

Mr. President, I believe it is only fair for this statue of Roger Williams—in this symbol here you see the picture on the stamp that was issued depicting his settlement in the State of Rhode Island in 1636.

I believe it only fair for this statue of Roger Williams, his symbol of tolerance, be returned to the Capitol Rotunda. This provision in the concurrent resolution says—the suggestion is that the statue of the women, the so-called monument, will only be there for a temporary period. Indeed, the resolution says that at the conclusion of the temporary display of the suffragettes—how long the temporary period is we are not sure. We are not against the statue of the suffragettes at all. But when that is moved, we ask that the statue of Roger Williams go back into the Rotunda.

As I say, I have no desire to hasten the removal of the portrait monument. But at the appropriate time, I and my colleagues believe that the Roger Williams statue should be returned.

So I send the concurrent resolution to the desk, and ask that it be referred to the appropriate committee.

I thank the Chair.

Mr. REED. Mr. President, I rise this evening to join my colleague, Senator CHAFEE, in support of his resolution to return a statue of Roger Williams to the Capitol rotunda, and also to commend Senator CHAFEE for his excellent statement. He has described in detail the central role that Roger Williams has played not only in the life of Rhode Island, but in the life of this Nation.

His displacement from the rotunda will not be the first time he was banished. In 1635 he was banished from his first home because he advocated at that time the revolutionary idea that there should be a separation between church and state, that individuals should have freedom of conscience, that individuals should be able to worship the god of their choice, and that the system of government should respect that choice.

In a sense he began the intellectual revolution that would culminate years later in the revolution against Great Britain that would lead to our Declaration of Independence and to the Constitution of the United States, because he emphasized in his quest for the rights of conscience that element of individuality which is so much a part of America.

Roger Williams was a central figure not only in the history of Rhode Island but in the history of this country, and we recognize that by giving him a place of honor and distinction in the rotunda of the Capitol.

Like Senator CHAFEE, I do not object at all to the display of the suffragettes statue. That is once again a recognition of individual Americans who showed us the way, who advocated for the right of people. In fact, their behavior was in some way directly or indirectly inspired by the tradition established by Roger Williams in the 1600's.

I also respect the deliberations of Senator WARNER to find a location which would be appropriate for Roger Williams. But my feeling, as well as my colleague's feeling, is that he is of such a historical character, not just to Rhode Island but to the Nation, that he well deserves a place in the rotunda of the Capitol of the United States.

When Roger Williams came to Rhode Island he created not just a State, but an attitude, an idea, that men and women could worship as they saw fit. He inspired the development of the first Baptist church in America which stands today in Providence. That spirit of tolerance, a respect for individuality, of respect for the dignity of the individual to choose, became a beacon for people around the world to come to Rhode Island. As Senator CHAFEE indicated, the first Jewish synagogue in North America was established in Newport and stands today as a symbol of Roger Williams' legacy, of our commitment to tolerance, and the right and dignity of the individual.

Such accomplishments, which go to the very fiber and the spirit of America, must be recognized, and, in fact, I feel should be appropriately recognized by the display of the Roger Williams statue in the rotunda of the Capitol.

When Roger Williams established Rhode Island, he said he was going to begin a lively experiment, and he has. That lively experiment has spun through the ages the creation of our Government; the very debate that we have here today. His legacy is monumental. His monument should be in the rotunda.

I am proud to join my colleague from Rhode Island to cosponsor this resolution and to urge, along with him, that at the first appropriate moment the statue of Roger Williams should be returned to the rotunda, that its temporary banishment from the rotunda be ended, and that scores of Americans in this generation and generations to come can recognize his accomplishments, can recognize his particular contributions to America and, in recognizing those contributions, can continue to reaffirm the spirit of religious freedom, of tolerance, and of individual dignity which he represents so magnificently. I am proud to be associated with my senior colleague and hope that this Senate will move quickly to support the return of Roger Williams to the rotunda.

I yield the floor.

Mr. KENNEDY addressed the Chair.

The PRESIDING OFFICER. The Senator from Massachusetts.

Mr. KENNEDY. Mr. President, our good friends and colleagues from Rhode Island make a very important statement about one of our very significant, historic leaders. But we in Massachusetts take some credit because Roger Williams really originated in Massachusetts before going to Rhode Island.

As a Senator from Massachusetts, I want to say that all of us in Massachusetts hope that our two friends and col-

leagues are going to be successful because we, too, hold this very important and significant historical figure in very high regard.

SENATE EXECUTIVE RESOLUTION 75—RELATIVE TO THE CHEMICAL WEAPONS CONVENTION

Mr. HELMS submitted the following executive resolution; which was referred to the Committee on Foreign Relations:

S. EXEC. RES. 75

Resolved (two-thirds of the Senators present concurring therein),

SECTION 1. SENATE ADVICE AND CONSENT SUBJECT TO CONDITIONS.

The Senate advises and consents to the ratification of the Chemical Weapons Convention (as defined in section 3 of this resolution), subject to the conditions in section 2.

SEC. 2. CONDITIONS.

The Senate's advice and consent to the ratification of the Chemical Weapons Convention is subject to the following conditions, which shall be binding upon the President:

(1) EFFECT OF ARTICLE XXII.—Upon the deposit of the United States instrument of ratification, the President shall certify to the Congress that the United States has informed all other States Parties to the Convention that the Senate reserves the right, pursuant to the Constitution of the United States, to give its advice and consent to ratification of the Convention subject to reservations, notwithstanding Article XXII of the Convention.

(2) FINANCIAL CONTRIBUTIONS.—Notwithstanding any provision of the Convention, no funds may be drawn from the Treasury of the United States for payments or assistance (including the transfer of in-kind items) under paragraph 16 of Article IV, paragraph 19 of Article V, paragraph 7 of Article VIII, paragraph 23 of Article IX, Article X, or any other provision of the Convention, without statutory authorization and appropriation.

(3) ESTABLISHMENT OF AN INTERNAL OVERSIGHT OFFICE.—

(A) CERTIFICATION.—Not later than 240 days after the deposit of the United States instrument of ratification, the President shall certify to the Congress that the current internal audit office of the Preparatory Commission has been expanded into an independent internal oversight office whose functions will be transferred to the Organization for the Prohibition of Chemical Weapons upon the establishment of the Organization. The independent internal oversight office shall be obligated to protect confidential information pursuant to the obligations of the Confidentiality Annex. The independent internal oversight office shall—

(i) make investigations and reports relating to all programs of the Organization;

(ii) undertake both management and financial audits, including—

(I) an annual assessment verifying that classified and confidential information is stored and handled securely pursuant to the general obligations set forth in Article VIII and in accordance with all provisions of the Annex on the Protection of Confidential Information; and

(II) an annual assessment of laboratories established pursuant to paragraph 55 of Part II of the Verification Annex to ensure that the Director General of the Technical Secretariat is carrying out his functions pursuant to paragraph 56 of Part II of the Verification Annex;

(iii) undertake performance evaluations annually to ensure the Organization has complied to the extent practicable with the recommendations of the independent internal oversight office;

(iv) have access to all records relating to the programs and operations of the Organization;

(v) have direct and prompt access to any official of the Organization; and

(vi) be required to protect the identity of, and prevent reprisals against, all complainants.

