

States to work collaboratively with those countries in Africa that have within their boundaries any part of the range of great apes. The task ahead is daunting. But the ecological consequences of not acting are far more tragic if it means that great apes will cease to exist in the wild. The Great Ape Conservation Act would be one significant step to avoid the permanent loss of great apes in Africa, and I urge all members to support this important legislation.

TRIBUTE TO EDGAR A. SCRIBNER

HON. SANDER M. LEVIN

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 13, 2000

Mr. LEVIN. Mr. Speaker, today I reflect on the career of Mr. Edgar A. Scribner, as he retires from the Presidency of the Metropolitan Detroit AFL-CIO and is honored this evening in Detroit, Michigan.

For over 40 years, Ed has worked to improve the lives of working people and the Metro-Detroit community at large. After earning a B.S. from Wayne State University and attending the Institute of Labor and Industrial Relations, Ed planted his roots firmly in Detroit—the heartland of the organized labor movement. His labor activism began at Teamster Local Union #372, carried him to the Michigan Teamsters Joint Council #43 and finally, almost 12 years ago, to the Metro-Detroit AFL-CIO.

Ed embodies the ideals, values and basic tenets of organized labor and community service. He has worked on behalf of those principles for most of his life, doing so with intelligence, diligence and depth. He was effective—displaying strength and charm simultaneously.

He has indeed touched many, many lives. From inspiring young people in the classrooms at Wayne State and the University of Michigan or the Detroit Area Boy Scouts Council, to working on health care issues while serving on the Greater Detroit Area Health Council Board or as the Chairman of the Blue Care Network Board of Directors, the breadth and success of Ed's service to the community are indeed impressive. There is no doubt that his example inspires future labor and community activists to follow his lead.

Mr. Speaker, I ask my colleagues to join my salute of an exceptional leader: Edgar A. Scribner. His work on behalf of working people, the people of Metro-Detroit and our community at-large will resonate for many years to come. I wish him good health and happiness upon his retirement.

IN HONOR OF THE EDMONDS POLICE DEPARTMENT

HON. JAY INSLEE

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 13, 2000

Mr. INSLEE. Mr. Speaker, today I pay tribute to the Edmonds Police Department in my congressional district in Washington State. This police agency is the first in Snohomish County to achieve national accreditation. Such

an accreditation proves what many already know: the Edmonds Police Department is a skilled, efficient, and advanced law enforcement agency.

Mr. Speaker, police officers are on the front lines every day, ensuring that our communities are safe. Police officers leave the comfort and security of their homes to fulfill their duty to serve and protect. Police officers grant communities an important service, to secure the lawfulness and safety that the public deserves. The Edmonds Police Department, in particular, has proven its commitment to the community by becoming nationally accredited.

This national accreditation means that the public will have better communication with the police department including an annual internal affairs report, better performance and response times.

Mr. Speaker, I am honored to take this opportunity to recognize the outstanding Edmonds Police Department, not only for its numerous accomplishments such as this one, but also for the great service it provides the citizens of Edmonds.

APPLAUDING THE NALC FOOD DRIVE EFFORTS

HON. ADAM SMITH

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 13, 2000

Mr. SMITH of Washington. Mr. Speaker, I would like to take this opportunity to recognize and commend the National Association of Letter Carriers [NALC] for holding the Nation's largest one-day food drive. In past years the NALC, through the personal contributions and service of its members, has collected more than 58 million pounds of food along various postal routes throughout the Nation. The NALC will be helping to feed American families and children again this year during their eighth annual food drive to feed hungry families and children across the country.

During this unprecedented time of economic expansion, Americans have benefitted from low unemployment, rising wages, and low inflation. However, some Americans continue to suffer from hunger. According to the Journal of Public Health, an estimated 10 million Americans suffer from the symptoms of hunger—4 million of which are children whose growth and development is threatened by malnutrition. These hard working families fail to make ends meet for reasons ranging from institutionalized poverty to a lack of educational resources and inadequate health insurance. As a result, some families are left with barely enough resources to subsist on.

In a nation of abundance, hardworking families should not have to experience the effects of hunger. Our postal carriers provide a valuable and much appreciated service through their hard work and contribution to the greater community. I commend the NALC for helping to feed the Nation's hungry and I encourage Members to help support the NALC in their efforts to feed America during their food drive on Saturday, May 13.

PERSONAL EXPLANATION

HON. ELIJAH E. CUMMINGS

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 13, 2000

Mr. CUMMINGS. Mr. Speaker, yesterday, April 12, I was unavoidably detained on official business and not present for rollcall vote Nos. 119–122.

Had I been present, I would have voted as follows: “nay” on rollcall vote No. 119; “aye” on rollcall vote No. 120; “aye” on rollcall vote No. 121; and “aye” on rollcall vote No. 122.

