

to acknowledge the achievements and contributions of Mr. Jeffrey Fuller, President of the Montclair, California Chamber of Commerce. Under his leadership, the Chamber has succeeded in expanding its role in the promotion of local businesses, public policy and community involvement.

During Mr. Fuller's tenure, the Montclair Chamber of Commerce has expanded its membership by 20 percent, increased cash reserves for future expansion and upgraded its computer system to better serve local businesses and residents. At the same time, he reinstated the Chamber's involvement with the State of the City address and organized the first annual Montclair Safety Fair and Business Expo.

Mr. Fuller has tirelessly fought to preserve the spirit of the American dream. I appreciate his work and wish him well in his future endeavors.

#### INTRODUCTION OF THE OMBUDSMAN REAUTHORIZATION ACT OF 2000

**HON. MICHAEL BILIRAKIS**

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, February 15, 2000*

Mr. BILIRAKIS. Mr. Speaker, today I am introducing the Ombudsman Reauthorization Act of 2000. This legislation is a companion to S. 1763, which was introduced last year by Senator ALLARD of Colorado. The bill reauthorizes the Office of the National Solid Waste and Superfund Ombudsman within the U.S. Environmental Protection Agency.

I have experienced first-hand the important work of the National Superfund Ombudsman in connection with the Stauffer Chemical Superfund Site, which is located in my congressional district in Tarpon Springs, Florida.

I fought tirelessly with my constituents for years to have the Stauffer site designated as a federal Superfund site. In 1994, the Stauffer site was finally included on the National Priorities List. It has been a long and tedious process since then. After six years, we are still waiting for the cleanup to begin. Clearly, this process is taking too long. The Superfund program must be streamlined to make it work within reasonable time frames—consistent with public expectations.

All of my constituents agree on the need for prompt cleanup of the Stauffer site. The question is how and when this will be accomplished in a manner consistent with protecting the public health and safety.

I joined with many of my constituents in repeatedly urging the EPA to carefully consider the unique geography of the Tarpon Springs area, with a particular focus on our sources of drinking water. In 1996, I was pleased to help secure funding for the Pinellas and Pasco County Technical Assistance Grant (Pi-Pa-TAG) to monitor cleanup activities at the Stauffer site. Throughout the years, I have sponsored several public meetings and written many letters regarding necessary standards for the cleanup of the site.

The process of selecting a remedy that is both cost-effective and protective of the public health and safety has been extremely difficult. The affected parties have different opinions regarding the most appropriate solution to the

problem, and many area residents feel that they have been "shut out" of the process.

Mr. Speaker, if anyone deserves to have their voice heard in the debate on cleanup of a hazardous waste site, it should be the local citizens who live in the surrounding neighborhoods.

At my request, the National Superfund Ombudsman, Robert Martin, has launched an independent review of the EPA's proposed cleanup plan for the Stauffer site. To date, Mr. Martin has participated in two public meetings I have sponsored, which were held on December 2, 1999, and February 12, 2000.

These discussions have provided an opportunity for local residents, technical experts, Stauffer company representatives, and federal, state and local officials to express their concerns directly to the Ombudsman. The Ombudsman is continuing to gather additional information and will not make recommendations until the investigation is completed.

During the course of the public meetings, it has become apparent that certain hydrogeological issues were not addressed before the proposed cleanup plan was advanced by the Stauffer Management Company and the EPA. For example, no studies regarding the possibility of sinkholes were conducted prior to the proposal of the remedy outlined in the Record of Decision. Because of Florida's unique environment, sinkholes pose a serious concern for the residents of the surrounding community. If contaminated soil collapses into the groundwater, more than 30 contaminants could be introduced into the area's drinking water supply.

The effect of contaminants from the site on local groundwater is an issue that demands further scrutiny. There has been conflicting evidence regarding the direction of groundwater flow, and it is critical that more comprehensive studies be undertaken to identify the potential for groundwater contamination.

Mr. Speaker, without the involvement of the Ombudsman, my constituents' concerns about sinkholes and groundwater would not have received the attention they deserve.

My constituents have welcomed the Ombudsman's participation in discussions about the proposed cleanup plan. Many of them have renewed confidence that their concerns will be seriously considered in this process. The Ombudsman has been their advocate, giving a voice to those who might otherwise have limited input in the design of a remedy for the site.

