

affordable for the self-employed by letting them deduct 100 percent of their health premiums in 2000—three years ahead of schedule. The Congressional Budget Office estimates that the Democrats bill, S. 6, would increase health insurance premiums an average 6.1 percent which would force 1.8 million to 1.9 million Americans to lose their health coverage. This bill will also lower household wages an average of \$207 annually, and would eliminate 194,000 jobs by 2003.

I am firmly behind a bill in the United States that will provide consumer protections and enhanced health care quality, while keeping insurance affordable and actually expanding access to insurance for millions of Americans.

Under the Republican bill, the patients have the right to talk freely and openly with their doctors about all treatment options and the right to see the doctor of their choice. Even more important, they have the right to a quick and cost-free appeals process if a health plan refuses to cover treatment.

The Republican bill does all these things, and also expands opportunity for millions of uninsured Americans to come into the health care system. We offer tax-free medical savings accounts to all, and extend tax equity to self-employed individuals.

Mr. President, the Republican Patients' Bill of Rights Plus makes sure all Americans have the access and protections they need and want. Americans deserve access to the best doctors and specialists available; reliable information about their doctors and their health plans, and affordable, quality care at every stage of life. This week, I will work to make sure Congress addresses these important issues with a plan that puts you, not a bureaucrat, in control of your health care.

I thank the chair.
