Subpart G—Actual Production History

AUTHORITY: 7 U.S.C. 1506, 1516.

SOURCE: 59 FR 47787, Sept. 19, 1994, unless otherwise noted.

§ 400.51 Availability of actual production history program.

(a) This subpart is obsolete for the 2024 and succeeding crop years for crops with a contract change date on or after June 30, 2023, and for the 2025 and succeeding crop years for all crops with a contract change date prior to June 30, 2023.

(b) An Actual Production History (APH) Coverage Program is offered under the provisions contained in 7 CFR part 457 and all Special Provisions (as defined in 7 CFR 457.8) thereto unless specifically excluded by the Special Provisions.

(c) The APH program operates within limits prescribed by, and in accordance with, the provisions of the Federal Crop Insurance Act, as amended (7 U.S.C. 1501 *et seq.*), only on those crops identified in this section in those areas where the actuarial documents provide coverage. Except when in conflict with this subpart, all provisions of the applicable crop insurance contract for these crops apply.

[88 FR 42018, June 29, 2023]

§ 400.52 Definitions.

In addition to the definitions contained in the crop insurance contract, the following definitions apply for the purposes of the APH Coverage Program:

(a) *APH*. Actual Production History.

(b) *Actual yield.* The yield per acre for a crop year calculated from the production records or claims for indemnities. The actual yield is determined by dividing total production (which includes harvested and appraised production) by planted acres for annual crops or by insurable acres for perennial crops.

(c) *Adjusted yield.* The transitional or determined yield reduced by the applicable percentage for lack of records. The adjusted yield will equal 65 percent of the transitional or determined yield, if no producer records are submitted; 80 percent, if records for one year are submitted; and 90 percent, if two years of records are submitted.

(d) *Appraised production.* Production determined by the Agricultural Stabilization and Conservation Service (ASCS), the FCIC, or a company reinsured by the FCIC, that was unharvested but which reflected the crop's yield potential at the time of the appraisal. For the purpose of APH "appraised production" specifically excludes production lost due to uninsurable causes.

(e) *Approved APH yield.* A yield, calculated and approved by the verifier, used to determine the production guarantee and determined by the sum of the yearly actual, assigned, and adjusted or unadjusted transitional or determined yields divided by the number of yields contained in the database. The database may contain up to 10 consecutive crop years of actual and or assigned yields. At least four yields will always exist in the database.

(f) *Assigned yield.* A yield assigned by FCIC in accordance with the crop insurance contract, if the insured does not file production reports as required by the crop insurance contract. Assigned yields are used in the same manner as actual yields when calculating APH yields except for purposes of the Nonstandard Classification System (NCS).

(g) *Base period.* Ten consecutive crop years (except peaches, which have a five-year base period) immediately preceding the crop year defined in the insurance contract for which the approved APH yield is being established (except for sugarcane, which begins the calendar year preceding the immediate

previous crop year defined in the insurance contract).

(h) *Continuous production reports.* Reports submitted by a producer for each crop year that the unit was planted to the crop and for the most recent crop year in the base period.

(i) *Crop year.* Defined in the crop insurance contract, however, for APH purposes the term does not include any year when the crop was not planted or when the crop was prevented from being planted by an insurable cause. For example, if an insured plants acreage in a county to wheat one year, that year is a crop year in accordance with the policy definition. If the land is summerfallowed the next calendar year, that calendar year is not a crop year for the purpose of APH.

(j) *Database.* A minimum of four years up to a maximum of ten crop years of production data used to calculate the approved APH yield.

(k) *Determined yield (D-yield).* An estimated year for certain crops, which can be determined by multiplying an average yield for the crop (attained by using data available from The National Agricultural Statistics Service (NASS) or comparable sources) by a percentage established by the FCIC for each county.

(l) *Master yields.* Approved APH yields, for certain crops and counties as initially designated by the FCIC, based on a minimum of four crop years of production records for a crop within a county.

(m) *New producer.* A person who has not been actively engaged in farming for a share of the production of the insured crop for more than two crop years.

(n) *Production report.* A written record showing the insured crop's annual production and used to determine the insured's yield for insurance purposes. The report contains yield history by unit, if applicable, including planted acreage for annual crops, insurable acreage for perennial crops, and harvested and appraised production for the previous crop years. This report must be supported by written verifiable records, measurement of farm stored production, or by other records of production approved by FCIC on an individual basis. Information

contained in a claim for indemnity is considered a production report for the crop year for which the claim was filed.

(o) *Production Reporting Date (PRD)*. The PRD is contained in the crop insurance contract and is the last date production reports will be accepted for inclusion in the database for the current crop year.

(p) *Transitional yield (T-Yield)*. An estimated yield, for certain crops, generally determined by multiplying the ASCS program yield by a percentage determined by the FCIC for each county and provided on the actuarial table to be used in the APH yield calculation process when less than four consecutive crop years of actual or assigned yields are available.

(q) *Verifiable records*. Contemporaneous records of acreage and production provided by the insured, which may be verified by FCIC through an independent source, and which are used to substantiate the acreage and production that have been reported on the production report.

(r) *Verifier*. A person authorized by the FCIC to calculate approved APH yields.

(s) *Yield variance tables*. Tables for certain crops that indicate unacceptable yield variations and yield trends which will require determination of the APH yield by the FCIC.

§ 400.53 Yield certification and acceptability.

(a) Production reports must be provided to the crop insurance agent no later than the production reporting date for the crop insured.

(1) Production reports must provide an accurate account of planted acreage for annual crops or insurable acres for perennial crops, as well as harvested and appraised production by unit.

(2) The insured must certify the accuracy of the information.

(3) Production reported for more than one crop year must be continuous. A year in which no acreage was planted to the crop on a unit or no acreage was planted to a practice, type, or variety requiring an APH yield will not be considered a break in continuity. Assigned yields, at the discretion of the FCIC, may be used to maintain continuity of yield data of file. Production on unin-

sured (for those years a crop insurance policy under the Federal Crop Insurance Act is in effect) or uninsurable acreage (for other years of the period) will not be used to determine APH yield unless production from such acreage is commingled with production from insured or insurable acreage.

(b) Production reports and supporting records are subject to audit or review to verify the accuracy of the information certified. Production and supporting records may be reviewed and verified if a claim for indemnity is submitted on the insured crop. The reported yield is subject to revision, if needed, so that the claim conforms to the records submitted at that time.

(1) Inaccurate production reports or failure to retain acceptable records shall result in the verifier combining optional farm units and recomputing the approved APH yield. These actions shall be taken at any time after reporting or record discrepancies are identified and may result in reduction of the approved APH yield for any calendar year.

(2) Records must be provided by the insured at the time of an audit, review, or as otherwise requested, to verify that the acreage and production certified are accurate. Records of any other person having shares in the insured crop, which are used by the insured to establish the approved APH yield, must also be provided upon request.

(3) In the event acreage or production data certified by two or more persons sharing in the crop on the same acreage is different, the verifier shall, at the verifier's discretion, determine which acreage and production data, if any, will be used to determine the approved APH yield. If the correct acreage and production cannot be determined, the data submitted will be considered unacceptable by the verifier for APH purposes.

(4) Failure of the producer to report acreage and production completely and accurately may result in voidance of the crop insurance contract, as well as criminal or civil false claims penalties pursuant to applicable Federal criminal or civil statutes.

§ 400.54 Submission and accuracy of production reports.

(a) The insured is solely responsible for the timely submission and certification of accurate, complete production reports to the agent. Production reports must be provided for all planted units.

(b) Records may be requested by the FCIC, or an insurance company reinsured by the FCIC, or by anyone acting on behalf of the FCIC or the insurance company. The insured must provide such records upon request.

(c) The agent will explain the APH Program to insureds and prospective insureds. When necessary, the agent will assist the insured in preparation of production reports. The agent will determine the adjusted or unadjusted transitional or determined yields in accordance with § 400.54(b). The agent will review the production reports and forward them to the verifier, along with any requested and required supporting records for determination of an approved APH yield.

(d) The verifier will determine if the certified production reports are acceptable and calculate the approved APH yield.

§ 400.55 Qualification for actual production history coverage program.

(a) The approved APH yield is calculated from a database containing a minimum of four yields and will be updated each subsequent crop year. The database may contain a maximum of the 10 most recent crop years and may include actual, assigned, and adjusted or unadjusted T or D-Yields. T or D-Yields, adjusted or unadjusted, will only occur in the database when there are less than four years of actual and/or assigned yields.

(b) The insured may be required to provide production records to determine the approved APH yield, if production records for the most recent crop year are available. If acceptable records of actual production are provided, the records must be continuous and contain at least the most recent crop year's actual yield.

(1) If no acceptable production records are available, the approved APH yield is the adjusted T or D-Yield (65 percent of T or D-Yield).

(2) If acceptable production records containing information for only the most recent crop year are provided, the three T or D-Yields adjusted by 80 percent will be used to complete the minimum database and calculate the approved APH yield.

(3) If acceptable production records containing information for only the two most recent crop years are provided, the two T or D-Yields adjusted by 90 percent and the two actual yields will be used to complete the database and calculate the approved APH yield.

(4) If acceptable production records containing information for only the three most recent crop years are provided, the three actual yields and one unadjusted T or D-Yield are used to complete the database and calculate the approved APH yield.

(5) When the database contains four or more (up to ten) continuous actual yields, the approved APH yield is a simple average of the actual yields.

(6) New producers may have their approved APH yields based on unadjusted T or D-Yields or a combination of actual and unadjusted T or D-Yields.

(7) Producers who add land or new practice, types and varieties to their farming operations and who do not have available records for the added land, practice, types or varieties may have approved APH yields for the added land, practice, types or varieties that are based on adjusted or unadjusted T or D-Yields as determined by FCIC.

(8) If the producer's crop is destroyed or if it produces a low actual yield due to insured causes of loss, the resulting average yield may qualify for catastrophic yield adjustment according to FCIC guidelines. APH yields qualifying for catastrophic yield adjustment may be adjusted to mitigate the effect of catastrophic years. Premium rates for approved APH yields, which are adjusted for catastrophic years, may be based on the producer's APH average yield prior to the catastrophic adjustment or such other basis as determined appropriate by FCIC.

(c) If no insurable acreage of the insured crop is planted for a year, a production report indicating zero planted acreage will maintain the continuity of

§ 400.56

production reports for APH record purposes and that calendar year will not be included in the APH yield calculations.

(d) Actual yields calculated from the claim for indemnity will be entered in the database. The resulting average yield will be used to determine the premium rate and approved APH yield, at the discretion of FCIC.

(e) Optional units are not available to an insured who does not provide acceptable production reports for at least the most recent crop year with which to calculate an approved APH yield.

(f) FCIC may determine approved APH yields for designated crops in the following situations:

(1) If less than four years of yield history is certified and T or D-Yields are not provided in the actuarial documents,

(2) If actual yield exceed tolerances specified in yield variance tables, and

(3) For perennial crops:

(i) If significant upward or downward yield trends are indicated;

(ii) If tree or vine damage, or cultural practices will reduce the production level;

(iii) If more than two percent of the trees or vines have been removed within the last two years; or

(iv) If yield trends are evident and yields greater than the average yield are requested by the insured.

(g) APH yields will not be approved the first insurance year on perennial crops until an inspection acceptable to FCIC has been performed and the acreage is accepted for insurance purposes in accordance with the crop insurance contract.

(h) APH Master Yields may be established whenever crop rotation requirements and land leasing practices limit the yield history available. FCIC will establish crops and locations for which Master Yields are available. To qualify, the producer must have at least four recent continuous crop years' annual production reports and must certify the authenticity of the production reports of the insured crop. Master Yields are based on acreage and production history from all acreage of the insured crop in the county in which the operator has shared in the crop's production.

7 CFR Ch. IV (1–1–25 Edition)

(i) FCIC may use any production report available under the provisions of any crop insurance contract, whether continuous or not, involving the interests of the person's insured crops in determining the approved APH yield.

§ 400.56 Administrative appeal exhaustion.

The insured may appeal the approved APH yield in accordance with the procedures contained in 7 CFR part 400, subpart J. Administrative remedies through the appeal process must be exhausted prior to any action for judicial review. The approved APH yield determined as a result of the appeal process will be the yield applicable to the crop year.

§ 400.92

(1) Made by the Agency with respect to any matter arising under the terms of the Standard Reinsurance Agreement with the reinsured company; or

(2) Made by any private insurance company with respect to any contract of insurance issued to any producer by the private insurance company and reinsured by FCIC under the provisions of the Act, except for determinations of good farming practices specified in § 400.91(a)(2).

questing administrative review or mediation under this subpart.

(b) If the participant has timely requested administrative review or mediation, the participant may not participate in a NAD hearing until such administrative review or mediation is concluded. (1) The decision was not proper and not made in accordance with applicable program regulations and procedures; or

(2) All material facts were not properly considered in such decision.

(c) The reviewing authority will issue a written decision that will not be subject to further administrative review by the Agency.

[67 FR 13251, Mar. 22, 2002, as amended at 68 FR 37720, June 25, 2003; 74 FR 8704, Feb. 26, 2009]

For adverse decisions only:

(a) Appellants have the right to seek mediation or other forms of alternative dispute resolution in addition to an administrative review under § 400.93.

the written notice of the adverse decision. A request for mediation will be considered to have been “filed” when personally delivered in writing to the appropriate decision maker or when the properly addressed request, postage paid, is postmarked.

(d) An appellant will have any balance of the days remaining in the 30-day period to appeal to NAD if mediation is concluded without resolution. If a new adverse decision that raises new matters or relies on different grounds is issued as a result of mediation, the participant will have a new 30-day period for appeals to NAD.

(e) An appellant is responsible for contacting the Certified State Mediation Program in States where such mediation program exists. The State mediation program will make all arrangements for the mediation process. A list of Certified State Mediation Programs is available at <http://www.act.fcic.usda.gov>.

(f) An appellant is responsible for making all necessary contacts to arrange for mediation in non-certified States or in certified States that are not currently offering mediation on the subject in dispute. An appellant needing mediation in States without a certified mediation program may request mediation by contacting the RSO, which will provide the participant with a list of acceptable mediators.

(g) An appellant may only mediate an adverse decision once.

(h) If the dispute is not completely resolved in mediation, the adverse decision that was the subject of the mediation remains in effect and becomes the adverse decision that is appealable to NAD.

(i) If the adverse decision is modified as a result of the mediation process, the modified decision becomes the new adverse decision for appeal to NAD.

§ 400.95 Time limitations for filing and responding to requests for administrative review.

(a) A request for administrative review must be filed within 30 days of receipt of written notice of the adverse decision. A request for an administrative review will be considered to have

been “filed” when personally delivered in writing to the appropriate decision maker or when the properly addressed request, postage paid, is postmarked.

§ 400.96 Judicial review.

Except as provided in § 400.98, with respect to adverse determinations:

(a) A participant must exhaust administrative remedies before seeking judicial review of an adverse decision. This requires the participant to appeal an Agency adverse decision to NAD in accordance with 7 CFR part 11 prior to seeking judicial review of the adverse decision.

