At the appropriate place in the bill insert the following:

(a) FINDINGS.—Congress makes the following findings:

(1) The proliferation of weapons of mass destruction and ballistic missiles of all ranges is a global problem that is becoming increasingly threatening to the United States, its troops and citizens abroad, and its allies.

(2) Articles XIII of the ABM Treaty envisions “possible changes in the strategic situation which have a bearing on the provisions of this Treaty”.

(3) Articles XIII and XIV of the ABM Treaty establish means for the Parties to amend the Treaty, and the Parties have employed these means to amend the Treaty.

(4) Article X V of the ABM Treaty establishes means for a party to withdraw from the Treaty, upon 6 months notice, “if it decides that extraordinary events related to the subject matter of this Treaty have jeopardized its supreme interests.”.

(b) SENSE OF CONGRESS.—Given the fundamental responsibility of the Government of the United States to protect the security of the United States, the increasingly serious threat posed to the United States by the proliferation of weapons of mass destruction and ballistic missile technology, and the effect this threat could have in constraining the options of the United States to act in time of crisis, it is the sense of Congress that—

(1) it is in the supreme interest of the United States to defend itself from the threat of limited ballistic missile attack, whatever its source;

(2) the deployment of a multiple site ground-based national missile defense system to protect against limited ballistic missile attack can strengthen strategic stability and deterrence;

(3) the policies, programs, and requirements of subtitle C of title II of this Act can be accomplished through processes specified within, or consistent with, the ABM Treaty, which anticipates the need and provides the means for amendment to the Treasury;

(4) the President is urged to initiate negotiations with the Russian Federation to amend the ABM Treaty as necessary to provide for the national missile defense systems specified in section 235 to protect the United States from limited ballistic missile attack; and

(5) if these negotiations fail, the President is urged to consult with the Senate about the option of withdrawing the United States from the ABM Treaty in accordance with the provisions of Article XV of the Treaty.

“(n) UNIFORM NATIONAL DISCHARGE STANDARDS FOR VESSELS OF THE ARMED FORCES.—

“(1) APPLICABILITY.—This subsection shall apply to vessels of the Armed Forces and discharges, other than sewage, incidental to the normal operation of a vessel of the Armed Forces, unless the Secretary of Defense finds that compliance with this subsection would not be in the national security interests of the United States.

“(2) DETERMINATION OF DISCHARGES REQUIRED TO BE CONTROLLED BY MARINE POLLUTION CONTROL DEVICES.—

“(A) IN GENERAL.—The Administrator and the Secretary of Defense, after consultation with the Secretary of the department in which the Coast Guard is operating, the Secretary of Commerce, and interested States, shall jointly determine the discharges incidental to the normal operation of a vessel of the Armed Forces for which it is reasonable and practicable to require use of a marine pollution control device to mitigate adverse impacts on the marine environment. Notwithstanding subsection (a)(1) of section 553 of title 5, United States Code, the Administrator and the Secretary of Defense shall promulgate the determinations in accordance with the section.

“(B) CONSIDERATIONS.—In making a determination under subparagraph (A), the Administrator and the Secretary of Defense shall take into consideration—

“(i) the nature of the discharge;

“(ii) the environmental effects of the discharge;

“(iii) the practicability of using the marine pollution control device;

“(iv) the effect that installation or use of the marine pollution control device would have on the operation or operational capability of the vessel;

“(v) applicable United States law;

“(vi) applicable international standards; and

“(vii) the economic costs of the installation and use of the marine pollution control device.

“(3) PERFORMANCE STANDARDS FOR MARINE POLLUTION CONTROL DEVICES.—

“(A) IN GENERAL.—For each discharge for which a marine pollution control device is determined to be required under paragraph (2), the Administrator and the Secretary of Defense, in consultation with the Secretary of the department in which the Coast Guard is operating, the Secretary of State, the Secretary of Commerce, other interested Federal agencies, and interested States, shall jointly promulgate Federal standards of performance for each marine pollution control device required with respect to the discharge. Notwithstanding subsection (a)(1) of section 553 of title 5, United States Code, the Administrator and the Secretary of Defense shall promulgate the standards in accordance with the section.

“(B) CONSIDERATIONS.—In promulgating standards under this paragraph, the Admin-

istrator and the Secretary of Defense shall take into consideration the matters set forth in paragraph (2)(B).

“(C) CLASSES, TYPES, AND SIZES OF VESSELS.—The standards promulgated under this paragraph may—

“(ii) every 5 years—

“(I) review the standards; and

“(II) if necessary, revise the standards, consistent with paragraph (3)(B) and based on significant new information.

“(C) REGULATIONS.—The Secretary of Defense shall promulgate regulations with respect to a marine pollution control device under paragraph (4) as soon as practicable after the Administrator and the Secretary of Defense promulgate standards with respect to the device under paragraph (3), but not later than 1 year after the Administrator and the Secretary of Defense promulgate the standards. The regulations promulgated by the Secretary of Defense under paragraph (4) shall become effective upon promulgation unless another effective date is specified in the regulations.

