

cells into the dopamine-producing cells which are lost in Parkinson's disease.

Parkinson's disease affects at least one million Americans. Fifty-thousand are diagnosed each year and for every one diagnosed, two who have Parkinson's disease are not diagnosed. It is alarming to think that two million Americans with Parkinson's disease are undiagnosed.

Parkinson's disease costs the Federal Government approximately \$10 billion in healthcare costs, and on average, the cost per patient is \$5,000 per year. As a society, we spend \$15 billion a year on Parkinson's disease and that is only in direct costs for treatments that only bring temporary relief.

Building on the technology developed from research on Parkinson's disease makes treatments and even cures possible for many conditions. These include Alzheimer's, diabetes, AIDS, Lou Gehrig's, brain injury, spinal cord injury, stroke, and problems with the body's reaction to foreign tissue. It may even provide for safer and more effective ways to test drugs without experimenting on humans and animals. We cannot allow the opportunities afforded us by stem cell research to go untapped!

The National Institutes of Health has proposed guidelines to human stem cell research to address the legal and ethical issues surrounding this particular type of research. It is being approached in a responsible way to utilize the technology while being sensitive to the ethical questions raised. The National Bioethics Advisory Commission (NBAC) even felt they could have gone further and is very supportive of allowing this type of research to continue with Federal funding. The NBAC points out that Federally funding this research will allow Federal oversight to ensure this type of research continues ethically. And finally, the American people support stem cell research as shown by a nationwide survey conducted by Opinion Research Corporation International last year that found that 74% of those polled favored funding of stem cell research by NIH.

Federal funds are crucial to allow scientists to proceed with stem cell research and to exploit fully this novel, innovative, and groundbreaking technology.

#### HONORING JOHN MUMMA ON HIS RETIREMENT

#### HON. SCOTT MCINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, February 2, 2000*

Mr. MCINNIS. Mr. Speaker, I would like to take a moment to recognize a man who has demonstrated deep care for his country and community.

John Mumma will be retiring after acting as a public servant for over 27 years. John, Division of Wildlife Director, decided that he needed to spend more time with his family. John realized that he was spending all of his time at work and that his family was paying the price.

After serving the Forest Service for over 27 years, John will be sorely missed. He has had a long and distinguished career in public service. John became the Director of the Division of Wildlife in November of 1995. Just after he was named director, the division faced the

daunting task of completely revamping its management structure. He had the ability to lead the agency through that massive project and many great successes during his distinguished tenure.

It is with this, Mr. Speaker, that I would like to offer this tribute in honor of John's service with the Division of Wildlife over the last 27 years. The State of Colorado will be hard pressed to find another leader like him.

#### PERSONAL EXPLANATION

#### HON. CHARLES F. BASS

OF NEW HAMPSHIRE

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, February 2, 2000*

Mr. BASS. Mr. Speaker, I was regrettably absent on Monday, January 31, and consequently missed a recorded vote on H.R. 2130. Had I been present, I would have voted "yea" on rollcall vote No. 3.

#### A TRIBUTE IN HONOR OF ELEANOR NADOBNY

#### HON. JAMES A. BARCIA

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, February 2, 2000*

Mr. BARCIA. Mr. Speaker, I rise today to honor a wonderful lady, Ms. Eleanor Nadobny, of Bay City, MI, on the occasion of her retirement from Local 362 United Auto Workers. Both in character and spirit, Eleanor is an inspiration to those around her and will be sorely missed by her boss and her co-workers.

Eleanor was born on October 2, 1920, in my home town of Bay City, and has lived and contributed to our community her entire life. Like so many of our neighbors, her father immigrated from Poland, having made his way from Ellis Island to eventually raise his family in Michigan.

Eleanor has been a member of the Saint Stanislaus Church in Bay City most of her life. She is much loved by parishioners for her faithful presence and contributions to the Church.

On September 6, 1941, Eleanor married Mr. Arthur John Nadobny. They had three children—Barbara, Carolyn, who later married Gary Ciaciuch, and Arthur, who married Janie Nalazek. And in a sad turn of fate, her husband passed away on February 16, 1960. Eleanor became a widow with three children to support.

At that time, she was working from her home as a photograph colorist. For each photograph that she hand colored, she was paid only \$1.25. And from that, she had to buy her paints, her brushes, and support her family.

On March 26, 1967, she was hired by Local 362 as a bookkeeper. At that time, Local 362 represented some 3,400 members of GM-Powertrain. She has worked for those members, and their sons and daughters for the past 33 years. Those who have ever asked for Eleanor's help on a problem, or her advice on a pressing issue, know that she is, indeed, a treasure.

Eleanor's retirement from Local 362 is a great loss for the union, but her family is sure to benefit. She is known to be a great cook,

and makes a homemade dinner for her family every Sunday. On that day, her eight grandchildren—Susan and Mark Rosebrock, Michelle Ciaciuch, Mark and Lisa Ciaciuch, Chad Nadobny, Kari Nadobny, and Scott Clerc—and her great grandchild Brooke Rosebrock, sit down for a wonderful meal. Eleanor's Polish meatballs and golabki are particularly famous.

