SEC. 2. FINDINGS, POLICY, AND PURPOSE.

(a) FINDINGS.—Congress finds that—

(1)(A) a sound and prosperous economy in the United States is dependent on American agriculture and related industries, including producers, processors, handlers, manufacturers, marketers, transporters, and the banking and credit industry;

(B) American agriculture and related industries account for over 21,000,000 jobs and approximately 16 percent, or over \$1,000,000,000,000, of the gross domestic product; and

(C) because of the combined effort of American agriculture and related industries, consumers in the United States enjoy a dependable supply of food and fiber at fair prices;

(2)(A) the future of American agriculture is dependent on the continued viability of the American agricultural producer, the underpinning of the agricultural economy; and

(B) agricultural producers must receive a fair return on their productivity and investment in an industry characterized by continued subsidized foreign competition and wide fluctuations in production and prices due to weather and related factors;

(3)(A) one of the essential elements of a sound agricultural economy is the ability of the United States to compete in the world market;

(B) agricultural exports are expected to reach nearly \$50,000,000,000 in 1995 and contribute about \$20,000,000,000 to the United States balance of trade; and

(C) agricultural exports alone account for over 1,000,000 American jobs; and

(4)(A) Commodity Credit Corporation outlays for farm programs have declined from a high of approximately \$26,000,000,000 for fiscal year 1986 to less than \$9,000,000,000 for fiscal year 1995, a reduction of over 65 percent that is unique among the many mandatory spending programs of the Federal Government; and

(B) according to the Congressional Budget Office, farm program outlays are projected to remain below the outlay level for fiscal year 1995 for the next 5 years and continue to decline by nearly 8 percent, even if no changes are made in current law for existing farm programs.

(b) POLICY.—It is the policy of the United States that—

(1) continued Federal Government support is necessary to provide stability for American agricultural producers to—

(A) enable the producers to continue to provide consumers with a steady and dependable supply of food and fiber at fair prices;

(B) maintain the competitiveness of the United States in the world market; and

(C) otherwise preserve the underpinnings of a sound agricultural economy; and

(2) to meet the objective of achieving a balanced budget for the Federal Government in a manner consistent with paragraph (1), reductions in farm program spending should be made in a fair and equitable manner.

(c) PURPOSE.—The purpose of this Act is to establish agricultural price support and pro-

duction adjustment programs for the 1996 through 2002 crop years that provide a structure for a sound agricultural economy in a manner consistent with subsection (b).

SEC. 3. SENSE OF CONGRESS ON ENDING THE FEDERAL DEFICIT.

It is the sense of Congress that—

(1) the continuation of significant Federal budgetary deficits harms the economic well-being of the United States and is detrimental to the development of sound, long-term agricultural policy;

(2) agricultural price support and production adjustment programs are necessary for the continued economic health of United States agriculture, which must compete in international markets against subsidized foreign competition; and

(3) agricultural price support and production adjustment programs should be—

(A) implemented, to the maximum extent practicable, in a manner that is consistent with the primary goal of the concurrent resolution on the budget for fiscal year 1996 (H.Con.Res. 67, agreed to June 29, 1995) to end Federal budget deficits; and

(B) modified, as necessary, to ensure that the programs comply with applicable budget reconciliation instructions in the concurrent resolution that are designed to end Federal budget deficits, in a manner consistent with section 306 of the concurrent resolution.

TITLE I—WHEAT

SEC. 101. LOANS, PAYMENTS, AND ACREAGE REDUCTION PROGRAMS FOR THE 1996 THROUGH 2002 CROPS OF WHEAT.

Section 107B of the Agricultural Act of 1949 (7 U.S.C. 1445b-3a) is amended to read as follows:

“SEC. 107B. LOANS, PAYMENTS, AND ACREAGE REDUCTION PROGRAMS FOR THE 1996 THROUGH 2002 CROPS OF WHEAT.

“(a) LOANS AND PURCHASES.—

“(1) IN GENERAL.—Except as otherwise provided in this subsection, the Secretary shall make available to producers on a farm loans and purchases for each of the 1996 through 2002 crops of wheat produced on the farm at such level as the Secretary determines will maintain the competitive relationship of wheat to other grains in domestic and export markets after taking into consideration the cost of producing wheat, supply and demand conditions, and world prices for wheat.

“(2) MINIMUM LOAN AND PURCHASE LEVEL.—Except as provided in paragraph (3), the loan and purchase level determined under paragraph (1) shall be not less than 85 percent of the simple average price received by producers of wheat, as determined by the Secretary, during the marketing years for the immediately preceding 5 crops of wheat, excluding the year in which the average price was the highest and the year in which the average price was the lowest in the period, except that the loan and purchase level for a crop determined under this paragraph may not be reduced by more than 5 percent from the level determined for the preceding crop.

“(3) MARKETING LOANS.—

“(A) IN GENERAL.—The Secretary shall permit the producers on a farm to repay a loan made under this subsection for a crop at a level (except as provided in subparagraph (C)) that is the lesser of—

“(i) the loan level determined for the crop; and

“(ii) the prevailing world market price for wheat (adjusted to United States quality and location), as determined by the Secretary.

“(B) PREVAILING WORLD MARKET PRICE.—The Secretary shall prescribe by regulation—

“(i) a formula to determine the prevailing world market price for wheat, adjusted to United States quality and location; and

“(ii) a mechanism by which the Secretary shall announce periodically the prevailing world market price for wheat.

“(C) ALTERNATIVE REPAYMENT RATES.—For each of the 1996 through 2002 crops of wheat, if the world market price for wheat (adjusted to United States quality and location), as determined by the Secretary, is less than the loan level determined for the crop, the Secretary may permit the producers on a farm to repay a loan made under this subsection for a crop at such level (not in excess of the loan level determined for the crop) as the Secretary determines will—

“(i) minimize potential loan forfeitures;

“(ii) minimize the accumulation of wheat stocks by the Federal Government;

“(iii) minimize the cost incurred by the Federal Government in storing wheat; and

“(iv) allow wheat produced in the United States to be marketed freely and competitively, both domestically and internationally.

“(4) SIMPLE AVERAGE PRICE.—For purposes of this section, the simple average price received by producers for the immediately preceding marketing year shall be based on the latest information available to the Secretary at the time of the determination.

“(b) LOAN DEFICIENCY PAYMENTS.—

“(1) IN GENERAL.—For each of the 1996 through 2002 crops of wheat, the Secretary may make payments (referred to in this section as ‘loan deficiency payments’) available to producers who, although eligible to obtain a loan or an agreement for purchase under subsection (a), agree to forgo obtaining the loan or agreement in return for payments under this subsection.

“(2) COMPUTATION.—A payment under this subsection shall be computed by multiplying—

“(A) the loan payment rate; and

“(B) the quantity of wheat the producers on a farm are eligible to place under loan (or obtain a purchase agreement) but for which the producers forgo obtaining the loan or agreement in return for payments under this subsection.

“(3) LOAN PAYMENT RATE.—For purposes of this subsection, the loan payment rate shall be the amount by which—

“(A) the loan level determined for the crop under subsection (a); exceeds

“(B) the level at which a loan may be repaid under subsection (a).

“(c) PAYMENTS.—

“(1) DEFICIENCY PAYMENTS.—

“(A) IN GENERAL.—The Secretary shall make available to producers payments (referred to in this section as ‘deficiency payments’) for each of the 1996 through 2002 crops of wheat in an amount computed by multiplying—

“(i) the payment rate;

“(ii) the payment acres for the crop; and

“(iii) the farm program payment yield established for the crop for the farm.

“(B) PAYMENT RATE.—

“(i) IN GENERAL.—The payment rate for each of the 1996 through 2002 crops of wheat shall be the amount by which the established price for the crop of wheat exceeds the higher of—

“(I) the lesser of—

“(aa) the national weighted average market price received by producers during the marketing year for the crop, as determined by the Secretary; and

“(bb) the national weighted average market price received by producers during the first 5 months of the marketing year for the crop, as determined by the Secretary, plus 10 cents per bushel; and

“(II) the loan level determined for the crop.

“(ii) MINIMUM ESTABLISHED PRICE.—The established price for wheat shall not be less

than \$4.00 per bushel for each of the 1996 through 2002 crops.

“(C) PAYMENT ACRES.—Payment acres for a crop shall be the lesser of—

“(i) the number of acres planted to the crop for harvest within the permitted acreage (as defined in subsection (e)(2)(D)(ii)); or

“(ii) 75 percent of the crop acreage base for the crop for the farm less the quantity of reduced acreage (as defined in subsection (e)(2)(D)(ii)).

“(D) 0/85 PROGRAM.—

“(i) IN GENERAL.—If an acreage limitation program under subsection (e)(2) is in effect for a crop of wheat and the producers on a farm devote a portion of the maximum payment acres of the farm for wheat as calculated under subparagraph (C)(ii) equal to more than 15 percent (except as provided in clause (vii)) of the wheat acreage of the farm for the crop to conservation uses (except as provided in subparagraph (E))—

“(I) the portion of the maximum payment acres of the farm in excess of 15 percent (except as provided in clause (vii)) of the acreage devoted to conservation uses (except as provided in subparagraph (E)) shall be considered to be planted to wheat for the purpose of determining the acreage on the farm required to be devoted to conservation uses in accordance with subsection (e)(2)(D); and

“(II) the producers shall be eligible for payments under this paragraph with respect to the acreage.

“(ii) DEFICIENCY PAYMENTS.—Notwithstanding any other provision of this section, any producers on a farm who devote a portion of the maximum payment acres of the farm for wheat to conservation uses (or other uses as provided in subparagraph (E)) under this subparagraph shall receive deficiency payments on the acreage that is considered to be planted to wheat and eligible for payments under this subparagraph for the crop at a per-bushel rate established by the Secretary, except that the rate may not be established at less than the projected deficiency payment rate for the crop, as determined by the Secretary. The projected payment rate for the crop shall be announced by the Secretary prior to the period during which wheat producers may agree to participate in the program for the crop.

“(iii) ADVERSE EFFECT ON AGRIBUSINESS AND OTHER INTERESTS.—The Secretary shall carry out this subparagraph in such a manner as to minimize the adverse effect on agribusiness and other agriculturally related economic interests within any county, State, or region. In carrying out this subparagraph, the Secretary may restrict the total quantity of wheat acreage that may be taken out of production under this subparagraph, taking into consideration the total quantity of acreage that has or will be removed from production under other price support, production adjustment, or conservation program activities. No restrictions on the quantity of acreage that may be taken out of production in accordance with this subparagraph in a crop year shall be imposed in the case of a county in which producers were eligible to receive disaster emergency loans under section 321 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1961) as a result of a disaster that occurred during the crop year.

“(iv) CROP ACREAGE AND PAYMENT YIELD.—The wheat crop acreage base and wheat farm program payment yield of the farm shall not be reduced because of the fact that a portion of the permitted acreage for wheat for the farm was devoted to conserving uses (except as provided in subparagraph (E)) under this subparagraph.

“(v) LIMITATION.—Other than as provided in clauses (i) through (iv), payments may not be made under this paragraph for any crop

on a greater acreage than the acreage actually planted to wheat.

“(vi) CONSERVATION USE ACREAGE UNDER OTHER PROGRAMS.—Any acreage considered to be planted to wheat in accordance with clauses (i) and (iv) may not also be designated as conservation use acreage for the purpose of fulfilling any provision under any acreage limitation or land diversion program requiring that the producers devote a specified quantity of acreage to conservation uses.

“(vii) EXCEPTIONS TO 0/85.—In the case of each of the 1996 through 2002 crops of wheat, producers on a farm shall be eligible to receive deficiency payments as provided in clause (ii) if an acreage limitation program under subsection (e) is in effect for the crop and the producers—

“(I)(aa) have been determined by the Secretary (in accordance with section 503(c)) to be prevented from planting the crop, or to have incurred a reduced yield for the crop, because of a natural disaster; and

“(bb) elect to devote a portion of the maximum payment acres for wheat (as calculated under subparagraph (C)(ii)) equal to more than 8 percent of the wheat acreage to conservation uses; or

“(II) elect to devote a portion of the maximum payment acres for wheat (as calculated under subparagraph (C)(ii)) equal to more than 8 percent of the wheat acreage, to alternative crops as provided in subparagraph (E).

“(E) ALTERNATIVE CROPS.—

“(i) INDUSTRIAL AND OTHER CROPS.—The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (D) to be devoted to sweet sorghum, guar, castor beans, plantago ovato, triticale, rye, millet, mung beans, commodities for which no substantial domestic production or market exists but that could lead to industrial raw material being imported, or likely to be imported, into the United States, or commodities grown for experimental purposes (including kenaf and milkweed), subject to the following sentence. The Secretary may permit the acreage to be devoted to the production only if the Secretary determines that the production is—

“(I) not likely to increase the cost of the price support program; and

“(II) needed to provide an adequate supply of the commodity, or, in the case of a commodity for which no substantial domestic production or market exists but that could yield industrial raw materials, the production is needed to encourage domestic manufacture of the raw material and could lead to increased industrial use of the raw material to the long-term benefit of United States industry.

“(ii) OILSEEDS.—The Secretary shall permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (D) to be devoted to sunflowers, rapeseed, canola, safflower, flaxseed, mustard seed, sesame, crambe, or other minor oilseeds designated by the Secretary (excluding soybeans). In carrying out this clause, the Secretary shall provide that, to receive payments under subparagraph (D), the producers shall agree to forgo eligibility to receive a loan under section 205 for the crop of any such oilseed produced on the farm.

“(iii) DOUBLE CROPPING.—The Secretary shall permit, subject to such terms and conditions as the Secretary may prescribe, all or any portion of the acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under

subparagraph (D) that is devoted to an industrial, oilseed, or other crop pursuant to clause (i) or (ii) to be subsequently planted during the same crop year to any crop described in subparagraph (B), (C), or (D) of section 504(b)(1). The planting of soybeans as the subsequently planted crop shall be limited to farms determined by the Secretary to have an established history of double cropping soybeans during at least 3 of the preceding 5 years. In carrying out this clause, the Secretary shall require producers to agree to forego eligibility to receive loans under this Act for the crop of the subsequently planted crop that is produced on a farm under this clause.

“(2) CROP INSURANCE REQUIREMENT.—As a condition of eligibility for wheat loans, purchases, and payments, the producers on a farm shall obtain catastrophic risk protection insurance coverage in accordance with section 427.

“(d) PAYMENT YIELDS.—The farm program payment yields for farms for each crop of wheat under this section shall be determined under title V.

“(e) ACREAGE REDUCTION PROGRAMS.—

“(I) IN GENERAL.—

“(A) ESTABLISHMENT.—Notwithstanding any other provision of this Act, if the Secretary determines that the total supply of wheat, in the absence of an acreage limitation program, will be excessive taking into account the need for an adequate carry-over to maintain reasonable and stable supplies and prices and to meet a national emergency, the Secretary may provide for any crop of wheat an acreage limitation program as described in paragraph (2).

“(B) AGRICULTURAL RESOURCES CONSERVATION PROGRAM.—In making a determination under subparagraph (A), the Secretary shall take into consideration the number of acres placed in the agricultural resources conservation program established under subtitle D of title XII of the Food Security Act of 1985 (16 U.S.C. 3830 et seq.).

“(C) ANNOUNCEMENTS.—If the Secretary elects to implement an acreage limitation program for any crop year, the Secretary shall announce the program not later than the June 1 preceding the calendar year in which the crop is harvested, except that in the case of the 1996 crop, the Secretary shall announce the program as soon as practicable after the date of enactment of the Agricultural Competitiveness Act of 1995.

“(D) ADJUSTMENTS.—Not later than July 31 of the year preceding the year in which the crop is harvested, the Secretary may make adjustments in the program announced under subparagraph (C) if the Secretary determines that there has been a significant change in the total supply of wheat since the program was first announced.

“(E) COMPLIANCE.—As a condition of eligibility for loans, purchases, and payments for any such crop of wheat, except as provided in subsections (f) and (g) and section 504, the producers on a farm shall comply with the terms and conditions of the acreage limitation program and, if applicable, a land diversion program as provided in paragraph (5).

“(F) ACREAGE LIMITATION PROGRAMS.—If the Secretary estimates for a marketing year for the crop that the ratio of ending stocks of wheat to total disappearance of wheat for the preceding marketing year will be—

“(i) more than 40 percent, the Secretary shall provide for an acreage limitation program (as described in paragraph (2)) under which the acreage planted to wheat for harvest on a farm is limited to the wheat crop acreage base for the farm for the crop reduced by not less than 10 percent nor more than 20 percent; or

"(ii) equal to or less than 40 percent, the Secretary may provide for such an acreage limitation program under which the acreage planted to wheat for harvest on a farm is limited to the wheat crop acreage base for the farm for the crop reduced by not more than 15 percent.

"(G) DEFINITION OF TOTAL DISAPPEARANCE.—In this paragraph, the term 'total disappearance' means all wheat utilization, including total domestic, total export, and total residual disappearance.

"(2) ACREAGE LIMITATION PROGRAM.—

"(A) PERCENTAGE REDUCTIONS.—Except as provided in paragraph (3), if a wheat acreage limitation program is announced under paragraph (1), the limitation shall be achieved by applying a uniform percentage reduction (from 0 to 20 percent) to the wheat crop acreage base for the crop for each wheat-producing farm.

"(B) COMPLIANCE.—Except as provided in subsection (g) and section 504, producers who knowingly produce wheat in excess of the permitted acreage for wheat for the farm shall be ineligible for wheat loans, purchases, and payments with respect to the farm.

"(C) CROP ACREAGE BASES.—Wheat crop acreage bases for each crop of wheat shall be determined under title V.

"(D) ACREAGE DEVOTED TO CONSERVATION USES.—

"(i) IN GENERAL.—A number of acres on the farm shall be devoted to conservation uses, in accordance with regulations issued by the Secretary.

"(ii) NUMBER.—The number shall be determined by multiplying the wheat crop acreage base by the percentage reduction required by the Secretary. The number of acres so determined is referred to in this section as 'reduced acreage'. The remaining acreage is referred to in this section as 'permitted acreage'.

"(iii) ADJUSTMENT.—Permitted acreage may be adjusted by the Secretary as provided in paragraph (3) and in section 504.

"(E) INDIVIDUAL FARM PROGRAM ACREAGE.—Except as otherwise provided in subsection (c), the individual farm program acreage shall be the acreage planted on the farm to wheat for harvest within the permitted acreage for wheat for the farm as established under this paragraph.

"(F) PLANTING DESIGNATED CROPS ON REDUCED ACREAGE.—

"(i) DEFINITION OF DESIGNATED CROP.—In this subparagraph, the term 'designated crop' means a crop specified in section 504(b)(1), excluding any program crop as defined in section 502(3).

"(ii) PLANTING DESIGNATED CROPS.—Subject to clause (iii), the Secretary may permit producers on a farm to plant a designated crop on not more than ½ of the reduced acreage on the farm.

"(iii) LIMITATIONS.—If the producers on a farm elect to plant a designated crop on reduced acreage under this subparagraph—

"(I) the amount of the deficiency payment that the producers are otherwise eligible to receive under subsection (c) shall be reduced, for each acre (or portion of an acre) that is planted to the designated crop, by an amount equal to the deficiency payment that would be made with respect to a number of acres of the crop that the Secretary considers appropriate, except that if the producers on the farm are participating in a program established for more than 1 program crop, the amount of the reduction shall be determined by prorating the reduction based on the acreage planted or considered planted on the farm to all of the program crops; and

"(II) the Secretary shall ensure that reductions in deficiency payments under subclause (I) are sufficient to ensure that

this subparagraph will result in no additional cost to the Commodity Credit Corporation.

"(3) TARGETED OPTION PAYMENTS.—

"(A) IN GENERAL.—Notwithstanding any other provision of this section, if the Secretary implements an acreage limitation program with respect to any of the 1996 through 2002 crops of wheat, the Secretary may make available to producers on a farm adjustments in the level of deficiency payments that would otherwise be made available to the producers if the producers exercise the payment options provided in this paragraph.

"(B) PAYMENT OPTIONS.—If the Secretary elects to carry out this paragraph, the Secretary shall make the payment options specified in subparagraphs (C) and (D) available to producers who agree to make adjustments in the quantity of acreage diverted from the production of wheat under an acreage limitation program in accordance with this paragraph.

"(C) INCREASED ACREAGE LIMITATION OPTION.—

"(i) INCREASE IN ESTABLISHED PRICE.—If the Secretary elects to carry out this paragraph, the producers on a farm shall be eligible to receive an increase in the established price for wheat in accordance with clause (ii) if the producers agree to an increase in the acreage limitation percentage to be applied to the wheat acreage base of the producers above the acreage limitation percentage announced by the Secretary.

"(ii) METHOD OF CALCULATION.—For the purposes of calculating deficiency payments to be made available to producers who participate in the program under this paragraph, the Secretary shall increase the established price for wheat by an amount determined by the Secretary of not less than 0.5 percent, nor more than 1 percent, for each 1 percentage point increase in the acreage limitation percentage applied to the wheat acreage base of the producers.

"(iii) LIMITATION.—The acreage limitation percentage to be applied to the wheat acreage base of the producers shall not be increased by more than 15 percentage points above the acreage limitation percentage announced by the Secretary for the crop or above 25 percent total for the crop.

"(D) DECREASED ACREAGE LIMITATION OPTION.—

"(i) DECREASE IN ACREAGE LIMITATION REQUIREMENT.—If the Secretary elects to carry out this paragraph, the producers on a farm shall be eligible to decrease the acreage limitation percentage applicable to the wheat acreage base of the producers (as announced by the Secretary) if the producers agree to a decrease in the established price for wheat in accordance with clause (ii) for the purpose of calculating deficiency payments to be made available to the producers.

"(ii) METHOD OF CALCULATION.—For the purposes of calculating deficiency payments to be made available to producers who choose the option established under this subparagraph, the Secretary shall decrease the established price for wheat by an amount to be determined by the Secretary of not less than 0.5 percent, nor more than 1 percent, for each 1 percentage point decrease in the acreage limitation percentage applied to the wheat acreage base of the producers.

"(iii) LIMITATION.—The producers on a farm may not choose to decrease the acreage limitation percentage applicable to the wheat acreage base of the producers under this paragraph by more than ½ of the announced acreage limitation percentage.

"(E) PARTICIPATION AND PRODUCTION EFFECTS.—Notwithstanding any other provision of this paragraph, the Secretary shall, to the extent practicable, ensure that the program

provided for in this paragraph does not have a significant effect on participation in the program established by this section or total production and is offered in such a manner that the Secretary determines will result in no additional budget outlays. The Secretary shall provide an analysis of the determination of the Secretary to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate.

"(4) ADMINISTRATION.—

"(A) PROTECTION FROM WEEDS AND EROSION.—The regulations issued by the Secretary under paragraph (2) with respect to acreage required to be devoted to conservation uses shall ensure protection of the acreage from weeds and wind and water erosion.

"(B) CONSERVING CROPS.—The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of the acreage to be devoted to sweet sorghum, guar, sesame, castor beans, crambe, plantago ovata, triticale, rye, mung beans, milkweed, or other commodity, if the Secretary determines that the production is needed to provide an adequate supply of the commodity, is not likely to increase the cost of the price support program, and will not affect farm income adversely.

"(C) HAYING AND GRAZING.—

"(i) IN GENERAL.—Except as provided in clause (ii), haying and grazing of reduced acreage and acreage diverted from production under a land diversion program established under this subsection shall be permitted, except during any consecutive 5-month period that is established by the State committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) for a State. The 5-month period shall be established during the period beginning April 1, and ending October 31, of a year.

"(ii) NATURAL DISASTERS.—In the case of a natural disaster, the Secretary may permit unlimited haying and grazing on the acreage. The Secretary may not exclude irrigated or irrigable acreage not planted to alfalfa when exercising the authority under this clause.

"(D) WATER STORAGE USES.—

"(i) IN GENERAL.—The regulations issued by the Secretary under paragraph (2) with respect to acreage required to be devoted to conservation uses shall provide that land that has been converted to water storage uses shall be considered to be devoted to conservation uses if the land was devoted to wheat, feed grains, cotton, rice, or oilseeds in at least 3 of the immediately preceding 5 crop years. The land shall be considered to be devoted to conservation uses for the period that the land remains in water storage uses, but not to exceed 5 crop years subsequent to the conversion of the land to water storage uses.

"(ii) LIMITATIONS.—Land converted to water storage uses for the purposes of this subparagraph may not be devoted to any commercial use, including commercial fish production. The water stored on the land may not be ground water. The farm on which the land is located must have been irrigated with ground water during at least 1 of the preceding 5 crop years.

"(E) SUMMER FALLOW.—In determining the quantity of land to be devoted to conservation uses under an acreage limitation program with respect to land that has been farmed under summer fallow practices, as defined by the Secretary, the Secretary shall consider the effects of soil erosion and such other factors as the Secretary considers appropriate.

"(5) LAND DIVERSION PAYMENTS.—

"(A) IN GENERAL.—The Secretary may make land diversion payments to producers

of wheat, whether or not an acreage limitation program for wheat is in effect, if the Secretary determines that the land diversion payments are necessary to assist in adjusting the total national acreage of wheat to desirable goals. The land diversion payments shall be made to producers who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in accordance with land diversion contracts entered into by the Secretary with the producers.

“(B) AMOUNTS.—The amounts payable to producers under land diversion contracts may be determined through the submission of bids for the contracts by producers in such manner as the Secretary may prescribe or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the producers and the productivity of the acreage diverted.

“(C) LIMITATION ON DIVERTED ACREAGE.—The Secretary shall limit the total acreage to be diverted under agreements in any county or local community so as not to affect adversely the economy of the county or local community.

“(6) CONSERVATION PRACTICES.—

“(A) WILDLIFE FOOD PLOTS OR HABITAT.—The reduced acreage and additional diverted acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies. The Secretary may pay an appropriate share of the cost of practices designed to carry out this subparagraph.

“(B) SOIL AND WATER CONSERVATION PRACTICES.—The Secretary may pay an appropriate share of the cost of approved soil and water conservation practices (including practices that may be effective for a number of years) established by the producers on a farm on acreage required to be devoted to conservation uses or on additional diverted acreage.

“(C) PUBLIC ACCESSIBILITY.—The Secretary may provide for an additional payment on the acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producers on a farm agree to permit, without other compensation, access to all or such portion of the farm as the Secretary may prescribe by the general public, for hunting, trapping, fishing, and hiking, subject to applicable Federal and State regulations.

“(7) PARTICIPATION AGREEMENTS.—

“(A) IN GENERAL.—Producers on a farm desiring to participate in the program conducted under this subsection shall execute an agreement with the Secretary providing for the participation with respect to a crop year not later than such date as the Secretary may prescribe.

“(B) MODIFICATION OR TERMINATION.—The Secretary may, by mutual agreement with producers on a farm, modify or terminate any such agreement if the Secretary determines the action necessary because of an emergency created by drought or other disaster or to prevent or alleviate a shortage in the supply of agricultural commodities. The Secretary may modify the agreement under this subparagraph for the purpose of alleviating a shortage in the supply of agricultural commodities only if there has been a significant change in the estimated stocks of the commodity since the Secretary announced the final terms and conditions of the program for the crop of wheat.

“(8) SPECIAL OATS PLANTINGS.—In the case of a crop year for which the Secretary determines that projected domestic production of oats will not fulfill the projected domestic

demand for oats, notwithstanding paragraphs (1) through (7), the Secretary—

“(A) may provide that any reduced acreage may be planted to oats for harvest;

“(B) may make program benefits (including loans, purchases, and payments) available under the annual program for oats under section 105B available to producers with respect to acreage planted to oats under this paragraph; and

“(C) shall not make program benefits other than the benefits specified in subparagraph (B) available to producers with respect to acreage planted to oats under this paragraph.

“(f) INVENTORY REDUCTION PAYMENTS.—

“(1) IN GENERAL.—The Secretary may make payments available to producers on a farm who meet the requirements of this subsection.

“(2) FORM.—The payments may be made in the form of marketing certificates.

“(3) PAYMENTS.—Payments under this subsection shall be determined in the manner provided in subsection (b).

“(4) ELIGIBILITY.—The producers on a farm shall be eligible to receive a payment under this subsection for a crop if the producers—

“(A) agree to forgo obtaining a loan or purchase agreement under subsection (a);

“(B) agree to forgo receiving payments under subsection (c);

“(C) do not plant wheat for harvest in excess of the crop acreage base reduced by ½ of any acreage required to be diverted from production under subsection (e); and

“(D) otherwise comply with this section.

“(g) PILOT VOLUNTARY PRODUCTION LIMITATION PROGRAM.—

“(1) IN GENERAL.—Effective for each of the 1996 through 2002 crops, if a wheat acreage limitation program or a land diversion program is announced under subsection (e) for a crop, the Secretary may carry out a pilot program in at least 15 counties in at least 2 States where producers express an interest in participating in the pilot program. Under the pilot program, the producers on a farm shall be considered to have met the requirements of the acreage limitation or land diversion program if the producers meet the requirements of the voluntary production limitation program established under this subsection.

“(2) LIMITATION ON MARKETING.—To comply with the voluntary production limitation program, the producers on a farm must agree not to market, barter, donate, or use on the farm (including use as feed for livestock) in a marketing year a quantity of wheat in excess of the wheat production limitation quantity for the farm for the marketing year.

“(3) PRODUCTION LIMITATION QUANTITY.—For purposes of this subsection, the wheat production limitation quantity for a farm for a marketing year for a crop shall equal the product obtained by multiplying—

“(A) the acreage permitted to be planted to wheat under the acreage reduction program or land diversion program in effect for the crop for the farm; and

“(B) the greater of—

“(i) the farm program payment yield for the farm; and

“(ii) the average of the yield per harvested acre for wheat for the farm for each of the 5 crop years immediately preceding the crop year during which the producers first participate in the program established under this subsection, excluding the crop years with the highest and lowest yield per harvested acre and any crop year in which the commodity was not planted on the farm.

“(4) TERMS AND CONDITIONS.—Producers on a farm who elect to participate in the program established under this subsection for a crop of wheat shall—

“(A) enter into an agreement with the Secretary providing that the producers shall comply with the program for the crop;

“(B) not plant program commodities for harvest in a quantity in excess of the sum of the crop acreage bases for the farm; and

“(C) be considered to have complied with the terms and conditions of the wheat acreage reduction program or land diversion program for the crop, even though the acreage planted to wheat on the farm exceeds the permitted acreage provided under the acreage reduction or land diversion program.

“(5) EXCESS PRODUCTION.—

“(A) IN GENERAL.—Any quantity of wheat produced in a crop year on a farm in excess of the production limitation quantity for the farm may be stored by the producers for a period of not to exceed 5 marketing years and may be used only in accordance with this paragraph.

“(B) MARKETING IN SUBSEQUENT YEAR.—

“(i) PARTICIPANTS IN PROGRAM.—Producers on a farm who are participating in the program established under this subsection may market, barter, or use a quantity of the excess wheat referred to in subparagraph (A) equal to the difference between the production limitation quantity for the farm for the crop year subsequent to the crop year in which the excess wheat is produced less the quantity of wheat produced on the farm during the crop year.

“(ii) PARTICIPANTS IN ACREAGE REDUCTION PROGRAM.—Producers on a farm who are participating in the program established under this subsection may market, barter, or use a quantity of the excess wheat referred to in subparagraph (A) in an amount that reflects the quantity of wheat that would be expected to be produced on acreage that the producers agree to devote to approved conservation uses (in excess of any acreage reduction or land diversion requirements) during a crop year, as determined by the Secretary.

