The amount of Class A IFQ issued in excess of the IPQ issuance limits for the BSS or BBR crab QS fisheries, as described in paragraph (j)(3) of this section, will be issued to all Class A IFQ recipients on a pro rata basis in proportion to the amount of Class A IFQ held by each person.

(ii) Any amount of Class A IFQ that is issued in excess of the IPQ issuance limits for the BSS or BBR crab QS fisheries, as described in paragraph (j)(3) of this section, is not required to be delivered to an RCR with unused IPQ.

(i) *Annual allocation of IPQ.* IPQ is assigned based on the underlying PQS. The Regional Administrator shall assign crab IPQs to each person who submits a complete annual application for crab IFQ/IPQ permit as described under §680.4. Each assigned IPQ will be specific to a crab QS fishery with the appropriate regional designation. This amount will represent the maximum amount of crab that may be received from the specified crab QS fishery by the person to whom it is assigned during the specified crab fishing year, un-

less the IPQ assignment is changed by the Regional Administrator because of an approved transfer, revoked, suspended, or modified under 15 CFR part 904.

(j) *Calculation of annual IPQ allocation—(1) General.* The annual allocation of TAC to PQS and the resulting IPQ in any crab QS fishery (f) is the Class A IFQ TAC (TAC_a). A person's annual IPQ is based on the amount of PQS held by a person (PQS_p) divided by the PQS pool for that crab QS fishery for all PQS holders (PQS pool_f). Expressed algebraically, the annual IPQ allocation formula is as follows:

$$IPQ_{pf} = TAC_{af} \times PQS_{pf} / PQS \text{ pool}_f$$

(2) *PQS amounts for IPQ calculation.* For purposes of calculating IPQs for any crab fishing year, the amount of a person's PQS and the amount of the PQS pool for any crab PQS fishery will be the amounts on record with the Alaska Region, NMFS, at the time of calculation.

(3) *IPQ issuance limits.* The amount of IPQ issued in any crab fishing year shall not exceed:

(i) 157,500,000 raw crab pounds (71,441.5 mt) in the BSS crab QS fishery; and

(ii) 18,000,000 raw crab pounds (8,164.7 mt) in the BBR crab QS fishery.

(4) *IPQ issued to Blue Dutch, LLC—(i) BBR IPQ.* For each crab fishing year that the total allowable catch for BBR CR crab is greater than 15,732,480 lb (7,136.2 mt), NMFS will issue IPQ for the 3,015,229 units of PQS issued to Blue Dutch, LLC, pursuant to Public Law 109-241.

(ii) *BSS IPQ.* For each crab fishing year that the total allowable catch for BSS CR crab is greater than 21,350,640 lb (9,684.6 mt), NMFS will issue IPQ for the 7,516,253 units of PQS issued to Blue Dutch, LLC, pursuant to Public Law 109-241.

(k) *Timing for issuance of IFQ or IPQ.* IFQ and IPQ will be issued once the TAC for that crab QS fishery in that crab fishing year has been specified by the State of Alaska. All IFQ and IPQ for all persons will be issued once for a crab fishing year for a crab QS fishery. QS issued after NMFS has issued annual IFQ for a crab QS fishery for a crab fishing year will not result in IFQ

§ 680.41

50 CFR Ch. VI (10–1–23 Edition)

for that crab QS fishery for that crab fishing year.

(1) *Harvesting and processing privilege.* QS and PQS allocated or permits issued pursuant to this part do not represent either an absolute right to the resource or any interest that is subject to the “takings” provision of the Fifth Amendment of the U.S. Constitution. Rather, such QS, PQS, or permits represent only a harvesting or processing privilege that may be revoked or amended pursuant to the Magnuson-Stevens Act and other applicable law. IPQs do not create a right, title, or interest in any crab until that crab is purchased from a fisherman.

(m) *Participation requirements for retention of CVC QS and CPC QS.* (1) Beginning July 1, 2019, and each crab fishing year thereafter, individuals allocated CVC QS or CPC QS must meet the participation requirements set forth in paragraphs (m)(2)(i) or (m)(2)(ii) of this section in order to retain their CVC QS or CPC QS unless the CVC or CPC QS holder meets the exemption provided in paragraph (m)(5) of this section.

(2)(i) The individual has participated as crew in at least one delivery of crab in any CR crab fishery during the previous four consecutive crab fishing years. If the individual holds C share QS in a single CR crab fishery and that CR crab fishery is closed to fishing for an entire crab fishing year, NMFS will exclude that crab fishing year when determining whether the individual has satisfied this participation requirement.