(b) If the adverse decision involves a matter determined by the Agency to be not appealable, the appellant must request a determination of non-appealability from the Director of NAD, and appeal the adverse decision to NAD if the Director determines that it is appealable, prior to seeking judicial review.

(c) A participant with a contract of insurance reinsured by the Agency may bring suit against the Agency if the suit involves an adverse action in a United States district court after exhaustion of administrative remedies as provided in this section. Nothing in this section can be construed to create privity of contract between the Agency and a participant.

§ 400.98 Reconsideration process.

(a) This reconsideration process only applies to determinations of good farming practices under § 400.91(a)(2).

(b) A determination or reconsideration decision regarding good farming practices is not an adverse action and cannot be appealed to NAD.

(c) Only reconsideration is available for determinations of good farming practices. Mediation is not available for determinations of good farming practices.

(d) If the insured seeks reconsideration, the insured must file a written request for reconsideration to the following: USDA RMA Deputy Administrator for Insurance Services, Stop 0801, Room 2004-South ATTN: GFP RECONSIDERATION 1400 Independence Avenue SW Washington, DC 20250-0801, by email to rma.rmsd@usda.gov, or to a successor site or email.

(1) A request for reconsideration must be filed within 30 days of receipt of written notice of the determination regarding good farming practices. A request for reconsideration will be considered to have been “filed” when personally delivered in writing to FCIC or when the properly addressed request, postage paid, is postmarked.

(2) Notwithstanding paragraph (d)(1) of this section, an untimely request for reconsideration may be accepted and acted upon if the insured can demonstrate a physical inability to timely file the request for reconsideration.

(3) Reconsideration of a good farming practice (GFP) determination will be limited to a closed review of the existing administrative record. The written request must state the basis upon which the insured relies to show that:

- (i) The decision was not proper and not made in accordance with applicable program regulations and procedures; or
- (ii) The previously provided material facts were not properly considered in such decision.

(e) With respect to determinations of good farming practices, the insured is not required to exhaust the administrative remedies in 7 CFR part 11 be-

7 CFR Ch. IV (1–1–25 Edition)

fore bringing suit against FCIC in a United States district court. However, regardless of whether the Agency or the reinsured company makes the determination, the insured must seek reconsideration under § 400.98 before bringing suit against FCIC in a United States District Court. The insured cannot file suit against the reinsured company for determinations of good farming practices.

(f) Any reconsideration decision by the Agency regarding good farming practices shall not be reversed or modified as a result of judicial review unless the reconsideration decision is found to be arbitrary or capricious.

Subpart O—Non-Standard Underwriting Classification System Regulations for the 1991 and Succeeding Crop Years

AUTHORITY: 7 U.S.C. 1506(1), 1506(p).

SOURCE: 55 FR 32595, Aug. 10, 1990, unless otherwise noted.

§ 400.301 Basis, purpose, and applicability.

The regulations contained in this subpart are issued pursuant to the Federal Crop Insurance Act, as amended (7 U.S.C. 1501 *et seq.*), to prescribe the procedures for nonstandard determinations and the assignment of assigned yields or premium rates in conformance with the intent of section 508 of the Act (7 U.S.C. 1508). These regulations are applicable to all policies of insurance insured or reinsured by the Corporation under the Act and on those policies where the insurance coverage or indemnities are based on determinations applicable to the individual insured. These regulations will not be applicable to any policy where the amount of coverage or indemnities are based on the experience of the area.

[62 FR 22876, Apr. 28, 1997]

§ 400.302 Definitions.

Act means Federal Crop Insurance Act as amended (7 U.S.C. 1501 *et seq.*).

Actively engaged in farming means a person who, in return for a share of profits and losses, makes a contribution to the production of an insurable crop in the form of capital, equipment, land, personal labor, or personal management.

Actual yield means total harvested production of a crop divided by the number of acres on which the crop was planted. For insured acres, actual yield is the total production to count as defined in the insurance policy, divided by insured acres.

Assigned yield means units of crop production per acre administratively assigned by the Corporation for the

purpose of determining insurance coverage.

Corporation means the Federal Crop Insurance Corporation.

Cumulative earned premium rate is the total premium earned for all years in the base period, divided by the total liability for all years in the base period with the result expressed as a percentage.

Cumulative loss ratio means the ratio of total indemnities to total earned premiums during the base period expressed as a decimal.

Earned premium means premium earned (both the amount subsidized and the amount paid by the producer, but excluding any amount of the subsidy attributed to the operating and administrative expenses of the insurance provider) for a crop under a policy insured or reinsured by the Corporation.

Earned premium rate—means premium earned divided by liability and expressed as a percentage.

Entity—means a person as defined in this subpart other than an individual.

Indemnified loss means a loss applicable for the policy for any year during the NCS base period for which the total indemnity exceeds the total earned premium. If the person has insurance for the crop in more than one county for any crop year, indemnities and premiums will be accumulated for all counties for each crop year to determine an indemnified loss.

Insurance experience means earned premiums, indemnities paid (but not including replant payments), and other data for the crop (after applicable adjustments), resulting from all of the insured's crop insurance policies insured or reinsured by the Corporation for one or more crop years and will include all information from all counties in which the person was insured.

Loss ratio—means the ratio of indemnity to earned premium expressed as a decimal.

NCS means nonstandard classification system.

NCS base period means the 10 consecutive crop years (as defined in the crop policy) ending 2 crop years prior to the crop year in which the NCS classification becomes effective for all crops, except those specified on the Special Pro-

visions. For these excepted crops, the NCS base period means the 10 consecutive crop years ending 3 crop years prior to the crop year in which the NCS classification becomes effective. For example: An NCS classification effective for the 1996 crop year against a producer of citrus production in Arizona, California, and Texas, or sugarcane would have a NCS base period that includes the 1984 through 1993 crop years. An NCS classification effective for the 1996 crop year against a producer of all other crops would have a NCS base period that includes the 1985 through 1994 crop years.

Person—means an individual, partnership, association, corporation, estate, trust, or other legal entity, and whenever applicable, a State or a political subdivision, or agency of a state.

Substantial beneficial interest—means an interest of 10 percent or more. In determining whether such an interest equals at least 10 percent, all interests which are owned directly or indirectly through such means as ownership of shares in a corporation which owns the interest will be taken into consideration.

[55 FR 32595, Aug. 10, 1990, as amended at 62 FR 22876, Apr. 28, 1997]

§ 400.303 Initial selection criteria.

(a) Nonstandard classification procedures in this subpart initially apply when all of the following insurance experience criteria (including any applicable adjustment in § 400.303(d)) for the crop have been met:

(1) Three (3) or more indemnified losses during the NCS base period;

(2) Cumulative indemnities in the NCS base period that exceed cumulative premiums during the same period by at least \$500;

(3) The result of dividing the number of indemnified losses during the NCS base period by the number of years premium is earned for that period equals .30 or greater; and

(4) Either of the following apply:

(i) The natural logarithm of the cumulative earned premium rate multiplied by the square root of the cumulative loss ratio equals 2.00 or greater; or

(ii) Five (5) or more indemnified losses have occurred during the NCS

Federal Crop Insurance Corp., USDA**§ 400.304**

base period and the cumulative loss ratio equals or exceeds 1.50.

(b) The minimum standards provided in paragraphs (a) (2), (3), and (4) of this section may be increased in a specific county if that county's overall insurance experience for the crop is substantially different from the insurance experience for which the criteria was determined. The increased standard will apply until the conditions requiring the increase no longer apply. Any change in the standards will be contained in the Special Provisions for the crop.

(c) Selection criteria may be applied on the basis of insurance experience of a person, insured acreage, or the combination of both.

(1) Insurance experience of a person will include:

(i) Insurance experience of the person;

(ii) Insurance experience of other insured entities in which the person had substantial beneficial interest if the person was actively engaged in farming of the insured crop by virtue of the person's interest in those insured entities;

(iii) Insurance experience of a spouse and minor children if the person is an individual and the spouse and minor children are considered the same as the individual under § 400.306.

(2) Insurance experience of insured acreage includes all insurance experience during the base period resulting from the production of the insured crop on the acreage.

(3) Where insurance experience is based on a combination of person and insured acreage, the insurance experience will include the experience of the person as defined in paragraph (b) of this section (1) only on the specific insured acreage during the base period.

(d) Insurance experience for the crop will be adjusted, by county and crop year, to discount the effect of indemnities caused by widespread adverse growing conditions. Adjustments are determined as follows:

(1) Determine the average yield for the county using the annual county crop yields for the previous 20 crop years, unless such data is not available;

(2) Determine the normal variability in the average yield for the county, expressed as the standard deviation;

(3) Subtract the result of § 400.303(d)(2) from § 400.303(d)(1);

(4) Divide the annual crop yield for the county for each crop year in the NCS base period by the result of § 400.303(d)(3), the result of which may not exceed 1.0;

(5) Subtract the result of § 400.303(d)(4) for each crop year from 1.0;

(6) Multiply the result of § 400.303(d)(5) by the liability for the crop year; and

(7) Subtract the result of § 400.303(d)(6) from any indemnity for that crop year.

(e) FCIC may substitute the crop yields of a comparable crop in determining § 400.303(d) (1) and (2), or may adjust the average yield or the measurement of normal variability for the county crop, or any combination thereof, to account for trends or unusual variations in production of the county crop or if the availability of yield and loss data for the county crop is limited. Information about how these determinations are made is available by submitting a request to the FCIC Regional Service Office for the producer's area. Alternate methods of determining the effects of adverse growing conditions on insurance experience may be implemented by FCIC if allowed in the Special Provisions.

§ 400.304 Nonstandard Classification determinations.

(a) Nonstandard Classification determinations can affect a change in assigned yields, premium rates, or both from those otherwise prescribed by the insurance actuarial tables.

(b) Changes of assigned yields based on insurance experience of insured acreage (or of a person on specific insured acreage) will be based on the simple average of available actual yields from the insured acreage during the base period.

(c) Changes of assigned yields based on insurance experience of a person without regard to any specific insured

§ 400.305

acreage will be determined by an assigned yield factor calculated by multiplying excess loss cost ratio by loss frequency and subtracting that product from 1.00 where:

(1) Excess loss cost ratio is total indemnities divided by total liabilities for all years of insurance experience in the base period and the result of which is then reduced by the cumulative earned premium rate, expressed as a decimal, and

(2) Loss frequency is the number of crop years in which an indemnity was paid divided by the number of crop years in which premiums were earned during the base period.

(d) Changes of premium rates will be made to reflect premium rates that would have resulted in insurance experience during the base period with a loss ratio of 1.00 but:

(1) A higher loss ratio than 1.00 may be used for premium rate determinations provided that the higher loss ratio is applied uniformly in a county; and

(2) If a Nonstandard Classification change has been made to current assigned yields, insurance experience during the base period will be adjusted to reflect the affects of changed assigned yields before changes of premium rates are calculated based on that experience.

(e) Once selection criteria have been met in any year, Nonstandard Classification adjustments will be made from year to year until no further changes are necessary in assigned yields or premium rates under the conditions set forth in §400.304(f). In determining whether further changes are necessary, the eligibility criteria will be recomputed each subsequent year using the premium rates and yields which would have been applicable had this part not been in effect.

(f) Nonstandard Classification changes will not be made that:

(1) Increase assigned yields or decrease premium rates from those otherwise assigned by the actuarial tables, or

(3) The conduct of one organization in violation of §400.454(b) may be imputed to another organization when such conduct occurred in connection with a partnership, joint venture, joint application, association or similar arrangement, or when the organization to whom the improper conduct is imputed has the power to direct, manage, control or influence the activities of the organization responsible for the improper conduct. Acceptance of the benefits derived from the conduct is evidence of knowledge, approval or acquiescence.

(4) If such conduct is imputed, the person to whom the conduct is imputed to may be subject to the same disqualification and civil fines as the person from whom the conduct is imputed. The factors contained in §400.454(c)(2) will be taken into consideration with respect to the person to whom the conduct is being imputed.

(e) With respect to disqualifications:

(1) If a person is disqualified and that person is a:

(i) Producer, the producer will be precluded from receiving any monetary or non-monetary benefit provided under all of the following authorities, or their successors:

(A) The Act;

(B) The Farm Security and Rural Investment Act of 2002 (7 U.S.C. 7333 *et seq.*) or any successor statute;

(C) The Agricultural Act of 1949 (7 U.S.C. 1421 *et seq.*) or any successor statute;

(D) The Commodity Credit Corporation Charter Act (15 U.S.C. 714 *et seq.*) or any successor statute;

(E) The Agricultural Adjustment Act of 1938 (7 U.S.C. 1281 *et seq.*) or any successor statute;

(F) Title XII of the Food Security Act of 1985 (16 U.S.C. 3801 *et seq.*) or any successor statute;

(G) The Consolidated Farm and Rural Development Act (7 U.S.C. 1921, *et seq.*) or any successor statute; and

(H) Any federal law that provides assistance to the producer of an agricultural commodity affected by a crop loss or decline in the prices of agricultural commodities.

(ii) Participant or other person, other than a producer, such participant or person will be precluded from participating in any way in the Federal crop insurance program and receiving any monetary or non-monetary benefit under the Act.

(2) With respect to the term of disqualification:

(i) The minimum term will be not less than one year from the effective date determined in §400.454(a)(2);

(ii) The maximum term will be not more than five years from the effective date determined in §400.454(a)(2); and

(iii) Disqualification is to be imposed only in one-year increments, up to the maximum five years.

(3) Once a disqualification becomes final, the name, address, and other identifying information of the participant or other person shall be entered into the Ineligible Tracking System (ITS) maintained by FCIC in accordance with 7 CFR part 400, subpart U, and this information along with a list of the programs that the person is disqualified from shall be promptly reported to the General Services Administration for listing in the System for Award Management (SAM) in accordance with 2 CFR part 417.

(i) It is a participant's responsibility to periodically review the ITS and EPLS to determine those participants and other persons who have been disqualified.

(ii) No participant may conduct business with a disqualified participant or other person if such business directly relates to the Federal crop insurance program, or if, through the business relationship, the disqualified participant

or other person will derive any monetary or non-monetary benefit from a program administered under the Act.

(iii) If a participant or other person does business with a disqualified participant or other person, such participant may be subject to disqualification under this section.

(iv) Continuing to make payments to a disqualified person to fulfill pre-existing contractual or statutory obligations after the business relationship is terminated will not be considered as doing business with a disqualified person unless such payment is used as a means to circumvent the disqualification process.

(f) With respect to civil fines:

(1) A civil fine may be imposed for each violation.

(2) The amount of such civil fine shall not exceed the maximum amount specified in 7 CFR 3.91 (b)(7).

(3) Civil fines are debts owed to FCIC.

(i) A civil fine that is either imposed under with this subpart, or agreed to through an executed settlement agreement with FCIC, must be paid by the specified due date. If the due date is not specified in the order issued by the Administrative Law Judge or Judicial Officer, as applicable, or the settlement agreement, it shall be 30 days after the date the order was issued or the settlement agreement signed by FCIC.