“(6) DUTIES OF SECRETARY.—In carrying out the pilot program established under this subsection, the Secretary—

“(A) shall issue such regulations as are necessary to carry out the program;

“(B) may establish increased acreage reduction or land diversion requirements with respect to producers who have had excess wheat production in order to allow the producers to market, barter, or use the production in subsequent years;

“(C) shall take appropriate measures designed to prevent the circumvention of the program established under this subsection, including the imposition of penalties;

“(D) may require producers who participate in the program for a crop, but who fail to comply with the terms and conditions of the program, to refund all or a part of any deficiency payments received with respect to the crop;

“(E) may require the forfeiture to the Commodity Credit Corporation of any wheat that is produced in excess of the production limitation quantity and that is not marketed, bartered, or used within 5 marketing years; and

“(F) shall ensure equitable treatment for producers who participate in the pilot program if the Secretary allows increases (based on actual production levels) in the determination of farm program payment yields for wheat for the farm.

“(7) REPORT.—

“(A) IN GENERAL.—The Comptroller General shall prepare a report that evaluates the pilot program carried out under this subsection.

“(B) SUBMISSION.—The Comptroller General shall submit a copy of the report required by subparagraph (A) to the Committee on Agriculture of the House of Representatives, the Committee on Agriculture, Nutrition, and Forestry of the Senate, and the Secretary.

“(h) EQUITABLE RELIEF.—

“(1) LOANS, PURCHASES, AND PAYMENTS.—If the failure of a producer to comply fully with the terms and conditions of the program conducted under this section precludes the making of loans, purchases, and payments, the Secretary may, notwithstanding the failure, make the loans, purchases, and payments in such amounts as the Secretary determines are equitable in relation to the seriousness of the failure. The Secretary may consider whether the producer made a good faith effort to comply fully with the terms and conditions of the program in determining whether equitable relief is warranted under this paragraph.

“(2) DEADLINES AND PROGRAM REQUIREMENTS.—The Secretary may authorize the county and State committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) to waive or modify deadlines and other program requirements in cases in which lateness or failure to meet the other requirements does not affect adversely the operation of the program.

“(i) REGULATIONS.—The Secretary may issue such regulations as the Secretary determines necessary to carry out this section.

“(j) COMMODITY CREDIT CORPORATION.—The Secretary shall carry out the program authorized by this section through the Commodity Credit Corporation.

“(k) ASSIGNMENT OF PAYMENTS.—Section 8(g) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(g)) shall apply to payments made under this section.

“(l) SHARING OF PAYMENTS.—The Secretary shall provide for the sharing of payments made under this section for any farm among the producers on the farm on a fair and equitable basis.

“(m) TENANTS AND SHARECROPPERS.—In carrying out this section, the Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers.

“(n) CROSS-COMPLIANCE.—

“(1) IN GENERAL.—Compliance on a farm with the terms and conditions of any other commodity program, or compliance with crop acreage base requirements for any other commodity, may not be required as a condition of eligibility for loans, purchases, or payments under this section.

“(2) COMPLIANCE ON OTHER FARMS.—The Secretary may not require producers on a farm, as a condition of eligibility for loans, purchases, or payments under this section for the farm, to comply with the terms and conditions of the wheat program with respect to any other farm operated by the producers.

“(o) PUBLIC COMMENT ON WHEAT PROGRAM.—

“(1) IN GENERAL.—To ensure that producers and consumers of wheat are provided with reasonable opportunity to comment on the annual program determinations concerning the price support and acreage reduction program for each of the 1997 through 2002 crops of wheat, the Secretary shall request public comment regarding the wheat program in accordance with this subsection.

“(2) OPTIONS.—Not less than 60 days before the program is announced for a crop of wheat under this section, the Secretary shall propose for public comment various program options for the crop of wheat.

“(3) ANALYSES.—Each option proposed by the Secretary shall be accompanied by an analysis that includes the estimated planted

acreage, production, domestic and export use, ending stocks, season average producer price, program participation rate, and cost to the Federal Government that would likely result from the option.

“(4) ESTIMATES.—In announcing the program for a crop of wheat under this section, the Secretary shall include an estimate of the planted acreage, production, domestic and export use, ending stocks, season average producer price, program participation rate, and cost to the Federal Government that is expected to result from the program as announced.

“(p) CROPS.—Notwithstanding any other provision of law, this section shall be effective only for the 1996 through 2002 crops of wheat.”

SEC. 102. NONAPPLICABILITY OF CERTIFICATE REQUIREMENTS.

Sections 379d through 379j of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1379d-1379j) shall not be applicable to wheat processors or exporters during the period June 1, 1996, through May 31, 2003.

SEC. 103. SUSPENSION OF LAND USE, WHEAT MARKETING ALLOCATION, AND PRODUCER CERTIFICATE PROVISIONS.

Sections 331 through 339, 379b, and 379c of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1331 through 1339, 1379b, and 1379c) shall not be applicable to the 1996 through 2002 crops of wheat.

SEC. 104. SUSPENSION OF CERTAIN QUOTA PROVISIONS.

The joint resolution entitled “A joint resolution relating to corn and wheat marketing quotas under the Agricultural Adjustment Act of 1938, as amended”, approved May 26, 1941 (7 U.S.C. 1330 and 1340), shall not be applicable to the crops of wheat planted for harvest in the calendar years 1996 through 2002.

SEC. 105. NONAPPLICABILITY OF SECTION 107 OF THE AGRICULTURAL ACT OF 1949.

Section 107 of the Agricultural Act of 1949 (7 U.S.C. 1445a) shall not be applicable to the 1996 through 2002 crops of wheat.

TITLE II—FEED GRAINS

SEC. 201. LOANS, PAYMENTS, AND ACREAGE REDUCTION PROGRAMS FOR THE 1996 THROUGH 2002 CROPS OF FEED GRAINS.

Section 105B of the Agricultural Act of 1949 (7 U.S.C. 1444f) is amended to read as follows:

“SEC. 105B. LOANS, PAYMENTS, AND ACREAGE REDUCTION PROGRAMS FOR THE 1996 THROUGH 2002 CROPS OF FEED GRAINS.

“(a) LOANS AND PURCHASES.—

“(1) IN GENERAL.—Except as otherwise provided in this subsection, the Secretary shall make available to producers on a farm loans and purchases for each of the 1996 through 2002 crops of corn produced on the farm at such level as the Secretary determines will encourage the exportation of feed grains and not result in excessive total stocks of feed grains after taking into consideration the cost of producing corn, supply and demand conditions, and world prices for corn.

“(2) MINIMUM LOAN AND PURCHASE LEVEL.—Except as provided in paragraphs (3) and (4), the loan and purchase level determined under paragraph (1) shall be not less than 85 percent of the simple average price received by producers of corn, as determined by the Secretary, during the marketing years for the immediately preceding 5 crops of corn, excluding the year in which the average price was the highest and the year in which the average price was the lowest in the period, except that the loan and purchase level for a crop determined under this paragraph may not be reduced by more than 5 percent from the level determined for the preceding crop.

“(3) ADJUSTMENTS TO SUPPORT LEVEL.—

“(A) STOCKS TO USE RATIO.—If the Secretary estimates for any marketing year that the ratio of ending stocks of corn to total use for the marketing year will be—

“(i) equal to or greater than 25 percent, the Secretary may reduce the loan and purchase level for corn for the crop corresponding to the marketing year by an amount not to exceed 10 percent in any year;

“(ii) less than 25 percent but not less than 12.5 percent, the Secretary may reduce the loan and purchase level for corn for the crop corresponding to the marketing year by an amount not to exceed 5 percent in any year; or

“(iii) less than 12.5 percent the Secretary may not reduce the loan and purchase level for corn for the crop corresponding to the marketing year.

“(B) REPORT TO CONGRESS.—

“(i) IN GENERAL.—If the Secretary adjusts the level of loans and purchases for corn under subparagraph (A), the Secretary shall submit to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report—

“(I) certifying the adjustment as necessary to prevent the accumulation of stocks and to retain market share; and

“(II) containing a description of the need for the adjustment.

“(ii) EFFECTIVE DATE OF ADJUSTMENT.—The adjustment shall become effective not earlier than 60 calendar days after the date of submission of the report to the Committees, except that in the case of the 1996 crop of feed grains, the adjustment shall become effective on the date of submission of the report.

“(C) COMPETITIVE POSITION.—Notwithstanding subparagraph (A), if the Secretary determines, not later than 60 days prior to the beginning of a marketing year for a crop, that the effective loan rate established for the crop will not maintain a competitive market position for corn, the Secretary may reduce the loan and purchase level for corn for the marketing year by an amount, in addition to any reduction under subparagraph (A), not to exceed 10 percent in any year.

“(D) NO EFFECT ON FUTURE YEARS.—Any reduction in the loan and purchase level for corn under this paragraph shall not be considered in determining the loan and purchase level for corn for subsequent years.

“(E) MINIMUM LOAN RATE.—Notwithstanding subparagraph (A), the loan rate for corn shall not be less than \$1.76 per bushel, unless the rate would exceed 80 percent of the 5-year average market price determined under paragraph (2).

“(4) MARKETING LOANS.—

“(A) IN GENERAL.—The Secretary shall permit the producers on a farm to repay a loan made under this subsection for a crop at a level (except as provided in subparagraph (C)) that is the lesser of—

“(i) the loan level determined for the crop;

“(ii) the higher of—

“(I) 70 percent of the level; and

“(II) if the loan level for a crop was reduced under paragraph (3), 70 percent of the loan level that would have been in effect but for the reduction under paragraph (3); and

“(iii) the prevailing world market price for feed grains (adjusted to United States quality and location), as determined by the Secretary.

“(B) PREVAILING WORLD MARKET PRICE.—The Secretary shall prescribe by regulation—

“(i) a formula to determine the prevailing world market price for feed grains, adjusted to United States quality and location; and

“(ii) a mechanism by which the Secretary shall announce periodically the prevailing world market price for feed grains.

“(C) ALTERNATIVE REPAYMENT RATES.—For each of the 1996 through 2002 crops of feed grains, if the world market price for feed grains (adjusted to United States quality and location), as determined by the Secretary, is less than the loan level determined for the crop, the Secretary may permit the producers on a farm to repay a loan made under this subsection for a crop at such level (not in excess of the loan level determined for the crop) as the Secretary determines will—

“(i) minimize potential loan forfeitures;

“(ii) minimize the accumulation of feed grain stocks by the Federal Government;

“(iii) minimize the cost incurred by the Federal Government in storing feed grains; and

“(iv) allow feed grains produced in the United States to be marketed freely and competitively, both domestically and internationally.

“(5) SIMPLE AVERAGE PRICE.—For purposes of this section, the simple average price received by producers for the immediately preceding marketing year shall be based on the latest information available to the Secretary at the time of the determination.

“(6) OTHER FEED GRAINS.—The Secretary shall make available to producers loans and purchases for each of the 1996 through 2002 crops of grain sorghums, barley, oats, and rye, respectively, produced on the farm at such level as the Secretary determines is fair and reasonable in relation to the level that loans and purchases are made available for corn, taking into consideration the feeding value of the commodity in relation to corn and other factors specified in section 401(b).

“(b) LOAN DEFICIENCY PAYMENTS.—

“(1) IN GENERAL.—For each of the 1996 through 2002 crops of feed grains, the Secretary may make payments (referred to in this section as ‘loan deficiency payments’) available to producers who, although eligible to obtain a loan or an agreement for purchase under subsection (a), agree to forgo obtaining the loan or agreement in return for payments under this subsection.

“(2) COMPUTATION.—A payment under this subsection shall be computed by multiplying—

“(A) the loan payment rate; and

“(B) the quantity of feed grains the producers on a farm are eligible to place under loan (or obtain a purchase agreement) but for which the producers forgo obtaining the loan or agreement in return for payments under this subsection.

“(3) LOAN PAYMENT RATE.—For purposes of this subsection, the loan payment rate shall be the amount by which—

“(A) the loan level determined for the crop under subsection (a); exceeds

“(B) the level at which a loan may be repaid under subsection (a).

“(c) PAYMENTS.—

“(1) DEFICIENCY PAYMENTS.—

“(A) IN GENERAL.—The Secretary shall make available to producers payments (referred to in this section as ‘deficiency payments’) for each of the 1996 through 2002 crops of corn, grain sorghums, oats, and barley, in an amount computed by multiplying—

“(i) the payment rate;

“(ii) the payment acres for the crop; and

“(iii) the farm program payment yield established for the crop for the farm.

“(B) PAYMENT RATE.—

“(i) IN GENERAL.—The payment rate for each of the 1996 through 2002 crops of corn, grain sorghums, oats, and barley shall be the amount by which the established price for the respective crop of feed grains exceeds the higher of—

“(I) the lesser of—

“(aa) the national weighted average market price received by producers during the marketing year for the crop, as determined by the Secretary; and

“(bb) the national weighted average market price received by producers during the first 5 months of the marketing year for the crop, as determined by the Secretary, plus 7 cents per bushel; and

“(II) the loan level determined for the crop, prior to any adjustment made under subsection (a)(3) for the marketing year for the respective crop of feed grains.

“(ii) MINIMUM ESTABLISHED PRICES.—

“(I) CORN.—The established price for corn shall not be less than \$2.75 per bushel for each of the 1996 through 2002 crops of corn.

“(II) OATS.—The established price for oats shall be such price as the Secretary determines is fair and reasonable in relation to the established price for corn, but not less than \$1.45 per bushel.

“(III) GRAIN SORGHUMS.—The established price for each of the 1996 through 2002 crops of grain sorghums shall not be less than \$2.61 per bushel.

“(IV) BARLEY.—

“(aa) IN GENERAL.—The established price for barley shall be such price as the Secretary determines is fair and reasonable in relation to the established price for corn, taking into consideration the various feed and food uses for barley. The established price for barley shall not be less than 85.8 percent of the established price for corn.

“(bb) BARLEY CALCULATIONS.—The Secretary shall, for purposes of determining the payment rate for barley under clauses (i) and (ii) and subparagraph (D)(ii), use the national weighted average market price received by producers of barley sold primarily for feed purposes.

“(cc) ADVANCE PAYMENTS.—In the case of the 1996 crop of barley, the Secretary shall, for purposes of determining any advance deficiency payment made to the producers of barley under section 114, use the national weighted average market price received by producers for all barley, as determined by the Secretary.

“(dd) EQUITY.—In carrying out this subsection, the Secretary shall make available to producers of the 1996 crop of barley, notwithstanding the method of calculation or the amount of the advance deficiency payment, the total amount of payments as calculated under item (bb).

“(C) PAYMENT ACRES.—Payment acres for a crop shall be the lesser of—

“(i) the number of acres planted to the crop for harvest within the permitted acreage (as defined in subsection (e)(2)(D)(ii)); or

“(ii) 75 percent of the crop acreage base for the crop for the farm less the quantity of reduced acreage (as defined in subsection (e)(2)(D)(ii)).

“(D) EMERGENCY COMPENSATION.—

“(i) IN GENERAL.—Notwithstanding subparagraphs (A) through (C), if the Secretary adjusts the level of loans and purchases for feed grains under subsection (a)(3), the Secretary shall provide emergency compensation to producers by increasing the deficiency payments for feed grains by such amount as the Secretary determines is necessary to provide the same total return to producers as if the adjustment in the level of loans and purchases had not been made.

“(ii) CALCULATION.—In determining the payment rate, per bushel, for emergency compensation payments for a crop of feed grains under this subparagraph, the Secretary shall use the national weighted average market price, per bushel of feed grains, received by producers during the marketing year for the crop, as determined by the Secretary.

“(E) 0/85 PROGRAM.—

“(i) IN GENERAL.—If an acreage limitation program under subsection (e)(2) is in effect for a crop of feed grains and the producers on a farm devote a portion of the maximum payment acres of the farm for feed grains as calculated under subparagraph (C)(ii) equal to 15 percent (except as provided in clause (vii)) of the feed grain acreage of the farm for the crop to conservation uses (except as provided in subparagraph (F))—

“(I) the portion of the maximum payment acres of the farm in excess of 15 percent (except as provided in clause (vii)) of the acreage devoted to conservation uses (except as provided in subparagraph (F)) shall be considered to be planted to feed grains for the purpose of determining the acreage on the farm required to be devoted to conservation uses in accordance with subsection (e)(2)(D); and

“(II) the producers shall be eligible for payments under this paragraph with respect to the acreage.

“(ii) DEFICIENCY PAYMENTS.—Notwithstanding any other provision of this section, any producers on a farm who devote a portion of the maximum payment acres of the farm for feed grains to conservation uses (or other uses as provided in subparagraph (F)) under this subparagraph shall receive deficiency payments on the acreage that is considered to be planted to feed grains and eligible for payments under this subparagraph for the crop at a per-bushel rate established by the Secretary, except that the rate may not be established at less than the projected deficiency payment rate for the crop, as determined by the Secretary. The projected payment rate for the crop shall be announced by the Secretary prior to the period during which feed grain producers may agree to participate in the program for the crop.

“(iii) ADVERSE EFFECT ON AGRIBUSINESS AND OTHER INTERESTS.—The Secretary shall carry out this subparagraph in such a manner as to minimize the adverse effect on agribusiness and other agriculturally related economic interests within any county, State, or region. In carrying out this subparagraph, the Secretary may restrict the total quantity of feed grain acreage that may be taken out of production under this subparagraph, taking into consideration the total quantity of acreage that has or will be removed from production under other price support, production adjustment, or conservation program activities. No restrictions on the quantity of acreage that may be taken out of production in accordance with this subparagraph in a crop year shall be imposed in the case of a county in which producers were eligible to receive disaster emergency loans under section 321 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1961) as a result of a disaster that occurred during the crop year.

“(iv) CROP ACREAGE AND PAYMENT YIELD.—The feed grain crop acreage base and feed grain farm program payment yield of the farm shall not be reduced because of the fact that a portion of the permitted acreage for feed grains for the farm was devoted to conserving uses (except as provided in subparagraph (F)) under this subparagraph.

“(v) LIMITATION.—Other than as provided in clauses (i) through (iv), payments may not be made under this paragraph for any crop on a greater acreage than the acreage actually planted to feed grains.

“(vi) CONSERVATION USE ACREAGE UNDER OTHER PROGRAMS.—Any acreage considered to be planted to feed grains in accordance with clauses (i) and (iv) may not also be designated as conservation use acreage for the purpose of fulfilling any provision under any acreage limitation or land diversion program

requiring that the producers devote a specified quantity of acreage to conservation uses.

“(vii) EXCEPTIONS TO 0/85.—In the case of each of the 1996 through 2002 crops of feed grains, producers on a farm shall be eligible to receive deficiency payments as provided in clause (ii) if an acreage limitation program under subsection (e) is in effect for the crop and the producers—

“(I)(aa) have been determined by the Secretary (in accordance with section 503(c)) to be prevented from planting the crop, or have incurred a reduced yield for the crop because of a natural disaster; and

“(bb) elect to devote a portion of the maximum payment acres for feed grains (as calculated under subparagraph (C)(ii)) equal to more than 8 percent of the feed grain acreage, to conservation uses; or

“(II) elect to devote a portion of the maximum payment acres for feed grains (as calculated under subparagraph (C)(ii)) equal to more than 8 percent of the feed grain acreage, to alternative crops as provided in subparagraph (F).

“(F) ALTERNATIVE CROPS.—

“(i) INDUSTRIAL AND OTHER CROPS.—The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (E) to be devoted to sweet sorghum, guar, castor beans, plantago ovato, triticale, rye, millet, mung beans, commodities for which no substantial domestic production or market exists but that could lead to industrial raw material being imported, or likely to be imported, into the United States, or commodities grown for experimental purposes (including kenaf and milkweed), subject to the following sentence. The Secretary may permit the acreage to be devoted to the production only if the Secretary determines that the production is—

“(I) not likely to increase the cost of the price support program; and

“(II) needed to provide an adequate supply of the commodity, or, in the case of a commodity for which no substantial domestic production or market exists but that could yield industrial raw materials, the production is needed to encourage domestic manufacture of the raw material and could lead to increased industrial use of the raw material to the long-term benefit of United States industry.

“(ii) OILSEEDS.—The Secretary shall permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (E) to be devoted to sunflowers, rapeseed, canola, safflower, flaxseed, mustard seed, sesame, crambe, or other minor oilseeds designated by the Secretary (excluding soybeans). In carrying out this clause, the Secretary shall provide that, to receive payments under subparagraph (E), the producers shall agree to forgo eligibility to receive a loan under section 205 for the crop of any such oilseed produced on the farm.

“(iii) DOUBLE CROPPING.—The Secretary shall permit, subject to such terms and conditions as the Secretary may prescribe, all or any portion of the acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (E) that is devoted to an industrial, oilseed, or other crop pursuant to clause (i) or (ii) to be subsequently planted during the same crop year to any crop described in subparagraph (B), (C), or (D) of section 504(b)(1). The planting of soybeans as the subsequently planted crop shall be limited to farms determined by the Secretary to

have an established history of double cropping soybeans during at least 3 of the preceding 5 years. In carrying out this clause, the Secretary shall require producers to agree to forgo eligibility to receive loans under this Act for the crop of the subsequently planted crop that is produced on a farm under this clause.

“(2) CROP INSURANCE REQUIREMENT.—As a condition of eligibility for feed grain loans, purchases, and payments, the producers on a farm shall obtain catastrophic risk protection insurance coverage in accordance with section 427.

“(d) PAYMENT YIELDS.—The farm program payment yields for farms for each crop of feed grains under this section shall be determined under title V.

“(e) ACREAGE REDUCTION PROGRAMS.—

“(1) IN GENERAL.—

“(A) ESTABLISHMENT.—Notwithstanding any other provision of this Act, if the Secretary determines that the total supply of corn, grain sorghum, barley, or oats, in the absence of an acreage limitation program, will be excessive taking into account the need for an adequate carry-over to maintain reasonable and stable supplies and prices and to meet a national emergency, the Secretary may provide for any crop of corn, grain sorghum, barley, or oats an acreage limitation program as described in paragraph (2).

“(B) AGRICULTURAL RESOURCES CONSERVATION PROGRAM.—In making a determination under subparagraph (A), the Secretary shall take into consideration the number of acres placed in the agricultural resources conservation program established under subtitle D of title XII of the Food Security Act of 1985 (16 U.S.C. 3830 et seq.).

“(C) ANNOUNCEMENTS.—If the Secretary elects to implement an acreage limitation program for any crop year, the Secretary shall announce the program not later than the September 30 preceding the calendar year in which the crop is harvested, except that in the case of the 1996 crop, the Secretary shall announce the program as soon as practicable after the date of enactment of the Food, Agriculture, Conservation, and Trade Act of 1995.

“(D) ADJUSTMENTS.—Not later than November 15 of the year preceding the year in which the crop is harvested, the Secretary may make adjustments in the program announced under subparagraph (C) if the Secretary determines that there has been a significant change in the total supply of feed grains since the program was first announced.

“(E) COMPLIANCE.—As a condition of eligibility for loans, purchases, and payments for any such crop of feed grains, except as provided in subsections (f) and (g) and section 504, the producers on a farm shall comply with the terms and conditions of the acreage limitation program and, if applicable, a land diversion program as provided in paragraph (5).

“(F) ACREAGE LIMITATION PROGRAMS.—If the Secretary estimates for a marketing year for the crop that the ratio of ending stocks of corn to total disappearance of corn for the preceding marketing year will be—

“(i) more than 25 percent, the Secretary shall provide for an acreage limitation program (as described in paragraph (2)) under which the acreage planted to corn for harvest on a farm is limited to the corn crop acreage base for the farm for the crop reduced by not less than 10 percent nor more than 20 percent; or

“(ii) equal to or less than 25 percent, the Secretary may provide for such an acreage limitation program under which the acreage planted to corn for harvest on a farm is limited to the corn crop acreage base for the

farm for the crop reduced by not more than 12.5 percent.

“(G) DEFINITION OF TOTAL DISAPPEARANCE.—In this paragraph, the term ‘total disappearance’ means all corn utilization, including total domestic, total export, and total residual disappearance.

“(H) ACREAGE LIMITATION PROGRAM FOR 1996 THROUGH 2002 CROPS OF OATS.—In the case of each of the 1996 through 2002 crops of oats, the Secretary shall provide for an acreage limitation program (as described in paragraph (2)) under which the acreage planted to oats for harvest on a farm would be limited to the oat crop acreage base for the farm for the crop reduced by not more than 0 percent.

“(2) ACREAGE LIMITATION PROGRAM.—

“(A) PERCENTAGE REDUCTIONS.—Except as provided in paragraph (3), if a feed grain acreage limitation program is announced under paragraph (1), the limitation shall be achieved by applying a uniform percentage reduction (from 0 to 20 percent) to the crop acreage base for corn, grain sorghum, barley, or oats, respectively, for each feed grain-producing farm.

“(B) COMPLIANCE.—Except as provided in subsection (g) and section 504, producers who knowingly produce a feed grain in excess of the respective permitted acreage for feed grains for the farm shall be ineligible for feed grain loans, purchases, and payments with respect to the farm.

“(C) CROP ACREAGE BASES.—Feed grain crop acreage bases for each crop of feed grains shall be determined under title V.

“(D) ACREAGE DEVOTED TO CONSERVATION USES.—

“(i) IN GENERAL.—A number of acres on the farm shall be devoted to conservation uses, in accordance with regulations issued by the Secretary.

“(ii) NUMBER.—The number shall be determined by multiplying the respective feed grain crop acreage base by the percentage reduction required by the Secretary. The number of acres so determined is referred to in this section as ‘reduced acreage’. The remaining acreage is referred to in this section as ‘permitted acreage’.

“(iii) ADJUSTMENT.—Permitted acreage may be adjusted by the Secretary as provided in paragraph (3) and in section 504.

“(E) INDIVIDUAL FARM PROGRAM ACREAGE.—Except as otherwise provided in subsection (c), the individual farm program acreage shall be the acreage planted on the farm to feed grains for harvest within the permitted acreage for feed grains for the farm as established under this paragraph.

“(F) PLANTING DESIGNATED CROPS ON REDUCED ACREAGE.—

“(i) DEFINITION OF DESIGNATED CROP.—In this subparagraph, the term ‘designated crop’ means a crop specified in section 504(b)(1), excluding any program crop as defined in section 502(3).

“(ii) PLANTING DESIGNATED CROPS.—Subject to clause (iii), the Secretary may permit producers on a farm to plant a designated crop on not more than ½ of the reduced acreage on the farm.

“(iii) LIMITATIONS.—If the producers on a farm elect to plant a designated crop on reduced acreage under this subparagraph—

“(I) the amount of the deficiency payment that the producers are otherwise eligible to receive under subsection (c) shall be reduced, for each acre (or portion of an acre) that is planted to the designated crop, by an amount equal to the deficiency payment that would be made with respect to a number of acres of the crop that the Secretary considers appropriate, except that if the producers on the farm are participating in a program established for more than 1 program crop, the amount of the reduction shall be determined by prorating the reduction based

on the acreage planted or considered planted on the farm to all of the program crops; and

“(II) the Secretary shall ensure that reductions in deficiency payments under subclause (I) are sufficient to ensure that this subparagraph will result in no additional cost to the Commodity Credit Corporation.

“(G) EXCEPTION FOR MALTING BARLEY.—The Secretary may provide that no producer of malting barley shall be required as a condition of eligibility for feed grain loans, purchases, and payments to comply with any acreage limitation under this paragraph if the producer has previously produced a malting variety of barley for harvest, plants barley only of an acceptable malting variety for harvest, and meets such other conditions as the Secretary may prescribe. The Secretary shall make an annual determination of whether to exempt the producers from compliance with any acreage limitation under this paragraph and shall announce the determination in the Federal Register.

“(H) CORN AND SORGHUM BASES.—Notwithstanding any other provision of this Act, with respect to each of the 1996 through 2002 crops of corn and grain sorghums—

“(i) the Secretary shall combine the permitted acreages established under subparagraph (D) for a farm for a crop year for corn and grain sorghums;

“(ii) for each crop year, the sum of the acreage planted and considered planted to corn and grain sorghum, as determined by the Secretary under this section and title V, shall be prorated to corn and grain sorghum based on the ratio of the crop acreage base for the individual crop of corn or grain sorghum, as applicable, to the sum of the crop acreage bases for corn and grain sorghum established for each crop year; and

“(iii) for each crop year, the sum of the corn and grain sorghum payment acres, as determined under subsection (c), shall be prorated to corn and grain sorghum based on the ratio of the maximum payment acres for the individual crop of corn or grain sorghum, as applicable, to the sum of the maximum payment acres for corn and grain sorghum established for each crop year.

“(3) TARGETED OPTION PAYMENTS.—

“(A) IN GENERAL.—Notwithstanding any other provision of this section, if the Secretary implements an acreage limitation program with respect to any of the 1996 through 2002 crops of feed grains, the Secretary may make available to producers on a farm who do not receive payments under subsection (c)(1)(E) for the crop on the farm, adjustments in the level of deficiency payments that would otherwise be made available to the producers if the producers exercise the payment options provided in this paragraph.

“(B) PAYMENT OPTIONS.—If the Secretary elects to carry out this paragraph, the Secretary shall make the payment options specified in subparagraphs (C) and (D) available to producers who agree to make adjustments in the quantity of acreage diverted from the production of feed grains under an acreage limitation program in accordance with this paragraph.

“(C) INCREASED ACREAGE LIMITATION OPTION.—

“(i) INCREASE IN ESTABLISHED PRICE.—If the Secretary elects to carry out this paragraph, the producers on a farm shall be eligible to receive an increase in the established price for corn in accordance with clause (ii) if the producers agree to an increase in the acreage limitation percentage to be applied to the corn acreage base of the producers above the acreage limitation percentage announced by the Secretary.

“(ii) METHOD OF CALCULATION.—For the purposes of calculating deficiency payments

to be made available to producers who participate in the program under this paragraph, the Secretary shall increase the established price for corn by an amount determined by the Secretary of not less than 0.5 percent, nor more than 1 percent, for each 1 percentage point increase in the acreage limitation percentage applied to the corn acreage base of the producers.

“(iii) LIMITATION.—The acreage limitation percentage to be applied to the corn acreage base of the producers shall not be increased by more than 10 percentage points above the acreage limitation percentage announced by the Secretary for the crop or above 20 percent total for the crop.

“(D) DECREASED ACREAGE LIMITATION OPTION.—

“(i) DECREASE IN ACREAGE LIMITATION REQUIREMENT.—If the Secretary elects to carry out this paragraph, the producers on a farm shall be eligible to decrease the acreage limitation percentage applicable to the corn acreage base of the producers (as announced by the Secretary) if the producers agree to a decrease in the established price for corn in accordance with clause (ii) for the purpose of calculating deficiency payments to be made available to the producers.

“(ii) METHOD OF CALCULATION.—For the purposes of calculating deficiency payments to be made available to producers who choose the option established under this subparagraph, the Secretary shall decrease the established price for corn by an amount to be determined by the Secretary of not less than 0.5 percent, nor more than 1 percent, for each 1 percentage point decrease in the acreage limitation percentage applied to the corn acreage base of the producers.

“(iii) LIMITATION.—The producers on a farm may not choose to decrease the acreage limitation percentage applicable to the corn acreage base of the producers under this paragraph by more than ½ of the announced acreage limitation percentage.

“(E) OTHER FEED GRAINS.—The Secretary shall carry out the program provided for by this paragraph for other feed grains similar to the manner in which the program is implemented for corn.

“(F) PARTICIPATION AND PRODUCTION EFFECTS.—Notwithstanding any other provision of this paragraph, the Secretary shall, to the extent practicable, ensure that the program provided for in this paragraph does not have a significant effect on participation in the program established by this section or total production and is offered in such a manner that the Secretary determines will result in no additional budget outlays. The Secretary shall provide an analysis of the determination of the Secretary to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate.

“(4) ADMINISTRATION.—

“(A) PROTECTION FROM WEEDS AND EROSION.—The regulations issued by the Secretary under paragraph (2) with respect to acreage required to be devoted to conservation uses shall ensure protection of the acreage from weeds and wind and water erosion.

“(B) CONSERVING CROPS.—The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of the acreage to be devoted to sweet sorghum, guar, sesame, castor beans, crambe, plantago ovato, triticale, rye, mung beans, milkweed, or other commodity, if the Secretary determines that the production is needed to provide an adequate supply of the commodity, is not likely to increase the cost of the price support program, and will not affect farm income adversely.

