(B) directed the Secretary of the Interior to establish the Sudbury, Assabet, and Concord Rivers Study Committee (in this section referred to as the “Study Committee”) to advise the Secretary in conducting the study and in the consideration of management alternatives should the rivers be included in the National Wild and Scenic Rivers System.

(2) The study determined the following river segments are eligible for inclusion in the National Wild and Scenic Rivers System based on their free-flowing condition and outstanding scenic, recreation, wildlife, cultural, and historic values:

(A) The 16.6-mile segment of the Sudbury River beginning at the Danforth Street Bridge in the town of Framingham, to its confluence with the Assabet River.

(B) The 4.4-mile segment of the Assabet River from 1,000 feet downstream from the Damon Mill Dam in the town of Concord to the confluence with the Sudbury River at Egg Rock in Concord.

(3) The towns that directly abut the segments, including Framingham, Sudbury, Wayland, Lincoln, Concord, Bedford, Carlisle, and Billerica, Massachusetts, have each demonstrated their desire for National Wild and Scenic River designation through town meeting votes endorsing designation.

(4) During the study, the Study Committee and the National Park Service prepared a comprehensive management plan for the segment, entitled “Sudbury, Assabet and Concord Wild and Scenic River Study, River Conservation Plan” and dated March 16, 1995 (in this section referred to as the “plan”), which establishes objectives, standards, and action programs that will ensure long-term protection of the rivers’ outstanding values and compatible management of their land and water resources.

(5) The Study Committee voted unanimously on February 23, 1995, to recommend that the Congress include these segments in the National Wild and Scenic Rivers System for management in accordance with the plan.

(b) **DESIGNATION.**—Section 3(a) of the Wild and Scenic Rivers Act (16 U.S.C. 1274(a)) is amended by adding at the end the following new paragraph:

(A) become a part of the National Park System;

(B) be managed by the National Park Service; or

(C) be subject to regulations which govern the National Park System.

(2) The plan, including the detailed Water Resources Study incorporated by reference in the plan and such additional analysis as may be incorporated in the future, shall serve as the primary source of information regarding the flows needed to maintain