(B) COMPLIANCE WITH RECOMMENDATIONS.—The Organization shall ensure, to the extent practicable, compliance with recommendations of the independent internal oversight office, and shall ensure that annual and other relevant reports by the independent internal oversight office are made available to all member states pursuant to the requirements established in the Confidentiality Annex.

(C) WITHHOLDING A PORTION OF CONTRIBUTIONS.—Until a certification is made under subparagraph (A), 50 percent of the amount of United States contributions to the regular budget of the Organization assessed pursuant to paragraph 7 of Article VIII shall be withheld from disbursement, in addition to any other amounts required to be withheld from disbursement by any other provision of law.

(D) ASSESSMENT OF FIRST YEAR CONTRIBUTIONS.—Notwithstanding the requirements of this paragraph, for the first year of the Organization's operation, ending on April 29, 1998, the United States shall make its full contribution to the regular budget of the Organization assessed pursuant to paragraph 7 of Article VIII.

(E) DEFINITION.—For purposes of this paragraph, the term "internal oversight office" means the head of an independent office (or other independent entity) established by the Organization to conduct and supervise objective audits, inspections, and investigations relating to the programs and operations of the Organization.

(4) COST SHARING ARRANGEMENTS.—

(A) ANNUAL REPORTS.—Prior to the deposit of the United States instrument of ratification, and annually thereafter, the President shall submit a report to Congress identifying all cost-sharing arrangements with the Organization.

(B) COST-SHARING ARRANGEMENT REQUIRED.—The United States shall not undertake any new research or development expenditures for the primary purpose of refining or improving the Organization's regime for verification of compliance under the Convention, including the training of inspectors and the provision of detection equipment and on-site analysis sampling and analysis techniques, or share the articles, items, or services resulting from any research and development undertaken previously, without first having concluded and submitted to the Congress a cost-sharing arrangement with the Organization.

(C) CONSTRUCTION.—Nothing in this paragraph may be construed as limiting or restricting in any way the ability of the United States to pursue unilaterally any project undertaken solely to increase the capability of the United States means for monitoring compliance with the Convention.

(5) INTELLIGENCE SHARING AND SAFEGUARDS.—

(A) PROVISION OF INTELLIGENCE INFORMATION TO THE ORGANIZATION.—

(i) IN GENERAL.—No United States intelligence information may be provided to the Organization or any organization affiliated with the Organization, or to any official or employee thereof, unless the President certifies to the appropriate committees of Congress that the Director of Central Intel-

ligence, in consultation with the Secretary of State and the Secretary of Defense, has established and implemented procedures, and has worked with the Organization to ensure implementation of procedures, for protecting from unauthorized disclosure United States intelligence sources and methods connected to such information. These procedures shall include the requirement of—

(I) the offer and provision of advice and assistance to the Organization in establishing and maintaining the necessary measures to ensure that inspectors and other staff members of the Technical Secretariat meet the highest standards of efficiency, competence, and integrity, pursuant to paragraph 1(b) of the Confidentiality Annex, and in establishing and maintaining a stringent regime governing the handling of confidential information by the Technical Secretariat, pursuant to paragraph 2 of the Confidentiality Annex;

(II) a determination that any unauthorized disclosure of United States intelligence information to be provided to the Organization or any organization affiliated with the Organization, or any official or employee thereof, would result in no more than minimal damage to United States national security, in light of the risks of the unauthorized disclosure of such information;

(III) sanitization of intelligence information that is to be provided to the Organization to remove all information that could betray intelligence sources and methods; and

(IV) interagency United States intelligence community approval for any release of intelligence information to the Organization, no matter how thoroughly it has been sanitized.

(ii) WAIVER AUTHORITY.—

(I) IN GENERAL.—The Director of Central Intelligence may waive the application of clause (i) if the Director of Central Intelligence certifies in writing to the appropriate committees of Congress that providing such information to the Organization or an organization affiliated with the Organization, or to any official or employee thereof, is in the vital national security interests of the United States and that all possible measures to protect such information have been taken, except that such waiver must be made for each instance such information is provided, or for each such document provided. In the event that multiple waivers are issued within a single week, a single certification to the appropriate committees of Congress may be submitted, specifying each waiver issued during that week.

(II) DELEGATION OF DUTIES.—The Director of Central Intelligence may not delegate any duty of the Director under this paragraph.

(B) PERIODIC AND SPECIAL REPORTS.—

(i) IN GENERAL.—The President shall report periodically, but not less frequently than semiannually, to the Select Committee on Intelligence of the Senate and the Permanent Select Committee on Intelligence of the House of Representatives on the types and volume of intelligence information provided to the Organization or affiliated organizations and the purposes for which it was provided during the period covered by the report.

(ii) EXEMPTION.—For purposes of this subparagraph, intelligence information provided to the Organization or affiliated organizations does not cover information that is provided only to, and only for the use of, appropriately cleared United States Government personnel serving with the Organization or an affiliated organization.

(C) SPECIAL REPORTS.—

(i) REPORT ON PROCEDURES.—Accompanying the certification provided pursuant to subparagraph (A)(i), the President shall provide a detailed report to the Select Committee on Intelligence of the Senate and the Permanent Select Committee on Intelligence of the

House of Representatives identifying the procedures established for protecting intelligence sources and methods when intelligence information is provided pursuant to this section.

(ii) REPORTS ON UNAUTHORIZED DISCLOSURES.—The President shall submit a report to the Select Committee on Intelligence of the Senate and the Permanent Select Committee on Intelligence of the House of Representatives within 15 days after it has become known to the United States Government regarding any unauthorized disclosure of intelligence provided by the United States to the Organization.

(D) DELEGATION OF DUTIES.—The President may not delegate or assign the duties of the President under this section.

(E) RELATIONSHIP TO EXISTING LAW.—Nothing in this paragraph may be construed to—

(i) impair or otherwise affect the authority of the Director of Central Intelligence to protect intelligence sources and methods from unauthorized disclosure pursuant to section 103(c)(5) of the National Security Act of 1947 (50 U.S.C. 403-3(c)(5)); or

(ii) supersede or otherwise affect the provisions of title V of the National Security Act of 1947 (50 U.S.C. 413 et seq.).

(F) DEFINITIONS.—In this section:

(i) APPROPRIATE COMMITTEES OF CONGRESS.—The term "appropriate committees of Congress" means the Committee on Foreign Relations and the Select Committee on Intelligence of the Senate and the Committee on International Relations and the Permanent Select Committee on Intelligence of the House of Representatives.

(ii) ORGANIZATION.—The term "Organization" means the Organization for the Prohibition of Chemical Weapons established under the Convention and includes any organ of that Organization and any board or working group, such as the Scientific Advisory Board, that may be established by it.

(iii) ORGANIZATION AFFILIATED WITH THE ORGANIZATION.—The terms "organization affiliated with the Organization" and "affiliated organizations" include the Provisional Technical Secretariat under the Convention and any laboratory certified by the Director-General of the Technical Secretariat as designated to perform analytical or other functions.