“(C) HAYING AND GRAZING.—

“(i) IN GENERAL.—Except as provided in clause (ii), haying and grazing of reduced

acreage, acreage devoted to a conservation use under subsection (c)(1)(E), and acreage diverted from production under a land diversion program established under this subsection shall be permitted, except during any consecutive 5-month period that is established by the State committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) for a State. The 5-month period shall be established during the period beginning April 1, and ending October 31, of a year.

“(ii) NATURAL DISASTERS.—In the case of a natural disaster, the Secretary may permit unlimited haying and grazing on the acreage. The Secretary may not exclude irrigated or irrigable acreage not planted to alfalfa when exercising the authority under this clause.

“(D) WATER STORAGE USES.—

“(i) IN GENERAL.—The regulations issued by the Secretary under paragraph (2) with respect to acreage required to be devoted to conservation uses shall provide that land that has been converted to water storage uses shall be considered to be devoted to conservation uses if the land was devoted to wheat, feed grains, cotton, rice, or oilseeds in at least 3 of the immediately preceding 5 crop years. The land shall be considered to be devoted to conservation uses for the period that the land remains in water storage uses, but not to exceed 5 crop years subsequent to the conversion of the land to water storage uses.

“(ii) LIMITATIONS.—Land converted to water storage uses for the purposes of this subparagraph may not be devoted to any commercial use, including commercial fish production. The water stored on the land may not be ground water. The farm on which the land is located must have been irrigated with ground water during at least 1 of the preceding 5 crop years.

“(E) SUMMER FALLOW.—In determining the quantity of land to be devoted to conservation uses under an acreage limitation program with respect to land that has been farmed under summer fallow practices, as defined by the Secretary, the Secretary shall consider the effects of soil erosion and such other factors as the Secretary considers appropriate.

“(5) LAND DIVERSION PAYMENTS.—

“(A) IN GENERAL.—The Secretary may make land diversion payments to producers of feed grains, whether or not an acreage limitation program for feed grains is in effect, if the Secretary determines that the land diversion payments are necessary to assist in adjusting the total national acreage of feed grains to desirable goals. The land diversion payments shall be made to producers who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in accordance with land diversion contracts entered into by the Secretary with the producers.

“(B) AMOUNTS.—The amounts payable to producers under land diversion contracts may be determined through the submission of bids for the contracts by producers in such manner as the Secretary may prescribe or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the producers and the productivity of the acreage diverted.

“(C) LIMITATION ON DIVERTED ACREAGE.—The Secretary shall limit the total acreage to be diverted under agreements in any county or local community so as not to affect adversely the economy of the county or local community.

“(6) CONSERVATION PRACTICES.—

“(A) WILDLIFE FOOD PLOTS OR HABITAT.—The reduced acreage and additional diverted

acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies. The Secretary may pay an appropriate share of the cost of practices designed to carry out this subparagraph.

“(B) SOIL AND WATER CONSERVATION PRACTICES.—The Secretary may pay an appropriate share of the cost of approved soil and water conservation practices (including practices that may be effective for a number of years) established by the producers on a farm on acreage required to be devoted to conservation uses or on additional diverted acreage.

“(C) PUBLIC ACCESSIBILITY.—The Secretary may provide for an additional payment on the acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producers on a farm agree to permit, without other compensation, access to all or such portion of the farm, as the Secretary may prescribe by the general public, for hunting, trapping, fishing, and hiking, subject to applicable Federal and State regulations.

“(7) PARTICIPATION AGREEMENTS.—

“(A) IN GENERAL.—Producers on a farm desiring to participate in the program conducted under this subsection shall execute an agreement with the Secretary providing for the participation with respect to a crop year not later than such date as the Secretary may prescribe.

“(B) MODIFICATION OR TERMINATION.—The Secretary may, by mutual agreement with producers on a farm, modify or terminate any such agreement if the Secretary determines the action necessary because of an emergency created by drought or other disaster or to prevent or alleviate a shortage in the supply of agricultural commodities. The Secretary may modify the agreement under this subparagraph for the purpose of alleviating a shortage in the supply of agricultural commodities only if there has been a significant change in the estimated stocks of the commodity since the Secretary announced the final terms and conditions of the program for the crop of feed grains.

“(8) SPECIAL OATS PLANTINGS.—In the case of a crop year for which the Secretary determines that projected domestic production of oats will not fulfill the projected domestic demand for oats, notwithstanding paragraphs (1) through (7), the Secretary—

“(A) may provide that any reduced acreage may be planted to oats for harvest;

“(B) may make program benefits (including loans, purchases, and payments) available under the annual program for oats under this section available to producers with respect to acreage planted to oats under this paragraph; and

“(C) shall not make program benefits other than the benefits specified in subparagraph (B) available to producers with respect to acreage planted to oats under this paragraph.

“(f) INVENTORY REDUCTION PAYMENTS.—

“(1) IN GENERAL.—The Secretary may make payments available to producers on a farm who meet the requirements of this subsection.

“(2) FORM.—The payments may be made in the form of marketing certificates.

“(3) PAYMENTS.—Payments under this subsection shall be determined in the same manner as provided in subsection (b).

“(4) ELIGIBILITY.—The producers on a farm shall be eligible to receive a payment under this subsection for a crop if the producers—

“(A) agree to forgo obtaining a loan or purchase agreement under subsection (a);

“(B) agree to forgo receiving payments under subsection (c);

“(C) do not plant feed grains for harvest in excess of the crop acreage base reduced by ½ of any acreage required to be diverted from production under subsection (e); and

“(D) otherwise comply with this section.

“(g) PILOT VOLUNTARY PRODUCTION LIMITATION PROGRAM.—

“(1) IN GENERAL.—Effective for each of the 1996 through 2002 crops, if a feed grain acreage limitation program or a land diversion program is announced under subsection (e) for a crop, the Secretary may carry out a pilot program in at least 15 counties in at least 2 States where producers express an interest in participating in the pilot program. Under the pilot program, the producers on a farm shall be considered to have met the requirements of the acreage limitation or land diversion program if the producers meet the requirements of the voluntary production limitation program established under this subsection.

“(2) LIMITATION ON MARKETING.—To comply with the voluntary production limitation program, the producers on a farm must agree not to market, barter, donate, or use on the farm (including use as feed for livestock) in a marketing year a quantity of feed grains in excess of the feed grain production limitation quantity for the farm for the marketing year.

“(3) PRODUCTION LIMITATION QUANTITY.—For purposes of this subsection, the production limitation quantity for a farm for a marketing year for a crop shall equal the product obtained by multiplying—

“(A) the acreage permitted to be planted to feed grains under the acreage reduction program or land diversion program in effect for the crop for the farm; and

“(B) the greater of—

“(i) the farm program payment yield for the farm; and

“(ii) the average of the yield per harvested acre for feed grains for the farm for each of the 5 crop years immediately preceding the crop year during which the producers first participate in the program established under this subsection, excluding the crop years with the highest and lowest yield per harvested acre and any crop year in which the commodity was not planted on the farm.

“(4) TERMS AND CONDITIONS.—Producers on a farm who elect to participate in the program established under this subsection for a crop of feed grains shall—

“(A) enter into an agreement with the Secretary providing that the producers shall comply with the program for the crop;

“(B) not plant program commodities for harvest in a quantity in excess of the sum of the crop acreage bases for the farm; and

“(C) be considered to have complied with the terms and conditions of the feed grain acreage reduction program or land diversion program for the crop, even though the acreage planted to feed grains on the farm exceeds the permitted acreage provided under the acreage reduction or land diversion program.

“(5) EXCESS PRODUCTION.—

“(A) IN GENERAL.—Any quantity of feed grains produced in a crop year on a farm in excess of the production limitation quantity for the farm may be stored by the producers for a period of not to exceed 5 marketing years and may be used only in accordance with this paragraph.

“(B) MARKETING IN SUBSEQUENT YEAR.—

“(i) PARTICIPANTS IN PROGRAM.—Producers on a farm who are participating in the program established under this subsection may market, barter, or use a quantity of the excess feed grains referred to in subparagraph (A) equal to the difference between the production limitation quantity for the farm for the crop year subsequent to the crop year in which the excess feed grains are produced

less the quantity of feed grains produced on the farm during the crop year.

“(ii) PARTICIPANTS IN ACREAGE REDUCTION PROGRAM.—Producers on a farm who are participating in the program established under this subsection may market, barter, or use a quantity of the excess feed grains referred to in subparagraph (A) in an amount that reflects the quantity of feed grains that would be expected to be produced on acreage that the producers agree to devote to approved conservation uses (in excess of any acreage reduction or land diversion requirements) during a crop year, as determined by the Secretary.

“(6) DUTIES OF SECRETARY.—In carrying out the pilot program established under this subsection, the Secretary—

“(A) shall issue such regulations as are necessary to carry out the program;

“(B) may establish increased acreage reduction or land diversion requirements with respect to producers who have had excess feed grain production in order to allow the producers to market, barter, or use the production in subsequent years;

“(C) shall take appropriate measures designed to prevent the circumvention of the program established under this subsection, including the imposition of penalties;

“(D) may require producers who participate in the program for a crop, but who fail to comply with the terms and conditions of the program, to refund all or a part of any deficiency payments received with respect to the crop;

“(E) may require the forfeiture to the Commodity Credit Corporation of any feed grains that are produced in excess of the production limitation quantity and that are not marketed, bartered, or used within 5 marketing years; and

“(F) shall ensure equitable treatment for producers who participate in the pilot program if the Secretary allows increases (based on actual production levels) in the determination of farm program payment yields for feed grains for the farm.

“(7) REPORT.—

“(A) IN GENERAL.—The Comptroller General shall prepare a report that evaluates the pilot program carried out under this subsection.

“(B) SUBMISSION.—The Comptroller General shall submit a copy of the report required by subparagraph (A) to the Committee on Agriculture of the House of Representatives, the Committee on Agriculture, Nutrition, and Forestry of the Senate, and the Secretary.

“(h) EQUITABLE RELIEF.—

“(1) LOANS, PURCHASES, AND PAYMENTS.—If the failure of a producer to comply fully with the terms and conditions of the program conducted under this section precludes the making of loans, purchases, and payments, the Secretary may, notwithstanding the failure, make the loans, purchases, and payments in such amounts as the Secretary determines are equitable in relation to the seriousness of the failure. The Secretary may consider whether the producer made a good faith effort to comply fully with the terms and conditions of the program in determining whether equitable relief is warranted under this paragraph.

“(2) DEADLINES AND PROGRAM REQUIREMENTS.—The Secretary may authorize the county and State committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) to waive or modify deadlines and other program requirements in cases in which lateness or failure to meet the other requirements does not affect adversely the operation of the program.

“(i) REGULATIONS.—The Secretary may issue such regulations as the Secretary determines necessary to carry out this section.

“(j) COMMODITY CREDIT CORPORATION.—The Secretary shall carry out the program authorized by this section through the Commodity Credit Corporation.

“(k) ASSIGNMENT OF PAYMENTS.—Section 8(g) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(g)) shall apply to payments made under this section.

“(l) SHARING OF PAYMENTS.—The Secretary shall provide for the sharing of payments made under this section for any farm among the producers on the farm on a fair and equitable basis.

“(m) TENANTS AND SHARECROPPERS.—In carrying out this section, the Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers.

“(n) CROSS-COMPLIANCE.—

“(1) IN GENERAL.—Compliance on a farm with the terms and conditions of any other commodity program, or compliance with crop acreage base requirements for any other commodity, may not be required as a condition of eligibility for loans, purchases, or payments under this section.

“(2) COMPLIANCE ON OTHER FARMS.—The Secretary may not require producers on a farm, as a condition of eligibility for loans, purchases, or payments under this section for the farm, to comply with the terms and conditions of the feed grains program with respect to any other farm operated by the producers.

“(o) PUBLIC COMMENT ON FEED GRAINS PROGRAM.—

“(1) IN GENERAL.—To ensure that producers and consumers of feed grains are provided with reasonable opportunity to comment on the annual program determinations concerning the price support and acreage reduction program for each of the 1997 through 2002 crops of feed grains, the Secretary shall request public comment regarding the feed grains program in accordance with this subsection.

“(2) OPTIONS.—Not less than 60 days before the program is announced for a crop of feed grains under this section, the Secretary shall propose for public comment various program options for the crop of feed grains.

“(3) ANALYSES.—Each option proposed by the Secretary shall be accompanied by an analysis that includes the estimated planted acreage, production, domestic and export use, ending stocks, season average producer price, program participation rate, and cost to the Federal Government that would likely result from the option.

“(4) ESTIMATES.—In announcing the program for a crop of feed grains under this section, the Secretary shall include an estimate of the planted acreage, production, domestic and export use, ending stocks, season average producer price, program participation rate, and cost to the Federal Government that is expected to result from the program as announced.

“(p) MALTING BARLEY.—

“(1) ASSESSMENT REQUIRED.—To help offset costs associated with deficiency payments made available under this section to producers of barley, the Secretary shall provide for an assessment for each of the 1996 through 2002 crop years to be levied on any producer of malting barley produced on a farm that is enrolled for the crop year in the production adjustment program under this section. The Secretary shall establish the assessment at not more than 5 percent of the value of the malting barley produced on the program payment acres on the farm during each of the 1996 through 2002 crop years. The production per acre on which the assessment is based shall not be greater than the farm program payment yield.

“(2) VALUE OF MALTING BARLEY.—The Secretary may establish the value of the malting barley at the lesser of the State or national weighted average market price received by producers of malting barley for the first 5 months of the marketing year. In calculating the State or national weighted average market price, the Secretary may exclude the value of malting barley that is contracted for sale by producers prior to planting.

“(3) EXCEPTION TO ASSESSMENT.—In a county where malting barley is produced, participating barley producers may certify to the Secretary prior to computation of final deficiency payments that part or all of the production of the producer was (or will be) sold or used for nonmalting purposes. The portion certified as sold or used for nonmalting purposes shall not be subject to the assessment. The Secretary may require producers to provide to the Secretary such documentation as the Secretary considers appropriate to carry out this paragraph.

“(q) PRICE SUPPORT FOR HIGH-MOISTURE FEED GRAINS.—

“(1) RECOURSE LOANS.—Notwithstanding any other provision of law, effective for each of the 1996 through 2002 crops of feed grains, the Secretary (through the Commodity Credit Corporation) shall make available recourse loans, as determined by the Secretary, to producers on a farm who—

“(A) normally harvest all or a portion of the crop of feed grains of the producers with a moisture content in excess of Commodity Credit Corporation standards for loans made by the Secretary under paragraphs (1) and (6) of subsection (a) (referred to in this section as ‘high-moisture’);

“(B)(i) present certified scale tickets from an inspected, certified commercial scale, including licensed warehouses, feedlots, feed mills, distilleries, or other similar entities approved by the Secretary, pursuant to regulations issued by the Secretary; or

“(ii) present field or other physical measurements of the standing or stored feed grain crop in regions of the country, as determined by the Secretary, that do not have certified commercial scales from which certified scale tickets may be obtained within reasonable proximity of harvest operation;

“(C) certify that the producers were the owners of the feed grain at the time of delivery to, and that the quantity to be placed under loan was harvested on the farm and delivered to, a feedlot, feed mill, or commercial or on-farm high-moisture storage facility, or to the facilities maintained by the users of the high-moisture feed grain;

“(D) comply with deadlines established by the Secretary for harvesting the feed grain and submit applications for loans within deadlines established by the Secretary; and

“(E) participate in an acreage limitation program for the crop of feed grains established by the Secretary.

“(2) ELIGIBILITY OF ACQUIRED FEED GRAINS.—The loans shall be made on a quantity of feed grains of the same crop acquired by the producers on a farm equivalent to a quantity determined by multiplying—

“(A) the acreage of the feed grain in a high-moisture state harvested on the farm of the producer; and

“(B) the lower of the farm program payment yield or the actual yield on a field, as determined by the Secretary, that is similar to the field from which the high-moisture feed grain was obtained.

“(r) CROPS.—Notwithstanding any other provision of law, this section shall be effective only for the 1996 through 2002 crops of feed grains.”

SEC. 202. NONAPPLICABILITY OF SECTION 105 OF THE AGRICULTURAL ACT OF 1949.

Section 105 of the Agricultural Act of 1949 (7 U.S.C. 1444b) shall not be applicable to the 1996 through 2002 crops of feed grains.

SEC. 203. RECOURSE LOAN PROGRAM FOR SILAGE.

Section 403 of the Food Security Act of 1985 (7 U.S.C. 1444e-1) is amended by striking “1996” and inserting “2002”.

TITLE III—COTTON

SEC. 301. LOANS, PAYMENTS, AND ACREAGE REDUCTION PROGRAMS FOR THE 1996 THROUGH 2002 CROPS OF UPLAND COTTON.

Section 103B of the Agricultural Act of 1949 (7 U.S.C. 1444-2) is amended to read as follows:

“SEC. 103B. LOANS, PAYMENTS, AND ACREAGE REDUCTION PROGRAMS FOR THE 1996 THROUGH 2002 CROPS OF UPLAND COTTON.

“(a) LOANS.—

“(1) IN GENERAL.—Except as otherwise provided in this subsection, the Secretary shall, on presentation of warehouse receipts or other acceptable evidence of title, as determined by the Secretary, reflecting accrued storage charges of not more than 60 days, make available for each of the 1996 through 2002 crops of upland cotton to producers on a farm nonrecourse loans for upland cotton produced on the farm for a term of 10 months from the first day of the month in which the loan is made at such loan level, per pound, as will reflect for the base quality of upland cotton, as determined by the Secretary, at an average location in the United States a level that is not less than the lesser of—

“(A) 85 percent of the average price (weighted by market and month) of the base quality of cotton as quoted in the designated United States spot markets during 3 years of the 5-year period ending July 31 of the year in which the loan level is announced, excluding the year in which the average price was the highest and the year in which the average price was the lowest in the period; or

“(B) 90 percent of the average price, for the 15-week period beginning July 1 of the year in which the loan level is announced, of the 5 lowest-priced growths of the growths quoted for Middling 1³/₃₂-inch cotton C.I.F. Northern Europe (adjusted downward by the average difference during the period April 15 through October 15 of the year in which the loan is announced between the average Northern European price quotation of the quality of cotton and the market quotations in the designated United States spot markets for the base quality of upland cotton), as determined by the Secretary.

“(2) ADJUSTMENTS TO LOAN LEVEL.—

“(A) LIMITATION ON DECREASE IN LOAN LEVEL.—The loan level for any crop determined under paragraph (1) may not be reduced by more than 5 percent from the level determined for the preceding crop, and may not be reduced below 50 cents per pound.

“(B) LIMITATION ON INCREASE IN LOAN LEVEL.—If for any crop the average Northern European price determined under paragraph (1)(B) is less than the average United States spot market price determined under paragraph (1)(A), the Secretary may increase the loan level to such level as the Secretary may consider appropriate, not in excess of the average United States spot market price determined under paragraph (1)(A).

“(3) ANNOUNCEMENT OF LOAN LEVEL.—The loan level for any crop of upland cotton shall be determined and announced by the Secretary not later than November 1 of the calendar year preceding the marketing year for which the loan is to be effective or, in the case of the 1996 crop, as soon as practicable after the date of enactment of the Agricultural Competitiveness Act of 1995. The loan

level for a crop shall not be changed after announcement.

“(4) EXTENSION OF LOAN PERIOD.—

“(A) IN GENERAL.—Except as provided in subparagraph (B), nonrecourse loans provided in this section shall, on request of the producers on a farm during the 10th month of the loan period for the cotton, be made available for an additional term of 8 months.

“(B) LIMITATION.—A request to extend the loan period shall not be approved in any month in which the average price of the base quality of upland cotton, as determined by the Secretary, in the designated spot markets for the preceding month exceeds 130 percent of the average price of the base quality of cotton in the designated United States spot markets for the preceding 36-month period.

“(5) MARKETING LOANS.—

“(A) IN GENERAL.—If the Secretary determines that the prevailing world market price for upland cotton (adjusted to United States quality and location) is below the loan level determined under paragraphs (1) through (4), to make United States upland cotton competitive in world markets, the Secretary shall permit the producers on a farm to repay a loan made for any crop at—

“(i) a level that is the lesser of—

“(I) the loan level determined for the crop; and

“(II) the greater of—

“(aa) 70 percent of the loan level determined for the crop; and

“(bb) the prevailing world market price for upland cotton (adjusted to United States quality and location), as determined by the Secretary; or

“(ii) such other level (not in excess of the loan level determined for the crop nor less than 70 percent of the loan level) that the Secretary determines will—

“(I) minimize potential loan forfeitures;

“(II) minimize the accumulation of upland cotton stocks by the Federal Government;

“(III) minimize the cost incurred by the Federal Government in storing upland cotton; and

“(IV) allow upland cotton produced in the United States to be marketed freely and competitively, both domestically and internationally.

“(B) FIRST HANDLER MARKETING CERTIFICATES.—

“(i) IN GENERAL.—During the period beginning August 1, 1996, and ending July 31, 2003, if a program carried out under subparagraph (A) or subsection (b) fails to make United States upland cotton fully competitive in world markets and the prevailing world market price of upland cotton (adjusted to United States quality and location), as determined by the Secretary, is below the current loan repayment rate for upland cotton determined under subparagraph (A), to make United States upland cotton competitive in world markets and to maintain and expand domestic consumption and exports of upland cotton produced in the United States, the Secretary shall provide for the issuance of marketing certificates or cash payments in accordance with this subparagraph.

“(ii) PAYMENTS.—The Commodity Credit Corporation, under such regulations as the Secretary may prescribe, shall make payments, through the issuance of marketing certificates or cash payments, to first handlers of cotton (who shall be persons regularly engaged in buying or selling upland cotton) who have entered into an agreement with the Commodity Credit Corporation to participate in the program established under this subparagraph. The payments shall be made in such monetary amounts and subject to such terms and conditions as the Secretary determines will make upland cotton

produced in the United States available at competitive prices, consistent with the purposes of this subparagraph.

“(iii) VALUE.—The value of each certificate or cash payment issued under clause (ii) shall be based on the difference between—

“(I) the loan repayment rate for upland cotton; and

“(II) the prevailing world market price of upland cotton (adjusted to United States quality and location), as determined by the Secretary.

“(iv) REDEMPTION, MARKETING, OR EXCHANGE.—The Commodity Credit Corporation, under regulations prescribed by the Secretary, may assist any person receiving marketing certificates under this subparagraph in the redemption of the certificates for cash, or marketing or exchange of the certificates for agricultural commodities or products owned by the Commodity Credit Corporation, at such times, in such manner, and at such price levels as the Secretary determines will best effectuate the purposes of the program established under this subparagraph. Any price restrictions that may otherwise apply to the disposition of agricultural commodities by the Commodity Credit Corporation shall not apply to the redemption of certificates under this subparagraph.

“(v) DESIGNATION OF COMMODITIES AND PRODUCTS; CHARGES.—Insofar as practicable, the Secretary shall permit owners of certificates to designate the commodities and the products of the commodities, including storage sites of the commodities and products, that the owners would prefer to receive in exchange for certificates. If any certificate is not presented for redemption, marketing, or exchange within a reasonable number of days after the issuance of the certificate (as determined by the Secretary), the reasonable costs of storage and other carrying charges, as determined by the Secretary, shall be deducted from the value of the certificate for the period beginning after the reasonable number of days and ending on the date of the presentation of the certificate to the Commodity Credit Corporation.

“(vi) DISPLACEMENT.—The Secretary shall take such measures as may be necessary to prevent the marketing or exchange of agricultural commodities and products for certificates under this subsection from adversely affecting the income of producers of the commodities or products.

“(vii) TRANSFERS.—Under regulations prescribed by the Secretary, certificates issued to cotton handlers under this subparagraph may be transferred to other handlers and persons approved by the Secretary.

“(C) PREVAILING WORLD MARKET PRICE.—

“(i) IN GENERAL.—The Secretary shall prescribe by regulation—

“(I) a formula to determine the prevailing world market price for upland cotton (adjusted to United States quality and location); and

“(II) a mechanism by which the Secretary shall announce periodically the prevailing world market price for upland cotton (adjusted to United States quality and location).

“(ii) USE.—The prevailing world market price for upland cotton (adjusted to United States quality and location) established under this subparagraph shall be used under subparagraphs (A), (B), and (E).

“(D) ADJUSTMENT OF PREVAILING WORLD MARKET PRICE.—

“(i) IN GENERAL.—During the period beginning August 1, 1996, and ending July 31, 2003, the prevailing world market price for upland cotton (adjusted to United States quality and location) established under subparagraph (C) shall be further adjusted if—

“(I) the adjusted prevailing world market price is less than 115 percent of the current

crop year loan level for the base quality of upland cotton, as determined by the Secretary; and

“(II) the Friday through Thursday average price for the lowest-priced United States growth as quoted for Middling 1³/₃₂-inch cotton delivered C.I.F. Northern Europe is greater than the Friday through Thursday average price of the 5 lowest-priced growths of upland cotton, as quoted for Middling 1³/₃₂-inch cotton, delivered C.I.F. Northern Europe (referred to in this subsection as the ‘Northern Europe price’).

“(ii) FURTHER ADJUSTMENT.—Except as provided in clause (iii), the adjusted prevailing world market price shall be further adjusted on the basis of some or all of the following data, as available:

“(I) The United States share of world exports.

“(II) The current level of cotton export sales and cotton export shipments.

“(III) Other data determined by the Secretary to be relevant in establishing an accurate prevailing world market price for upland cotton (adjusted to United States quality and location).

“(iii) LIMITATION ON FURTHER ADJUSTMENT.—The adjustment under clause (ii) may not exceed the difference between—

“(I) the Friday through Thursday average price for the lowest-priced United States growth as quoted for Middling 1³/₃₂-inch cotton delivered C.I.F. Northern Europe; and

“(II) the Northern Europe price.

“(E) COTTON USER MARKETING CERTIFICATES.—

“(i) ISSUANCE.—Subject to clause (iv), during the period beginning August 1, 1996, and ending July 31, 2003, the Secretary shall issue marketing certificates or cash payments to domestic users and exporters for documented purchases by domestic users and sales for export by exporters made in the week following a consecutive 4-week period in which—

“(I) the Friday through Thursday average price for the lowest-priced United States growth, as quoted for Middling 1³/₃₂-inch cotton delivered C.I.F. Northern Europe exceeds the Northern Europe price by more than 1.25 cents per pound; and

“(II) the prevailing world market price for upland cotton (adjusted to United States quality and location), established under subparagraph (C), does not exceed 130 percent of the current crop year loan level for the base quality of upland cotton, as determined by the Secretary.

“(ii) VALUE.—The value of the marketing certificates or cash payments shall be based on the amount of the difference (reduced by 1.25 cents per pound) in the prices during the 4th week of the consecutive 4-week period multiplied by the quantity of upland cotton included in the documented sales.

“(iii) ADMINISTRATION.—Clauses (iv) through (vii) of subparagraph (B) shall apply to marketing certificates issued under this subparagraph. Any such certificates may be transferred to other persons in accordance with regulations issued by the Secretary.

“(iv) EXCEPTION.—The Secretary shall not issue marketing certificates or cash payments under clause (i) if, for the immediately preceding consecutive 10-week period, the Friday through Thursday average price for the lowest priced United States growth, as quoted for Middling 1³/₃₂-inch cotton, delivered C.I.F. Northern Europe, adjusted for the value of any certificate issued under this subparagraph, exceeds the Northern Europe price by more than 1.25 cents per pound.

“(F) SPECIAL IMPORT QUOTA.—

“(i) IN GENERAL.—The President shall carry out an import quota program that shall provide that, during the period beginning August 1996 and ending July 31, 2003, whenever the Secretary determines and announces that for any consecutive 10-week period, the Friday through Thursday average price for the lowest-priced United States growth, as quoted for Middling 1³/₃₂-inch cotton, delivered C.I.F. Northern Europe, adjusted for the value of any certificates issued under subparagraph (E), exceeds the Northern Europe price by more than 1.25 cents per pound, there shall immediately be in effect a special import quota.

“(ii) QUANTITY.—The quota shall be equal to the consumption of upland cotton for 1 week by domestic mills at the seasonally adjusted average rate of the most recent 3 months for which data are available.

“(iii) APPLICATION.—The quota shall apply to upland cotton purchased not later than 90 days after the date of the announcement of the Secretary under clause (i) and entered into the United States not later than 180 days after the date.

“(iv) OVERLAP.—A special quota period may be established that overlaps any existing quota period if required by clause (i), except that a special quota period may not be established under this paragraph if a quota period has been established under subsection (n).

“(v) PREFERENTIAL TARIFF TREATMENT.—The quantity under a special import quota shall be considered to be an in-quota quantity for purposes of—

“(I) section 213(d) of the Caribbean Basin Economic Recovery Act (19 U.S.C. 2703(d));

“(II) section 204 of the Andean Trade Preference Act (19 U.S.C. 3203);

“(III) section 503(d) of the Trade Act of 1974 (19 U.S.C. 2463(d)); and

“(IV) General Note 3(a)(iv) to the Harmonized Tariff Schedule of the United States (19 U.S.C. 1202 note).

“(vi) DEFINITION.—In this subparagraph, the term ‘special import quota’ means a quantity of imports that is not subject to the over-quota tariff rate of a tariff-rate quota.

“(6) RECOURSE LOANS FOR SEED COTTON.—To encourage and assist producers in the orderly ginning and marketing of production of upland cotton by the producers, the Secretary shall make recourse loans available to the producers on seed cotton in accordance with authority vested in the Secretary under the Commodity Credit Corporation Charter Act (15 U.S.C. 714 et seq.).

“(b) LOAN DEFICIENCY PAYMENTS.—

“(1) IN GENERAL.—For each of the 1996 through 2002 crops of upland cotton, the Secretary shall make payments (referred to in this section as ‘loan deficiency payments’) available to producers who, although eligible to obtain a loan under subsection (a), agree to forgo obtaining the loan in return for payments under this subsection.

“(2) COMPUTATION.—A payment under this subsection shall be computed by multiplying—

“(A) the loan payment rate; and

“(B) the quantity of upland cotton the producers on a farm are eligible to place under loan but for which the producers forgo obtaining the loan in return for payments under this subsection.

“(3) LOAN PAYMENT RATE.—For purposes of this subsection, the loan payment rate shall be the amount by which—

“(A) the loan level determined for the crop under subsection (a); exceeds

“(B) the level at which a loan may be repaid under subsection (a).

“(4) MARKETING CERTIFICATES.—The Secretary may make up to 1/2 the amount of a payment under this subsection available in the form of marketing certificates, subject

to the terms and conditions provided in subsection (a)(5)(B).

“(c) PAYMENTS.—

“(1) DEFICIENCY PAYMENTS.—

“(A) IN GENERAL.—The Secretary shall make available to producers payments (referred to in this section as ‘deficiency payments’) for each of the 1996 through 2002 crops of upland cotton in an amount computed by multiplying—

“(i) the payment rate;

“(ii) the payment acres for the crop; and

“(iii) the farm program payment yield established for the crop for the farm.

“(B) PAYMENT RATE.—

“(i) IN GENERAL.—The payment rate for upland cotton shall be the amount by which the established price for the crop of upland cotton exceeds the greater of—

“(I) the national average market price received by producers during the calendar year that includes the first 5 months of the marketing year for the crop, as determined by the Secretary; and

“(II) the loan level determined for the crop.

“(ii) MINIMUM ESTABLISHED PRICE.—The established price for upland cotton shall be not less than \$0.729 per pound for each of the 1996 through 2002 crops.

“(C) PAYMENT ACRES.—Payment acres for a crop shall be the lesser of—

“(i) the number of acres planted to the crop for harvest within the permitted acreage (as defined in subsection (e)(2)(D)(ii)); or

“(ii) 75 percent of the crop acreage base for the crop for the farm less the quantity of reduced acreage (as defined in subsection (e)(2)(D)(ii)).

