Mr. D'AMATO submitted the following resolution; which was considered and agreed to:

S. RES. 272

Resolved, That Senate Resolution 246, 104th Congress, agreed to April 17, 1996, is amended in section 1(1)(A), by inserting before the semicolon ''incurred during the period beginning on May 17, 1995, and ending on February 29, 1996, or during the period beginning on April 17, 1996, and ending on June 17, 1996''.

AMENDMENTS SUBMITTED

THE NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 1997

KYL AMENDMENTS NOS. 4278–4280

(Ordered to lie on the table.)

Mr. KYL submitted three amendments intended to be proposed by him to the bill (S. 1745) to authorize appropriations for fiscal year 1997 for military activities to the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; as follows:

AMENDMENT NO. 4278

At the end of subtitle C of title II, add the following:

SEC. 237. DEPLOYMENT OF THEATER MISSILE DEFENSE SYSTEMS UNDER THE ABM TREATY.

(a) FINDINGS.—The Senate makes the following findings:

(1) The threat posed to the national security of the United States, the Armed Forces, and our friends and allies by the proliferation of ballistic missiles is significant and growing, both quantitatively and qualitatively.

(2) The deployment of theater missile defense systems will deny potential adversaries the option of threatening or attacking United States forces, coalition partners of the United States, or allies of the United States with ballistic missiles armed with weapons of mass destruction as a way of offsetting the operational and technical advantages of the United States Armed Forces and the armed forces of our coalition partners and allies.

(3) Although technology control regimes and other forms of international arms control agreements can contribute to nonproliferation, such measures are inadequate for dealing with missile proliferation and should not be viewed as alternatives to missile defense systems and other active and passive measures.

(4) The Department of Defense is currently considering for deployment as theater missile defense interceptors certain systems determined to comply with the ABM Treaty, including PAC3, THAAD, Navy Lower Tier, and Navy Upper Tier (also known as Navy Wide Area Defense).

(5) In the case of the ABM Treaty, as with all other arms control treaties to which the United States is signatory, each signatory bears the responsibility of ensuring that its actions comply with the treaty, and the manner of such compliance need not be a subject of negotiation between the signatories.

(b) SENSE OF SENATE.—It is the sense of the Senate that the theater missile defense systems currently considered for deployment by the Department of Defense comply with the ABM Treaty.

(c) DEPLOYMENT OF SYSTEMS.—The Secretary of Defense may proceed with the development, testing, and deployment of the theater missile defense systems currently considered for deployment by the Department of Defense.

AMENDMENT NO. 4279

At the appropriate place, insert:

Subtitle ___—National Missile Defense

SEC. 261. SHORT TITLE.

This subtitle may be cited as the ''Defend America Act of 1996''.

SEC. 262. FINDINGS.

Congress makes the following findings:

(1) Although the United States possesses the technological means to develop and deploy defensive systems that would be highly effective in countering limited ballistic missile threats to its territory, the United States has not deployed such systems and currently has no policy to do so.

(2) The threat that is posed to the national security of the United States by the proliferation of ballistic missiles is significant and growing, both quantitatively and qualitatively.

(3) The trend in ballistic missile proliferation is toward longer range and increasingly sophisticated missiles.

(4) Several countries that are hostile to the United States (including North Korea, Iran, Libya, and Iraq) have demonstrated an interest in acquiring ballistic missiles capable of reaching the United States.

(5) The Intelligence Community of the United States has confirmed that North Korea is developing an intercontinental ballistic missile that will be capable of reaching Alaska or beyond once deployed.

(6) There are ways for determined countries to acquire missiles capable of threatening the United States with little warning by means other than indigenous development.

(7) Because of the dire consequences to the United States of not being prepared to defend itself against a rogue missile attack and the long-lead time associated with preparing an effective defense, it is prudent to commence a national missile defense deployment effort before new ballistic missile threats to the United States are unambiguously confirmed.

(8) The timely deployment by the United States of an effective national missile defense system will reduce the incentives for countries to develop or otherwise acquire intercontinental ballistic missiles, thereby inhibiting as well as countering the proliferation of missiles and weapons of mass destruction.