(6) AMENDMENTS TO THE CONVENTION.—

(A) VOTING REPRESENTATION OF THE UNITED STATES.—A United States representative will be present at all Amendment Conferences and will cast a vote, either affirmative or negative, on all proposed amendments made at such conferences.

(B) SUBMISSION OF AMENDMENTS AS TREATIES.—The President shall submit to the Senate for its advice and consent to ratification under Article II, Section 2, Clause 2 of the Constitution of the United States any amendment to the Convention adopted by an Amendment Conference.

(7) CONTINUING VITALITY OF THE AUSTRALIA GROUP AND NATIONAL EXPORT CONTROLS.—

(A) DECLARATION.—The Senate declares that the collapse of the informal forum of states known as the "Australia Group," either through changes in membership or lack of compliance with common export controls, or the substantial weakening of common Australia Group export controls and non-proliferation measures in force on the date of United States ratification of the Convention, would constitute a fundamental change in circumstances to United States ratification of the Convention.

(B) CERTIFICATION REQUIREMENT.—Prior to the deposit of the United States instrument of ratification, the President shall certify to Congress that—

(i) nothing in the Convention obligates the United States to accept any modification,

change in scope, or weakening of its national export controls;

(ii) the United States understands that the maintenance of national restrictions on trade in chemicals and chemical production technology is fully compatible with the provisions of the Convention, including Article XI(2), and solely within the sovereign jurisdiction of the United States;

(iii) the Convention preserves the right of State Parties, unilaterally or collectively, to maintain or impose export controls on chemicals and related chemical production technology for foreign policy or national security reasons, notwithstanding Article XI(2); and

(iv) each Australia Group member, at the highest diplomatic levels, has officially communicated to the United States Government its understanding and agreement that export control and nonproliferation measures which the Australia Group has undertaken are fully compatible with the provisions of the Convention, including Article XI(2), and its commitment to maintain in the future such export controls and nonproliferation measures against non-Australia Group members.

(C) ANNUAL CERTIFICATION.—

(i) EFFECTIVENESS OF AUSTRALIA GROUP.—The President shall certify to Congress on an annual basis that—

(I) Australia Group members continue to maintain an equally effective or more comprehensive control over the export of toxic chemicals and their precursors, dual-use processing equipment, human, animal and plant pathogens and toxins with potential biological weapons application, and dual-use biological equipment, as that afforded by the Australia Group as of the date of ratification of the Convention by the United States; and

(II) the Australia Group remains a viable mechanism for limiting the spread of chemical and biological weapons-related materials and technology, and that the effectiveness of the Australia Group has not been undermined by changes in membership, lack of compliance with common export controls and nonproliferation measures, or the weakening of common controls and nonproliferation measures, in force as of the date of ratification of the Convention by the United States.

(ii) CONSULTATION WITH SENATE REQUIRED.—In the event that the President is, at any time, unable to make the certifications described in clause (i), the President shall consult with the Senate for the purposes of obtaining a resolution of continued adherence to the Convention, notwithstanding the fundamental change in circumstance.

(D) PERIODIC CONSULTATION WITH CONGRESSIONAL COMMITTEES.—The President shall consult periodically, but not less frequently than twice a year, with the Committee on Foreign Relations of the Senate and the Committee on International Relations of the House of Representatives, on Australia Group export control and nonproliferation measures. If any Australia Group member adopts a position at variance with the certifications and understandings provided under subparagraph (B), or should seek to gain Australia Group acquiescence or approval for an interpretation that various provisions of the Convention require it to remove chemical-weapons related export controls against any State Party to the Convention, the President shall block any effort by that Australia Group member to secure Australia Group approval of such a position or interpretation.

(E) DEFINITIONS.—In this paragraph:

(i) AUSTRALIA GROUP.—The term "Australia Group" means the informal forum of states, chaired by Australia, whose goal is to discourage and impede chemical and biological weapons proliferation by harmonizing na-

tional export controls chemical weapons precursor chemicals, biological weapons pathogens, and dual-use production equipment, and through other measures.

(ii) HIGHEST DIPLOMATIC LEVELS.—The term "highest diplomatic levels" means at the levels of senior officials with the power to authoritatively represent their governments, and does not include diplomatic representatives of those governments to the United States.

(8) NEGATIVE SECURITY ASSURANCES.—

(A) REEVALUATION.—In forswearing under the Convention the possession of a chemical weapons retaliatory capability, the Senate understands that deterrence of attack by chemical weapons requires a reevaluation of the negative security assurances extended to non-nuclear-weapon states.

(B) CLASSIFIED REPORT.—Accordingly, 180 days after the deposit of the United States instrument of ratification, the President shall submit to the Congress a classified report setting forth the findings of a detailed review of United States policy on negative security assurances, including a determination of the appropriate responses to the use of chemical or biological weapons against the Armed Forces of the United States, United States citizens, allies, and third parties.

(9) PROTECTION OF ADVANCED BIOTECHNOLOGY.—Prior to the deposit of the United States instrument of ratification, and on January 1 of every year thereafter, the President shall certify to the Committee on Foreign Relations and the Speaker of the House of Representatives that the legitimate commercial activities and interests of chemical, biotechnology, and pharmaceutical firms in the United States are not being significantly harmed by the limitations of the Convention on access to, and production of, those chemicals and toxins listed in Schedule 1 of the Annex on Chemicals.

(10) MONITORING AND VERIFICATION OF COMPLIANCE.—

(A) DECLARATION.—The Senate declares that—

(i) the Convention is in the interests of the United States only if all State Parties are in strict compliance with the terms of the Convention as submitted to the Senate for its advice and consent to ratification, such compliance being measured by performance and not by efforts, intentions, or commitments to comply; and

(ii) the Senate expects all State Parties to be in strict compliance with their obligations under the terms of the Convention, as submitted to the Senate for its advice and consent to ratification;

(B) BRIEFINGS ON COMPLIANCE.—Given its concern about the intelligence community's low level of confidence in its ability to monitor compliance with the Convention, the Senate expects the executive branch of the Government to offer regular briefings, not less than four times a year, to the Committee on Foreign Relations of the Senate and the Committee on International Relations of the House of Representatives on compliance issues related to the Convention. Such briefings shall include a description of all United States efforts in bilateral and multilateral diplomatic channels and forums to resolve compliance issues and shall include a complete description of—

(i) any compliance issues the United States plans to raise at meetings of the Organization, in advance of such meetings;

(ii) any compliance issues raised at meetings of the Organization, within 30 days of such meeting;

(iii) any determination by the President that a State Party is in noncompliance with or is otherwise acting in a manner inconsistent with the object or purpose of the Convention, within 30 days of such a determination.