“(D) 50/85 PROGRAM.—

“(i) IN GENERAL.—If an acreage limitation program under subsection (e)(2) is in effect for a crop of upland cotton and the producers on a farm devote a portion of the maximum payment acres of the farm for upland cotton as calculated under subparagraph (C)(ii) equal to more than 15 percent (except as provided in clause (v)) of the upland cotton acreage of the farm for the crop to conservation uses (except as provided in subparagraph (E))—

“(I) the portion of the maximum payment acres in excess of 15 percent (except as provided in clause (v)) of the acreage devoted to conservation uses (except as provided in subparagraph (E)) shall be considered to be planted to upland cotton for the purpose of determining the acreage on the farm required to be devoted to conservation uses in accordance with subsection (e)(2)(D); and

“(II) the producers shall be eligible for payments under this paragraph with respect to the acreage, subject to the compliance of the producers with clause (ii).

“(ii) MINIMUM PLANTING REQUIREMENT.—To be eligible for payments under clause (i), except as provided in clauses (iv) and (v), the producers on a farm must actually plant upland cotton for harvest on at least 50 percent of the maximum payment acres for cotton for the farm.

“(iii) DEFICIENCY PAYMENTS.—Notwithstanding any other provision of this section, any producers on a farm who devote a portion of the maximum payment acres of the farm for upland cotton to conservation uses (or other uses as provided in subparagraph (E)) under this subparagraph shall receive deficiency payments on the acreage that is considered to be planted to upland cotton and eligible for payments under this subparagraph for the crop at a per-pound rate established by the Secretary, except that the rate may not be established at less than the projected deficiency payment rate for the crop, as determined by the Secretary. The projected payment rate for the crop shall be announced by the Secretary prior to the pe-

riod during which upland cotton producers may agree to participate in the program for the crop.

“(iv) QUARANTINES.—If a State or local agency has imposed in an area of a State or county a quarantine on the planting of upland cotton for harvest on farms in the area, the State committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) may recommend to the Secretary that payments be made under this paragraph, without regard to the requirement imposed under clause (ii), to producers in the area who were required to forgo the planting of upland cotton for harvest on acreage to alleviate or eliminate the condition requiring the quarantine. If the Secretary determines that the condition exists, the Secretary may make payments under this paragraph to the producers. To be eligible for payments under this clause, the producers must devote the acreage to conservation uses (except as provided in subparagraph (E)).

“(v) PREVENTED PLANTING AND REDUCED YIELDS.—In the case of each of the 1996 through 2002 crops of upland cotton, producers on a farm shall be eligible to receive deficiency payments as provided in clause (iii) without regard to clause (ii) if an acreage limitation program under subsection (e) is in effect for the crop and the producers—

“(I)(aa) have been determined by the Secretary (in accordance with section 503(c)) to be prevented from planting the crop, or have incurred a reduced yield for the crop because of a natural disaster; and

“(bb) elect to devote a portion of the maximum payment acres for upland cotton (as calculated under subparagraph (C)(ii)) equal to more than 8 percent of the upland cotton acreage, to conservation uses; or

“(II) elect to devote a portion of the maximum payment acres for upland cotton (as calculated under subparagraph (C)(ii)) equal to more than 8 percent of the upland cotton acreage, to alternative crops as provided in subparagraph (E).

“(vi) CROP ACREAGE AND PAYMENT YIELD.—The upland cotton crop acreage base and upland cotton farm program payment yield of the farm shall not be reduced because of the fact that a portion of the permitted acreage for upland cotton for the farm was devoted to conserving uses (except as provided in subparagraph (E)) under this subparagraph.

“(vii) LIMITATION.—Other than as provided in clauses (i) through (vi), payments may not be made under this paragraph for any crop on a greater acreage than the acreage actually planted to upland cotton.

“(viii) CONSERVATION USE ACREAGE UNDER OTHER PROGRAMS.—Any acreage considered to be planted to upland cotton in accordance with clauses (i) and (vi) may not also be designated as conservation use acreage for the purpose of fulfilling any provisions under any acreage limitation or land diversion program requiring that the producers devote a specified quantity of acreage to conservation uses.

“(ix) BLACK-EYED PEAS FOR DONATION.—The Secretary may permit, under such terms and conditions as will ensure optimum producer participation, all or any part of the acreage required to be devoted to conservation uses as a condition for qualifying for payments under this subparagraph to be devoted to the production of black-eyed peas if—

“(I) the producers on a farm agree to donate the harvested peas from the acreage to a food bank, food pantry, or soup kitchen (as defined in paragraphs (3), (4), and (7) of section 110(b) of the Hunger Prevention Act of 1988 (Public Law 100-435; 7 U.S.C. 612c note)) that is approved by the Secretary; and

“(II) the Secretary finds that the action will not result in the disruption of normal channels of trade.

“(E) ALTERNATIVE CROPS.—

“(i) INDUSTRIAL AND OTHER CROPS.—The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (D) to be devoted to sweet sorghum, guar, castor beans, plantago ovata, triticale, rye, millet, mung beans, commodities for which no substantial domestic production or market exists but that could yield industrial raw material being imported, or likely to be imported, into the United States, or commodities grown for experimental purposes (including kenaf and milkweed), subject to the following sentence. The Secretary may permit the acreage to be devoted to the production only if the Secretary determines that the production is—

“(I) not likely to increase the cost of the price support program; and

“(II) needed to provide an adequate supply of the commodity, or, in the case of a commodity for which no substantial domestic production or market exists but that could yield industrial raw materials, the production is needed to encourage domestic manufacture of the raw material and could lead to increased industrial use of the raw material to the long-term benefit of United States industry.

“(ii) SESAME AND CRAMBE.—The Secretary shall permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (D) to be devoted to sesame or crambe. In carrying out this clause, if the Secretary determines that sesame or crambe are considered oilseeds under section 205, the Secretary shall provide that, to receive payments under subparagraph (D), the producers shall agree to forgo eligibility to receive a loan under section 205 for the crop of sesame or crambe produced on the farm.

“(2) CROP INSURANCE REQUIREMENT.—As a condition of eligibility for upland cotton loans, purchases, and payments, the producers on a farm shall obtain catastrophic risk protection insurance coverage in accordance with section 427.

“(d) PAYMENT YIELDS.—The farm program payment yields for farms for each crop of upland cotton under this section shall be determined under title V.

“(e) ACREAGE REDUCTION PROGRAMS.—

“(1) IN GENERAL.—

“(A) ESTABLISHMENT.—Notwithstanding any other provision of this Act, if the Secretary determines that the total supply of upland cotton, in the absence of an acreage limitation program, will be excessive taking into account the need for an adequate carry-over to maintain reasonable and stable supplies and prices and to meet a national emergency, the Secretary may provide for any crop of upland cotton an acreage limitation program as described in paragraph (2).

“(B) AGRICULTURAL RESOURCES CONSERVATION PROGRAM.—In making a determination under subparagraph (A), the Secretary shall take into consideration the number of acres placed in the agricultural resources conservation program established under subtitle D of title XII of the Food Security Act of 1985 (16 U.S.C. 3830 et seq.).

“(C) ANNOUNCEMENTS.—

“(i) PRELIMINARY ANNOUNCEMENT.—If the Secretary elects to implement an acreage limitation program for any crop year, the Secretary shall make a preliminary announcement of any such program not later than November 1 of the calendar year preced-

ing the year in which the crop is harvested, except that in the case of the 1996 crop, the Secretary shall announce the program as soon as practicable after the date of enactment of the Agricultural Competitiveness Act of 1995. The announcement shall include, among other information determined necessary by the Secretary, an announcement of the uniform percentage reduction in the upland cotton crop acreage base described in paragraph (2)(A).

“(ii) FINAL ANNOUNCEMENT.—Not later than January 1 of the calendar year in which the crop is harvested, the Secretary shall make a final announcement of the program. The announcement shall include, among other information determined necessary by the Secretary, an announcement of the uniform percentage reduction in the upland cotton crop described in paragraph (2)(A).

“(iii) OPTIONAL PROGRAMS IN EARLY PLANTING AREAS.—The Secretary shall allow producers in early planting areas to elect to participate in the program on the terms of the acreage limitation program—

“(I) first announced for the crop under clause (i); or

“(II) as subsequently revised under clause (ii);

if the Secretary determines that the producers may be unfairly disadvantaged by the revision.

“(D) DESIRED CARRY-OVER.—The Secretary shall carry out an acreage limitation program described in paragraph (2) for a crop of upland cotton in a manner that will result in a ratio of carry-over to total disappearance of 29½ percent for the 1996 crop and 29 percent for each of the 1997 through 2002 crops, based on the most recent projection of the Secretary of carry-over and total disappearance at the time of announcement of the acreage limitation program. In this subparagraph, the term ‘total disappearance’ means all upland cotton utilization, including total domestic, total export, and total residual disappearance.

“(2) ACREAGE LIMITATION PROGRAM.—

“(A) UNIFORM PERCENTAGE REDUCTION.—Except as provided in paragraph (3), if an upland cotton acreage limitation program is announced under paragraph (1), the limitation shall be achieved by applying a uniform percentage reduction (from 0 to 25 percent) to the upland cotton crop acreage base for the crop for each upland cotton-producing farm.

“(B) COMPLIANCE.—Except as provided in section 504, producers who knowingly produce upland cotton in excess of the permitted acreage for upland cotton for the farm, as established in accordance with subparagraph (A), shall be ineligible for upland cotton loans and payments with respect to the farm.

“(C) CROP ACREAGE BASES.—Upland cotton crop acreage bases for each crop of upland cotton shall be determined under title V.

“(D) ACREAGE DEVOTED TO CONSERVATION USES.—

“(i) IN GENERAL.—A number of acres on the farm shall be devoted to conservation uses, in accordance with regulations issued by the Secretary.

“(ii) NUMBER.—The number shall be determined by multiplying the upland cotton crop acreage base by the percentage reduction required by the Secretary. The number of acres so determined is referred to in this section as ‘reduced acreage’. The remaining acreage is referred to in this section as ‘permitted acreage’.

“(iii) ADJUSTMENT.—Permitted acreage may be adjusted by the Secretary as provided in paragraph (3) and in section 504.

“(E) INDIVIDUAL FARM PROGRAM ACREAGE.—Except as otherwise provided in subsection

(c), the individual farm program acreage shall be the acreage planted on the farm to upland cotton for harvest within the permitted acreage for upland cotton for the farm as established under this paragraph.

“(F) PLANTING DESIGNATED CROPS ON REDUCED ACREAGE.—

“(i) DEFINITION OF DESIGNATED CROP.—In this subparagraph, the term ‘designated crop’ means a crop described in section 504(b)(1), excluding any program crop as defined in section 502(3).

“(ii) PLANTING DESIGNATED CROPS.—Subject to clause (iii), the Secretary may permit producers on a farm to plant a designated crop on not more than ½ of the reduced acreage on the farm.

“(iii) LIMITATIONS.—If the producers on a farm elect to plant a designated crop on reduced acreage under this subparagraph—

“(I) the amount of the deficiency payment that the producers are otherwise eligible to receive under subsection (c) shall be reduced, for each acre (or portion of an acre) that is planted to the designated crop, by an amount equal to the deficiency payment that would be made with respect to a number of acres of the crop that the Secretary considers appropriate, except that if the producers on the farm are participating in a program established for more than 1 program crop, the amount of the reduction shall be determined by prorating the reduction based on the acreage planted or considered planted on the farm to all of the program crops; and

“(II) the Secretary shall ensure that reductions in deficiency payments under subclause (I) are sufficient to ensure that this subparagraph will result in no additional cost to the Commodity Credit Corporation.

“(G) BLACK-EYED PEAS FOR DONATION.—The Secretary may permit, under such terms and conditions as will ensure optimum producer participation, producers on a farm to plant black-eyed peas on not more than ½ of the reduced acreage on the farm if—

“(i) the producers agree to donate the harvested peas from the acreage to a food bank, food pantry, or soup kitchen (as defined in paragraphs (3), (4), and (7) of section 110(b) of the Hunger Prevention Act of 1988 (Public Law 100-435; 7 U.S.C. 612c note)) that is approved by the Secretary; and

“(ii) the Secretary finds that the action will not result in the disruption of normal channels of trade.

“(3) TARGETED OPTION PAYMENTS.—

“(A) IN GENERAL.—Notwithstanding any other provision of this section, if the Secretary implements an acreage limitation program with respect to any of the 1996 through 2002 crops of upland cotton, the Secretary may make available to producers on a farm who do not receive payments under subsection (c)(1)(D) for the crop on the farm, adjustments in the level of deficiency payments that would otherwise be made available to the producers if the producers exercise the payment options provided in this paragraph.

“(B) PAYMENT OPTIONS.—If the Secretary elects to carry out this paragraph, the Secretary shall make the payment options specified in subparagraphs (C) and (D) available to producers who agree to make adjustments in the quantity of acreage diverted from the production of upland cotton under an acreage limitation program in accordance with this paragraph.

“(C) INCREASED ACREAGE LIMITATION OPTION.—

“(i) INCREASE IN ESTABLISHED PRICE.—If the Secretary elects to carry out this paragraph, the producers on a farm shall be eligible to receive an increase in the established price for upland cotton in accordance with clause (ii) if the producers agree to an increase in

the acreage limitation percentage to be applied to the upland cotton acreage base of the producers above the acreage limitation percentage announced by the Secretary.

“(ii) METHOD OF CALCULATION.—For the purposes of calculating deficiency payments to be made available to producers who participate in the program under this paragraph, the Secretary shall increase the established price for upland cotton by an amount determined by the Secretary of not less than 0.5 percent, nor more than 1 percent, for each 1 percentage point increase in the acreage limitation percentage applied to the upland cotton acreage base of the producers.

“(iii) LIMITATION.—The acreage limitation percentage to be applied to the upland cotton acreage base of the producers shall be increased by not more than 10 percentage points above the acreage limitation percentage announced by the Secretary for the crop or above 25 percent total for the crop.

“(iv) ADJUSTMENT FOR UNDERPLANTINGS.—In determining the increased acreage limitation percentage that is applied to the upland cotton base of the producers on a farm under this paragraph, the Secretary shall exclude an amount of acreage equal to the average difference between the permitted acreage for upland cotton for the farm of the producers and the acreage actually planted (including acreage devoted to conserving uses under subsection (c)(1)(D)) to upland cotton for harvest during the previous 2 years.

“(D) DECREASED ACREAGE LIMITATION OPTION.—

“(i) DECREASE IN ACREAGE LIMITATION REQUIREMENT.—If the Secretary elects to carry out this paragraph, the producers on a farm shall be eligible to decrease the acreage limitation percentage applicable to the upland cotton acreage base of the producers (as announced by the Secretary) if the producers agree to a decrease in the established price for upland cotton in accordance with clause (ii) for the purpose of calculating deficiency payments to be made available to the producers.

“(ii) METHOD OF CALCULATION.—For the purposes of calculating deficiency payments to be made available to producers who choose the option established under this subparagraph, the Secretary shall decrease the established price for upland cotton by an amount to be determined by the Secretary of not less than 0.5 percent, nor more than 1 percent, for each 1 percentage point decrease in the acreage limitation percentage applied to the upland cotton acreage base of the producers.

“(iii) LIMITATION.—The producers on a farm may not choose to decrease the acreage limitation percentage applicable to the upland cotton acreage base of the producers under this paragraph by more than ½ of the announced acreage limitation percentage.

“(E) PARTICIPATION AND PRODUCTION EFFECTS.—Notwithstanding any other provision of this paragraph, the Secretary shall, to the extent practicable, ensure that the program provided for in this paragraph does not have a significant effect on participation in the program established by this section or total production and shall be offered in such a manner that the Secretary determines will result in no additional budget outlays. The Secretary shall provide an analysis of the determination of the Secretary to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate.

“(4) ADMINISTRATION.—

“(A) PROTECTION FROM WEEDS AND EROSION.—The regulations issued by the Secretary under paragraph (2) with respect to acreage required to be devoted to conserva-

tion uses shall ensure protection of the acreage from weeds and wind and water erosion.

“(B) CONSERVING CROPS.—The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of the acreage to be devoted to sweet sorghum, guar, sesame, castor beans, crambe, plantago ovato, triticale, rye, mung beans, milkweed, or other commodity, if the Secretary determines that the production is needed to provide an adequate supply of the commodities, is not likely to increase the cost of the price support program, and will not affect farm income adversely.

“(C) HAYING AND GRAZING.—

“(i) IN GENERAL.—Except as provided in clause (ii), haying and grazing of reduced acreage, acreage devoted to a conservation use under subsection (c)(1)(D), and acreage diverted from production under a land diversion program established under this subsection shall be permitted, except during any consecutive 5-month period that is established by the State committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) for a State. The 5-month period shall be established during the period beginning April 1, and ending October 31, of a year.

“(ii) NATURAL DISASTERS.—In the case of a natural disaster, the Secretary may permit unlimited haying and grazing on the acreage. The Secretary may not exclude irrigated or irrigable acreage not planted to alfalfa when exercising the authority under this clause.

“(D) WATER STORAGE USES.—

“(i) IN GENERAL.—The regulations issued by the Secretary under paragraph (2) with respect to acreage required to be devoted to conservation uses shall provide that land that has been converted to water storage uses shall be considered to be devoted to conservation uses if the land was devoted to wheat, feed grains, cotton, rice, or oilseeds in at least 3 of the immediately preceding 5 crop years. The land shall be considered to be devoted to conservation uses for the period that the land remains in water storage uses, but not to exceed 5 crop years subsequent to the conversion of the land to water storage uses.

“(ii) LIMITATIONS.—Land converted to water storage uses for the purposes of this subparagraph may not be devoted to any commercial use, including commercial fish production. The water stored on the land may not be ground water. The farm on which the land is located must have been irrigated with ground water during at least 1 of the preceding 5 crop years.

“(5) LAND DIVERSION PROGRAM.—

“(A) PAYMENTS.—

“(i) IN GENERAL.—The Secretary may make land diversion payments to producers of upland cotton, whether or not an acreage limitation program for upland cotton is in effect, if the Secretary determines that the land diversion payments are necessary to assist in adjusting the total national acreage of upland cotton to desirable goals. The land diversion payments shall be made to producers who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in accordance with land diversion contracts entered into by the Secretary with the producers.

“(ii) EXCESS CARRY-OVER.—If, at the time of final announcement of the acreage limitation program established under this subsection, the Secretary projects that the ratio of carry-over to total disappearance of upland cotton for the crop year is equal to or greater than 40 percent, the Secretary shall offer a paid land diversion program to producers of upland cotton. Payments to producers under the program shall be determined by multiplying—

“(I) the payment rate, of not less than 35 cents per pound of cotton, established by the Secretary;

“(II) the program payment yield established for the crop for the farm; and

“(III) the number of permitted acreage for upland cotton for the farm diverted on the farm.

“(B) BIDS FOR CONTRACTS.—The amounts payable to producers under land diversion contracts may be determined through the submission of bids for the contracts by producers in such manner as the Secretary may prescribe or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the producers and the productivity of the acreage diverted.

“(C) LIMITATIONS ON DIVERTED ACREAGE.—

“(i) MAXIMUM ACREAGE PER FARM, COUNTY, OR COMMUNITY.—The Secretary shall limit the total acreage to be diverted under this paragraph—

“(I) to not more than 15 percent of the upland cotton crop acreage base for a farm; and

“(II) under agreements in any county or local community so as not to affect adversely the economy of the county or local community.

“(ii) LOWER PARTICIPATION LEVELS.—The Secretary may allow producers to participate in a land diversion program under this paragraph at a level lower than the maximum level announced by the Secretary, at the option of the producer, if the Secretary determines that the lower level will increase participation in the program.

“(6) CONSERVATION PRACTICES.—

“(A) WILDLIFE FOOD PLOTS OR HABITAT.—The reduced acreage and additional diverted acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies. The Secretary may pay an appropriate share of the cost of practices designed to carry out this subparagraph.

“(B) PUBLIC ACCESS.—The Secretary may provide for an additional payment on the acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producers on a farm agree to permit, without other compensation, access to all or such portion of the farm, as the Secretary may prescribe, by the general public, for hunting, trapping, fishing, and hiking, subject to applicable Federal and State regulations.

“(7) PARTICIPATION AGREEMENTS.—

“(A) IN GENERAL.—Producers on a farm desiring to participate in the program conducted under this subsection shall execute an agreement with the Secretary providing for the participation not later than such date as the Secretary may prescribe.

“(B) MODIFICATION OR TERMINATION.—The Secretary may, by mutual agreement with producers on a farm, modify or terminate any such agreement if the Secretary determines the action necessary because of an emergency created by drought or other disaster or to prevent or alleviate a shortage in the supply of agricultural commodities. The Secretary may modify the agreement under this subparagraph for the purpose of alleviating a shortage in the supply of agricultural commodities only if there has been a significant change in the estimated stocks of the commodity since the Secretary announced the final terms and conditions of the program for the crop of upland cotton.

“(f) INVENTORY REDUCTION PAYMENTS.—

“(1) IN GENERAL.—For each of the 1996 through 2002 crops of upland cotton, the Secretary may make payments available to producers on a farm who meet the requirements of this subsection.

“(2) FORM.—The payments may be made in the form of marketing certificates.

“(3) PAYMENTS.—

“(A) IN GENERAL.—Payments under this subsection shall be determined in the same manner as provided in subsection (b).

“(B) QUANTITY OF COTTON MADE AVAILABLE.—The quantity of upland cotton to be made available to the producers on a farm under this subsection shall be equal in value to the payments so determined under this subsection.

“(4) ELIGIBILITY.—The producers on a farm shall be eligible to receive a payment under this subsection for a crop if the producers—

“(A) agree to forgo obtaining a loan under subsection (a);

“(B) agree to forgo receiving payments under subsection (c);

“(C) do not plant upland cotton for harvest in excess of the crop acreage base reduced by ½ of any acreage required to be diverted from production under subsection (e); and

“(D) otherwise comply with this section.

“(g) EQUITABLE RELIEF.—

“(I) LOANS AND PAYMENTS.—If the failure of a producer to comply fully with the terms and conditions of the program conducted under this section precludes the making of loans and payments, the Secretary may, notwithstanding the failure, make the loans and payments in such amounts as the Secretary determines are equitable in relation to the seriousness of the failure. The Secretary may consider whether the producer made a good faith effort to comply fully with the terms and conditions of the program in determining whether equitable relief is warranted under this paragraph.

“(2) DEADLINES AND PROGRAM REQUIREMENTS.—The Secretary may authorize the county and State committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) to waive or modify deadlines and other program requirements in cases in which lateness or failure to meet the other requirements does not affect adversely the operation of the program.

“(h) REGULATIONS.—The Secretary may issue such regulations as the Secretary determines necessary to carry out this section.

“(i) COMMODITY CREDIT CORPORATION.—The Secretary shall carry out the program authorized by this section through the Commodity Credit Corporation.

“(j) ASSIGNMENT OF PAYMENTS.—Section 8(g) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(g)) shall apply to payments made under this section.

“(k) SHARING OF PAYMENTS.—The Secretary shall provide for the sharing of payments made under this section for any farm among the producers on the farm on a fair and equitable basis.

“(l) TENANTS AND SHARECROPPERS.—In carrying out this section, the Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers.

“(m) CROSS-COMPLIANCE.—

“(1) IN GENERAL.—Compliance on a farm with the terms and conditions of any other commodity program, or compliance with crop acreage base requirements for any other commodity, may not be required as a condition of eligibility for loans or payments under this section.

“(2) COMPLIANCE ON OTHER FARMS.—The Secretary may not require producers on a farm, as a condition of eligibility for loans or payments under this section for the farm, to comply with the terms and conditions of the upland cotton program with respect to any other farm operated by the producers.

“(n) LIMITED GLOBAL IMPORT QUOTA.—

“(1) DEFINITIONS.—In this subsection:

“(A) DEMAND.—The term ‘demand’ means—

“(i) the average seasonally adjusted annual rate of domestic mill consumption in the most recent 3 months for which data are available; plus

“(ii) the larger of—

“(I) average exports of upland cotton during the preceding 6 marketing years; or

“(II) cumulative exports of upland cotton plus outstanding export sales for the marketing year in which the quota is established.

“(B) LIMITED GLOBAL IMPORT QUOTA.—The term ‘limited global import quota’ means a quantity of imports that is not subject to the over-quota tariff rate of a tariff-rate quota.

“(C) SUPPLY.—The term ‘supply’ means, using the latest official data of the Bureau of the Census, the Department of Agriculture, and the Department of the Treasury—

“(i) the carry-over of upland cotton at the beginning of the marketing year (adjusted to 480-pound bales) in which the quota is established;

“(ii) production of the current crop; and

“(iii) imports to the latest date available during the marketing year.

“(2) QUOTA.—The President shall carry out an import quota program that shall provide that whenever the Secretary determines and announces that the average price of the base quality of upland cotton, as determined by the Secretary, in the designated spot markets for a month exceeded 130 percent of the average price of the quality of cotton in the markets for the preceding 36 months, notwithstanding any other provision of law, there shall immediately be in effect a limited global import quota subject to the following conditions:

“(A) QUANTITY.—The quantity of the quota shall be equal to 21 days of domestic mill consumption of upland cotton at the seasonally adjusted average rate of the most recent 3 months for which data are available.

“(B) QUANTITY IF PRIOR QUOTA.—If a quota has been established under this subsection during the preceding 12 months, the quantity of the quota next established under this subsection shall be the smaller of 21 days of domestic mill consumption calculated as set forth in subparagraph (A) or the quantity required to increase the supply to 130 percent of the demand.

“(C) PREFERENTIAL TARIFF TREATMENT.—The quantity under a limited global import quota shall be considered to be an in-quota quantity for purposes of—

“(i) section 213(d) of the Caribbean Basin Economic Recovery Act (19 U.S.C. 2703(d));

“(ii) section 204 of the Andean Trade Preference Act (19 U.S.C. 3203);

“(iii) section 503(d) of the Trade Act of 1974 (19 U.S.C. 2463(d)); and

“(iv) General Note 3(a)(iv) to the Harmonized Tariff Schedule of the United States (19 U.S.C. 1202 note).

“(3) QUOTA ENTRY PERIOD.—

“(A) IN GENERAL.—Except as provided in subparagraph (B), when a quota is established under this subsection, cotton may be entered under the quota during the 90-day period beginning on the date the quota is established by the Secretary.

“(B) NO OVERLAP.—Notwithstanding paragraphs (1) and (2), a quota period may not be established that overlaps an existing quota period or a special quota period established under subsection (a)(5)(F).

“(o) CROPS.—Notwithstanding any other provision of law, this section shall be effective only for the 1996 through 2002 crops of upland cotton.”.

TITLE IV—RICE

SEC. 401. LOANS, PAYMENTS, AND ACREAGE REDUCTION PROGRAMS FOR THE 1996 THROUGH 2002 CROPS OF RICE.

Section 101B of the Agricultural Act of 1949 (7 U.S.C. 1441-2) is amended to read as follows:

“SEC. 101B. LOANS, PAYMENTS, AND ACREAGE REDUCTION PROGRAMS FOR THE 1996 THROUGH 2002 CROPS OF RICE.

“(a) LOANS AND PURCHASES.—

“(1) IN GENERAL.—Except as otherwise provided in this subsection, the Secretary shall make available to producers on a farm nonrecourse loans and purchases for each of the 1996 through 2002 crops of rice produced on the farm at a level that is not less than the greater of—

“(A) 85 percent of the simple average price received by producers, as determined by the Secretary, during the marketing years for the immediately preceding 5 crops of rice, excluding the year in which the average price was the highest and the year in which the average price was the lowest in the period; or

“(B) \$6.50 per hundredweight.

“(2) MAXIMUM REDUCTION.—The loan level for any crop of rice determined under paragraph (1) may not be reduced by more than 5 percent from the level determined for the preceding crop.

“(3) ANNOUNCEMENT OF LOAN LEVEL AND ESTABLISHED PRICE.—The loan and purchase level and the established price for each of the 1996 through 2002 crops of rice shall be announced not later than January 31 of each calendar year for the crop harvested in the calendar year or, in the case of the 1996 crop, as soon as practicable after the date of enactment of the Farm Commodities Act of 1995.

“(4) TERM.—A loan made under this subsection shall have a term of not more than 9 months beginning after the month in which the application for the loan is made.

“(5) MARKETING LOANS.—

“(A) IN GENERAL.—To ensure that a competitive market position is maintained for rice, the Secretary shall permit the producers on a farm to repay a loan made under paragraph (1) for a crop at a level that is the lesser of—

“(i) the loan level determined for the crop; or

“(ii) the greater of—

“(I) 70 percent of the loan level determined for the crop; or

“(II) the prevailing world market price for rice, as determined by the Secretary.

“(B) PREVAILING WORLD MARKET PRICE.—The Secretary shall prescribe by regulation—

“(i) a formula to determine the prevailing world market price for rice that does not take into account any price for the sale of rice produced in the United States; and

“(ii) a mechanism by which the Secretary shall announce periodically the prevailing world market price for rice.

“(C) PRODUCER PURCHASE OF MARKETING CERTIFICATES.—

“(i) IN GENERAL.—As a condition of permitting the producers on a farm to repay a loan as provided in subparagraph (A), the Secretary may require the producers to purchase marketing certificates equal in value to an amount that does not exceed ½ the difference, as determined by the Secretary, between the amount of the loan obtained by the producers and the amount of the loan repayment.

“(ii) REDEMPTION FOR RICE OR CASH.—The certificates shall be redeemable for agricultural commodities owned by the Commodity Credit Corporation valued at the prevailing market price, as determined by the Secretary, or for cash, under such terms and conditions as the Secretary may prescribe.

“(iii) REDEMPTION, MARKETING, OR EXCHANGE.—The Commodity Credit Corporation, under regulations prescribed by the Secretary, shall assist any person receiving marketing certificates under this subparagraph in the redemption or marketing or exchange of the certificates at such times, in such manner, and at such price levels as the Secretary determines will best effectuate the purposes of the program established under this section.

“(iv) CHARGES.—If any such certificate is not presented for redemption or marketing within a reasonable number of days after issuance, as determined by the Secretary, reasonable costs of storage and other carrying charges, as determined by the Secretary, shall be deducted from the value of the certificate for the period beginning after the reasonable number of days and ending on the date of the presentation of the certificate to the Commodity Credit Corporation.

“(v) DESIGNATION OF COMMODITIES AND PRODUCTS.—Insofar as practicable, the Secretary shall permit owners of certificates to designate the commodities and the products of commodities, including storage sites of the commodities and products, that the owners would prefer to receive in exchange for certificates.

“(vi) SALES PRICE RESTRICTIONS.—Notwithstanding any other provision of law, any price restrictions that may otherwise apply to the disposition of agricultural commodities by the Commodity Credit Corporation shall not apply to the redemption of certificates under this subparagraph.

“(vii) DISPLACEMENT.—The Secretary shall take such measures as may be necessary to prevent the marketing or exchange of agricultural commodities and the products of the

commodities for certificates under this subsection from adversely affecting the income of producers of the commodities or products.

“(viii) TRANSFERS.—Under regulations prescribed by the Secretary, certificates issued under this subparagraph may be transferred to other persons approved by the Secretary.

“(D) CERTIFICATES TO MAINTAIN COMPETITIVENESS.—

“(i) IN GENERAL.—Notwithstanding any other provision of law, whenever, during the period beginning August 1, 1996, and ending July 31, 2003, the prevailing world market price for a class of rice (adjusted to United States quality and location), as determined by the Secretary, is below the current loan repayment rate for that class of rice, to make United States rice competitive in world markets and to maintain and expand exports of rice produced in the United States, the Commodity Credit Corporation shall make payments, through the issuance of marketing certificates, to persons who have entered into an agreement with the Commodity Credit Corporation to participate in the program established under this subparagraph. The payments shall be made in such monetary amounts and subject to such terms and conditions as the Secretary determines will make rice produced in the United States available at competitive prices consistent with the purposes of this subparagraph.