(9) Deployment by the United States of a national missile defense system will reduce concerns about the threat of an accidental or unauthorized ballistic missile attack on the United States.

(10) The offense-only approach to strategic deterrence presently followed by the United States and Russia is fundamentally adversarial and is not a suitable basis for stability in a world in which the United States and the states of the former Soviet Union are seeking to normalize relations and eliminate Cold War attitudes and arrangements.

(11) Pursuing a transition to a form of strategic deterrence based increasingly on defensive capabilities and strategies is in the interest of all countries seeking to preserve and enhance strategic stability.

(12) The deployment of a national missile defense system capable of defending the United States against limited ballistic missile attacks would (A) strengthen deterrence at the levels of forces agreed to by the United States and Russia under the START I Treaty, and (B) further strengthen deterrence if reductions below START I levels are implemented in the future.

(13) Article XIII of the ABM Treaty envisions ''possible changes in the strategic situation which have a bearing on the provisions of this treaty''.

(14) Articles XIII and XIV of the treaty establish means for the parties to amend the treaty, and the parties have in the past used those means to amend the treaty.

(15) Article XV of the treaty establishes the means for a party to withdraw from the treaty, upon six months notice ''if it decides that extraordinary events related to the subject matter of this treaty have jeopardized its supreme interests''.

(16) Previous discussions between the United States and Russia, based on Russian President Yeltsin's proposal for a Global Protection System, envisioned an agreement to amend the ABM Treaty to allow (among other measures) deployment of as many as four ground-based interceptor sites in addition to the one site permitted under the ABM Treaty and unrestricted exploitation of sensors based within the atmosphere and in space.

SEC. 263. NATIONAL MISSILE DEFENSE POLICY.

(a) It is the policy of the United States to deploy by the end of 2003 a National Missile Defense system that—

(1) is capable of providing a highly-effective defense of the territory of the United States against limited, unauthorized, or accidental ballistic missile attacks; and

(2) will be augmented over time to provide a layered defense against larger and more sophisticated ballistic missile threats as they emerge.

(b) It is the policy of the United States to seek a cooperative transition to a regime that does not feature an offense-only form of deterrence as the basis for strategic stability.

SEC. 264. NATIONAL MISSILE DEFENSE SYSTEM ARCHITECTURE.

(a) REQUIREMENT FOR DEVELOPMENT OF SYSTEM.—To implement the policy established in section 263(a), the Secretary of Defense shall develop for deployment an affordable and operationally effective National Missile Defense (NMD) system which shall achieve an initial operational capability (IOC) by the end of 2003.

(b) ELEMENTS OF THE NMD SYSTEM.—The system to be developed for deployment shall include the following elements:

(1) An interceptor system that optimizes defensive coverage of the continental United States, Alaska, and Hawaii against limited, accidental, or unauthorized ballistic missile attacks and includes one or a combination of the following:

(A) Ground-based interceptors.

(B) Sea-based interceptors.

(C) Space-based kinetic energy interceptors.

(D) Space-based directed energy systems.

(2) Fixed ground-based radars.

(3) Space-based sensors, including the Space and Missile Tracking System.

(4) Battle management, command, control, and communications (BM/C^3).

SEC. 265. IMPLEMENTATION OF NATIONAL MISSILE DEFENSE SYSTEM.

The Secretary of Defense shall—

(1) upon the enactment of this Act, promptly initiate required preparatory and planning actions that are necessary so as to be capable of meeting the initial operational capability (IOC) date specified in section 264(a);

(2) plan to conduct by the end of 1998 an integrated systems test which uses elements (including BM/C³ elements) that are representative of, and traceable to, the national missile defense system architecture specified in section 264(b);

(3) prescribe and use streamlined acquisition policies and procedures to reduce the cost and increase the efficiency of developing the system specified in section 264(a); and

(4) develop an affordable national missile defense follow-on program that—

(A) leverages off of the national missile defense system specified in section 264(a), and

(B) augments that system, as the threat changes, to provide for a layered defense.

SEC. 266. REPORT ON PLAN FOR NATIONAL MISSILE DEFENSE SYSTEM DEVELOPMENT AND DEPLOYMENT.

