

teach with a sense of urgency and determination."

Hills received a master's degree in teaching in 1989 from the University of California San Diego. The 13-year veteran is earning administrative credentials from National University.

"Alma believes that a child's education is a journey, not a race," wrote William Rose, O'Farrell's school programs coordinator. "And as their teacher, she has the obligation to monitor, encourage and support every child under her care to succeed on this journey."

Hills, who has worked at 1,490-student O'Farrell for eight years, was the San Diego Unified School District's Teacher of the Year for 1999.

"I have not found the solution to getting every student where he or she needs to be academically," Hills admitted. "But I am clear that I must never stop trying and I must never grow weary in my pursuit."

O'Connor, a third-grade teacher at San Diego's Sunset Hills Elementary, decided to take on teaching later in life than most.

"Because I came to the teaching profession at a relatively late date, I had more times than most to decide what I wanted to be when I grew up," she wrote. "My decision to be a teacher wavered at times, but I knew when I had children of my own and began volunteering at school that I had rediscovered my early desire to teach."

She earned a master's degree in curriculum and instruction, with honors, from Chapman University. This year her school, the Poway Unified School District and Wal-Mart each recognized her as Teacher of the Year.

O'Connor's ability to see each child as an individual is what sets her apart from other educators, said Sunset Hills principal Steve Hodge.

"I've watched her coach a highly gifted writer into making those subtle improvements that make a good piece of work," Hodge wrote. "Literally 30 seconds later, she's skillfully guiding a severely handicapped student into a learning game with his classmates."

Mongoven's chosen career, on the other hand, is a family tradition.

"One could say I was born into teaching," wrote Mongoven, who teaches genetics and a biotech lab to juniors and seniors at San Marcos High. "The first person to cuddle me and murmur soothing words into my ear was a teacher—my mother. The first person to lift my tiny being into the air and safely return it to the ground was another teacher—my father."

In 1994, Mongoven graduated from National University with a master's in counseling psychology, all the while earning a molecular biology workshop certification from California State University San Marcos.

A two-time National Teacher of the Year nominee, Mongoven was awarded 1999 Teacher of the Year honors in the San Marcos Unified School District.

But he counts his students' achievements, not his awards, among his greatest accomplishments.

"I feel so proud upon hearing that a former student has become a nurse, doctor, lab tech, chiropractor, research scientist or marine biologist," wrote Mongoven, who has been teaching for a quarter-century. Among them, "I proudly recall Karin Perkins (genetics class of '86) saying she was off to Stanford University as a graduate student to work on the Human Genome Project."

Moura, a Portuguese immigrant, learned early on to love and respect education.

"In Portugal, I learned that school is everything," he wrote. "Teachers were highly regarded—like demigods. Their words were the Golden Rule."

Since then, Moura has worked hard to pass his respect for learning to his students.

"My greatest success in teaching is instilling the belief in students that they can accomplish anything they desire," wrote Moura, who has taught mathematics at Mission Bay High for six years. "I must help students realize and recognize their potential and help the formation of an appreciation for mathematics."

Moura has degrees and teaching credentials from National University, San Diego State University and Mesa College. During the 1998-99 school year, he was named Teacher of the Year by his school as well as the San Diego Unified School District.

"Gualter Moura is a man for all seasons!" wrote Donna Bullock, head counselor at Mission Bay High. "He is one who is able to deal with the exceptional math students as well as the student who (has) difficulty with language. The counselors occasionally assign students to his classes who are unable to achieve in another environment."

[From the Escondido (Calif.) North County Times, Sept. 19, 1999]

2 LOCAL TEACHERS NAMED BEST IN COUNTY (By Joseph Gimenez)

SAN DIEGO.—Two North County teachers were among the four educators who received San Diego County Teacher of the Year awards Saturday night.

Jan Mongoven, a science teacher at San Marcos High School, and Karen O'Connor, a third-grade teacher who specializes in writing instruction at Poway's Sunset Hills Elementary School, joined two San Diego Unified District teachers as the honorees at a banquet at the San Diego Civic Theatre. O'Connor accepted her award, saying, "I can't believe this. Thank you so much."