EARTH DAY 2000

HON. SHERWOOD L. BOEHLERT

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 13, 2000

Mr. BOEHLERT. Mr. Speaker, this morning a number of my Republican colleagues and I held a national press conference in advance of Earth Day to release a list we call the “TR 10.” The TR 10 is a package of moderate Republican initiatives named after our hero, Theodore Roosevelt. The bills included are Republican initiatives that have bipartisan support that ought to be enacted this year, and that could be enacted this year. This is our second annual TR 10 list, the last one was released with the late Senator John Chafee of Rhode Island, another hero of ours.

As with last Earth Day, the release of this list is designed to make several points beyond bringing additional attention to good legislation. First, the environment always has been, and remains, a bipartisan issue, a bipartisan quest—an issue on which Republicans are offering creative and essential leadership. Second, there are plenty of good initiatives out there, there is plenty of progress we can make right now, even in a narrowly divided Congress.

There's a cliché around this town that nothing gets done during an election year, especially nothing related to the environment. But unlike most clichés, this one has no basis in fact. In 1996, an election year, the 104th Congress—not one known for its green cast—passed the Food Quality Protection Act, the Safe Drinking Water Act and a massive parks bill, to name just a few landmarks. Similarly, this year, we could pass CARA and numerous other significant bills. Elections are more often a spur to action than a barrier to it.

So the approach of Earth Day in this election year should fill us with hope and optimism because we are well positioned to make real progress.

THE TR 10: A REPUBLICAN AGENDA FOR THE 106TH CONGRESS

(1) The Conservation and Reinvestment Act (CARA, H.R. 701)

We support the passage of CARA, preferably with the amendment being drafted by Rep. Sherwood Boehlert (R-N.Y.). The bill would provide permanent, off-budget funding of the LWCF, which provides financing to protect open spaces at the federal and state level. Republicans, led by Chairman Don Young (R-Alaska), are pushing for this landmark change in federal lands policy, which would spend almost \$3 billion on conservation programs. The Boehlert amendment

would make the distribution of funding more equitable and would ensure that the bill accomplishes its environmental purposes.

(2) Water Resources and Development Act (WRDA)/Everglades Restoration

We support the authorization of environmentally friendly flood control and water projects, particularly work to restore the Everglades. Such projects are expected to be included in the WRDA bill, which will be drafted by the House Subcommittee on Water Resources and Environment, chaired by Congressman Boehlert. Boehlert is also heading up an effort to increase funding for water infrastructure by beefing up the state revolving funds under the Clean Water Act.

(3) Environmentally Sound Electric Deregulation

We support efforts to ensure that electric deregulation benefits the environment. Done properly, electric deregulation can improve the environment while lowering utility rates. But deregulation must include provisions to limit emissions from coal plants and to encourage the use of renewable sources of energy. Congressmen Rick Lazio (R-N.Y.), Jim Greenwood (R-Pa.) and Sherry Boehlert are leading the effort to ensure that such provisions are included in any legislation to reduce limits on sulfur dioxide and nitrogen oxides to prevent acid rain. Boehlert is also pressing to control all four utility pollutants.

(4) Credit for Voluntary Action (H.R. 2520)

We support Congressman Rick Lazio's bill to create credits for companies that are reducing emissions of greenhouse gases. Credits would encourage voluntary reductions in greenhouse gas emissions and could be used as part of any future regulatory regime.

(5) Beaches Environmental Assessment, Clean Up and Health Act (H.R. 999)

We support legislation to ensure that our coastal waters do not pose a health threat to bathers, boaters and surfers. This bill, introduced by Rep. Brian Bilbray (R-CA) and approved by the House, would require states to update their water quality standards to protect human health in coastal recreation waters. The bill would provide grants to states to implement the program.

(6) The Estuary Habitat Restoration Partnership Act (H.R. 1775)

We support legislation introduced by Rep. Wayne Gilchrest (R-Md.) that would restore and protect our nation's estuaries, which harbor ecosystems that are vital to environmental health and the fishing industry.

(7) The Long Island Sound Restoration Act (H.R. 3313)

We support legislation, introduced by Reps. Nancy Johnson (R-Conn.) and Rick Lazio, which would authorize additional funds to clean up the pollution in the Long Island Sound, a critical estuary and one of the nation's most populous coastal areas. The bill addresses the non-point source pollution that may be causing the dramatic decreases in lobster and other shellfish populations in the Sound.

(8) Promoting cleaner, more efficient transportation

We support efforts to promote fuel efficiency and to reduce auto emissions. Congressmen Boehlert and Jim Greenwood are circulating a letter, urging the President to work with the congress to tighten Corporate Average Fuel Economy (CAFE) standards for Sport Utility Vehicles (SUVs). In addition, Congressman Brian Bilbray has a bill (H.R. 1976) requiring labeling on automobiles so that consumers know the emission levels of the cars they are purchasing.

(9) Promoting alternative-fueled vehicles

We support efforts to promote alternative-fueled vehicles. As part of AIR-21, the Presi-

dent signed into a law a measure introduced by Congressman Boehlert that will provide grants for airports in non-attainment areas to purchase clean vehicles, such as natural gas and hybrid-electric buses. This builds on alternative fuel vehicle programs that were included in "TEA-21." Boehlert also worked with the U.S. Postal Service, Ford Motor Co. and Baker Electromotive to engineer the largest purchase of electric vehicles in history—up to 6,000 vehicles. Additional bills are being drafted to help more municipalities purchase clean vehicles.