(ii) Any civil fine imposed under this section is in addition to any debt that may be owed to FCIC or to any approved insurance provider, such as overpaid indemnity, underpaid premium, or other amounts owed.

(iii) FCIC, in its sole discretion, may reduce or otherwise settle any civil fine imposed under this section whenever it considers it appropriate or in the best interest of the USDA.

(4) The ineligibility procedures established in 7 CFR part 400, subpart U are not applicable to ineligibility determinations made under this section for nonpayment of civil fines.

(5) If a civil fine has been imposed and the person has not made timely payment for the total amount due, the person is ineligible to participate in the Federal crop insurance program until the amount due is paid in full.

(g) With respect to any person that has been disqualified or is otherwise ineligible due to non-payment of civil fines in accordance with § 400.454(f):

(1) With respect to producers:

(i) All existing insurance policies will automatically terminate as of the next termination date that occurs during the period of disqualification and while the civil fine remains unpaid;

(ii) No new policies can be purchased, and no current policies can be renewed, between the date that the producer is disqualified and the date that the disqualification ends; and

(iii) New application for insurance cannot be made for any agricultural commodity until the next sales closing date after the period of disqualification has ended and the civil fine is paid in full.

(2) With respect to all other persons:

(i) Such person may not be involved in any function related to the Federal crop insurance program during the disqualification or ineligibility period (including the sale, service, adjustment, data transmission or storage, reinsurance, etc. of any crop insurance policy) or receive any monetary or non-monetary benefit from a program administered under the Act.

(ii) If the person is an agent or insurance agency, the producers may cancel their policies sold and serviced by the disqualified agent and rewrite the policy with another agent. If the producer does not cancel and rewrite the policy with another agent, the approved insurance provider must assign the policies to a different agent or agency to service during the period of disqualification or ineligibility. Policies that have been assigned to another agent or agency by the insurance provider will revert back to the disqualified agent or agency after the period of disqualification has ended provided all civil fines are paid in full and the producer does not cancel and rewrite the policy with a different agent or agency;

(iii) If the person is an approved insurance provider, the approved insurance provider shall not sell, or authorize to be sold, any new policies or may not renew, or authorize the renewal of, existing policies, as determined by FCIC, during the period of disqualification or ineligibility. Nothing in this

Federal Crop Insurance Corp., USDA

§ 400.457

provision affects the approved insurance provider's responsibilities with respect to the service of existing policies.

(h) Imposition of disqualification or a civil fine under this section is in addition to any other administrative or legal remedies available under this section or other applicable law including, but not limited to, debarment and suspension.

§ 400.455 Governmentwide debarment and suspension (procurement).

(a) For all transactions undertaken pursuant to the Federal Acquisition Regulations, FCIC will proceed under 48 CFR part 9, subpart 9.4 or 48 CFR part 409 when taking action to suspend or debar persons involved in such transactions, except that the authority to suspend or debar under these provisions will be reserved to the Manager of FCIC, or the Manager's designee.

(b) Any person suspended or debarred under the provisions of 48 CFR part 9, subpart 9.4 or 48 CFR part 409 will not be eligible to contract with FCIC or the Risk Management Agency and will not be eligible to participate in or receive any benefit from any program under the Act during the period of ineligibility. This includes, but is not limited to, being employed by or contracting with any approved insurance provider that sells, services, or adjusts policies offered under the authority of the Act. FCIC may waive this provision if it is satisfied that the person who employs the suspended or debarred person has taken sufficient action to ensure that the suspended or debarred person will not be involved, in any way, with FCIC or receive any benefit from any program under the Act.

[73 FR 76890, Dec. 18, 2008]

(c) The Manager, FCIC, shall be the debarring and suspending official for all debarment or suspension proceedings undertaken by FCIC under the provisions of 2 CFR parts 180 and 417.

Subpart S [Reserved]

Subpart T—Federal Crop Insurance Reform, Insurance Implementation

AUTHORITY: 7 U.S.C. 1506(l) and 1506(p).

SOURCE: 61 FR 42975, Aug. 20, 1996, unless otherwise noted.

§ 400.650 Purpose.

The Reform Act requires FCIC to implement a crop insurance program that offers several levels of insurance coverage for producers. These levels of protection include catastrophic risk protection, and additional coverage insurance. This subpart provides notice of the availability of these crop insurance options and establishes provisions and requirements for implementation

of the insurance provisions of the Reform Act.

[61 FR 42975, Aug. 20, 1996, as amended at 68 FR 37721, June 25, 2003]

§ 400.651 Definitions.

Act. The Federal Crop Insurance Act, as amended (7 U.S.C. 1501 *et seq.*).

Additional coverage. A level of coverage greater than catastrophic risk protection.

Administrative fee. An amount the producer must pay for catastrophic, and additional coverage each crop year on a per crop and county basis as specified in the Basic Provisions or the Catastrophic Risk Protection Endorsement.

Approved insurance provider. A private insurance company, including its agents, that has been approved and re-insured by FCIC to provide insurance coverage to producers participating in the Federal crop insurance program.

Approved yield. The actual production history (APH) yield, calculated and approved by the verifier, used to determine the production guarantee by summing the yearly actual, assigned, adjusted or unadjusted transitional yields and dividing the sum by the number of yields contained in the database, which will always contain at least four yields. The database may contain up to 10 consecutive crop years of actual or assigned yields. The approved yield may have yield adjustments elected under applicable policy provisions, or other limitations according to FCIC approved procedures applied when calculating the approved yield.

Catastrophic risk protection. The minimum level of coverage offered by FCIC which is required before a person may qualify for certain other USDA program benefits unless the producer executes a waiver of any eligibility for emergency crop loss assistance in connection with the crop. For the 1995 through 1998 crop years, such coverage will offer protection equal to fifty percent (50%) of the approved yield indemnified at sixty percent (60%) of the expected market price, or a comparable coverage as established by FCIC. For the 1999 and subsequent crop years, such coverage will offer protection equal to fifty percent (50%) of the approved yield indemnified at fifty-five

Federal Crop Insurance Corp., USDA

§ 400.652

percent (55%) of the expected market price, or a comparable coverage as established by FCIC.

Catastrophic Risk Protection Endorsement. The part of the crop insurance policy that contains provisions of insurance that are specific to catastrophic risk protection.

Crop of economic significance. A crop that has either contributed in the previous crop year, or is expected to contribute in the current crop year, ten percent (10%) or more of the total expected value of the producer's share of all crops grown in the county. However, a crop will not be considered a crop of economic significance if the expected liability under the Catastrophic Risk Protection Endorsement is equal to or less than the administrative fee required for the crop.

Expected market price. (price election) The price per unit of production (or other basis as determined by FCIC) anticipated during the period the insured crop normally is marketed by producers. This price will be set by FCIC before the sales closing date for the crop. The expected market price may be less than the actual price paid by buyers if such price typically includes remuneration for significant amounts of post-production expenses such as conditioning, culling, sorting, packing, etc.

FCIC. The Federal Crop Insurance Corporation, a wholly owned Government Corporation within USDA.

FSA. The Farm Service Agency, an agency of the United States Department of Agriculture or any successor agency.

Insurable interest. The value of the producer's interest in the crop that is at risk from an insurable cause of loss during the insurance period. The maximum indemnity payable to the producer may not exceed the indemnity due on the producer's insurable interest at the time of loss.

Intended crop. A crop stated on the application as submitted on or before the sales closing date for the crop which the producer intended to plant in the crop year for which application is made.

Linkage requirement. The legal requirement that a producer must obtain at least catastrophic risk protection

coverage for any crop of economic significance as a condition of receiving benefits for such crop from certain other USDA programs in accordance with § 400.655, unless the producer executes a waiver of any eligibility for emergency crop loss assistance in connection with the crop.

Person. An individual, partnership, association, corporation, estate, trust, or other legal entity, and wherever applicable, a state or a political subdivision or agency of a state.

Reform Act. The Federal Crop Insurance Reform Act of 1994, Public Law 103-354.

Secretary. The Secretary of the United States Department of Agriculture.

Substitute crop. An alternative crop whose sales closing date has passed and that is planted on acreage that is prevented from being planted to an intended crop or where an intended crop is planted and fails.

Zero acreage report. An acreage report filed by the producer that certifies that the producer does not have a share in the crop for that crop year.

[61 FR 42975, Aug. 20, 1996, as amended at 63 FR 40634, July 30, 1998; 64 FR 40742, July 28, 1999; 68 FR 37721, June 25, 2003]

§ 400.652 Insurance availability.

(a) If sufficient actuarial data are available, FCIC will offer catastrophic risk protection, and additional coverage plans of insurance to indemnify persons for FCIC insured or reinsured crop loss due to loss of yield or prevented planting, if the crop loss or prevented planting is due to an insured cause of loss specified in the applicable crop insurance policy.

(b) Catastrophic risk protection coverage may be offered through approved insurance providers and through local offices of the Farm Service Agency specified by the Secretary. Additional coverage will only be offered through approved insurance providers unless there is not a sufficient number of approved insurance providers that offer such insurance within a service area.

(c) A person must obtain at least catastrophic risk protection for the crop on all insurable acreage in the county in which the person has a share on or before the sales closing date designated

§ 400.653

7 CFR Ch. IV (1–1–25 Edition)

by FCIC for the crop in the county in order to satisfy the linkage requirements unless the producer executes a waiver of any eligibility for emergency crop loss assistance in connection with the crop.

(d) For additional coverage, in areas where insurance is not available for a particular agricultural commodity that is insurable elsewhere, FCIC may enter into a written agreement with a person to insure the commodity, provided that the person has actuarially sound data relating to the production of the commodity that is acceptable to FCIC and that such written agreement is specifically allowed by the crop insurance regulations applicable to the crop.

(e) Failure to comply with all provisions of the policy constitutes a breach of contract and may result in ineligibility for certain other farm program benefits for that crop year and any benefit already received must be refunded. If a producer breaches the insurance contract, the execution of a waiver of eligibility for emergency crop loss assistance will not be effective for the crop year in which the breach occurred.

[61 FR 42975, Aug. 20, 1996, as amended at 68 FR 37721, June 25, 2003]

§ 400.653 Determining crops of economic significance.

To be eligible for certain other program benefits under § 400.655 the following conditions will apply with respect to crops of economic significance if the producer does not execute a waiver of any eligibility for emergency crop loss assistance in connection with the crop.

(a) If a producer planted a crop of economic significance in the preceding crop year, and does not intend to plant the same crop in the present crop year, the producer does not have to obtain insurance coverage or execute a waiver of any eligibility for emergency crop loss assistance in connection with the crop in the present crop year to comply with the linkage requirements. However, if the producer later decides to plant that crop, the producer will be unable to obtain insurance after the sales closing date and must execute a waiver of any eligibility for emergency

crop loss assistance in connection with the crop to be eligible for benefits as specified in § 400.655. Failure to execute such a waiver will require the producer to refund any benefits already received under a program specified in § 400.655.

(b) The producer is initially responsible to determine the crops of economic significance in the county. The insurance provider may assist the producer in making these initial determinations. However, these determinations will not be binding on the insurance provider. To determine the percentage value of each crop:

(1) Multiply the acres planted to the crop times the producer's share, times the approved yield, and times the price;

(2) Add the values of all crops grown by the producer (in the county); and

(3) Divide the value of the specific crop by the result of paragraph (b)(2).

(c) The producer may use the type of price, such as the current local market price, futures price, established price, highest amount of insurance, etc., for the price when calculating the value of each crop, provided that the producer uses the same type of price for all crops in the county.

(d) The producer may be required to justify the calculation and provide adequate records to enable the insurance provider to verify whether a crop is of economic significance.

[61 FR 42975, Aug. 20, 1996, as amended at 64 FR 40742, July 28, 1999]

§ 400.654 Application and acreage report.

(a) To participate in catastrophic risk protection, or additional coverage plans of insurance, a producer must submit an application for insurance on or before the applicable sales closing date.

(b) In order to remain eligible for certain farm programs, as specified in § 400.655, a producer must obtain at least catastrophic risk protection on all crops of economic significance, if catastrophic risk protection is available in the county, unless the producer executes a waiver of any eligibility for emergency crop loss assistance in connection with the crop.

(c) Notwithstanding the requirements of § 400.654(a) that applications for insurance be submitted on or before

Federal Crop Insurance Corp., USDA

§ 400.675

the applicable sales closing date, FCIC may permit a producer to insure crops other than those specified on the application under the following conditions:

(1) The producer must be unable to plant the intended crop or it is not practical to replant a failed crop before the final planting date. FCIC will take into consideration marketing windows when determining whether it was not practical to replant.

(2) Conditions must exist to warrant allowing a producer to insure crops other than the intended crop.

(3) The producer must submit an application for the substitute crop on or before the acreage reporting date for the substitute crop and pay any applicable administrative fee. A producer may not substitute a crop that the producer planted in the preceding crop year unless that crop was listed on a timely filed application for the current crop year.

(4) If the producer plants a substitute crop that is a crop of economic significance, the producer must obtain CAT coverage, if available, to comply with the linkage requirements specified in § 400.655. The producer may not substitute a crop under this provision if the producer has signed or intends to sign a waiver for emergency crop loss assistance for the crop year.

(5) The substitute crop must be planted on or before the final planting date or within the late planting period, if applicable, for the substitute crop.

(6) Under no circumstances may a producer submit an application for additional coverage after the sales closing date for the substitute crop.

(d) For all coverages, including catastrophic risk protection, and additional coverages, the producer must file a signed acreage report on or before the acreage reporting date. Any person may sign any document relative to crop insurance coverage on behalf of any other person covered by such a policy, provided that the person has a properly executed power of attorney or other legally sufficient document authorizing such person to sign.

(e) Under catastrophic risk protection, unless the other person with an insurable interest in the crop objects in writing prior to the acreage reporting date and provides a signed acreage re-

port on their own behalf an operator may sign the acreage report for all other persons with an insurable interest in the crop without a power of attorney. All persons with an insurable interest in the crop, and for whom the operator purports to sign and represent, are bound by the information contained in that acreage report.

[61 FR 42975, Aug. 20, 1996, as amended at 64 FR 40742, July 28, 1999; 68 FR 37721, June 25, 2003]

§ 400.655 Eligibility for other program benefits.

The producer must obtain at least catastrophic coverage for each crop of economic significance in the county in which the producer has an insurable share, if insurance is available in the county for the crop, unless the producer executes a waiver of any eligibility for emergency crop loss assistance in connection with the crop, to be eligible for:

(a) Benefits under the Agricultural Market Transition Act;

(b) Loans or any other USDA provided farm credit, including: guaranteed and direct farm ownership loans, operating loans, and emergency loans under the Consolidated Farm and Rural Development Act provided after October 13, 1994; and

(c) Benefits under the Conservation Reserve Program derived from any new or amended application or contract executed after October 13, 1994.

