

of Pediatrics have endorsed this legislation.

More than 83,000 Americans from every State in this Nation have communicated their support to my office.

Today, I ask unanimous consent that a summary of the clarifications and changes to S. 969 be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

NEWBORNS' AND MOTHERS' HEALTH  
PROTECTION ACT OF 1996

The following comments detail the clarifications and technical changes made to S. 969:

1. The original bill did not comment on whether or not an attending health care provider would need to obtain authorization in order to keep a mother and newborn in the hospital for the 48/96 hours that are guaranteed for insurance coverage.

The re-introduced bill states that attending health care providers do not need to obtain authorization in order to keep mothers and newborns in the hospital for this period of time.

2. The original bill stated that a decision for early discharge (eg prior to the 48/96 hours) could be made by either the attending health care provider OR mother.

The re-introduced bill states that a decision for early discharge can be made by the attending health care provider in consultation with the mother.

3. The original bill did not address time parameters with regard to follow-up care.

The re-introduced bill states that follow-up care must be timely and must be provided within 24-27 hours following discharge.

4. The original bill did not specify a full range of health care providers.

The re-introduced bill specifies: physicians (obstetricians-gynecologists, pediatricians, family physicians, other physicians), nurse practitioners, nurses, nurse midwives, and physician assistants (where appropriate).

5. The original bill was ambiguous regarding preemption.

The re-introduced bill states that state laws that provide for a guarantee of insurance coverage for 48/96 hours OR have laws that guarantee care based on guidelines from the American College of Obstetricians—Gynecologist and the American Academy of Pediatrics AND have followed-up care consistent with federal law.