"They told us to have a 15-second speech ready in case we won, but I didn't," she said. "It has been a humbling experience." Mongoven thanked his parents and family. "I couldn't stand up without the support of my wife and my sons," he said.

Moura of Mission Bay High School and Alma Hills of O'Farrell Community School also received the Cox Communications-sponsored awards at Saturday's 26-year-old ceremony.

Each school district in the county selects a Teacher of the Year who can apply for the county award. Saturday's four winners were among 10 finalists who advanced to the awards ceremonies after interviews and screenings. The 10 finalists selected from 31 nominees included two other North County teachers: Mary Lou Schultz of Pacific View School in Encinitas and Giff Asimos of Ramona High School.

O'Connor has taught third- and fourth-graders in Poway since 1986. She is a San Diego State University graduate who earned teaching credentials from the University of San Diego and a master's degree in curriculum and instruction at Chapman University.

"One thing that really sets Karen apart is her incredible ability to see each child as an individual and to know exactly what each child needs to succeed," Sunset Hills Principal Steve Hodge wrote in a background package for the nominees.

"I've watched her coach a highly gifted writer into making those subtle improvements that make a good piece of writing a great piece of work. Literally 30 seconds later, she's skillfully guiding a severely handicapped, fully included student into a learning game with his classmates. But, most remarkably, she knows exactly what that average child, the one who does average work and demands little attention, needs to

move to the next stage in his or her development."

O'Connor also assists the district with its proprietary writing programs and assessments.

Mongoven has been a teacher and athletic coach at San Marcos High School since 1974. He attended San Diego State University, where he earned his bachelor of science degree in zoology and his teaching credentials.

He earned his master's degree in counseling psychology at National University in 1994. In his application letter, Mongoven credited his parents, who had six decades of teaching experience between them, and other instructors who inspired him.

"I have indelible memories of my finest teachers," Mongoven wrote.

"Hoisting me by the back of the shirt collar, Mr. Bradford dangled this would-be class clown like a mortified Howdy Doody in front of his sixth-grade chums (saying) 'Jan, I expect more of you.'"

San Marcos District Superintendent Larry Maw praised Mongoven's professionalism in a letter to the county selection committee. "Jan is an expert in his subject matter of biology and genetics, and is recognized throughout the county and state as a leader in his field," Maw wrote.

"His unique courses provide students the opportunity to experience a college-level course while still on the high school campus. ...The high success rate of his students reflects his philosophy of presenting material in a way so that all students will succeed in his classroom."

All four of Saturday's honorees qualify to compete for the state's Teacher of the Year award. The four were each presented \$1,000 in cash, etched crystal apples, and an all-expenses-paid trip for two to Washington, D.C. Hewlett-Packard is donating computer equipment to the schools of all 10 finalists this year.

O'Connor joins four other Poway district teachers—Robert Pacilio, Linda Foote, Lori Brickley and Kristie Szentesi—in winning the county award since 1995. Five other Poway district teachers won the awards in the '70s and '80s. Mongoven joins Carol Scurlock, who won the award in 1993, as the two San Marcos district teachers to win the award since 1974.

CONFERENCE REPORT ON S. 1059, NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2000

SPEECH OF

HON. F. JAMES SENSENBRENNER, JR.

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 15, 1999

Mr. SENSENBRENNER. Mr. Speaker, the following is the agreement reached between Chairman SPENCE, Chairman BILEY, and myself in regard to the respective jurisdictions of each of our committees over the newly created National Nuclear Security Administration.

STATEMENT OF UNDERSTANDING CONCERNING JURISDICTIONAL IMPLICATIONS OF TITLE XXXII OF S. 1059, THE CONFERENCE REPORT FOR THE NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2000, SEPTEMBER 14, 1999

This statement addresses the intent and understanding of the undersigned as it pertains to the impact of title XXXII (National Nuclear Security Administration Act) of S. 1059, the conference report for the National Defense Authorization Act for Fiscal Year

2000, on the jurisdiction of the Committees on Armed Services, Commerce, and Science of the House of Representatives.