(ii) The individual was an initial recipient of CVC QS or CPC QS and participated as crew in at least 30 days of fishing in a commercial fishery managed by the State of Alaska or in a U.S. commercial fishery in the U.S. Exclusive Economic Zone off Alaska during the previous four consecutive crab fishing years. Individuals may combine participation as crew in State and Federal commercial fisheries to meet this requirement. If the individual holds C share QS in a single CR crab fishery and that CR crab fishery is closed to fishing for an entire crab fishing year, NMFS will exclude that crab fishing year when determining whether the in-

dividual has satisfied this participation requirement.

(3) An individual issued a CVC QS or CPC QS permit may include information demonstrating compliance with the participation requirements in paragraph (m)(2) of this section with the individual’s annual Application for Crab IFQ.

(4) If an individual issued a CVC QS or CPC QS permit fails to meet the participation requirements in paragraph (m)(2) of this section or fails to qualify for the exemption in paragraph (m)(5) of this section, NMFS will revoke all of the individual’s CVC QS or CPC QS in accordance with § 680.43.

(5) All of the CVC or CPC QS permits held by the individual were acquired using the eligibility criteria in § 680.41(c)(1)(vii)(B) and the individual has held those CVC or CPC QS permits for less than four full crab fishing years.

§ 680.41 Transfer of QS, PQS, IFQ and IPQ.

(a) *General.* (1) Transfer of crab QS, PQS, IFQ, or IPQ means any transaction, approved by NMFS, requiring QS or PQS, or the use thereof in the form of IFQ or IPQ, to pass from one person to another, permanently or for a fixed period of time, except that:

(2) A crab IFQ hired master permit issued by NMFS, as described in § 680.4, is not a transfer of crab QS or IFQ; and

(3) The use of IFQ assigned to a crab harvesting cooperative and used within that cooperative is not a transfer of IFQ.

(b) *Transfer applications—*(1) *Application.* An application is required to transfer any amount of QS, PQS, IFQ, or IPQ. A transfer application will not be approved until the necessary eligibility application has been submitted and approved by NMFS in accordance with paragraph (c) of this section. The Regional Administrator will not approve any transfers of QS, PQS, IFQ, or IPQ in any crab QS fishery from June

Fishery Conservation and Management

§ 680.41

15 until either the date of the issuance of IFQ or IPQ for that crab QS fishery, or the date on which the State of Alaska announces that a crab QS fishery will not open for that crab fishing year.

(2) *Notification of application approval or disapproval.* Persons submitting any application for approval under §680.41 will receive notification of the Regional Administrator’s decision to approve or disapprove the application, and if applicable, the reason(s) for disapproval.

(3) *Reasons for disapproval.* Reasons for disapproval of an application include, but are not limited to:

- (i) Lack of U.S. citizenship, where U.S. citizenship is required;

- (iii) An incomplete application, including fees and an EDR, if required;
- (iv) An untimely application; or

(4) QS, PQS, IFQ, or IPQ accounts. (i) QS, PQS, IFQ, or IPQ accounts affected by a transfer approved by the Regional

Administrator will change on the date of approval.

(ii) For non-electronic submittals, any necessary IFQ or IPQ permits will be sent with the notification of approval if the receiver of the IFQ or IPQ permit has completed an annual application for crab IFQ or IPQ permit for the current fishing year as required under §680.4.

(iii) For electronic submittals, the parties to the transfer would access and print approvals and permits online.

(5) *Submittal.* Submit applications and other documents to NMFS as instructed on the application. Forms are available on the NMFS Alaska Region website at <http://alaskafisheries.noaa.gov>, or by contacting NMFS at: 800-304-4846, Option 2.

(d) *Transfer of CVO, CPO, CVC, CPC QS or PQS*—(1) *General.* PQS or QS may be transferred, with approval of the Regional Administrator, to persons qualified to receive PQS or QS by transfer. However, the Regional Administrator will not approve a transfer of any type of PQS or QS that would cause a person to exceed the maximum amount of PQS or QS allowable under the use limits provided for in § 680.42, except as provided for under paragraph (f) of this section.

(2) *CVO QS.* CVO QS may be transferred to any person eligible to receive CVO or CPO QS as defined under paragraph (c) of this section.

