PETITIONS AND MEMORIALS

The following petitions and memorials were laid before the Senate and

were referred or ordered to lie on the table as indicated:

POM-575. A resolution adopted by the Senate of the Legislature of the State of Hawaii; to the Committee on Agriculture, Nutrition, and Forestry.

"SENATE RESOLUTION No. 49

"Whereas, the Hawaiian islands are among the most environmentally sensitive areas in the world, containing unique and extremely fragile ecosystems; and

Whereas, the State's 150 recognized ecosystems are home to more than one-third of the 526 plant species and 88 bird species on the United States endangered and threatened

species list; and

Whereas, conservationists call Hawaii the Endangered Species Capital of the World,' as three-fourths of the nation's extinct plant and bird species once lived only on our islands; and

Whereas, alien pest species are considered the single greatest threat to the survival of our native Hawaiian plant and bird species;

'Whereas, the island of Guam is now devoid of any and all avian life due to the devastation of a well-known alien pest, the brown tree snake; and

Whereas, 19 new insect species found their way into the environment in 1994, even though the State Department of Agriculture inspected 13 million agricultural parcels entering the State and intercepted 131 alien insects and 183 illegal animals; and

Whereas, on average, 20 new insect species arrive in Hawaii each year, of which ten

become pests; and

Whereas, federal quarantine law gives the United States Department of Agriculture the legal authority to inspect baggage and passengers bound for the mainland from Hawaii in order to protect the mainland's environment, but does not grant the same authority to inspect baggage and passengers bound for Hawaii from the mainland to protect Hawaii's environment; and

Whereas, Governor Benjamin J. Cayetano established the 'Coordinating Group on Alien Pest Species' (CGAPS), a group comprised of representatives from the State Department of Agriculture, State Department of Transportation, Hawaii Farm Bureau Federation, Hawaii Visitors Bureau, Nature Conservancy of Hawaii, National Park Service, United States Department of Agriculture, United States Customs Service, United States Fish and Wildlife Service, United States Navy, United States Postal Inspection Service, and United States Postal Service; and

Whereas, the Governor's Agriculture Coordinating, Committee provided funding for CGAPS efforts to focus public attention on the need to prevent new alien pest species from entering the State and to control pests which are already established; and

Whereas, as a result of information obtained through CGAPS efforts, state departments may be proposing specific programs aimed at accelerating the eradication of established pest species and improving mechanisms to prevent the introduction of alien pest species; and

Whereas, state budget concerns will have a serious impact on the agencies which contribute to these prevention and control efforts: and

Whereas, the costs of these efforts pale in comparison to the price we would pay in terms of losses to industries such as tourism and agriculture which depend on environment quality, if our environment is not preserved and protected; and

Whereas, in recognition of the long-term cost benefits of immediate action, funding for the implementation of those programs may be included in the budgets of those state departments; and

"Whereas, in addition to programs proposed by state departments, other CGAPS members may seek grants to accomplish the same purposes; and

"Whereas, the Legislature may appropriate funds for grants to those private conservation, agricultural, and tourism organizations; Now, therefore, be it

"Resolved, by the Senate of the Eighteenth Legislature of the State of Hawaii, Regular Session of 1996, That the Governor is respectfully urged to place a high administrative priority on existing pest eradication and prevention programs, as well as the development and implementation of new programs recommended by the CGAPS members; and

"Be it further resolved, That the President of the United States and the United States Congress are respectfully urged to advocate legislation and programs to eradicate pests and prevent their introduction into Hawaii; and

"Be it further resolved, That certified copies of this Resolution be transmitted to the President of the United States, the President of the United States Senate, the Speaker of the United States House of Representatives, Hawaii's congressional delegation, and the Governor of the State of Hawaii."