(C) ANNUAL REPORTS ON COMPLIANCE.—The President shall submit on January 1 of each year to the Committee on Foreign Relations of the Senate and the Committee on International Relations of the House of Representatives a full and complete classified and unclassified report setting forth—

(i) a certification of those countries included in the Intelligence Community's Monitoring Strategy, as set forth by the Director of Central Intelligence's Arms Control Staff and the National Intelligence Council (or any successor document setting forth intelligence priorities in the field of the proliferation of weapons of mass destruction) that are determined to be in compliance with the Convention, on a country-by-country basis;

(ii) for those countries not certified pursuant to clause (i), an identification and assessment of all compliance issues arising with regard to the adherence of the country to its obligation under the Convention;

(iii) the steps the United States has taken, either unilaterally or in conjunction with another State Party—

(I) to initiate challenge inspections of the noncompliant party with the objective of demonstrating to the international community the act of noncompliance;

(II) to call attention publicly to the activity in question; and

(III) to seek on an urgent basis a meeting at the highest diplomatic level with the noncompliant party with the objective of bringing the noncompliant party into compliance;

(iv) a determination of the military significance and broader security risks arising from any compliance issue identified pursuant to clause (ii); and

(v) a detailed assessment of the responses of the noncompliant party in question to action undertaken by the United States described in clause (iii).

(D) COUNTRIES PREVIOUSLY INCLUDED IN COMPLIANCE REPORTS.—For any country that was previously included in a report submitted under subparagraph (C), but which subsequently is not included in the Intelligence Community's Monitoring Strategy (or successor document), such country shall continue to be included in the report submitted under subparagraph (C) unless the country has been certified under subparagraph (C)(i) for each of the previous two years.

(E) FORM OF CERTIFICATIONS.—For those countries that have been publicly and officially identified by a representative of the intelligence community as possessing or seeking to develop chemical weapons, the certification described in subparagraph (C)(i) shall in be unclassified form.

(F) ANNUAL REPORTS ON INTELLIGENCE.—On January 1, 1998, and annually thereafter, the Director of Central Intelligence shall submit to the Committees on Foreign Relations, Armed Services, and the Select Committee on Intelligence of the Senate and to the Committees on International Relations, National Security, and Permanent Select Committee of the House of Representatives, a full and complete classified and unclassified report regarding—

(i) the status of chemical weapons development, production, stockpiling, and use, within the meanings of those terms under the Convention, on a country-by-country basis;

(ii) any information made available to the United States Government concerning the development, production, acquisition, stockpiling, retention, use, or direct or indirect transfer of novel agents, including any unitary or binary chemical weapon comprised of chemical components not identified on the schedules of the Annex on Chemicals, on a country-by-country basis;

(iii) the extent of trade in chemicals potentially relevant to chemical weapons programs, including all Australia Group chemicals and chemicals identified on the schedules of the Annex on Chemicals, on a country-by-country basis;

(iv) the monitoring responsibilities, practices, and strategies of the intelligence community (as defined in section 3(4) of the National Security Act of 1947) and a determination of the level of confidence of the intelligence community with respect to each specific monitoring task undertaken, including an assessment by the intelligence community of the national aggregate data provided by State Parties to the Organization, on a country-by-country basis;

(v) an identification of how United States national intelligence means, including national technical means and human intelligence, is being marshaled together with the Convention's verification provisions to monitor compliance with the Convention; and

(vi) the identification of chemical weapons development, production, stockpiling, or use, within the meanings of those terms under the Convention, by subnational groups, including terrorist and paramilitary organizations.

(G) REPORTS ON RESOURCES FOR MONITORING.—Each report required under subparagraph (F) shall include a full and complete classified annex submitted solely to the Select Committee on Intelligence of the Senate and to the Permanent Select Committee of the House of Representatives regarding—

(i) a detailed and specific identification of all United States resources devoted to monitoring the Convention, including information on all expenditures associated with the monitoring of the Convention; and

(ii) an identification of the priorities of the executive branch of Government for the development of new resources relating to detection and monitoring capabilities with respect to chemical and biological weapons, including a description of the steps being taken and resources being devoted to strengthening United States monitoring capabilities.

(I) ENHANCEMENTS TO ROBUST CHEMICAL AND BIOLOGICAL DEFENSES.—

(A) SENSE OF THE SENATE.—It is the sense of the Senate that—

(i) chemical and biological threats to deployed United States Armed Forces will continue to grow in regions of concern around the world, and pose serious threats to United States power projection and forward deployment strategies;

(ii) chemical weapons or biological weapons use is a potential element of future conflicts in regions of concern;

(iii) it is essential for the United States and key regional allies to preserve and further develop robust chemical and biological defenses;

(iv) the United States Armed Forces are inadequately equipped, organized, trained and exercised for chemical and biological defense against current and expected threats, and that too much reliance is placed on non-active duty forces, which receive less training and less modern equipment, for critical chemical and biological defense capabilities;

(v) the lack of readiness stems from a de-emphasis of chemical and biological defenses within the executive branch of Government and the United States Armed Forces;

(vi) the armed forces of key regional allies and likely coalition partners, as well as civilians necessary to support United States military operations, are inadequately prepared and equipped to carry out essential missions in chemically and biologically contaminated environments;

(vii) congressional direction contained in the Defense Against Weapons of Mass De-

struction Act of 1996 (title XIV of Public Law 104-201) should lead to enhanced domestic preparedness to protect against chemical and biological weapons threats; and

(viii) the United States Armed Forces should place increased emphasis on potential threats to forces deployed abroad and, in particular, make countering chemical and biological weapons use an organizing principle for United States defense strategy and development of force structure, doctrine, planning, training, and exercising policies of the United States Armed Forces.

(B) ACTIONS TO STRENGTHEN DEFENSE CAPABILITIES.—The Secretary of Defense shall take those actions necessary to ensure that the United States Armed Forces are capable of carrying out required military missions in United States regional contingency plans, despite the threat or use of chemical or biological weapons. In particular, the Secretary of Defense shall ensure that the United States Armed Forces are effectively equipped, organized, trained, and exercised (including at the large unit and theater level) to conduct operations in a chemically or biologically contaminated environment that are critical to the success of the United States military plans in regional conflicts, including—

(i) deployment, logistics, and reinforcement operations at key ports and airfields;

(ii) sustained combat aircraft sortie generation at critical regional airbases; and

(iii) ground force maneuvers of large units and divisions.

(C) DISCUSSIONS WITH REGIONAL ALLIES AND LIKELY COALITION PARTNERS.—

(i) IN GENERAL.—The Secretaries of Defense and State shall, as a priority matter, initiate discussions with key regional allies and likely regional coalition partners, including those countries where the United States currently deploys forces, where United States forces would likely operate during regional conflicts, or which would provide civilians necessary to support United States military operations, to determine what steps are necessary to ensure that allied and coalition forces and other critical civilians are adequately equipped and prepared to operate in chemically and biologically contaminated environments.

(ii) REPORTING REQUIREMENT.—Not later than one year after deposit of the United States instrument of ratification, the Secretaries of Defense and State shall submit a report to the Committees on Foreign Relations and Armed Services of the Senate and to the Speaker of the House on the result of these discussions, plans for future discussions, measures agreed to improve the preparedness of foreign forces and civilians, and proposals for increased military assistance, including through the Foreign Military Sales, Foreign Military Financing, and the International Military Education and Training programs pursuant to the Foreign Assistance Act of 1961.

