

completed high school and attended the University of the District of Columbia. She married, had four sons, and worked for the Veterans Medical Center in Washington, DC, for more than 25 years, receiving many honors and awards for outstanding service, before retiring last year on medical disability.

Aminah was an ordained minister who loved preaching and teaching the Word of God. She had a vision to start a Women's Ministry which she lived to see become a reality. She was the chairperson of the Women's Ministry, served on the Missionary Ministry and assisted many families who resided in women and children shelters.

As we here today in the Capitol seek to give tools to those who work to improve their local communities, it is fitting to take a moment to recognize the good works and good life of Rev. Aminah Bullock-Mumin who dedicated herself to improving the lives of others.

80TH BIRTHDAY OF BRIG. GEN.
ROBERT F. McDERMOTT, USAF
(RET.)

HON. HENRY BONILLA

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 25, 2000

Mr. BONILLA. Mr. Speaker, Monday, July 31, 2000 is the 80th birthday of retired Air Force Brigadier General Robert F. McDermott. I offer congratulations and continued happiness to him and his loved ones. On this special day for "McD," I wish to honor and salute him for his lifelong service to his fellow Americans.

Born in Boston, Massachusetts, General McDermott attended Boston Latin School and Norwich University. He graduated from West Point with the Class of January 1943. After commissioning, he flew 61 combat missions in a P-38 over Europe. After World War II ended, he continued his military service in Europe, the Pentagon, and, after earning an MBA at Harvard, on the faculty at West Point.

His assignment to the newly created Air Force Academy in 1954 signaled the beginning of his outstanding contributions to the U.S. Air Force. As Dean of the Faculty for the first ten graduating classes, he pioneered and championed a number of innovations that changed the face of service academy education. These included a modernized and enriched curriculum, academic majors, the first Department of Astronautics in the country, and cooperative Master's degree programs with prestigious universities such as UCLA and Purdue. He also developed a whole-person admissions program which brought the highest quality students to the Academy. These innovations were so successful that West Point and Annapolis broke with their traditions and instituted many of them. For these accomplishments, General McDermott is universally acknowledged as the "Father of Modern Military Education."

For many this would have been enough success for one lifetime, but not for McD. In 1969 he tackled the private sector, becoming the head of USAA, an insurance and financial services association that served military officers and their families. Under General McDermott USAA grew from a relatively small property and casualty insurer into a successful

financial services supermarket. He added no-load mutual funds, credit cards, a discount brokerage, and a full-service bank. He also pioneered technology-based customer service, employing "800" phone services, computers, and IMAGE processing. Today USAA is a worldwide insurance and diversified financial services family of companies, where the majority of customers continue to be members of the U.S. military.

General McDermott also made USAA a great place to work. No company was rated higher in the first publication of the "Best Places to Work in America," and Fortune selected USAA as the best service provider in the insurance industry. McD has received virtually all the highest accolades offered to businessmen, including selection to the National Business Hall of Fame. After retiring as USAA Chairman Emeritus in 1993, his methods continue to be a model for insurance and financial services companies.

At the same time McD has made enormous contributions to his community, including founding the San Antonio Economic Development Foundation, the Texas Research Park, and a mentor program that has reached thousands of children. General McDermott's energy, vision, intelligence, character, and belief in the Golden Rule has made everything he touches positive and successful.

Once again, Happy Birthday McD. Congratulations on a great 80 years and best wishes for many more.

IN RECOGNITION OF DR. OTAKAR
HUBSCHMANN

HON. BOB FRANKS

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 25, 2000

Mr. FRANKS of New Jersey. Mr. Speaker, today I recognize an individual who epitomizes the spirit of public service, Otakar Hubschmann, M.D.

Dr. Hubschmann, a nationally renowned neurosurgeon from Short Hills, NJ, received his medical degree in May 1967 from Charles University in Prague. Later that same year, he defected from Communist-ruled Czechoslovakia and fled to England. He sought and attained asylum in the United States where he completed his medical residency at Albert Einstein College of Medicine in New York. After his residency, he served as a Major in the United States Army and eventually became a full tenured professor at the University of Medicine and Dentistry of New Jersey. He currently serves as Chief of Neurological Surgery at Saint Barnabas Health Care System in West Orange, NJ.

Since the demise of Communism in Czechoslovakia in 1989, Dr. Hubschmann has been involved in a number of important projects to help the newly democratized Czech Republic. He has led efforts to secure much needed medical equipment for Czech hospitals, has been an invited lecturer at Charles University and has worked with Mrs. Olga Havel, the former Czech First Lady, to help developmentally disabled children in the Republic.

