

B. Modalities

1. The follow-up will be based on reports requested from Members under article 19, paragraph 5(e) of the Constitution. The report forms will be drawn up so as to obtain information from governments which have not ratified one or more of the fundamental Conventions, on any changes which may have taken place in their law and practice, taking due account of article 23 of the Constitution and established practice.

2. These reports, as compiled by the Office, will be reviewed by the Governing Body.

3. With a view to presenting an introduction to the reports thus compiled, drawing attention to any aspects which might call for a more in-depth discussion, the Office may call upon a group of experts appointed for this purpose by the Governing Body.

4. Adjustments to the Governing Body's existing procedures should be examined to allow Members which are not represented on the Governing Body to provide, in the most appropriate way, clarifications which might prove necessary or useful during Governing Body discussions to supplement the information contained in their reports.

III. GLOBAL REPORT***A. Purpose and scope***

1. The purpose of this report is to provide a dynamic global picture relating to each category of fundamental principles and rights noted during the preceding four-year period, and to serve as a basis for assessing the effectiveness of the assistance provided by the Organization, and for determining priorities for the following period, in the form of action plans for technical cooperation designed in particular to mobilize the internal and external resources necessary to carry them out.

2. The report will cover, each year, one of the four categories of fundamental principles and rights in turn.

B. Modalities

1. The report will be drawn up under the responsibility of the Director-General on the basis of official information, or information gathered and assessed in accordance with established procedures. In the case of States which have not ratified the fundamental Conventions, it will be based in particular on the findings of the aforementioned annual follow-up. In the case of Members which have ratified the Conventions concerned, the report will be based in particular on reports as dealt with pursuant to article 22 of the Constitution.

2. This report will be submitted to the Conference for tripartite discussion as a report of the Director-General. The Conference may deal with this report separately from reports under article 12 of its Standing Orders, and may discuss it during a sitting devoted entirely to this report, or in any other appropriate way. It will then be for the Governing Body, at an early session, to draw conclusions from this discussion concerning the priorities and plans of action for technical cooperation to be implemented for the following four-year period.

IV. IT IS UNDERSTOOD THAT

1. Proposals shall be made for amendments to the Standing Orders of the Governing Body and the Conference which are required to implement the preceding provisions.

2. The Conference shall, in due course, review the operation of this follow-up in the light of the experience acquired to assess whether it has adequately fulfilled the overall purpose articulated in Part I.

The foregoing is the ILO Declaration on Fundamental Principles and Rights at Work and its Follow-up, duly adopted by the General Conference of the International Labour Organization during its Eighty-sixth Session

which was held at Geneva and declared closed the 18 June 1998.

IN FAITH WHEREOF we have appended our signatures this nineteenth day of June 1998.

THE PRESIDENT OF THE CONFERENCE,
THE DIRECTOR-GENERAL OF THE
INTERNATIONAL LABOUR OFFICE.

SENATE RESOLUTION 19—EXPRESSING THE SENSE OF THE SENATE THAT THE FEDERAL INVESTMENT IN BIOMEDICAL RESEARCH SHOULD BE INCREASED BY \$2,000,000,000 IN FISCAL YEAR 2000

Mr. SPECTER (for himself and Mr. HARKIN) submitted the following resolution; which was referred jointly to the Committee on the Budget and to the Committee on Governmental Affairs:

S. RES. 19

Whereas past investments in biomedical research have resulted in better health, an improved quality of life for all Americans and a reduction in national health care expenditures;

Whereas the Nation's commitment to biomedical research has expanded the base of scientific knowledge about health and disease and revolutionized the practice of medicine;

Whereas the Federal Government represents the single largest contribution to biomedical research conducted in the United States;

Whereas biomedical research continues to play a vital role in the growth of this Nation's biotechnology, medical device, and pharmaceutical industries;

Whereas the origin of many of the new drugs and medical devices currently in use is based in biomedical research supported by the National Institutes of Health;

