

anniversary of the Expanded Nutrition Program. On Monday, I will be with the Expanded Nutrition Program of the Texas Agricultural Extension Service at Texas A&M University—Corpus Christi to celebrate this all-important anniversary.

We are all fortunate enough to know how very important, how very fundamental, nutrition is to each of us. Each one of us, for better or worse, is a product of what we began to eat when we were younger. I am so very proud of the work South Texans have done to learn more about nutrition.

I am so grateful for the vision in association with the Expanded Nutrition Program (ENP) in Texas. ENP has been providing nutrition education to poor families and children since 1968, and it is easily one of our most productive programs.

ENP teaches an assortment of things all of us need in order to be productive, healthy citizens: life skills, self-sufficiency, better health and nutrition, careful budgeting, commitment, responsibility and personal success. All in all, ENP leads the way to a healthier way of life. Better still, ENP saves us money; each dollar spent on ENP is \$10 saved on health care costs.

ENP teaches lessons about food and nutrition in a supportive environment. The "Kids in the Kitchen" program provides leadership development for young people who need esteem or leadership skills. Young people who help prepare family meals learn valuable lessons about sharing workload and responsibility.

Through the Texas Agricultural Extension Service, Texans have learned about basic nutrition, managing a food budget, food safety and food preparation. Women who are returning to work can learn to prepare quick and easy, yet nutritious, meals to ease the family's adjustment to the change. Positive, productive activities may reduce the chance of risky behavior.

I want to ask all my colleagues to join me today in observing the 30th anniversary of the Expanded Nutrition Program.

PERSONAL EXPLANATION

HON. ANTHONY D. WEINER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, June 18, 1999

Mr. WEINER. Mr. Speaker, on rollcall No. 218 had I been present, I would have voted "no."

SAN ANTONIO WATER SYSTEM RECYCLING PROJECT

HON. CIRO D. RODRIGUEZ

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 18, 1999

Mr. RODRIGUEZ. Mr. Speaker, I am pleased today to introduce legislation to promote water conservation and recycling in San Antonio, Texas. This legislation enjoys the bipartisan support of the other members of the San Antonio congressional delegation who join as original co-sponsors.

Like many places across the Nation, San Antonio and the entire central Texas region

faces the challenge of providing adequate supplies of water for human consumption, agriculture, industry, and recreation. Unlike other areas, San Antonio depends on a sole source for its drinking water—the Edwards Aquifer.

This legislation would authorize the San Antonio Water System (SAWS) Water Recycling Project Phase III. SAWS has embarked on an ambitious project to recycle water that can then be used for a host of industrial and non-potable uses. Upon completion of the project, SAWS expects to save 35,000 acre feet of water, roughly equivalent to 31.2 million gallons per day. As a result, more than 11 billion gallons a year of aquifer water will be available for potable use. This saving will free up an amount equal to approximately twenty percent of the City of San Antonio's current withdrawals from the Edwards Aquifer.

The SAWS recycling project meets federal goals for Bureau of Reclamation water projects under Title XVI of the Reclamation Wastewater and Groundwater Study and Facilities Act of 1992, as amended (PL 102-575). Specifically, the San Antonio Recycled Water Project will: reduce demand on and use of the Edwards Aquifer water supply and will help protect federally-protected endangered species dependent on spring flows originating in the Edwards Aquifer; reduce and postpone San Antonio's need to develop new water resources; foster a region-wide perspective in addressing usage issues across the Edwards Aquifer area, as well as the San Antonio and Guadalupe Rivers watersheds; and provide economic benefits to a community with significantly economically disadvantaged sectors. Phase III is expected to cost approximately \$20 million, and the federal share would be \$5 million.

The FY 1998 Energy and Water Appropriation Bill contained a \$200,000 "earmark" for the Bureau to conduct a review of San Antonio's environmental assessment and feasibility study of the reuse program. Staff of the Bureau of Reclamation are currently working in coordination with staff of the San Antonio Water System to perform this review. The SAWS project authorization was included in S. 901 in the 104th Congress, a bill reported favorably by the Senate Committee on Energy and Natural Resources. Unfortunately, that version of the bill did not become law.

We face a continuing challenge to use our natural resources more efficiently so that we can meet our communal obligation to provide high quality drinking water to all of our neighborhoods and to maintain a supply of water for economic growth and expansion. In San Antonio, our five military installations will benefit from the recycling project, reducing their need to rely on Edwards Aquifer water. Other large water consumers will also switch to recycled water for non-potable uses, helping us better manage our water supply. SAWS has stepped up to the plate to find long-term solutions, and this recycling project is part of that plan. I am honored to join with my colleagues from San Antonio, Congressman LAMAR SMITH, Congressman HENRY BONILLA, and Congressman CHARLES GONZALEZ, as original co-sponsors of this legislation.