The Regional Administrator will not assign IFQ or IPQ resulting from the restricted QS or PQS to any person. IFQ or IPQ with restrictions may not

§ 680.41

50 CFR Ch. VI (10–1–23 Edition)

be used for harvesting or processing species covered under the CR program. The QS, PQS, IFQ or IPQ will remain restricted until:

(1) The person who received the QS, PQS, IFQ or IPQ with restrictions meets the eligibility requirements of this section and the Regional Administrator approves an application for eligibility for that person; or

(2) The Regional Administrator approves the application for transfer from the person who received the QS, PQS, IFQ or IPQ with restrictions to a person who meets the eligibility requirements of this section.

(g) *Survivorship transfer privileges.* (1) On the death of an individual who holds QS or PQS, the surviving spouse or, in the absence of a surviving spouse, a beneficiary designated pursuant to paragraph (g)(3) of this section, receives all QS, PQS and IFQ or IPQ held by the decedent by right of survivorship, unless a contrary intent was expressed by the decedent in a will. The Regional Administrator will approve an application for transfer to the surviving spouse or designated beneficiary when sufficient evidence has been provided to verify the death of the individual.

(2) A QS or PQS holder may provide the Regional Administrator with the name of the designated beneficiary from the QS or PQS holder's immediate family to receive survivorship transfer privileges in the event of the QS or PQS holder's death and in the absence of a surviving spouse.

(3) The Regional Administrator will approve, for 3 calendar years following the date of the death of an individual, an Application for transfer of crab QS/IFQ or PQS/IPQ from the surviving spouse or, in the absence of a surviving spouse, a beneficiary from the QS or PQS holder's immediate family designated pursuant to this section, to a person eligible to receive IFQ or IPQ under the provisions of this section, notwithstanding the limitations on transfers of IFQ and IPQ in this section and the use limitations under § 680.42.

(h) *Applications for transfer—(1) Application for transfer of crab IFQ.* NMFS will process a request for transfer of crab individual fishing quota (IFQ) provided that a paper application is com-

pleted, with all information fields accurately filled in, and all required additional documentation is attached. The transferor's and the transferee's designated representatives must sign and date the application certifying that all information is true, correct, and complete. The transferor's designated representative must submit the paper application as indicated on the application.

(2) *Application for transfer of crab IPQ—(i) Completed application.* NMFS will process a request for transfer of crab individual processor quota (IPQ) provided that a paper or electronic request form is completed, with all information fields accurately filled in, and all required additional documentation is attached.

(iii) *Certification of transferee—(A) Non-electronic submittal.* The transferee's designated representative must sign and date the application certifying that all information is true, correct, and complete.

(B) *Electronic submittal.* The transferee's designated representative must log into the system and accept the transfer request as indicated on the computer screen. By using the transferee's NMFS ID, password and Transfer Key and submitting the transfer request, the designated representative certifies that all information is true, correct, and complete.

(3) *Application for transfer of crab QS or PQS.* NMFS will process a request for transfer of crab quota share (QS) or

Fishery Conservation and Management

§ 680.41

crab processor quota share (PQS) provided that a paper request form is completed and notarized, with all information fields accurately filled in, and all required additional documentation is attached. The transferor's and the transferee's designated representatives must sign and date the application certifying that all information is true, correct, and complete.

(i) *Approval criteria for an Application for transfer of crab QS/IFQ or PQS/IPQ.* Except as provided in paragraph (f) of this section, an application for transfer of QS/IFQ or PQS/IPQ will not be approved until the Regional Administrator has determined that:

(1) The person applying to receive the QS, PQS, IFQ or IPQ meets the requirements of eligibility in paragraph (c) of this section;

(2) The person applying for transfer and the person applying to receive QS or IFQ/IPQ have their signatures on the application;

(a) *QS and IFQ use caps*—(1) *General*. Separate and distinct QS and IFQ use caps apply to all QS and IFQ categories pertaining to a given crab QS fishery with the following provisions:

(i) A person who receives an initial allocation of QS that exceeds the use cap listed in paragraph (a)(2) of this section may not receive QS by transfer unless and until that person's holdings are reduced to an amount below the use cap.

(ii) A person will not be issued QS in excess of the use cap established in this section based on QS derived from landings attributed to an LLP license obtained via transfer after June 10, 2002 unless:

(A) The person applies to receive QS based on an LLP transferred after June 10, 2002 but prior to November 24, 2004, and

(B) The person will receive the amount of QS associated with that transferred LLP in excess of the use cap established in this section for a crab QS fishery solely because of the adjustment to legal landings available for QS allocation resulting from the BSAI Crab Capacity Reduction Program.

(iii) QS and IFQ use caps shall be based on the initial QS pools used to determine initial allocations of QS.