 - (1) The existence and delinquency of the debt must be verifiable.
 - (2) The person has to be provided a meaningful opportunity to contest the debt.
 - (3) If the person contests the debt, such action does not delay or preclude:
 - (i) Effect of the determination of ineligibility;
 - (ii) Determination or notification of ineligibility in accordance with § 400.682;
 - (iii) Termination of the applicable crop insurance policies; or
 - (iv) Ineligible persons being reported in accordance with § 400.682 or the ineligible persons being recorded in the ITS.
 - (4) If the person is determined not to owe the debt, eligibility is reinstated retroactive to the date of the determination of ineligibility, any applicable policies will be reinstated, and any applicable indemnity, prevented planting or replant payment earned may be paid provided the person has continued to comply with the terms of the policy;

§ 400.680

(b) Is an individual and has been convicted of a controlled substance violation according to § 400.680;

(c) Has been disqualified under section 515(h) of the Act.;

(d) Is an individual and is not a United States citizen, United States non-citizen national, or a qualified alien. Such individuals may not be recorded in the ITS; however, such individuals are ineligible under the provisions of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, 8 U.S.C. 1611;

(e) Has been suspended or debarred for committing a crime specified in 2 CFR part 180 or 2 CFR part 417, or 7 U.S.C. 2209j (Ineligibility determinations will not be stayed pending review. However, reversal of the determination of ineligibility will reinstate eligibility retroactive to the date of the determination of ineligibility, and any applicable policies will be reinstated);

(f) Has been debarred for knowingly doing business with a person debarred or suspended under 2 CFR part 180 or 2 CFR part 417 or 7 U.S.C. 2209j; or

(g) Has requested the Administrator, Risk Management Agency, for consideration to reinstate their eligibility in accordance with the applicable policy provisions and such request has been denied.

[79 FR 2079, Jan. 13, 2014, as amended at 79 FR 37161, July 1, 2014; 81 FR 42472, June 30, 2016]

§ 400.680 Controlled substance.

(a) This section implements section 1764 of the Food Security Act of 1985 (Pub. L. 99-198) and Chapter 13 of Title 21 requiring the denial of Federal Benefits, including crop insurance, to individuals convicted of controlled substance violations in accordance with paragraphs (b) and (c) of this section.

(b) Notwithstanding any other provision of law, an individual will be ineligible to participate in any program authorized under the Act, as provided in § 400.683, if the individual is convicted under Federal or State law of planting, cultivating, growing, producing, harvesting, or storing a controlled substance in any crop year.

(c) Notwithstanding any other provision of law, an individual may, as de-

7 CFR Ch. IV (1-1-25 Edition)

termined by the court, be ineligible to participate in any program authorized under the Act, as provided in § 400.683, if the person is convicted under Federal or State law of possession of or trafficking in a controlled substance.

§ 400.681 Written payment agreement.

(a) Written payment agreements shall:

(1) Require scheduled installment payments that will allow for full repayment of the debt within the time frame allotted in paragraph (a)(2) of this section;

(2) Not exceed two years in duration; and

(3) Not be modified, replaced, or consolidated after it has been executed in accordance with paragraph (b) of this section.

(b) To avoid being determined to be ineligible through the execution of a written payment agreement:

(1) For a debt arising from any unpaid premium, administrative fees, or catastrophic risk protection fees:

(i) Only one written payment agreement is permitted per termination date. A written payment agreement may cover multiple crops provided they all have the same termination date; and

(ii) The written payment agreement must be signed by both parties, the debtor and the insurance provider or FCIC, as applicable, on or before the termination date specified in the applicable policy to prevent an ineligible determination for a delinquent debt.

(2) For all other debts, the written payment agreement must be signed by both parties, the debtor and the insurance provider or FCIC, as applicable, on or before the due date specified in the notice to the person of the amount due to prevent an ineligible determination for a delinquent debt.

§ 400.682 Determination and notification.

(a) The insurance provider must send a written notice of the debt to the person, including the time frame in which the debt must be paid, and provide the person with a meaningful opportunity to contest the amount or existence of the debt. Once a debtor has filed bankruptcy and the insurance provider is

formally informed of such through the court or the debtor, no request for payment of the debt can be made, unless approved in writing by the Office of General Counsel. The debtor may be notified of the amount of debt and ineligibility for crop insurance.

(1) The insurance provider shall evaluate the person's response, if any, and determine if the debt is owed and delinquent.

(2) Upon request by FCIC, the insurance provider shall submit all documentation related to the debt to FCIC.

(b) If an insurance provider or any other person has evidence that a person meets criteria set forth in § 400.679(a), (b), (c), (e) or (f), they must immediately notify FCIC.

(c) After the insurance provider determines a person has met one or more of the criteria in § 400.679 and notifies FCIC, FCIC will issue and mail a Notice of Ineligibility to the person's last known address and to the insurance provider. Notices sent to such address will be conclusively presumed to have been received by that person.

(d) The Notice of Ineligibility will state the criteria upon which the determination of ineligibility has been based, a brief statement of the facts to support the determination, the time period of ineligibility, and the right to appeal the determination to be placed on the ITS in accordance with paragraph (e) of this section.

(e) Within 30 days of receiving the Notice of Ineligibility, the ineligible person may appeal FCIC's determination to be placed on ITS to the National Appeals Division in accordance with 7 CFR part 11. The existence and amount of the debt is determined by the insurance provider, not FCIC; therefore, those determinations are not appealable to the National Appeals Division.

(f) If the person appeals FCIC's determination to be placed on ITS to the National Appeals Division, the insurance provider will be notified and provided with an opportunity to participate in the proceeding, if permitted by 7 CFR part 11.

(g) No later than 60 days after the termination date, a missed payment date of a previously executed written payment agreement, or in the case of

an overpaid indemnity or any amount that became due after the termination date, the due date specified in a notice to the person of an amount due, as applicable, such ineligible person may request consideration for reinstatement from the Administrator, Risk Management Agency, in accordance with section 2 of the Common Crop Insurance Policy Basic Provisions (7 CFR 457.8).

[79 FR 2079, Jan. 13, 2014, as amended at 79 FR 37161, July 1, 2014; 81 FR 42472, June 30, 2016]

§ 400.683 Period of ineligibility.

(a) The beginning of the period of ineligibility will be:

(1) For ineligibility as a result of a delinquent debt, beginning on the date stated in the applicable policy;

(2) For ineligibility as a result of a conviction under Federal or State law of:

(i) Planting, cultivating, growing, producing, harvesting, or storing a controlled substance, the beginning of the crop year in which the individual is convicted; or

(ii) Possession of or trafficking in a controlled substance, the beginning of the crop year in which the individual is convicted, unless determined otherwise by the court.

(3) For ineligibility as a result of a disqualification, debarment, or suspension under 515(h) of the Act, 2 CFR part 180, 2 CFR part 417, the date the person was disqualified, debarred, or suspended by debarring official, Administrative Law Judge, or such other person authorized to take such action; and

(4) For debarment under 7 U.S.C. 2209j, the beginning of the crop year in which the person is convicted.

(b) The duration of the period of ineligibility will be:

(1) For ineligibility as a result of a delinquent debt, until the debt has been paid in full discharged in bankruptcy, or the person has executed a written payment agreement.

(2) For ineligibility as a result of a conviction under Federal or State law of:

(i) Planting, cultivating, growing, producing, harvesting, or storing a controlled substance, four crop years succeeding the crop year in which the person was convicted; and

§ 400.684

7 CFR Ch. IV (1–1–25 Edition)

(ii) Possession of a controlled substance or trafficking in a controlled substance, in addition to the time of ineligibility imposed in paragraph (b)(2)(i) of this section, until the period of time imposed by a court has expired.

(3) For ineligibility as a result of a disqualification, debarment, or suspension under section 515(h) of the Act, or 2 CFR part 180 and 2 CFR part 417 until the period of time of disqualification, debarment, or suspension, as applicable, has expired.

(4) For ineligibility as a result of not being a United States citizen, United States non-citizen national, or a qualified alien, until the date such individual becomes a United States citizen, United States non-citizen national, or a qualified alien.

(5) For ineligibility as a result of a conviction falling under 7 U.S.C. 2209j, permanent unless otherwise determined by the Secretary of Agriculture for a period of not less than 10 years.

§ 400.684 Effect of ineligibility.

(a) The effect of ineligibility depends on the basis for the determination.

(1) Persons who are ineligible as a result of a delinquent debt are ineligible for crop insurance authorized under the Act for a certain time period in accordance with § 400.683. Filing for bankruptcy does not make the person eligible for crop insurance or preclude the ineligible person from being placed on the ITS in accordance with § 400.684(b)(1).

(2) Persons who are ineligible as a result of a suspension or debarment are precluded from:

(i) Participating in all programs authorized under the Act, including but not limited to:

(A) Obtaining crop insurance;

(B) Acting as an agent, loss adjuster, insurance provider, or affiliate, as defined in the Standard Reinsurance Agreement or Livestock Price Reinsurance Agreement, or successor agreements;

(C) Entering into any contracts with FCIC under sections 506(l) and section 522(c) of the Act; and

(D) Entering into any cooperative agreements or partnerships under sections 506(l), 522(d) and 524(a) of the Act; and

(ii) Participating in any other covered transaction as specified in 2 CFR part 180 and 2 CFR part 417.

(3) Persons who are ineligible because of disqualification under section 515(h) of the Act are precluded from participating in all programs authorized under the Act indicated in paragraph (a)(2)(i) of this section, and those listed in section 515(h)(3)(B) and (C) of the Act.

(4) Individuals who are ineligible because of a conviction of a violation of the controlled substance provisions or are not a United States citizen, United States non-citizen national, or a qualified alien are precluded from participating in any program authorized under the Act indicated in paragraph (a)(2)(i) of this section.

(5) Persons who are ineligible as a result of a conviction falling under 7 U.S.C. 2209j, are precluded from participating in any program offered by USDA.

(b) Once a person has been determined to be ineligible:

(1) The ineligible person will be placed on the ITS and may be reported to other government agencies, unless the ineligible person is an individual and the sole reason for ineligibility is because the individual is not a United States citizen, United States non-citizen national, or qualified alien.

(2) If the ineligible person is an individual:

(i) All crop insurance policies in which the ineligible person is the sole insured will terminate if the person is ineligible for any reason other than a controlled substance violation, or be void if the person is ineligible due to conviction of a controlled substance violation according to § 400.680, and the person will remain ineligible for crop insurance for the applicable period specified in § 400.683; and

(ii) The ineligible person must be reported on all policies in which the ineligible person has a substantial beneficial interest in the applicant or insured, and the insured share under such policy will be reduced commensurate with the ineligible person's substantial beneficial interest in the applicant or insured for as long as the ineligible person remains ineligible in accordance with § 400.683.

(3) If the ineligible person is a general partnership, limited partnership, limited liability partnership, limited liability company, or joint venture and is ineligible as a result of:

(i) A delinquent debt:

(A) All partners or members of the ineligible general partnership, limited partnership, limited liability partnership, limited liability company, or joint venture will be ineligible;

(B) The ineligible general partnership, limited partnership, limited liability partnership, limited liability company, or joint venture and all partners and members of the ineligible general partnership, limited partnership, limited liability partnership, limited liability company, or joint venture will remain ineligible for crop insurance for the applicable period specified in § 400.683;

(C) All crop insurance policies in which the ineligible general partnership, limited partnership, limited liability partnership, limited liability company, or joint venture is the sole insured will terminate;

(D) All crop insurance policies in which the ineligible partner or member is the sole insured will terminate; and

(E) The ineligible general partnership, limited partnership, limited liability partnership, limited liability company, or joint venture and all ineligible partners or members must be reported on any other policy in which they have a substantial beneficial interest in the applicant or insured, and the insured share under such policies will be reduced commensurate with the ineligible general partnership, limited partnership, limited liability partnership, limited liability company, or joint venture or the ineligible partners' or members' substantial beneficial interest in the applicant or insured for as long as they remain ineligible in accordance with § 400.683; or

(ii) Meeting the criteria specified in § 400.679(c), (e) or (f):

(A) All crop insurance policies in which the ineligible general partnership, limited partnership, limited liability partnership, limited liability company, or joint venture is the sole insured will terminate, and the ineligible general partnership, limited partnership, limited liability partnership,

limited liability company, or joint venture will remain ineligible for crop insurance for the applicable period specified in § 400.683; and

(B) The ineligible general partnership, limited partnership, limited liability partnership, limited liability company, or joint venture must be reported on any other policy in which it has a substantial beneficial interest in the applicant or insured, and the insured share under such policies will be reduced commensurate with the ineligible general partnership's, limited partnership's, limited liability partnership's, limited liability company's, or joint venture's substantial beneficial interest in the applicant or insured for as long as it remains ineligible in accordance with § 400.683.

(4) If the ineligible person is an association, estate, trust, corporation, or other similar entity, and is ineligible as a result of:

(i) A delinquent debt:

(A) Any partners, members, shareholders, administrators, executors, trustees, or grantors may be individually ineligible if the delinquent debt occurred as a result of their actions or inactions, as determined by the insurance provider or FCIC;

(B) All policies in which the ineligible association, estate, trust, corporation, or other similar entity is the sole insured will terminate, and it will remain ineligible for crop insurance for the applicable period specified in § 400.683.

(C) The ineligible association, estate, trust, corporation, or other similar entity must be reported on any other policy in which it has a substantial beneficial interest in the applicant or insured, and the insured share under such policies will be reduced commensurate with the ineligible entity's substantial beneficial interest in the applicant or insured for as long as the person remains ineligible in accordance with § 400.683;

(D) All policies in which a partner, member, shareholder, administrator, executor, trustee, or grantor determined ineligible according to § 400.684(b)(4)(i)(A) is the sole insured will terminate, and the person will remain ineligible for crop insurance for

§ 400.684

7 CFR Ch. IV (1–1–25 Edition)

the applicable period specified in § 400.683; and

(E) The ineligible partner, member, shareholder, administrator, executor, trustee, or grantor must be reported on any other policy in which they have a substantial beneficial interest in the applicant or insured, and the insured share under such policies will be reduced commensurate with the ineligible person's substantial beneficial interest in the applicant or insured for as long as the person remains ineligible in accordance with § 400.683; or

(ii) Meeting the criteria specified in § 400.679(c), (e) or (f):

(A) All crop insurance policies in which the ineligible association, estate, trust, corporation, or other similar entity is the sole insured will terminate, and the ineligible association, estate, trust, corporation, or other similar entity will remain ineligible for crop insurance for the applicable period specified in § 400.683; and

(B) The ineligible association, estate, trust, corporation, or other similar entity must be reported on any other policy in which it has a substantial beneficial interest in the applicant or insured, and the insured share under such policies will be reduced commensurate with the ineligible association, estate, trust, corporation, or other similar entity's substantial beneficial interest in the applicant or insured for as long as it remains ineligible in accordance with § 400.683.

(5) If an applicant or insured is a corporation, partnership, joint venture, trust, corporation, limited liability company, limited liability partnership, limited partnership, or other similar entity that was created to conceal the interest of an ineligible person or to evade the ineligibility determination of a person with a substantial beneficial interest in the applicant or insured, the policy will be void.

