

EXTENSIONS OF REMARKS

ELIMINATING THE FFELP AUDIT ON LENDING INSTITUTIONS

HON. THOMAS W. EWING

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Monday, March 4, 1996

Mr. EWING. Mr. Speaker, I represent many small to mid-sized lenders which maintain and service small student loan portfolios in compliance with the Federal Family Education Loan Program [FFEL]. The profit on these portfolios is estimated to be around \$3,000–\$5,000 annually while the audit required by the Department of Education costs as much and in some cases even more. In the vast majority of these cases audits are not even sent to the Department of Education—they just sit and collect dust in the financial institution. As you can see it is senseless for small lenders to service their portfolios and participate in the FFEL Program. In fact, many small lenders are selling their portfolios and leaving the student loan business altogether because of this expensive and unnecessary audit.

When contacted about the possibility of a waiver or alternative to this detrimental mandate the Department of Education stated “* * * lender audits are required by statute—section 428(b)(U) of the Higher Education Act of 1965, as amended by the Higher Education Act of 1992 * * *” and that the “* * * statute does not provide authority for the Department to waive the annual audit based on the size of the lender’s FFEL portfolio or the cost of conducting the audit.” Furthermore, according to the Department of Education’s Office of the inspector general, portfolio totaling less than \$10 million do not even have to send their audits to the Department for review. They are only required to “* * * hold the reports for a period of 3 years and shall submit them only if requested.” That means lenders spend thousands on a compliance audit that is never sent anywhere.

Today I am introducing a bill that would eliminate the lender audit on institutions with portfolios equaling \$10 million or less. Without a change in current law more and more small lending institutions will continue to leave the FFEL Program and the result will be fewer opportunities for students. This law makes no sense and clearly illustrates why Americans are so frustrated with Washington.

PERSONAL EXPLANATION

SPEECH OF

HON. ELIZABETH FURSE

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 29, 1996

Ms. FURSE. Mr. Speaker, I want to express my appreciation for the diligent efforts of Representative DE LA GARZA and the House Agriculture Committee Democrats in putting forward the de la Garza en bloc amendment and the motion to recommit, both of which would have enabled additional funding for conservation.

These provisions would have strengthened the conservation effort being made by farmers, reflecting a truly historic investment in resource conservation and environmental protection. Farmers in my district understand the importance of conservation for future generations. I urge House and Senate conferees to include as many of these provisions as possible.

Unfortunately, I was unable to be present for these votes. I was granted a leave of absence due to a medical condition. Had I been here, I would have voted for both the de la Garza en bloc amendment and the motion to recommit.