BETHESDA FALCONS WIN RECORD
SEVENTH MARYLAND SOCCER
TITLE

HON. CONSTANCE A. MORELLA

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Friday, June 18, 1999

Mrs. MORELLA. Mr. Speaker, it is my great pleasure to congratulate the Bethesda Soccer Club Falcons for their victory in the U-16 girls Maryland State Cup championship. Their defeat of the Soccer Club of Baltimore Force on Saturday, June 5, by the score of 11-0, marked the Falcon's seventh consecutive title, a Maryland record. The Falcons have won the title each year since they have been eligible to compete for the State Cup. The team will travel to Rhode Island next month to compete in the U.S. Youth Soccer Association Eastern Regional Championships.

The Force battled throughout the game and never relented, but the Falcons' stout defense, anchored by defenders Caitlin Curtis, Amy Salomon, Alison West, and goalies Anna Halse-Strumberg, and Kerry York, limited the Force to just a handful of shots. On offense, the Falcons were led by three goal performances from Audra Poulin and Jenny Potter. Jenna Linden contributed two goals with Christi Bird, Stephanie Sybert, and Allison Dooley tallying the remaining scores. The Falcon midfielders, Beth Hendricks, Tara Quinn, Jennifer Fields, Susannah Empson, and Tanya Hahnel, played a key role in transition between offense and defense. The Falcon defense did not allow a goal in the five games of the 1999 State Cup tournament while the offense recorded 29 goals. On Sunday, the Falcons ended their regular season with a first place finish in the Washington Area Girls Soccer Association U-17 Premier Division. The team was guided by coach Richie Burke.

MANDATORY GUN SHOW BACKGROUND CHECK ACT

SPEECH OF

HON. JAMES A. BARCIA

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 17, 1999

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 2122) to require background checks at gun shows, and for other purposes:

Mr. BARCIA. Mr. Chairman, I rise in support of the Dingell, Oberstar, Stenholm, Tanner, Cramer, John amendment.

The amendment addresses several concerns that are important to my constituents in the Fifth District of Michigan. H.R. 2122, as written would allow a 72-hour delay at Gun Shows if the instant check is not approved. In my district, many of my constituents purchase their firearms at Gun Shows because of the rural nature of this area and access to firearms for hunting or self-protection is not readily available. The Dingell Amendment would not strike the instant check at gun shows, but would lower the 72-hour delay to 24 hours. In many cases, a gun show is only in an area for 2 days. The three-day delay would prevent many law-abiding citizens from purchasing

legal firearms. With more than 92 percent of the delays approved, this would be a severe restriction for those law-abiding citizens who want to exercise their Second Amendment Rights. Under current law, in a majority of cases, if the purchaser of the firearm is later to be found in violation of state or federal law, the police were able to recover the firearm with little difficulty.

I strongly believe that we should support every effort to protect the rights of law-abiding citizens and punish those who ignore the law—particularly those who use a firearm and injure or kill their victim. This Amendment increases the penalty for criminals who use a banned assault weapon in conjunction with a crime.

A 72-hour check is a back door effort to stop otherwise legal gun sales. We can do it instantly with today's technology. If you want to ban gun sales then say so. If you want reasonable safety check, then a 24-hour delay is enough. I urge adoption of the Dingell Amendment.

LEGISLATION TO PROTECT SENSITIVE CALIFORNIA LANDS

HON. SAM FARR

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 18, 1999

Mr. FARR of California. Mr. Speaker, I rise today to give notice to my colleagues that I am introducing three pieces of legislation to help protect sensitive California lands. The first bill is the California Coastal Rocks and Islands Wilderness Act of 1999. I am pleased to be able to offer this bill with bipartisan support and want to thank my colleagues, Messrs. GALLEGLY, WAXMAN, CAMPBELL, STARK, BILBRAY, Ms. ESHOO and Mrs. CAPPS for joining me in this effort.

Mr. Speaker, the purpose of this bill is to recognize the ecological significance of the tens of thousands of small rocks, islands and pinnacles off the California coast, by designating them as part of the National Wilderness Preservation System. These small islands and rocks provide important resting sites for California sea lions, Steller's sea lions, elephant seals and harbor seals, as well as providing a narrow flight lane in the Pacific Flyway.

An estimated 200,000 breeding seabirds of 13 different species use these rocks and islands for feeding, perching, nesting and shelter. Birds that use these areas include three threatened and endangered species: the brown pelican, the least tern and the peregrine falcon.

The Wilderness designation afforded by this act would apply to all rocks, islands and pinnacles off the California coast from the Oregon border to the U.S. Mexico border, which are currently under the jurisdiction of the Bureau of Land Management (BLM). This includes nearly all of the federally-owned lands above the mean high tide and within three geographical miles off the coast.

The designation would afford the highest protected status and highlight the ecological importance of all of the small rocks, islands and pinnacles off the California coast, which together comprise approximately 7,000 square acres. Adding these areas would also further the Wilderness Act's goal of including unique,

ecologically representative areas to the System.

Rocks and islands which are already patented or reserved for marine navigational aids, National Monuments, or state parks will not be affected by the legislation.

I am pleased to be able to introduce this bill and look forward to its swift passage, so that these unique areas of California's ecosystem can be preserved and protected for generations to come.