The adoption of the conference report is not intended, and should not be construed as an attempt, to modify, expand, or diminish the jurisdiction of the Committees on Armed Services, Commerce, or Science over the Department of Energy, or any of its subordinate entities, programs, functions, or activities pursuant to Rule X of the Rules of the House. We agree that futures legislative referrals and other related matters shall remain consistent with referrals made under the Rules of the House of Representatives and the Speaker's understanding of applicable precedents.

Consistent with these principles and section 3211(a) of S. 1059, which establishes a new National Nuclear Security Administration within the Department of Energy, the Committee on Commerce shall maintain jurisdiction over the general management and public health aspects of the Department of Energy.

Further, the adoption of the conference report is not intended to modify or diminish the existing jurisdiction of the Committee on Science over all energy and scientific research, development, and demonstration, and projects thereof, commercial application of energy technology, and environmental research and development programs, projects, and activities conducted at the facilities to be included within the new National Nuclear Security Administration. In addition, the enactment of Title XXXII is neither intended to modify or diminish the existing jurisdiction of the Committee on Science over all federally owned or operated nonmilitary energy laboratories.

FLOYD D. SPENCE,
Chairman, Committee
on Armed Services.

TOM BLILEY,
Chairman, Committee
on Commerce.

F. JAMES SENSENBRENNER,
Jr.,
Chairman, Committee
on Science.

ANOTHER PRIEST MURDERED IN INDIA

HON. JOHN T. DOOLITTLE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 21, 1999

Mr. DOOLITTLE. Mr. Speaker, another Christian missionary has been murdered in India, according to recent press reports. According to India West, the priest, whose name was Aruldoss, was killed on September 2 with poison arrows by a Hindu mob in the village of Jambani in the state of Orissa.

This is the same region where Graham Staines, an Australian missionary, and his 8-year-old and 10-year-old sons were set on fire and murdered by a Hindu mob allied with the ruling party while they were sleeping in their van. The mob surrounded the van and kept anyone from getting to the Staines family, chanting "Victory to Lord Ram" while the Staines family was burning to death. Now the government has designated a single individual in the mob to take the fall in order to protect the government's allies.

Apparently, Aruldoss has been involved in conversions of Hindus to Christianity. According to the Hindu fundamentalists who run the

government and their allies, virtually all conversions are called "forced" conversions. One of the ministers in the Orissa government, Ajit Tripathy, claimed that Christians were causing all the trouble by "trying to separate families after converting tribals and others, which is leading to social tensions." This kind of religious intolerance and excuse for mob violence has no place in a country that proudly labels itself "the world's largest democracy."

Authorities have said that the mob was angry about the observance of a religious festival. While the Hindus in the region were celebrating the festival of Nuakhai, the local Christians were holding a festival of their own. Remember that in 1997, a Christian festival was broken up by police gunfire.

There is a disturbing pattern of religious intolerance in India, not only towards Christians, but towards Muslims and Sikhs as well. None of these groups can enjoy full religious or political rights, and they are among the 17 freedom movements within India. The Indian government's response to these efforts to achieve freedom is bloodshed. Thousands are being held in Indian jails as political prisoners without charge or trial. Some have been there for 15 years.

I would like to submit the India West article on this event into the RECORD to inform my colleagues about the kind of country that India really is.

ORISSA PRIEST MURDERED, LINKED TO CONVERSIONS

BHUBANESHWAR—Unidentified assailants killed a Christian missionary with poisoned arrows in a remote village in Orissa, a senior government official said Sept. 2.

"Preliminary reports say that a Christian . . . was attacked and killed by poisoned arrows last night," Orissa state chief secretary Sahadeva Sahoo told Reuters by telephone.

Police said Sept. 3 that an incident linked to the religious conversions of Hindus may have led to the murder of a Christian priest in a remote eastern Indian village this week.

