

liability, all facts and circumstances are to be considered. In any case where the transferee does agree to satisfy a liability, the transferee also will be expected to satisfy the liability in the absence of facts indicating the contrary.

In determining any increase to the basis of property transferred to the transferee as a result of gain recognized because of the assumption of liabilities under section 357, in no event will the increase cause the basis to exceed the fair market value of the property (determined without regard to sec. 7701(g)).

If gain is recognized to the transferor as the result of an assumption by a corporation of a nonrecourse liability that also is secured by any assets not transferred to the corporation, and if no person is subject to Federal income tax on such gain, then for purposes of determining the basis of assets transferred, the amount of gain treated as recognized as the result of such assumption of liability shall be determined as if the liability assumed by the transferee equaled such transferee's ratable portion of the liability, based on the relative fair market values (determined without regard to sec. 7701(g)) of all assets subject to such nonrecourse liability. In no event will the gain cause the resulting basis to exceed the fair market value of the property (determined without regard to sec. 7701(g)).

The Treasury Department has authority to prescribe such regulations as may be necessary to carry out the purposes of the provision. This authority includes the authority to specify adjustments in the treatment of any subsequent transactions involving the liability, including the treatment of payments actually made with respect to any liability as well as appropriate basis and other adjustments with respect to such payments. Where appropriate, the Treasury Department also may prescribe regulations which provide that the manner in which a liability is treated as assumed under the provision is applied elsewhere in the Code.

EFFECTIVE DATE

The provision is effective for transfers on or after October 19, 1998. No inference regarding the tax treatment under present law is intended.