(10) Superfund Reform/Brownfields Redevelopment

We support broad Superfund reform that will eliminate needless litigation that has delayed the clean-up of Superfund sites and prevented the redevelopment of brownfields. Superfund must have a rational liability system that exempts small businesses that contributed little to Superfund sites and must facilitate the redevelopment of brownfields, which are a blight in so many of our cities. One moderate approach to this bill is embodied in Congressman Boehlert's H.R. 1300, the Recycle America's Land Act, which has support from a wide range of groups including the National Association of Manufacturers and the U.S. Conference of Mayors, and the National Federation of Independent Business.

HONORING ANDREW BRENNAN
FROM THE FIRST CONGRESSIONAL DISTRICT OF INDIANA

HON. PETER J. VISCLOSKEY

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 13, 2000

Mr. VISCLOSKEY. Mr. Speaker, it gives me great pleasure to pay tribute to an outstanding citizen of Indiana's First Congressional District, Mr. Andrew Brennan. On Saturday, April 15, 2000, Mr. Brennan will be honored for his exemplary and dedicated service to our community. His praiseworthy efforts will be recognized at the Trade Winds Gala 2000 banquet at the Radisson Hotel at Star Plaza in Merrillville, Indiana.

A longtime resident of Northwest Indiana, Andrew Brennan has been an active member of the TradeWinds Board of Directors for more than 13 years. TradeWinds Rehabilitation Center, Inc. is a private, not-for-profit entity that provides services to children and adults with disabilities and functional limitations to enhance independence, productivity and community participation. In April of last year, the TradeWinds Executive Board asked Mr. Brennan to serve as its full-time Interim Executive Director while they searched for a permanent director. Mr. Brennan graciously accepted the position.

Prior to volunteering his time at TradeWinds as the Interim Executive Director, Mr. Brennan owned and operated Viking Engineering Company with two plants in Northwest Indiana and one in Chicago, Illinois. In July of 1998 he sold two of the plants, but continued to work for the new owner. Mr. Brennan's expertise in manufacturing and production as well as his exceptional management and aggressive motivational style has proven successful within the TradeWinds organization. During the past year, he has done a marvelous job in mending strained relationships, opening lines of communication, and organizing and running an ef-

ficient organization. To date, Mr. Brennan has dedicated over 1,000 volunteer hours and has provided continuity, leadership, diplomacy and encouragement to staff, clients and the community.

While Mr. Brennan has dedicated considerable time and energy to this work, he has always made an extra effort to give to the community. Throughout the years, Brennan has served in many different leadership positions and has been very involved in several organizations including: Hoosier Boys Town, St. Margaret Merch Hospital, Hammond Chamber of Commerce, the Northern Indiana Arts Association and the Boy Scouts.

Though Mr. Brennan is dedicated to his career and community, he has never limited his time and love for his family. He and his wife Sarah, have three children: Sally, Susan and Jeffrey, of whom they are immensely proud.

Mr. Speaker, I ask that you and my distinguished colleagues join me in congratulating Mr. Andrew Brennan for his outstanding devotion to Northwest Indiana. His dedicated service is commendable and admirable. Indiana's First Congressional District is proud to count such a committed and conscientious citizen, Andrew Brennan, among its residents.

IN HONOR OF THE ROBINSON SECONDARY SCHOOL'S DECA CHAPTER AND THEIR EFFORTS TO RAISE PUBLIC AWARENESS ABOUT THE BENEFITS OF AUTOMATED EXTERNAL DEFIBRILLATORS (AED)

HON. THOMAS M. DAVIS

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 13, 2000

Mr. DAVIS of Virginia. Mr. Speaker, it gives me great pleasure to rise and pay tribute to the members of the Distributive Education Clubs of America (DECA) Chapter at Robinson Secondary School in Fairfax, Virginia. The three hundred forty-one members of the Robinson DECA chapter have launched a dual campaign to not only educate the public about the benefits of Automatic External Defibrillators (AED), but to also increase support in Congress for the lifesaving bill H.R. 2498, the Cardiac Arrest Survival Act.

Robinson's DECA Chapter recognized that a group of potential sudden cardiac arrest victims have been ignored by the public: teenagers. These energetic members sought to rectify this situation by initiating a public relations campaign to raise general awareness about the benefits of AED's and to outfit high schools with these valuable devices. In a school as large as Robinson Secondary School, with 5,000 teachers, students, administrators, and community members, the need for an AED is particularly evident. In order to acquire the first student-purchased AED in the country, Robinson DECA held the Heart Start Shopping Night and raised the needed \$3,500.

In working with the American Heart Association and a professional adult advisor committee, Robinson DECA realized that not every state currently has legislation to provide Good Samaritan protection for operators of the AED. This motivated DECA to work in support of the passage of H.R. 2495, the Cardiac Survival Act. This important piece of legislation, of
