

have achieved, and want to share their achievements so that more people benefit from their accomplishments. I ask that a summary of Mesa Verde Middle School's superior work be included in the record:

Mesa Verde Middle School, located in Rancho Penasquitos, a suburb of northern San Diego, California, exemplifies the educational heights that can be attained when a solid partnership exists between school and community. All members of this team are completely committed to their philosophy of "doing everything possible to help each student succeed", while maintaining strong academic integrity. Their school vision for 2002 states that "Mesa Verde Middle School will create an enhanced learning experience and a unique community environment for all students." The success of Mesa Verde's rigorous curriculum is evidenced by consistently high performance on standardized tests and underscored by earning the maximum six-year Western Association of Schools and Colleges (WASC) accreditation. Among their noteworthy accomplishments are two wellness programs. Mesa Verde's wellness budget enables them to have a teacher on special assignment (TOSA), devoting a full period each day to drug, alcohol, and tobacco prevention education. The second program, "Names Can Really Hurt You" was nationally recognized in Washington D.C. and fosters tolerance of diversity in the classroom and on campus. A 50% drop in negative name calling infractions best illustrates the success of this program.

Mesa Verde provides an excellent education to culturally and ethnically diverse middle class population. Their site is designed to accommodate students with a wide range of academic abilities and physical challenges. Designed with technology in mind, Mesa Verde has become Poway Unified School District's model school. Four computer labs are housed at Mesa Verde and each classroom is networked to the Internet and e-mail. A distinct feature of the campus is the village concept design. Classrooms are grouped together and house a single grade level.

And added strength of Mesa Verde is the varied "safety nets" in place to ensure that students progress and succeed socially as well as academically. Innovative programs such as Peer Mediation, Natural Helpers, Eagle Groups, and Student Outreach Services (SOS) teach students to deal effectively with their emotional needs and to interact successfully with their peers. A commitment to excellence is the cornerstone for all of Mesa Verde's programs. Providing excellence in all they do, Mesa Verde is exemplified by a dedicated, hardworking staff, who truly love children. They base all decisions on what is best for their students. The entire school community: staff, students, parents and community, works together to provide the best possible education for all students.

2000 PARALYMPICS

HON. THOMAS M. REYNOLDS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, September 18, 2000

Mr. REYNOLDS. Mr. Speaker, as the eyes of the world are fixed on Sydney, Australia, and the games of the 27th Olympiad, I rise to

ask this House to glance closer to home, to Western New York, to share in an inspiring story of personal triumph and the spirit of athletic competition.

On Wednesday, September 20, 2000, friends and supporters will gather at the Rochester Yacht Club to lend their support to sailors Keith Burhans, Paul Callahan and Richard Hughes and their quest for gold at the 2000 Paralympics to be held next month in Sydney, Australia.

Burhans of Monroe County lost both legs in a 1995 boating accident. Callahan, of Newport, Rhode Island, has been a quadriplegic since college. And Hughes is an amputee from Philadelphia. The three formed a world-class team that finished second in last year's World Disabled Sailing Championship.

But their story is even greater than their ability to tack around the tetrahedrons faster than their competitors. They have used their personal experiences to teach others to overcome barriers and test their limits.

Callahan reorganized and became CEO of the Shake-A-Leg program for the disabled in Newport. And Burhans joined the board of the Rochester Rehabilitation Center, which organizes SportsNet, a similar program that allows those with physical disabilities to participate in the able-bodied sports world.

In what became the first race of one of the oldest competitions in sport, the America's Cup, a young Queen Victoria watched as the yacht "America" plowed across the finish line. When she asked her courtier to search the sea and identify which boat was second, he took a long look through his telescope and replied: "Your majesty, I regret to report, there is no second."

To Keith Burhans, Paul Callahan and Richard Hughes, I am pleased to report that your personal courage, your triumph over adversity, and your devotion to athletic competition has already made each of you, like the 1851 crew of the "America," a winner.

Mr. Speaker, I ask that this House of Representatives join me in saluting the achievements of these three extraordinary men, and that we further extend to them the best of luck at the games of the 2000 Paralympics.

IN HONOR OF RUSSELL BINNEY

HON. JERRY MORAN

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Monday, September 18, 2000

Mr. MORAN of Kansas. Mr. Speaker, today I pay tribute to a man who positively influenced the lives of many people. Earlier this month, Mr. Russell Binney of Ulysses, Kansas passed away. Russ fulfilled many important roles in his life—each of them with integrity, compassion, and dedication.

Russ proudly served his country in the United States Navy during World War II and as a lifelong member of the American Legion. Upon returning to Ulysses, he founded Binney Better Foods, Inc. For more than 40 years, Russ and his wife Virginia provided retail grocery service to the citizens of Grant County. In that time, Russ's business experienced and adapted to change. However, one thing remained constant: Russ's commitment to providing a quality product with first-rate customer service.