I'm sure Eleanor will have much happiness during her retirement, and hope that she continues cooking, traveling, and enjoying one of her favorite activities, going to Branson, MO, to attend the great performances there.

Mr. Speaker, I invite you and our colleagues to join me today in honoring Ms. Eleanor Nadobny for her fine work these many years on behalf of Local 362. Please join me, on the occasion of Eleanor's retirement, in wishing her many more wonderful years with her family, and saying thank you for the many years she has invested on behalf of the working men and women of GM-Powertrain.

#### WILLIAM N. BALTZ, MEMBER OF CONGRESS, 22ND CONGRESSIONAL DISTRICT-ILLINOIS

#### HON. JERRY F. COSTELLO

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, February 2, 2000*

Mr. COSTELLO. Mr. Speaker, I rise today to ask my colleagues to join me in honoring the memory of a former colleague, the Honorable William N. Baltz, D-Millstadt, who represented the 22nd Congressional District of Illinois from March 4, 1913 to March 3, 1915.

The Baltz family came originally from Hessen-Darmstadt, Germany. Early records indicate that most members of their family were engaged in agricultural pursuits. One was a blacksmith, while another served as the Mayor of Gross Bierbrau. Johann II and his wife Maria along with their seven children departed Bremen, Germany on June 3, 1834 and arrived in Baltimore on August 25. One son disappeared in Philadelphia on their trek westward. Johann and his family traveled by wagon and boat down the Ohio River valley to St. Louis and in December of that year they settled in Sugar Loaf Township, just west of Millstadt, Illinois, where that home still stands. Five children were born there and their legacy continues today.

The descendants of Maria and Johann are numerous. The Baltz family served as farmers, teachers, storekeepers, postmaster, lawyers, bankers, physicians, millers, dentists, engineers, scientists, writers, church, school and also civic leaders. Among the most prominent of these descendants was William Nicolas Baltz, a farmer and staunch democrat. He was born in Millstadt, Illinois on February 5, 1860 and attended the public schools in Millstadt. In addition to farming, he engaged in milling and banking, helping to establish the First National Bank of Millstadt. He served as the President of the Millstadt Board of Education from 1892–1917 and also served on the St. Clair County Board of Supervisors from 1897 to 1913. He was the County Board's Presiding Officer from 1908 to 1911.

William was elected to the 64th United States Congress on March 4, 1913 and represented the Illinois 22nd Congressional district in Woodrow Wilson's first administration

up to March 3, 1915. Referred to as "Honest Bill" by his constituents, Congressman Baltz played as the catcher for the annual House vs. Senate baseball game, I might add, without a glove. In the 1914 game, William hit a three bagger off the wall of Griffith stadium in Washington and that year the Democrats beat the Republicans. William's father, Phillip, was also an appointee of President Andrew Johnson serving as the Postmaster of Millstadt. William and a brother G.F. (Gus) married two Diesel sisters, Katherine and Otilia. Gus, also a lover of baseball, graduated from ISNU in 1900 and captained that year's baseball team as a center fielder.

William and his brothers, Richard G. and Fred L., also founded the Millstadt Milling Company in 1893. It was purchased by Golden Dipt Corporation in 1957. The brothers organized the First National Bank of Millstadt in 1903 and it's chief operating officials are still in the Baltz family.

William was unsuccessful in his re-election efforts to the Congress and soon thereafter served along with his brother Fred as the Mayors of Millstadt. William resumed his agricultural and business pursuits for the rest of his life until he passed away on August 22, 1943. He lies at Mount Evergreen Cemetery in Millstadt, Illinois.

As the century ended and the new millennium begins, the work of William N. Baltz and the entire Baltz family stands as a testament to the courage and determination of our immigrant past. Their selfless efforts at continuing to support the community both in the last century and this century reminds us of our nation's heritage and the symbol of what makes America the greatest nation on Earth.

Mr. Speaker, I ask my colleagues to join me in honoring the service and memory of U.S. Congressman William N. Baltz.

#### HONORING JOHN MCGUINNESS

### HON. SCOTT MCINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, February 2, 2000*

Mr. MCINNIS. Mr. Speaker, I would like to take a moment to remember the life of a man that meant a great deal to the State of Colorado. John McGuinness recently passed away in Broomfield, Colorado. He was 67 years old.

John was born on June 10, 1932 in Queens, New York. He received a bachelor's degree in marketing from Fordham University. He attended graduate school at Columbia University and also worked in live television in the 1950's.

John decided to move to Colorado in 1958. He worked in advertising sales for KWGN-TV, he was involved in early FM stations in Denver and did political consulting for many campaigns. He later founded McGuinness and Associates and returned to consulting for radio and cable television. In the late 1980's, he became the court assigned operator of KDEN, a Denver radio station.