(6) All crop insurance policies in which the ineligible person is insured as landlord/tenant will terminate on the next termination date. The other person(s) on such policy may submit a new application for crop insurance coverage on or before the applicable sales closing date to obtain insurance coverage for the crop, if they are otherwise eligible for such coverage.

(c) The spouse and minor child of an individual insured is considered to be the same as the individual for purposes of this subpart and subject to the same ineligibility, except when:

(1) The individual is ineligible due to a conviction of a controlled substance violation in accordance with § 400.680;

(2) The individual is ineligible as a result of a felony conviction for knowingly defrauding the United States in connection with any program administered by USDA;

(3) The individual is ineligible because they are not a United States citizen, United States non-citizen national, or a qualified alien;

(4) The individual is ineligible as a result of a disqualification, debarment, or suspension;

(5) The spouse can prove they are legally separated or otherwise legally separate under the applicable State dissolution of marriage laws; or

(6) The minor child has a separate legal interest in such person or is engaged in a separate farming operation from the individual.

(d) Notwithstanding § 400.684(f), when a policy is voided in accordance with this subpart:

(1) No indemnities or payments will be paid for the voided policy;

(2) Any indemnities or payments already made for the voided policy will be declared overpayments and must be repaid in full; and

(3) No premiums will be due and any premium paid will be refunded except when the policy is void due to a conviction of a controlled substance violation according to § 400.680, in which case the insured will still be required to pay 20 percent of the premium the insured would otherwise be required to pay to offset costs in the servicing of the policy.

(e) When the insured share of a policy is reduced in accordance with this subpart:

(1) Any indemnities or payments commensurate with the share reduced already made will be declared overpayments and must be repaid in full; and

(2) Any premiums paid by the insured commensurate with the share reduced will be refunded.

(f) Any insurance written by an insurance provider to any person who is

Federal Crop Insurance Corp., USDA

§ 400.686

ineligible under the provisions of this subpart is not eligible for reinsurance by FCIC. All premium subsidies, expenses, or other payments made by FCIC for insurance written for any person who is ineligible under the provisions of this subpart must be immediately refunded to FCIC. However, with regard to policies that would be void due to a conviction of a controlled substance violation according to § 400.680, if the insurance provider follows the procedures of FCIC and the requirements of the regulations, reinsurance will continue to be provided under the reinsurance agreement on the policy unless it is shown that the agent or insurance provider had knowledge of the facts which would indicate ineligibility on the part of the insured and failed to act on that knowledge.

§ 400.685 Criteria for regaining eligibility.

After the period of ineligibility as specified in § 400.683 has ended, the ineligible person is eligible to participate in programs authorized under the Act, provided the person meets all eligibility requirements.

(a) After a person regains eligibility for crop insurance when their policy was terminated or voided, the person must submit a new application for crop insurance coverage on or before the applicable sales closing date to obtain insurance coverage for the crop. If the date of regaining eligibility occurs after the applicable sales closing date for the crop, the person may not participate until the following year unless that crop policy allows for applications to be accepted after the sales closing date.

(b) If a person who was determined ineligible according to this subpart is subsequently determined to be an eligible person for crop insurance through reinstatement, mediation, arbitration, appeal, or judicial review, such person's policies will be reinstated effective at the beginning of the crop year for which the producer was determined ineligible, and such person will be entitled to all applicable benefits under such policies, provided the person

meets all eligibility requirements and complies with the terms of the policy.

§ 400.686 Administration and maintenance.

(a) Ineligible producer data will be maintained in a system of records established and maintained by the Risk Management Agency in accordance with the Privacy Act (5 U.S.C. 552a).

(1) The ITS contains identifying information of the ineligible person, including but not limited to, name, address, telephone number, SSN or EIN, reason for ineligibility, and time period of ineligibility.

(2) Information in the ITS may be used by an authorized person. The information may be furnished to other users as may be appropriate or required by law or regulation, including but not limited to, FCIC contracted agencies, other government agencies, credit reporting agencies, and collection agencies, and in response to judicial orders in the course of litigation. The individual information may be made available in the form of various reports and notices.

(3) Supporting documentation regarding the determination of ineligibility and reinstatement or regaining of eligibility will be maintained by FCIC, or its contractors, insurance providers, Federal agencies, and State agencies. This documentation will be maintained and retained consistent with the electronic information contained within the ITS.

(b) Information may be entered into the ITS by FCIC employees or contractors, or insurance providers.

(c) All persons applying for crop insurance policies or with an existing policy, issued or reinsured by FCIC, will be subject to validation of their eligibility status against the ITS. Applications, transfers, or benefits approved and accepted are considered approved or accepted subject to review of eligibility status in accordance with this subpart.

(d) Insurance providers, partners, co-operators, and contractors must check to ensure that the persons with whom they are doing business are eligible to participate in the programs authorized

§ 400.700

7 CFR Ch. IV (1–1–25 Edition)

under the Act. Insurance providers, partners, cooperators, and contractors must check the ITS but the ITS may not include all persons ineligible to receive government benefits, such as persons debarred, disqualified or suspended from receiving government benefits by an agency other than FCIC. Insurance providers, partners, cooperators, and contractors must check other sources that contain ineligible persons, including but not limited to EPLS, or successor list, provide data on persons ineligible to participate in programs authorized under the Act.

Subpart V—Submission of Policies, Provisions of Policies, Rates of Premium, and Non-Reinsured Supplemental Policies

SOURCE: 81 FR 53673, Aug. 12, 2016, unless otherwise noted.

§ 400.700 Basis, purpose, and applicability.

This subpart establishes guidelines, the approval process, and responsibilities of FCIC and the applicant for policies, provisions of policies, and rates of premium submitted to the Board as authorized under section 508(h) of the Act. It also provides procedures for reimbursement of research and development costs and maintenance costs for concept proposals and approved 508(h) submissions. Guidelines for submitting concept proposals and the standards for approval and advance payments are provided in this subpart. This subpart also provides guidelines and reference to procedures for submitting index-based weather plans of insurance as authorized under section 523(i) of the Act. The procedures for submitting non-reinsured supplemental policies in accordance with the Standard Reinsurance Agreement (SRA) are also contained within.

§ 400.701 Definitions.

508(h) submission. A policy, plan of insurance, provision of a policy or plan of insurance, or rates of premium provided by an applicant to FCIC in accordance with the requirements of § 400.705.508(h) submissions as referenced in this subpart do not include

concept proposals, index-based weather plans of insurance, or non-reinsured supplemental policies.

Act. Subtitle A of the Federal Crop Insurance Act, as amended (7 U.S.C. 1501–1524).

Actuarial documents. The information for the crop or insurance year that is available for public inspection in an agent's office and published on RMA's Web site, and that shows available insurance policies, coverage levels, information needed to determine amounts of insurance and guarantees, prices, premium rates, premium adjustment percentages, practices, particular types or varieties of the insurable crop or agricultural commodity, insurable acreage, and other related information regarding insurance in the county or state.

Actuarially appropriate. A term used to describe premium rates when such rates are expected to cover anticipated losses and establish a reasonable reserve based on valid reasoning, an examination of available risk data, or knowledge or experience of the expected value of future costs associated with the risk to be covered. This will be expressed by a combination of data including, but not limited to liability, premium, indemnity, and loss ratios based on actual data or simulations reflecting the risks covered by the policy.

Administrative and operating (A&O) subsidy. The subsidy for the administrative and operating expenses authorized by the Act and paid by FCIC on behalf of the producer to the approved insurance provider. Loss adjustment expense reimbursement paid by FCIC for catastrophic risk protection (CAT) eligible crop insurance contracts is not considered as A&O subsidy.

Advance payment. A portion, up to 50 percent, of the estimated research and development costs, that may be approved by the Board under section 522(b) of the Act for an approved concept proposal. Upon request of the submitter the Board may at its sole discretion provide up to an additional 25 percent advance payment of the estimated research and development costs after the applicant begins research and development activities if:

(1) The concept proposal will provide coverage for a region or crop that is underserved, including specialty crops; and

(2) The submitter is making satisfactory progress towards developing a viable and marketable 508(h) submission.

Agent. An individual licensed by the State in which an eligible crop insurance contract is sold and serviced for the reinsurance year, and who is employed by, or under contract with, the approved insurance provider, or its designee, to sell and service such eligible crop insurance contracts.

Concept proposal. A written proposal for a prospective 508(h) submission, submitted under section 522(b) of the Act for advance payment of research and development costs, and containing

all the information required in this regulation and the Procedures Handbook 17030—Approved Procedures for Submission of Concept Proposals Seeking Advance Payment of Research and Development Costs, which can be found on the RMA Web site at www.rma.usda.gov, such that the Board is able to determine that, if approved, will be developed into a viable and marketable policy consistent with Board approved procedures, these regulations, and section 508(h) of the Act.

Delivery system. The components or parties that make the policy or plan of insurance available to the public for sale.

Development. The process of composing documentation and procedures, pricing and rating methodologies, administrative and operating procedures, systems and software, supporting materials, and documentation necessary to create and implement a 508(h) submission.

Index-based weather plan of insurance. A risk management product in which indemnities are based on a defined weather parameter exceeding or failing to meet a given threshold during a specified time period. The weather index is a proxy to measure expected loss of production when the defined weather parameter does not meet the threshold.

Limited resource producer. Has the same meaning as the term defined by USDA at: www.lrfstool.sc.egov.usda.gov/LRP_Definition.aspx or a successor Web site.

National Agricultural Statistics Service (NASS). An agency within USDA, or its successor agency that collects and analyzes data collected from producers and other sources.

Non-reinsured supplemental policy (NRS). A policy, endorsement, or other risk management tool not reinsured by FCIC under the Act, that offers additional coverage, other than for loss related to hail.

Non-significant changes. Minor changes to the policy or plan of insurance, such as technical corrections, that do not affect the rating or pricing methodologies, the amount of subsidy owed, the amount or type of coverage, FCIC's reinsurance risk, or any other condition that does not affect liability or the amount of loss to be paid under the policy. Revisions to approved plans required by statutory or regulatory changes are included in this category. based weather plan of insurance, and the results of RMA's initial review, to the Board for its determination of completeness and quality.

(b) Upon the Board's receipt of a 508(h) submission, the Board will:

(1) Determine if the 508(h) submission is complete (the date the Board votes to contract with expert reviewers is the date the 508(h) submission is deemed to be complete for the start of the 120 day time-period for approval);

(2) Unless the 508(h) submission makes non-significant changes to a policy or plan of insurance, or involves policy provisions that have already undergone expert review, forward the complete 508(h) submission to at least five expert reviewers to review the 508(h) submission:

(i) Of the five expert reviewers, no more than one will be employed by the Federal Government, and none may be employed by any approved insurance provider or their representative; and

(L) If applicable, contains a consultation report that provides evidence the 508(h) submission will not create adverse market distortions; and

(M) Meets any other criteria the Board may deem necessary;

(3) Return to the applicant any 508(h) submission the Board determines is not complete, along with an explanation of the reason for the determination and:

(i) With respect to 508(h) submissions developed from approved concept proposals, the provisions in § 400.712(c)(1) shall apply; and

(ii) Except for 508(h) submissions developed from concept proposals, if the 508(h) submission is resubmitted at a later date, it will be considered a new 508(h) submission solely for the purpose of determining the amount of time that the Board must take action; and

(4) For complete 508(h) submissions:

(i) Request review by RMA to provide its assessment of whether the 508(h) submission:

(A) Meets the criteria listed in subsections (b)(2)(ii)(A) through (M);

(B) Is consistent with USDA's public policy goals;

(C) Does not increase or shift risk to any other FCIC reinsured policy;

(D) Can be implemented, administered, and delivered effectively and efficiently using RMA's information technology and delivery systems; and

(E) Contains requested amounts of government reinsurance, risk subsidy, and administrative and operating subsidies that are reasonable and appropriate for the type of coverage provided by the policy; and

(ii) Seek review from the Office of the General Counsel (OGC) to determine if the 508(h) submission conforms to the requirements of the Act and all applicable Federal statutes and regulations.

(c) Upon the Board's receipt of a concept proposal, the Board will:

(1) Determine whether the concept proposal is complete (the date the

Board votes to contract with expert reviewers is the date the concept proposal is deemed to be a complete concept proposal for the start of the 120 day time-period for approval);

(2) If complete, forward the concept proposal to at least two expert reviewers with underwriting or actuarial experience to review the concept in accordance with section 522(b)(2) of the Act, this subpart, and Procedures Handbook 17030—Approved Procedures for Submission of Concept Proposals Seeking Advance Payment of Research and Development Costs;

(3) Return to the applicant any concept proposal the Board determines is not complete, along with an explanation of the reason for the determination (If the concept proposal is resubmitted at a later date, it will be considered a new concept proposal solely for the purposes of determining the amount of time that the Board must take action);

(4) Determine whether the concept proposal, if developed into a policy or plan of insurance would, in good faith, would meet the requirement of being likely to result in a viable and marketable policy consistent with section 508(h) (if the applicant cannot obtain a marketability assessment by another AIP, the Board shall presume that the submission is unmarketable);

(5) At its sole discretion, determine whether the concept proposal, if developed into a policy or plan of insurance would meet the requirement of providing coverage:

(i) In a significantly improved form;

(ii) To a crop or region not traditionally served by the Federal crop insurance program; or

(iii) In a form that addresses a recognized flaw or problem in the program;

(6) Determine whether the proposed budget and timetable are reasonable;

(7) Determine whether the concept proposal meets all other requirements imposed by the Board or as otherwise specified in Procedures Handbook 17030—Approved Procedures for Submission of Concept Proposals Seeking Advance Payment of Research and Development Costs; and

(8) Provide a date by which the 508(h) submission must be provided in consultation with the applicant.

(d) Upon the Board's receipt of an index-based weather plan of insurance, the Board will:

(1) Determine whether the index-based weather plan of insurance is complete (the date the Board votes to contract with expert reviewers is the date the index-based weather plan of insurance is deemed to be complete for the start of the 120-day time-period for approval);

(2) If determined to be complete, contract with five expert reviewers and review the index-based weather plan of insurance in accordance with section 523(i) of the Act, this subpart, and Procedures Handbook 17050—Approved Procedures for Submission of Index-based Weather Plans of Insurance;

(3) Return to the applicant any index-based weather plan of insurance the Board determines is not complete, along with an explanation of the reason for the determination (if the index-based weather plan of insurance is resubmitted at a later date, it will be considered a new index-based weather plan of insurance solely for the purposes of determining the amount of time that the Board must take action); and

(4) Give the highest priority for approval of index-based weather plans of insurance that provide a new kind of coverage for specialty crops and livestock commodities that previously had no available crop insurance, or have demonstrated a low level of participation under existing coverage.

(e) All comments and evaluations will be provided to the Board by a date determined by the Board to allow the Board adequate time for review.

(f) The Board will consider all comments, evaluations, and recommendations in its review process. Prior to making a decision, the Board may request additional information from RMA, OGC, the expert reviewers, or the applicant.