Russ served his community in additional ways. He was past president of the Ulysses Rotary Club and earlier this year received the Rotary 2000 Distinguished Service Award. Russ was a leader and former chairman of the Grant County Republican Party. He was a member and elder of the Shelton Memorial Christian Church. His devoted involvement in Gideon International strengthened his faith. In 1990, Russ' friends and neighbors recognized his many years of accomplished service by selecting him as the Grant County Citizen of the Year.

I have walked Main streets of many Kansas communities. In Ulysses, my objective was always to walk the business district with Russ Binney. Everyone liked you if you were with Russ. Always a smile and handshake for the men and a kiss for the women. He brightened everyone's day. No person in any Kansas town ever received a warmer reception than when Russ met one of his customers or neighbors.

Most important to Russ was his family. Over the course of their 54 years together, he and Virginia raised their son Cary and daughters Janet, Rhonda, and Tammy. They also devoted endless love and attention to seven grandchildren and seven great grandchildren.

Russell fulfilled many important roles in his life—each of them with integrity, compassion, and dedication. I join his many friends and admirers in extending my deepest sympathies to Virginia and her family during their time of loss.

CONFERENCE REPORT ON H.R. 1654, NATIONAL AERONAUTICS AND SPACE ADMINISTRATION AU- THORIZATION ACT OF 2000

SPEECH OF

HON. ROBERT E. (BUD) CRAMER

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 14, 2000

Mr. CRAMER. Mr. Speaker, I rise to express very serious concerns about this legislation that we are considering on the floor today. Section 205 of this conference report prematurely directs NASA—and I stress the word "directs"—to establish a nongovernmental organization to manage microgravity research and commercialization activities aboard the International Space Station.

Mr. Speaker, in this Body the International Space Station does not have a stronger supporter than myself. While I sat on the Science Committee, I fought to fence-off microgravity research funds from hardware cost overruns and preserve the benefits of the Station for our taxpayers. Year after year, I'm on this floor defending the Space Station against various wounding and killing amendments. But I'm concerned that unless we're careful, this language in Section 205 may move the taxpayer investments in Space Station backwards, rather than forwards.

This language was not considered during the normal House subcommittee or full committee markup process, but was added into the bill in conference. The House hasn't held any hearings on this matter. It's not even clear to me where NASA will get the funding for this initiative. What will happen to the government

resources like the Station's new Payload Operations and Integration Facility at the Marshall Space Flight Center? Will there be a duplication of facilities at the taxpayer's expense?

It is just not obvious to myself and others how handing this work to the private sector would benefit the taxpayers or NASA. In fact, it could be detrimental. We've found that to be the case when NASA management was too far removed from two recently failed missions to Mars. By NASA Administrator Dan Goldin's own admission, NASA moved too far away from the actual work taking place on its programs. We must be careful to avoid making a similar mistake with the science operations aboard the Space Station. NASA civil servants look after the nation's interests and report to the NASA Administrator Dan Goldin, who answers to us—Congress. There are no guarantees that a non-governmental organization will look after the nation's interests or have any direct responsibility to this Body. Mr. Speaker, where is the accountability in this plan?

Some people argue that a non-governmental organization managing the Hubble Space Telescope at the Space Telescope Science Institute is working well. But its mission is mostly one of science management while the mission of this proposed organization would be one of commercialization—two very different animals. Common sense tells me that the introduction of commercialization into any process also introduces an entirely new set of unique and complex issues that need to be thoughtfully considered.

Mr. Speaker, I'm also concerned that the civil servants currently managing the NASA microgravity program have had little or no meaningful opportunity to comment on this plan. These are our Nation's experts on this issue, tasked to look out for the taxpayer's interests, and they've not even been given an opportunity to voice their thoughts on this action.

Mr. Speaker, I honestly don't know if this is a good or bad idea, but why is it being pushed through in such a hasty manner? Why are we prematurely directing NASA to implement this NGO, rather than coming back to us with a plan that can be examined in the light of day before we give them a green light? Mr. Speaker, if this really is good for our Nation, then nobody should object to holding hearings and giving this the thought that it truly deserves.

I will vote for this conference report today, because there are a number of provisions in it that will be good for our space program, but I am going to continue to try to work with my Colleagues to take a closer look at this plan to transfer Space Station responsibilities to a non-government organization.

BLUE RIBBON SCHOOL WINNER

HON. RANDY "DUKE" CUNNINGHAM

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 18, 2000

Mr. CUNNINGHAM. Mr. Speaker, I rise today to congratulate Meadowbrook Middle School in Poway and its leaders, Principal, Susan Van Zant and Superintendent, Dr. Bob Reeves. Meadowbrook has been designated by the U.S. Department of Education as a National Blue Ribbon School for 2000. I am

proud to inform my colleagues that my district had an amazing record of eleven schools selected for that prestigious honor this year. I would also like to note that the Academy of Our Lady of Peace right outside my district in San Diego County was also named a Blue Ribbon School. I applaud the educators, students and communities in each of the San Diego County schools who pulled together in pursuit of educational excellence.