(D) UNITED STATES ARMY CHEMICAL SCHOOL.—The Secretary of Defense shall take those actions necessary to ensure that the United States Army Chemical School remains under the oversight of a general officer of the United States Army.

(E) SENSE OF THE SENATE.—Given its concerns about the present state of chemical and biological defense readiness and training, it is the sense of the Senate that—

(i) in the transfer, consolidation, and reorganization of the United States Army Chemical School, the Army should not disrupt or diminish the training and readiness of the United States Armed Forces to fight in a chemical-biological warfare environment;

(ii) the Army should continue to operate the Chemical Defense Training Facility at Fort McClellan until such time as the re-

placement training facility at Fort Leonard Wood is functional.

(F) ANNUAL REPORTS ON CHEMICAL AND BIOLOGICAL WEAPONS DEFENSE ACTIVITIES.—On January 1, 1998, and annually thereafter, the President shall submit a report to the Committees on Foreign Relations, Appropriations, and Armed Services of the Senate and the Committee on International Relations, National Security, and Appropriations of the House of Representatives, and Speaker of the House on previous, current, and planned chemical and biological weapons defense activities. The report shall contain for the previous fiscal year and for the next three fiscal years—

(i) proposed solutions to each of the deficiencies in chemical and biological warfare defenses identified in the March 1996 report of the General Accounting Office entitled "Chemical and Biological Defense: Emphasis Remains Insufficient to Resolve Continuing Problems", and steps being taken pursuant to subparagraph (B) to ensure that the United States Armed Forces are capable of conducting required military operations to ensure the success of United States regional contingency plans despite the threat or use of chemical or biological weapons;

(ii) identification of the priorities of the executive branch of Government in the development of both active and passive chemical and biological defenses;

(iii) a detailed summary of all budget activities associated with the research, development, testing, and evaluation of chemical and biological defense programs;

(iv) a detailed summary of expenditures on research, development, testing, and evaluation, and procurement of chemical and biological defenses by fiscal years defense programs, department, and agency;

(v) a detailed assessment of current and projected vaccine production capabilities and vaccine stocks, including progress in researching and developing a multivalent vaccine;

(vi) a detailed assessment of procedures and capabilities necessary to protect and decontaminate infrastructure to reinforce United States power-projection forces, including progress in developing a nonaqueous chemical decontamination capability;

(vii) a description of progress made in procuring light-weight personal protective gear and steps being taken to ensure that programmed procurement quantities are sufficient to replace expiring battle-dress overgarments and chemical protective overgarments to maintain required wartime inventory levels;

(viii) a description of progress made in developing long-range standoff detection and identification capabilities and other battlefield surveillance capabilities for biological and chemical weapons, including progress on developing a multi-chemical agent detector, unmanned aerial vehicles, and unmanned ground sensors;

(ix) a description of progress made in developing and deploying layered theater missile defenses for deployed United States Armed Forces which will provide greater geographic coverage against current and expected ballistic missile threats and will assist in mitigating chemical and biological contamination through higher altitude intercepts and boost-phase intercepts;

(x) an assessment of—

(I) the training and readiness of the United States Armed Forces to operate in a chemically or biologically contaminated environment; and

(II) actions taken to sustain training and readiness, including training and readiness carried out at national combat training centers;

(xi) a description of progress made in incorporating chemical and biological considerations into service and joint exercises as well as simulations, models, and war games and the conclusions drawn from these efforts about the United States capability to carry out required missions, including missions with coalition partners, in military contingencies;

(xii) a description of progress made in developing and implementing service and joint doctrine for combat and non-combat operations involving adversaries armed with chemical or biological weapons, including efforts to update the range of service and joint doctrine to better address the wide range of military activities, including deployment, reinforcement, and logistics operations in support of combat operations, and for the conduct of such operations in concert with coalition forces; and

(xiii) a description of progress made in resolving issues relating to the protection of United States population centers from chemical and biological attack, including plans for inoculation of populations, consequence management, and a description of progress made in developing and deploying effective cruise missile defenses and a national ballistic missile defense.

(12) PRIMACY OF THE UNITED STATES CONSTITUTION.—Nothing in the Convention requires or authorizes legislation, or other action, by the United States prohibited by the Constitution of the United States, as interpreted by the United States.

(13) NONCOMPLIANCE.—

(A) IN GENERAL.—If the President determines that persuasive information exists that a State Party to the Convention is maintaining a chemical weapons production or production mobilization capability, is developing new chemical agents, or is in violation of the Convention in any other manner so as to threaten the national security interests of the United States, then the President shall—

(i) consult with the Senate, and promptly submit to it, a report detailing the effect of such actions;

(ii) seek on an urgent basis a challenge inspection of the facilities of the relevant party in accordance with the provisions of the Convention with the objective of demonstrating to the international community the act of noncompliance;

(iii) seek, or encourage, on an urgent basis a meeting at the highest diplomatic level with the relevant party with the objective of bringing the noncompliant party into compliance;

(iv) implement prohibitions and sanctions against the relevant party as required by law;

(v) if noncompliance has been determined, seek on an urgent basis within the Security Council of the United Nations a multilateral imposition of sanctions against the noncompliant party for the purposes of bringing the noncompliant party into compliance; and

(vi) in the event that the noncompliance continues for a period of longer than one year after the date of the determination made pursuant to subparagraph (A), promptly consult with the Senate for the purposes of obtaining a resolution of support of continued adherence to the Convention, notwithstanding the changed circumstances affecting the object and purpose of the Convention.

(B) CONSTRUCTION.—Nothing in this section may be construed to impair or otherwise affect the authority of the Director of Central Intelligence to protect intelligence sources and methods from unauthorized disclosure pursuant to section 103(c)(5) of the National Security Act of 1947 (50 U.S.C. 403-3(c)(5)).

(C) PRESIDENTIAL DETERMINATIONS.—If the President determines that an action otherwise required under subparagraph (A) would impair or otherwise affect the authority of the Director of Central Intelligence to protect intelligence sources and methods from unauthorized disclosure, the President shall report that determination, together with a detailed written explanation of the basis for that determination, to the chairmen of the Senate Select Committee on Intelligence and the House Permanent Select Committee on Intelligence not later than 15 days after making such determination.

(14) FINANCING RUSSIAN IMPLEMENTATION.—The United States understands that, in order to be assured of the Russian commitment to a reduction in chemical weapons stockpiles, Russia must maintain a substantial stake in financing the implementation of both the 1990 Bilateral Destruction Agreement and the Convention. The United States shall not accept any effort by Russia to make deposit of Russia's instrument of ratification contingent upon the United States providing financial guarantees to pay for implementation of commitments by Russia under the 1990 Bilateral Destruction Agreement or the Convention.

(15) ASSISTANCE UNDER ARTICLE X.—

(A) IN GENERAL.—Prior to the deposit of the United States instrument of ratification, the President shall certify to the Congress that the United States shall not provide assistance under paragraph 7(a) of Article X.

