THE FOLIC ACID PROMOTION AND BIRTH DEFECTS PREVENTION ACT OF 1999

Mr. ABRAHAM. Mr. President, I rise to introduce the Folic Acid Promotion and Birth Defects Prevention Act of 1999. I would also like to thank my colleagues Senator BOND and Senator KOHL for cosponsoring this important piece of legislation.

Mr. President, each year over 8,000 infants die from birth defects. The loss of these children, who could have grown up to be community leaders, teachers, doctors, or lawyers, weighs heavily upon our society. In addition, each year over 2,500 babies born live with serious birth defects of the brain and spine, called neural tube defects, and over 50 percent of these cases are preventable. In 1991, research proved that if pregnant women take as little as 400 micrograms of B vitamin folic acid each day, 50 to 70 percent of all cases of these serious birth defects of the brain and spine, such as spina bifida, would be prevented. Unfortunately, this information is not widely known by the public. According to a Gallup Poll conducted for the March of Dimes, only 32 percent of women of childbearing age reported taking a multivitamin with folic acid on a daily basis.

We must broaden public awareness about the prevention of these crippling defects. For this reason, I have introduced the Folic Acid Promotion and Birth Defects Prevention Act of 1999. This legislation authorizes \$20 million for the Centers for Disease Control (CDC), in partnership with state and local public and private entities, to launch an education and public awareness campaign, conduct research to identify effective strategies for increasing folic acid consumption by women of reproducing age, and evaluate the effectiveness of these strategies.

Mr. President, this legislation is an effort to link great advances in research with everyday life. This life-saving information about the consumption of folic acid, which will prolong the health and well-being of women and infants, needs to be broadcast to families and individuals across the country. It

is my firm belief that this legislation will be the vehicle to help bring this important message into every home in America.

I would like to take a moment to thank the March of Dimes for their involvement in this issue. Their work will be critical in getting this legislation passed and in helping spread the message of the benefits of folic acid. Mr. President, I yield the floor.