Whereas women have traditionally been under represented in medical research protocols, yet are severely affected by diseases including breast cancer, which will kill over 43,900 women this year; ovarian cancer which will claim another 14,500 lives; and osteoporosis and cardiovascular disorders;

Whereas research sponsored by the National Institutes of Health is responsible for the identification of genetic mutations relating to nearly 100 diseases, including Alzheimer's disease, cystic fibrosis, Huntington's disease, osteoporosis, many forms of cancer, and immune deficiency disorders;

Whereas many Americans still face serious and life-threatening health problems, both acute and chronic;

Whereas neurodegenerative diseases of the elderly, such as Alzheimer's and Parkinson's disease threaten to destroy the lives of millions of Americans, overwhelm the Nation's health care system, and bankrupt the Medicare and Medicaid programs;

Whereas 4 million Americans are currently infected with the hepatitis C virus, an insidious liver condition that can lead to inflammation, cirrhosis, and cancer as well as liver failure;

Whereas 250,000 Americans are now suffering from AIDS and hundreds of thousands more with HIV infection;

Whereas cancer remains a comprehensive threat to any tissue or organ of the body at any age, and remains a top cause of morbidity and mortality;

Whereas the extent of psychiatric and neurological diseases poses considerable challenges in understanding the workings of the brain and nervous system;

Whereas recent advances in the treatment of HIV illustrate the promise research holds for even more effective, accessible, and affordable treatments for persons with HIV;

Whereas infants and children are the hope of our future, yet they continue to be the most vulnerable and under served members of our society;

Whereas approximately one out of every six American men will develop prostate cancer and over 49,200 men will die from prostate cancer each year;

Whereas diabetes, both insulin and non-insulin forms, afflict 15.7 million Americans and places them at risk for acute and chronic complications, including blindness, kidney failure, atherosclerosis and nerve degeneration;

Whereas the emerging understanding of the principles of biometrics have been applied to the development of hard tissue such as bone and teeth as well as soft tissue, and this field of study holds great promise for the design of new classes of biomaterials, pharmaceuticals, diagnostic and analytical reagents;

Whereas research sponsored by the National Institutes of Health will map and sequence the entire human genome by 2005, leading to a new era of molecular medicine that will provide unprecedented opportunities for the prevention, diagnoses, treatment, and cure of diseases that currently plague society;

Whereas the fundamental way science is conducted is changing at a revolutionary pace, demanding a far greater investment in emerging new technologies, research training programs, and in developing new skills among scientific investigators; and

Whereas most Americans show overwhelming support for an increased Federal investment in biomedical research: Now, therefore, be it

Resolved,

SECTION 1. SHORT TITLE.

This resolution may be cited as the 'Biomedical Revitalization Resolution of 1998'.

SEC. 2. SENSE OF THE SENATE.

It is the sense of the Senate that funding for the National Institutes of Health should be increased by \$2,000,000,000 in fiscal year 2000 and that the budget resolution appropriately reflect sufficient funds to achieve this objective.

Mr. SPECTER. Mr. President, I have sought recognition today for the purpose of submitting a resolution calling for the Budget Committee to add \$2 billion in the health account for the National Institutes of Health in fiscal year 2000. I am convinced that National Institutes of Health are the crown jewel of the Federal Government and they have made tremendous progress in conducting research into the causes and cures for disease. My vision for America in the 21st Century is to find the cure for cancer, for Alzheimer's, for Parkinson's, for the severe mental illnesses, for diabetes, for osteoporosis, and for heart cardiovascular disease. All of this is within our reach if we make the proper allocation of our resources.

As Chairman of the Appropriations subcommittee for Labor, Health and Human Services, Education and Related Agencies, I am firmly committed to prioritizing our resources in order to provide maximum funding for biomedical research. Funding for the National Institutes of Health has been increased steadily during my tenure in

the Senate, regardless of who was chairing the subcommittee. Although the budgets were always tight and frequently had cuts called for by the administration, when the chairman was Senator Weicker, when the chairman was Lawton Chiles, when the chairman was TOM HARKIN, or more recently under my chairmanship, we have increased the funding tremendously. And the National Institutes of Health has responded with extraordinary advances in research. Now the work has to be pushed forward to see exactly what can be accomplished in the next century.

