#### PROVIDING ASSISTANCE FOR POISON PREVENTION AND FUNDING OF REGIONAL POISON CENTERS

Mr. BROWNBACk. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of calendar No. 252, S. 632.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 632) to provide assistance for poison prevention and to stabilize the funding of regional poison control centers.

There being no objection, the Senate proceeded to consider the bill.

Mr. BOND. Mr. President, I rise to thank my colleague from Ohio for his hard work on this very important bill. The work our nation's poison control centers do is absolutely essential to the safety and health of our children. Not only do poison control centers save lives, they significantly reduce our health care costs by helping American families deal quickly, safely, and efficiently with a poisoning emergency.

Mr. DEWINE. The Senator from Missouri is exactly right. It is perhaps difficult to imagine just how concerned parents must be when they discover that their child has been exposed to a substance that might have damaging health effects. They don't know what type of harm might happen to their child—or whether any harm will happen. But the possibility is there—and to a parent, that threat can truly be frightening. In these emergency situations, the poison control center experts can quickly help parents determine the appropriate response. They might tell the parents that whatever substance that child has been exposed to doesn't pose a health threat at all. Other times, that threat is real, and the poison control center can help parents administer immediate treatment at home or provide treatment advice until the parents can get the child to the nearest emergency room. Either way, the poison control center is absolutely essential in responding to the emergency by providing immediate treatment advice when the emergency is real and providing peace of mind for the parents and reducing unnecessary healthcare and hospitalization when the exposure does not pose a health threat to the child.

Mr. BOND. Doesn't this bill clarify how the proposed national toll-free number will affect existing, privately funded toll-free numbers?

Mr. DEWINE. This bill makes clear that the establishment of a national toll-free number to access poison control centers should not be interpreted as prohibiting the establishment or continued operation of any privately funded nationwide toll-free number used by agricultural pesticide companies, consumer products companies, pharmaceutical companies, and other groups who fund their own toll-free customer service numbers in the event of a poisoning or accidental exposure involving one of their own products. We also make clear that none of the funds that this bill authorizes may be used to help private companies fund their own toll-free numbers. We just want to clarify that this bill neither funds nor prohibits private entities

from funding their own toll-free customer service numbers. I thank my colleague for his comments and for his strong support of this bill.

Mr. BROWNBACk. Mr. President, I ask unanimous consent that the committee substitute be agreed to, the bill, as amended, be read the third time, and passed, the motion to reconsider be laid upon the table, and that any statements relating to the bill be printed in the RECORD.

The committee amendment was agreed to.

The bill (S. 632), as amended, was read the third time, and passed, as follows:
