## STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Ms. MIKULSKI (for herself, Mr. DODD, Mr. HOLLINGS, Mr. JEFFORDS, Mr. KENNEDY, Mrs. MURRAY, and Mr. WELLSTONE):

S. 1142. A bill to protect the right of a member of a health maintenance or-

ganization to receive continuing care at a facility selected by that member, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

SENIORS' ACCESS TO CONTINUING CARE ACT OF 1999

• Ms. MIKULSKI. Mr. President, I rise today to introduce the "Seniors' Access to Continuing Care Act of 1999", a bill to protect seniors' access to treatment in the setting of their choice and to ensure that seniors who reside in continuing care communities, and nursing and other facilities have the right to return to that facility after a hospitalization.

As our population ages, more and more elderly will become residents of various long term care facilities. These include independent living, assisted living and nursing facilities, as well as continuing care retirement communities (CCRCs), which provide the entire continuum of care. In Maryland alone, there are over 12,000 residents in 32 CCRCs and 24,000 residents in over 200 licensed nursing facilities.

More and more individuals and couples are choosing to enter continuing care communities because of the community environment they provide. CCRC's provide independent living, assisted living and nursing care, usually on the same campus—the Continuum of Care. Residents find safety, security and peace of mind. They often prepay for the continuum of care. Couples can stay together, and if one spouse needs additional care, it can be provided right there, where the other spouse can remain close by.

Most individuals entering a nursing facility do so because it is medically necessary, because they need a high level of care that they can no longer receive in their homes or in a more independent setting, such as assisted living. But residents are still able to form relationships with other residents and staff and consider the facility their "home". I have visited many of these facilities and have heard from both residents and operators. They have told me about a serious and unexpected problem encountered with returning to their facility after a hospitalization.

Hospitalization is traumatic for anyone, but particularly for our vulnerable seniors. We know that having comfortable surroundings and familiar faces can aid dramatically in the recovery process. So, we should do everything we can to make sure that recovery process is not hindered.

Today, more and more seniors are joining managed care plans. This trend is likely to accelerate given the expansion of managed care choices under the 1997 Balanced Budget Act. As more and more decisions are made based on financial considerations, choice often gets lost. Currently, a resident of a continuing care retirement community or a nursing facility who goes to the hospital has no guarantee that he or she will be allowed by the managed care organization (MCO) to return to
