§ 1400.500 Applicability.

(a) A person or legal entity, other than a joint venture or general partnership, will not be eligible to receive, directly or indirectly, certain program payments or benefits described in §1400.1 if the average adjusted gross income of the person or legal entity exceeds \$900,000 for the 3 taxable years preceding the most immediately preceding complete taxable year, as determined by the Deputy Administrator.

(3) Applicable for the entire term of the subject agreement or contract.

(c) Vendors that receive payment for technical services provided in conjunction with programs made subject to this subpart by regulation or statute, but who are not beneficiaries of the program, are not subject to this subpart for services that are of the type that are also performed by the Federal Government in connection with the programs.

§ 1400.501 Determination of average adjusted gross income.

(a) Except as otherwise provided in this subpart, average adjusted gross income means:

(1) For a person filing a separate tax return, the amount reported as “adjusted gross income” on the final federal income tax return for the person for the applicable tax year;

(2) For a person filing a joint tax return, the amount reported as “adjusted gross income” on the final federal income tax return for the applicable tax year unless a certified statement is provided by a certified public accountant or attorney specifying the manner in which the income would have been declared and reported if the persons had filed two separate returns and that this calculation is consistent with the information supporting the filed joint return;

(3) For a corporation, including a subchapter S corporation, the total reported “taxable income” as reported to the Internal Revenue Service plus the amount of the charitable contributions as reported on the final federal income tax return for the applicable tax year;

(4) For a tax exempt legal entity, the “unrelated business taxable income” of the legal entity as reported to the Internal Revenue Service on the final federal income tax return, less any other income CCC determines to be from non-commercial activities;

(5) For a limited liability company, limited partnership, limited liability partnership, or similar type of organization, the income from trade or business activities plus the amount of guaranteed payments to the members as reported to the Internal Revenue Service on the final federal income tax return for the applicable tax year; and

(6) For an estate or trust, the adjusted total income plus charitable deductions as reported to the Internal Revenue Service on the final federal income tax return for the applicable tax year, or the amount of net increase in the estate’s or trust’s value resulting from its business or investment interests.

(b) For purposes of applying this subpart and calculating the 3-year average referenced in § 1400.500, that average will be for the adjusted gross income for the 3 taxable years preceding the most immediately preceding complete taxable year, as determined by CCC. For a legal entity that is not required to file a federal income tax return, or a person or legal entity that did not have taxable income in one or more tax years, the average will be the adjusted gross income, including losses, averaged for the 3 taxable years preceding the most immediately preceding complete taxable year, as determined by CCC. A new legal entity will have its adjusted gross income averaged only for those years of the base period for which it was in business; however, a new legal entity will not be considered “new” to the extent it takes over an existing operation and has any elements of common ownership or interests with the preceding legal entity, or with persons or legal entities with an interest in the “old” legal entity. When there is this commonality, income of the “old” legal entity will be averaged with that of the “new” legal entity for the base period.