(2) Except for non-individual persons who hold PQS, as provided for in paragraph (a)(1)(ii) of this section, or a CDQ group, as provided for in paragraph (a)(3) of this section, a person, individually or collectively, may not:

(3) A CDQ Group, individually or collectively, may not:

(i) Hold QS in excess of more than the amounts of QS specified in the following table:

Fishery	CDQ CVO/CPO Use Cap in QS Units

(4) A person who is not an individual and who holds PQS may not:

(i) Hold QS in excess of the amounts specified in the following table:

50 CFR Ch. VI (10–1–23 Edition)

Fishery	CVO/CPO Use Cap in QS Units
(A) 5.0 percent of the initial QS pool for BBR	19,400,000

(iii) A non-individual person that holds PQS, and all affiliates of that person, is limited to a QS and IFQ use cap that is calculated based on the sum of all QS or IFQ held by that PQS holder and all QS or IFQ held by any affiliate of the PQS holder.

(5) IFQ that is used by a crab harvesting cooperative is not subject to the use caps in this paragraph (a) except as provided for in paragraph (a)(7) of this section.

(6) Non-individual persons holding QS will be required to provide, on an annual basis, a list of persons with an ownership interest in the non-individual QS holder. This list of owners shall be provided to the individual level and will include the percentage of ownership held by each individual. This annual submission of information must be submitted as part of the complete annual application for crab IFQ/IPQ permit.

(7) In a calendar year, an entity as described in §680.40(c)(5)(ii), (c)(5)(iii), or (c)(5)(iv), may not use more than 1,000,000 lb (453.6 mt) of IFQ derived from converted CPO QS in the BBR or BSS crab QS fisheries.

(b) *PQS and IPQ Use Caps.* (1) A person may not:

(i) Hold more than 30 percent of the initial PQS pool in any crab QS fishery unless that person received an initial

Fishery Conservation and Management

§ 680.42

allocation of PQS in excess of this limit. A person will not be issued PQS in excess of the use caps established in this section based on PQS derived from the transfer of legal processing history after June 10, 2002.

(ii) Use IPQ in excess of the amount of IPQ that results from the PQS caps in paragraph (b)(1)(i) of this section, unless that IPQ is:

(A) Derived from PQS that was received by that person in the initial allocation of PQS for that crab QS fishery, or

(B) Subject to an exemption for that IPQ pursuant to § 680.4(p).

(2) A person may not use more than 60 percent of the IPQ issued in the BSS crab QS fishery with a North region designation during a crab fishing year except that a person who:

(i) Holds IPQ; and

(ii) Has a 10 percent or greater direct or indirect ownership interest in the shoreside crab processor or stationary floating crab processor where that IPQ crab is processed will not be considered to use any IPQ in the BSS crab QS fishery with a North region designation if that IPQ meets the requirements described in paragraph (b)(7) of this section.

(3) Non-individual persons holding PQS will be required to provide, on an annual basis, a list of persons with an ownership interest in the non-individual PQS holder. This list of owners shall be provided to the individual level and will include the percentage of ownership held by each individual. This annual submission of information must be submitted as part of the complete annual application for crab IFQ/IPQ permit. A person will be considered to be a holder of PQS for purposes of applying the PQS use caps in this paragraph if that person:

(i) Is the sole proprietor of an entity that holds PQS; or

(ii) Is not a CDQ group and directly or indirectly owns a 10 percent or greater interest in an entity that holds PQS.

(iii) A person that is not a CDQ group and holds PQS is limited to a PQS use cap that is calculated based on the sum of all PQS held by that PQS holder and all PQS held by any affiliate of the PQS holder. A CDQ group that holds

PQS is limited to a PQS use cap that is calculated based on the sum of all PQS held, individually or collectively, by that CDQ group.

(iv) A person that is not a CDQ group and holds IPQ is limited to an IPQ use cap that is calculated based on the sum of all IPQ held by that IPQ holder and all IPQ held by any affiliate of the IPQ holder. A CDQ group that holds IPQ is limited to an IPQ use cap that is calculated based on the sum of all IPQ held, individually or collectively, by that CDQ group.

(4) Before July 1, 2007, IPQ for the BSS, BBR, PIK, SMB, and EAG crab QS fisheries may not be used to process crab derived from PQS based on activities in an ECC, except in the geographic boundaries established in paragraph (b)(4)(iv) of this section, except that, before July 1, 2007:

(i) Ten percent of the IPQs that are issued for a crab QS fishery or an amount of IPQ that yields up to 500,000 raw crab pounds (226.7 mt) on an annual basis, whichever is less, may be leased for use in processing crab outside that ECC. The amount of IPQ that is issued on an annual basis for use in that ECC and the amount that may be leased outside that ECC will be established annually and will be divided on a pro rata basis among all PQS permit holders issued IPQ for use in that ECC for that year.