On May 21, 1997, the Senate passed a Sense of the Senate resolution submitted by our distinguished colleague, Senator MACK, which stated that funding for the National Institutes of Health should be doubled over five years. Regrettably, even though that resolution was passed by an overwhelming vote of 98 to nothing, when the budget resolution was returned, the appropriate health account had a reduction of \$100 million. That led to the introduction of an amendment to the budget resolution by Senator HARKIN and myself, Senator HARKIN being my distinguished colleague and ranking member of the subcommittee which I chair. We sought to add in \$1.1 billion to carry out the expressed sense of the Senate. Our amendment, however, was defeated 63-37. While the Senate had expressed its druthers on a resolution, when it came to the dollars they simply were not there.

During debate on the fiscal year 1999 Budget Resolution, Senator HARKIN and I again introduced an amendment which called for a funding increase for the National Institutes of Health of \$2 billion and provided sufficient resources in the budget to accomplish this. While we gained more support on this vote than in the previous year, unfortunately our amendment was again defeated, this time by a vote of 57-41.

In order to provide the necessary resources for biomedical research, Senator HARKIN have worked closely together to find these vital funds. In the past few years, Senator HARKIN and I have consolidated and eliminated 135 programs to enable us to save \$1.5 billion. It's pretty hard to eliminate a program in Washington, DC but we have been able to do that. We used the \$1.5 billion to provide to the National Institutes of Health, guaranteed student loans, and many other important programs. Last year, Senator HARKIN and I again went to work with our subcommittee and we were able, by making economies and establishing priorities, to add an additional \$2 billion to the NIH account, the largest increase in history. We, however, still have a long way to go if we are to meet our goal of doubling the funding over five years.

Our investment has resulted in tremendous advances in medical research. A new generation of AIDS drugs are reducing the presence of the AIDS virus in HIV affected persons to nearly

undetectable levels. Death rates from cancer have begun a steady decline. Human genome research has yielded dramatic developments in uncovering genes associated with a host of diseases, such as breast and prostate cancer, Alzheimer's disease, cystic fibrosis, and schizophrenia.

I personally have been the beneficiary of the tremendous advances of the National Institutes of Health. Two decades ago, there was no such thing as an MRI. That device detected a problem for me. And other advances led to good results for me. I know millions of people have benefited from the research and the investment which we have made in the National Institutes of Health. But that takes money, and that is why this resolution is being offered—to call upon the Budget Committee to add in \$2 billion so we can carry forward the important work of the National Institutes of Health.

SENATE RESOLUTION 20—TO RE-NOME THE COMMITTEE ON LABOR AND HUMAN RESOURCES THE COMMITTEE ON HEALTH, EDUCATION, LABOR, AND PENSIONS

Mr. JEFFORDS (for himself and Mr. KENNEDY) submitted the following resolution; which was considered and agreed to:

S. RES. 20

Resolved, That the Committee on Labor and Human Resources is hereby redesignated as the Committee on Health, Education, Labor, and Pensions.

SENATE RESOLUTION 21—CONGRATULATING THE UNIVERSITY OF TENNESSEE VOLUNTEERS FOOTBALL TEAM ON WINNING THE 1998 NATIONAL COLLEGIATE ATHLETIC ASSOCIATION DIVISION 1-A FOOTBALL CHAMPIONSHIP

Mr. FRIST (for himself and Mr. THOMPSON) submitted the following resolution; which was considered and agreed to:

S. RES. 21

Whereas the University of Tennessee Volunteers football team (referred to in this resolution as the "Tennessee Volunteers") defeated the Florida State University Seminoles on January 4, 1999, at the Fiesta Bowl in Tempe, Arizona, to win the National Collegiate Athletic Association Division 1-A football championship;

