

difficult for me to watch my friends, including my best friend, as they prepared for this venture with great anticipation, and again when they returned and shared with me their special memories that I was not a part of. Under different circumstances I would have been among my fellow classmates, but again, due to Bridgestone/Firestone's desire for complete control, I was cheated out of a significant, once in a life time opportunity.

One of Bridgestone/Firestone's most appalling scare tactics that has personally touched myself and my family was the elimination of health care benefits, 90 days into this strike. My sister, Angie, and I are both insulin dependent diabetics. Consequently, it is of utmost importance that we have medical insurance to maintain and control this dreaded disease. It has been impossible for us to find an alternate insurance policy that covers our diabetes. Therefore, my parents have been forced to pay the enormous monthly premiums for the company's Cobra Coverage, adding to the already overwhelming financial burdens families are facing during this work stoppage due to this strike.

I have briefly touched on just a "few" of the intrusions this company has used to manipulate the lives of innocent people. But, on the other hand, some things I don't think this heartless company counted on, is that I've also gained many things. Things that you can't put a material value on. Such as, a new understanding of what the union is truly about, the importance of solidarity, the significance of the support that we've received from fellow unions and citizens. The outpouring of generosity so many different individuals have extended has been astounding. Even though Bridgestone/Firestone has taken away our paycheck and temporarily left us financially strapped; they'll NEVER take away our dignity!

Thank you.●