Not later than March 15, 1997, the Secretary of Defense shall submit to Congress a report on the Secretary's plan for development and deployment of a national missile defense system pursuant to this subtitle. The report shall include the following matters:

(1) The Secretary's plan for carrying out this subtitle, including—

(A) a detailed description of the system architecture selected for development under section 264(b); and

(B) a discussion of the justification for the selection of that particular architecture.

(2) The Secretary's estimate of the amount of appropriations required for research, development, test, evaluation, and for procurement, for each of fiscal years 1997 through 2003 in order to achieve the initial operational capability date specified in section 264(a).

(3) A cost and operational effectiveness analysis of follow-on options to improve the effectiveness of such system.

(4) A determination of the point at which any activity that is required to be carried out under this subtitle would conflict with the terms of the ABM Treaty, together with a description of any such activity, the legal basis for the Secretary's determination, and an estimate of the time at which such point would be reached in order to meet the initial operational capability date specified in section 264(a).

SEC. 267. POLICY REGARDING THE ABM TREATY.

(a) ABM TREATY NEGOTIATIONS.—In light of the findings in section 262 and the policy established in section 263, Congress urges the President to pursue high-level discussions with the Russian Federation to achieve an agreement to amend the ABM Treaty to allow deployment of the national missile defense system being developed for deployment under section 264.

(b) REQUIREMENT FOR SENATE ADVICE AND CONSENT.—If an agreement described in subsection (a) is achieved in discussions described in that subsection, the President shall present that agreement to the Senate for its advice and consent. No funds appropriated or otherwise available for any fiscal year may be obligated or expended to implement such an amendment to the ABM Treaty unless the amendment is made in the same manner as the manner by which a treaty is made.

(c) ACTION UPON FAILURE TO ACHIEVE NEGOTIATED CHANGES WITHIN ONE YEAR.—If an agreement described in subsection (a) is not achieved in discussions described in that subsection within one year after the date of the enactment of this Act, the President and Congress, in consultation with each other, shall consider exercising the option of withdrawing the United States from the ABM Treaty in accordance with the provisions of Article XV of that treaty.

SEC. 268. ABM TREATY DEFINED.

For purposes of this subtitle, the term ''ABM Treaty'' means the Treaty Between the United States of America and the Union of Soviet Socialist Republics on the Limitation of Anti-Ballistic Missile Systems, and signed at Moscow on May 26, 1972, and includes the Protocols to that Treaty, signed at Moscow on July 3, 1974.

AMENDMENT NO. 4280

At the end of subtitle C of title II, add the following:

SEC. 237. REQUIREMENT THAT MULTILATERALIZATION OF THE ABM TREATY BE DONE ONLY THROUGH TREATY-MAKING POWER.

Any addition of a new signatory party to the ABM Treaty (in addition to the United States and the Russian Federation) constitutes an amendment to the treaty that can only be agreed to by the United States through the treaty-making power of the United States. No funds appropriated or otherwise available for any fiscal year may be obligated or expended for the purpose of implementing or making binding upon the United States the participation of any additional nation as a party to the ABM Treaty unless that nation is made a party to the treaty by an amendment to the Treaty that is made in the same manner as the manner by which a treaty is made.

SEC. 1072. SENSE OF THE SENATE ON DEPARTMENT OF DEFENSE SHARING OF EXPERIENCES UNDER MILITARY YOUTH PROGRAMS.

(a) FINDINGS.—The Senate makes the following findings:

(1) Programs of the Department of Defense for youth who are dependents of members of the Armed Forces have not received the same level of attention and resources as have child care programs of the Department since the passage of the Military Child Care Act of 1989 (title XV of Public Law 101–189; 10 U.S.C. 113 note).

(2) Older children deserve as much attention to their developmental needs as do younger children.

(3) The Department has started to direct more attention to programs for youths who are dependents of members of the Armed Forces by funding the implementation of 20 model community programs to address the needs of such youths.

(4) The lessons learned from such programs could apply to civilian youth programs as well.