Whereas the Tennessee Volunteers completed the 1998 football season with a perfect record of 13 wins and 0 losses;

Whereas the Tennessee Volunteers defeated the Mississippi State University Bulldogs to claim the 1998 Southeastern Conference football championship;

Whereas the Tennessee Volunteers' Coach Phillip Fulmer, his staff, and his players displayed outstanding dedication, teamwork, selflessness, and sportsmanship throughout the course of the season to achieve collegiate football's highest honor; and

Whereas the Tennessee Volunteers have brought pride and honor to Tennessee: Now, therefore, be it

Resolved, That the Senate—

(1) congratulates the University of Tennessee Volunteers football team on winning the 1998 National Collegiate Athletic Association Division I-A football championship; and

(2) commends the University of Tennessee Volunteers football team for its pursuit of athletic excellence and its outstanding accomplishment in collegiate football in winning the championship.

SENATE RESOLUTION 22—NATIONAL PEACE OFFICERS MEMORIAL DAY RESOLUTION

Mr. CAMPBELL (for himself, Mr. ABRAHAM, Mr. AKAKA, Mr. ALLARD, Mr. BIDEN, Mr. BINGAMAN, Mr. BROWNBACK, Mr. BRYAN, Mr. BURNS, Mr. CLELAND, Mr. COVERDELL, Mr. CRAIG, Mr. DASCHLE, Mr. DEWINE, Mr. DODD, Mr. DOMENICI, Mr. DORGAN, Mr. DURBIN, Mr. ENZI, Mrs. FEINSTEIN, Mr. FITZGERALD, Mr. FRIST, Mr. GORTON, Mr. GRAMM, Mr. GRAMS, Mr. HAGEL, Mr. HATCH, Mr. HELMS, Mr. HOLLINGS, Mrs. HUTCHISON, Mr. INHOFE, Mr. INOUYE, Mr. JEFFORDS, Mr. KENNEDY, Mr. KERREY, Mr. LEAHY, Mr. LIEBERMAN, Mr. LOTT, Mr. LUGAR, Mr. MACK, Mr. McCAIN, Ms. MIKULSKI, Mr. MOYNIHAN, Mr. MURKOWSKI, Mrs. MURRAY, Mr. REID, Mr. ROBB, Mr. ROCKEFELLER, Mr. ROTH, Mr. SAR-BANES, Mr. SCHUMER, Mr. SESSIONS, Mr. SHELBY, Mr. SMITH of New Hampshire, Mr. SPECTER, Mr. STEVENS, Mr. THURMOND, Mr. TORRICELLI, Mr. WARNER, Mr. WELLSTONE, and Mr. CRAPO) submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 22

Whereas the well-being of all citizens of this country is preserved and enhanced as a direct result of the vigilance and dedication of law enforcement personnel;

Whereas more than 700,000 men and women, at great risk to their personal safety, presently serve their fellow citizens in their capacity as guardians of peace;

Whereas peace officers are the front line in preserving our children's right to receive an education in a crime-free environment that is all too often threatened by the insidious fear caused by violence in schools;

Whereas 158 peace officers lost their lives in the performance of their duty in 1998, and a total of nearly 15,000 men and women have now made that supreme sacrifice;

Whereas every year 1 in 9 officers is assaulted, 1 in 25 officers is injured, and 1 in 4,400 officers is killed in the line of duty; and

Whereas, on May 15, 1999, more than 15,000 peace officers are expected to gather in our Nation's Capital to join with the families of their recently fallen comrades to honor them and all others before them: Now, therefore, be it

Resolved, That the Senate—

(1) recognizes May 15, 1999, Peace Officers Memorial Day, in honor of Federal, State, and local officers killed or disabled in the line of duty; and

(2) calls upon the people of the United States to observe this day with the appropriate ceremonies and respect.

Mr. CAMPBELL. Mr. President, today I am joined with my colleagues in submitting this resolution to keep alive in the memory of all Americans, the sacrifice and commitment of those