(g) In considering whether to approve policies or plans of insurance and when such policies or plans of insurance will be offered for sale, the Board will:

(1) First, consider policies or plans of insurance that address underserved commodities, including commodities for which there is no insurance;

(2) Second, consider existing policies or plans of insurance for which there is inadequate coverage or there exists low levels of participation; and

(3) Last, consider all policies or plans of insurance submitted to the Board that do not meet the criteria described in paragraph (g)(1) or (2) of this section.

(h) At any time an applicant may request a time delay after the 508(h) submission, concept proposal, or index-based weather plan of insurance has been placed on the Board meeting agenda. The Board is not required to agree to such an extension.

(1) With respect to 508(h) submissions from concept proposals approved by the Board for advanced payment, the applicant must provide good cause why consideration should be delayed.

(2) Any requested time delay is not limited in the length of time unless a date is set by the Board by which all revisions to the 508(h) submission, concept proposal or index-based weather plan of insurance must be made. However, delays may make implementation of the 508(h) submission for the targeted crop year impractical or impossible as determined by the Board.

(3) The time period during which the Board will make a decision to approve or disapprove the 508(h) submission, concept proposal or index-based weather plan of insurance shall be extended commensurately with any time delay requested by the applicant.

(i) The applicant may withdraw a 508(h) submission, concept proposal, index-based weather plan of insurance, or a portion of a 508(h) submission or concept proposal, at any time by presenting a request to the Board. A withdrawn 508(h) submission, concept proposal or index-based weather plan of insurance that is resubmitted will be deemed a new 508(h) submission, concept proposal, or index-based weather plan of insurance solely for the purposes of determining the amount of time that the Board must take action.

(j) The Board will render a decision on a 508(h) submission or index-based weather plan of insurance, with or without revision or give notice of intent to disapprove within 90 days after the date the 508(h) submission or index-based weather plan of insurance is con-

sidered complete by the Board, unless the Board agrees to a time delay in accordance with paragraph (h) of this section.

(k) The Board may provide a notice of intent to disapprove a 508(h) submission if it determines:

(1) The interests of producers and taxpayers are not protected, including but not limited to:

(i) The 508(h) submission does not provide adequate coverage or treats producers disparately;

(ii) The applicant has not presented sufficient documentation that the 508(h) submission will provide a new kind of coverage that is likely to be viable and marketable (if the applicant cannot obtain a marketability assessment by another AIP, the Board shall presume that the submission is unmarketable);

(iii) Coverage would be similar to another policy or plan of insurance that has not demonstrated a low level of participation or does not contain a clear and identifiable flaw, and the producer would not significantly benefit from the 508(h) submission;

(iv) The 508(h) submission may create adverse market distortions or adversely impact other crops or agricultural commodities if marketed;

(v) The 508(h) submission will have a significant adverse impact on the private delivery system;

(vi) The 508(h) submission cannot be implemented, administered, and delivered effectively and efficiently using RMA's information technology and delivery systems;

(vii) The 508(h) submission contains flaws that may encourage adverse selection or moral hazard; or

(viii) The 508(h) submission contains vulnerabilities that allow indemnities to exceed the value of the crop;

(2) The premium rates are not actuarially appropriate;

(3) The 508(h) submission does not conform to sound insurance and underwriting principles;

(4) The risks associated with the 508(h) submission are excessive or it increases or shifts risk to another reinsured policy;

(5) The 508(h) submission does not meet the requirements of the Act; or

(6) The 90-day deadline under subsection (j) will expire before the Board has time to make an informed decision to approve or disapprove the 508(h) submission.

(l) The Board may disapprove a concept proposal if it determines:

(1) The concept, in good faith, will not likely result in a viable and marketable policy consistent with section 508(h);

(2) At the sole discretion of the Board, the concept, if developed into a policy and approved by the Board, would not provide crop insurance coverage;

(i) In a significantly improved form;

(ii) To a crop or region not traditionally served by the Federal crop insurance program; or

(iii) In a form that addresses a recognized flaw or problem in the program;

(3) The proposed budget and timetable are not reasonable, as determined by the Board; or

(4) The concept proposal fails to meet one or more requirements established by the Board.

(m) The Board shall provide a notice of intent to disapprove an index-based weather plan of insurance if it determines there is not:

(1) Adequate experience in underwriting and administering policies or plans of insurance that are comparable to the proposed policy or plan of insurance;

(2) Sufficient assets or reinsurance to satisfy the underwriting obligations of the approved insurance provider, and possess a sufficient insurance credit rating from an appropriate credit rating bureau, in accordance with Board procedures; and

(3) Applicable authority and approval from each State in which the approved insurance provider intends to sell the insurance product.

(n) Unless otherwise provided for in this section:

(1) If the Board intends to disapprove a 508(h) submission or index-based weather plan of insurance, the Board will provide the applicant with a written explanation outlining the basis for the intent to disapprove; and

(2) Any approval or disapproval of a 508(h) submission, concept proposal, or index-based weather plan of insurance

must be made by the Board in writing not later than 120 days after the Board has determined it to be complete.

(o) If a notice of intent to disapprove all or part of a 508(h) submission or index-based weather plan of insurance has been provided by the Board, the applicant must provide written notice to the Board not later than 30 days after the Board provides such notice if the 508(h) submission or index-based weather plan of insurance will be modified. If the applicant does not respond within the 30-day period, the Board will send the applicant a letter stating the 508(h) submission or index-based weather plan of insurance is disapproved.

(p) If the applicant elects to modify the 508(h) submission or index-based weather plan of insurance:

(1) The applicant must advise the Board of a date by which the modified 508(h) submission or index-based weather plan of insurance will be presented to the Board; and

(2) The remainder of the time left between the Board's notice of intent to disapprove and the expiration of the 120-day deadline is paused until the modified 508(h) submission or index-based weather plan of insurance is received by the Board.

(3) The Board will disapprove a modified 508(h) submission or index-based weather plan of insurance if the:

(i) Causes for disapproval stated by the Board in its notification of intent to disapprove the 508(h) submission or index-based weather plan of insurance are not satisfactorily addressed;

(ii) Board determines there is insufficient time for the Board to finish its review before the expiration of the 120-day deadline for disapproval of a 508(h) submission or index-based weather plan of insurance, unless the applicant grants the Board an extension of time to adequately consider the modified 508(h) submission or index-based weather plan of insurance (If an extension of time is agreed upon, the time period during which the Board must act on the modified 508(h) submission or index-based weather plan of insurance will be paused during the extension); or

(iii) Applicant does not present a modification of the 508(h) submission

or index-based weather plan of insurance to the Board on the date the applicant specified and the applicant does not request an additional time delay.

(q) If the Board fails to render a decision on a new 508(h) submission or index-based weather plan of insurance within the time periods specified in paragraph (j) or (n) of this section, such 508(h) submission or index-based weather plan of insurance will be deemed approved by the Board for the initial reinsurance year designated for the 508(h) submission or index-based weather plan of insurance. The Board must approve the 508(h) submission or index-based weather plan of insurance for it to be available for any subsequent reinsurance year.

§ 400.707 Presentation to the Board for approval or disapproval.

(a) The Board will inform the applicant of the date, time, and place of the Board meeting.

(b) The applicant will be given the opportunity and is encouraged to present the 508(h) submission, concept proposal, or index-based weather plan of insurance to the Board in person. The applicant must confirm in writing, email or fax whether the applicant will present in person to the Board.

(c) If the applicant elects not to present the 508(h) submission, concept proposal, or index-based weather plan of insurance to the Board, the Board will make its decision based on the information provided in accordance with § 400.705 and § 400.706.

§ 400.708 Post approval.

(a) After a 508(h) submission is approved by the Board, and prior to it being made available for sale to producers:

(1) The following must be executed, as applicable:

(i) If required by FCIC, an agreement between the applicant and FCIC that specifies:

(A) In addition to the requirements in § 400.709, responsibilities of each with respect to the implementation, delivery and maintenance of the 508(h) submission; and

(B) The required timeframes for submitting any information and docu-

mentation needed to administer the approved 508(h) submission;

(ii) A reinsurance agreement if the approved submission does not meet, or is not expected to perform in a financial manner consistent with the terms and conditions of the Standard Reinsurance Agreement or any other existing reinsurance agreement offered by FCIC in effect for the crop year, and that considers the interests of all participating AIPs; and

(iii) A training package to facilitate implementation of the approved 508(h) submission;

(2) The Board may limit the availability of coverage, for any policy or plan of insurance developed under the authority of the Act and this regulation, on any farm or in any county or area;

(3) A 508(h) submission approved by the Board under this subpart will be made available to all approved insurance providers under the same reinsurance, subsidy, and terms and conditions as received by the applicant;

(4) Any solicitation, sales, marketing, or advertising of the approved 508(h) submission by the applicant before FCIC has made the policy materials available to all interested parties through its official issuance system will result in the denial of reinsurance, risk subsidy, and A&O subsidy for those policies affected; and

(5) The property rights to the 508(h) submission will automatically transfer to FCIC if the applicant elects not to maintain the 508(h) submission under § 400.712(a)(3) or fails to notify FCIC of its decision to elect or not elect maintenance of the program under § 400.712(1).

(b) Requirements and procedures for approved index-based weather plans of insurance are contained in Procedures Handbook 17050—Approved Procedures for Submission of Index-based Weather Plans of Insurance. In accordance with the Board approved procedures, index-based weather plans of insurance are not eligible for federal reinsurance, but may be approved for risk subsidy and A&O subsidy.

§ 400.709 Roles and responsibilities.

(a) With respect to the applicant:

(1) The applicant is responsible for:

(i) Preparing and ensuring that all policy documents, rates of premium, prices, and supporting materials, including actuarial documents, are submitted by the deadline specified by FCIC, in the form approved by the Board, and are in compliance with section 508 of the Rehabilitation Act;

(ii) Annually updating and providing maintenance changes no later than 180 days prior to the earliest contract change date for the commodity in all counties or states in which the policy or plan of insurance is sold;

(iii) Timely addressing questions, problems or clarifications in regard to a policy or plan of insurance (all such resolutions for approved 508(h) submissions will be communicated to all approved insurance providers through FCIC's official issuance system); and

(iv) If requested by the Board, providing an annual review of the policy's performance, in writing to the Board, 180 days prior to the contract change date for the plan of insurance (The first annual report will be submitted one full year after implementation of an approved policy or plan of insurance, as agreed to by the submitter and RMA);

(2) Only the applicant may make changes to the policy, plan of insurance, or rates of premium approved by the Board:

(i) Any changes to approved 508(h) submissions, both non-significant and significant, must be submitted to FCIC in the form of a 508(h) submission for review in accordance with this subpart no later than 180 days prior to the earliest contract change date for the commodity in all counties or states in which the policy or plan of insurance is sold; and

(ii) Significant changes will be considered a new 508(h) submission;

(3) Except as provided in paragraph (a)(4) of this section, the applicant is solely liable for any mistakes, errors, or flaws in the submitted policy, plan of insurance, their related materials, or the rates of premium that have been approved by the Board unless, or until, the policy or plan of insurance is transferred to FCIC in accordance with § 400.712(l) (the applicant remains liable for any mistakes, errors, or flaws that occurred prior to transfer of the policy or plan of insurance to FCIC);

(4) If the mistake, error, or flaw in the policy, plan of insurance, their related materials, or the rates of premium is discovered more than 45 days prior to the cancellation or termination date for the policy or plan of insurance, the applicant may request in writing that FCIC withdraw the approved policy, plan of insurance, or rates of premium:

(i) Such request must state the discovered mistake, error, or flaw in the policy, plan of insurance, or rates of premium, and the expected impact on the program; and

(ii) For all timely received requests for withdrawal, no liability will attach to such policies, plans of insurance, or rates of premium that have been withdrawn and no producer, approved insurance provider, or any other person will have a right of action against the applicant;

(5) Notwithstanding the policy provisions regarding cancellation, any policy, plan of insurance, or rates of premium that have been withdrawn by the applicant, in accordance with paragraph (a)(4) of this section is deemed canceled and applications are deemed not accepted as of the date that FCIC publishes the notice of withdrawal on its Web site at www.rma.usda.gov.

(i) Approved insurance providers will be notified in writing by FCIC that the policy, plan of insurance, or premium rates have been withdrawn; and

(ii) Producers will have the option of selecting any other policy or plan of insurance authorized under the Act that is available in the area by the sales closing date for such policy or plan of insurance; and

(6) Failure of the applicant to perform all of the applicant's responsibilities may result in the withdrawal of approval for the policy or plan of insurance.

(b) With respect to FCIC:

(1) FCIC is responsible for:

(i) Conducting a review in accordance with § 400.706 and providing its recommendations to the Board;

(ii) With respect to 508(h) submissions:

(A) Ensuring that all approved insurance providers receive the approved policy or plan of insurance, and related material, for sale to producers in a

timely manner (All such information shall be communicated to all approved insurance providers through FCIC's official issuance system);

(B) As applicable, ensuring that approved insurance providers receive reinsurance under the same terms and conditions as the applicant (Approved insurance providers should contact FCIC to obtain and execute a copy of the reinsurance agreement) if required; and

(C) Reviewing the activities of approved insurance providers, agents, loss adjusters, and producers to ensure that they are in accordance with the terms of the policy or plan of insurance, the reinsurance agreement, and all applicable procedures;

(2) FCIC will not be liable for any mistakes, errors, or flaws in the policy, plan of insurance, their related materials, or the rates of premium and no cause of action may be taken against FCIC as a result of such mistake, error, or flaw in a 508(h) submission or index-based weather plan of insurance submitted under this subpart;

(3) If at any time prior to the cancellation date, FCIC discovers there is a mistake, error, or flaw in the policy, plan of insurance, their related materials, or the rates of premium, or any other reason for withdrawal of approval contained in § 400.706(k) exists, FCIC will withdraw reinsurance for such policy or plan of insurance to all AIPs for the subsequent crop year (If reinsurance is denied, a written notice will be provided on RMA's Web site at www.rma.usda.gov);

(4) If maintenance of the policy or plan of insurance is transferred to FCIC in accordance with § 400.712(l), FCIC will assume liability for the policy or plan of insurance for any mistake, error, or flaw that occur after the date the policy is transferred.

(c) If approval by the Board is withdrawn or reinsurance is denied for any 508(h) submission, RMA will provide such notice on its Web site and the approved insurance provider must cancel the policy or plan of insurance in accordance with its terms.

§ 400.710 Preemption and premium taxation.

A policy or plan of insurance that is approved by the Board for FCIC reinsurance is preempted from state and local taxation. This preemption does not apply to index-based weather plans of insurance approved for premium subsidy or A&O subsidy under this part.

§ 400.711 Right of review, modification, and the withdrawal of approval.

(a) At any time after approval, the Board may review any policy, plan of insurance, related material, or rates of premium approved under this subpart, including index-based weather plans of insurance and request additional information to determine whether the policy, plan of insurance, related material, or rates of premium comply with the requirements of this subpart.

(b) The Board will notify the applicant of any problem or issue that may arise and allow the applicant an opportunity to make any needed change. If the contract change date has passed, the applicant will be liable for such problems or issues for the crop year in accordance with § 400.709 until the policy may be changed.

(c) The Board may withdraw approval for the applicable policy, plan of insurance or rate of premium, including index-based weather plans of insurance, as applicable, if:

(1) The applicant fails to perform the responsibilities stated under § 400.709(a);

(2) The applicant does not timely and satisfactorily provide materials or resolve any issue to the Board's satisfaction so that necessary changes can be made prior to the earliest contract change date;

(3) The Board determines the applicable policy, plan of insurance or rate of premium, including index-based weather plans of insurance is not in conformity with the Act, these regulations or the applicable procedures;

(4) The policy, plan of insurance, or rates of premium are not sufficiently marketable according to the applicant's estimate or fails to perform sufficiently as determined by the Board; or

§ 400.712

7 CFR Ch. IV (1–1–25 Edition)

(5) The interest of producers or tax payers is not protected or the continuation of the program raises questions or issues of program integrity.

§ 400.712 Research and development reimbursement, maintenance reimbursement, advance payments for concept proposals, and user fees.

(a) For 508(h) submissions approved by the Board for reinsurance under section 508(h) of the Act:

(1) The 508(h) submission may be eligible for a one-time payment of research and development costs and reimbursement of maintenance costs for up to four reinsurance years, as determined by the Board;

(2) Reimbursement of research and development costs or maintenance costs will be considered as payment in full by FCIC for the 508(h) submission, and no additional amounts will be owed to the applicant if the 508(h) submission is transferred to FCIC in accordance with paragraph (1) of this section; and

(3) If the applicant elects at any time not to continue to maintain the 508(h) submission, it will automatically become the property of FCIC and the applicant will no longer have any property rights to the 508(h) submission and will not receive any user fees for the plan of insurance;

(b) The Board approved procedures and time-frames must be followed, or research and development costs and maintenance costs may not be reimbursed.

(1) After a 508(h) submission has been approved by the Board for reinsurance, to be considered for reimbursement of:

(i) Research and development costs, the applicant must submit the total amount requested and all supporting documentation to FCIC by electronic method or by hard copy and such information must be received by FCIC on or before August 1 immediately following the date the 508(h) submission was released to approved insurance providers through FCIC's issuance system; or

(ii) Maintenance costs, the applicant must submit the total amount requested and all supporting documentation to FCIC by electronic method or by hard copy and such information must be received by FCIC on or before

August 1 of each year of the maintenance period.

(2) Given the limitation on funds, regardless of when the request is received, no payment will be made prior to September 15 of the applicable fiscal year.

(c) Applicants submitting a concept proposal may request an advance payment of up to 50 percent of the projected total research and development costs, and after the applicant has begun research and development activities, the Board may, at its sole discretion, provide up to an additional 25 percent advance payment of the estimated research and development costs, if the requirements in the definition of advance payment are met and the additional advance payment is requested in accordance with Procedures Handbook 17030—Approved Procedures for Submission of Concept Proposals Seeking Advance Payment of Research and Development Costs.

(1) If a concept proposal is approved by the Board for advance payment, the applicant is responsible for independently developing a 508(h) submission that is complete as specified in this subpart by the deadline set by the Board.

(i) If an applicant fails to fulfill the obligation to provide a 508(h) submission that is complete by the deadline set by the Board, the Board shall provide a notice of non-compliance to the applicant and allow not less than 30 days for the applicant to respond;

(ii) If the applicant fails to respond, to the satisfaction of the Board, with just cause as to why a 508(h) submission that is complete was not provided by the deadline set by the Board, the applicant shall return the amount of the advance payment plus interest at the rate of 1.25 percent simple interest per calendar month;

(iii) If the applicant responds, to the satisfaction of the Board, with just cause as to why a 508(h) submission that is complete was not provided by the deadline set by the Board, the applicant will be given a new deadline by which to provide a 508(h) submission that is complete; and

(iv) If the applicant fails to provide a 508(h) submission that is complete by the deadline, no additional extensions

will be approved by the Board and the applicant shall return the amount of the advance payment plus interest at the rate of 1.25 percent simple interest per calendar month.

(2) If an applicant receives an advance payment for a portion of the expected research and development costs for a concept proposal that is developed into a 508(h) submission and determined by the Board to be complete, but the 508(h) submission is not approved by the Board following expert review, the Board will not:

(i) Seek a refund of any advance payments for research and development costs; and

(ii) Make any further research and development cost reimbursements associated with the 508(h) submission.

(d) Under section 522 of the Act, there are limited funds available on an annual fiscal year basis to pay for reimbursements of research and development costs (including advance payments for concept proposals) and maintenance costs. Consistent with paragraphs (e) through (j) of this section if all applicants' requests for reimbursement of research and development costs (including advance payments for concept proposals) and maintenance costs in any fiscal year:

(1) Do not exceed the maximum amount authorized by law, the applicants may receive the full amount of reimbursement determined reasonable by the Board; or

(2) Exceed the amount authorized by law, each applicant's reimbursement determined reasonable by the Board will be determined by dividing the total amount of each individual applicant's reimbursable costs authorized in paragraphs (e) through (j) of this section by the total amount of the aggregate of all applicants' reimbursable costs authorized in paragraphs (e) through (j) for the year and multiplying the result by the amount of reimbursement authorized under the Act.

(e) The amount of reimbursement for research and development costs and maintenance costs requested by the applicant may be reduced as necessary when the requested amount is not commensurate with the complexity or the size of the area proposed to be covered.

(f) Research and development costs and maintenance costs must be supported by itemized statements and supporting documentation (copies of contracts, billing statements, time sheets, travel vouchers, accounting ledgers, etc.).

(1) Actual costs submitted will be examined for reasonableness and may be adjusted at the sole discretion of the Board.

(2) Allowable research and development costs and maintenance costs (directly related to research and development or maintenance of the 508(h) submission only) may include the following:

(i) Wages and benefits, exclusive of bonuses, overtime pay, or shift differentials;

(A) One line per employee or contractor, include job title, total hours, and total dollars;

(B) The rates charged must be commensurate with the tasks performed (For example, a person performing the task of data entry should not be paid at the rate for performing data analysis);

(C) The wage rate and benefits shall not exceed two times the hourly wage rate plus benefits provided by the Bureau of Labor Statistics; and

(D) The applicant must report any familial or business relationship that exists between the applicant and the contractor or employee (Reimbursement may be limited or denied if the contractor or employee is associated to the applicant and they may be considered as one and the same. This includes a separate entity being created by the applicant to conduct research and development. Reimbursement may be limited or denied if the contractor is paid a salary or other compensation);

(ii) Travel and transportation (One line per event, include the job title, destination, purpose of travel, lodging cost, mileage, air or other identified transportation costs, food and miscellaneous expenses, other costs, and the total cost);

(iii) Software and computer programming developed specifically to determine appropriate rates, prices, or coverage amounts (Identify the item, include the purpose, and provide receipts or contract or straight-time hourly

wage, hours, and total cost. Software developed to send or receive data between the producer, agent, approved insurance provider or RMA or such other similar software may not be included as an allowable cost);

(iv) Miscellaneous expenses such as postage, telephone, express mail, and printing (Identify the item, cost per unit, number of items, and total dollars); and

(v) Training costs expended to facilitate implementation of a new approved 508(h) submission (Include instructor(s) hourly rate, hours, and cost of materials and travel) conducted at a national level, directed to all approved insurance providers interested in selling the 508(h) submission, and approved prior to the training by RMA).

(3) The following expenses are specifically not eligible for research and development and maintenance cost reimbursement:

(i) Copyright fees, patent fees, or any other charges, costs or expenses related to the use of intellectual property;

(ii) Training costs, excluding training costs to facilitate implementation of the approved 508(h) submission in accordance with subsection (f)(2)(v);

(iv) Normal ongoing administrative expenses or indirect overhead costs (for example, costs associated with the management or general functions of an organization, such as costs for internet service, telephone, utilities, and office supplies);

(v) Paid or incurred losses;

(vi) Loss adjustment expenses;

(vii) Sales commission;

(viii) Marketing costs;

(ix) Lobbying costs;

(x) Product or applicant liability resulting from the research, development, preparation or marketing of the policy;

(xi) Copyright infringement claims resulting from the research, development, preparation or marketing of the policy;

(xii) Costs of making program changes as a result of any mistakes, errors or flaws in the policy or plan of insurance;

(xiii) Costs associated with building rents or space allocation;

(xiv) Costs in paragraphs (i) and (j) of this section determined by the Board to be ineligible for reimbursement; and

(xv) Local, State, or Federal taxes.

(g) Requests for reimbursement of maintenance costs must be supported by itemized statements and supporting documentary evidence for each reinsurance year in the maintenance period.

(1) Actual costs submitted will be examined for reasonableness and may be adjusted at the sole discretion of the Board.

(2) Maintenance costs for the following activities may be reimbursed:

(i) Expansion of the original 508(h) submission into additional crops, counties or states;

(ii) Non-significant changes to the policy and any related material;

(iii) Non-significant or significant changes to the policy as necessary to protect program integrity or as required by Congress; and

(iv) Any other activity that qualifies as maintenance.

(h) Projected costs for research and development for concept proposals shall be based on a detailed estimate of the costs allowed in paragraph (f) of this section. Since costs are one measurement of the viability to develop an efficient policy, the Board may limit reimbursements for research and development to the estimated costs contained in the concept proposal, unless the submitter can justify a higher reimbursement in accordance with Board procedures.

(i) If a 508(h) submission is determined to be incomplete and is subsequently resubmitted and approved, the costs to perfect the 508(h) submission may not be considered reimbursable costs depending on the level of insufficiency or incompleteness of the 508(h) submission, as determined at the sole discretion of the Board.

(j) Reimbursement of costs associated with addressing issues raised by the Board, expert reviewers and RMA will be evaluated based on the substance of the issue and the amount of time reasonably necessary to address the specific issue. Delays and additional costs caused by the inability or refusal to adequately address issues may not be considered reimbursable, as

determined at the sole discretion of the Board.

(k) If the Board withdraws its approval for reinsurance at any time during the period that reimbursement for maintenance is being made or user fees are being collected, no maintenance reimbursement shall be made nor any user fee be owed after the date of such withdrawal.

(l) Not later than 180 days prior to the end of the last reinsurance year in which a maintenance reimbursement will be paid for the approved 508(h) submission, the applicant must notify FCIC in writing regarding its decision on future ownership and maintenance of the policy or plan of insurance.

(1) The applicant must notify FCIC in writing whether it intends to:

(i) Continue to maintain the policy or plan of insurance and charge approved insurance providers a user fee to cover maintenance expenses for all policies earning premium; or

(ii) Transfer responsibility for maintenance to FCIC.

(2) If the applicant fails to notify FCIC in writing by the deadline, the policy or plan of insurance will automatically transfer to FCIC beginning with the next reinsurance year.

(3) If the applicant elects to:

(i) Continue to maintain the policy or plan of insurance, the applicant must submit a request for approval of the user fee by the Board at the time of the election; or

(ii) Transfer the policy or plan of insurance to FCIC, FCIC may at its sole discretion, continue to maintain the policy or plan of insurance or elect to withdraw the availability of the policy or plan of insurance.

(4) Requests for approval of the user fee must be accompanied by written documentation to support the amount requested will only cover direct costs to maintain the plan of insurance. Costs that are not eligible for research and development and maintenance reimbursements under this section are not eligible to be considered for determining the user fee.

(5) The Board will approve the amount of user fee, including the maximum amount of total maintenance that may be collected per year, that is payable to the applicant by approved

insurance providers unless the Board determines that the user fee charged:

(i) Is unreasonable in relation to the maintenance costs associated with the policy or plan of insurance; or

(ii) Unnecessarily inhibits the use of the policy or plan of insurance by approved insurance providers.

(6) If the total user fee exceeds the maximum amount determined by the Board, the maximum amount determined by the Board will be divided by the number of policies earning premium to determine the amount to be paid by each approved insurance provider.

(7) Reasonableness of the initial request to charge a user fee will be determined by the Board based on a comparison of the amount of reimbursement for maintenance previously received, the number of policies, the number of approved insurance providers, and the expected total amount of user fees to be received in any reinsurance year.

(8) A user fee unnecessarily inhibits the use of a policy or plan of insurance if it is so high that approved insurance providers will not sell the policy, or the user fee represents an unreasonable portion of the A&O subsidy paid to the AIP such that it prevents the AIP from meeting its other obligations under the SRA.

(9) The user fee charged to each approved insurance provider will be considered payment in full for the use of such policy, plan of insurance or rate of premium for the reinsurance year in which payment is made.

(10) It is the sole responsibility of the applicant to collect such fees from an approved insurance provider and any indebtedness for such fees must be resolved by the applicant and approved insurance provider.

(i) Applicants may request that FCIC provide the number of policies sold by each approved insurance provider.

(ii) Such information will be provided not later than 90 days after such request is made or not later than 90 days after the requisite information has been provided to FCIC by the approved insurance provider, whichever is later.

(11) Every two years after approval of a user fee, or if the applicant has made a significant change to the approved

508(h) submission, applicants must submit documentation to the Board for review in determining if the user fee should be revised.

(12) The Board may review the amount of the user fee at any time at its sole discretion.

(m) The Board may consider information from the Equal Access to Justice Act, 5 U.S.C. 504, the Bureau of Labor Statistic's Occupational Employment Statistics Survey, the Bureau of Labor Statistic's Employment Cost Index, and any other information determined applicable by the Board, in making a determination whether to approve a 508(h) submission for reimbursement of research and development costs, maintenance costs, or user fees.

(n) For purposes of this section, rights to, or obligations of, research and development cost reimbursement, maintenance cost reimbursement, or user fees cannot be transferred from any individual or entity unless specifically approved in writing by the Board.

(o) Applicants requesting reimbursement for research and development costs, maintenance costs, or user fees, may present their request in person to the Board prior to consideration for approval.

(p) Index-based weather plans of insurance are not eligible for reimbursement from FCIC for maintenance costs or research and development costs. Submitters of approved index-based weather plans of insurance may collect user fees from other approved insurance providers in accordance with Procedures Handbook 17050—Approved Procedures for Submission of Index-based Weather Plans of Insurance.

§ 400.713 Non-reinsured supplemental (NRS) policy.

(a) Unless otherwise specified by FCIC, any NRS policy that covers the same agricultural commodity as any policy reinsured by FCIC under the Act must be provided to RMA to ensure it does not shift any loss or risk that does not exist under the FCIC reinsured policy. Failure to provide such NRS policy or endorsement to RMA prior to its issuance shall result in the denial of reinsurance, A&O subsidy, and risk subsidy on all underlying FCIC reinsured policies unless the underlying FCIC

policy was sold by another AIP. If the underlying FCIC reinsured policy is sold by another AIP, the AIP that sold the NRS may be required to pay FCIC an amount equal to the reinsurance, A&O subsidy, and risk subsidy on the underlying FCIC policy.