John's marketing degree was helpful when he was appointed to the Colorado State Fair Commission in 1983 by former Colorado Governor Roy Romer. After the General Manager resigned, John took over as the acting director and served with great distinction in that capacity until his resignation in December of 1999.

It is with this, Mr. Speaker, that I would like to offer tribute in memory of John McGuinness. He was a great man that will be missed by all those who knew him.

#### RIGHT-WING EXTREMISM HAS NO PLACE IN AUSTRIA'S DEMOCRACY

### HON. BENJAMIN A. GILMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, February 2, 2000*

Mr. GILMAN. Mr. Speaker, recent elections in Austria produced the disturbing result of the far right Freedom Party receiving the second most votes among all the parties. The Freedom Party's leader, Joerg Haider, has been an advocate of anti-immigrant policies, and has voiced supportive opinions regarding certain policies of the Nazi era in Austria and Germany. Today, Austrian President Klestil is faced with a choice of accepting a governing coalition that would include Mr. Haider's party as a partner with the center right People's Party.

Such a government would call into question Austria's longstanding reputation for tolerance, and as a haven for refugees from less fortunate countries, its strong championship of human rights, and its repudiation of its own unfortunate past history. As someone who has viewed himself as a friend of Austria, I believe it is incumbent that all of us in this body who value human rights to speak up and urge President Klestil and the Austrian people not to follow the extremist path represented by Mr. Haider and the Freedom Party's followers.

We should be mindful that the Austrian Freedom Party is not a unique political phenomenon in Europe. There are other nations in which far right parties have enjoyed increasing popularity. Our position with regard to the next government in Austria will be closely watched by leaders of those other extremist parties.

Our friends in the European Union have taken a strong position, indicating that they will take all possible steps to isolate Austria within the EU if Haider is part of the Austrian government. As Portugal's Prime Minister Guterres, speaking as President of the EU, has said "There comes times when we have to be faithful to our values." Our government and the Congress should also be forthright in expressing our views on the unacceptability of views such as those expressed by Mr. Haider throughout his political career.

In doing so we must be clear that we respect the Austrian people, and believe that Austria's rightful place is among those nations that have striven for peace, justice and human rights. We urge them at this critical juncture in Austria's history not to depart from the path they have followed for more than fifty years. Whatever social or other problems they believe they face, the answer does not lie in the kinds of policies and beliefs voiced by Joerg Haider. We want to see Austria anchored firmly in those trans-Atlantic and European institutions that represent a community of shared values and political beliefs, but we will firmly defend those very values and beliefs that give our community its definition and leadership role in the world today. Right wing extremism should have no place in our community of nations.

#### WASHINGTON & LEE REPUBLICAN MOCK CONVENTION

### HON. BOB GOODLATTE

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, February 2, 2000*

Mr. GOODLATTE. Mr. Speaker, I rise today to commend my alma mater, Washington and Lee University, on its recent 2000 Republican Mock Convention.

Every four years since 1908, the students of Washington and Lee have gathered at the Mock Convention to attempt to correctly predict the presidential nominee of the political party currently out of the White House. Over the years, W&L students have had a remarkable success rate in their predictions—in fact, since 1948, the Mock Convention has only erred once in correctly predicting the presidential nominee, when it selected Edward Kennedy over George McGovern in 1972.

Washington and Lee has received national acclaim for its Mock Convention from numerous sources over the years. The Washington Post has declared the Washington and Lee Mock Convention "one of the nation's oldest and most prestigious mock conventions," and Time Magazine has called it the "biggest and boomingest" of all amateur gatherings.

Last Saturday, Washington and Lee held its 2000 Mock Convention, which was a great success. I was privileged to join a very distinguished group of federal, state, and local leaders in addressing the Convention, and the W&L students were as engaged and energized as ever.

Mr. Speaker, I would like to commend Washington and Lee University on another excellent Mock Convention, and I am confident that the students of W&L have yet again correctly chosen the next Republican presidential nominee. Congratulations to W&L on a very successful 2000 Mock Convention.

#### HONORING DR. GERALD E. HOWE UPON HIS RETIREMENT

### HON. SCOTT MCINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, February 2, 2000*

Mr. MCINNIS. Mr. Speaker, I would like to take a moment to recognize a true asset to the medical profession who has recently retired after three decades of change. Dr. Gerald E. Howe officially retired from active medical practice on December 31, 1999.

Born in Deadwood, South Dakota, Gerald undertook his undergraduate studies at the University of Colorado and the University of South Dakota, then medical school at Temple University in Philadelphia. Gerald and his family decided that they wanted to move from the crowded east coast and Vermont. Milder winters and nearby mountains lead them to Montelores, Colorado in 1969.

Gerald has served in many medical staff leadership positions throughout his career. He has been chief of medical staff several times and served on the hospital board. He was on the hospital board which supported the development of Montezuma County Hospital District and was instrumental in the building of the Vista Grande Nursing Home facility at its present location.