“(ii) VALUE.—The value of each certificate issued under this subparagraph shall be based on the difference between—

“(I) the loan repayment rate for the class of rice; and

“(II) the prevailing world market price for the class of rice, as determined by the Secretary.

“(iii) TERMS AND CONDITIONS OF CERTIFICATES.—Marketing certificates issued under this subparagraph shall be subject to the same terms and conditions as certificates issued under subparagraph (C).

“(6) SIMPLE AVERAGE PRICE.—For purposes of this section, the simple average price received by producers for the immediately preceding marketing year shall be based on the latest information available to the Secretary at the time of the determination.

“(b) LOAN DEFICIENCY PAYMENTS.—

“(1) IN GENERAL.—The Secretary shall, for each of the 1996 through 2002 crops of rice, make payments (referred to in this section as ‘loan deficiency payments’) available to producers who, although eligible to obtain a loan or an agreement for purchase under subsection (a), agree to forgo obtaining the loan or agreement in return for payments under this subsection.

“(2) COMPUTATION.—A payment under this subsection shall be computed by multiplying—

“(A) the loan payment rate; and

“(B) the quantity of rice that the producers are eligible to place under loan (or obtain a purchase agreement) but for which the producers forgo obtaining the loan or agreement in return for payments under this subsection.

“(3) LOAN PAYMENT RATE.—For purposes of this subsection, the loan payment rate shall be the amount by which—

“(A) the loan level determined for the crop under subsection (a); exceeds

“(B) the level at which a loan may be repaid under subsection (a).

“(4) MARKETING CERTIFICATES.—The Secretary may make up to ½ the amount of a payment under this subsection available in the form of marketing certificates, subject to the terms and conditions provided in subsection (a)(5)(C).

“(c) PAYMENTS.—

“(1) DEFICIENCY PAYMENTS.—

“(A) IN GENERAL.—The Secretary shall make available to producers payments (referred to in this section as ‘deficiency payments’) for each of the 1996 through 2002 crops of rice in an amount computed by multiplying—

“(i) the payment rate;

“(ii) the payment acres for the crop; and

“(iii) the farm program payment yield established for the crop for the farm.

“(B) PAYMENT RATE.—

“(i) IN GENERAL.—The payment rate for each of the 1996 through 2002 crops of rice shall be the amount by which the established price for the crop of rice exceeds the greater of—

“(I) the lesser of—

“(aa) the national average market price received by producers during the calendar year that contains the first 5 months of the marketing year for the crop, as determined by the Secretary; or

“(bb) the national average market price received by producers during the first 5 months of the marketing year for the crop, as determined by the Secretary, plus an appropriate amount that is fair and equitable in relation to wheat and feed grains (as determined by the Secretary); or

“(II) the loan level determined for the crop.

“(ii) MINIMUM ESTABLISHED PRICE.—The established price for rice shall not be less than \$10.71 per hundredweight for each of the 1996 through 2002 crops.

“(C) PAYMENT ACRES.—Payment acres for a crop shall be the lesser of—

“(i) the number of acres planted to the crop for harvest within the permitted acreage (as defined in subsection (e)(2)(D)(ii)); or

“(ii) 75 percent of the crop acreage base for the crop for the farm less the quantity of reduced acreage (as defined in subsection (e)(2)(D)(ii)).

“(D) 50/85 PROGRAM.—

“(i) IN GENERAL.—If an acreage limitation program under subsection (e)(2) is in effect for a crop of rice and the producers on a farm devote a portion of the maximum payment acres of the farm for rice as calculated under subparagraph (C)(ii) equal to more than 15 percent (except as provided in clause (v)(II)) of the rice acreage of the farm for the crop to conservation uses (except as provided in subparagraph (E))—

“(I) the portion of the maximum payment acres of the farm in excess of 15 percent (except as provided in clause (v)(II)) of the acreage devoted to conservation uses (except as provided in subparagraph (E)) shall be considered to be planted to rice for the purpose of determining the acreage on the farm required to be devoted to conservation uses in accordance with subsection (e)(2)(D); and

“(II) the producers shall be eligible for payments under this paragraph with respect to the acreage, subject to the compliance of the producers with clause (ii).

“(ii) MINIMUM PLANTING REQUIREMENT.—To be eligible for payments under clause (i), except as provided in clauses (iv) and (v), the producers on a farm shall actually plant rice for harvest on at least 50 percent of the maximum payment acres for rice for the farm.

“(iii) DEFICIENCY PAYMENTS.—Notwithstanding any other provision of this section, any producers on a farm who devote a portion of the maximum payment acres of the farm for rice to conservation uses (or other uses as provided in subparagraph (E)) under this subparagraph shall receive deficiency payments on the acreage that is considered to be planted to rice and eligible for payments under this subparagraph for the crop at a per-hundredweight rate established by the Secretary, except that the rate may not

be established at less than the projected deficiency payment rate for the crop, as determined by the Secretary. The projected deficiency payment rate for the crop shall be announced by the Secretary prior to the period during which rice producers may agree to participate in the program for the crop.

“(iv) QUARANTINES.—If a State or local agency has imposed in an area of a State or county a quarantine on the planting of rice for harvest on farms in the area, the State committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) may recommend to the Secretary that payments be made under this paragraph, without regard to the requirement imposed under clause (ii), to producers in the area who were required to forgo the planting of rice for harvest on acreage to alleviate or eliminate the condition requiring the quarantine. If the Secretary determines that the condition exists, the Secretary may make payments under this paragraph to the producers. To be eligible for payments under this clause, the producers must devote the acreage to conservation uses (except as provided in subparagraph (E)).

“(v) PREVENTED PLANTING AND REDUCED YIELDS.—In the case of each of the 1996 through 2002 crops of rice, producers on a farm shall be eligible to receive deficiency payments as provided in clause (iii) without regard to clause (ii) if an acreage limitation program under subsection (e) is in effect for the crop and the producers—

“(I)(aa) have been determined by the Secretary (in accordance with section 503(c)) to be prevented from planting the crop, or have incurred a reduced yield for the crop because of a natural disaster; and

“(bb) elect to devote a portion of the maximum payment acres for rice (as calculated under subparagraph (C)(ii)) equal to more than 8 percent of the rice acreage, to conservation uses; or

“(II) elect to devote a portion of the maximum payment acres for rice (as calculated under subparagraph (C)(ii)) equal to more than 8 percent of the rice acreage, to alternative crops as provided in subparagraph (E).

“(vi) CROP ACREAGE AND PAYMENT YIELD.—The rice crop acreage base and rice farm program payment yield of the farm shall not be reduced because of the fact that a portion of the permitted acreage for rice for the farm was devoted to conserving uses (except as provided in subparagraph (E)) under this subparagraph.

“(vii) LIMITATION.—Other than as provided in clauses (i) through (vi), payments may not be made under this paragraph for any crop on a greater acreage than the acreage actually planted to rice.

“(viii) CONSERVATION USE ACREAGE UNDER OTHER PROGRAMS.—Any acreage considered to be planted to rice in accordance with clauses (i) and (vi) may not also be designated as conservation use acreage for the purpose of fulfilling any provision under any acreage limitation or land diversion program requiring that the producers devote a specified quantity of acreage to conservation uses.

“(E) ALTERNATIVE CROPS.—

“(i) INDUSTRIAL AND OTHER CROPS.—The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (D) to be devoted to sweet sorghum, guar, castor beans, plantago ovato, triticale, rye, millet, mung beans, commodities for which no substantial domestic production or market exists but that could yield industrial raw material being imported, or likely to be imported, into the

United States, or commodities grown for experimental purposes (including kenaf and milkweed), subject to the following sentence. The Secretary may permit the acreage to be devoted to the production only if the Secretary determines that the production is—

“(I) not likely to increase the cost of the price support program; and

“(II) needed to provide an adequate supply of the commodity, or, in the case of a commodity for which no substantial domestic production or market exists but that could yield industrial raw materials, the production is needed to encourage domestic manufacture of the raw material and could lead to increased industrial use of the raw material to the long-term benefit of United States industry.

“(ii) SESAME AND CRAMBE.—The Secretary shall permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (D) to be devoted to sesame or crambe. In carrying out this clause, if the Secretary determines that sesame or crambe are considered oilseeds under section 205, the Secretary shall provide that, in order to receive payments under subparagraph (D), the producers shall agree to forgo eligibility to receive a loan under section 205 for the crop of sesame or crambe produced on the farm.

“(2) CROP INSURANCE REQUIREMENT.—As a condition of eligibility for rice loans, purchases, and payments, the producers on a farm shall obtain catastrophic risk protection insurance coverage in accordance with section 427.

“(d) PAYMENT YIELDS.—The farm program payment yields for farms for each crop of rice under this section shall be determined under title V.

“(e) ACREAGE REDUCTION PROGRAMS.—

“(1) IN GENERAL.—

“(A) ESTABLISHMENT.—Notwithstanding any other provision of this Act, if the Secretary determines that the total supply of rice, in the absence of an acreage limitation program, will be excessive taking into account the need for an adequate carry-over to maintain reasonable and stable supplies and prices and to meet a national emergency, the Secretary may provide for any crop of rice an acreage limitation program as described in paragraph (2).

“(B) AGRICULTURAL RESOURCES CONSERVATION PROGRAM.—In making a determination under subparagraph (A), the Secretary shall take into consideration the number of acres placed in the agricultural resources conservation program established under subtitle D of title XII of the Food Security Act of 1985 (16 U.S.C. 3830 et seq.).

“(C) ANNOUNCEMENTS.—

“(i) PRELIMINARY ANNOUNCEMENT.—If the Secretary elects to implement an acreage limitation program for any crop year, the Secretary shall make a preliminary announcement of any such program not later than December 1 of the calendar year preceding the year in which the crop is harvested (or, for the 1996 crop, as soon as practicable after the date of enactment of the Farm Commodities Act of 1995). The preliminary announcement shall include, among other information determined necessary by the Secretary, an announcement of the uniform percentage reduction in the rice crop acreage base described in paragraph (2)(A).

“(ii) FINAL ANNOUNCEMENT.—Not later than January 31 of the calendar year in which the crop is harvested, the Secretary shall make a final announcement of the program. The announcement shall include, among other information determined necessary by the Secretary, an announcement of the uniform per-

centage reduction in the rice crop acreage base described in paragraph (2)(A).

“(D) CARRY-OVER.—The Secretary shall carry out an acreage limitation program described in paragraph (2) for a crop of rice in a manner that will result in carry-over stocks equal to 16.5 to 20 percent of the simple average of the total disappearance of rice for each of the 3 marketing years preceding the year for which the announcement is made. In this subparagraph, the term ‘total disappearance’ means all rice utilization, including total domestic, total export, and total residual disappearance.

“(2) ACREAGE LIMITATION PROGRAM.—

“(A) PERCENTAGE REDUCTIONS.—Except as provided in paragraph (3), if a rice acreage limitation program is announced under paragraph (1), the limitation shall be achieved by applying a uniform percentage reduction (from 0 to 35 percent) to the rice crop acreage base for the crop for each rice-producing farm.

“(B) COMPLIANCE.—Except as provided in section 504, producers on a farm who knowingly produce rice in excess of the permitted acreage for rice for the farm, as established in accordance with subparagraph (A), shall be ineligible for rice loans, purchases, and payments with respect to the farm.

“(C) CROP ACREAGE BASES.—Rice crop acreage bases for each crop of rice shall be determined under title V.

“(D) ACREAGE DEVOTED TO CONSERVATION USES.—

“(i) IN GENERAL.—A number of acres on the farm shall be devoted to conservation uses, in accordance with regulations issued by the Secretary.

“(ii) NUMBER.—The number shall be determined by multiplying the rice crop acreage base by the percentage reduction required by the Secretary. The number of acres so determined is referred to in this section as ‘reduced acreage’. The remaining acreage is referred to in this section as ‘permitted acreage’.

“(iii) ADJUSTMENT.—Permitted acreage may be adjusted by the Secretary as provided in paragraph (3) and in section 504.

“(E) INDIVIDUAL FARM PROGRAM ACREAGE.—Except as otherwise provided in subsection (c), the individual farm program acreage shall be the acreage planted on the farm to rice for harvest within the permitted acreage for rice for the farm as established under this paragraph.

“(F) PLANTING DESIGNATED CROPS ON REDUCED ACREAGE.—

“(i) DEFINITION OF DESIGNATED CROP.—In this subparagraph, the term ‘designated crop’ means a crop described in section 504(b)(1), excluding any program crop as defined in section 502(3).

“(ii) PLANTING DESIGNATED CROPS.—Subject to clause (iii), the Secretary may permit producers on a farm to plant a designated crop on not more than ½ of the reduced acreage on the farm.

“(iii) LIMITATIONS.—If the producers on a farm elect to plant a designated crop on reduced acreage under this subparagraph—

“(I) the amount of the deficiency payment that the producers are otherwise eligible to receive under subsection (c) shall be reduced, for each acre (or portion of an acre) that is planted to the designated crop, by an amount equal to the deficiency payment that would be made with respect to a number of acres of the crop that the Secretary considers appropriate, except that if the producers on the farm are participating in a program established for more than 1 program crop, the amount of the reduction shall be determined by prorating the reduction based on the acreage planted or considered planted on the farm to all of the program crops; and

“(II) the Secretary shall ensure that reductions in deficiency payments under subclause (I) are sufficient to ensure that this subparagraph will result in no additional cost to the Commodity Credit Corporation.

“(3) TARGETED OPTION PAYMENTS.—

“(A) IN GENERAL.—Notwithstanding any other provision of this section, if the Secretary implements an acreage limitation program with respect to any of the 1996 through 2002 crops of rice and announces an acreage limitation percentage of 20 percent or less, the Secretary may make available to producers on a farm who do not receive payments under subsection (c)(1)(D) for the crop on the farm, adjustments in the level of deficiency payments that would otherwise be made available to the producers if the producers exercise the payment options provided in this paragraph.

“(B) PAYMENT OPTIONS.—If the Secretary elects to carry out this paragraph, the Secretary shall make the payment options specified in subparagraphs (C) and (D) available to producers who agree to make adjustments in the quantity of acreage diverted from the production of rice under an acreage limitation program in accordance with this paragraph.

“(C) INCREASED ACREAGE LIMITATION OPTION.—

“(i) INCREASE IN ESTABLISHED PRICE.—If the Secretary elects to carry out this paragraph, the producers on a farm shall be eligible to receive an increase in the established price for rice in accordance with clause (ii) if the producers agree to an increase in the acreage limitation percentage to be applied to the rice acreage base of the producers above the acreage limitation percentage announced by the Secretary.

“(ii) METHOD OF CALCULATION.—For the purposes of calculating deficiency payments to be made available to producers who participate in the program under this paragraph, the Secretary shall increase the established price for rice by an amount determined by the Secretary of not less than 0.5 percent, nor more than 1 percent, for each 1 percentage point increase in the acreage limitation percentage applied to the rice acreage base of the producers.

“(iii) LIMITATION.—The acreage limitation percentage to be applied to the rice acreage base of the producers shall be increased by not more than 5 percentage points above the acreage limitation percentage announced by the Secretary.

“(iv) ADJUSTMENT FOR UNDER-PLANTINGS.—In determining the increased acreage limitation percentage that is applied to the rice acreage base of the producers under this paragraph, the Secretary shall exclude an amount of acreage equal to the average difference between the permitted acreage for rice for the farm of the producers and the acreage actually planted (including acreage devoted to conserving uses under subsection (c)(1)(D)) to rice for harvest during the previous 2 years.

“(D) DECREASED ACREAGE LIMITATION OPTION.—

“(i) DECREASE IN ACREAGE LIMITATION REQUIREMENT.—If the Secretary elects to carry out this paragraph, the producers on a farm shall be eligible to decrease the acreage limitation percentage applicable to the rice acreage base of the producers (as announced by the Secretary) if the producers agree to a decrease in the established price for rice in accordance with clause (ii) for the purpose of calculating deficiency payments to be made available to the producers.

“(ii) METHOD OF CALCULATION.—For the purposes of calculating deficiency payments to be made available to producers who choose the option established under this sub-

paragraph, the Secretary shall decrease the established price for rice by an amount to be determined by the Secretary of not less than 0.5 percent, nor more than 1 percent, for each 1 percentage point decrease in the acreage limitation percentage applied to the rice acreage base of the producers.

“(iii) LIMITATION.—The producers on a farm may not choose to decrease the acreage limitation percentage applicable to the rice acreage base of the producers under this paragraph by more than ½ of the announced acreage limitation percentage.

“(E) PARTICIPATION AND PRODUCTION EFFECTS.—Notwithstanding any other provision of this paragraph, the Secretary shall, to the extent practicable, ensure that the program provided for in this paragraph does not have a significant effect on participation on the program established under this section or total production and shall be offered in such a manner that the Secretary determines will result in no additional budget outlays. The Secretary shall provide an analysis of the determination of the Secretary to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate.

“(4) ADMINISTRATION.—

“(A) PROTECTION FROM WEEDS AND EROSION.—The regulations issued by the Secretary under paragraph (2) with respect to acreage required to be devoted to conservation uses shall ensure protection of the acreage from weeds and wind and water erosion.

“(B) CONSERVING CROPS.—The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of the acreage to be devoted to sweet sorghum, guar, sesame, castor beans, crambe, plantago ovato, triticale, rye, mung beans, milkweed, or other commodity, if the Secretary determines that the production is needed to provide an adequate supply of the commodities, is not likely to increase the cost of the price support program, and will not affect farm income adversely.

“(C) HAYING AND GRAZING.—

“(i) IN GENERAL.—Except as provided in clause (ii), haying and grazing of reduced acreage, acreage devoted to a conservation use under subsection (c)(1)(D), and acreage diverted from production under a land diversion program established under this subsection shall be permitted, except during any consecutive 5-month period that is established by the State committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) for a State. The 5-month period shall be established during the period beginning April 1, and ending October 31, of a year.

“(ii) NATURAL DISASTERS.—In the case of a natural disaster, the Secretary may permit unlimited haying and grazing on the acreage. The Secretary may not exclude irrigated or irrigable acreage not planted to alfalfa when exercising the authority under this clause.

“(D) WATER STORAGE USES.—

“(i) IN GENERAL.—The regulations issued by the Secretary under paragraph (2) with respect to acreage required to be devoted to conservation uses shall provide that land that has been converted to water storage uses shall be considered to be devoted to conservation uses if the land was devoted to wheat, feed grains, cotton, rice, or oilseeds in at least 3 of the immediately preceding 5 crop years. The land shall be considered to be devoted to conservation uses for the period that the land remains in water storage uses, but not to exceed 5 crop years subsequent to the conversion of the land to water storage uses.

“(ii) LIMITATIONS.—Land converted to water storage uses for the purposes of this subparagraph may not be devoted to any

commercial use, including commercial fish production. The water stored on the land may not be ground water. The farm on which the land is located must have been irrigated with ground water during at least 1 of the preceding 5 crop years.

“(5) LAND DIVERSION PROGRAM.—

“(A) IN GENERAL.—The Secretary may make land diversion payments to producers of rice, whether or not an acreage limitation program for rice is in effect, if the Secretary determines that the land diversion payments are necessary to assist in adjusting the total national acreage of rice to desirable goals. The land diversion payments shall be made to producers who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in accordance with land diversion contracts entered into by the Secretary with the producers.

“(B) AMOUNTS.—The amounts payable to producers under land diversion contracts may be determined through the submission of bids for the contracts by producers in such manner as the Secretary may prescribe or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the producers and the productivity of the acreage diverted.

“(C) LIMITATION ON DIVERTED ACREAGE.—The Secretary shall limit the total acreage to be diverted under agreements in any county or local community so as not to affect adversely the economy of the county or local community.

“(6) CONSERVATION PRACTICES.—

“(A) WILDLIFE FOOD PLOTS OR HABITAT.—The reduced acreage and additional diverted acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies. The Secretary may pay an appropriate share of the cost of practices designed to carry out this subparagraph.

“(B) PUBLIC ACCESS.—The Secretary may provide for an additional payment on the acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producers on a farm agree to permit, without other compensation, access to all or such portion of the farm as the Secretary may prescribe by the general public, for hunting, trapping, fishing, and hiking, subject to applicable Federal and State regulations.

“(7) PARTICIPATION AGREEMENTS.—

“(A) IN GENERAL.—Producers on a farm desiring to participate in the program conducted under this subsection shall execute an agreement with the Secretary providing for the participation not later than such date as the Secretary may prescribe.

“(B) MODIFICATION OR TERMINATION.—The Secretary may, by mutual agreement with producers on a farm, modify or terminate any such agreement if the Secretary determines the action necessary because of an emergency created by drought or other disaster or to prevent or alleviate a shortage in the supply of agricultural commodities. The Secretary may modify the agreement under this subparagraph for the purpose of alleviating a shortage in the supply of agricultural commodities only if there has been a significant change in the estimated stocks of the commodity since the Secretary announced the final terms and conditions of the program for the crop of rice.

“(f) INVENTORY REDUCTION PAYMENTS.—

“(1) IN GENERAL.—For each of the 1996 through 2002 crops of rice, the Secretary may make payments available to producers on a

farm who meet the requirements of this subsection.

"(2) FORM.—The payments may be made in the form of marketing certificates.

"(3) PAYMENTS.—

"(A) IN GENERAL.—Payments under this subsection shall be determined in the same manner as provided in subsection (b).

"(B) QUANTITY OF RICE MADE AVAILABLE.—The quantity of rice to be made available to the producers on a farm under this subsection shall be equal in value to the payments so determined under this subsection.

"(4) ELIGIBILITY.—The producers on a farm shall be eligible to receive a payment under this subsection for a crop if the producers—

"(A) agree to forgo obtaining a loan or purchase agreement under subsection (a);

"(B) agree to forgo receiving payments under subsection (c);

"(C) do not plant rice for harvest in excess of the crop acreage base reduced by 1/2 of any acreage required to be diverted from production under subsection (e); and

"(D) otherwise comply with this section.

"(g) EQUITABLE RELIEF.—

"(1) LOANS, PURCHASES, AND PAYMENTS.—If the failure of a producer to comply fully with the terms and conditions of the program conducted under this section precludes the making of loans, purchases, and payments, the Secretary may, notwithstanding the failure, make the loans, purchases, and payments in such amounts as the Secretary determines are equitable in relation to the seriousness of the failure. The Secretary may consider whether the producer made a good faith effort to comply fully with the terms and conditions of the program in determining whether equitable relief is warranted under this paragraph.

"(2) DEADLINES AND PROGRAM REQUIREMENTS.—The Secretary may authorize the county and State committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) to waive or modify deadlines and other program requirements in cases in which lateness or failure to meet the other requirements does not affect adversely the operation of the program.

"(h) REGULATIONS.—The Secretary may issue such regulations as the Secretary determines necessary to carry out this section.

"(i) COMMODITY CREDIT CORPORATION.—The Secretary shall carry out the program authorized by this section through the Commodity Credit Corporation.

"(j) ASSIGNMENT OF PAYMENTS.—Section 8(g) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(g)) shall apply to payments made under this section.

"(k) SHARING OF PAYMENTS.—The Secretary shall provide for the sharing of payments made under this section for any farm among the producers on the farm on a fair and equitable basis.

"(l) TENANTS AND SHARECROPPERS.—In carrying out this section, the Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers.

"(m) CROSS-COMPLIANCE.—

"(1) IN GENERAL.—Compliance on a farm with the terms and conditions of any other commodity program, or compliance with crop acreage base requirements for any other commodity, may not be required as a condition of eligibility for loans, purchases, or payments under this section.

"(2) COMPLIANCE ON OTHER FARMS.—The Secretary may not require producers on a farm, as a condition of eligibility for loans, purchases, or payments under this section for the farm, to comply with the terms and conditions of the rice program with respect to any other farm operated by the producers.

"(n) CROPS.—Notwithstanding any other provision of law, this section shall be effective only for the 1996 through 2002 crops of rice."

TITLE V—OILSEEDS

SEC. 501. LOANS AND PAYMENTS FOR OILSEEDS FOR 1996 THROUGH 2002 MARKETING YEARS.

Section 205 of the Agricultural Act of 1949 (7 U.S.C. 1446f) is amended to read as follows:

"SEC. 205. LOANS AND PAYMENTS FOR OILSEEDS FOR 1996 THROUGH 2002 MARKETING YEARS.

"(a) DEFINITION OF OILSEEDS.—In this section, the term 'oilseeds' means soybeans, sunflower seed, canola, rapeseed, safflower, flaxseed, mustard seed, and such other oilseeds as the Secretary may determine.

"(b) LOANS AND PURCHASES.—The Secretary shall make available to producers on a farm loans and purchases for each of the 1996 through 2002 crops of oilseeds produced on the farm at such level as the Secretary determines will maintain the competitiveness of oilseeds with other crops and will not result in excessive total stocks of oilseeds, taking into consideration the cost of producing oilseeds, supply and demand conditions, and world prices for oilseeds.

"(c) LOAN AND PURCHASE LEVEL.—

"(1) SOYBEANS.—Except as provided in paragraph (4), the loan and purchase level for each of the 1996 through 2002 crops of soybeans shall be not less than the greater of—

"(A) 85 percent of the simple average price received by producers, as determined by the Secretary, during the marketing years for the immediately preceding 5 crops of soybeans, excluding the year in which the average price was the highest and the year in which the average price was the lowest in the period; or

"(B) \$5.50 per bushel.

"(2) SUNFLOWER SEED, CANOLA, RAPESEED, AND FLAXSEED.—Except as provided in paragraph (4), the loan and purchase level for each of the 1996 through 2002 crops of sunflower seed, canola, rapeseed, and flaxseed shall be not less than the greater of—

"(A) 85 percent of the simple average price received by producers, as determined by the Secretary, during the marketing years for the immediately preceding 5 crops of sunflower seed, canola, rapeseed, and flaxseed, respectively, excluding the year in which the average price was the highest and the year in which the average price was the lowest in the period; or

"(B) \$9.75 per hundredweight.

"(3) OTHER OILSEEDS.—Except as provided in paragraph (4), the loan and purchase level for each of the 1996 through 2002 crops of oilseeds not covered by paragraph (1) or (2) shall be established at such level as the Secretary determines is fair and reasonable in relation to the loan and purchase level available for soybeans, except that the loan and purchase level for cottonseed may not be established at a level that is less than the level established for soybeans on a per-pound basis for the same crop year.

"(4) ADJUSTMENT.—If the Secretary determines for any marketing year that the loan and purchase level established under this subsection will result in outlays in the form of loan deficiency payments to producers of an oilseed, the Secretary shall reduce the loan and purchase level for a crop of the oilseed for the marketing year to a level at which, as determined by the Secretary, payments will not be made, except that the level may not be less than—

"(A) in the case of soybeans, \$5.00 per bushel; and

"(B) in the case of sunflower seed, canola, rapeseed, and flaxseed, \$8.90 per hundredweight.

"(5) REPORT.—If the Secretary adjusts the level of loans and purchases for an oilseed

under paragraph (4), the Secretary shall submit to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report—

"(A) certifying that the adjustment is necessary to reduce outlays in the form of loan deficiency payments; and

"(B) containing a description of the production, stocks, and price circumstances under which the adjustment is needed.

"(6) FUTURE CROP YEARS.—Any reduction in the loan and purchase level for a crop of an oilseed under paragraph (4) shall not be considered in determining the loan and purchase level for a future crop of the oilseed.

"(d) MARKETING LOANS.—

"(1) IN GENERAL.—The Secretary shall permit a producer to repay a loan made under this section for a crop—

"(A) at a level that is the lesser of—

"(i) the loan and purchase level determined for the crop; and

"(ii) the prevailing world market price for the applicable oilseed (adjusted to United States quality and location), as determined by the Secretary; or

"(B) such other level (not in excess of the loan and purchase level determined for the crop) that the Secretary determines will—

"(i) minimize potential loan forfeitures;

"(ii) minimize the accumulation of oilseed stocks by the Federal Government;

"(iii) minimize the cost incurred by the Federal Government in storing oilseeds; and

"(iv) allow oilseeds produced in the United States to be marketed freely and competitively, both domestically and internationally.

"(2) PREVAILING WORLD MARKET PRICE.—The Secretary shall prescribe by regulation—

"(A) a formula for determining the prevailing world market price for oilseeds (adjusted to United States quality and location); and

"(B) a mechanism by which the Secretary shall announce periodically the prevailing world market price for oilseeds (adjusted to United States quality and location).

"(e) LOAN DEFICIENCY PAYMENT.—

"(1) IN GENERAL.—For each of the 1996 through 2002 crops of oilseeds, the Secretary shall make payments available to producers who, although eligible to obtain a loan or purchase under subsection (b), agree to forgo obtaining the loan and purchase in return for payments under this subsection.

"(2) COMPUTATION.—A payment under this subsection shall be computed by multiplying—

"(A) the loan and purchase payment rate; by

"(B) the quantity of oilseeds the producer is eligible to place under loan but for which the producer forgoes obtaining the loan and purchase in return for payments under this subsection.

"(3) LOAN AND PURCHASE PAYMENT RATE.—For purposes of this subsection, the loan and purchase payment rate shall be the amount by which—

"(A) the loan and purchase level determined for the crop under subsection (c); exceeds

"(B) the level at which a loan may be repaid under subsection (d).

"(4) MARKETING CERTIFICATES.—

"(A) IN GENERAL.—The Secretary may make payments under this section available in the form of certificates redeemable for any agricultural commodity owned by the Commodity Credit Corporation.

"(B) MINIMAL OILSEED STOCKS.—The Secretary shall make certificates available under subparagraph (A) in such a manner as to minimize the accumulation of oilseed stocks.

"(f) MARKETING YEAR.—For purposes of this section, the marketing year for—

“(1) soybeans shall be the 1-year period beginning on September 1 and ending on August 31; and

“(2) other oilseeds shall be prescribed by the Secretary by regulation.

“(g) ANNOUNCEMENTS.—The Secretary shall make an announcement of the loan and purchase level for the crop not later than 15 days prior to the beginning of the marketing year for the crop.

“(h) LOAN MATURITY.—A loan made for a crop of oilseeds under this section shall mature on the last day of the 9th month following the month in which the application for the loan is made, except that the loan may not mature later than the last day of the fiscal year in which the application is made.

“(i) OTHER TERMS AND CONDITIONS.—Notwithstanding any other provision of law—

“(1) the Secretary shall not require participation in any production adjustment program for oilseeds or any other commodity as a condition of eligibility for price support for oilseeds;

“(2) the Secretary may not authorize payments to producers to cover the cost of storing oilseeds; and

“(3) oilseeds may not be considered an eligible commodity for any reserve program.

“(j) REGULATIONS.—The Secretary may issue such regulations as the Secretary determines necessary to carry out this section.

“(l) ASSIGNMENT OF PAYMENTS.—Section 8(g) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(g)) shall apply to payments under this section.

“(m) CROPS.—Notwithstanding any other provision of law, this section shall be effective only for the 1996 through 2002 crops of oilseeds.”.

TITLE VI—PEANUTS

SEC. 601. SUSPENSION OF MARKETING QUOTAS AND ACREAGE ALLOTMENTS.

The following provisions of the Agricultural Adjustment Act of 1938 shall not be applicable to the 1996 through 2002 crops of peanuts:

(1) Subsections (a) through (j) of section 358 (7 U.S.C. 1358).

(2) Subsections (a) through (h) of section 358a (7 U.S.C. 1358a).

(3) Subsections (a), (b), (d), and (e) of section 358d (7 U.S.C. 1359).

(4) Part I of subtitle C of title III (7 U.S.C. 1361 et seq.).

(5) Section 371 (7 U.S.C. 1371).

SEC. 602. NATIONAL POUNDAGE QUOTAS AND ACREAGE ALLOTMENTS.

Section 358-1 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1358-1) is amended to read as follows:

“SEC. 358-1. NATIONAL POUNDAGE QUOTAS AND ACREAGE ALLOTMENTS FOR 1996 THROUGH 2002 CROPS OF PEANUTS.

