

billion to expand the Pell Grant Program, and another \$9 billion for other educational programs such as title I and IDEA.

Instead, the House passed a budget resolution, over my objections, that provides tax cuts for the people who need them the least. Instead of letting the rich of this country get huge tax breaks, we should be helping local communities repair schools, build new ones, bring up the standards of our children's education, and help train the future workers of this Nation.

I am concerned that the plan passed in the budget resolution will cause great problems in the future, not next year or in the year 2002, but further out. The revenue losses expand greatly when these tax cuts are scored in the outlying years. With these losses in revenues, I believe that the programs which benefit the poor, the elderly, and the young will suffer far more than the programs that provide subsidies to the liquor industry, the mining industry, or the timber industry.

Mr. Speaker, the Federal Government has a very good track record when it comes to education. The GI bill provided tens of thousands of veterans with the opportunity to attend college which is, I believe, in part responsible for the great economic boom of the 1950's. The Federal Government has also helped ensure the educational opportunities of the disabled and provided worker retraining for displaced workers. All with great success.

Unfortunately, my colleagues on the other side of the aisle don't see it that way. Many of them believe the Federal Government should have no role in educating our citizens. I believe they are wrong.

The Democratic Party and the President have made it clear that we know the top priority of our people—ensuring that our children have access to the best quality education in the world.

I want to thank my colleague from North Carolina, Congressman BOB ETHERIDGE, for his work on the Task Force and my colleague from New Jersey, Congressman FRANK PALLONE, for organizing this special order.