Recently, Dr. Hubschmann founded "Lacrosse Without Borders," to develop new friendships and enhance international toler-

ance through lacrosse, a sport originated by Native Americans. Through his tireless efforts, "Lacrosse Without Borders" hosted 20 former and current college lacrosse players in Prague earlier this month. These young American athletes ran lacrosse instructional clinics and participated with their Czech counterparts in the Prague Cup 2000. This extremely successful program generated a great deal of interest in Prague and significant media coverage both within the Czech Republic and here in the United States.

Mr. Speaker, please join me in recognizing Dr. Otakar Hubschmann's selfless efforts to promote positive relations between the United States and the Czech Republic.

RECOGNIZING THE CHEVRON CORPORATION AND THE YOSEMITE NATIONAL PARK VOLUNTEER PROJECT

HON. GEORGE RADANOVICH

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 25, 2000

Mr. RADANOVICH. Mr. Speaker, today I recognize the outstanding work of the Yosemite National Park Volunteer Project. The project is celebrating a decade of effort by the Yosemite Fund and volunteers from Chevron Corporation to restore and preserve one of the crown jewels of our National Park System. Yosemite's 4 million yearly visitors will bear witness to the fruits of this effort: More than 60 acres of meadows, lake area and woodlands have been restored. Nearly 3,000 volunteers donated 27,500 hours to collect and plant 10,000 oak seedlings, remove 1,000 feet of roadway, build 4,000 feet of split rail fence, install 1,500 feet of boardwalk, remove 600,000 pounds of asphalt, plant 100 black oak trees and improve one mile of trails.

Mr. Speaker, this is not glamorous work. To the contrary, splitting rails, digging up asphalt and laying boardwalk to protect meadows is hard, physical labor. The Chevron volunteers did it happily, putting to superb use the \$1.3 million in contributions provided by Chevron. The Yosemite Fund, the National Park Service and Chevron have created a partnership that invigorates natural conditions in Yosemite which still might be in danger of permanent degradation if it were not for this timely volunteer and financial assistance. This cooperative effort is a model public/private partnership that has made a lasting difference in one of this nation's most beautiful and most important natural settings.

NANCY BERRY INDUCTED INTO
THE NATIONAL TEACHERS HALL
OF FAME

HON. STEVE BUYER

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 25, 2000

Mr. BUYER. Mr. Speaker, on June 14, I had the great opportunity to speak before a very select group of individuals, the year 2000 inductees into the National Teachers Hall of Fame. These are individuals who have shown exceptional dedication and creativity in the teaching profession.

It was a great honor to have as one of the inductees Nancy Berry, the Principal of Columbia Elementary School in Logansport, Indiana. At Columbia Elementary School you would be welcomed to "Berryland," the creative classroom of Nancy Berry, where children acquire an appreciation to learn. Nancy has taught in the classroom for Logansport Community School Corporation for over 20 years. Although she has been principal for the last three years, she still keeps active in the classroom.

Nancy, as well as the other inductees, has the gift to spark the imaginations of our children and the commitment to demand excellence and character, not only from students, but also in inspiring other teachers to strive for these goals. Nancy has created educational materials as well as a management program that promotes dignity, imagination, self-discipline, and responsibility. As Nancy puts it "behavior is like a shirt, it can be changed."

It was my privilege to welcome these outstanding teachers to the National Teachers Hall of Fame, and on behalf of grateful parents and a grateful nation, to express thankfulness for their hard work and dedication.

COMMEMORATING THE 50TH ANNIVERSARY OF THE KOREAN WAR

HON. SAM GEJDENSON

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 25, 2000

Mr. GEJDENSON. Mr. Speaker, it is with great appreciation today, on the fiftieth anniversary of the Korean War, to celebrate those who fought for this country and its ideals.

I respect those who served in the Korean War and for the more than 54,000 who didn't return. I commend the men and women who served valiantly and with little recognition. These brave veterans returned home and went back to work to make our country the greatest nation on Earth.

Because of this lack of attention, the Korean War has frequently been called "The Forgotten War." Today I say that we have not forgotten. To this day, American and South Korean troops stand watch on the Korean peninsula, living testaments to this critical episode in the annals of the Cold War. Millions of citizens in South Korea remember the sacrifices Americans made and cherish the freedom that we fought to preserve for them.

Let me also pay special tribute to those who have made it their mission to ensure we do not forget those who fought there and did not return. Bob Dumas, a constituent of mine, continues his untiring search for his brother, Roger, who remains MIA in North Korea. Remains of another twelve American servicemen were returned to the U.S. by North Korea on Saturday. I believe we must continue to press until we have accounted for all lost in the conflict.

