STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mrs. LINCOLN (for herself, Ms. LANDRIEU, Mr. SMITH of Oregon, Mr. BAYH, and Mrs. FEINSTEIN):

S. 1646. A bill to amend title XIX and XXI of the Social Security Act to improve the coverage of needy children under the State Children's Health Insurance Program (CHIP) and the Medicaid Program; to the Committee on Finance.

IMPROVED MATERNAL AND CHILDREN'S HEALTH COVERAGE ACT

• Mrs. LINCOLN. Mr. President, today I rise to introduce the Improved Maternal and Children's Health Coverage Act. I am joined by my colleagues Senator LANDRIEU, Senator GORDON SMITH, Senator EVAN BAYH and Senator DIANNE FEINSTEIN.

A similar bill was introduced in the House of Representatives by Congresswoman DEGETTE and Congresswoman MORELLA.

This legislation is intended to help increase the coverage of uninsured children under the Children's Health Insurance Program, better known as CHIP.

Right now there are 10.7 million uninsured children in the United States. The goal of CHIP is to insure 5 million children nationally.

However, we have only enrolled 1.3 million of the targeted 5 million children so far. We can do better. We must do better.

Let's get rid of barriers to coverage! There are several simple, administrative changes that we can make in this legislation that will help break down the barriers to enrollment.

First, we can reduce the need for excessive documentation. States would be required to develop and use a uniform, simplified application form to determine eligibility for both Medicaid and CHIP. This means families only have to fill out one form.

Second, families would only have to deal with one state agency to establish eligibility for either program. It is unfair to make parents go from agency to agency to enroll for state health insurance coverage.

Third, we can do a better job making a greater variety of application sites available to families. Rather than only being able to apply at a state agency, states could opt to expand application site options. Let's take the application process to the places that parents and their children go on a regular basis—examples include schools and child care centers.

This bill also expands health insurance coverage options to pregnant women who do not qualify for Medicaid because their incomes are slightly above Medicaid guidelines. Thousands of pregnant women earn just a bit too much to qualify for Medicaid, but they do not have health insurance because either their employer or their husband's employer doesn't offer it.

We all know the importance of prenatal care to the health of unborn children. If a mother receives proper prenatal care, her child has a much greater chance of being born healthy. That is why the National Academy of Pediatrics, the National Association of Children's Hospitals and the March of Dimes—just to name a few organizations—support this legislation.

In an era of making every federal dollar stretch as far as possible, this provision makes sense. For every \$1 we spend on prenatal care, we save \$3 later on that would be spent on complicated deliveries and serious birth defects. Sometimes you have to spend money to save money.

Several years ago, the Arkansas governor and the state legislature implemented the AR Kids First health insurance program for children who did not qualify for Medicaid. AR Kids First precedes CHIP.

The statistics for enrollment in the CHIP program in Arkansas are a bit ahead of the national curve. So far, AR Kids First has enrolled half of all eligible children. Over 45,000 now have coverage as a result of the state's proactive efforts and commitment to children's health.

It has been so successful in enrolling eligible children for health insurance that the Department of Health and Human Services recently granted approval to allow AR Kids First to operate as the state's CHIP program.

I applaud their efforts and hope that other states can learn from the outreach success of AR Kids First.

Finally, this bill eliminates the sunset clause for a pot of money that Congress allocated for states to help them link families leaving welfare with the

Medicaid and CHIP programs. As part of the 1996 welfare reform law, Congress gave \$500 million to states to see that families with children in the welfare system continue to receive health care coverage.

Prior to 1996, poor families with children automatically received health benefits through Medicaid when they signed up for AFDC. Since Congress passed welfare reform legislation, Medicaid and TANF are no longer legally connected. States must revamp their eligibility systems to see that families with children do not fall through the cracks.

There has been confusion between governors and the Department of Health and Human Services about the time period that this money could be spent.

States run the risk of losing this money just 2 days from now. On September 30th, 16 states are in jeopardy of losing this funding and 18 more states will lose funding by December 31, 1999.

So, as you see, this piece of the Maternal and Children's Health Coverage Act is critical—and timely.

I hope that the Congress and the President will act swiftly to eliminate the sunset clause and give states more time to spend this valuable pot of money.

Mr. President, Congress is currently engaged in a debate over the Patients' Bill of Rights. I hope that we don't lose sight of an equally important goal of seeing that all children in America have health care insurance.

I believe this bill takes a positive step forward in helping states move closer to the goal of providing health insurance to 5 million uninsured children. We can do this. We must do this. •

• Ms. LANDRIEU. Mr. President, today I join my colleagues, Senator LINCOLN from Arkansas, Senator BAYH from Indiana, Senator SMITH from Oregon, and Senator FEINSTEIN from California to introduce the "Improved Maternal and Children's Health Coverage Act of 1999," that would improve the health coverage of needy children under the State Children's Health Insurance Program (CHIP) and Medicaid. CHIP was implemented during the Balanced Budget Act of 1997 to ensure children living in working families that do not qualify for Medicaid, but still cannot afford health insurance, receive the care they need.

As part of the 1996 welfare reform law, Congress allocated \$500 million to states to provide children and families access to Medicaid. This fund will expire for 16 states on September 30, 1999, and for 18 more States, including Louisiana, on December 31, 1999. Our proposal would extend the life of this fund to allow states to continue to use these dollars as they carry out outreach efforts for both Medicare and CHIP providing our children with health care.

Eleven million of the nation's children remain uninsured despite the passage of the State Children's Health Insurance Program. Mr. President, we