(b) An electronic copy in Microsoft Office compatible format, of the new or revised NRS policy and related materials must be submitted at least 150 days prior to the first sales closing date applicable to the NRS policy. At a minimum, examples that demonstrate how liability and indemnities are calculated under differing scenarios must be included. Electronic copies of the NRS must be sent to the Deputy Administrator for Product Management (or successor) at *DeputyAdministrator@rma.usda.gov*.

(c) RMA will review the NRS policy. If any of the conditions found in paragraphs (c)(1) through (5) of this section are found to occur, FCIC will notify the AIP that submitted the NRS policy that if they sell the NRS policy, it will result in denial of reinsurance, A&O subsidy, and risk subsidy on all underlying FCIC reinsured policies, unless the underlying FCIC policy was sold by another AIP. If the underlying FCIC reinsured policy is sold by another AIP, the AIP that sold the NRS may be required to pay FCIC an amount equal to the reinsurance, A&O subsidy, and risk subsidy on the underlying FCIC policy.

(1) If the NRS policy materially increases or shifts risk to the underlying policy or plan of insurance reinsured by FCIC.

(i) An NRS policy will be considered to materially increase or shift risk to the underlying policy or plan of insurance reinsured by FCIC if RMA determines it:

(A) Creates a moral hazard, such as a financial incentive for the policyholder to behave in a way that increases the number or size of losses;

(B) Results in the underlying FCIC policy either triggering a loss sooner, or paying a larger indemnity than would otherwise be allowed by the terms and conditions of the underlying reinsured policy; or

(C) Allows for combined indemnities between the underlying FCIC reinsured policy and the NRS that are in excess

of the value a producer would reasonably expect to receive for the insured commodity if a normal crop was produced and sold at a reasonable market price.

(ii) The NRS must include language that clearly states no indemnity will be paid in excess of the initial value of the insured commodity.

(2) The NRS reduces or limits the rights of the insured with respect to the underlying policy or plan of insurance reinsured by FCIC. An NRS policy will be considered to reduce or limit the rights of the insured with respect to the underlying policy or plan of insurance if RMA determines it affects, alters, preempts, or undermines the terms or conditions of the underlying policy or procedures issued by FCIC.

(3) The NRS disrupts the marketplace. An NRS policy will be considered to disrupt the marketplace if RMA determines it encourages planting more acres of the insured commodity in excess of normal market demand, adversely affects the sales or administration of reinsured policies, undermines producers' confidence in the Federal crop insurance program, or harms public perception of the Federal crop insurance program.

(4) The NRS is an impermissible rebate. An NRS may be considered to be an impermissible rebate if RMA determines that the premium rates charged are insufficient to cover the expected losses and a reasonable reserve or it offers other benefits that are generally provided at a cost.

(5) The NRS policy is conditioned upon or provides incentive for the purchase of the underlying policy or plan of insurance reinsured by FCIC with a specific agent or approved insurance provider.

(d) RMA will respond not less than 75 days before the first sales closing date or provide notice why RMA is unable to respond within the time frame allotted.

(e) NRS policies reviewed by RMA will need to be submitted once every five years unless a change is made to the NRS or the underlying policy. Once any changes are made to either policy, or the five year period has concluded, the NRS must be resubmitted for review.

Subpart W [Reserved]

Subpart X—Interpretations of Statutory Provisions, Policy Provisions, and Procedures

SOURCE: 83 FR 66581, Dec. 27, 2018, unless otherwise noted.

RMA. The Risk Management Agency, an agency of the United States Department of Agriculture.

You. The requestor of a final agency determination or FCIC interpretation.

§ 400.766 Basis and applicability.

(a) The regulations contained in this part prescribe the rules and criteria for obtaining a final agency determination or a FCIC interpretation.

(1) FCIC will provide a final agency determination or a FCIC interpretation, as applicable, for statutory, regulatory, or other policy provisions or procedures that were in effect during the four most recent crop years from the crop year in which your request was submitted. For example, for a request received in the 2014 crop year, FCIC will consider requests for the 2014, 2013, 2012, and 2011 crop years.

(2) If FCIC determines a request is outside the scope of crop years authorized in paragraph (a)(1) of this section, you will be notified within 30 days of the date of receipt by FCIC.

(3) If the statutory, regulatory or other policy provisions or procedures have changed for the time period you seek an interpretation you must submit a separate request for each policy provision or procedure by year. For example, if you seek an interpretation of section 6(b) of the Small Grains Crop Provisions for the 2012 through 2015 crop years but the policy provisions were revised starting with the 2014 crop year, you must submit two requests, one for the 2012 and 2013 crop years and another for the 2014 and 2015 crop years.

(b) With respect to a final agency determination or a FCIC interpretation:

(1) If there is a dispute between participants that involves a final agency determination or a FCIC interpretation:

(i) The parties are required to seek an interpretation of the disputed provision from FCIC in accordance with this subpart (This may require that the parties seek a stay of the proceedings until an interpretation is provided, if such proceedings have been initiated); and

(ii) The final agency determination or FCIC interpretation may take the form of a written interpretation or, at the sole discretion of FCIC, may take the form of testimony from an employee of RMA expressly authorized in

writing to provide interpretations of policy or procedure on behalf of FCIC.

(2) All written final agency determinations issued by FCIC are binding on all participants in the Federal crop insurance program for the crop years the policy provisions are in effect. All written FCIC interpretations and testimony from an employee of RMA are binding on the parties to the dispute, including the arbitrator, mediator, judge, or NAD.

(3) Failure to request a final agency determination or FCIC interpretation when required by this subpart or failure of NAD, arbitrator, mediator, or judge to adhere to the final agency determination or FCIC interpretation provided under this subpart will result in the nullification of any award or agreement in arbitration or mediation in accordance with the provisions in the “Mediation, Arbitration, Appeal, Reconsideration, and Administrative and Judicial Review” section or similar section in all crop insurance policies.

(4) If either party believes an award or decision was rendered by NAD, arbitrator, mediator, or judge based on a disputed provision in which there was a failure to request a final agency determination or FCIC interpretation or NAD, arbitrator, mediator, or judge’s decision was not in accordance with the final agency determination or FCIC interpretation rendered with respect to the disputed provision, the party may request FCIC review the matter to determine if a final agency determination or FCIC interpretation should have been sought in accordance with § 400.767.

(i) Requests should be submitted through one of the methods contained in § 400.767(a)(1);

(ii) If FCIC determines that a final agency determination or FCIC interpretation should have been sought and it was not, or the decision was not in accordance with the final agency determination or FCIC interpretation rendered with respect to the disputed provision:

(A) The award is automatically nullified; and

(B) Either party may appeal FCIC’s determination that a final agency determination or FCIC interpretation

should have been sought and it was not, or the decision was not in accordance with the final agency determination or FCIC interpretation rendered with respect to the disputed provision to NAD in accordance with 7 CFR part 11.

(5) All written final agency determinations that are published on RMA's website are considered matters of general applicability and are not appealable to NAD. Before obtaining judicial review of any final agency determination, you must obtain an Administrative Final Determination from the Director of NAD on the issue of whether the final agency determination is a matter of general applicability.

(6) With respect to an administrative review of a FCIC interpretation:

(i) If either party to the proceeding does not agree with the written FCIC interpretation, a request for administrative review may be filed in accordance with 7 CFR part 400, subpart J. If you seek an administrative review from FCIC, such request must be submitted in accordance with § 400.767(a).

(ii) FCIC will not accept requests for administrative review from NAD, a mediator, or arbitrator.

(iii) The RMA Office of the Deputy Administrator for Product Management will make a determination on the request for administrative review not later than 30 days after receipt of the request.

(iv) Regardless of whether you have sought administrative review, you may appeal a FCIC interpretation under this subsection to NAD in accordance with 7 CFR part 11.

§ 400.767 Requestor obligations.

(a) All requests for a final agency determination or FCIC interpretation submitted under this subpart must:

(1) Be submitted to the Deputy Administrator using the guidelines provided on RMA's website at www.rma.usda.gov through one of the following methods:

(i) In writing by certified mail or overnight delivery, to the Deputy Administrator, Risk Management Agency, United States Department of Agriculture, Beacon Facility, Stop 0801, Room 421, P.O. Box 419205, Kansas City, MO 64141-6205;

(ii) By facsimile at (816) 926-3049; or

(iii) By electronic mail at subpartx@rma.usda.gov;

(2) State whether you are seeking a final agency determination or FCIC interpretation;

(3) Identify and quote the specific provision in the Act, regulations, procedure, or policy provision for which you are requesting a final agency determination or a FCIC interpretation;

(4) Contain no more than one request for an interpretation (You must make separate requests for each provision if more than one provision is at issue. For example, if there is a dispute with the interpretation of Paragraph 3 of the Loss Adjustment Manual, then one request for an interpretation is required. If there is a dispute with the interpretation of Paragraph 3 of the Loss Adjustment Manual and Paragraph 2 of the Macadamia Nut Loss Adjustment Standards Handbook, then two separate requests for an interpretation are required);

(5) State the crop, crop year(s), and plan of insurance applicable to the request;

(6) State the name, address, and telephone number of a contact person for the request;

(7) Contain your detailed interpretation of the specific provision of the Act, regulations, procedure, or policy provision for which the request for interpretation is being requested; and

(8) Not contain any specific facts, alleged conduct, or hypothetical situations or the request will be returned to the requestor without consideration.

(b) You must advise FCIC if the request for a final agency determination or FCIC interpretation will be used in a judicial review, mediation, or arbitration.

(1) You must identify the type of proceeding (*e.g.*, mediation, arbitration, or litigation), if applicable, in which the interpretation will be used, and the date the proceeding is scheduled to begin, or the earliest possible date the proceeding would likely begin if a specific date has not been established;

(2) The name, address, telephone number, and if applicable, fax number, or email address of a contact person for both parties to the dispute;

(3) Unless the parties elect to use the expedited review process available under the AAA rules or the appeal is before NAD, requests must be submitted not later than 90 days before the date the mediation, arbitration, or litigation proceeding in which the interpretation will be used is scheduled to begin.

(i) If the rules of the court, mediation, or arbitration require the interpretation prior to the date the proceeding begins, add 90 days to the number of days required prior to the proceeding. For example, if a court requires the interpretation 20 days prior to the date the proceeding begins, you must submit the request 110 days before the proceeding is scheduled to begin.

(ii) Failure to timely submit a request for a final agency determination or FCIC interpretation may result in:

(A) FCIC issuing a determination that no interpretation could be made because the request was not timely submitted; and

(B) Nullification of any agreement or award in accordance with § 400.766 if no final agency determination or FCIC interpretation can be provided.

(iii) Notwithstanding paragraph (b) of this section, if during the mediation, arbitration, or litigation proceeding, an issue arises that requires a final agency determination or FCIC interpretation the mediator, arbitrator, judge, or magistrate must promptly request a final agency determination or FCIC interpretation in accordance with § 400.767(a).

(4) FCIC at its sole discretion may authorize personnel to provide an oral or written final agency determination or FCIC interpretation, as appropriate; and

(5) Any decision or settlement resulting from such mediation, arbitration, or litigation proceeding before FCIC provides its final agency determination or FCIC interpretation can be nullified in accordance with § 400.766.

(c) If multiple parties are involved and have opposing interpretations, a joint request for a final agency determination or FCIC interpretation including both requestor interpretations in one request is encouraged. If multiple insured persons are parties to the

dispute, and the request for a final agency determination or FCIC interpretation applies to all parties, one request may be submitted for all insured persons instead of separate requests for each person. In this case, the information required in this section must be provided for each person.

§ 400.768 FCIC obligations.

(a) FCIC will not provide a final agency determination or FCIC interpretation for any request regarding, or that contains, specific factual information to situations or cases, such as acts or failures to act of any participant under the terms of a policy, procedure, or any reinsurance agreement.

(1) FCIC will not consider specific factual information to situations or cases in any final agency determination or FCIC interpretation.

(2) FCIC will not consider any examples or hypotheticals provided in your interpretation because those are fact-specific and could be construed as a finding of fact by FCIC. If an example or hypothetical is required to illustrate an interpretation, FCIC will provide the example in the interpretation.

(b) If, in the sole judgment of FCIC, the request is unclear, ambiguous, or incomplete, FCIC will not provide a final agency determination or FCIC interpretation, but will notify you within 30 days of the date of receipt by FCIC that the request is unclear, ambiguous, or incomplete.

(c) If FCIC notifies you that a request is unclear, ambiguous or incomplete under paragraph (b) of this section, the 90-day time period for FCIC to provide a response is stopped on the date FCIC notifies you. On the date FCIC receives a clear, complete, and unambiguous request, FCIC has the balance of the days remaining in the 90-day time period to provide a response to you. For example, FCIC receives a request for a final agency determination on January 10. On February 10, FCIC notifies you the request is unclear. On March 10, FCIC receives a clarified request that meets all requirements for FCIC to provide a final agency determination. FCIC has sixty days from March 10, the balance of the 90-day time period, to provide a response.

Federal Crop Insurance Corp., USDA

§ 402.4

(d) FCIC reserves the right to modify the request if FCIC determines that a request for a final agency determination is really a request for a FCIC interpretation or vice versa.

(e) FCIC will provide you a written final agency determination or a FCIC interpretation within 90 days of the date of receipt for a request that meets all requirements in § 400.767.

(f) If FCIC does not provide a response within 90 days of receipt of a request, you may assume your interpretation is correct for the applicable crop year. However, your interpretation shall not be considered generally applicable and shall not be binding on any other program participants. Additionally, in the case of a joint request for a final agency determination or a FCIC interpretation, if FCIC does not provide a response within 90 days, neither party may assume their interpretations are correct.

(g) FCIC will publish all final agency determinations as specially numbered documents on the RMA website because they are generally applicable to all program participants.

(h) FCIC will not publish any FCIC interpretation because it is only applicable to the parties in the dispute. You are responsible for providing copies of the FCIC interpretation to all other parties.

(i) When issuing a final agency determination or a FCIC interpretation, FCIC will not evaluate the insured, insurance provider, agent, or loss adjuster as it relates to their performance of following FCIC policy provisions or procedures. Interpretations will not include any analysis of whether the insured, insurance provider, agent, or loss adjuster was in compliance with the policy provision or procedure in question.

§ 402.1 General statement.

The Federal Crop Insurance Act, as amended by the Federal Crop Insurance Reform Act of 1994, requires the Federal Crop Insurance Corporation to implement a catastrophic risk protection plan of insurance that provides a basic level of insurance coverage to protect producers in the event of a catastrophic crop loss due to loss of yield or prevented planting, if provided by the Corporation, provided the crop loss or prevented planting is due to an insured cause of loss specified in the crop insurance policy. This Catastrophic Risk Protection Endorsement is a continuous endorsement that is effective in conjunction with a crop insurance policy for the insured crop. Catastrophic risk protection coverage will be offered through approved insurance providers if there are a sufficient number available to service the area. If there are an insufficient number available, as determined by the Secretary, local offices of the Farm Service Agency will provide catastrophic risk protection coverage.

§ 402.2 Applicability.

This Catastrophic Risk Protection Endorsement is applicable to each crop for which catastrophic risk protection coverage is available and for which the producer elects such coverage.