Finally, let me challenge my colleagues to take this opportunity, while we are remembering this "Forgotten War," to renew our commitment to those who served with honor, those who fought bravely, and those who died with valor in the service of our country—our veterans. Whether they served at Chosin Reservoir, Bunker Hill, Bloody Ridge, or Heartbreak Ridge, let us respect their service and

sacrifice through fully supporting those programs which they truly deserve: adequate funding of medical facilities including mental health programs; more Community Based Outreach Clinics to bring health care closer to our aging veterans; more coordination among federal agencies for our homeless veterans; and continued support of education and rehabilitation. Given the sacrifices of our veterans, we owe them much more than just a debt of gratitude—we owe them the care that they earned.

ASSURING QUALITY OF ELDER CARE IN NURSING HOMES—THE INTRODUCTION OF H.R. 4898 TO REQUIRE AIR CONDITIONING IN NURSING HOMES

HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 25, 2000

Mr. LANTOS. Mr. Speaker, on June 15th and 16th of this year, three elderly patients died at the SunBridge Care and Rehabilitation home in Burlingame, California, in my Congressional District and five others at the home were hospitalized during a heat wave when temperatures in the county soared to 108°. When county officials visited the nursing home in Burlingame during last month's heat wave, fans were pointed toward staff, while elderly people were dying. Those deaths are under investigation by state and local officials in California.

Mr. Speaker, we cannot have the federal government financially supporting nursing homes where conditions are life-threatening. That is why I have introduced H.R. 4898, legislation which will require air conditioning in nursing home facilities which receive Medicare or Medicaid funding. If the operators of these profit-making facilities are not willing to assure humane conditions for the elderly living there, they will not receive federal funds.

H.R. 4898 amends the Social Security Act to add the requirement for air conditioning to the specifications which nursing home facilities must meet in order to be eligible for federal funds. Because Medicare and Medicaid provide a major portion of the funding for many of the patients at most nursing homes in the country, this legislation will require virtually all such facilities to have air conditioning.

Mr. Speaker, these deaths in California occurred just a week after the release of a congressional study which was conducted at the request of the members of the Bay Area congressional delegation. This study revealed how substandard the conditions are in nursing homes in our area. The study found that only 6 percent of Bay Area nursing homes were in "substantial compliance" with federal standards, and 41 percent of homes were found to have violations of federal standards "that caused actual harm to residents or placed them at risk of death or serious injury." In short, this report says our nursing homes are in crisis, and corrective action is necessary. Just one week later we saw the consequences in the tragedy in Burlingame.

Mr. Speaker, this need for air conditioning is not just a California problem. The heat wave now affecting much of the Southern states over the past two weeks has been blamed for the deaths of at least 12 people in Texas and

four in Louisiana. Heat kills. It is an absolute outrage that elderly people in nursing homes are dying because it's too hot. We need to take action to protect our elderly who are in nursing homes. I urge my colleagues to join me as cosponsors of H.R. 4898 so that we can protect our elderly citizens, our father and mothers, grandfathers and grandmothers, brothers and sisters, and friends from the heat when they are cared for in nursing homes.

CHINA LAKE NAVY MUSEUM

HON. WILLIAM M. THOMAS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 25, 2000

Mr. THOMAS. Mr. Speaker, on July 28th supporters of the Naval Air Warfare Center, Weapons Division, China Lake will gather together in Ridgecrest, California for the ribbon cutting of a new Navy museum dedicated to the history and achievements of the people who have worked at China Lake since the 1940s. As a Life Member of the Museum Foundation that is collecting private funds to create this monument, I support this effort to preserve a complete record of China Lake's record for future generations.

Those of us familiar with China Lake have a strong sense of what the Navy personnel and employees there have done for this Nation's defense. China Lake personnel developed the first Sidewinder air to air missile. China Lake has been the source of technological advances in cruise missiles, fuel-air munitions, infrared and other technologies that Americans in uniform rely on in their quest to defend the nation. It is a remarkable story proving what exceptional dedication can accomplish.

By building this museum, we can preserve a record of the achievements of people at China Lake. Those achievements are a source of justifiable pride in eastern Kern County, California. With this museum, they become a source of inspiration to visitors and to those important future Americans who will come to China Lake to solve new problems.

RECOGNIZING THE SHREWSBURY HIGH SCHOOL COLONIALS BASEBALL TEAM

HON. JAMES P. MCGOVERN

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 25, 2000

Mr. MCGOVERN. Mr. Speaker, I rise today to join the community of Shrewsbury, Massachusetts, in celebrating the outstanding performance of the Shrewsbury High School Colonials Baseball team. Their remarkable season came to an abrupt end on June 19th with their defeat in the Division 1 State Championship game. This defeat, however, could not detract from their extraordinary season.

The mentality of the Colonials' baseball team can be summed up in a common idiom—"comeback kids." However there is nothing "common" about this group of distinguished young men. This season, driven by the passionate leadership of Coach Dave Niro, the Colonials surprised many with late-inning