(B) COUNTRIES INELIGIBLE FOR CERTAIN ASSISTANCE UNDER THE FOREIGN ASSISTANCE ACT.—Prior to the deposit of the United States instrument of ratification, the President shall certify to the Congress that for any State Party the government of which is not eligible for assistance under chapter 2 of part II (relating to military assistance) or chapter 4 of part II (relating to economic support assistance) of the Foreign Assistance Act of 1961—

(i) no assistance under paragraph 7(b) of Article X will be provided to the State Party; and

(ii) no assistance under paragraph 7(c) of Article X other than medical antidotes and treatment will be provided to the State Party.

(16) PROTECTION OF CONFIDENTIAL INFORMATION.—

(A) UNAUTHORIZED DISCLOSURE OF UNITED STATES BUSINESS INFORMATION.—Whenever the President determines that persuasive information is available indicating that—

(i) an officer of employee of the Organization has willfully published, divulged, disclosed, or made known in any manner or to any extent not authorized by the Convention any United States confidential business information coming to him in the course of his employment or official duties or by reason of any examination or investigation of any return, report, or record made to or filed with the Organization, or any officer or employee thereof, and

(ii) such practice or disclosure has resulted in financial losses or damages to a United States person,

the President shall, within 30 days after the receipt of such information by the executive branch of Government, notify the Congress in writing of such determination.

(B) WAIVER OF IMMUNITY FROM JURISDICTION.—

(i) CERTIFICATION.—Not later than 270 days after notification of Congress under subparagraph (A), the President shall certify to Congress that the immunity from jurisdiction of such foreign person has been waived by the Director-General of the Technical Secretariat.

(ii) WITHHOLDING OF PORTION OF CONTRIBUTIONS.—If the President is unable to make

the certification described under clause (i), then 50 percent of the amount of each annual United States contribution to the regular budget of the Organization that is assessed pursuant to paragraph 7 of Article VIII shall be withheld from disbursement, in addition to any other amounts required to be withheld from disbursement by any other provision of law, until—

(I) the President makes such certification, or

(II) the President certifies to Congress that the situation has been resolved in a manner satisfactory to the United States person who has suffered the damages due to the disclosure of United States confidential business information.

(C) BREACHES OF CONFIDENTIALITY.—

(i) CERTIFICATION.—In the case of any breach of confidentiality involving both a State Party and the Organization, including any officer or employee thereof, the President shall, within 270 days after providing written notification to Congress pursuant to subparagraph (A), certify to Congress that the Commission described under paragraph 23 of the Confidentiality Annex has been established to consider the breach.

(ii) WITHHOLDING OF PORTION OF CONTRIBUTIONS.—If the President is unable to make the certification described under clause (i), then 50 percent of the amount of each annual United States contribution to the regular budget of the Organization that is assessed pursuant to paragraph 7 of Article VIII shall be withheld from disbursement, in addition to any other amounts required to be withheld from disbursement by any other provision of law, until—

(I) the President makes such certification, or

(II) the President certifies to Congress that the situation has been resolved in a manner satisfactory to the United States person who has suffered the damages due to the disclosure of United States confidential business information.

(D) DEFINITIONS.—In this paragraph:

(i) UNITED STATES CONFIDENTIAL BUSINESS INFORMATION.—The term "United States confidential business information" means any trade secrets or commercial or financial information that is privileged and confidential, as described in section 552(b)(4) of title 5, United States Code, and that is obtained—

(I) from a United States person; and

(II) through the United States National Authority or the conduct of an inspection on United States territory under the Convention.

(ii) UNITED STATES PERSON.—The term "United States person" means any natural person or any corporation, partnership, or other juridical entity organized under the laws of the United States.

(iii) UNITED STATES.—The term "United States" means the several States, the District of Columbia, and the commonwealths, territories, and possessions of the United States.

(17) CONSTITUTIONAL PREROGATIVES.—

(A) FINDINGS.—The Senate makes the following findings:

(i) Article II, Section 2, Clause 2 of the United States Constitution states that the President "shall have Power, by and with the Advice and Consent of the Senate, to make Treaties, provided two-thirds of the Senators present concur".

(ii) At the turn of the century, Senator Henry Cabot Lodge took the position that the giving of advice and consent to treaties constitutes a stage in negotiation on the treaties and that Senate amendments or reservations to a treaty are propositions "offered at a later stage of the negotiation by

the other part of the American treaty making power in the only manner in which they could then be offered”.

(iii) The executive branch of Government has begun a practice of negotiating and submitting to the Senate treaties which include provisions that have the purported effect of—

(I) inhibiting the Senate from attaching reservations that the Senate considers necessary in the national interest; or

(II) preventing the Senate from exercising its constitutional duty to give its advice and consent to treaty commitments before ratification of the treaties.

(iv) During the 85th Congress, and again during the 102d Congress, the Committee on Foreign Relations of the Senate made its position on this issue clear when stating that “the President’s agreement to such a prohibition cannot constrain the Senate’s constitutional right and obligation to give its advice and consent to a treaty subject to any reservation it might determine is required by the national interest”.

(B) SENSE OF THE SENATE.—It is the sense of the Senate that—

(i) the advice and consent given by the Senate in the past to ratification of treaties containing provisions which prohibit amendments or reservations should not be construed as a precedent for such provisions in future treaties;

(ii) United States negotiators to a treaty should not agree to any provision that has the effect of inhibiting the Senate from attaching reservations or offering amendments to the treaty; and

(iii) the Senate should not consent in the future to any article or other provision of any treaty that would prohibit the Senate from giving its advice and consent to ratification of the treaty subject to amendment or reservation.

(18) LABORATORY SAMPLE ANALYSIS.—Prior to the deposit of the United States instrument of ratification, the President shall certify to the Senate that no sample collected in the United States pursuant to the Convention will be transferred for analysis to any laboratory outside the territory of the United States.

(19) EFFECT ON TERRORISM.—The Senate finds that—

(A) without regard to whether the Convention enters into force, terrorists will likely view chemical weapons as a means to gain greater publicity and instill widespread fear; and

(B) the March 1995 Tokyo subway attack by the Aum Shinrikyo would not have been prevented by the Convention.

(20) CONSTITUTIONAL SEPARATION OF POWERS.—

(A) FINDINGS.—The Senate makes the following findings:

(i) Article VIII(8) of the Convention allows a State Party to vote in the Organization if the State Party is in arrears in the payment of financial contributions and the Organization is satisfied that such nonpayment is due to conditions beyond the control of the State Party.

(ii) Article I, Section 8 of the United States Constitution vests in Congress the exclusive authority to “pay the Debts” of the United States.

(iii) Financial contributions to the Organization may be appropriated only by Congress.

(B) SENSE OF SENATE.—It is therefore the sense of the Senate that—

(i) such contributions thus should be considered, for purposes of Article VIII(8) of the Convention, beyond the control of the executive branch of the United States Government; and

(ii) the United States vote in the Organization should not be denied in the event that Congress does not appropriate the full amount of funds assessed for the United States financial contribution to the Organization.

(21) ON-SITE INSPECTION AGENCY.—It is the sense of the Senate that the On-Site Inspection Agency of the Department of Defense should have the authority to provide assistance in advance of any inspection to any facility in the United States that is subject to a routine inspection under the Convention, or to any facility in the United States that is the object of a challenge inspection conducted pursuant to Article IX, if the consent of the owner or operator of the facility has first been obtained.

