

(2) Whether the roles and missions of the intelligence community should extend beyond the traditional areas of providing support to the defense and foreign policy establishments, and, if so, what areas should be considered legitimate for intelligence collection and analysis, and whether such areas should include, for example, economic issues, environmental issues, and health issues.

(3) What functions, if any, should continue to be assigned to the organizations of the intelligence community, including the Central Intelligence Agency, and what capabilities should these organizations retain for the future.

(4) Whether the existing organization and management framework of the organizations of the intelligence community, including the Central Intelligence Agency, provide the optimal structure for the accomplishment of their missions.

(5) Whether existing principles and strategies governing the acquisition and maintenance of intelligence collection capabilities should be retained and what collection capabilities should the Government retain to meet future contingencies.

(6) Whether intelligence analysis, as it is currently structured and executed, adds sufficient value to information otherwise available to the Government to justify its continuation, and, if so, at what level of resources.

(7) Whether the existing decentralized system of intelligence analysis results in significant waste or duplication, and if so, what can be done to correct these deficiencies.

(8) Whether the existing arrangements for allocating available resources to accomplish the roles and missions assigned to intelligence agencies are adequate.

(9) Whether the existing framework for coordinating among intelligence agencies with respect to intelligence collection and analysis and other activities, including training and operational activities, provides an optimal structure for such coordination.

(10) Whether current personnel policies and practices of intelligence agencies provide an optimal work force to satisfy the needs of intelligence consumers.

(11) Whether resources for intelligence activities should continue to be allocated as part of the defense budget or be treated by the President and Congress as a separate budgetary program.

(12) Whether the existing levels of resources allocated for intelligence collection or intelligence analysis, or to provide a capability to conduct covert actions, are seriously at variance with United States needs.

(13) Whether there are areas of redundant or overlapping activity or areas where there is evidence of serious waste, duplication, or mismanagement.

(14) To what extent, if any, should the budget for United States intelligence activities be publicly disclosed.

(15) To what extent, if any, should the United States intelligence community collect information bearing upon private commercial activity and the manner in which such information should be controlled and disseminated.

(16) Whether counterintelligence policies and practices are adequate to ensure that employees of intelligence agencies are sensitive to security problems, and whether intelligence agencies themselves have adequate authority and capability to address perceived security problems.

(17) The manner in which the size, missions, capabilities, and resources of the United States intelligence community compare to those of other countries.

(18) Whether existing collaborative arrangements between the United States and other countries in the area of intelligence

cooperation should be maintained and whether such arrangements should be expanded to provide for increased burdensharing.

(19) Whether existing arrangements for sharing intelligence with multinational organizations in support of mutually shared objectives are adequate.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. ENZI:

S. 1735. A bill to expand the applicability of daylight saving time; to the Committee on Commerce, Science, and Transportation.

THE HALLOWEEN SAFETY ACT OF 1999

MR. ENZI. Mr. President, today I am pleased to introduce the "Halloween Safety Act of 1999." This Act has one simple purpose: to extend the date on which the daylight saving time ends from the last Sunday in October to the first Sunday of November in order to include the holiday of Halloween.

The idea of extending daylight saving time was first introduced to me by Sharon Rasmussen, a second grade teacher from Sheridan, Wyoming, and her students. I received a packet of twenty letters from Mrs. Rasmussen's second grade class expressing their wish to have an extra hour of daylight during Halloween in order to make the holiday safer. These children explained that they would feel more secure if they had an extra hour of daylight when venturing door-to-door in their annual trick-or-treating. Halloween is a holiday of great importance to youngsters throughout the United States and a large number of children do celebrate by trick-or-treating in their neighborhoods and towns. I believe this reasonable proposal would make those Halloween activities safer.

Upon conducting some research of my own, I discovered that Halloween is a time of increased danger for children. According to the Insurance Institute for Highway Safety, fatal pedestrian-motor vehicle collisions occur most often between 6 and 9 p.m., comprising

twenty-five percent of the total. Another twenty-one percent occur between 9 p.m. and midnight, making nighttime the most dangerous time for pedestrians.

Unfortunately, these general accident trends are magnified on Halloween given the considerable increase in pedestrians—most of whom are children, on Halloween evening. A study by the Division of Injury Prevention, National Center for Injury Prevention and Control of the Center for Disease Control, concluded that the incidence of pedestrian deaths in children ages 5-14 is four times higher on Halloween than any other night of the year. In order to make this holiday safer for all our children, Congress should take the modest step of providing one extra week of daylight saving time.

Attempts have been made in the past to extend daylight saving time. Most recently, Senator Alan Simpson introduced the "Daylight Saving Extension Act of 1994." Although Senator Simpson's legislation would have changed both the starting date and the ending date of daylight saving time, the legislation I am introducing today would simply extend it for a week.

The fact that the students of Mrs. Rasmussen's second grade class took the time to write and request that I sponsor a bill to extend daylight saving time is important to me. I believe that many of these children's parents would also be pleased with this extension of daylight savings time. If children are concerned about their own safety and come up with a reasonable approach to make their world a little bit safer, I believe that accommodating their request is not too much to ask. Protecting the children of our country should be a primary concern for all of us as lawmakers. If one life could be saved by extending daylight saving time to encompass Halloween, it would be worthwhile. I trust that all my colleagues will take the time to consider the importance the "Halloween Safety Act of 1999" would have for children and their parents in their respective states.

By Mr. SPECTER:

S. 1736. A bill to amend the Fair Labor Standards Act of 1938 to permit certain youth to perform certain work with wood products; to the Committee on Health, Education, Labor, and Pensions.

FAIR LABOR STANDARDS ACT AMENDMENTS

Mr. SPECTER. Mr. President, I have sought recognition today to introduce legislation designed to permit certain youths (those exempt from attending school) between the ages of 14 and 18 to work in sawmills under special safety conditions and close adult supervision. I introduced an identical measure at the close of the 105th Congress and am hopeful that the Senate can once again consider this important issue. Similar legislation introduced by my distinguished colleague, Representative JOSEPH R. PITTS, has already passed in the House this year.
