

A reduction of \$24,000,000 from construction of facilities. The conferees agree that NASA may use excess fiscal year 1994 funding, particularly identified excess planning and design funds, to satisfy fiscal year 1996 requirements.

Amendment No. 106: Deletes House administrative provision regarding leasing of contractor funded facilities where such lease would amortize the contractor investment unless specifically approved in an appropriations Act.

Amendment No. 107: Adds Senate language to the House administrative provision regarding transfer of facilities at Iuka, Mississippi. The new language will direct that any Federal entity having previous contact with the site will have responsibility for environmental remediation.

Amendment No. 108: Deletes House administrative provision directing a study of closing or re-structuring NASA flight operations and research centers. The conferees agree to the Senate report language requesting periodic progress reports on the implementation of recommendations contained in the NASA zero-based review.

Amendment No. 109: Deletes Senate administrative provision delaying the availability of \$390,000,000 for Space Station until August 1, 1996. Adds an administrative provision providing up to \$50,000,000 of transfer authority for use at the discretion of the Administrator.

The conferees have agreed to include an administrative provision providing transfer authority to the National Aeronautics and Space Administration to deal with unforeseen emergencies. To ensure that there is no adverse effect on any NASA program, the conferees have included general transfer authority of up to \$50,000,000 to be used at the direction of the Administrator subject to the case-by-case approval by the House and Senate Appropriations Committees.

NATIONAL SCIENCE FOUNDATION

Amendment No. 110: Appropriates \$2,274,000,000 for Research and Related Activities, instead of \$2,254,000,000 as proposed by the House and \$2,294,000,000 as proposed by the Senate.

The conferees agree that the reduction within the Research and Related Activities account should be allocated by the National Science Foundation in accordance with its internal procedures for resource allocation, subject to approval by the House and Senate Committees on Appropriations.

U.S. ANTARCTIC PROGRAM

The conferees agree with the Senate report language calling for a government-wide policy review of the U.S. presence in the Antarctic to be conducted by the National Science and Technology Council and reiterate that such a review must include all program participants, including the Department of Defense. The review should be completed and submitted to the Congress no later than March 31, 1996.

OPTICAL AND INFRARED ASTRONOMY

The conferees recognize the need for the National Science Foundation to support modernizing the research infrastructure in astronomy and other disciplines. The conferees are equally supportive of the flexible matching requirements employed by the Foundation in its Academic Research Infrastructure program and expect they will be continued in fiscal year 1996.

Amendment No. 111: Deletes language proposed by the Senate to fund fair housing activities under the Department of Justice. Language transferring such functions, with delayed implementation of April 1, 1997 is included under fair housing activities under title II of this Act.

Amendment No. 112: The Senate bill contained a provision moving the Office of Federal Housing Enterprise Oversight (OFHEO), which is the financial safety and soundness regulator of Fannie Mae and Freddie Mac (collectively, "GSEs"), from the Department of Housing and Urban Development to the Department of the Treasury. The conference agreement does not contain this provision. Nevertheless, the conferees want to emphasize the seriousness with which they view the underlying Senate provision.

In particular, the primary function of OFHEO is to issue risk-based capital standards to ensure the safety and soundness of the GSEs, and that these standards, as yet unissued, were to be finalized by November 28, 1994. The conferees urge OFHEO to refocus its emphasis from lower priority activities, such as participation in conferences and political forums, to financial examinations and the development of final risk-based capital standards.

TITLE V—GENERAL PROVISIONS

Amendment No. 113: Makes technical language change.

Amendment No. 114: Deletes language proposed by the House and stricken by the Senate regarding contractor conversions at the Environmental Protection Agency. Additional language relative to this matter is included in amendment numbered 65.

Inserts language directing FEMA to sell surplus mobile homes/trailers from its inventory. Additional information on this matter is discussed under amendment numbered 97.

Amendment No. 115: Inserts language proposed by the Senate which allows the use of other funds available to the Department of Health and Human Services to facilitate termination of the Office of Consumer Affairs. This matter is also mentioned in amendment numbered 101.

Amendment No. 116: Deletes language proposed by the Senate regarding energy savings at Federal facilities.
