

the Southwest. Many people used the trail including American Indians, European emigrants, miners, ranchers, soldiers, and missionaries. These travelers promoted cultural interaction among Spaniards, other Europeans, American Indians, Mexicans, and Americans. El Camino Real fostered the spread of Catholicism, mining, an extensive network of commerce, and ethnic and cultural traditions including music, folklore, medicine, foods, architecture, language, place names, irrigation systems, and Spanish law. This trail is important to the cultural history and rich heritage of the Southwest.

S. 366 amends the National Trails System Act to designate El Camino Real de Tierra Adentro as a National Historic Trail. This non-controversial legislation prohibits the acquisition of any lands or interests outside the exterior boundaries of any federally administered area for El Camino Real de Tierra Adentro except with the consent of the owner. The bill has already passed in the House in a similar form. I am pleased that this bill, which is identical to the House bill which I originally introduced, has again made it to the floor.

I would like to thank Chairman YOUNG and Ranking Member MILLER. I would also like to thank Congressman HANSEN and my colleague Mr. SKEEN for allowing this clean bill to come to the House floor. I know that the designation of the Camino Real de Tierra Adentro, as a part of the National Historic Trails System, will benefit a great many people.

I hope my colleagues will support me in the passage of this legislation.

S. 1198: THE TRUTH IN REGULATING ACT

HON. DAVID M. McINTOSH
OF INDIANA

IN THE HOUSE OF REPRESENTATIVES
Wednesday, October 4, 2000

Mr. McINTOSH. Mr. Speaker, I applaud the House's passage yesterday of S. 1198, the Truth in Regulating Act of 2000. This bipartisan, good government bill establishes within the Legislative Branch a much needed regulatory analysis function. This function is intended to enhance congressional responsibility for regulatory decisions developed under the laws Congress enacts.

I want to especially thank Small Business Subcommittee Chairwoman on Regulatory Reform and Paperwork Reduction SUE KELLY for her initiation of this concept and her tenacious determination over a several year period to reach yesterday's successful result. Since 1998, the House Government Reform Subcommittee on National Economic Growth, Natural Resources, and Regulatory Affairs, which I chair, held two hearings and issued two House Reports (H. Rept. 105-441, Part 2 and H. Rept. 106-772) in support of a Congressional office of regulatory analysis.

Yesterday, during the floor debate on S. 1198, Vice Chairman PAUL RYAN expressed Congressional intent for this bill and presented the multi-year House legislative history. I want to emphasize three points which Mr. RYAN made. Also, I want to express my differing view about two statements made by Subcommittee Ranking Member DENNIS KUCINICH.

First, I agree with Mr. RYAN about the importance of the General Accounting Office's

(GAO's) submitting timely comments on proposed rules during the public comment period, while there is still an opportunity to influence the cost, scope and content of an agency's regulatory proposal. S. 1198 does not require GAO to submit timely comments but neither does it preclude GAO for doing so. Second, I agree with Mr. RYAN about GAO's responsibility to examine non-agency (i.e., "public") data and analyses in preparing its 'independent evaluation' of an agency's regulatory proposal. Sometimes the best way to determine if an agency has ignored Congressional intent or failed to consider less costly or non-regulatory alternatives is to review non-agency analyses. S. 1198 does not require GAO to review public data but neither does it preclude GAO from doing so. Third, I agree with Mr. RYAN that GAO should comment substantively on an agency's regulatory proposal. S. 1198 does not require GAO to comment on the scope and content of an agency's regulatory proposal but neither does it preclude GAO from doing so.

Mr. KUCINICH stated his view that, "Under this bill, GAO would retain its traditional role as auditor . . . [the bill] preserves GAO's traditional role as auditor." I do not agree with his view. Instead, S. 1198 requires GAO to prepare an independent evaluation or analysis of agency regulatory proposals. Evaluation is not equivalent to auditing; evaluation requires a thorough analysis, e.g., consideration of less costly or non-regulatory alternatives not presented in an agency's documents. Second, Mr. KUCINICH stated, 'Furthermore, [the bill] would not require the agency to conduct any new analysis.' GAO's independent evaluation should lead agencies to prepare missing cost/benefit, small business impact, federalism impact, or any other missing analysis. S. 1198 does not require an agency to prepare a missing analysis but neither does it preclude an agency from doing so.

A TRIBUTE TO LIBBIE HICKMAN

HON. BOB SCHAFFER

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES
Wednesday, October 4, 2000

Mr. SCHAFFER. Mr. Speaker, today I rise to recognize a dedicated Olympian from my district who is an inspiration to all athletes. Libbie Hickman, a resident of Fort Collins, Colorado, recently earned the proud distinction of representing our great nation at the 27th Olympic Summer Games in Sydney, Australia. Libbie was the fastest American runner in the qualifying race held Wednesday, September 27th, recording a time of thirty-two minutes and fifty-nine seconds. This qualifying time enabled Ms. Hickman to race in last Saturday's finals where she valiantly represented our nation in its quest for gold.