Mr. Speaker, the second piece of legislation that I am introducing today is the "Pinnacles National Monument Boundary Adjustment Act of 1999". This legislation transfers land that is currently under the jurisdiction of the Bureau of Land Management to the National Park Service at the Pinnacles National Monument in California.

This "no cost" land exchange will also designate the additional land acquired by the National Park Service as a component of the National Wilderness Preservation System. I would like to point out that this will not change the current management practices that have been conducted by the Bureau of Land Management.

Finally, this legislation authorizes the Secretary to acquire additional lands depicted on the map through purchase, donation, or a combination thereof.

Mr. Speaker, the third piece of legislation that I am introducing will require the National Park Service to conduct a feasibility study regarding options for the protection and expanded visitor enjoyment of nationally significant natural and cultural resources at Fort Hunter Liggett, California.

Under BRAC several historic buildings are now being transferred to the National Park Service from the United States Army. In addition, other cultural sites, cultural landscapes, buildings, and the natural resources of the entire 165,000 acre fort area merit evaluation for future protection and visitor enjoyment, either in concern with military activities or in the event of future military downsizing.

Fort Hunter Liggett and the surrounding areas have a deep and storied history. Serving as hunting grounds, for more than 10,000 years, archaeologists have found artifacts throughout the San Antonio Valley and the Santa Lucia Mountains. In 1771, construction began on Mission San Antonio, the third mission established in California which is a working inholding that can still be visited.

To quote Wendell Berry "To cherish what remains of the Earth and to foster its renewal is our only legitimate hope of survival," Mr. Speaker, I urge you and our colleagues to join me in supporting these three pieces of legislation that will help to protect our coasts, lands and history. If we lose this opportunity we will not get another chance once damage has occurred.

A TRIBUTE TO THE HISTORIC ANDERSON COTTAGE—SUMMER WHITE HOUSE TO THREE PRESIDENTS

HON. ELEANOR HOLMES NORTON

OF THE DISTRICT OF COLUMBIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 18, 1999

Ms. NORTON. Mr. Speaker, on the grounds of the U.S. Soldiers' and Airmen's Home

(USSAH) in Northwest Washington, D.C., sits one of our country's most historic buildings, the Anderson Cottage. Rarely visited and virtually unknown, it was the summer White House of three U.S. presidents: Chester Arthur, Rutherford B. Hayes, and, most notably, Abraham Lincoln. President Lincoln spent a quarter of his presidency living at the Soldiers' Home and it was in Anderson Cottage where he wrote the last draft of the Emancipation Proclamation.

The building is in need of restoration, and the USSAH has been working with the National Trust for Historic Preservation to find funding to restore the building and open it up as an historic site. Anderson Cottage also is listed as one of the First Lady's "Save America's Treasures" sites. The following article illustrates the importance of this home, as well as the equally historic Soldiers' and Airmen's Home on which it sits.

[From the Washington Times, March 18, 1999]

LIVING LINK TO LINCOLN HIDDEN IN PLAIN
SIGHT

(By Catherine Watson)

I went to Washington recently to look for links to one of the country's heroes. I wanted to explore the city that Abraham Lincoln knew, the Washington of the Civil War.

Because I had only a few days, I thought I should choose the big names. But the highlight was a place I had never heard of—one of the least-visited of Lincoln sites and arguably the most important: Anderson Cottage. (See? I didn't think you had heard of it.)

The cottage lies off North Capitol Street, on the grounds of what Lincoln knew as the Soldiers' Home, now the U.S. Soldiers' and Airmen's Home, a handsome, 320-acre campus on high ground in the Northwest quadrant of the city. About 1,100 retired enlisted personnel live there, veterans from World War II through Vietnam.

I parked near the house, walked up the wooden porch steps and entered a large room that would be familiar instantly to anyone who knows military posts. There was that same smell of governmental dust, the same kind of linoleum alternating with Veterans Affairs gray paint on the floor, even the same sickly pale green on some of the walls. I liked it.

But there didn't seem to be much to see. Just how important is it historically?

Very, said Kerri Childress, public affairs director for the home, whose office is in Anderson Cottage. This is where Lincoln finished the Emancipation Proclamation.

Ms. Childress, a tall, slim woman with bright blond, short-cropped hair, has a contagious enthusiasm for the Soldiers' Home, its residents and Anderson Cottage.

"This really is a well-kept secret," she said. "Even the Lincoln buffs are sometimes surprised."

More surprising is how rarely it's visited: At most, 100 tourists a year find their way to the cottage.

"If this building were any place else, it would be a national shrine," Ms. Childress said. "We make such a big deal out of Ford's Theater. Nothing happened there except that he died. This was where he lived. This was where he created. This was where he became Abraham Lincoln."

Like many presidents, Lincoln had a summer White House, though I had never associated that plain man with such a luxury. This was it—a getaway that may have been the only place in Washington where he and his family had a semblance of normal life or anything approaching happiness.

It's still fresh and countrylike, but now the Soldiers' Home is an island awash in city
