

TO COMMEMORATE THE 150TH ANNIVERSARY OF THE HUNTSVILLE ITEM

HON. JIM TURNER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 27, 2000

Mr. TURNER. Mr. Speaker, I have a special opportunity today to honor the Huntsville Item, a fine newspaper in East Texas, which will be celebrating its 150th birthday on August 18.

The Huntsville Item is the second oldest continually published newspaper in the state of Texas. Over the last century and a half, it has reported the everyday challenges facing East Texans, as well as the triumphs and tragedies of our great nation.

The Huntsville Item began publication in Huntsville, Texas on August 20 1850, under the editorship of George Robinson, who was born in Liverpool, England. From 1863–1864, during Robinson's enlistment in the Civil War, the Item was irregularly published due to Robinson's war duties and scarce supplies.

A fire destroyed the printing house of the Item on May 4, 1878, and the paper had to be printed several blocks away. But again, six years later, fire struck down the printing house, interrupting the Item's distribution for several weeks while printing was relocated to nearby Willis. Later that year, George's youngest son, Fred, took over management of the paper, moving all its operations back into Huntsville.

For several years early in the twentieth century, the Huntsville Item operated as the Huntsville Post-Item under publisher J.A. Palmer. In 1915, the paper was sold to Ross Woodall, who, along with his wife, published the paper until 1967.

The Item is currently owned by Community Holdings Newspapers, Inc.

The faded headlines of this newspaper tell the story of our nation's history.

Through the Civil War, two World Wars, Korea, Vietnam, the Persian Gulf, and Kosovo, the Item relayed news of brave American soldiers to their parents, siblings, and loved ones. Its newsprint has captured the Great Depression, the Baby Boom, the Oil Rush, the S&L crash, and the digital revolution. Its columns have examined Nolan Ryan, Willie Nelson, LBJ and Sam Rayburn.

I congratulate all the editors, photographers, and reporters who have made this newspaper last through the test of time. Even after four fires and other challenges, the paper has survived and flourished.

I hope that the stories it reports in the next hundred and fifty years will mirror the same growth, progress, and success that our nation has experienced since its first copy, published in 1850.

TRIBUTE TO POSTMASTER ROY C. BUNCH

HON. WALTER B. JONES

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 27, 2000

Mr. JONES of North Carolina. Mr. Speaker, today I pay a special tribute to Postmaster Roy C. Bunch who resides in North Carolina's

Third Congressional District, which I have the privilege to represent.

Next week friends, family, and officials will gather at the Albemarle Plantation in Hertford to recognize Mr. Bunch for 50 years of dedicated service to the federal government.

Mr. Bunch began his career in the United States Navy on August 24, 1944 and served our Nation until March 6, 1946.

His career as Postmaster of the Belvidere facility began on January 24, 1952 where he has tirelessly served for over 48 years.

After fifty years of service to the Federal Government and to the men, women and children of our great Nation, Mr. Bunch is not slowing down.

He is in wonderful health and has mentioned no plans of retirement.

He currently resides in Belvidere, North Carolina with his wife of 51 years, Clemma Bunch. Together Roy and Clemma have one son and a daughter.

He continues to be an exemplary example of an outstanding public servant and for that I would like to take this opportunity to thank Mr. Bunch.

All of our federal employees deserve great thanks from this Nation. It is not an overstatement to say that without federal employees our country would not be able to function. They touch every aspect of our lives and provide immeasurable benefits to us all. Without the dedication to service that federal workers such as Mr. Bunch provide, our Nation would not be the great country it is today.

Mr. Roy Bunch, "thank you," I salute you.

INTRODUCTION OF THE MINGE-HOOLEY COMPREHENSIVE RURAL TELECOMMUNICATIONS ACT

HON. DAVID MINGE

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 27, 2000

Mr. MINGE. Mr. Speaker, today I announce the introduction of landmark legislation to help maintain the viability of America's rural economy. I join with my colleague Representative DARLENE HOOLEY and members of the Democratic Rural Task Force in introducing the Comprehensive Rural Telecommunications Act.

Several months ago, I was given the opportunity to chair the Democratic Rural Task Force. This task force was developed with the aim of pursuing initiatives which ensure our rural communities are not left behind in the new millennium. Many factors comprise a robust economy. That is true in an urban, suburban or rural community. It was my job to decide which economic sectors of rural America we could most realistically pursue.

With the advice and input of the telecommunications innovators in my Congressional district, I saw the important need for a strong investment in telecommunications infrastructure to provide for the maintenance and future growth of rural America. The Internet creates great commercial opportunities; therefore, telecommunications infrastructures are more than ever a crucial tool of our economic development. However, rural communities are at a real disadvantage when it comes to building these new advanced networks, given their

distance from urban centers and low population densities. Telecommunication providers often prefer to deploy advanced telecommunication systems in urban areas, where fixed costs are spread over more customers and volume is greater.

