

when there is so much that they are not doing with respect to corporations?

And when they do make the revenue collections, we can identify the fact that there is money available for the priorities that we have identified in education. We want to know where the money can come from. It can come from corporations paying their penalties for the violations of section 531 and 537. That section alone will produce all the money we need for school construction over the next 5 to 10 years. The two are very much related.

Education is very important. The IRS review is very important. Both parties in a nonpartisan, bipartisan way should pursue both of these objectives, and I would certainly hope that we will spend part of the remaining weeks of the first year of the 105th Congress doing this. But in the 105th Congress in the second year, we will give our full attention to a bipartisan effort to collect the taxes that are not being collected in the corporate welfare and divert the money that we raise that way into the coffers for the improvement of the public schools across America, starting with a new school construction initiative.