(ii) IPQ in excess of the amounts specified in paragraph (c)(7)(i) of this section may be used outside the ECC for which that IPQ is designated if an unavoidable circumstance prevents crab processing within that ECC. For purposes of this section, an unavoidable circumstance exists if the specific intent to conduct processing for a crab QS species in that ECC was thwarted by a circumstance that was:

(A) Unavoidable;

(B) Unique to the IPQ permit holder, or to the processing facility used by the IPQ permit holder in that ECC;

(C) Unforeseen and reasonably unforeseeable to the IPQ permit holder;

(D) The circumstance that prevented the IPQ permit holder from processing crab in that ECC actually occurred; and

(E) The IPQ permit holder took all reasonable steps to overcome the circumstance that prevented the IPQ permit holder from conducting processing for that crab QS fishery in that ECC.

(iii) This provision does not exempt any IPQ permit holder from any regional designation that may apply to that IPQ.

(iv) Geographic boundaries for use of IPQ outside ECCs for purposes of paragraph (b)(4) of this section:

(A) Akutan, False Pass, King Cove, or Port Moller: IPQ may not be used outside of the boundaries of the Aleutians East Borough as those boundaries are established by the State of Alaska;

(B) Kodiak: IPQ may not be used outside of the boundaries of the Kodiak Island Borough as those boundaries are established by the State of Alaska;

(C) Adak: IPQ may not be used outside of the boundaries of the City of Adak as those boundaries are established by the State of Alaska;

(D) Unalaska/Dutch Harbor: IPQ may not be used outside of the boundaries of the City of Unalaska as those boundaries are established by the State of Alaska.

(E) St. George: IPQ may not be used outside of the boundaries of the City of St. George as those boundaries are established by the State of Alaska.

(F) St. Paul: IPQ may not be used outside of the boundaries of the City of St. Paul as those boundaries are established by the State of Alaska.

(5) Any person harvesting crab under a Class A CVO or Class A CVC IFQ Permit, except as provided under paragraph (b)(4) of this section, must deliver that crab:

(i) Only to RCRs with unused IPQ for the same crab QS fishery; and

(ii) Only to an RCR in the region for which the QS and IFQ is designated.

(6) Any person harvesting crab under a Class B IFQ, CPO IFQ, CVC IFQ, or CPC IFQ permit may deliver that crab to any RCR.

(7) Any IPQ crab that is received by an RCR will not be considered use of IPQ by an IPQ holder who has a 10 percent or greater direct or indirect ownership interest in the shoreside crab processor or stationary floating crab processor where that IPQ crab is proc-

essed under §680.7(a)(7) or paragraph (a)(8) of this section if:

(i) That RCR is not affiliated with an IPQ holder who has a 10 percent or greater direct or indirect ownership interest in the shoreside crab processor or stationary floating crab processor where that IPQ crab is processed; and

(ii) The IPQ crab meets the conditions in paragraphs (b)(7)(ii)(A) and (B) of this section or the IPQ crab meets the conditions in paragraph (b)(7)(ii)(C) of this section:

(A) The IPQ crab is:

(1) BSS IPQ crab with a North region designation;

(2) EAG IPQ crab;

(3) EBT IPQ crab;

(4) PIK IPQ crab;

(5) SMB IPQ crab;

(6) WAG IPQ crab provided that IPQ crab is processed west of 174 degrees west longitude;

(7) WAI IPQ crab; or

(8) WBT IPQ crab.

(B) That IPQ crab is processed at:

(1) Any shoreside crab processor located within the boundaries of a home rule, first class, or second class city in the State of Alaska in existence on June 29, 2009; or

(2) Any stationary floating crab processor that is:

(i) Located within the boundaries of a home rule, first class, or second class city in the State of Alaska in existence on June 29, 2009;

(ii) Moored at a dock, docking facility, or at a permanent mooring buoy, unless that stationary floating crab processor is located within the boundaries of the city of Atka in which case that stationary floating crab processor is not required to be moored at a dock, docking facility, or at a permanent mooring buoy; and

(iii) Located within a harbor, unless that stationary floating crab processor is located within the boundaries of the city of Atka on June 29, 2009, in which case that stationary floating crab processor is not required to be located within a harbor.