(22) LIMITATION ON THE SCALE OF ASSESSMENT.—

(A) LIMITATION ON ANNUAL ASSESSMENT.—Notwithstanding any provision of the Convention, and subject to the requirements of subparagraphs (B), (C), and (D) the United States shall pay as a total annual assessment of the costs of the Organization pursuant to paragraph 7 of Article VIII not more than \$25,000,000.

(B) RECALCULATION OF LIMITATION.—On January 1, 2000, and at each 3-year interval thereafter, the amount specified in subparagraph (A) is to be recalculated by the Administrator of General Services, in consultation with the Secretary of State, to reflect changes in the consumer price index for the immediately preceding 3-year period.

(C) ADDITIONAL CONTRIBUTIONS REQUIRING CONGRESSIONAL APPROVAL.—

(i) AUTHORITY.—Notwithstanding subparagraph (A), the President may furnish additional contributions which would otherwise be prohibited under subparagraph (A) if—

(I) the President determines and certifies in writing to the Speaker of the House of Representatives and the Committee on Foreign Relations of the Senate that the failure to provide such contributions would result in the inability of the Organization to conduct challenge inspections pursuant to Article IX or would otherwise jeopardize the national security interests of the United States; and

(II) Congress enacts a joint resolution approving the certification of the President.

(ii) STATEMENT OF REASONS.—The President shall transmit with such certification a detailed statement setting forth the specific reasons therefor, and the specific uses to which the additional contributions provided to the Organization would be applied.

(D) ADDITIONAL CONTRIBUTIONS FOR VERIFICATION.—Notwithstanding subparagraph (A), for a period of not more than ten years, the President may furnish additional contributions to the Organization for the purposes of meeting the costs of verification under Articles IV and V.

(23) ADDITIONS TO THE ANNEX ON CHEMICALS.—

(A) PRESIDENTIAL NOTIFICATION.—Not later than 10 days after the Director-General of the Technical Secretariat communicates information to all States Parties pursuant to Article XV(5)(a) of a proposal for the addition of a chemical or biological substance to a schedule of the Annex on Chemicals, the President shall notify the Committee on Foreign Relations of the Senate of the proposed addition.

(B) PRESIDENTIAL REPORT.—Not later than 60 days after the Director-General of the Technical Secretariat communicates information of such a proposal pursuant to Article XV(5)(a) or not later than 30 days after a positive recommendation by the Executive Council pursuant to Article XV(5)(c), whichever is sooner, the President shall submit to the Committee on Foreign Relations of the Senate a report, in classified and unclassified

form, detailing the likely impact of the proposed addition to the Annex on Chemicals. Such report shall include—

(i) an assessment of the likely impact on United States industry of the proposed addition of the chemical or biological substance to a schedule of the Annex on Chemicals;

(ii) a description of the likely costs and benefits, if any, to United States national security of the proposed addition of such chemical or biological substance to a schedule of the Annex on Chemicals; and

(iii) a detailed assessment of the effect of the proposed addition on United States obligations under the Verification Annex.

(C) PRESIDENTIAL CONSULTATION.—The President shall, after the submission of the notification required under subparagraph (A) and prior to any action on the proposal by the Executive Council under Article XV(5)(c), consult promptly with the Senate as to whether the United States should object to the proposed addition of a chemical or biological substance pursuant to Article XV(5)(c).

(24) TREATY INTERPRETATION.—The Senate affirms the applicability to all treaties of the Constitutionally based principles of treaty interpretation set forth in Condition (I) of the resolution of ratification with respect to the INF Treaty. For purposes of this declaration, the term “INF Treaty” refers to the Treaty Between the United States of America and the Union of Soviet Socialist Republics on the Elimination of Their Intermediate-Range and Shorter Range Missiles, together with the related memorandum of understanding and protocols, approved by the Senate on May 27, 1988.

(25) FURTHER ARMS REDUCTIONS OBLIGATIONS.—The Senate declares its intention to consider for approval international agreements that would obligate the United States to reduce or limit the Armed Forces or armaments of the United States in a militarily significant manner only pursuant to the treaty power as set forth in Article II, section 2, clause 2 of the Constitution.

(26) RIOT CONTROL AGENTS.—

(A) PERMITTED USES.—Prior to the deposit of the United States instrument of ratification, the President shall certify to Congress that the United States is not restricted by the Convention in its use of riot control agents, including the use against combatants who are parties to a conflict, in any of the following cases:

(i) UNITED STATES NOT A PARTY.—The conduct of peacetime military operations within an area of ongoing armed conflict when the United States is not a party to the conflict (such as recent use of the United States Armed Forces in Somalia, Bosnia, and Rwanda).

(ii) CONSENSUAL PEACEKEEPING.—Consensual peacekeeping operations when the use of force is authorized by the receiving state, including operations pursuant to Chapter VI of the United Nations Charter.

(iii) CHAPTER VII PEACEKEEPING.—Peacekeeping operations when force is authorized by the Security Council under Chapter VII of the United Nations Charter.

(B) IMPLEMENTATION.—The President shall take no measure, and prescribe no rule or regulation, which would alter or eliminate Executive Order 11850 of April 8, 1975.

(C) DEFINITION.—In this paragraph, the term “riot control agent” has the meaning given the term in Article II(7) of the Convention.

(27) CHEMICAL WEAPONS DESTRUCTION.—Prior to the deposit of the United States instrument of ratification of the Convention, the President shall certify to the Congress that all of the following conditions are satisfied:

(A) **EXPLORATION OF ALTERNATIVE TECHNOLOGIES.**—The President has agreed to explore alternative technologies for the destruction of the United States stockpile of chemical weapons in order to ensure that the United States has the safest, most effective and environmentally sound plans and programs for meeting its obligations under the Convention for the destruction of chemical weapons.

(B) **CONVENTION EXTENDS DESTRUCTION DEADLINE.**—The requirement in section 1412 of Public Law 99-145 (50 U.S.C. 1521) for completion of the destruction of the United States stockpile of chemical weapons by December 31, 2004, will be superseded upon the date the Convention enters into force with respect to the United States by the deadline required by the Convention of April 29, 2007.

(C) **AUTHORITY TO EMPLOY A DIFFERENT DESTRUCTION TECHNOLOGY.**—The requirement in Article III(1)(a)(v) of the Convention for a declaration by each State Party not later than 30 days after the date the Convention enters into force with respect to that Party, on general plans of the State Party for destruction of its chemical weapons does not preclude in any way the United States from deciding in the future to employ a technology for the destruction of chemical weapons different than that declared under that Article.

(D) **PROCEDURES FOR EXTENSION OF DEADLINE.**—The President will consult with Congress on whether to submit a request to the Executive Council of the Organization for an extension of the deadline for the destruction of chemical weapons under the Convention, as provided under part IV(A) of the Annex on Implementation and Verification to the Convention, if, as a result of the program of alternative technologies for the destruction of chemical munitions carried out under section 8065 of the Department of Defense Appropriations Act, 1997 (as contained in Public Law 104-208), the President determines that alternatives to the incineration of chemical weapons are available that are safer and more environmentally sound but whose use would preclude the United States from meeting the deadlines of the Convention.

