JOINT EXPLANATORY STATEMENT OF THE COMMITTEE ON CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 3517) making appropriations for military construction, family housing, and base realignment and closure for the Department of Defense for the fiscal year ending September 30, 1997, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying report.

ITEMS OF GENERAL INTEREST

Matters Addressed by Only One Committee.—The language and allocations set forth in House Report 104-591 and Senate Report 104-287 should be complied with unless specifically addressed to the contrary in the conference report and statement of the managers. Report language included by the House which is not changed by the report of the Senate or the conference, and Senate report language which is not changed by the conference is approved by the committee of conference. The statement of the managers, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases in which the House or the Senate have directed the submission of a report from the Department of Defense, such report is to be submitted to both House and Senate Committees on Appropriations.

Base Realignment and Closure.—The conferees agree to provide specific approval and appropriated funds for all Base Realignment and Closure construction projects as listed in House Report 104-591.

National Foreign Intelligence Requirements.—The conferees expect any military construction requirements related to the National Foreign Intelligence Program to be subject to the same level of scrutiny and justification as any other Defense requirement coming before the Military Construction Appropriations Subcommittees. Insufficient review within the Department and disregard for congressional authorization and appropriation procedures has created a number of misunderstandings, which the conferees expect will be avoided in the future.

Rescissions.—The conferees recommend a total of \$22,428,000 in rescissions of prior-year appropriations for the military services and defense agencies as proposed by the Senate, rather than a total of \$12,000,000 as proposed by the House. The rescissions recommended in the bill include the following items which have contract savings or which were previously approved and now are no longer needed:

Army 1994-1998:		
Kwajalein	Atoll—Roi	
	Namur Island: Sewage	
	treatment facility	\$2,028,000

Total		\$22,428,000

Hurricane Bertha.—The conferees are aware that military family housing units sustained significant damage from Hurricane Bertha on July 12, 1996. The conferees will consider any reprogramming that may be submitted for repair of these family housing units.

Historic Preservation.—In addition to the directive contained in Senate Report 104-287, the conferees direct the Department to consult with the Advisory Council on Historic Preservation and other relevant organizations with preservation expertise in developing this report.

Recent information has shown that environmental mitigation could be performed to permit expansion to the south of the National Training Center, long considered to be the most militarily advantageous option. Energy Conservation Improvement Program.—The conferees agree to provide the budget request of \$47,765,000 for the Energy Conservation Improvement Program, provided that the Department of Defense submits project-specific justification via forms 1390/1391 not less than 21 days prior to the execution of any project. In addition, the conferees direct that future budget requests for this program will be supported by forms 1390/1391 as part of the justification of budget estimates. Alabama—Mobile: Army Aviation Support Facility.—The conferees note that permanent law provides "appropriations shall be applied only to the objects for which the appropriations were made . . ." (31 U.S.C. 1301(a)). The fiscal year 1995 Military Construction Appropriations Act (Public Law 103-307) included \$7,200,000 for an Army Aviation Support Facility at Mobile, Alabama, and these funds are available only for that purpose.
