

As a result, the postproduction industry has already invested in millions of dollars worth of equipment to be used in creating High Definition (HD) Broadcasting. Without HD broadcasting, the U.S. will be surrendering the advanced research and technological position which has sustained the preeminence of the American entertainment and information industry.

The FCC specifically chose not to mandate a single digital display format. I agree that diversity in formats is a logical way to proceed by allowing the marketplace to decide on the best format(s). However, for the postproduction process the complexities created by the requirement to support these new standards has exponentially increased the cost and complexity of their transition to digital television in the short run.

The legislation will help to keep the domestic digital postproduction industry strong. The proposed tax credit would provide for a 20 percent credit for current capital expenses incurred for digital postproduction machinery and equipment less a floor equal to their average annual gross receipts from digital postproduction services for the prior four years. The taxpayer would reduce the depreciable basis of the equipment by the credit claimed. Additionally, the credit would sunset at the effective date of the FCC mandate.

Mr. Speaker, I ask my colleagues to join me in cosponsoring this important legislation.

#### PRESERVING OUR HERITAGE

#### HON. SAM FARR

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 18, 2000*

Mr. FARR of California. Mr. Speaker, today, I would like to commend and congratulate the Porter family from my district for preserving the California heritage that is threatened daily by the pressures of urban sprawl.

According to the California Department of Conservation nearly 70,000 acres of open space was devoured by development in my state between 1996 and 1998.

Soaring land values and the incessant demand for new homes and stores often make it hard for rural families to say no when developers want to buy their land.

But the Porters already have their minds made up. Bernice H. Porter's estate recently bequeathed the family's 684-acre Circle P Ranch in the Pajaro Valley to the Land Trust of Santa Cruz County. The family's perpetual agricultural conservation easement is a major coup for the land trust, a small local non-profit group. It is the land trust's largest easement of this kind, ever.

Under the terms of the easement, the ranch can only be used for grazing and irrigated agriculture. It cannot be subdivided or developed now or by any future owner.

The parcel stretches for miles east of the city of Watsonville, with farming and ranching operations side by side. The rolling hills at the base of the Santa Cruz Mountains are green or gold depending on the season.

Bernice's daughter Diane Porter Cooley said recently that the hills help to define the local climate and "form the scenic and historic backdrop for the valley." They should be preserved, she added, not only for the sake of

agriculture, not only for the rare habitats they contain, but also because they are simply beautiful to behold.

There are deer, coyotes, bobcats and a wide variety of birds. For decades, the Porter family has invited school and church groups, history buffs and birding enthusiasts to tour the ranch.

The Porters and others who bequeath their land in a conservation easement often receive some tax incentives. With today's soaring land values in California, estate taxes can often be a real burden, and conservation easements can provide some relief.

But the Porters' decision went far beyond good business sense. Increasingly in California, we are dependent upon farmers and ranchers to act as stewards for our rapidly vanishing farm land and open space.

And the Porters have clearly risen to the occasion. This family embodies what is best about our California heritage—deep reverence for our shared past and great concern for our destiny.

These actions should serve as a model for land owners in California. Land assets should be used to preserve the heritage of our great state and our families, for the benefit of all who ever live among us. I encourage others to follow the Porters' example.

#### IN RECOGNITION OF MR. PAUL H. KRALMAN

#### HON. DAVID D. PHELPS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 18, 2000*

Mr. PHELPS. Mr. Speaker, today I rise to recognize one of my district's leaders in veterans affairs, Mr. Paul H. Kralman. A lifelong resident of Effingham, IL, Mr. Kralman first served his country in World War II. Since that time he has been a member of the Effingham American Legion Post No. 120, and he has held many offices within the post including Department Vice-Commander of the Fifth Division of Illinois. Mr. Kralman also served as the Veterans Service Officer with the state of Illinois for many years. His most recent efforts have been with the Effingham County Veterans Assistance Commission where he resides as superintendent. At the end of this year Mr. Kralman will retire at the age of 82.

Mr. Kralman has helped numerous veterans in my district receive their benefits. He was awarded the site for a Veterans Affairs Outpatient Clinic which has helped numerous veterans receive medical help close to home. Through his dedication and hard work, the Veterans Affairs Outpatient Clinic is a great success.

It is with this, Mr. Speaker, that I say congratulations to Mr. Paul Kralman on his excellent accomplishment. Due to his dedication to his fellow veterans, it is clear that Mr. Kralman is an asset to our country and the people who fought for it.

