

make better points than I could make here on the floor today about how these distortions and outright lies have fooled so many of our senior citizens.

I do not think there is any group in America that I feel more concerned about that would be misled intentionally than the senior citizens. And when I know that an organization like the labor unions have done this intentionally to scare them from voting for my colleagues it is something that we all should be concerned about, no matter what side of the aisle we may be on.

With that, Mr. Speaker, I am going to read for you the editorial that I made reference to. It was Thursday, July 25, 1996. The Goldsboro News-Argus, and the title of the editorial is, "Don't Be Fooled: Campaign Commercials on GOP Medicare Cuts are a Lie."

Mr. Speaker, now I will read the editorial:

People in public office should be accountable for their conduct. At campaign time, it is appropriate for opponents to focus on incumbents' voting records they feel might be contrary to the public interest.

Hence, the AFL-CIO sponsored TV commercials calling attention to the voting records of Republican Congressmen Fred Heineman and David Funderburk on Medicare would seem fair enough.

But they aren't fair at all. They are predicated on an outright lie—and the campaign to re-elect Bill Clinton is using the same twist of the facts.

The presidential campaign ads claim Bob Dole and Newt Gingrich are trying to end Medicare.

The AFL-CIO ads targeting Heineman and Funderburk pointedly accuse the two of voting "to cut Medicare by \$270 billion" a year.

The truth of the matter is that Heineman and Funderburk, like their fellow Republicans, voted to increase Medicare appropriations by 7 percent.

How was the AFL-CIO able to twist that into a Medicare cut of \$270 billion?

It's done the same way the Democratic Party has been trying to scare the daylights out of the elderly and the poor all along.

While Republicans in Congress have been working—in response to a mandate from their electorate—to get control of runaway federal spending, Democrats, typically, have been loathe to do so. Democrats, and President Clinton, wanted a 10 percent increase in allocations for Medicare—more than double the annual overall rate of inflation.

Republicans insisted on limiting the increase to 7 percent—not cutting the appropriation.

While it can be argued that medical costs are outstripping the overall inflation rate—as they have done consistently—one possible way of bringing this in check might be to put some sort of restraints on growth of Medicare costs.

I won't be done by having the government continue to fuel runaway escalation of medical costs.

All members of Congress should be answerable to the electorate for their voting records. But the people of this country should resent and reject political advertisements based on lies.

Let me repeat that again. That "the people of this country should resent and reject political advertisements based on lies."

Mr. Speaker, that is my purpose of coming to the floor today. I think the strength of a democracy, again as I

said earlier, depends on the information that is provided the voters and I hope that both sides of the fence will try to deal with the facts and not fiction and lies.

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Indiana [Mr. BURTON] is recognized for 5 minutes.
