

products to lucrative Canadian markets. Not only must USTR aggressively pursue WTO dispute settlement proceedings against Canadian export subsidies, but it must also seek greater access for United States dairy products to Canadian markets, among others, in any upcoming trade negotiations.

I also raised with Mr. Scher the problems the United States potato industry has had with respect to access to both Canadian and Mexican markets. I urged him to pursue negotiations with the Canadians to allow greater access of United States potatoes to their domestic markets and to aggressively seek accelerated reduction in Mexican tariffs for United States potatoes, a commitment made to potato growers when NAFTA was approved. Mr. Scher assured me that potatoes would be among the commodities to be considered in upcoming negotiations with Mexico.

I believe Mr. Scher has a fundamental understanding of both the importance of trade to agriculture generally and of the complex trade problems the U.S. dairy industry faces regarding compliance with existing trade agreements. For that reason, I support the approval of his nomination. But I expect USTR, with Mr. Scher acting as Ambassador, to aggressively pursue the resolution of the critical issues facing our domestic dairy and potato sectors. I will continue to work with USTR to resolve these issues and will hold Mr. Scher to his commitment that USTR will use all existing tools to ensure compliance with existing trade agreements and to pursue greater access for agriculture to international markets.

I continue to have serious reservations about United States efforts to begin new trade negotiations until the problems with our current bilateral and multilateral agreements are successfully resolved. Wisconsin is home to 24,000 dairy farmers, 140 cheese processing plants and many other businesses associated with milk production and processing. Dairy contributes some \$4 billion in income to Wisconsin's economy and provides 130,000 jobs. Wisconsin is also the fifth largest potato producing State with a large chip and french fry processing sector. Overall, Wisconsin ranks 10th in the Nation in farm numbers and 9th nationally with respect to market value of agricultural products sold.

Wisconsin's farmers and food processing industry could greatly benefit by gaining a greater share of international markets. However, for that to happen, our trade agreements must not only be fair, they must be enforceable. To date, our trade agreements have not only failed to provide significant benefits for many agricultural sectors, including dairy, they have placed some sectors at a distinct disadvantage. I will look at all future trade agreement proposals with an eye to these issues and make decisions on those proposals based, in part, on how they treat Wisconsin farmers.●

Whereas every dollar provided for nutrition services under the Older Americans Act of 1965 is supplemented by \$1.70 from State, local, tribal, and other Federal funds;