(28) **CONSTITUTIONAL PROTECTION AGAINST UNREASONABLE SEARCH AND SEIZURE.**—

(A) **IN GENERAL.**—In order to protect United States citizens against unreasonable searches and seizures, prior to the deposit of the United States instrument of ratification, the President shall certify to Congress that—

(i) for any challenge inspection conducted on the territory of the United States pursuant to Article IX, where consent has been withheld, the United States National Authority will first obtain a criminal search warrant based upon probable cause, supported by oath or affirmation, and describing with particularity the place to be searched and the persons or things to be seized; and

(ii) for any routine inspection of a declared facility under the Convention that is conducted on an involuntary basis on the territory of the United States, the United States National Authority first will obtain an administrative search warrant from a United States magistrate judge.

(B) **DEFINITION.**—For purposes of this resolution, the term "National Authority" means the agency or office of the United States Government designated by the United States pursuant to Article VII(4) of the Convention.

(29) **RUSSIAN ELIMINATION OF CHEMICAL WEAPONS.**—Prior to the deposit of the United States instrument of ratification, the President shall certify to the Congress that—

(A) Russia is making reasonable progress in the implementation of the Agreement between the United States of America and the

Union of Soviet Socialist Republics on Destruction and Nonproduction of Chemical Weapons and on Measures to Facilitate the Multilateral Convention on Banning Chemical Weapons, signed on June 1, 1990 (in this resolution referred to as the "1990 Bilateral Destruction Agreement");

(B) the United States and Russia have resolved, to the satisfaction of the United States, outstanding compliance issues under the Memorandum of Understanding Between the Government of the United States of America and the Union of Soviet Socialist Republics Regarding a Bilateral Verification Experiment and Data Exchange Related to Prohibition on Chemical Weapons, signed at Jackson Hole, Wyoming, on September 23, 1989, also known as the "1989 Wyoming Memorandum of Understanding", and the 1990 Bilateral Destruction Agreement;

(C) Russia has deposited the Russian instrument of ratification for the Convention and is in compliance with its obligations under the Convention; and

(D) Russia is committed to forgoing any chemical weapons capability, chemical weapons modernization program, production mobilization capability, or any other activity contrary to the object and purpose of the Convention.

(30) **CHEMICAL WEAPONS IN OTHER STATES.**—

(A) **CERTIFICATION REQUIREMENT.**—Prior to the deposit of the United States instrument of ratification the President, in consultation with the Director of Central Intelligence, shall certify to the Congress that countries which have been determined to have offensive chemical weapons programs, including Iran, Iraq, Syria, Libya, the Democratic People's Republic of Korea, China, and all other countries determined to be state sponsors of international terrorism, have ratified or otherwise acceded to the Convention.

(31) **EXERCISE OF RIGHT TO BAR CERTAIN INSPECTORS.**—

(i) **IN GENERAL.**—The President shall exercise United States rights under paragraphs 2 and 4 of Part II of the Verification Annex to indicate United States non-acceptance of all inspectors and inspection assistants who are nationals of countries designated by the Secretary of State as supporters of international terrorism under section 40(d) of the Arms Export Control Act, or nationals of countries that have been determined by the President, in the last five years, to have violated United States nonproliferation law, including—

(I) chapters 7, 8, and 10 of the Arms Export Control Act;

(II) sections 821 and 824 of the Nuclear Proliferation Prevention Act of 1994;

(III) sections 11b and 11c of the Export Administration Act of 1979;

(IV) the Export-Import Bank Act of 1945; and

(V) sections 1604 and 1605 of the Iran-Iraq Nonproliferation Act of 1992.

(ii) **OTHER GROUNDS OF EXCLUSION.**—The President shall also bar such nationals from entering United States territory for the purpose of conducting any activity associated with the Convention, notwithstanding paragraph 7 of Part II of the Verification Annex.

(32) **STEMMING THE PROLIFERATION OF CHEMICAL WEAPONS.**—Prior to the deposit of the United States instrument of ratification, the President shall certify to Congress that—

(A) the State Parties have concluded an agreement amending the Convention—

(i) by striking Article X; and

(ii) by amending Article XI to strike any provision that states or implies disapproval of trade restrictions in the field of chemical activities, including paragraphs 2(b), 2(c), 2(d), and 2(e); and

(B) no provision has been added to the Convention or to any of its annexes, and no

statement, written or oral, has been issued by the Organization, stating or implying the right or obligation of States Parties to share or facilitate the exchange among themselves of chemical weapons defense technology, chemicals, equipment, or scientific and technical information.

(33) **EFFECTIVE VERIFICATION.**—

(A) **CERTIFICATION.**—Prior to the deposit of the United States instrument of ratification, the President shall certify to Congress that compliance with the Convention is effectively verifiable.

(B) **DEFINITIONS.**—In this paragraph:

(i) **EFFECTIVELY VERIFIABLE.**—The term "effectively verifiable" means that the Director of Central Intelligence has certified to the President that the United States intelligence community (as defined in section 3(4) of the National Security Act of 1947) has a high degree of confidence in its ability to detect militarily significant violations of the Convention, including the production, possession, or storage of militarily significant quantities of lethal chemicals, in a timely fashion, and to detect patterns of marginal violation over time.

(ii) **MILITARILY SIGNIFICANT.**—The term "militarily significant" means one metric ton or more of chemical weapons agent.

(iii) **TIMELY FASHION.**—The term "timely fashion" means detection within one year of the violation having occurred.

SEC. 3. DEFINITIONS.

As used in this resolution:

(1) **CHEMICAL WEAPONS CONVENTION OR CONVENTION.**—The terms "Chemical Weapons Convention" and "Convention" mean the Convention on the Prohibition of Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction, Opened for Signature and Signed by the United States at Paris on January 13, 1993, including the following protocols and memorandum of understanding, all such documents being integral parts of and collectively referred to as the "Chemical Weapons Convention" or the "Convention" (contained in Treaty Document 103-21):

(A) The Annex on Chemicals.

(B) The Annex on Implementation and Verification.

(C) The Annex on the Protection of Confidential Information.

(D) The Resolution Establishing the Preparatory Commission for the Organization for the Prohibition of Chemical Weapons.

(E) The Text on the Establishment of a Preparatory Commission.

(2) **ORGANIZATION.**—The term "Organization" means the Organization for the Prohibition of Chemical Weapons established under the Convention.

(3) **STATE PARTY.**—The term "State Party" means any nation that is a party to the Convention.

(4) **UNITED STATES INSTRUMENT OF RATIFICATION.**—The term "United States instrument of ratification" means the instrument of ratification of the United States of the Convention.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON AGRICULTURE, NUTRITION, AND FORESTRY

Mrs. HUTCHISON. Mr. President, I ask unanimous consent that the Committee on Agriculture, Nutrition, and Forestry be allowed to meet during the session of the Senate on Thursday, April 17, 1997, at 9 a.m. in SR-328A to receive testimony regarding crop and revenue insurance oversight.