(b) SENSE OF SENATE.—It is the sense of the Senate that—

(1) the Department of Defense, Federal, State, and local agencies, and businesses and communities involved in conducting youth programs could benefit from the development of partnerships to foster an exchange of ideas, information, and materials relating to such programs and to encourage closer relationships between military installations and the communities that support them;

(2) such partnerships could benefit all families by helping the providers of services for youths exchange ideas about innovative ways to address barriers to the effective provision of such services; and

(3) there are many ways that such partnerships could be developed, including—

(A) cooperation between the Department and Federal and State educational agencies in exploring the use of public school facilities for child care programs and youth programs that are mutually beneficial to the Department and civilian communities and complement programs of the Department carried out at its facilities; and

(B) improving youth programs that enable adolescents to relate to new peer groups when families of members of the Armed Forces are relocated.

(c) REPORT.—Not later than June 30, 1997, the Secretary of Defense shall submit to Congress a report on the status of any initiatives undertaken this section, including recommendations for additional ways to improve the youth programs of the Department of Defense and to improve such program so as to benefit communities in the vicinity of military installations.

AMENDMENT NO. 4311

SEC. 1072. SENSE OF THE SENATE ON DEPARTMENT OF DEFENSE SHARING OF EXPERIENCES WITH MILITARY CHILD CARE.

(a) FINDING.—The Senate makes the following findings:

(1) The Department of Defense should be congratulated on the successful implementation of the Military Child Care Act of 1989 (title XV of Public Law 101–189; 10 U.S.C. 113 note).

(2) The actions taken by the Department as a result of that Act have dramatically improved the availability, affordability, quality, and consistency of the child care services provided to members of the Armed Forces.

(3) Child care is important to the readiness of members of the Armed Forces because single parents and couples in military service must have access to affordable child care of good quality if they are to perform their jobs and respond effectively to long work hours or deployments.

(4) Child care is important to the retention of members of the Armed Forces in military service because the dissatisfaction of the families of such members with military life is a primary reason for the departure of such members from military service.

(b) SENSE OF SENATE.—It is the sense of the Senate that—

(1) the civilian and military child care communities, Federal, State, and local agencies, and businesses and communities involved in the provision of child care services could benefit from the development of partnerships to foster an exchange of ideas, information and materials relating to their experiences with the provision of such services and to encourage closer relationships between military installations and the communities that support them;

(2) such partnerships would be beneficial to all families by helping providers of child care services exchange ideas about innovative ways to address barriers to the effective provision of such services; and

(3) there are many ways that these partnerships can be developed, including—

(A) cooperation between the directors and curriculum specialists of military child development centers and civilian child development centers in assisting such centers in the accreditation process;

(B) use of family support staff to conduct parent and family workshops for new parents and parents with young children in family housing on military installations and in communities in the vicinity of such installations;

(C) internships in Department of Defense child care programs for civilian child care providers to broaden the base of good-quality child care services in communities in the vicinity of military installations; and

(D) attendance by civilian child care providers at Department child-care training classes on a space-available basis.

(c) REPORT.—Not later than June 30, 1997, the Secretary of Defense shall submit to Congress a report on the status of any initiatives undertaken this section, including recommendations for additional ways to improve the child care programs of the Department of Defense and to improve such programs so as to benefit civilian child care providers in communities in the vicinity of military installations.

SEC. 2. FINDINGS.

The Congress finds the following:

(1) The incidence of arson or other destruction or vandalism of places of religious worship, and the incidence of violent interference with an individual's lawful exercise or attempted exercise of the right of religious freedom at a place of religious worship pose a serious national problem.

(2) The incidence of arson of places of religious worship has recently increased, especially in the context of places of religious worship that serve predominantly African-American congregations.

(3) Changes in Federal law are necessary to deal properly with this problem.

(4) Although local jurisdictions have attempted to respond to the challenges posed by such acts of destruction or damage to religious property, the problem is sufficiently serious, widespread, and interstate in scope to warrant Federal intervention to assist State and local jurisdictions.

(5) Congress has authority, pursuant to the Commerce Clause of the Constitution, to make acts of destruction or damage to religious property a violation of Federal law.

(6) Congress has authority, pursuant to section 2 of the 13th amendment to the Constitution, to make actions of private citizens motivated by race, color, or ethnicity that interfere with the ability of citizens to hold or use religious property without fear of attack, violations of Federal criminal law.