#### EMMANUEL EPISCOPAL CHURCH ACHIEVES NATIONAL HISTORIC LANDMARK STATUS

#### HON. WILLIAM J. COYNE

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 18, 2000*

Mr. COYNE. Mr. Speaker, today I inform my colleagues that Emmanuel Episcopal Church in Pittsburgh, PA, was recently designated a National Historic Landmark.

In order to be designated at National Historic Landmark, a structure must be determined to be "historically, architecturally, or technologically important to the nation as a whole." Emmanuel Episcopal Church certainly meets this standard.

Emmanuel Episcopal Church is the last church designated by the famous American architect, Richard Henry Hobson Richardson. It is an enduring example of his widely acclaimed "Richardson Romanesque" style. Emmanuel Episcopal Church is the only Richardson-designed church in Pennsylvania, and it is one of three striking buildings in Pittsburgh that Mr. Richardson designed. Emmanuel Episcopal Church is often referred to as Richardson's "small masterpiece" because it was built on a lot measuring only 50 feet by 100 feet in size. Since Emmanuel Episcopal Church was the last church that Mr. Richardson designed, it can legitimately claim to be one of the most advanced examples of this distinguished architect's singular vision. Mr. Richardson himself claimed that his Pittsburgh buildings—Emmanuel Episcopal Church, the Allegheny Courthouse, and the Allegheny County Jail—were his best work.

The church was dedicated in 1886 and cost only \$12,000 to build, but it is characterized by intricate brickwork, a steep slate roof, well-proportioned windows and doors, and a plain rounded apse. All of the buildings' original features—with the exception of its wrought iron gas chandeliers, which have been replaced with electric lights—have been faithfully preserved.

I should note that this important accomplishment was primarily the result of the efforts of one long-term Pittsburgh resident, Mary Ellen Leigh, with the support of Emmanuel's Vicar, the Reverend Don C. Youse, Jr., and the church's congregation. I commend her for all of her hard work and her dedication to this important project.

I am pleased that Emmanuel Episcopal Church has been designated a National Historic Landmark. It is my hope that this designation will help in efforts to preserve this important architectural treasure and help to promote the cause of historic preservation in Allegheny County and across the country.

#### HONORING THE ATHLETES OF SANTA CLARITA VALLEY AND THE SAN FERNANDO VALLEY

#### HON. HOWARD P. "BUCK" McKEON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 18, 2000*

Mr. McKEON. Mr. Speaker, I want to commend the athletes from the Santa Clarita Valley and the greater San Fernando Valley for

their outstanding performance in the games of the XXVIIIth Olympiad, which began on September 15, 2000 in Sydney Australia. The majority of the San Fernando Valley lies within the 25th Congressional District. If the Greater San Fernando Valley was its own country, it would rank 14th in the gold medal count, just behind Hungary.

The Olympians exemplify all that is right with America. To become a member of the United States Olympic Team, the athletes needed tremendous discipline to maintain grueling training schedules. They made personal sacrifices in order to reach their goals and have continually displayed outstanding sportsmanship. They are truly a credit to our country.

Olympians who call the 25th Congressional District home include Adam Setliff, who placed fifth in the men's discus throw; Crystl Bustos, member of the women's softball team which won the gold medal; Anthony Ervin, winner of a gold medal in the men's 50-meter freestyle and a silver medalist in the men's freestyle relay; Mark Crear, winner of a bronze medal in the men's 110-meter hurdles; and Maurice Greene, who won a gold medal in the men's 100-meter race as well as a gold medal in the men's 100-meter relay.

The efforts of these athletes are reflected not only in their collective medals but in the respect of every American. I would like to thank the Olympians for their tireless effort, dedication and contribution to America.

#### THE GRAND OPENING OF THE MICHAEL A. GRANT BOYS AND GIRLS CLUB IN AUSTELL, GEORGIA

#### HON. BOB BARR

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 18, 2000*

Mr. BARR of Georgia. Mr. Speaker, today I recognize the Boys and Girls Club of Cobb County, Georgia for its hard work, and congratulate this organization, and the many men and women who constitute its work force, on the grand opening of the Michael A. Grant Boys and Girls Club located in Austell, Georgia.

The Boys and Girls Clubs of America is an outstanding organization which provides children, particularly disadvantaged children, with programs and services that promote and enhance the development of boys and girls by installing a sense of competence, usefulness, belonging and influence.

In 1956, the Boys Clubs of America celebrated its 50th anniversary and received a U.S. Congressional Charter. In 1990, the national organization's name was changed to the Boys and Girls Clubs of America. Accordingly, Congress amended and renewed the charter.

I commend the Boys and Girls Club for its dedication and commitment too positively influencing the lives of boys and girls every day, and for its outstanding leadership throughout our community and the country.

