

States House of Representatives and to each Member of the Arizona Congressional Delegation."

POM-593. A concurrent resolution adopted by the Legislature of the State of Louisiana; to the Committee on Energy and Natural Resources.

**"SENATE CONCURRENT RESOLUTION NO. 19**

"Whereas, Vernon, Beauregard, and the surrounding parishes rely heavily on the continuing economic support of Fort Polk; and

"Whereas, the potential transfer of portions of the Kisatchie National Forest should ensure the stability and permanence of the Fort Polk military base and possibly lead to its future expansion; and

"Whereas, the potential transfer of lands of the Kisatchie National Forest should not result in the expropriation of any privately owned property; and

"Whereas, if Congress transfers these lands, there should be no infringement upon private landowners' rights to their property by the military presence; and

"Whereas, the stewardship of the lands of Kisatchie National Forest should remain with the United States Forest Service in the event of such land transfer; and

"Whereas, if the transfer occurs, Fort Polk should ensure that the forest lands be subject to periodic inspection by the Environmental Protection Agency to address environmental concerns; and

"Whereas, if Congress transfers the lands, Fort Polk should use the land for maneuvering exercises without the use of live artillery or toxins which may endanger the public and indigenous wildlife; and

"Whereas, if the land transfer occurs, Fort Polk will give the public access to the forest at times it deems prudent; therefore, be it

*"Resolved*, That the Legislature of Louisiana memorializes the Congress of the United States to transfer certain portions of the lands of the Kisatchie National Forest to the Fort Polk military base provided that the viability of the military base is ensured, that there will be no infringement upon property owners' rights to their land, and that environmental concerns will be addressed; be it further

*"Resolved*, That a copy of this Resolution shall be transmitted to the secretary of the United States Senate and the clerk of the United States House of Representatives and to each member of the Louisiana congressional delegation."

POW-594. A joint resolution adopted by the Legislature of the State of New Hampshire to the Committee on Energy and Natural Resources.

**"HOUSE JOINT RESOLUTION**

"Whereas, much of New Hampshire's air pollution results from air pollutants and their precursors transported into the state from upwind sources including electricity generation stations; and

"Whereas, the Energy Policy Act of 1992 requires the Federal Energy Regulatory Commission (FERC) to implement increased competition in the electric utility industry, but does not relieve FERC or other federal agencies of their responsibility and obligation to act in the public interest and to carefully review and mitigate critical environmental and health impacts that may result from open access to transmission services; and

"Whereas, FERC's draft Environmental Impact Statement on its Notice of Proposed Rulemaking Promoting Wholesale Competition Through Open Access Non-Discriminatory Transmission Service by Public Utilities (the "Mega-NOPR"), asserts that sizable

increases in air pollution could occur due to a shift from cleaner generation sources to cheaper and dirtier generators, but then greatly underestimates FERC's obligation to mitigate the impact of its proposed Mega-NOPR actions, by selecting an inappropriate base case which assumes incremental implementation of the same policy of open transmission access, instead of selecting the more appropriate base case of no action and current air quality trends; and

"Whereas, there is sufficient underutilized electric generating capacity in midwestern states, subject to much lower air emissions standards than competitors in northeastern states, so that implementing open transmission access, without more appropriate, comparable and equitable environmental regulation, could result in increased electricity generation in midwestern states and significant additional air pollution transport to northeastern states; and

"Whereas, federal air pollution regulation of electric generators has too often been inappropriately based almost exclusively on air quality in the vicinity of the generator, without sufficient consideration of the effects of transport of pollutants to downwind areas; and

"Whereas, a considerable burden has been placed on New Hampshire by its designation as part of the Ozone Transport Region delineated by the Clean Air Act Amendments of 1990, despite considerable evidence that New Hampshire's exceedances of federal ambient air quality standards are overwhelmingly due to transported air pollution from upwind states; and

"Whereas, New Hampshire's electric rates have been much higher than the national average for many years, a substantial cause of which has been New Hampshire's pursuit over many years of lesser-polluting electricity sources as alternatives to construction of additional lower-cost, higher polluting coal-fired stations; and

"Whereas, New Hampshire, as a result of its Reasonably Available Control Technology (RACT) requirements for its own electrical generating stations, has shown that state-of-the-art selective catalytic reduction (SCR) RACT equipment installed at New Hampshire's largest coal-fired electrical generating station is a cost-effective method for reducing emissions of oxides of nitrogen (NOx), and would be cost-effective in other states as well; and

"Whereas, the costs for upwind electric generators to make similar source emission reductions, particularly in coal-fired stations, typically appear to be significantly smaller than the costs to northeastern states to compensate for transported air pollution by imposing more expensive mitigation measures on other sources of pollution; and

"Whereas, such source mitigation costs also appear to be only a small fraction of the potential additional revenue from increased generation by low cost coal-fired generators as a result of FERC's Mega-NOPR; and

"Whereas, Governor Stephen Merrill indicated in a July 20, 1995 letter to EPA Administrator Carol Browner that New Hampshire is not willing to subsidize the economy, environment, health and quality of life of upwind states at the expense of those aspects of its own citizens' lives; and

"Whereas, the state of New Hampshire would strongly prefer to avoid suing the federal government and upwind states to take actions to mitigate increased air pollution resulting from FERC's actions, pursuant to the Clean Air Act Amendments of 1990 and the National Environmental Policy Act: Now, therefore, be it

*"Resolved by the Senate and House of Representatives in General Court convened:*

*"That the state of New Hampshire petitions the Federal Energy Regulatory Com-*

*mission to implement open access to transmission services and increased competition in the electric utility industry in a manner that supports and furthers the goals of environmental improvement, such as by stipulating that all electricity generators transmitting power under FERC open access rules comply with equitable and appropriate environmental regulation to reduce interstate transport of air pollutants; and*

*"That the state of New Hampshire further petitions the United States Environmental Protection Agency, the Council on Environmental Quality, the Federal Energy Regulatory Commission, the Congress, and the President of the United States to work together to ensure that increased competition in electricity markets be truly full, free, and fair, including equitable and appropriate environmental regulation, based on comparable scientific criteria, for all electricity generators and consumers; and to carefully consider as alternatives to existing regulatory controls, innovative market-driven forms of environmental regulation, such as valuing the costs of pollution and using pollution control offsets; and*

*"That copies of this resolution, signed by the president of the senate, the speaker of the house, and the governor be forwarded by the house clerk to each member of the New Hampshire Congressional delegation, the President of the United States, the President Pro-Tempore of the United States Senate, the Speaker of the United States House of Representatives, the Federal Energy Regulatory Commission, the United States Environmental Protection Agency, and the Council on Environmental Quality; and*

*"That this resolution is intended to be read in conjunction with HB 1392, which establishes principles for restructuring the New Hampshire utility industry, if and when it has been signed into law."*