“(a) NATIONAL POUNDAGE QUOTAS.—

“(1) ESTABLISHMENT.—The national poundage quota for peanuts for each of the 1996 through 2002 marketing years shall be established by the Secretary at a level that is equal to the quantity of peanuts (in tons) that the Secretary estimates will be devoted in each such marketing year to domestic edible and related uses, excluding seed. The Secretary shall include in the annual estimate of domestic edible and related uses, the estimated quantity of peanuts and peanut products to be imported into the United States for the marketing year for which the quota is being established.

“(2) ANNOUNCEMENT.—The national poundage quota for a marketing year shall be announced by the Secretary not later than the December 15 preceding the marketing year.

“(3) APPORTIONMENT AMONG STATES.—The national poundage quota established under paragraph (1) shall be apportioned among the States so that the poundage quota allocated to each State is equal to the percentage of the national poundage quota allocated to farms in the State for 1995.

“(b) FARM POUNDAGE QUOTAS.—

“(1) IN GENERAL.—

“(A) ESTABLISHMENT.—A farm poundage quota for each of the 1996 through 2002 marketing years shall be established—

“(i) for each farm that had a farm poundage quota for peanuts for the 1995 marketing year;

“(ii) if the poundage quota apportioned to a State under subsection (a)(3) for any such marketing year is larger than the quota for the immediately preceding marketing year, for each other farm on which peanuts were produced for marketing in at least 2 of the 3 immediately preceding crop years, as determined by the Secretary; and

“(iii) as approved and determined by the Secretary under section 358c, for each farm on which peanuts are produced in connection with experimental and research programs.

“(B) QUANTITY.—

“(i) IN GENERAL.—The farm poundage quota for each of the 1996 through 2002 marketing years for each farm described in subparagraph (A)(i) shall be the same as the farm poundage quota for the farm for the immediately preceding marketing year, as adjusted under paragraph (2), but not including any increases resulting from the allocation of quotas voluntarily released for 1 year under paragraph (7).

“(ii) INCREASED QUOTA.—The farm poundage quota, if any, for each of the 1996 through 2002 marketing years for each farm described in subparagraph (A)(ii) shall be equal to the quantity of peanuts allocated to the farm for the year under paragraph (2).

“(C) TRANSFERS.—For purposes of this subsection, if the farm poundage quota, or any part of the quota, is permanently transferred in accordance with section 358a or 358b, the receiving farm shall be considered as possessing the farm poundage quota (or portion of the quota) of the transferring farm for all subsequent marketing years.

“(2) ADJUSTMENTS.—

“(A) ALLOCATION OF INCREASED QUOTA GENERALLY.—Subject to subparagraphs (B) and (D), if the poundage quota apportioned to a State under subsection (a)(3) for any of the 1996 through 2002 marketing years is increased over the poundage quota apportioned to farms in the State for the immediately preceding marketing year, the increase shall be allocated proportionately, based on farm production history for peanuts for the 3 immediately preceding years, among—

“(i) all farms in the State for which a farm poundage quota was established for the marketing year immediately preceding the marketing year for which the allocation is being made; and

“(ii) all other farms in the State on which peanuts were produced in at least 2 of the 3 immediately preceding crop years, as determined by the Secretary.

“(B) TEMPORARY QUOTA ALLOCATION.—

“(i) IN GENERAL.—Subject to clause (iv), temporary allocation of a poundage quota for the marketing year in which a crop of peanuts is planted shall be made to producers for each of the 1996 through 2002 marketing years in accordance with this subparagraph.

“(ii) QUANTITY.—The temporary quota allocation shall be equal to the quantity of seed peanuts (in pounds) planted on a farm, as determined in accordance with regulations issued by the Secretary.

“(iii) ALLOCATION.—The allocation of quota pounds to producers under this subparagraph

shall be performed in such a manner as will not result in a net decrease in quota pounds on a farm in excess of 3 percent, after the temporary seed quota is added, from the basic farm quota for the 1995 marketing year. A decrease shall occur only once, shall be applicable only to the 1996 marketing year.

“(iv) NO INCREASED COSTS.—The Secretary may carry out this subparagraph only if this subparagraph does not result in—

“(I) an increased cost to the Commodity Credit Corporation through displacement of quota peanuts by additional peanuts in the domestic market;

“(II) an increased loss in a loan pool of an area marketing association designated pursuant to section 108B(c)(1) of the Agricultural Act of 1949 (7 U.S.C. 1445c-3(c)(1)); or

“(III) other increased costs.

“(v) USE OF QUOTA AND ADDITIONAL PEANUTS.—Nothing in this subparagraph affects the requirements of section 358b(b).

“(vi) ADDITIONAL ALLOCATION.—The temporary allocation of quota pounds under this subparagraph shall be in addition to the farm poundage quota established under this subsection and shall be credited to the producers of the peanuts on the farm in accordance with regulations issued by the Secretary.

“(C) DECREASE.—If the poundage quota apportioned to a State under subsection (a)(3) for any of the 1996 through 2002 marketing years is decreased from the poundage quota apportioned to farms in the State under subsection (a)(3) for the immediately preceding marketing year, the decrease shall be allocated among all the farms in the State for which a farm poundage quota was established for the marketing year immediately preceding the marketing year for which the allocation is being made.

“(D) SPECIAL RULE ON TENANT'S SHARE OF INCREASED QUOTA.—Subject to terms and conditions prescribed by the Secretary, on farms that were leased to a tenant for peanut production, the tenant shall share equally with the owner of the farm in the percentage of the quota made available under subparagraph (A) and otherwise allocated to the farm as the result of the production of the tenant on the farm of additional peanuts. Not later than April 1 of each year or as soon as practicable during the year, the share of the tenant of any such quota shall be allocated to a farm within the county owned by the tenant or sold by the tenant to the owner of any farm within the county and permanently transferred to the farm. Any quota not so disposed of as provided in this subparagraph shall be allocated to other quota farms in the State under paragraph (6) as part of the quota reduced from farms in the State due to the failure to produce the quota.

“(3) QUOTA NOT PRODUCED.—

“(A) IN GENERAL.—Insofar as practicable and on such fair and equitable basis as the Secretary may by regulation prescribe, the farm poundage quota established for a farm for any of the 1996 through 2002 marketing years shall be reduced to the extent that the Secretary determines that the farm poundage quota established for the farm for any 2 of the 3 marketing years preceding the marketing year for which the determination is being made was not produced, or considered produced, on the farm.

“(B) EXCLUSIONS.—For the purposes of this paragraph, the farm poundage quota for any such preceding marketing year shall not include any increase resulting from the allocation of quotas voluntarily released for 1 year under paragraph (7).

“(4) QUOTA CONSIDERED PRODUCED.—

“(A) IN GENERAL.—For purposes of this subsection, subject to subparagraph (B), the

farm poundage quota shall be considered produced on a farm if—

“(i) the farm poundage quota was not produced on the farm because of drought, flood, or any other natural disaster, or any other condition beyond the control of the producer, as determined by the Secretary;

“(ii) the farm poundage quota for the farm was released voluntarily under paragraph (7) for only 1 of the 3 marketing years immediately preceding the marketing year for which the determination is being made; or

“(iii) the farm poundage quota was leased to another owner or operator of a farm within the same county for transfer to the farm for only 1 of the 3 marketing years immediately preceding the marketing year for which the determination is being made.

“(B) MARKETING YEARS.—For purposes of clauses (ii) and (iii) of subparagraph (A)—

“(i) the farm poundage quota leased or transferred shall be considered produced for only 1 of the 3 marketing years immediately preceding the marketing year for which the determination is being made; and

“(ii) the farm shall not be considered to have produced for more than 1 marketing year out of the 3 immediately preceding marketing years.

“(5) QUOTA PERMANENTLY RELEASED.—Notwithstanding any other provision of law—

“(A) the farm poundage quota established for a farm under this subsection, or any part of the quota, may be permanently released by the owner of the farm, or the operator with the permission of the owner; and

“(B) the poundage quota for the farm for which the quota is released shall be adjusted downward to reflect the quota that is released.

“(6) ALLOCATION OF QUOTAS REDUCED OR RELEASED.—

“(A) IN GENERAL.—Except as provided in subparagraph (B), the total quantity of the farm poundage quotas reduced or voluntarily released from farms in a State for any marketing year under paragraphs (3) and (5) shall be allocated, as the Secretary may by regulation prescribe, to other farms in the State on which peanuts were produced in at least 2 of the 3 crop years immediately preceding the year for which the allocation is being made.

“(B) SET-ASIDE FOR FARMS WITH NO QUOTA.—The total amount of farm poundage quota to be allocated in the State under subparagraph (A) shall be allocated to farms in the State for which no farm poundage quota was established for the crop of the immediately preceding year. The allocation to any such farm shall not exceed the average farm production of peanuts for the 3 immediately preceding years during which peanuts were produced on the farm. Any farm poundage quota remaining after allocation to farms under this subparagraph shall be allocated to farms in the State on which poundage quotas were established for the crop of the immediately preceding year.

“(7) QUOTA TEMPORARILY RELEASED.—

“(A) IN GENERAL.—The farm poundage quota, or any portion of the quota, established for a farm for a marketing year may be voluntarily released to the Secretary to the extent that the quota, or any part of the quota, will not be produced on the farm for the marketing year. Any farm poundage quota so released in a State shall be allocated to other farms in the State on such basis as the Secretary may by regulation prescribe.

“(B) EFFECTIVE PERIOD.—Except as otherwise provided in this section, any adjustment in the farm poundage quota for a farm under subparagraph (A) shall be effective only for the marketing year for which the adjustment is made and shall not be taken into consideration in establishing a farm

poundage quota for the farm from which the quota was released for any subsequent marketing year.

“(C) FARM YIELDS.—

“(1) IN GENERAL.—For each farm for which a farm poundage quota is established under subsection (b), and when necessary for purposes of this Act, a farm yield of peanuts shall be determined for each such farm.

“(2) QUANTITY.—The yield shall be equal to the average of the actual yield per acre on the farm for each of the 3 crop years in which yields were highest on the farm during the 5-year period consisting of the 1973 through 1977 crop years.

“(3) APPRAISED YIELDS.—If peanuts were not produced on the farm in at least 3 years during the 5-year period or there was a substantial change in the operation of the farm during the period (including a change in operator, lessee who is an operator, or irrigation practices), the Secretary shall have a yield appraised for the farm. The appraised yield shall be that quantity determined to be fair and reasonable on the basis of yields established for similar farms that are located in the area of the farm and on which peanuts were produced, taking into consideration land, labor, and equipment available for the production of peanuts, crop rotation practices, soil and water, and other relevant factors.

“(d) REFERENDUM RESPECTING POUNDAGE QUOTAS.—

“(1) IN GENERAL.—Not later than December 15 of each calendar year, the Secretary shall conduct a referendum of producers engaged in the production of quota peanuts in the calendar year in which the referendum is held to determine whether the producers are in favor of or opposed to poundage quotas with respect to the crops of peanuts produced in the 5 calendar years immediately following the year in which the referendum is held, except that, if at least ⅔ of the producers voting in any referendum vote in favor of poundage quotas, no referendum shall be held with respect to quotas for the remaining years of the 5-calendar year period.

“(2) PROCLAMATION.—The Secretary shall proclaim the result of the referendum within 30 days after the date on which the referendum is held.

“(3) VOTE AGAINST QUOTAS.—If more than ⅓ of the producers voting in the referendum vote against poundage quotas, the Secretary shall proclaim that poundage quotas will not be in effect with respect to the crop of peanuts produced in the calendar year immediately following the calendar year in which the referendum is held.

“(e) DEFINITIONS.—In this part and title I of the Agricultural Act of 1949 (7 U.S.C. 1441 et seq.):

“(1) ADDITIONAL PEANUTS.—The term ‘additional peanuts’ means, for any marketing year—

“(A) any peanuts that are marketed from a farm for which a farm poundage quota has been established and that are in excess of the marketings of quota peanuts from the farm for the year; and

“(B) all peanuts marketed from a farm for which no farm poundage quota has been established in accordance with subsection (b).

“(2) CRUSH.—The term ‘crush’ means the processing of peanuts to extract oil for food uses and meal for feed uses, or the processing of peanuts by crushing or otherwise when authorized by the Secretary.

“(3) DOMESTIC EDIBLE USE.—The term ‘domestic edible use’ means use for milling to produce domestic food peanuts (other than a use described in paragraph (2)) and seed and use on a farm, except that the Secretary may exempt from this paragraph seeds of peanuts that are used to produce peanuts ex-

cluded under section 358d(c), are unique strains, and are not commercially available.

“(4) QUOTA PEANUTS.—The term ‘quota peanuts’ means, for any marketing year, any peanuts produced on a farm having a farm poundage quota, as determined under subsection (b), that—

“(A) are eligible for domestic edible use as determined by the Secretary;

“(B) are marketed or considered marketed from a farm; and

“(C) do not exceed the farm poundage quota of the farm for the year.

“(f) CROPS.—Notwithstanding any other provision of law, this section shall be effective only for the 1996 through 2002 crops of peanuts.”.

SEC. 603. SALE, LEASE, OR TRANSFER OF FARM POUNDAGE QUOTA.

Section 358b of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1358b) is amended to read as follows:

“SEC. 358b. SALE, LEASE, OR TRANSFER OF FARM POUNDAGE QUOTA FOR 1996 THROUGH 2000 CROPS OF PEANUTS.

“(a) IN GENERAL.—

“(1) AUTHORITY.—

“(A) IN GENERAL.—Subject to such terms, conditions, or limitations as the Secretary may prescribe, the owner, or operator with the permission of the owner, of any farm for which a farm poundage quota has been established under this Act may sell or lease all or any part of the poundage quota to any other owner or operator of a farm within the same county for transfer to the farm, except that any such lease of poundage quota may be entered into in the fall or after the normal planting season—

“(i) if not less than 90 percent of the basic quota (consisting of the farm quota and temporary quota transfers), plus any poundage quota transferred to the farm under this subsection, has been planted or considered planted on the farm from which the quota is to be leased; and

“(ii) under such terms and conditions as the Secretary may by regulation prescribe.

“(B) FALL TRANSFERS.—

“(i) NO TRANSFER AUTHORIZATION.—In the case of a fall transfer or a transfer after the normal planting season by a cash lessee, the landowner shall not be required to sign the transfer authorization.

“(ii) TIME LIMITATION.—A fall transfer or a transfer after the normal planting season may be made not later than 72 hours after the peanuts that are the subject of the transfer are inspected and graded.

“(iii) LESSEES.—In the case of a fall transfer, poundage quota from a farm may be leased to an owner or operator of another farm within the same county or to an owner or operator of another farm in any other county within the State.

“(iv) EFFECT OF TRANSFER.—A fall transfer of poundage quota shall not affect the farm quota history for the transferring or receiving farm and shall not result in the reduction of the farm poundage quota on the transferring farm.

“(2) TRANSFERS TO OTHER SELF-OWNED FARMS.—The owner or operator of a farm may transfer all or any part of the farm poundage quota for the farm to any other farm owned or controlled by the owner or operator that is in the same State and that had a farm poundage quota for the crop of the preceding year, if both the transferring and receiving farms were under the control of the owner or operator for at least 3 crop years prior to the crop year in which the farm poundage quota is to be transferred. Any farm poundage quota transferred under this paragraph shall not result in any reduction in the farm poundage quota for the transferring farm if sufficient acreage is planted on

the receiving farm to produce the quota pounds transferred.

“(3) TRANSFERS IN STATES WITH SMALL QUOTAS.—In the case of any State for which the poundage quota allocated to the State was less than 10,000 tons for the crop of the preceding year, all or any part of a farm poundage quota may be transferred by sale or lease or otherwise from a farm in 1 county to a farm in another county in the same State.

“(4) TRANSFERS BY SALE IN STATES HAVING QUOTAS OF 10,000 TONS OR MORE.—

“(A) IN GENERAL.—Subject to the other provisions of this paragraph and such terms and conditions as the Secretary may prescribe, the owner, or operator with the permission of the owner, of any farm for which a farm quota has been established under this Act in a State having a poundage quota of 10,000 tons or more may sell poundage quota to any other eligible owner or operator of a farm within the same State.

“(B) LIMITATIONS BASED ON TOTAL POUNDAGE QUOTA.—

“(i) 1996 MARKETING YEAR.—Not more than 15 percent of the total poundage quota within a county as of January 1, 1996, may be sold and transferred under this paragraph during the 1996 marketing year.

“(ii) 1997-2002 MARKETING YEARS.—

“(I) IN GENERAL.—Except as provided in subclause (II), not more than 5 percent of the quota pounds remaining in a county as of January 1, 1997, and each January 1 thereafter through January 1, 2002, may be sold and transferred under this paragraph during the applicable marketing year.

“(II) CARRYOVER.—Any eligible quota that is not sold or transferred under clause (i) shall be eligible for sale or transfer under subclause (I).

“(C) COUNTY LIMITATION.—Not more than 40 percent of the total poundage quota within a county may be sold and transferred under this paragraph.

“(D) SUBSEQUENT LEASES OR SALES.—Quota pounds sold and transferred to a farm under this paragraph may not be leased or sold by the farm to another owner or operator of a farm within the same State for a period of 5 years following the date of the original transfer to the farm.

“(E) APPLICATION.—This paragraph shall not apply to a sale within the same county or to any sale, lease, or transfer described in paragraph (1).

“(b) CONDITIONS.—Transfers (including transfer by sale or lease) of farm poundage quotas under this section shall be subject to all of the following conditions:

“(1) LIENHOLDERS.—No transfer of the farm poundage quota from a farm subject to a mortgage or other lien shall be permitted unless the transfer is agreed to by the lienholders.

“(2) TILLABLE CROPLAND.—No transfer of the farm poundage quota shall be permitted if the county committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) determines that the receiving farm does not have adequate tillable cropland to produce the farm poundage quota.

“(3) RECORD.—No transfer of the farm poundage quota shall be effective until a record of the transfer is filed with the county committee of each county to, and from, which the transfer is made and each committee determines that the transfer complies with this section.

“(4) OTHER TERMS.—The Secretary may establish by regulation other terms and conditions.

“(c) CROPS.—Notwithstanding any other provision of law, this section shall be effective only for the 1996 through 2000 crops of peanuts.”.

SEC. 604. MARKETING PENALTIES; DISPOSITION OF ADDITIONAL PEANUTS.

Section 358e of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359a) is amended to read as follows:

“SEC. 358e. MARKETING PENALTIES AND DISPOSITION OF ADDITIONAL PEANUTS FOR 1996 THROUGH 2002 CROPS OF PEANUTS.

“(a) MARKETING PENALTIES.—

“(1) IN GENERAL.—

“(A) MARKETING PEANUTS IN EXCESS OF QUOTA.—The marketing of any peanuts for domestic edible use in excess of the farm poundage quota for the farm on which the peanuts are produced shall be subject to a penalty at a rate equal to 140 percent of the support price for quota peanuts for the marketing year in which the marketing occurs. The penalty shall not apply to the marketing of breeder or Foundation seed peanuts grown and marketed by a publicly owned agricultural experiment station (including a State operated seed organization) under such regulations as the Secretary may prescribe.

“(B) MARKETING YEAR.—For purposes of this section, the marketing year for peanuts shall be the 12-month period beginning August 1 and ending July 31.

“(C) MARKETING ADDITIONAL PEANUTS.—The marketing of any additional peanuts from a farm shall be subject to the same penalty as the penalty prescribed in subparagraph (A) unless the peanuts, in accordance with regulations established by the Secretary, are—

“(i) placed under loan at the additional loan rate in effect for the peanuts under section 108B of the Agricultural Act of 1949 (7 U.S.C. 1445c-3) and not redeemed by the producers;

“(ii) marketed through an area marketing association designated pursuant to section 108B(c)(1) of the Agricultural Act of 1949; or

“(iii) marketed under contracts between handlers and producers pursuant to subsection (f).

“(2) PAYER.—The penalty shall be paid by the person who buys or otherwise acquires the peanuts from the producer or, if the peanuts are marketed by the producer through an agent, the penalty shall be paid by the agent. The person or agent may deduct an amount equivalent to the penalty from the price paid to the producer.

“(3) FAILURE TO COLLECT.—If the person required to collect the penalty fails to collect the penalty, the person and all persons entitled to share in the peanuts marketed from the farm or the proceeds of the marketing shall be jointly and severally liable with the persons who failed to collect the penalty for the amount of the penalty.

“(4) APPLICATION OF QUOTA.—Peanuts produced in a calendar year in which farm poundage quotas are in effect for the marketing year beginning in the calendar year shall be subject to the quotas even though the peanuts are marketed prior to the date on which the marketing year begins.

“(5) FALSE INFORMATION.—If any producer falsely identifies, fails to accurately certify planted acres, or fails to account for the disposition of any peanuts produced on the planted acres, a quantity of peanuts equal to the greater of the average or actual yield of the farm, as determined by the Secretary, multiplied by the number of planted acres, shall be deemed to have been marketed in violation of permissible uses of quota and additional peanuts. Any penalty payable under this paragraph shall be paid and remitted by the producer.

“(6) UNINTENTIONAL VIOLATIONS.—The Secretary shall authorize, under such regulations as the Secretary shall issue, the county committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) to waive or re-

duce marketing penalties provided for under this subsection in cases with respect to which the committees determine that the violations that were the basis of the penalties were unintentional or without knowledge on the part of the parties concerned.

“(7) DE MINIMIS VIOLATIONS.—An error in weight that does not exceed 1/10 of 1 percent in the case of any 1 marketing document shall not be considered to be a marketing violation except in a case of fraud or conspiracy.

“(b) USE OF QUOTA AND ADDITIONAL PEANUTS.—

“(1) QUOTA PEANUTS.—Only quota peanuts may be retained for use as seed or for other uses on a farm. When peanuts are so retained, the retention shall be considered as marketings of quota peanuts, except that the Secretary may exempt from consideration as marketings of quota peanuts seeds of peanuts for the quantity involved that are used to produce peanuts excluded under section 358d(c), are unique strains, and are not commercially available.

“(2) ADDITIONAL PEANUTS.—Additional peanuts shall not be retained for use on a farm and shall not be marketed for domestic edible use, except as provided in subsection (g).

“(3) SEED.—Except as provided in paragraph (1), seed for planting of any peanut acreage in the United States shall be obtained solely from quota peanuts marketed or considered marketed for domestic edible use.

“(c) MARKETING PEANUTS WITH EXCESS QUANTITY, GRADE, OR QUALITY.—On a finding by the Secretary that the peanuts marketed from any crop for domestic edible use by a handler are larger in quantity or higher in grade or quality than the peanuts that could reasonably be produced from the quantity of peanuts having the grade, kernel content, and quality of the quota peanuts acquired by the handler from the crop for the marketing year, the handler shall be subject to a penalty equal to 140 percent of the loan level for quota peanuts on the quantity of peanuts that the Secretary determines are in excess of the quantity, grade, or quality of the peanuts that could reasonably have been produced from the peanuts so acquired.

“(d) HANDLING AND DISPOSAL OF ADDITIONAL PEANUTS.—

“(1) IN GENERAL.—Except as provided in paragraph (2), the Secretary shall require that the handling and disposal of additional peanuts be supervised by agents of the Secretary or by area marketing associations designated pursuant to section 108B(c)(1) of the Agricultural Act of 1949 (7 U.S.C. 1445c-3(c)(1)).

“(2) NONSUPERVISION OF HANDLERS.—

“(A) IN GENERAL.—Supervision of the handling and disposal of additional peanuts by a handler shall not be required under paragraph (1) if the handler agrees in writing, prior to any handling or disposal of the peanuts, to comply with regulations that the Secretary shall issue.

“(B) REGULATIONS.—The regulations issued by the Secretary under subparagraph (A) shall include the following provisions:

“(i) TYPES OF EXPORTED OR CRUSHED PEANUTS.—Handlers of shelled or milled peanuts may export or crush peanuts classified by type in each of the following quantities:

“(I) SOUND SPLIT KERNEL PEANUTS.—Sound split kernel peanuts purchased by the handler as additional peanuts to which, under price support loan schedules, a mandated deduction with respect to the price paid to the producer of the peanuts would be applied due to the percentage of the sound splits.

“(II) SOUND MATURE KERNEL PEANUTS.—Sound mature kernel peanuts (which term includes sound split kernel peanuts and sound whole kernel peanuts) in an amount

equal to the poundage of the peanuts purchased by the handler as additional peanuts, less the total poundage of sound split kernel peanuts described in subclause (I).

“(III) REMAINDER.—The remaining quantity of total kernel content of peanuts purchased by the handler as additional peanuts.

“(ii) DOCUMENTATION.—Handlers shall ensure that any additional peanuts exported or crushed are evidenced by onboard bills of lading or other appropriate documentation as may be required by the Secretary, or both.

“(iii) LOSS OF PEANUTS.—If a handler suffers a loss of peanuts as a result of fire, flood, or any other condition beyond the control of the handler, the portion of the loss allocated to contracted additional peanuts shall not be greater than the portion of the total peanut purchases of the handler for the year attributable to contracted additional peanuts purchased for export or crushing by the handler during the year.

“(iv) SHRINKAGE ALLOWANCE.—

“(I) IN GENERAL.—The obligation of a handler to export or crush peanuts in quantities described in this subparagraph shall be reduced by a shrinkage allowance, to be determined by the Secretary, to reflect actual dollar value shrinkage experienced by handlers in commercial operations, except that the allowance shall not be less than 4 percent, except as provided in subclause (II).

“(II) COMMON INDUSTRY PRACTICES.—The Secretary may provide a lower shrinkage allowance for a handler who fails to comply with restrictions on the use of peanuts, as may be specified by the Commodity Credit Corporation, to take into account common industry practices.

“(3) ADEQUATE FINANCES AND FACILITIES.—A handler shall submit to the Secretary adequate financial guarantees, as well as evidence of adequate facilities and assets, with respect to the facilities under the control and operation of the handler, to ensure the compliance of the handler with the obligation to export peanuts.

“(4) COMMINGLING OF LIKE PEANUTS.—Quota and additional peanuts of like type and segregation or quality may, under regulations issued by the Secretary, be commingled and exchanged on a dollar value basis to facilitate warehousing, handling, and marketing.

“(5) PENALTY.—

“(A) IN GENERAL.—Except as provided in subparagraph (B), the failure by a handler to comply with regulations issued by the Secretary governing the disposition and handling of additional peanuts shall subject the handler to a penalty at a rate equal to 140 percent of the loan level for quota peanuts on the quantity of peanuts involved in the violation.

“(B) NONDELIVERY.—A handler shall not be subject to a penalty for failure to export additional peanuts if the peanuts were not delivered to the handler.

“(6) REENTRY OF EXPORTED PEANUTS.—

“(A) PENALTY.—If any additional peanuts or peanut products exported by a handler are reentered into the United States in commercial quantities as determined by the Secretary, the importer of the peanuts and peanut products shall be subject to a penalty at a rate equal to 140 percent of the loan level for quota peanuts on the quantity of peanuts reentered.

“(B) RECORDS.—Each person, firm, or handler who imports peanuts into the United States shall maintain such records and documents as are required by the Secretary to ensure compliance with this subsection.

“(e) SPECIAL EXPORT CREDITS.—

“(1) IN GENERAL.—The Secretary shall, with due regard for the integrity of the peanut program, promulgate regulations that will permit any handler of peanuts who man-

ufactures peanut products from domestic edible peanuts to export the products and receive credit for the fulfillment of export obligations for the peanut content of the products against which export credit the handler may subsequently apply, up to the amount of the credit, equivalent quantities of additional peanuts of the same type acquired by the handler and used in the domestic edible market. The peanuts so acquired for the domestic edible market as provided in this subsection shall be of the same crop year as the peanuts used in the manufacture of the products so exported.

“(2) CERTIFICATION.—Under the regulations, the Secretary shall require all handlers who are peanut product manufacturers to submit annual certifications of peanut product content on a product-by-product basis. Any changes in peanut product formulas as affecting peanut content shall be recorded within 90 days after the changes. The Secretary shall conduct an annual review of the certifications. The Secretary shall pursue all available remedies with respect to persons who fail to comply with this paragraph.

“(3) RECORDS.—The Secretary shall require handlers who are peanut product manufacturers to maintain and provide such documents as are necessary to ensure compliance with this subsection and to maintain the integrity of the peanut program.

“(f) CONTRACTS FOR PURCHASE OF ADDITIONAL PEANUTS.—

“(1) IN GENERAL.—A handler may, under such regulations as the Secretary may issue, contract with a producer for the purchase of additional peanuts for crushing or export, or both.

“(2) SUBMISSION TO SECRETARY.—

“(A) CONTRACT DEADLINE.—Any such contract shall be completed and submitted to the Secretary (or if designated by the Secretary, the area marketing association) for approval not later than September 15 of the year in which the crop is produced.

“(B) EXTENSION OF DEADLINE.—The Secretary may extend the deadline under subparagraph (A) by up to 15 days in response to damaging weather or related condition (as defined in section 112 of the Disaster Assistance Act of 1989 (Public Law 101-82; 7 U.S.C. 1421 note)). The Secretary shall announce the extension not later than September 5 of the year in which the crop is produced.

“(3) FORM.—The contract shall be executed on a form prescribed by the Secretary. The form shall require such information as the Secretary determines appropriate to ensure the proper handling of the additional peanuts, including the identity of the contracting parties, poundage and category of the peanuts, the disclosure of any liens, and the intended disposition of the peanuts.

“(4) INFORMATION FOR HANDLING AND PROCESSING ADDITIONAL PEANUTS.—Notwithstanding any other provision of this section, any person wishing to handle and process additional peanuts as a handler shall submit to the Secretary (or if designated by the Secretary, the area marketing association), such information as may be required under subsection (d) by such date as is prescribed by the Secretary so as to permit final action to be taken on the application by July 1 of each marketing year.

Additional peanuts received under loan shall be offered for sale for domestic edible use at prices that are not less than the prices that are required to cover all costs incurred with respect to the peanuts for such items as inspection, warehousing, shrinkage, and other expenses, plus—

“(A) not less than 100 percent of the loan value of quota peanuts if the additional peanuts are sold and paid for during the harvest season on delivery by and with the written consent of the producer;

“(B) not less than 105 percent of the loan value of quota peanuts if the additional peanuts are sold after delivery by the producer but not later than December 31 of the marketing year; or

“(2) ACCEPTANCE OF BIDS BY AREA MARKETING ASSOCIATIONS.—

“(A) IN GENERAL.—Except as provided in subparagraph (B), for the period from the date additional peanuts are delivered for loan to March 1 of the calendar year following the year in which the additional peanuts were harvested, the area marketing association designated pursuant to section 108B(c)(1) of the Agricultural Act of 1949 (7 U.S.C. 1445c-3(c)(1)) shall have sole authority to accept or reject lot list bids when the sales price, as determined under this subsection, equals or exceeds the minimum price at which the Commodity Credit Corporation may sell the stocks of additional peanuts of the Corporation.

“(B) MODIFICATION.—The area marketing association and the Commodity Credit Corporation may agree to modify the authority granted by subparagraph (A) to facilitate the orderly marketing of additional peanuts.

“(3) PRODUCER MARKETING AND EXPENSES.—Notwithstanding any other provision of this Act, the Secretary shall, in any determination required under subsections (a)(2) and (b)(1) of section 108B of the Agricultural Act of 1949 (7 U.S.C. 1445c-3), include any additional marketing expenses required by law, excluding the amount of any assessment required under section 108B(g) of the Agricultural Act of 1949 (7 U.S.C. 1445c-3(g)).

“(h) ADMINISTRATION.—

“(1) INTEREST.—The person liable for payment or collection of any penalty provided for in this section shall be liable also for interest on the penalty at a rate per annum equal to the rate per annum of interest that was charged the Commodity Credit Corporation by the Treasury of the United States on the date the penalty became due.

“(2) DE MINIMIS QUANTITY.—This section shall not apply to peanuts produced on any farm on which the acreage harvested for peanuts is 1 acre or less if the producers who share in the peanuts produced on the farm do not share in the peanuts produced on any other farm.

