"Whereas, the response of the Soviet government to this disaster included a temporary one-hundred-fold increase in the levels of permissible iodine contamination; and

"Whereas, this disaster caused the death of untold numbers of people, the evacuation of many thousands from their homes, and the radioactive contamination of more than 38,000 square miles of Ukraine and Belarus; and

"Whereas, three nuclear reactors still operate at the site under precarious conditions; and

"Whereas, the long term environmental and public health effects of this disaster are still unknown; and

"Whereas, the concrete shell built to contain the radiation remaining at the site is deteriorating and estimates for the construction of a proper containment shell run into the billions of dollars; and

"Whereas, the people of Ukraine are still struggling to cope with the effects of the Chernobyl disaster, including the threat of the structural failure of the containment shell, which could release up to ten tons of highly radioactive material into the environment; Now, therefore, be it

"Resolved by the House of Representatives of the Sixtieth General Assembly of the State of Colorado, the Senate concurring herein: (1) That the General Assembly expresses sympathy with and extends condolences to the people of Ukraine on the tenth anniversary of the Chernobyl disaster;

(2) That the General Assembly urges that if the United States government provides assistance to mitigate the effects of the

Chernobyl disaster, this aid should be targeted to the affected areas of Ukraine, be it further

"Whereas, Jack Swigert served and flew missions in Korea and Japan from 1953 to 1956 in support of the United States and Allied Forces; and

"Whereas, from 1957 to 1965, Jack Swigert was a test pilot for North American Aviation, Inc., and Pratt and Whitney Aircraft, making significant contributions to aviation science and receiving the AIAA Octave Chanute Award for demonstrating the feasibility of the Rogallo Wing as a landing system for returning space vehicles; and
