

12 percent. Mr. Speaker, these are frightening numbers.

The conflict in Kosovo has revealed to the world the questionable readiness state of the United States military. Readiness of our military equipment goes beyond the state of hardware and encompasses the quality of life of our soldiers.

Mr. Speaker, the United States military has been operationally deployed 30 times in the last 8 years. To retain our skilled military personnel, operation tempos must be reduced and readiness accounts must be increased.

H.R. 1401, the Fiscal Year 2000 National Defense Authorization Act, adds much-needed funds to vital military readiness, personnel, procurement, construction and research accounts. I urge my colleagues to vote "yes" on H.R. 1401.

THE WAR IN KOSOVO

(Mr. KUCINICH asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KUCINICH. Mr. Speaker, the Los Angeles Times headline points out that the United States or NATO is preparing to send 50,000 troops to Kosovo, to the Kosovo border. They call them peacekeepers. Sure. And the White House says we are not at war.

Mr. Speaker, 50,000 heavily armed troops to the Kosovo border. The Rambouillet Peace Agreement called for 28,000 troops, but we are sending 50,000 armed troops to the Kosovo border.

□ 1015

The air strikes have not worked. Twenty thousand sorties, and the White House says we are not at war. There has been no resistance from the air, but Milosevic's troops are preparing for a ground war. There has been no progress in peace talks because the U.S. is not letting the Russians help, and there is no real effort to find an agreement. There is an insistence on total NATO occupation of the Federal Republic of Yugoslavia.

America, we are headed towards a ground war in Kosovo. Congress voted against declaring war, and we are at war. Congress voted against an air war, and we are at war. We have an air war. Congress voted against a ground war, and we are headed towards a ground war.

This war violates the U.S. Constitution, a violation of the War Powers Act. We need to respect the Constitution. Pursue peace, not war. Pursue peace through negotiation and mediation. Do not escalate this war.

PRICE-SETTING PRACTICES ON MILK CONSTITUTE INTERNAL TRADE BARRIERS

(Mr. GUTKNECHT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GUTKNECHT. Mr. Speaker, I want to engage in a little visualization quiz with my colleagues this morning. If all the Members would just close their eyes, relax, and think.

Think of all the things that our Federal Government artificially sets prices on based on their distance from a specific geographic location. Think hard. There is only one correct answer.

Here is a hint: It is the only product where we allow States to set up artificial trade barriers. Here is another hint: It gives you a white mustache, and it is actually good for you. That is right, milk, only milk.

Here is another interesting factoid. At the very time when we are trying to break down trade barriers around the world, some Members are actually trying to construct trade barriers here in the United States when it comes to milk.

INTRODUCING THE NAFTA IMPACT RELIEF ACT

(Mr. SHOWS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SHOWS. Mr. Speaker, today I am introducing the NAFTA Impact Relief Act. Since NAFTA was introduced in 1994, factories across the country and in my district, Centreville, Prentiss, Collins and Magee, have shut down and lost thousands of jobs, exploiting cheap foreign labor.

The NAFTA job retraining program is sorely underfunded and really not very complete. It misses the point. When people in the rural area lose a factory, there is not a job to be retrained for. They need actual jobs.

The NAFTA Impact Relief Act creates new jobs by authorizing the Secretary of Commerce to designate NAFTA-impacted communities similar to enterprise zones. Businesses would receive tax incentives to locate and hire workers in these communities.

The NAFTA Impact Relief Act is a win-win for business and labor, and needs to become law. I urge my colleagues to get behind the bill, because there are many, many unemployed Americans in this country because of NAFTA. Please help us.

THE ADMINISTRATION HAS FAILED IN PROTECTING AMERICA'S NUCLEAR WEAPONS SECRETS

(Mr. HEFLEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HEFLEY. Mr. Speaker, in 1995 the person in charge of counterintelligence at the Department of Energy discovered some devastating information. It appeared that the Communist Chinese had obtained our most important nuclear secrets.