“(D) PETITION FOR REVIEW.—The Governor of any State may submit a petition requesting that the Secretary of Defense and the Administrator review a determination under paragraph (2) or a standard under paragraph (3), if there is significant new information, not considered previously, that could reasonably result in a change to the particular determination or standard after consideration of the matters set forth in paragraph (2)(B). The petition shall be accompanied by the scientific and technical information on which the petition is based. The Administrator and the Secretary of Defense shall grant or deny the petition not later than 2 years after the date of receipt of the petition.

“(6) EFFECT ON OTHER LAWS.—

“(A) PROHIBITION ON REGULATION BY STATES OR POLITICAL SUBDIVISIONS OF STATES.—Beginning on the effective date of—

“(i) a determination under paragraph (2) that it is not reasonable and practicable to

require use of a marine pollution control device regarding a particular discharge incidental to the normal operation of a vessel of the Armed Forces; or

“(ii) regulations promulgated by the Secretary of Defense under paragraph (4); except as provided in paragraph (7), neither a State nor a political subdivision of a State may adopt or enforce any statute or regulation of the State or political subdivision with respect to the discharge or the design, construction, installation, or use of any marine pollution control device required to control the discharge.

“(B) FEDERAL LAWS.—This subsection shall not affect the application of section 311 to discharges incidental to the normal operation of a vessel.

“(7) ESTABLISHMENT OF STATE NO-DISCHARGE ZONES.—

“(A) STATE PROHIBITION.—

“(i) IN GENERAL.—After the effective date of—

“(I) a determination under paragraph (2) that it is not reasonable and practicable to require use of a marine pollution control device regarding a particular discharge incidental to the normal operation of a vessel of the Armed Forces; or

“(II) regulations promulgated by the Secretary of Defense under paragraph (4);

if a State determines that the protection and enhancement of the quality of some or all of the waters within the State require greater environmental protection, the State may prohibit 1 or more discharges incidental to the normal operation of a vessel, whether treated or not treated, into the waters. No prohibition shall apply until the Administrator makes the determinations described in subclauses (II) and (III) of subparagraph (B)(i).

“(ii) DOCUMENTATION.—To the extent that a prohibition under this paragraph would apply to vessels of the Armed Forces and not to other types of vessels, the State shall document the technical or environmental basis for the distinction.

“(B) PROHIBITION BY THE ADMINISTRATOR.—

“(i) IN GENERAL.—Upon application of a State, the Administrator shall by regulation prohibit the discharge from a vessel of 1 or more discharges incidental to the normal operation of a vessel, whether treated or not treated, into the waters covered by the application if the Administrator determines that—

“(I) the protection and enhancement of the quality of the specified waters within the State require a prohibition of the discharge into the waters;

“(II) adequate facilities for the safe and sanitary removal of the discharge incidental to the normal operation of a vessel are reasonably available for the waters to which the prohibition would apply; and

“(III) the prohibition will not have the effect of discriminating against a vessel of the Armed Forces by reason of the ownership or operation by the Federal Government, or the military function, of the vessel.

“(ii) APPROVAL OR DISAPPROVAL.—The Administrator shall approve or disapprove an application submitted under clause (i) not later than 90 days after the date on which the application is submitted to the Administrator. Notwithstanding clause (i)(II), the Administrator shall not disapprove an application for the sole reason that there are not adequate facilities to remove any discharge incidental to the normal operation of a vessel from vessels of the Armed Forces.

“(C) APPLICABILITY TO FOREIGN FLAGGED VESSELS.—A prohibition under this paragraph—

“(i) shall not impose any design, construction, manning, or equipment standard on a

foreign flagged vessel engaged in innocent passage unless the prohibition implements a generally accepted international rule or standard; and

“(ii) that relates to the prevention, reduction, and control of pollution shall not apply to a foreign flagged vessel engaged in transit passage unless the prohibition implements an applicable international regulation regarding the discharge of oil, oily waste, or any other noxious substance into the waters.

“(8) PROHIBITION RELATING TO VESSELS OF THE ARMED FORCES.—After the effective date of the regulations promulgated by the Secretary of Defense under paragraph (4), it shall be unlawful for any vessel of the Armed Forces subject to the regulations to—

“(A) operate in the navigable waters of the United States or the waters of the contiguous zone, if the vessel is not equipped with any required marine pollution control device meeting standards established under this subsection; or

“(B) discharge overboard any discharge incidental to the normal operation of a vessel in waters with respect to which a prohibition on the discharge has been established under paragraph (7).

“(9) ENFORCEMENT.—This subsection shall be enforceable, as provided in subsections (j) and (k), against any agency of the United States responsible for vessels of the Armed Forces notwithstanding any immunity asserted by the agency.”