"Local issues seem to have led to the killing," Pradeep Kapoor, police chief of Mayurbhanj district in Orissa, told Reuters. He was speaking by telephone from Karanjia town near the village where the priest, identified only as Aruldoss, was killed Sept. 2.

"It was a dispute over the observing of some festival," Sahoo said, without giving details.

"It is a very remote, inaccessible jungle area. Information is not coming easily. Even the ministers couldn't go there because helicopters cannot land within 5 km (3 miles) of the jungle area," Sahoo said.

Assailants shooting bows and arrows killed the missionary in Jambani, a hamlet of only 12 families in Mayurbhanj district.

Christian groups and Prime Minister Atal Behari Vajpayee have condemned the killing, which took place in the region where an Australian missionary, Graham Staines, and his two young sons were burnt to death in January as they slept in their jeep.

"There was a dispute over the celebration of Nuakhai, a Hindu festival. The (Christian) converts separately held the festival which might have angered the nearby villagers," Kapoor said.

"Several people have been rounded up for interrogation but no one has been arrested so far," he said.

Sahoo said earlier that two people had been arrested but gave no details.

Ajit Tripathy, the Orissa home secretary, said priests were causing tension in the area.

"Catholic priests are trying to separate the families after converting tribals and oth-

ers, which is leading to social tension," Tripathy said.

Mayurbhanj district chief R. Balakrishnan said 10 of the 12 families in the hamlet had been converted recently by the slain missionary.

Christian missionaries had ignored warnings by authorities after the killing of Staines not to visit remote villages without informing them, he said.

Staines also worked in the districts of Mayurbhanj and Keonjhar.

An inquiry into Staines' murder blamed a lone religious fanatic wanted by police. It exonerated a Hindu group considered close to Vajpayee's ruling Hindu nationalist Bharatiya Janata Party to which fingers of suspicion were initially pointed.

Hindu activists accuse Christian missionaries of using coercion or economic incentives to force religious conversions in remote tribal areas of India. Christian missionaries deny the charge.

Meanwhile, the Election Commission Sept. 5 rejected the Orissa government's proposal to shift general of police Dilip Mohapatra in the wake of his reported controversial remarks on the killing of the priest.

Chief Election Commissioner M.S. Gill told PTI: "We are in the midst of elections which will end by October 10. Therefore, the commission desires that Mohapatra, who is a key functionary, be not be shifted till October 10."

Gill made it clear that the Orissa chief secretary, home secretary and the DGP should under no circumstances be disturbed in any manner till the conclusion of the poll process.

The state government had sought the commission's permission to transfer and revert Mohapatra to the rank of additional DGP for his reported remarks linking Catholic priest Aruldoss's killing to "forced conversions."

Chief Minister Giridhar Gamang faced an angry outburst from church leaders Sept. 4, who demanded immediate suspension of home secretary Ajit Kumar Tripathy as well over his reported statement that Catholic priests were trying to split families through conversions.

Gamang had gone to attend the funeral of the slain priest at Balasore.

HONORING EDWIN L. BEHRENS ON HIS CAREER WITH PROCTER & GAMBLE COMPANY

HON. ROB PORTMAN

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 21, 1999

Mr. PORTMAN. Mr. Speaker, I rise today to honor Edwin L. Behrens, Director of National Government Relations with the Procter & Gamble Company, who is retiring after 38 years with the company.

Ed began his career with Procter & Gamble in 1961 in Cincinnati, Ohio, after receiving both his Bachelor's and Master's degrees in chemical engineering from the University of Wisconsin in Madison. Ed also holds an M.B.A. from Xavier University in Cincinnati. Ed held positions in technical brand management, consumer research; and state and federal government relations. In 1967, Ed was awarded a patent for detergent formulations.

In 1976, Ed transferred to Procter & Gamble's Washington, DC office to represent the company at the federal level. He was appointed Director of National Government Relations in 1992. Ed actively advanced federal