(C) The IPQ crab is:

(1) Derived from PQS that is, or was, subject to a ROFR as that term is defined at §680.2;

(2) Derived from PQS that has been transferred from the initial recipient of

Fishery Conservation and Management

§ 680.43

those PQS to another person under the requirements described at § 680.41;

(3) Received by an RCR who is not the initial recipient of those PQS; and

(4) Received by an RCR within the boundaries of the ECC for which that PQS and IPQ derived from that PQS is, or was, designated in the ROFR.

(8) Any IPQ crab that is received by an RCR will not be considered use of IPQ by an IPQ holder for the purposes of paragraphs (b)(1) and (b)(2) of this section, if the IPQ is subject to an exemption pursuant to § 680.4(p).

(c) *Vessel limitations.* (1) Except for vessels that participate solely in a crab harvesting cooperative as described under § 680.21 and under the provisions described in paragraph (c)(4) of this section, no vessel may be used to harvest CVO or CPO IFQ in excess of the following percentages of the TAC for that crab QS fishery for that crab fishing year:

- (i) 2.0 percent for BSS;
- (ii) 2.0 percent for BBR;
- (iii) 2.0 percent for EBT;
- (iv) 2.0 percent for WBT;
- (v) 4.0 percent for PIK;
- (vi) 4.0 percent for SMB;
- (vii) 20.0 percent for EAG;
- (viii) 20.0 percent for WAG; or
- (ix) 20.0 percent for the WAI crab QS fishery west of 179° W. long.

(2) CVC or CPC IFQ used on a vessel will not be included in determining whether a vessel use cap is met.

(3) A single person who receives an initial allocation of QS that results in IFQ that is in excess of the vessel use caps, in paragraph (c)(1) of this section, that person may catch and retain crab harvested with the resulting IFQ with a single vessel. However, this provision does not apply to IFQ resulting from QS derived from transfer of an LLP crab license that occurred after June 10, 2002. Two or more persons may not catch and retain their IFQ with one vessel in excess of these limitations.

(4) A vessel use cap would not apply to a vessel if all of the CVO or CPO IFQ used on that vessel in a crab fishing year is held by a crab harvesting cooperative. This exemption is forfeited if that vessel is used to harvest any amount of CVO or CPO IFQ not held by a crab harvesting cooperative during the same crab fishing year.

(5) A person holding a CVC or CPC IFQ permit is required to be aboard the vessel upon which their IFQ is being harvested.

(6) A person holding CVO or CPO QS does not have to be aboard the vessel being used to harvest their IFQ if they hold at least a 10 percent ownership interest in the vessel upon which the IFQ is to be harvested and are represented on board the vessel by a crab IFQ hired master employed by that QS holder as authorized under § 680.4.

(7) Ownership of a vessel means, for purposes of this section:

(i) A sole proprietor; or

(ii) A person that directly or indirectly owns a 10 percent or greater interest in an entity that owns a vessel.

§ 680.43 Revocation of CVC and CPC QS.

(a) Beginning July 1, 2019, the Regional Administrator will revoke all CVC QS and CPC QS held by an individual who has not met the participation requirements set forth in § 680.40(m). The Regional Administrator will revoke an individual's CVC QS or CPC QS in accordance with the procedures set forth in this section.

(b) *Notice of C Share QS Inactivity.* The Regional Administrator will issue a Notice of C Share QS Inactivity to an individual holding CVC or CPC QS if, after reviewing the CVC or CPC QS holder's Applications for Annual Crab IFQ Permit, the Regional Administrator determines that the CVC or CPC QS holder has failed to meet the participation requirements in § 680.40(m). A CVC or CPC QS holder who receives such a Notice will have 60 days to provide the Regional Administrator with information demonstrating participation as crew that meets the requirements of § 680.40(m).

(c) *Initial administrative determination (IAD).* The Regional Administrator will prepare and send an IAD to the CVC or CPC QS holder following the expiration of the 60-day evidentiary period if the

§ 680.44

50 CFR Ch. VI (10–1–23 Edition)

Regional Administrator determines that the information or evidence provided by the CVC or CPC QS holder fails to demonstrate participation as crew and is insufficient to rebut the information included in the CVC or CPC QS holder's Applications for Annual Crab IFQ Permit, or if the additional information or evidence is not provided within the time period specified in the Notice of C Share QS Inactivity. The IAD will explain the basis for the revocation determination. A CVC or CPC QS holder who receives an IAD for revocation may appeal under the appeals procedures set forth at 15 CFR part 906. A CVC or CPC QS holder who avails himself or herself of the opportunity to appeal an IAD for revocation will not receive crab IFQ or IPQ until after the final resolution of that appeal in the QS holder's favor.