“(3) LIENS.—Until the amount of the penalty provided by this section is paid, a lien on the crop of peanuts with respect to which the penalty is incurred, and on any subsequent crop of peanuts subject to farm poundage quotas in which the person liable for payment of the penalty has an interest, shall be in effect in favor of the United States.

“(4) PENALTIES.—

“(A) PROCEDURES.—Notwithstanding any other provision of law, the liability for and the amount of any penalty assessed under this section shall be determined in accordance with such procedures as the Secretary may by regulation prescribe. The facts constituting the basis for determining the liability for or amount of any penalty assessed under this section, when officially determined in conformity with the applicable regulations prescribed by the Secretary, shall be final and conclusive and shall not be reviewable by any other officer or agency of the Federal Government.

“(B) JUDICIAL REVIEW.—Nothing in this section prohibits any court of competent jurisdiction from reviewing any determination made by the Secretary with respect to whether the determination was made in conformity with applicable law.

“(C) CIVIL PENALTIES.—All penalties imposed under this section shall for all purposes be considered civil penalties.

“(5) REDUCTION OF PENALTIES.—

“(A) IN GENERAL.—Except as provided in subparagraph (B) and notwithstanding any other provision of law, the Secretary may reduce the amount of any penalty assessed against handlers under this section by any appropriate amount, including, in an appropriate case, eliminating the penalty entirely, if the Secretary finds that the violation on which the penalty is based was minor or inadvertent, and that the reduction of the penalty will not impair the operation of the peanut program.

“(B) FAILURE TO EXPORT CONTRACTED ADDITIONAL PEANUTS.—The amount of any penalty imposed on a handler under this section that resulted from the failure to export or crush contracted additional peanuts shall not be reduced by the Secretary.

“(i) CROPS.—Notwithstanding any other provision of law, this section shall be effective only for the 1996 through 2002 crops of peanuts.”.

“(2) SUPPORT RATES.—

“(A) IN GENERAL.—Subject to subparagraph (B), the national average quota support rate for each of the 1996 through 2002 crops of quota peanuts shall be the national average quota support rate for the immediately preceding crop, adjusted to reflect any increase or decrease, during the calendar year immediately preceding the marketing year for the crop for which a level of support is being determined, in the national average cost of peanut production, excluding any change in the cost of land and the cost of any assessments required under subsection (g).

“(B) MAXIMUM RATE.—In no event shall the national average quota support rate for any such crop be increased or decreased by more than 5 percent of the national average quota support rate for the preceding crop.

“(3) INSPECTION, HANDLING, OR STORAGE.—The level of support determined under paragraph (2) shall not be reduced by any deduction for inspection, handling, or storage.

“(4) LOCATION AND OTHER FACTORS.—The Secretary may make adjustments for location of peanuts and such other factors as are authorized by section 403.

“(5) ANNOUNCEMENT.—The Secretary shall announce the level of support for quota peanuts of each crop not later than the February 15 preceding the marketing year for the crop for which the level of support is being determined.

“(b) ADDITIONAL PEANUTS.—

“(1) IN GENERAL.—The Secretary shall make price support available to producers through loans, purchases, or other operations on additional peanuts for each of the 1996 through 2002 crops at such levels as the Secretary considers appropriate, taking into consideration the demand for peanut oil and peanut meal, expected prices of other vegetable oils and protein meals, and the demand for peanuts in foreign markets, except that the Secretary shall set the support rate on additional peanuts at a level estimated by the Secretary to ensure that there are no losses to the Commodity Credit Corporation on the sale or disposal of the peanuts.

“(2) ANNOUNCEMENT.—The Secretary shall announce the level of support for additional peanuts of each crop not later than the February 15 preceding the marketing year for the crop for which the level of support is being determined.

“(c) AREA MARKETING ASSOCIATIONS.—

“(1) WAREHOUSE STORAGE LOANS.—

“(A) IN GENERAL.—In carrying out subsections (a) and (b), the Secretary shall make warehouse storage loans available in

each of the 3 producing areas described in section 1446.95 of title 7, Code of Federal Regulations (as of January 1, 1989), to a designated area marketing association of peanut producers that is selected and approved by the Secretary and that is operated primarily for the purpose of conducting the loan activities. The Secretary may not make warehouse storage loans available to any cooperative that is engaged in operations or activities concerning peanuts other than those operations and activities specified in this section and sections 358d and 358e of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359 and 1359a).

“(C) ASSOCIATION COSTS.—Loans made to an area marketing association under this paragraph shall include, in addition to the price support value of the peanuts, such costs as the association reasonably may incur in carrying out the responsibilities, operations, and activities of the association under this section and sections 358d and 358e of the Agricultural Adjustment Act of 1938.

“(2) POOLS FOR QUOTA AND ADDITIONAL PEANUTS.—

“(A) IN GENERAL.—The Secretary shall require that each area marketing association establish pools and maintain complete and accurate records by area and segregation for quota peanuts handled under loan and for additional peanuts placed under loan, except that separate pools shall be established for Valencia peanuts produced in New Mexico. Peanuts produced outside New Mexico shall not be eligible for entry into or participation in the separate pools established for Valencia peanuts produced in New Mexico. Bright hull and dark hull Valencia peanuts shall be considered as separate types for the purpose of establishing the pools.

“(B) NET GAINS.—Net gains on peanuts in each pool, unless otherwise approved by the Secretary, shall be distributed only to producers who placed peanuts in the pool and shall be distributed in proportion to the value of the peanuts placed in the pool by each producer. Net gains for peanuts in each pool shall consist of the following:

“(i) QUOTA PEANUTS.—For quota peanuts, the net gains over and above the loan indebtedness and other costs or losses incurred on peanuts placed in the pool plus an amount from all additional pool gains equal to any loss on disposition of all peanuts in the pool for quota peanuts.

“(ii) ADDITIONAL PEANUTS.—For additional peanuts, the net gains over and above the loan indebtedness and other costs or losses incurred on peanuts placed in the pool for additional peanuts less any amount allocated to offset any loss on the pool for quota peanuts as provided in clause (i).

“(d) LOSSES.—Notwithstanding any other provision of this section:

“(1) QUOTA PEANUTS PLACED UNDER LOAN.—Any distribution of net gains on additional peanuts (other than net gains on additional peanuts in separate type pools established under subsection (c)(2)(A) for Valencia peanuts produced in New Mexico) shall be first reduced to the extent of any loss by the Commodity Credit Corporation on quota peanuts placed under loan.

“(2) QUOTA LOAN POOLS.—

“(A) TRANSFERS FROM ADDITIONAL LOAN POOLS.—The proceeds due any producer from any pool shall be reduced by the amount of any loss that is incurred with respect to peanuts transferred from an additional loan pool to a quota loan pool by the producer under

section 358-1(b)(8) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1358-1(b)(8)).

“(B) OTHER LOSSES.—Losses in area quota pools shall be offset by reducing the gain of any producer in the pool by the amount of pool gains attributed to the producer from the sale of additional peanuts for domestic and export edible use.

“(E) DISAPPROVAL OF QUOTAS.—Notwithstanding any other provision of law, no price support may be made available by the Secretary for any crop of peanuts with respect to which poundage quotas have been disapproved by producers, as provided for in section 358-1(d) of the Agricultural Adjustment Act of 1938.

“(F) QUALITY IMPROVEMENT.—

“(1) PRICE SUPPORT PEANUTS.—With respect to peanuts under price support loan, the Secretary shall—

“(A) promote the crushing of peanuts at a greater risk of deterioration before peanuts at a lesser risk of deterioration;

“(B) ensure that all Commodity Credit Corporation loan stocks of peanuts sold for domestic edible use are shown to have been officially inspected by licensed Department of Agriculture inspectors both as farmer stock and shelled or cleaned in-shell peanuts;

“(C) continue to endeavor to operate the peanut price support program so as to improve the quality of domestic peanuts and ensure the coordination of activities under the Peanut Administrative Committee established under Marketing Agreement No. 146, regulating the quality of domestically produced peanuts (under the Agricultural Adjustment Act (7 U.S.C. 601 et seq.), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937); and

“(D) ensure that any changes made in the price support program as a result of this subsection requiring additional production or handling at the farm level are reflected as an upward adjustment in the Department of Agriculture loan schedule.

“(2) EXPORTS AND OTHER PEANUTS.—The Secretary shall require that all peanuts, including peanuts imported into the United States, meet all United States quality standards under Marketing Agreement No. 146 and that importers of the peanuts fully comply with inspection, handling, storage, and processing requirements implemented under Marketing Agreement No. 146. The Secretary shall ensure that peanuts produced for the export market meet quality, inspection, handling, storage, and processing requirements under Marketing Agreement No. 146.

“(G) MARKETING ASSESSMENT.—

“(1) IN GENERAL.—The Secretary shall provide, by regulation, for a nonrefundable marketing assessment applicable to each of the 1996 through 2002 crops of peanuts. The assessment shall be made in accordance with this subsection and shall be on a per pound basis in an amount equal to 1.2 percent of the national average quota or additional peanut support rate per pound, as applicable, for the applicable crop. No peanuts shall be assessed more than 1.2 percent of the applicable support rate under this subsection.

“(2) FIRST PURCHASERS.—

“(ii) pay, in addition to the amount collected under clause (i), a marketing assessment in an amount equal to the quantity of peanuts acquired multiplied by .55 percent of the applicable national average support rate; and

“(iii) remit the amounts required under clauses (i) and (ii) to the Commodity Credit Corporation in a manner specified by the Secretary.

“(B) DEFINITION.—In this subsection, the term ‘first purchaser’ means a person acquiring peanuts from a producer, except that in the case of peanuts forfeited by a producer to the Commodity Credit Corporation, the term means the person acquiring the peanuts from the Commodity Credit Corporation.

“(3) OTHER PRIVATE MARKETINGS.—In the case of a private marketing by a producer directly to a consumer through a retail or wholesale outlet or in the case of a marketing by the producer outside of the continental United States, the producer shall be responsible for the full amount of the assessment and shall remit the assessment by such time as is specified by the Secretary.

“(4) LOAN PEANUTS.—In the case of peanuts that are pledged as collateral for a price support loan made under this section, ½ of the assessment shall be deducted from the proceeds of the loan. The remainder of the assessment shall be paid by the first purchaser of the peanuts. For the purposes of computing net gains on peanuts under this section, the reduction in loan proceeds shall be treated as having been paid to the producer.

“(5) PENALTIES.—If any person fails to collect or remit the reduction required by this subsection or fails to comply with such requirements for recordkeeping or otherwise as are required by the Secretary to carry out this subsection, the person shall be liable to the Secretary for a civil penalty up to an amount determined by multiplying—

“(A) the quantity of peanuts involved in the violation; by

“(B) the national average quota peanut price support level for the applicable crop year.

“(6) ENFORCEMENT.—The Secretary may enforce this subsection in the courts of the United States.

“(H) CROPS.—Notwithstanding any other provision of law, this section shall be effective only for the 1996 through 2002 crops of peanuts.”

“(i) the overall base quantity for the fiscal year; by

“(ii) the percentage referred to in subsection (c)(2).

“(3) REFINED CANE SUGAR.—The base for refined cane sugar shall be a quantity equal to the product obtained by multiplying—

“(A) the overall base quantity for the fiscal year; by

“(B) the percentage referred to in subsection (c) (2).

“(e) STATE SUGARCANE BASE.—The base for sugar derived from sugarcane shall be further distributed, among the 5 States in the United States in which sugarcane is produced, in a fair and equitable manner on the basis of past marketings of sugar (considering the average marketings of sugar processed from sugarcane in the 2 highest years of production from each State from the 1990 through 1994 crops), processing capacity, and the ability of processors to market the sugar covered under the bases.

“(f) ADJUSTMENT OF MARKETING ASSESSMENT BASES.—

“(1) IN GENERAL.—The Secretary shall adjust marketing assessment bases established under subsections (a) through (d) in accordance with this subsection.

“(2) ADJUSTMENT BASED ON PRICE.—If the weighted average bulk, FOB factory or refinery net price (including the price of representative consumer and industrial products, adjusted to a bulk basis) reported by all sellers of refined sugar for any week is—

“(A) more than 111 percent of the average bulk, FOB factory price for refined beet sugar during fiscal years 1990 through 1994 (as reported in Appendix Table 11 of Agricultural Economic Report No. 711 of the Economic Research Service), the Secretary may increase the marketing assessment bases of cane sugar refiners and sugar beet processors established under subsections (a) through (d); or

“(B) less than 104 percent of the price referred to in subparagraph (A), the Secretary shall decrease—

“(i) the marketing assessment bases of cane sugar refiners and sugar beet processors established under subsections (a) through (d); and

“(ii) the marketing assessment bases of cane sugar processors established under this section;

to the extent necessary to maintain the minimum access level for imports of sugar set forth in Additional Note 5 to Chapter 17 of the Harmonized Tariff Schedule of the United States.

“(3) DISTRIBUTION TO PROCESSORS.—In the case of any increase or decrease in assessment bases, the share of each processor of an assessment base under section 359d, and each proportionate share established under section 359f(b), shall be increased or decreased by the same percentage that the assessment base is increased or decreased.

“(4) REDUCTIONS.—If an assessment base for a fiscal year is required to be reduced during the fiscal year under this subsection and the quantity of sugar marketed, including sugar pledged as collateral for a price support loan under section 206 of the Agricultural Act of 1949 (7 U.S.C. 1446g) and acquired by the Commodity Credit Corporation, for the fiscal year at the time of the reduction by any individual processor covered by the assessment base exceeds the reduced assessment base of the processor, the assessment base next established for the processor shall be reduced by the quantity of the excess sugar marketed.

“(g) FILLING SUGARCANE AND SUGAR BEET ASSESSMENT BASES.—

“(1) CANE SUGAR.—Each marketing assessment base for cane sugar established under this section may be filled only with sugar processed from domestically grown sugarcane or imported raw cane sugar.

“(2) BEET SUGAR.—Each marketing assessment base for beet sugar established under this section may be filled only with sugar processed from domestically grown sugar beets.

“SEC. 359d. DISTRIBUTION OF MARKETING ASSESSMENT BASES.

“(a) DISTRIBUTION TO PROCESSORS AND REFINERS.—

“(1) IN GENERAL.—Subject to the other provisions of this subsection, during each of fiscal years 1997 through 2003, the Secretary shall distribute each assessment base among the processors or cane sugar refiners covered by the base in a fair, efficient, and equitable manner, as determined by the Secretary.

“(2) AFTER FISCAL YEAR 1997.—Except as necessary to provide for new beet sugar processors or refiners of cane sugar under paragraph (5), the Secretary shall distribute any increase or decrease in the assessment bases for processors of beet sugar or refiners of cane sugar for fiscal years after fiscal year 1997 in proportion to the shares of the beet sugar processors or refiners of cane sugar for fiscal year 1997.

“(3) CANE SUGAR ASSESSMENT BASE.—In distributing the cane sugar assessment base among processors, the Secretary shall take into consideration processing capacity, past marketings of sugar, and the ability of each processor to market sugar covered by the portion of the base distributed.

“(4) SUGAR BEET ASSESSMENT BASE.—In distributing the sugar beet assessment base among processors of sugar beets, the Secretary shall assign processor bases in accordance with the highest quantity of each processor of sugar produced in any year from sugar beets produced from the 1990 through 1994 crops.

“(5) NEW PROCESSORS AND REFINERS.—In making distributions under this subsection, the Secretary shall make reasonable provision for new processors and refiners.

“(b) FILLING CANE SUGAR ASSESSMENT BASES.—Except as otherwise provided in section 359e, a State cane sugar assessment base established under section 359c(e) for a fiscal year may be filled only with sugar processed from sugarcane grown in the State covered by the assessment base.

“SEC. 359e. REASSIGNMENT OF DEFICITS.

“(a) ESTIMATES OF DEFICITS.—The Secretary shall, in a timely manner, determine whether, in view of then current inventories of sugar, the estimated production of sugar and expected marketings, and other pertinent factors—

“(1) any processor of sugarcane will be unable to market the sugar covered by the portion of the State cane sugar assessment base distributed to the processor;

“(2) any processor of sugar beets will be unable to market sugar covered by the portion of the beet sugar assessment base distributed to the processor; and

“(3) any cane sugar refiner will be unable to market sugar covered by the portion of the refined cane sugar assessment base distributed to the refiner.

“(b) REASSIGNMENT OF DEFICITS.—

“(1) CANE SUGAR.—If the Secretary determines that any sugarcane processor who has received a share of a State cane sugar base will be unable to market the share of the processor of the allotment of the State for the fiscal year—

“(A) the Secretary first shall reassign the estimated quantity of the deficit to the bases of other processors within the State, depending on the capacity of each other processor to fill the portion of the deficit to be assigned to the processor and taking into account the interests of producers served by the processors;

“(B) if after the reassignments the deficit cannot be completely eliminated, the Secretary shall reassign the estimated quantity of the deficit proportionately to the bases for other cane sugar States, depending on the capacity of each other State to fill the portion of the deficit to be assigned to the

State, with the reassigned quantity to each State to be distributed among processors in the State in proportion to the bases of the processors; and

“(C) if after the reassignments, the deficit cannot be completely eliminated, the Secretary shall reassign the remainder to imports.

“(2) BEET SUGAR.—If the Secretary determines that a sugar beet processor who has received a share of the beet sugar assessment base will be unable to market the share—

“(A) the Secretary first shall reassign the estimated quantity of the deficit to the bases for other sugar beet processors, depending on the capacity of each other processor to fill the portion of the deficit to be assigned to the processor and taking into account the interests of producers served by the processors; and

“(B) if after the reassignments, the deficit cannot be completely eliminated, the Secretary shall reassign the remainder to imports.

“(3) REFINED CANE SUGAR.—If the Secretary determines that a cane sugar refiner who has received a share of the refined cane sugar assessment base will be unable to market the share, the Secretary shall promptly reassign the estimated quantity of the deficit to the bases of other refiners, as the Secretary considers appropriate.

“(4) CORRESPONDING INCREASE.—The base of each processor or refiner receiving a reassigned quantity of an assessment base under this subsection for a fiscal year shall be increased to reflect the reassignment. The Secretary shall, subject to conditions specified by regulation, provide that marketings in the next fiscal year of deficits reassigned in the last quarter of any fiscal year shall not count against the base of the processor or refiner for the next fiscal year.

“SEC. 359f. PROVISIONS APPLICABLE TO PRODUCERS.

“(a) PROCESSOR ASSURANCES.—During each of fiscal years 1997 through 2003, the Secretary shall obtain from the processors such assurances as the Secretary considers adequate that the assessment base will be shared among producers served by the processor in a fair and equitable manner that adequately reflects the production histories of producers. Any dispute between a processor and a producer, or group of producers, with respect to the sharing of the base of the processor shall be resolved through arbitration by the Secretary on the request of either party.

“(b) PROPORTIONATE SHARES OF CERTAIN STATE BASES.—

“(1) IN GENERAL.—

“(A) STATES AFFECTED.—In any case in which a State share of an assessment base is established under section 359c(e) and there are in excess of 250 producers in the State (other than Puerto Rico), the Secretary shall make a determination under subparagraph (B).

“(B) DETERMINATION.—The Secretary shall determine, for each State base described in subparagraph (A), whether the production of sugarcane, in the absence of proportionate shares, will be greater than the quantity needed to enable processors to fill the assessment base and provide a normal carryover inventory.

“(2) ESTABLISHMENT OF PROPORTIONATE SHARES.—If the Secretary determines under paragraph (1) that the quantity of sugar processed from all crops by all processors covered by a State base for a fiscal year will be in excess of the quantity needed to enable processors to fill the base for the fiscal year and provide a normal carryover inventory of sugar, the Secretary shall establish a proportionate share for each sugarcane producing farm that limits the acreage of sugarcane

that may be harvested on the farm for sugar or seed during the fiscal year the base is in effect as provided in this subsection. Each such proportionate share shall be subject to adjustment under paragraph (7) and section 359g(c).

“(3) METHOD OF DETERMINING PROPORTIONATE SHARES.—For purposes of determining proportionate shares for any crop of sugarcane:

“(A) ESTABLISHMENT OF STATE'S PER-ACRE YIELD.—The Secretary shall establish the State's per-acre yield goal for a crop at a level (not less than the average per-acre yield in the State for the preceding 5 years, as determined by the Secretary) that will ensure an adequate net return per pound to sugarcane produced in the State, taking into consideration any available production research data that the Secretary considers relevant.

“(B) ADJUSTMENT OF PER-ACRE YIELD GOAL.—The Secretary shall adjust the per-acre yield goal by the average recovery rate of sugar produced from sugarcane by processors in the State.

“(C) STATE ACREAGE BASE.—The Secretary shall convert the State base for the fiscal year involved into a State acreage base for the crop by dividing the State base by the per-acre yield goal for the State, as established under subparagraph (A) and as further adjusted under subparagraph (B).

“(D) UNIFORM REDUCTION PERCENTAGE.—The Secretary shall establish a uniform reduction percentage for the crop by dividing the State acreage base, as determined for the crop under subparagraph (C), by the sum of all adjusted acreage bases in the State, as determined by the Secretary.

“(E) PROPORTIONATE SHARE OF FARM OF SUGARCANE ACREAGE.—The uniform reduction percentage for the crop, as determined under subparagraph (D), shall be applied to the acreage base for each sugarcane-producing farm in the State to determine the proportionate share of the farm of sugarcane acreage that may be harvested for sugar or seed.

“(4) ACREAGE BASE.—For purposes of this subsection, the acreage base for each sugarcane-producing farm shall be determined by the Secretary, as follows:

“(A) IN GENERAL.—The acreage base for any farm shall be the number of acres that is equal to the average of the acreage planted and considered planted for harvest for sugar or seed on the farm in each of the 5 crop years preceding the fiscal year the proportionate share will be in effect.

“(B) DISASTERS.—Acreage planted to sugarcane that producers on a farm were unable to harvest to sugarcane for sugar or seed because of drought, flood, other natural disaster, or other condition beyond the control of the producers may be considered as harvested for the production of sugar or seed for purposes of this paragraph.

“(5) VIOLATION.—

“(A) IN GENERAL.—If proportionate shares are in effect in a State for a crop of sugarcane, producers on a farm shall not knowingly harvest, or allow to be harvested, for sugar or seed an acreage of sugarcane in excess of the proportionate share of the farm for the fiscal year, or otherwise violate proportionate share regulations issued by the Secretary under section 359h(a).

“(B) DETERMINATION OF VIOLATION.—No producer shall be considered to have violated subparagraph (A) unless the processor of the sugarcane harvested by the producer from acreage in excess of the proportionate share of the farm markets a quantity of sugar that exceeds the allocation of the processor for a fiscal year.

“(C) CIVIL PENALTY.—Any producer on a farm who violates subparagraph (A) by knowingly harvesting, or allowing to be har-

vested, an acreage of sugarcane in excess of the proportionate share of the farm shall be liable to the Commodity Credit Corporation for a civil penalty equal to 1½ times the United States market value of the quantity of sugar that is marketed by the processor of the sugarcane in excess of the allocation of the processor for the fiscal year. The Secretary shall prorate penalties imposed under this subparagraph in a fair and equitable manner among all the producers of sugarcane harvested from excess acreage that is acquired by the processor.

“(6) WAIVER.—Notwithstanding paragraph (5), the Secretary may authorize the county and State committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) to waive or modify deadlines and other proportionate share requirements in cases in which lateness or failure to meet the other requirements does not affect adversely the operation of proportionate shares.

“(7) ADJUSTMENTS.—If the Secretary determines that, because of a natural disaster or other condition beyond the control of producers that adversely affects a crop of sugarcane subject to proportionate shares, the quantity of sugarcane produced by producers subject to the proportionate shares will not be sufficient to enable processors in the State to meet the cane sugar base of the State and provide a normal carryover inventory of sugar, the Secretary may uniformly allow producers to harvest a quantity of sugarcane in excess of the proportionate share of the producers, or suspend proportionate shares entirely, as necessary to enable processors to meet the State base and provide a normal carryover inventory of sugar.

“**SEC. 359g. SPECIAL RULES.**

“(a) TRANSFER OF ACREAGE BASE HISTORY.—For the purpose of establishing proportionate shares for sugarcane farms under section 359f, the Secretary, on application of any producer, with the written consent of all owners of a farm, may transfer the acreage base history of the farm to any other parcels of land of the applicant.

“(b) PRESERVATION OF ACREAGE BASE HISTORY.—If for reasons beyond the control of a producer on a farm, the producer is unable to harvest an acreage of sugarcane for sugar or seed with respect to all or a portion of the proportionate share established for the farm under section 359f, the Secretary, on the application of the producer and with the written consent of all owners of the farm, may preserve for a period of not more than 3 consecutive years the acreage base history of the farm to the extent of the proportionate share involved. The Secretary may permit the proportionate share to be redistributed to other farms, except that no acreage base history for purposes of establishing acreage bases shall accrue to the other farms by virtue of the redistribution of the proportionate share.

“(c) REVISIONS OF DISTRIBUTIONS AND PROPORTIONATE SHARES.—The Secretary, after such notice as the Secretary by regulation may prescribe, may revise or amend any distribution of a marketing assessment base under section 359d, or any proportionate share established for a farm under section 359f, on the same basis as the initial distribution or proportionate share was required to be established.

“**SEC. 359h. REGULATIONS; VIOLATIONS; PUBLICATION OF SECRETARY'S DETERMINATIONS; JURISDICTION OF THE COURTS; UNITED STATES ATTORNEYS.**

“(a) REGULATIONS.—The Secretary or the Commodity Credit Corporation, as appropriate, shall issue such regulations as are necessary to carry out this part.

“(b) PUBLICATION IN FEDERAL REGISTER.—Each determination issued by the Secretary

to establish or adjust a marketing assessment base under this part shall be promptly published in the Federal Register and shall be accompanied by a statement of the reasons for the determination.

“(c) VIOLATION.—Any person knowingly violating any regulation of the Secretary issued under subsection (a) shall be subject to a civil penalty of not more than \$5,000 for each violation.

“(d) JURISDICTION OF COURTS; UNITED STATES ATTORNEYS.—

“(1) JURISDICTION OF COURTS.—A district court of the United States shall have jurisdiction specifically to enforce, and to prevent and restrain any person from violating, this part or any regulation issued under this part.

“(2) UNITED STATES ATTORNEYS.—On request of the Secretary, a United States attorney, in the district of the attorney, shall institute a proceeding to enforce the remedies and to collect the penalties provided for in this part. The Secretary may elect not to refer to a United States attorney any violation of this part or a regulation if the Secretary determines that the administration and enforcement of this part would be adequately served by written notice or warning to any person committing the violation.

“(e) NONEXCLUSIVITY OF REMEDIES.—The remedies and penalties provided for in this part shall be in addition to, and not exclusive of, any remedies or penalties existing at law or in equity.

“**SEC 359i. APPEALS.**

“(a) IN GENERAL.—An appeal may be taken to the Secretary from any decision under section 359d establishing allocations of marketing assessment bases, or under section 359f, by any person adversely affected by reason of any such decision.

“(b) PROCEDURE.—

“(1) NOTICE OF APPEAL.—Any appeal from such a decision shall be taken by filing with the Secretary, not later than 20 days after the decision is effective, notice in writing of the appeal and a statement of the reasons for the appeal. Unless a later date is specified by the Secretary as part of the decision of the Secretary, the decision shall be considered to be effective as of the date on which announcement of the decision is made. The Secretary shall deliver a copy of any notice of appeal to each person shown by the records of the Secretary to be adversely affected by reason of the decision appealed. After delivery of notice, the Secretary shall at all times permit any such person to inspect and make copies of the statement of the reasons of the appellant for the appeal and shall on application permit the person to intervene in the appeal.

“(2) HEARING.—The Secretary shall provide each appellant an opportunity for a hearing before an administrative law judge in accordance with sections 554 and 556 of title 5, United States Code. The expenses for conducting the hearing shall be reimbursed by the Commodity Credit Corporation.

“**SEC. 359j. ADMINISTRATION.**

“(a) USE OF CERTAIN AGENCIES.—In carrying out this part, the Secretary may use the services of local committees of sugarcane or sugar beet producers or sugarcane or sugar beet processors, State and county committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)), and departments and agencies of the United States Government.

“(b) USE OF COMMODITY CREDIT CORPORATION.—The Secretary shall use the services, facilities, funds, and authorities of the Commodity Credit Corporation to carry out sections 359a through 359i.

“(c) DEFINITIONS OF UNITED STATES AND STATE.—Notwithstanding section 301, for

purposes of this part, the terms 'United States' and 'State' mean the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico."

The resulting prices shall not vary regionally, except to reflect variances in transportation and reasonable operating costs, if any, of efficient processing plants in different geographical areas.

(c) STATUS OF PRODUCER HANDLERS.—In amending Federal milk marketing orders under this section, the Secretary shall ensure that the legal status of producer handlers of milk under the Agricultural Adjustment Act (7 U.S.C. 601 et seq.), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937, shall be the same after the amendments made by this section take effect as it was before the effective date of the amendments.

(b) FAILURE TO TIMELY IMPLEMENT ORDERS.—Unless the Secretary certifies to Congress before the end of the 2-year period beginning on the date of the enactment of this Act that all of the Federal marketing order reforms required by section 21(b) have been fully implemented, then, effective at the end of that period—

This paragraph shall not void the responsibilities of such an owner or operator under the contract if the owner or operator continues or resumes operation, or control, of the contract acreage. On the resumption of operation or control over the contract acreage by the owner or operator, the provisions of the contract in effect on the date of the foreclosure shall apply.

(i) TRANSFER OF INTEREST IN LANDS SUBJECT TO CONTRACT.—

(1) EFFECT OF TRANSFER.—Except as provided in paragraph (2), the transfer by an owner or operator subject to a contract of the right and interest of the owner or operator in the contract acreage shall result in the termination of the contract with respect to the acreage, effective on the date of the transfer, unless the transferee of the acreage agrees with the Secretary to assume all obligations of the contract. At the request of the transferee, the Secretary may modify the contract if the modifications are consistent with the objectives of this section as determined by the Secretary.

(ii) not more than \$2.58 per bushel.

(B) STOCKS TO USE RATIO ADJUSTMENT.—If the Secretary estimates for any marketing year that the ratio of ending stocks of wheat to total use for the marketing year will be—

(i) equal to or greater than 30 percent, the Secretary may reduce the loan rate for wheat for the corresponding crop by an amount not to exceed 10 percent in any year;

(ii) less than 30 percent but not less than 15 percent, the Secretary may reduce the loan rate for wheat for the corresponding crop by an amount not to exceed 5 percent in any year; or

(ii) not more than \$1.89 per bushel.

(B) STOCKS TO USE RATIO ADJUSTMENT.—If the Secretary estimates for any marketing year that the ratio of ending stocks of corn to total use for the marketing year will be—

(C) NO EFFECT ON FUTURE YEARS.—Any reduction in the loan rate for corn under subparagraph (B) shall not be considered in determining the loan rate for corn for subsequent years.

(D) OTHER FEED GRAINS.—The loan rate for a marketing assistance loan for grain sorghum, barley, and oats, respectively, shall be established at such level as the Secretary determines is fair and reasonable in relation to the rate that loans are made available for corn, taking into consideration the feeding value of the commodity in relation to corn.

(3) UPLAND COTTON.—

(ii) 90 percent of the average, for the 15-week period beginning July 1 of the year in which the loan rate is announced, of the 5 lowest-priced growths of the growths quoted for Middling 1 $\frac{1}{2}$ -inch cotton C.I.F. Northern Europe (adjusted downward by the average difference during the period April 15 through October 15 of the year in which the loan is announced between the average Northern European price quotation of such quality of cotton and the market quotations in the designated United States spot markets for the base quality of upland cotton), as determined by the Secretary.