The gentlewoman from Oregon and I set to work on an ambitious proposal that would take a comprehensive approach rather than several fragmented efforts. This collaborative effort led to the three part Comprehensive Rural Telecommunications Act. Our legislation combines incentives for infrastructure creation along with the educational opportunities needed to ensure a population who can utilize the new infrastructure.

The legislation establishes National Centers for Distance Working which would provide training, referral, and employment-related services and assistance to individuals in rural communities and Indian Tribes to support the use of teleworking in information and high technology fields. These centers would help people in rural areas link up with employers so they could take advantage of new career opportunities even if they do not live in areas with numerous employers.

To encourage infrastructure creation, the legislation provides a 10% to 15% tax credit on expenditures by companies deploying broadband (1.5 MBPS) or enhanced broadband (10 MBPS) in rural areas. The legislation also authorizes the USDA's Rural Utility Service to provide up to \$3 billion in loans or credit extensions to eligible telecommunications carrier providers to finance the deployment of broadband service in rural communities.

A special thanks goes to the esteemed Senators DORGAN, ROCKEFELLER, and WELLSTONE. Much of this legislation is based on individual bills they have previously introduced. I would also like to thank the Chairman of the Democratic Caucus, Representative MARTIN FROST.

Mr. Speaker, I request that my House colleagues join with me in supporting and passing the Minge-Hooley Comprehensive Rural Telecommunications Act, which is critical to rural America's future.

FREE SPEECH AND MEDIA IN THE OSCE REGION AFTER 25 YEARS

HON. JOSEPH R. PITTS

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 27, 2000

Mr. PITTS. Mr. Speaker, today freedom of the press and media in the OSCE participating States is deteriorating and regressing, largely unnoticed by the peoples of the region. This is happening in Western and Central Europe in much the same way one cooks a frog. Place the frog in cold water and start the fire. As the water heats up, the frog is gradually cooked—having never known he was in danger. This type of political gradualism is a true threat to the peoples and States of Europe.

Recent hearings held by the Helsinki Commission, on which I serve, have noted a number of high profile cases in Eastern Europe showcasing the situation. We have heard of the rise of influence and pressure from heavy-handed government authorities who feel the need to control the views and reports of independent journalists. Such actions have been

especially evident in Bosnia, Azerbaijan, and Ukraine. The recent arrest of Vladimir Gusinsky, head of Media Most and an outspoken critic of Russian President Putin, has raised our concern about Russia's approach to an agenda of free media.

A key OSCE commitment allows for the development and protection of freedom of expression, permitting independent pluralistic media. Three years ago, the OSCE States were concerned enough about the problems in this area that they mandated the creation of the position of Representative on Freedom of the Media. The 25th Anniversary of the Helsinki Final Act marks an appropriate occasion to review the past relations between the OSCE governments and the media, and to review the current situation of free media in the region.

Last year, 11 journalists were killed in the region, with a number of the deaths accompanied by suspicious circumstances. In addition to those killed while reporting the news, many others were arrested under suspicious circumstances and without due process. Radio Free Europe/Radio Liberty reporter Andrei Babitsky's story is a frightening example of just how badly the situation for reporters has deteriorated in Russia. While covering and reporting on the war in Chechnya, Babitsky was arrested by Russian troops for "participating in an armed formation," and yet later was traded to Chechen rebels in an exchange, thus being placed in grave danger. Babitsky was later retrieved by Russian forces and subsequently charged with using false papers.

While Babitsky was fortunate to have survived and received international exposure, most other journalists are not so lucky in Russia. In Vladimir Putin's first "state of the union" speech, he said that he supported a free Russian press, but was angered that media owners could influence the content. That is, while Putin openly declares support for a free media, he chills the media in his next utterance. Likewise, Gusinsky's arrest has heightened our concern as we see the tightening of the noose on the throat of a free press in Russia.

Actions by governments in Southeastern Europe are also a cause for concern. Turkey and the Balkan States present serious impediments towards promoting and allowing free media. Serbia continually threatens, harasses, and fines all media that do not follow the official line. Milosevic has seen to the gradual demise of any independent Serbian media, not the least through fines totaling \$2.1 million last year. Turkish authorities continue to block free media in key areas, with either the Kurdish issue or criticism of the military most likely to land journalists in jail.

Mr. Speaker, I could continue. Such developments are rife throughout the Caucasus and Central Asia. It is not enough for OSCE States to ardently promote the idea of free speech and media. Collective accountability must be used, along with public diplomacy, if the OSCE is to consist of States that rise to the standard envisioned at Helsinki 25 years ago regarding free speech and media.