A graduate of Colorado State University, Libbie Hickman has always dreamed of achieving Olympic glory. She first started running at the age of eight, racing against her brothers in the front yard as her father timed them with his stopwatch. Libbie became serious about her running career during her senior year of college, changing her specialty from the 1,500 meter race to the 3,000 meter race. However, it wasn't until four years later, in 1991, that Libbie Hickman truly made her

mark by winning the Association of Road Running Athletes (ARRA) circuit title. Since then, Libbie has placed in the top ten of the finishers in twenty-one of the races in which she has participated. In 14 of those races, she finished in the top 5, and in 5 of them, she won the event.

In her spare time, Libbie Hickman is a self-described "gardening freak" who thinks she might have been a professional gardener if her passion for running were not so strong. Passion for her sport has driven her to work hard in pursuit of her Olympic dream. This passion was on display Wednesday as she led the American team to a qualifying spot in the 10,000 meter finals. Libbie finished 10th in her heat, and 20th overall. She was the only American woman who qualified to go to the finals on Saturday. While Libbie did not win the race, she won our hearts and proved herself a fierce and respected competitor, and an inspiration to the people of Colorado, and the entire nation.

It is with great pride that I stand today to congratulate one of Colorado's genuine Olympic heroes. Libbie Hickman is a true American heroine. She has displayed courage and perseverance in the tireless pursuit of excellence. She has competed on the world's biggest track and given her all to fulfill her Olympic dream. She has made us proud.

VETERANS' ORAL HISTORY PROJECT ACT

SPEECH OF

HON. ROBIN HAYES

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES
Tuesday, October 3, 2000

Mr. HAYES. Mr. Speaker, I rise in support of the legislation offered by the gentleman from Wisconsin, the Veterans' Oral History Project, because it encompasses American pride and patriotism. Our veterans are the heroes who helped preserve our American heritage. They are living evidence that freedom is never free, and they carry the honor of hundreds of thousands who breathed their last breath on the field of battle.

Some months ago, I introduced legislation to recognize the American G.I. as the most influential figure of the 20th century. I was proud that my legislation passed this House unanimously, and I believe the legislation we debate this evening is critical to our effort to recognize and preserve a record of the sacrifices of every man and woman who served our Nation. The importance of documenting the personal accounts of our country's veterans cannot be understated. For generations, American troops have served to ensure freedom and democracy in all corners of the world. Their contributions are woven not only into the history of a grateful nation but also the history of a peaceful world.

Over the course of the last few months, I have asked veterans throughout my district, the 8th District of North Carolina, to share with me their wartime experiences. Their response has been amazing. Every American should have the opportunity to read the brave accounts of veterans like James Holt, James Wells, and Willie Monday—to name just a few. Crew Chief Holt recounts his WWII missions and America's contribution in defeating Hitler.

Similarly, Mrs. Shuping writes on behalf of her father, James Archie Wells, who fought to liberate Okinawa, and Captain Monday recalls his reconnaissance missions over the Philippines. This, Mr. Speaker, is the best of American history—and there is an abundance of it. That's why this legislation is so very important. The memory of those we lost and the sacrifice of those who lived to tell the tale must be preserved and held in high esteem by a Congress and a country that extends our veterans its utmost respect and heartfelt gratitude.

I commend my colleague from Wisconsin for his initiative on this issue and urge my colleagues support for this worthy legislation.

IN HONOR OF ABBOT ROGER W. GRIES

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 4, 2000

Mr. KUCINICH. Mr. Speaker, I rise today to recognize Abbot Roger W. Gries who has been named "Catholic Man of the Year" by the Greater Cleveland Knights of Columbus Luncheon Club.

This is certainly a well-deserved title for Abbot Gries, a native Cleveland who has devoted most of his life to education, his faith and the Catholic Church. He professed his vows as a Benedictine monk more than 40 years ago and was ordained to the priesthood in 1963. Throughout his many years of dedicated service to Benedictine High School, Abbot Gries has held a number of different posts. He started out teaching mathematics, but his extraordinary skill as an educator was soon recognized as he was named Assistant Principal in 1965 and Principal in 1968.

Abbot Gries continued his successful reign as Principal at Benedictine until 1977, when he was appointed Prior of St. Andrew Abbey, the second superior of the monastery. Because of his outstanding work as Prior, his fellow monks elected him the fourth abbot of St. Andrew Abbey on June 9, 1981, a position that he holds to this day. In addition to his commitment to St. Andrew Abbey, Abbot Gries is also President of Benedictine High School. At this time, he is overseeing the implementation of the Master Plan currently underway at the Abbey and high school in the Buckeye-Woodland community.

Aside from his prominent role as an educator and abbot of St. Andrew Abbey, Abbot Gries also served at the Holy Family Parish in Parma, OH on weekends for 18 years and previously acted as the chaplain of the Maple Heights Knights of Columbus. He continues his active association with the Alhambra.

Mr. Speaker, I ask my fellow colleagues to join me in honoring Abbot Roger W. Gries. This remarkable man reminds us all of the importance of faith, community, and volunteerism. We are truly lucky to have him in Cleveland.