(5) ADJUSTMENT OF PREVAILING WORLD MARKET PRICE FOR UPLAND COTTON.—

(A) IN GENERAL.—During the period ending July 31, 2003, the prevailing world market price for upland cotton (adjusted to United States quality and location) established under paragraph (4) shall be further adjusted if—

(i) the adjusted prevailing world market price is less than 115 percent of the loan rate for upland cotton established under subsection (b), as determined by the Secretary; and

(ii) the Friday through Thursday average price quotation for the lowest-priced United States growth as quoted for Middling (M) 1³/₂-inch cotton delivered C.I.F. (B) VALUE OF CERTIFICATES OR PAYMENTS.—The value of the marketing certificates or cash payments shall be based on the amount of the difference (reduced by 1.25 cents per pound) in the prices during the 4th week of the consecutive 4-week period multiplied by the quantity of upland cotton included in the documented sales.

(C) ADMINISTRATION OF MARKETING CERTIFICATES.—

(i) REDEMPTION, MARKETING, OR EXCHANGE.—The Secretary shall establish procedures for redeeming marketing certificates for cash or marketing or exchange of the certificates for agricultural commodities owned by the Commodity Credit Corporation in such manner, and at such price levels, as the Secretary determines will best effectuate the purposes of cotton user marketing certificates. Any price restrictions that would otherwise apply to the disposition of agricultural commodities by the Commodity Credit Corporation shall not apply to the redemption of certificates under this paragraph.

(ii) DESIGNATION OF COMMODITIES AND PRODUCTS.—To the extent practicable, the Secretary shall permit owners of certificates to designate the commodities and products, including storage sites, the owners would prefer to receive in exchange for certificates. If any certificate is not presented for redemption, marketing, or exchange within a reasonable number of days after the issuance of the certificate (as determined by the Secretary), reasonable costs of storage and other carrying charges, as determined by the Secretary, shall be deducted from the value of the certificate for the period beginning after the reasonable number of days and ending with the date of the presentation of the certificate to the Commodity Credit Corporation.

(iii) TRANSFERS.—Marketing certificates issued to domestic users and exporters of up-

land cotton may be transferred to other persons in accordance with regulations issued by the Secretary.

Northern Europe, adjusted for the value of any certificates issued under paragraph (1), exceeds the Northern Europe price by more than 1.25 cents per pound, there shall immediately be in effect a special import quota.

(B) QUANTITY.—The quota shall be equal to 1 week's consumption of upland cotton by domestic mills at the seasonally adjusted average rate of the most recent 3 months for which data are available.

(C) APPLICATION.—The quota shall apply to upland cotton purchased not later than 90 days after the date of the Secretary's announcement under subparagraph (A) and entered into the United States not later than 180 days after the date.

(D) OVERLAP.—A special quota period may be established that overlaps any existing quota period if required by subparagraph (A), except that a special quota period may not be established under this paragraph if a quota period has been established under subsection (g).

(A) QUANTITY.—The quantity of the quota shall be equal to 21 days of domestic mill consumption of upland cotton at the seasonally adjusted average rate of the most recent 3 months for which data are available.

(B) QUANTITY IF PRIOR QUOTA.—If a quota has been established under this subsection during the preceding 12 months, the quantity of the quota next established under this subsection shall be the smaller of 21 days of domestic mill consumption calculated under subparagraph (A) or the quantity required to increase the supply to 130 percent of the demand.

(C) PREFERENTIAL TARIFF TREATMENT.—The quantity under a limited global import quota shall be considered to be an in-quota quantity for purposes of—

(i) section 213(d) of the Caribbean Basin Economic Recovery Act (19 U.S.C. 2703(d));

(ii) section 204 of the Andean Trade Preference Act (19 U.S.C. 3203);

(i) ADJUSTMENTS OF LOANS.—

(1) IN GENERAL.—The Secretary may make appropriate adjustments in the loan levels for any commodity for differences in grade, type, quality, location, and other factors.

(2) LOAN LEVEL.—The adjustments shall, to the maximum extent practicable, be made in such manner that the average loan level for the commodity will, on the basis of the anticipated incidence of the factors, be equal to the level of support determined as provided

in this section or the Agricultural Adjustment Act of 1938 (7 U.S.C. 1281 et seq.).

(j) PERSONAL LIABILITY OF PRODUCERS FOR DEFICIENCIES.—

(1) IN GENERAL.—Except as provided in paragraph (2), no producer shall be personally liable for any deficiency arising from the sale of the collateral securing any nonrecourse loan made under this section or the Agricultural Adjustment Act of 1938 (7 U.S.C. 1281 et seq.) unless the loan was obtained through a fraudulent representation by the producer.

(2) LIMITATIONS.—Paragraph (1) shall not prevent the Commodity Credit Corporation or the Secretary from requiring a producer to assume liability for—

(A) a deficiency in the grade, quality, or quantity of a commodity stored on a farm or delivered by the producer;

(B) a failure to properly care for and preserve a commodity; or

(C) a failure or refusal to deliver a commodity in accordance with a program established under this section or the Agricultural Adjustment Act of 1938.

(3) ACQUISITION OF COLLATERAL.—The Secretary may include in a contract for a nonrecourse loan made under this section or the Agricultural Adjustment Act of 1938 a provision that permits the Commodity Credit Corporation, on and after the maturity of the loan or any extension of the loan, to acquire title to the unredeemed collateral without obligation to pay for any market value that the collateral may have in excess of the loan indebtedness.

(4) SUGARCANE AND SUGAR BEETS.—A security interest obtained by the Commodity Credit Corporation as a result of the execution of a security agreement by the processor of sugarcane or sugar beets shall be superior to all statutory and common law liens on raw cane sugar and refined beet sugar in favor of the producers of sugarcane and sugar beets and all prior recorded and unrecorded liens on the crops of sugarcane and sugar beets from which the sugar was derived.

(k) COMMODITY CREDIT CORPORATION SALES PRICE RESTRICTIONS.—

(A) a sale for a new or byproduct use;

(B) a sale of peanuts or oilseeds for the extraction of oil;

(C) a sale for seed or feed if the sale will not substantially impair any loan program;

(D) a sale of a commodity that has substantially deteriorated in quality or as to which there is a danger of loss or waste through deterioration or spoilage;

(E) a sale for the purpose of establishing a claim arising out of a contract or against a person who has committed fraud, misrepresentation, or other wrongful act with respect to the commodity;

(ii) the handling and transportation costs in making delivery of the commodity to designated agencies at 1 or more central locations in each State or other area.

(4) EFFICIENT OPERATIONS.—Paragraph (1) shall not apply to the sale of a commodity the disposition of which is desirable in the interest of the effective and efficient conduct of the operations of the Corporation because of the small quantity of the commodity involved, or because of the age, location, or questionable continued storability of the commodity.

(3) INSPECTION, HANDLING, OR STORAGE.—The loan amount may not be reduced by the Secretary by any deductions for inspection, handling, or storage.

(4) LOCATION AND OTHER FACTORS.—The Secretary may make adjustments in the loan rate for quota peanuts for location of peanuts and such other factors as are authorized by section 411 of the Agricultural Adjustment Act of 1938.

(b) ADDITIONAL PEANUTS.—

(1) IN GENERAL.—The Secretary shall make nonrecourse loans available to producers of additional peanuts at such rates as the Secretary finds appropriate, taking into consideration the demand for peanut oil and peanut meal, expected prices of other vegetable oils and protein meals, and the demand for peanuts in foreign markets.

(2) ANNOUNCEMENT.—The Secretary shall announce the loan rate for additional peanuts of each crop not later than February 15 preceding the marketing year for the crop for which the loan rate is being determined.

(c) AREA MARKETING ASSOCIATIONS.—

(1) WAREHOUSE STORAGE LOANS.—

(A) IN GENERAL.—In carrying out subsections (a) and (b), the Secretary shall make warehouse storage loans available in each of the producing areas (described in section 1446.95 of title 7 of the Code of Federal Regulations (January 1, 1989)) to a designated area marketing association of peanut producers that is selected and approved by the Secretary and that is operated primarily for the purpose of conducting the loan activities. The Secretary may not make warehouse storage loans available to any cooperative that is engaged in operations or activities concerning peanuts other than those operations and activities specified in this section and section 358e of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359a).

(B) ADMINISTRATIVE AND SUPERVISORY ACTIVITIES.—An area marketing association shall be used in administrative and supervisory activities relating to loans and marketing activities under this section and section 358e of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359a).

(C) ASSOCIATION COSTS.—Loans made to the association under this paragraph shall include such costs as the area marketing association reasonably may incur in carrying out the responsibilities, operations, and activi-

ties of the association under this section and section 358e of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359a).

(2) POOLS FOR QUOTA AND ADDITIONAL PEANUTS.—

(A) IN GENERAL.—The Secretary shall require that each area marketing association establish pools and maintain complete and accurate records by area and segregation for quota peanuts handled under loan and for additional peanuts placed under loan, except that separate pools shall be established for Valencia peanuts produced in New Mexico.

(B) ELIGIBILITY TO PARTICIPATE.—

(i) IN GENERAL.—Except as provided in clause (ii), in the case of the 1996 and subsequent crops, Valencia peanuts not physically produced in the State of New Mexico shall not be eligible to participate in the pools of the State.

(ii) EXCEPTION.—A resident of the State of New Mexico may enter Valencia peanuts that are produced outside of the State into the pools of the State in a quantity that is not greater than the 1995 crop of the resident.

(C) TYPES OF PEANUTS.—Bright hull and dark hull Valencia peanuts shall be considered as separate types for the purpose of establishing the pools.

(D) NET GAINS.—Net gains on peanuts in each pool, unless otherwise approved by the Secretary, shall be distributed only to producers who placed peanuts in the pool and shall be distributed in proportion to the value of the peanuts placed in the pool by each producer. Net gains for peanuts in each pool shall consist of the following:

(i) QUOTA PEANUTS.—For quota peanuts, the net gains over and above the loan indebtedness and other costs or losses incurred on peanuts placed in the pool.

(ii) ADDITIONAL PEANUTS.—For additional peanuts, the net gains over and above the loan indebtedness and other costs or losses incurred on peanuts placed in the pool for additional peanuts.

(d) LOSSES.—Losses in quota area pools shall be covered using the following sources in the following order of priority:

(1) TRANSFERS FROM ADDITIONAL LOAN POOLS.—The proceeds due any producer from any pool shall be reduced by the amount of any loss that is incurred with respect to peanuts transferred from an additional loan pool to a quota loan pool by the producer under section 358-1(b)(8) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1358-1(b)(8)).

(2) OTHER PRODUCERS IN SAME POOL.—Further losses in an area quota pool shall be offset by reducing the gain of any producer in the pool by the amount of pool gains attributed to the same producer from the sale of additional peanuts for domestic and export edible use.

(3) USE OF MARKETING ASSESSMENTS.—The Secretary shall use funds collected under subsection (g) (except funds attributable to handlers) to offset further losses in area quota pools. The Secretary shall transfer to the Treasury those funds collected under subsection (g) and available for use under this subsection that the Secretary determines are not required to cover losses in area quota pools.

(4) CROSS COMPLIANCE.—Further losses in area quota pools, other than losses incurred as a result of transfers from additional loan pools to quota loan pools under section 358-1(b)(8) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1358-1(b)(8)), shall be offset by any gains or profits from quota pools in other production areas (other than separate type pools established under subsection (c)(2)(A) for Valencia peanuts produced in New Mexico) in such manner as the Secretary shall by regulation prescribe.

(5) INCREASED ASSESSMENTS.—If use of the authorities provided in the preceding paragraphs is not sufficient to cover losses in an area quota pool, the Secretary shall increase the marketing assessment established under subsection (g) by such an amount as the Secretary considers necessary to cover the losses. The increased assessment shall apply only to quota peanuts in the production area covered by the pool. Amounts collected under subsection (g) as a result of the increased assessment shall be retained by the Secretary to cover losses in that pool.

(e) DISAPPROVAL OF QUOTAS.—Notwithstanding any other provision of law, no loan for quota peanuts may be made available by the Secretary for any crop of peanuts with respect to which poundage quotas have been disapproved by producers, as provided for in section 358-1(d) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1358-1(d)).

(f) QUALITY IMPROVEMENT.—

(1) IN GENERAL.—With respect to peanuts under loan, the Secretary shall—

(A) promote the crushing of peanuts at a greater risk of deterioration before peanuts of a lesser risk of deterioration;

(B) ensure that all Commodity Credit Corporation inventories of peanuts sold for domestic edible use must be shown to have been officially inspected by licensed Department inspectors both as farmer stock and shelled or cleaned in-shell peanuts;

(C) continue to endeavor to operate the peanut program so as to improve the quality of domestic peanuts and ensure the coordination of activities under the Peanut Administrative Committee established under Marketing Agreement No. 146, regulating the quality of domestically produced peanuts (under the Agricultural Adjustment Act (7 U.S.C. 601 et seq.), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937); and

(D) ensure that any changes made in the peanut program as a result of this subsection requiring additional production or handling at the farm level shall be reflected as an upward adjustment in the Department loan schedule.

(2) EXPORTS AND OTHER PEANUTS.—The Secretary shall require that all peanuts in the domestic and export markets fully comply with all quality standards under Marketing Agreement No. 146.

(g) MARKETING ASSESSMENT.—

(1) IN GENERAL.—The Secretary shall provide for a nonrefundable marketing assessment. The assessment shall be made on a per pound basis in an amount equal to 1.1 percent for each of the 1994 and 1995 crops, 1.15 percent for the 1996 crop, and 1.2 percent for each of the 1997 through 2002 crops, of the national average quota or additional peanut loan rate for the applicable crop.

(2) FIRST PURCHASERS.—

(A) IN GENERAL.—Except as provided under paragraphs (3) and (4), the first purchaser of peanuts shall—

(i) collect from the producer a marketing assessment equal to the quantity of peanuts acquired multiplied by—

SEC. 314. ENVIRONMENTAL QUALITY INCENTIVES PROGRAM.

Subtitle D of title XII of the Food Security Act of 1985 (16 U.S.C. 3830 et seq.) is amended by adding at the end the following:

“CHAPTER 4—ENVIRONMENTAL QUALITY INCENTIVES PROGRAM

“SEC. 1238. FINDINGS AND PURPOSES.

“(a) FINDINGS.—Congress finds that—

“(1) farmers and ranchers cumulatively manage more than ½ of the private lands in the continental United States;

“(2) because of the predominance of agriculture, the soil, water, and related natural resources of the United States cannot be protected without cooperative relationships between the Federal Government and farmers and ranchers;

“(3) farmers and ranchers have made tremendous progress in protecting the environment and the agricultural resource base of the United States over the past decade because of not only Federal Government programs but also their spirit of stewardship and the adoption of effective technologies;

“(4) it is in the interest of the entire United States that farmers and ranchers continue to strive to preserve soil resources and make more efforts to protect water quality and wildlife habitat, and address other broad environmental concerns;

“(5) environmental strategies that stress the prudent management of resources, as opposed to idling land, will permit the maximum economic opportunities for farmers and ranchers in the future;

“(6) unnecessary bureaucratic and paperwork barriers associated with existing agricultural conservation assistance programs decrease the potential effectiveness of the programs; and

“(7) the recent trend of Federal spending on agricultural conservation programs suggests that assistance to farmers and ranchers in future years will, absent changes in policy, dwindle to perilously low levels.

“(b) PURPOSES.—The purposes of the environmental quality incentives program established by this chapter are to—

“(1) combine into a single program the functions of—

“(A) the agricultural conservation program authorized by sections 7 and 8 of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590g and 590h) (as in effect before the amendments made by section 355(a)(1) of the Agricultural Reform and Improvement Act of 1996);

“(B) the Great Plains conservation program established under section 16(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590p(b)) (as in effect before the amendment made by section 355(b)(1) of the Agricultural Reform and Improvement Act of 1996); and

“(C) the water quality incentives program established under chapter 2 (as in effect before the amendment made by section 355(k) of the Agricultural Reform and Improvement Act of 1996); and

“(D) the Colorado River Basin salinity control program established under section 202(c) of the Colorado River Basin Salinity Control Act (43 U.S.C. 1592(c)) (as in effect before the amendment made by section 355(c)(1) of the Agricultural Reform and Improvement Act of 1996); and

“(2) carry out the single program in a manner that maximizes environmental benefits per dollar expended, and that provides—

“(A) flexible technical and financial assistance to farmers and ranchers that face the most serious threats to soil, water, and related natural resources, including grazing lands, wetlands, and wildlife habitat;

“(B) assistance to farmers and ranchers in complying with this title and Federal and State environmental laws, and to encourage environmental enhancement;

“(C) assistance to farmers and ranchers in making beneficial, cost-effective changes to cropping systems, grazing management, manure, nutrient, pest, or irrigation management, land uses, or other measures needed to conserve and improve soil, water, and related natural resources; and

“(D) for the consolidation and simplification of the conservation planning process to reduce administrative burdens on the owners and operators of farms and ranches.

“SEC. 1238A. DEFINITIONS.

“In this chapter:

The allocated amount may vary according to the type of expertise required, quantity of time involved, and other factors as determined appropriate by the Secretary. Funding shall not exceed the projected cost to the Secretary of the technical assistance provided in a fiscal year.

“(2) OTHER AUTHORITIES.—The receipt of technical assistance under this chapter shall not affect the eligibility of the operator to receive technical assistance under other authorities of law available to the Secretary.

“(g) MODIFICATION OR TERMINATION OF CONTRACTS.—

“(1) VOLUNTARY MODIFICATION OR TERMINATION.—The Secretary may modify or terminate a contract entered into with an operator under this chapter if—

“(2) INVOLUNTARY TERMINATION.—The Secretary may terminate a contract under this chapter if the Secretary determines that the operator violated the contract.

“(h) NON-FEDERAL ASSISTANCE.—

“(1) IN GENERAL.—The Secretary may request the services of a State water quality agency, State fish and wildlife agency, State forestry agency, or any other governmental or private resource considered appropriate to assist in providing the technical assistance necessary for the development and implementation of a structural practice or land management practice.

“(2) LIMITATION ON LIABILITY.—No person shall be permitted to bring or pursue any claim or action against any official or entity based on or resulting from any technical assistance provided to an operator under this chapter to assist in complying with a Federal or State environmental law.

“SEC. 1238C. EVALUATION OF OFFERS AND PAYMENTS.

“(a) REGIONAL PRIORITIES.—The Secretary shall provide technical assistance, cost-sharing payments, and incentive payments to operators in a region, watershed, or conservation priority area under this chapter based on the significance of the soil, water, and related natural resource problems in the region, watershed, or area, and the structural practices or land management practices that best address the problems, as determined by the Secretary.

“(b) MAXIMIZATION OF ENVIRONMENTAL BENEFITS.—

“SEC. 1238D. DUTIES OF OPERATORS.

“To receive technical assistance, cost-sharing payments, or incentives payments under this chapter, an operator shall agree—

“(5) a description of 1 or more structural practices or 1 or more land management practices, or both, to be implemented to achieve the conservation and environmental objectives;

“(6) a description of the timing and sequence for implementing the structural

practices or land management practices, or both, that will assist the operator in complying with Federal and State environmental laws; and

“(7) information that will enable evaluation of the effectiveness of the plan in achieving the conservation and environmental objectives, and that will enable evaluation of the degree to which the plan has been implemented.

“SEC. 1238F. DUTIES OF THE SECRETARY.

“To the extent appropriate, the Secretary shall assist an operator in achieving the conservation and environmental goals of an environmental quality incentives program plan by—

“(1) providing an eligibility assessment of the farming or ranching operation of the operator as a basis for developing the plan;

“(2) an area that is considered to be critical agricultural land on which either crop or livestock production is carried out, as identified in a plan submitted by the State under section 319 of the Federal Water Pollution Control Act (33 U.S.C. 1329) as having priority problems that result from an agricultural nonpoint source of pollution;

“(3) an area recommended by a State lead agency for protection of soil, water, and related resources, as designated by a Governor of a State; and

“(4) land that is not located within a designated or approved area, but that if permitted to continue to be operated under existing management practices, would defeat the purpose of the environmental quality incentives program, as determined by the Secretary.

SEC. 354. CONSERVATION OF PRIVATE GRAZING LAND.

(a) FINDINGS.—Congress finds that—

(1) privately owned grazing land constitutes nearly ½ of the non-Federal land of the United States and is basic to the environmental, social, and economic stability of rural communities;

(2) privately owned grazing land contains a complex set of interactions among soil, water, air, plants, and animals;

(3) grazing land constitutes the single largest watershed cover type in the United States and contributes significantly to the

quality and quantity of water available for all of the many uses of the land;

(4) private grazing land constitutes the most extensive wildlife habitat in the United States;

(5) private grazing land can provide opportunities for improved nutrient management from land application of animal manures and other by-product nutrient resources;

(6) owners and managers of private grazing land need to continue to recognize conservation problems when the problems arise and receive sound technical assistance to improve or conserve grazing land resources to meet ecological and economic demands;

(7) new science and technology must continually be made available in a practical manner so owners and managers of private grazing land may make informed decisions concerning vital grazing land resources;

(8) agencies of the Department of Agriculture with private grazing land responsibilities are the agencies that have the expertise and experience to provide technical assistance, education, and research to owners and managers of private grazing land for the long-term productivity and ecological health of grazing land;

(9) although competing demands on private grazing land resources are greater than ever before, assistance to private owners and managers of private grazing land is currently limited and does not meet the demand and basic need for adequately sustaining or enhancing the private grazing lands resources; and

(10) privately owned grazing land can be enhanced to provide many benefits to all Americans through voluntary cooperation among owners and managers of the land, local conservation districts, and the agencies of the Department of Agriculture responsible for providing assistance to owners and managers of land and to conservation districts.

(b) PURPOSE.—It is the purpose of this section to authorize the Secretary of Agriculture to provide a coordinated technical, educational, and related assistance program to conserve and enhance private grazing land resources and provide related benefits to all citizens of the United States by—

(1) establishing a coordinated and cooperative Federal, State, and local grazing conservation program for management of private grazing land;

(2) strengthening technical, educational, and related assistance programs that provide assistance to owners and managers of private grazing land;

(3) conserving and improving wildlife habitat on private grazing land;

(4) conserving and improving fish habitat and aquatic systems through grazing land conservation treatment;

(5) protecting and improving water quality;

(6) improving the dependability and consistency of water supplies;

(7) identifying and managing weed, noxious weed, and brush encroachment problems on private grazing land; and

(8) integrating conservation planning and management decisions by owners and managers of private grazing land, on a voluntary basis.

(c) DEFINITIONS.—In this section:

(1) PRIVATE GRAZING LAND.—The term "private grazing land" means privately owned, State-owned, tribally-owned, and any other non-federally owned rangeland, pastureland, grazed forest land, and hay land.

(2) SECRETARY.—The term "Secretary" means the Secretary of Agriculture, acting through the Natural Resources Conservation Service.

(d) PRIVATE GRAZING LAND CONSERVATION ASSISTANCE.—

(1) ASSISTANCE TO GRAZING LANDOWNERS AND OTHERS.—Subject to the availability of

appropriations, the Secretary shall establish a voluntary program to provide technical, educational, and related assistance to owners and managers of private grazing land and public agencies, through local conservation districts, to enable the landowners, managers, and public agencies to voluntarily carry out activities that are consistent with this section, including—

(A) maintaining and improving private grazing land and the multiple values and uses that depend on private grazing land;

(B) implementing grazing land management technologies;

(C) managing resources on private grazing land, including—

(i) planning, managing, and treating private grazing land resources;

(ii) ensuring the long-term sustainability of private grazing land resources;

(iii) harvesting, processing, and marketing private grazing land resources; and

(D) protecting and improving the quality and quantity of water yields from private grazing land;

(E) maintaining and improving wildlife and fish habitat on private grazing land;

(F) enhancing recreational opportunities on private grazing land;

(G) maintaining and improving the aesthetic character of private grazing lands; and

(H) identifying the opportunities and encouraging the diversification of private grazing land enterprises.

(2) PROGRAM ELEMENTS.—

(A) FUNDING.—The program under paragraph (1) shall be funded through a specific line-item in the annual appropriations for the Natural Resources Conservation Service.

(B) TECHNICAL ASSISTANCE AND EDUCATION.—Personnel of the Department of Agriculture trained in pasture and range management shall be made available under the program to deliver and coordinate technical assistance and education to owners and managers of private grazing land, at the request of the owners and managers.

(e) GRAZING TECHNICAL ASSISTANCE SELF-HELP.—

(1) FINDINGS.—Congress finds that—

(A) there is a severe lack of technical assistance for grazing producers;

(B) the Federal budget precludes any significant expansion, and may force a reduction of, current levels of technical support; and

(C) farmers and ranchers have a history of cooperatively working together to address common needs in the promotion of their products and in the drainage of wet areas through drainage districts.

(2) ESTABLISHMENT OF GRAZING DEMONSTRATION.—The Secretary may establish 2 grazing management demonstration districts at the recommendation of the Grazing Lands Conservation Initiative Steering Committee.

(3) PROCEDURE.—

(A) PROPOSAL.—Within a reasonable time after the submission of a request of an organization of farmers or ranchers engaged in grazing, the Secretary shall propose that a grazing management district be established.

(B) FUNDING.—The terms and conditions of the funding and operation of the grazing management district shall be proposed by the producers.

(C) APPROVAL.—The Secretary shall approve the proposal if the Secretary determines that the proposal—

(i) is reasonable;

(ii) will promote sound grazing practices; and

(iii) contains provisions similar to the provisions contained in the promotion orders in effect on the effective date of this section.

(D) AREA INCLUDED.—The area proposed to be included in a grazing management district shall be determined by the Secretary on the basis of a petition by farmers or ranchers.

(E) AUTHORIZATION.—The Secretary may use authority under the Agricultural Adjustment Act (7 U.S.C. 601 et seq.), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937, to operate, on a demonstration basis, a grazing management district.

(F) ACTIVITIES.—The activities of a grazing management district shall be scientifically sound activities, as determined by the Secretary in consultation with a technical advisory committee composed of ranchers, farmers, and technical experts.

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section—

(1) \$20,000,000 for fiscal year 1996;

(2) \$40,000,000 for fiscal year 1997; and

ADDITIONAL STATEMENTS

CHINA THREATENS TAIWAN

• Mr. SIMON. Mr. President, the New York Times carried an article titled "As China Threatens Taiwan, It Makes Sure U.S. Listens," written by Patrick E. Tyler, about irresponsible talk from Chinese leaders against Taiwan. I ask that the article be printed at the end of my remarks.

It is the kind of talk that inevitably sours relations between China and the United States but, also, causes apprehension among the entire community of nations.

The United States made a mistake in the Shanghai Communique of not recognizing that Taiwan and China, in fact, today are two separate countries. If they eventually want to merge as East Germany and West Germany did, that is up to them.

But China should not think that when we read accounts like that in the New York Times, we sit idly by and think that it makes no difference. The New York Times editorial response to it, which I ask to be printed at the end of my remarks, is appropriate.

I want a good relationship with China. All of my colleagues want a

good relationship with China. But China is impeding the possibility of that good relationship with its threats to Taiwan.

The New York Times article and editorial response follow:

AS CHINA THREATENS TAIWAN, IT MAKES SURE
UNITED STATES LISTENS

(By Patrick E. Tyler)

BEIJING, Jan. 23.—The Chinese leadership has sent unusually explicit warnings to the Clinton Administration that China has completed plans for a limited attack on Taiwan that could be mounted in the weeks after Taiwan's President, Lee Tenghui, wins the first democratic balloting for the presidency in March.

The purpose of this saber-rattling is apparently to prod the United States to rein in Taiwan and President Lee, whose push for greater international recognition for the island of 21 million people, has been condemned here as a drive for independence.

While no one familiar with the threats thinks China is on the verge of risking a catastrophic war against Taiwan, some China experts fear that the Taiwan issue has become such a test of national pride for Chinese leaders that the danger of war should be taken seriously.

A senior American official said the Administration has "no independent confirmation or even credible evidence" that the Chinese are contemplating an attack, and spoke almost dismissively of the prospect.

"They can fire missiles, but Taiwan has some teeth of its own," the official said. "And does China want to risk that and the international effects?"

The most pointed of the Chinese warnings was conveyed recently through a former Assistant Secretary of Defense, Chas. W. Freeman Jr., who traveled to China this winter for discussions with senior Chinese officials. On Jan. 4, after returning to Washington, Mr. Freeman informed President Clinton's national security adviser, Anthony Lake, that the People's Liberation Army had prepared plans for a missile attack against Taiwan consisting of one conventional missile strike a day for 30 days.

This warning followed similar statements relayed to Administration officials by John W. Lewis, a Stanford University political scientist who meets frequently with senior Chinese military figures here.

These warnings do not mean that an attack on Taiwan is certain or imminent. Instead, a number of China specialists say that China, through "credible preparations" for an attack, hopes to intimidate the Taiwanese and to influence American policy toward Taiwan. The goal, these experts say, is to force Taiwan to abandon the campaign initiated by President Lee, including his effort to have Taiwan seated at the United Nations, and to end high-profile visits by President Lee to the United States and to other countries.

If the threats fail to rein in Mr. Lee, however, a number of experts now express the view that China could resort to force, despite the enormous consequences for its economy and for political stability in Asia.

Since last summer, when the White House allowed Mr. Lee to visit the United States, the Chinese leadership has escalated its attacks on the Taiwan leader, accusing him of seeking to "split the motherland" and undermine the "one China" policy that had been the bedrock of relations between Beijing and its estranged province since 1949.

A Chinese Foreign Ministry spokesman, asked to comment on reports that the Chinese military has prepared plans for military action against Taiwan, said he was awaiting

a response from his superiors. Last month, a senior ministry official said privately that China's obvious preparations for military action have been intended to head off an unwanted conflict.

"We have been trying to do all we can to avoid a scenario in which we are confronted in the end with no other option but a military one," the official said. He said that if China does not succeed in changing Taiwan's course, "then I am afraid there is going to be a war."

Mr. Freeman described the most recent warning during a meeting Mr. Lake had called with nongovernmental China specialists.

Participants said that Mr. Freeman's presentation was arresting as he described being told by a Chinese official of the advanced state of military planning. Preparations for a missile attack on Taiwan, he said, and the target selection to carry it out, have been completed and await a final decision by the Politburo in Beijing.

One of the most dramatic moments came when Mr. Freeman quoted a Chinese official as asserting that China could act militarily against Taiwan without fear of intervention by the United States because American leaders "care more about Los Angeles than they do about Taiwan," a statement that Mr. Freeman characterized as an indirect threat by China to use nuclear weapons against the United States.

An account of the White House meeting was provided by some of the participants. Mr. Freeman, reached by telephone, confirmed the gist of his remarks, reiterating that he believes that while "Beijing clearly prefers negotiation to combat," there is a new sense of urgency in Beijing to end Taiwan's quest for "independent international status."

Mr. Freeman said that President Lee's behavior "in the weeks following his re-election will determine" whether Beijing's Communist Party leaders feel they must act "by direct military means" to change his behavior.

In recent months, Mr. Freeman said he has relayed a number of warnings to United States Government officials. "I have quoted senior Chinese who told me" that China "would sacrifice 'millions of men' and 'entire cities' to assure the unity of China and who opined that the United States would not make comparable sacrifices."

He also asserted that "some in Beijing may be prepared to engage in nuclear blackmail against the U.S. to insure that Americans do not obstruct" efforts by the People's Liberation Army "to defend the principles of Chinese sovereignty over Taiwan and Chinese national unity."

Some specialists at the meeting wondered if Mr. Freeman's presentation was too alarmist and suggested that parliamentary elections on Taiwan in December had resulted in losses for the ruling Nationalist Party and that President Lee appeared to be moderating his behavior to avoid a crisis.

"I am not alarmist at this point," said one specialist, who would not comment on the substance of the White House meeting. "I don't think the evidence is developing in that direction."

Other participants in the White House meeting, who said they would not violate the confidentiality pledge of the private session, separately expressed their concern that a potential military crisis is building in the Taiwan Strait.

"I think there is evidence to suggest that the Chinese are creating at least the option to apply military pressure to Taiwan if they feel that Taiwan is effectively moving out of China's orbit politically," said Kenneth Lieberthal, a China scholar at the University