The most advanced nuclear weapon in our arsenal, the W-88, had somehow

been given to the Communist Chinese. It was so horrific he could hardly believe his ears; the worst possible case, the ultimate national security disaster.

Communist China was the same country that was selling weapons of mass destruction technology to Iran and other rogue regimes, the same country that imprisoned citizens for their political beliefs, the same country that massacred a thousand in Tiananmen Square for believing in freedom.

That Energy Department official then sounded the alarm, but no one listened. The Justice Department unbelievably turned down the FBI's request twice to wiretap the scientist suspected of giving away the most important secret the United States owned, and political appointees at the White House downplayed the disaster. This administration has utterly failed us.

CALLING FOR SENSIBLE GUN SAFETY LEGISLATION THIS WEEK

(Mr. WYNN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WYNN. Mr. Speaker, I rise this morning to support sensible gun safety legislation to protect our young people. We have a lot of problems in this country and espionage is one of them, but the most pressing problem we have today is gun violence. We need to pass sensible gun safety legislation now.

First, we need to pass child safety locks, so that babies and young people cannot get ready access to guns and have accidents of tragic consequences.

Second, we need background checks at pawn shops and at gun shows, so thugs cannot buy guns off the market and then sell them in our communities to our young people.

Third, we need to ban these high-capacity ammunition clips that are imported into our country. This is not the movie Matrix. We are not having gun-fights with drug lords on the streets. The average citizen has a right to have a gun, and I believe that, but we in Congress have a responsibility to enact sensible gun control.

The second point I want to make this morning is we need to do it now. This is not rocket science. We need to move on gun control legislation this week, before we go home.

THE BEST SECURITY IS A BRIGHT LIGHT

(Mr. GIBBONS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GIBBONS. Mr. Speaker, my parents told me that the best security is a bright light. Americans want to know if the Chinese nuclear arsenal was built on the genius of American scientists and on the backs of the American taxpayers.

Our counterintelligence at the Department of Energy has been a specific concern of the Permanent Select Committee on Intelligence for some time, and we all deserve answers.

This Congress must pursue investigative public hearings based on information provided by the Cox Committee that examines Chinese-directed espionage against the United States, including efforts to steal nuclear and military secrets; that will examine Chinese-directed covert action type activities conducted against the United States, such as the use of agents to influence and efforts to subvert or otherwise manipulate the U.S. political process.

Mr. Speaker, Motel 6, I think, has a motto: We'll keep the lights on." Unfortunately, the White House has turned the lights off, and now our national security is at stake.

America deserves answers, and that is what they shall get. I yield back to America all the lights they may need and any national security we have left.

CONGRESS SHOULD ENACT GUN SAFETY LEGISLATION NOW

(Mr. CUMMINGS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CUMMINGS. Mr. Speaker, when manufactured products injure our children, we must act. When manufactured products play a role in the death of our children, we must act. This concept is simple and is not new. For years safety regulations have been promulgated aimed at protecting our children from certain products.

I hold in my hand a product that is small but has maimed or taken the lives of thousands, a firecracker. Forty percent of its victims have been children under 15 years of age. Fortunately, however, injury rates from this product are at an all-time low, dropping 30 percent from 1995 to 1996 alone. Why? Federal safety regulations. In other words, we took action.

It took decades of tragic experience to teach us this lesson. We are now facing a similar situation. Thirteen of our Nation's youth are dying each day from a manufactured product, guns.

I submit that we learn our lesson now. Again, this concept is simple. It is not new. Let us act this week to ensure the safety of our children.

INTRODUCTION OF LEGISLATION TO PROVIDE RELIEF FOR THE MARRIAGE TAX PENALTY

(Mr. KNOLLENBERG asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KNOLLENBERG. Mr. Speaker, with Federal taxes at an all-time high, Congress has, I think, a moral obligation to provide some relief to the American people. While there are several tax cut proposals that are being

debated in the House, I believe one deserves immediate attention. That issue is the marriage penalty.