The Ombudsman has worked effectively and aggressively to uncover the facts surrounding the Stauffer site, as well as other Superfund sites around the nation. In fact, he has been so successful that EPA officials are considering eliminating his office. This cannot be allowed to occur. Without the Ombudsman's investigation of the Stauffer site, the residents of Tarpon Springs would have been left in the dark and without a voice. I applaud the Ombudsman for his advocacy on their behalf and for bringing integrity back into the process.

The Ombudsman Reauthorization Act will ensure that the Ombudsman is allowed to continue his critical work. This bill reauthorizes the office for ten years, allowing the Ombudsman to carry on the fact-finding investigations that lead to better solutions for communities burdened with Superfund sites.

Mr. Speaker, our constituents benefit enormously from the advocacy efforts of the Na-

tional Superfund Ombudsman. I urge my colleagues to cosponsor and support passage of this important legislation.

TRIBUTE TO GENERAL JOHN H. TILELLI, JR.

**HON. IKE SKELTON**

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, February 15, 2000*

Mr. SKELTON. Mr. Speaker, I rise today to congratulate and pay tribute to Gen. John H. Tilelli, Jr., who retired from the U.S. Army on January 31, 2000, after more than 33 years of exemplary service.

General Tilelli was raised in Holmdel, NJ. A 1963 graduate of Pennsylvania Military College, he received a bachelor's degree in economics and was commissioned as an armor officer. He attended the armor officer basic and advanced courses and Airborne School. General Tilelli is also a 1974 graduate of the U.S. Marine Corps Command and Staff College and completed the U.S. Army War College in 1983. He received a master's degree in education administration from Lehigh University in 1972. Widener University awarded him an honorary doctorate in business management in 1996 and the University of Maryland presented him with an honorary doctorate in law in 1997.

General Tilelli saw combat in two wars during his career. In Vietnam, he served as the company commander, 18th Engineer Brigade and as the district senior advisor, Advisory Team 84. During Desert Shield and Desert Storm, General Tilelli was the commanding general, 1st Cavalry Division.

In other assignments, General Tilelli served in the 3d Battalion, 77th Armor, Fort Devens, MA. He also held positions in the 2d Armored Cavalry Regiment, the 11th Armored Cavalry Regiment, and then 1st Armored Division while stationed in Germany. Additionally, he had the opportunity to mentor future soldiers as an assistant professor of military science, Lafayette College, PA, and shared his technical expertise during a tour at the U.S. Army Armor School, Fort Knox, KY.

General Tilelli commanded the Seventh Army Training Command and Combat Maneuver Training Center in Germany before assuming command of the 1st Cavalry Division. After that, he served in the Pentagon as the Assistant Deputy Chief of Staff for Operations and Plans, then as Deputy Chief of Staff for Operations and Plans. After his promotion to general, he served as Vice Chief of Staff of the Army before assuming command of U.S. Army Forces Command. General Tilelli then became the Commander of the United Nations Command, Republic of Korea/United States Combined Forces Command and United States Forces Korea.

General Tilelli made monumental contributions and improvements to the United States and Republic of Korea military coalition and vastly improved its ability to deter and defend against attack. He also served as a vital link between the United States and the civilian government of the Republic of Korea, proving to be one of the Army's most successful diplomats. His political and military expertise resulted in the right application and employment of forces to ultimately deescalate the rising

tensions during several crucial periods on the Korean peninsula. In addition to improving military readiness and force projection capability, General Tilelli ensured that all soldiers, sailors, airmen, and marines under his command received the best care, the best facilities and the best service possible for themselves and their family members.

General Tilelli's decorations included the Defense Distinguished Service Medal, the Distinguished Service Medal (with three Oak Leaf

Clusters), the Legion of Merit, the Bronze Star with "V" Device (with two Oak Leaf Clusters), the Meritorious Service Medal (with three Oak Leaf Clusters), the Air Medal, the Army Commendation Medal (with two Oak Leaf Clusters), and the Vietnamese Cross of Gallantry with Silver Star and Palm. He also wears the Combat Infantryman Badge, Parachutist Badge, the Office of the Secretary of Defense Badge, the Joint Chiefs of Staff Badge, and the Army Staff Identification Badge.

Mr. Speaker, General John Tilelli is the kind of officer that all soldiers strive to be. He has served with honor and distinction, dedicating over 33 years to our soldiers and our Nation. The U.S. Army is a better institution for his service. I know the Members of the House will join me in offering gratitude to General Tilelli and his family—his wife, Valerie, and his daughters, Christine, Margaret, and Jeanne—for their service to our country, and we wish them all the best in the years ahead.