§ 680.44 Cost recovery.

(a) *Cost recovery fees*—(1) *Responsibility*. The person documented on the IFQ, IPQ, CDQ, RCR, Commercial Fisheries Entry Commission (CFEC), or State of Alaska Commissioner's permit as the permit holder at the time of a CR crab landing must comply with the requirements of this section.

(i) Subsequent transfer of IFQ, IPQ, CDQ, or QS does not affect the permit holder's liability for noncompliance with this section.

(ii) Non-renewal of an RCR permit does not affect the permit holder's liability for noncompliance with this section.

(2) *Fee liability determination*. (i) All CR allocation holders and RCR permit holders will be subject to a fee liability for any CR crab debited from a CR allocation during a crab fishing year, except for crab designated as personal use or deadloss, or crab confiscated by NMFS or the State of Alaska.

(ii) Fee liability must be calculated by multiplying the applicable fee percentage by the ex-vessel value of the CR crab received by the RCR at the time of receipt, except as provided by paragraph (b)(3) of this section.

(iii) NMFS will provide a summary to all RCR permit holders during the last quarter of the crab fishing year. The

summary will explain the fee liability determination including the current fee percentage, details of raw crab pounds debited from CR allocations by permit, port or port-group, species, date, and prices.

(3) *Fee collection*. (i) All RCRs who receive CR crab are responsible for submitting the cost recovery payment for all CR crab received.

(ii) All RCRs who receive CR crab in a crab fishing year must maintain and submit records for any crab cost recovery fees collected under the corresponding RCR permit.

(4) *Payment*—(i) *Payment due date*. An RCR permit holder must submit any crab cost recovery fee liability payment(s) to NMFS at the address provided in paragraph (a)(4)(iii) of this section no later than July 31 of the crab fishing year following the crab fishing year in which the payment for a CR crab landing was made.

(ii) *Payment recipient*. Make payment payable to NMFS.

(iii) *Payment address*. Submit payment and related documents as instructed on the fee submission form. Payments may be made electronically through the NMFS Alaska Region Web site at <http://alaskafisheries.noaa.gov>. Instructions for electronic payment will be made available on both the payment Web site and a fee liability summary letter mailed to the RCR permit holder.

(iv) *Payment method*—(A) Prior to June 1, 2020, payment must be made in U.S. dollars by personal check drawn on a U.S. bank account, money order, bank-certified check, or electronically by credit card.

(B) On or after June 1, 2020, payment must be made electronically in U.S. dollars by automated clearing house, credit card, or electronic check drawn on a U.S. bank account.

(b) *Ex-vessel value determination and use*—(1) *General*. An RCR permit holder must use either the ex-vessel value determined for shoreside processors or the ex-vessel value determined for at-sea Catcher/Processors (CP), depending on their activity. Ex-vessel value includes all cash, services, or other goods-in-kind exchanged for CR crab.

(2) *Shoreside ex-vessel value*. Shoreside processing facilities must use the price

Fishery Conservation and Management

§ 680.44

paid at the time of purchase as ex-vessel value for the purposes of calculating fee liability. Shoreside processing facilities must include any subsequent retroactive payments as adjustments to the initial calculation of fee liability.

(3) *Catcher/processor ex-vessel value*—(i) *General.* Catcher/processors must use the corresponding CP standard price(s) for the purposes of calculating fee liability.

(ii) *CP standard prices.* As part of the summary described in paragraph (a)(2)(iii) of this section, the Regional Administrator will provide CP standard prices calculated for the current year during the last quarter of each crab fishing year. The CP standard prices will be described in U.S. dollars per raw crab pound, for CR crab debited from CR allocations during the current crab fishing year.

(iii) *Effective period.* CP standard prices established by NMFS shall apply to all landings made in the same crab fishing year as the CP standard price provided for that year and shall replace any CP standard prices previously provided by NMFS.

(iv) *Determination.* NMFS will calculate the CP standard prices to reflect, as closely as possible, the current crab fishing year's average shoreside processor price by fishery and by species, and any variations in reported shoreside ex-vessel values of CR crab. The Regional Administrator will base CP standard prices on the following types of information:

(A) Landed pounds by CR crab, port-group, and month;

(B) Total shoreside ex-vessel value by CR crab, port-group, and month; and

(C) Price adjustments, including retroactive payments.

(4) *Fee liability calculation.* All RCRs must base all fee liability calculations on the ex-vessel value that correlates to CR crab that is debited from a CR allocation and recorded in raw crab pounds.