#### NATIONAL CHEMISTRY WEEK

#### HON. ROBERT A. BORSKI

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 18, 2000*

Mr. BORSKI. Mr. Speaker, I rise today to honor the week of November 5th to November 11th in Pennsylvania as "National Chemistry Week". During this week the American Chemical Society volunteers should be commemorated for their efforts to increase public awareness about the crucial role chemistry plays in everyday life. It is vital to recognize that this science gives us the power to understand and to use the elemental building blocks of all material things.

The American Chemical Society is the largest organization of its type in the United States. The Philadelphia branch of the organization is not only the largest section in Pennsylvania, but also one of the most active in the entire nation. This is quite an accomplishment for our state, as there are nearly 200 sections across the United States.

During National Chemistry Week, many local companies and universities in the Philadelphia area will be involved and volunteer their time to celebrate and make an impact among the community about the benefits and necessity of chemistry. Their commitment to spreading the values of chemistry is of great importance, as the science of chemistry provides the fundamental understanding required to deal with many of society's needs, including several that determine our quality of life and economic strength.

People involved in the chemistry field use the science and their knowledge to help feed the world's population, tap new energy sources, clothe and house humanity, provide renewable substitutes for dwindling or scarce materials, improve health, conquer disease, strengthen our national security, and monitor and protect our environment.

Mr. Speaker, National Chemistry Week should be honored for directing our attention to the myriad contributions of their science to the service of all humanity. I congratulate all who participate in this field and who dedicate themselves to creating a week for the entire nation to learn from and enjoy.

#### CENTRAL NEW JERSEY RECOGNIZES THE NEW JERSEY SHADE TREE FEDERATION FOR 75 YEARS OF SERVICE

#### HON. RUSH D. HOLT

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 18, 2000*

Mr. HOLT. Mr. Speaker, I rise today in recognition of the New Jersey Shade-Tree Federation and its on-going dedication to preserving our communities. I applaud the work of the Federation in striving towards a delicate balance between our community's desires to expand, and our environment's need for smart, sustainable growth.

The roots of the Shade Tree Federation can be traced back to September 27, 1910. For it was on this date that the State Forester, with the approval of the Forest Commission, called on the executives of 124 municipalities. Some

30 delegates from 24 cities, towns and boroughs gathered to discuss ways to advance and protect the interests of shade trees throughout New Jersey. At the conclusion of this conference, the attendees unanimously voted to form a permanent association to protect and foster the interests of Shade Trees.

In 1924 the State promoted future growth of the Federation by passing the County Shade-Tree Act. Then, in 1925, the Department initiated the movement for closer collaboration among the shade-tree commissions in the State and organized the "New Jersey Federation of Shade-Tree Commissions."

Since its inception, the Federation has gathered to discuss the important issues of the times, ranging from the advent of chainsaws and bucket trucks to the devastation of Dutch Elm disease and Gypsy Moth outbreaks. One common thread has remained evident throughout the Federation's existence: trees are an important part of people's lives.

Once again, I applaud the efforts of the New Jersey Shade-Tree Federation and ask all my colleagues to join me in recognizing their steadfast commitment to preserving true assets of our communities for future generations.

#### TRIBUTE TO MARY RAINWATER

#### HON. HENRY A. WAXMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 18, 2000*

Mr. WAXMAN. Mr. Speaker, it's a great pleasure for me to pay tribute to Mary Rainwater, the executive director of the Los Angeles Free Clinic, for her tireless service to the Los Angeles community. Mary oversees the delivery of vital health services, including free medical and dental care, HIV education, counseling and testing, and prenatal care to tens of thousands of people each year. Her agency also provides job placement and training, low-cost legal assistance, and psychological counseling to support some of the most vulnerable members of our community.

Before coming to the LA Free Clinic, Mary served as an adult literacy tutor, a guidance counselor for inner city youth, and a psychiatric social worker for homeless mentally ill individuals.

In nearly eleven years as executive director, Mary's guidance has helped the LA Free Clinic double its budget and increase fourfold the number of patient visits its professionals provide. Without the LA Free Clinic, many of these patients would not have access to the cancer screening, family planning, and mental health services they need. The U.S. Department of Health and Human Services has recognized the Hollywood Center, which opened under Mary's watch, as a "Model That Works" to provide comprehensive services to at-risk youth.

In addition to her work with the LA Free Clinic, Mary serves the community through her memberships of the Hollywood Chamber of Commerce Board of Directors, the Board of Directors of the Community Clinic Association of Los Angeles County, Free Clinics of the Western Region, and the California Primary Care Association's Executive Committee.

The people of Los Angeles and our entire nation owe Mary a debt of gratitude for her tireless work and tremendous record of achievement.