Under current law, 21 million couples, 21 million couples are required to pay an additional \$1,400 a year in taxes simply because they are married. This ridiculous policy is undermining the institution of marriage, and making it harder for working families to get ahead.

I have introduced legislation that addresses this problem by increasing the standard deduction provided to married couples so that it equals twice the amount of the deduction provided to single taxpayers. It should make sense.

This commonsense proposal would provide some relief from the marriage penalty, inject some fairness into the Tax Code, and strengthen working families. I urge my colleagues to support it.

ASKING THE REPUBLICAN LEADERSHIP TO TAKE UP GUN SAFETY LEGISLATION NOW

(Mr. MENENDEZ asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MENENDEZ. Mr. Speaker, this week we are taking up a bill that will fund congressional salaries, fund the cleaning of the marble and the brass in the Capitol, and pay for the furniture in our offices.

Apparently we have time for that, but we do not have time to take up legislation to fund more counselors and after school programs for our children. While it seems we can find the time to regulate the manufacture of toys, it seems we cannot find the time to put some modest safety regulations on guns, regulations to keep our children safe.

Mr. Speaker, where are Republican priorities? Is it the guns or our children? Is it the marble and the brass, or our schools and our communities?

It is time to make a choice. It is no use passing a bill to keep our Capitol marble and brass gleaming if we cannot pass a bill to keep our children safe in school.

The true glory of this Capitol is what we do in this Chamber, so I ask the Republican leadership to let us take up legislation to keep our children safe today; not tomorrow, not next month, but today, before we lose another life.

SAVING LIVES CAN RESULT WHEN PEOPLE START OBEYING EXISTING LAWS

(Mr. HAYWORTH asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HAYWORTH. Mr. Speaker, I listened with great interest to my colleague, the gentleman from New Jersey (Mr. MENENDEZ). I would say this, this does become a matter of priorities. We need to reach out and save American lives.

One way we can do that is by taking a careful, considered look at the problem of domestic violence and school violence, but also at the very real threat the Chinese now present to the American people.

Mr. Speaker, nuclear weapons are really big guns. They are not firecrackers. The grim reality is that this administration, the Clinton-Gore gang, took hundreds of thousands of dollars of campaign contributions from the Communist Chinese, and an arms dealer by the name of Wang Jun provided some of that money. Curiously, the Justice Department waived any restrictions. The result was, 100,000 assault weapons were turned loose in the city of Los Angeles, adding to the violence.

Mr. Speaker, it is one thing to talk about laws, and it is one thing to preen and posture on convictions, but the fact is, serious results come when people start by obeying existing laws.

INTERNATIONAL CODE-SHARING AGREEMENTS

(Ms. EDDIE BERNICE JOHNSON of Texas asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, it is interesting. I have listened to all the speeches, and I can tell the Members that we do have a number of issues that are pressing that we need to address. Gun violence certainly is one we need to address, and not just talk about the issue, but also talk about what it takes to correct it.

We are correcting the Chinese situation because it was discovered, and it is being addressed in this administration. It has been going on for 20 years.

I rise today to talk about another issue of great concern to the flying public. We hope we can address it soon, and not look up 20 years and find all of these planes are crashing that are connecting with ours. It is called international code-sharing agreements.

Code sharing agreements are agreements between air carriers, most often a U.S. carrier and a foreign flag carrier, whereby the U.S. carrier can sell seats on the other carrier's flight while identifying it as their own.

What this means in an international market is that while the passenger's ticket may say he or she is flying on a U.S. carrier overseas, in reality it is an overseas flight, and they do not meet the same safety standards.

I will continue to work to get this issue addressed.

BLAME AND THE CHINESE ESPIONAGE SCANDAL

(Mr. CHABOT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CHABOT. Mr. Speaker, with regard to the Chinese espionage scandal, I have heard the other side say over
