SENATE RESOLUTION 85—  
RELATIVE TO BREAST CANCER

Mr. GREGG (for himself and Mr. SMITH of New Hampshire) submitted the following resolution; which was referred to the Committee on Labor and Human Resources:

## S. RES. 85

Whereas individuals with breast cancer need a support system in their time of need;

Whereas breast cancer is a disease of epidemic proportions, with 43,900 individuals in the United States expected to die from breast cancer in 1997, and 1 out of every 8 women in the United States expected to develop breast cancer in her lifetime;

Whereas the millions of family members, including spouses, children, parents, siblings, and other loved ones of person's with breast cancer can offer strong emotional support to each other in addition to the support they offer to patients and survivors dealing with their challenges;

Whereas it is important that the United States as a whole support the family members and other loved ones of individuals with breast cancer in addition to supporting the individual with breast cancer; and

Whereas 1997 brings the 25th anniversary of the National Cancer Program providing research, training, health information dissemination, and other programs with respect to the cause, diagnosis, prevention and treatment of cancer, rehabilitation from cancer, and the continuing care of cancer patients and their families: Now, therefore, be it

*Resolved*, That it is the sense of the Senate that an environment be encouraged where—

(1) the family members and loved ones of individuals with breast cancer can support each other in addition to the individual with breast cancer; and

(2) everything possible should be done to support both the individuals with breast cancer as well as the family and loved ones of individuals with breast cancer through public awareness and education.

Mr. GREGG. Mr. President, I rise today to submit, for myself and Senator SMITH of New Hampshire, a Senate resolution expressing the sense of the Senate that individuals afflicted with breast cancer should not be alone in their fight against the terrifying disease. With Mother's Day coming up this Sunday, May 11, it seems especially appropriate that we recognize the extent to which our society is affected by this disease, as well as the

importance of supporting breast cancer patients and their family members and friends who are all meeting the challenges of this disease at the side of their loved one.

In 1997, it is estimated that 1 out of every 8 women will develop breast cancer in her lifetime and nearly 44,000 individuals will die of the disease this year. In New Hampshire alone there are 12,700 women living with breast cancer, and 230 women are expected to die of this terrible disease in 1997. With each of these individuals come loved ones who are also impacted. It is imperative to have a strong support system not only for individuals with breast cancer but for the family and friends who make up their support system. Our recognition of the millions of people who are dealing with similar struggles can help both the breast cancer patients and their loved ones to stay strong during their times of need.

With this resolution, we hope to encourage an environment in New Hampshire, and across the Nation, where support is provided to both the individuals with breast cancer as well as their family and friends through public awareness and education, and where family members and loved ones of individuals with breast cancer support each other in along with the individual facing breast cancer.