RECOGNIZING THE NYSP PROGRAM AT THE UNIVERSITY OF WISCONSIN—EAU CLAIRE

HON. RON KIND

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 27, 2000

Mr. KIND. Mr. Speaker, today I recognize a fantastic program that benefits young people throughout the nation, and to pay special tribute to the chapter in my congressional district.

Earlier this month, I had the pleasure to spend some time at the National Youth Sports Program (NYSP) on the University of Wisconsin—Eau Claire campus. This is the twentieth year that an NYSP summer camp has operated in the Chippewa Valley region of western Wisconsin, at which disadvantaged youth take part in athletic, math and science activities for five weeks. The sports component of the program emphasizes instruction, competition, physical fitness and lifetime sports. The classroom programs cover nutrition, drug and alcohol awareness, higher education preparation and career discussions in addition to the science and math curriculum.

Of the 180 or so NYSP programs that operate nationwide each summer, the University of Wisconsin—Eau Claire camp has been recognized as one of the top five programs seven times. It has also been rated as the top program twice in the last decade.

NYSP is an excellent example of how federal partnerships with communities can work for the betterment of America's young people. Funds for NYSP are provided through the Department of Health and Human Services and are administered through the NCAA. In my home state, additional funds for food services are provided through the Department of Agriculture.

NYSP provides the kids who participate in the camps with wonderful opportunities they would not otherwise have to learn, play, and form new friendships in friendly, safe and supportive environments. This year at UW—Eau Claire, 589 young people participated in NYSP.

Mr. Speaker, I congratulate all of the many staff and volunteers who run the NYSP program at UW—Eau Claire. In particular, I wish to recognize Lisa McIntyre, Bill Harms, Jeff Lutz, Tom Platt and Tony Hudson, whose dedication to the program is very admirable, and who make sure I am kept up-to-date about the progress and success of NYSP each year.

I offer a special word of congratulations and thanks to Diane Gibertson, who has been the Activities Director of NYSP in Eau Claire. Diane is retiring this year, and was instrumental in establishing NYSP in the Chippewa Valley twenty years ago. Diane's tireless efforts over the years on behalf of youth in our community serves as a shining example for all of us—young and old—to follow our dreams, and to take time to help make the dreams of our children come true.

Once again, Mr. Speaker, on behalf of the residents of western Wisconsin, I congratulate and thank all those who have made the NYSP program an amazing success. Our children, and our communities, are certainly the better for their efforts.

THE TECHNOLOGY EDUCATION AND TRAINING ACT

HON. JERRY WELLER

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 27, 2000

Mr. WELLER. Mr. Speaker, today, I am introducing a bill with Mr. MORAN, Mr. COX, Mr. TAUZIN, Mr. TOM DAVIS, Mr. DRIER, Mr. ADAM SMITH, Mr. SALMON and Mrs. TAUCHER to address the severe worker shortage in technology related industries. The Technology Education and Training Act provides a \$1,500 tax credit for information technology training expenses.

This tax credit is necessary to address the serious shortage in the United States of trained technology professionals. This shortage has a dramatic effect on the U.S. economy. According to the CompTIA Workforce Study, as a result of unfilled IT positions, the U.S. economy loses \$105.5 billion in spending that would otherwise go to salaries and training. This reduces household income by \$37.2 billion and prevents the creation of 1.6 million jobs. Currently, an estimated 268,740 (10%) of IT service and support positions are unfilled. This results in \$4.5 billion per year in lost worker productivity. An ITAA study released April 11, 2000 predicts a shortage of 843,328 for the 1.6 million new IT workers needed in 2000.

The tax credit we establish in this bill would be available to both individuals and businesses for training and educational expenses for individuals being trained in technology related industries. The allowable credit would be \$1,500. For small businesses, or businesses and individuals in enterprise zones, empowerment zones, and other qualified areas, the credit would equal \$2,000. The training program must result in certification.

This bill encourages a private-public sector partnership which allows the private sector to determine who, what, where and how to train workers. It also helps to fill the IT worker pipeline with thousands of new and retrained IT skilled workers which would otherwise leave thousands of jobs in cities across America unfilled.

Mr. Speaker, thank you for the opportunity to speak on behalf of The Technology Education and Training Act.

THE IMPORTANCE OF A GLOBAL SCHOOL LUNCH AND GLOBAL WIC PROGRAM

HON. JAMES P. MCGOVERN

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 27, 2000

Mr. MCGOVERN. Mr. Speaker, I was very excited to read the July 23, 2000 statement by President Clinton at the G-8 Summit in Okinawa, Japan, announcing a \$300 million initial start-up program in support of a universal school and pre-school feeding program for the over 300 million hungry children of the world. On July 27th, the Senate Agriculture Committee held a hearing on this issue and invited former Senators George McGovern and Bob Dole, the two chief proponents of this initiative, Secretary of Agriculture Dan Glickman, Senator RICHARD DURBIN, myself, and several others to testify.