TRIBUTE TO PRISCILLA HILLGREN

HON. MARION BERRY

OF ARKANSAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 4, 2000

Mr. BERRY. Mr. Speaker, I rise today to pay tribute to a great American, and I am proud to recognize Priscilla A. Hillgren in the Congress for her invaluable contributions and service to our nation.

Priscilla Hillgren distinguished herself through her devotion to her family, friends, and community. She was born in Beresford, South Dakota on June 26th, 1904, the daughter of a Lutheran minister. Her family instilled in her the value of an education, and she and her sisters attended college, which she interrupted twice to teach in a country school.

One of the happiest days of her life surely must have been June 26th, 1929, when she married Ralph O. Hillgren, who was city editor of the Argus Leader in Sioux Falls, South Dakota. Many more happy days followed, thanks to the births of her son John, her daughters Annette Bray and Sonja Hillgren Hill, two grandchildren, five great-grandchildren, three step grandchildren, and three step great-grandchildren.

Priscilla Hillgren is probably best-known for her work with mentally handicapped children at three Sioux Falls private schools from 1958 to 1972. Her generosity and hard work touched many families in that area, and her legacy will inspire those who continue to provide these important services.

She also was active in the American Association of University Women, with membership in two AAUW book groups, and was honored by AAUW as a Named Gift Recipient in 1977. Moreover, Priscilla was president of the Augustana College Auxiliary, and a member of the Civic Fine Arts Center and the American Legion Auxiliary, among other organizations.

Sadly, Priscilla Hillgren passed away last month. Her congregation at the First Lutheran Church, where she was a Sunday School teacher for 26 years, will miss her greatly, as will her family and friends.

I am among this group, and on behalf of the Congress I extend my deepest sympathies to her family, even as I encourage them to join me in celebrating her extraordinary life.

INTRODUCTION OF THE ALTERNATIVE FUEL VEHICLES INTERMODAL TRANSPORTATION ACT

HON. SHERWOOD L. BOEHLERT

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 4, 2000

Mr. BOEHLERT. Mr. Speaker, transportation is vital to the social and economic health of our nation. During the past twenty years, however, transportation systems have struggled to keep pace with America's growing and changing needs. For example, between 1970 and 1990, the U.S. automobile population grew almost three times faster than the human population. In fact, in 1995 Americans averaged about 4.3 one-way trips per day and about 14,000 miles per year—up from 2.9 trips and 9,500 miles in 1977. Other forms of transportation have seen dramatic growth as well.

Since 1980, freight railroad traffic has increased 47 percent and the number of airports has increased 20 percent.

Explosive transportation growth has led to inefficient movement of people and goods, reduced productivity, wasted energy, and increased congestion and emissions. A recent study conducted by the Texas Transportation Institute found that in 1982, ten of the 70 urban areas studied had unacceptable levels of congestion, but by 1996, that number had almost quadrupled, to 39 areas.

As the number of cars, trucks, freight trains and planes grows and America's transportation network expands, the need for fuel increases. In 1997, the volume of imported oil exceeded domestic production for the first time in U.S. history. Our thirst for oil is fueled by the transportation sector, which uses over 65 percent of the petroleum consumed in the United States.

Our transportation system is over 90 percent dependent on oil—and that's too much when over 50 percent our nation's oil comes from overseas and the price has almost quadrupled in 18 months. Powering our cars and buses with alternative fuel is an environmentally sound way to reduce our dependence on foreign oil—and it's good for the economy, too, because alternative fuels can be produced here at home.

Alternative fuels, such as electricity, natural gas, methanol, hydrogen and propane, provide a plentiful, domestically produced and environmentally friendly source of energy. And, when integrated into America's transportation network—in meaningful quantities—alternatively fueled vehicles (AFVs) contribute to mitigating the energy and environmental problems caused by the transportation sector.

In addition, to alternative fuels, the implementation of intermodal transportation networks is another component to alleviating America's transportation problems. Intermodalism refers to interconnections among various modes of transportation, or the use of multiple modes of transportation during a single trip. Employing the concept of intermodalism offers the promise of lowering transportation costs, increasing economic productivity and efficiency, reducing the burden on existing infrastructure, while at the same time reducing energy consumption and improving air quality and the environment.

In an attempt to address the energy and environmental concerns that an "over-stressed" transportation network has created, Congress passed several pieces of legislation. The Clean Air Act Amendments of 1990, established programs and regulations directed at the mobile sector to decrease major automotive pollutants that are the key contributors to urban smog, or ozone. Today, however, nearly 100 cities throughout the United States continue to fail to meet federal air quality guidelines.

In 1991, Congress also recognized the impact and sought to mitigate some of the problems associated with the growing number of cars, trucks, freight trains and planes in the United States when it enacted the Intermodal Surface Transportation Efficiency Act (ISTEA). ISTEA established the National Commission on Intermodal Transportation and tasked it with conducting a complete study of intermodal transportation in the US. ISTEA also established the Congestion Mitigation and Air Quality Improvement (CMAQ) Program which