(c) *Crab fee percentage*—(1) *Established percentage.* The crab fee percentage is the amount as determined by the factors and methodology described in paragraph (c)(2) of this section. This amount will be announced by publication in the FEDERAL REGISTER in ac-

cordance with paragraph (c)(3) of this section. This amount must not exceed 3 percent pursuant to 16 U.S.C. 1854(d)(2)(B).

(i) The calculated crab fee percentage will be divided equally between the harvesting and processing sectors.

(ii) Catcher/Processors must pay the full crab fee percentage determined by the fee percentage calculation for all CR crab debited from a CR allocation.

(2) *Calculating fee percentage value.* Each year NMFS shall calculate and publish the fee percentage according to the following factors and methodology:

(i) *Factors.* NMFS must use the following factors to determine the fee percentage:

(A) The catch to which the crab cost recovery fee will apply;

(B) The ex-vessel value of that catch; and

(C) The costs directly related to the management and enforcement of the Crab Rationalization Program.

(ii) *Methodology.* NMFS must use the following equations to determine the fee percentage:

Harvesting and Processing Sectors: $[100 \text{ (DPC/ V)}] 0.5$

Catcher/Processors: 100 (DPC/ V)

where:

“DPC” is the direct program costs for the Crab Rationalization Program for the previous fiscal year, and

“V” is the ex-vessel value of the catch subject to the crab cost recovery fee liability for the current year.

(3) *Publication*—(i) *General.* During the first quarter of each crab fishing year, NMFS shall calculate the crab fee percentage based on the calculations described in paragraph (c)(2) of this section.

(ii) *Effective period.* The calculated IFQ fee percentage remains in effect through the end of the crab fishing year in which it was determined.

(4) *Applicable percentage.* The RCR permit holder must use the crab fee percentage in effect at the time a CR crab is debited from a CR allocation to calculate the crab cost recovery fee liability for such CR crab. The RCR permit holder must use the crab fee percentage in effect at the time a CR crab

is debited from a CR allocation to calculate the crab cost recovery fee liability for any retroactive payments for that CR crab.

(d) *Underpayment of fee liability.* (1) Under §680.4, an applicant will not receive new IFQ, IPQ, or RCR permits until he or she submits a complete application. A complete application shall include full payment of an applicant's complete crab cost recovery fee liability as reported by the RCR.

(2) If an RCR fails to submit full payment for crab cost recovery fee liability by the date described in paragraph (a)(4) of this section, the Regional Administrator may:

(i) At any time thereafter send an IAD to the RCR permit holder stating that the RCR permit holder's estimated fee liability, as indicated by his or her own submitted information, is the crab cost recovery fee liability due from the RCR permit holder.

(ii) Disapprove any transfer of IFQ, IPQ, QS, or PQS to or from the RCR permit holder in accordance with §680.41.

(3) If an RCR fails to submit full payment by the application deadline described at §680.4, no IFQ or IPQ permit will be issued to that RCR for that crab fishing year.

(4) Upon final agency action determining that an RCR permit holder has not paid his or her crab cost recovery fee liability, the Regional Administrator may continue to withhold issuance of any new IFQ, IPQ, or RCR permit for any subsequent crab fishing years. If payment is not received by the 30th day after the final agency action, the matter will be referred to the appropriate authorities for purposes of collection.

(e) *Over payment.* Upon issuance of final agency action, any amount submitted to NMFS in excess of the crab cost recovery fee liability determined to be due by the final agency action will be returned to the RCR permit holder unless the permit holder requests the agency to credit the excess amount against the permit holder's future crab cost recovery fee liability.

(f) *Appeals and requests for reconsideration.* An RCR permit holder who receives an IAD may either appeal the IAD pursuant to 50 CFR 679.43 or request reconsideration. Within 60 days from the date of issuance of the IAD, the Regional Administrator may undertake reconsideration of the IAD on his or her own initiative. If a request for reconsideration is submitted or the Regional Administrator initiates reconsideration, the 60-day period for appeal under 50 CFR 679.43 will begin anew upon issuance of the Regional Administrator's reconsidered IAD. The Regional Administrator may undertake only one reconsideration of the IAD, if any. If an RCR permit holder fails to file an appeal of the IAD pursuant to 50 CFR 679.43 or request reconsideration within the time period provided, the IAD will become the final agency action. In any appeal or reconsideration of an IAD made under this section, an RCR permit holder has the burden of proving his or her claim.

(g) *Fee submission form.* An RCR must submit an RCR permit holder fee submission form according to §680.5(g).