Blue Ribbon Schools are recognized as some of the nation's most successful institutions, and they are exemplary models for achieving educational excellence throughout the nation. Not only have they demonstrated excellence in academic leadership, teaching and teacher development, and school curriculum, but they have demonstrated exceptional levels of community and parental involvement, high student achievement levels and strong safety and discipline.

After schools are nominated by state education agencies for the Blue Ribbon award, they undergo a rigorous review of their programs, plans and activities. That is followed with visits by educational experts for evaluation. Ultimately, those schools which best demonstrate strong leadership, clear vision and mission, excellent teaching and curriculum, policies and practices that keep the schools safe for learning, family involvement and evidence of high standards are selected for this prestigious award. I am pleased that they are now receiving the national recognition they are due.

As school and community leaders head to Washington for the Department of Education awards ceremony, I want to thank them once again for a job well done. More satisfying than any award, these leaders will have the lifelong satisfaction of having provided the best education possible and a better future for thousands of children. I am proud of what they have achieved, and want to share their achievements so that more people benefit from their accomplishments. I ask that a summary of Meadowbrook Middle School's superior work be included in the RECORD:

Located in Poway, California, Meadowbrook Middle School is an energetic and nurturing middle school where young adolescents are valued and respected. It is the school's vision that each student will master the knowledge, and develop the skills and attitudes essential for success in school and society. The staff is committed to providing a strong instructional program based upon high academic, behavioral, and social standards by the use of a challenging curriculum and supportive environment for sixth, seventh, and eighth graders. To achieve rigorous standards, the school staff, parents, and other members of the community work together. They provide a well rounded, quality program designed to meet diverse student needs. Their cooperative spirit and dedication to our core value of all students learning keep them focused on providing a well-balanced program designed to excite, build upon interests, and involve students in the process of becoming lifelong learners. Learning does not end at the end of sixth period, but rather it continues through co-curricular sports, clubs, library research, tutorials, and interaction with staff in a less formal setting.

The school has a tradition of active parent/community involvement. This past year their PTA was recognized as one of the top ten

units in California. Meadowbrook values and rewards student achievement in academics, the arts, athletics, and personal development. Curriculum, instructional practices, and student programs are driven by current research and assessment data. It is truly a school where students succeed as evidenced by their increasing test scores, high rate of student attendance, and their overall positive and caring school environment.

TO HONOR MR. ED ROBSON ON HIS 70TH BIRTHDAY

HON. ED PASTOR

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 18, 2000

Mr. PASTOR. Mr. Speaker, I rise before you today to pay tribute to the man behind one of the largest home building operations in America, Mr. Ed Robson. As he prepares to make his 70th birthday on September 21st, I'd like to share the history of this outstanding American and Arizonan with my colleagues.

Known as the man behind Robson Communities, Ed grew up in a middle class home environment in Boston, Mass. Although he knew the value of a good education, his love for sports and adventure was greater. After graduating in 1954 with a degree in business and banking from Colorado College in Colorado Springs, Ed played hockey for Team U.S.A. and was an alternate member of the U.S. Olympic Hockey Team. After leaving the hockey team, Robson joined the U.S. Marine Corps and was assigned as a naval aviator at Pensacola. He served for five years as a helicopter pilot and attained the rank of Captain before leaving the Marines.

Ed began his impressive career as a home builder in 1960, when he decided to pursue real estate and joined Coldwell Banker in Arizona as a real estate agent. He quickly became a broker for one of their offices. He left Coldwell Banker in 1962 and joined the Del Webb Corporation, which is his chief competitor today. As Director of Corporate Sales for the Del Webb Corporation, Robson gained immeasurable experience in all areas of the construction business.

In 1965, Robson decided to leave Webb to test his expertise and budding entrepreneurial spirit with his own real estate projects. With two other Webb employees, Robson marketed resort home sites in Bullhead City, Arizona, and then developed the Pinewood Golf Community in Flagstaff, Arizona. The success of these projects enabled Robson to acquire farmland in 1972, which became Sun Lakes. Robson's competitive drive and business acumen carried him through some tough periods including the energy crisis and recession.

Today, Sun Lakes is a 3,500-acre community with more than 14,000 residents. Robson also markets and develops three other active adult communities in Arizona and recently announced expansion plans in Texas. Robson Communities and its affiliated companies employ more than 1,170 employees and have closed more than 12,500 homes.

Father of five children and grandfather of 13, Robson still finds time to participate in community affairs. He was the 1993 Heart Ball Honoree Chairman and was instrumental in netting approximately \$1 million for the American Heart Association. In 1994, he was the
