CHAPTER 2—SPECIAL CLASSIFICATION RELATING TO PRODUCT DEVELOPMENT AND TESTING

SEC. 1411. SHORT TITLE.

This chapter may be cited as the "Product Development and Testing Act of 2000".

SEC. 1412. FINDINGS; PURPOSE.

(a) FINDINGS.—The Congress finds the following:

(1)(A) A substantial amount of development and testing occurs in the United States incident to the introduction and manufacture of new products for both domestic consumption and export overseas.

(B) Testing also occurs with respect to merchandise that has already been introduced into commerce to insure that it continues to meet specifications and performs as designed.

(2) The development and testing that occurs in the United States incident to the introduction and manufacture of new products, and with respect to products which have already been introduced into commerce, represents a significant industrial activity employing highly-skilled workers in the United States.

(3)(A) Under the current laws affecting the importation of merchandise, such as the provisions of part I of title IV of the Tariff Act of 1930 (19 U.S.C. 1401 et seq.), goods commonly referred to as "prototypes", used for product development testing and product evaluation purposes, are subject to customs duty upon their importation into the United States unless the prototypes qualify for duty-free treatment under special trade programs or unless the prototypes are entered under a temporary importation bond.

SEC. 1404. ANTIFRICTION BEARINGS.

(a) LIQUIDATION OR RELIQUIDATION OF ENTRIES.—Notwithstanding sections 514 and 520 of the Tariff Act of 1930 (19 U.S.C. 1514 and 1520) or any other provision of law, the United States Customs Service shall, not later than 90 days after the date of the enactment of this Act, liquidate or reliquidate those entries made at various ports, which are listed in subsection (c), in accordance with the final results of the administrative reviews, covering the periods from November 9, 1988, through April 30, 1990, from May 1, 1990, through April 30, 1991, and from May 1, 1991, through April 30, 1992, conducted by the International Trade Administration of the Department of Commerce for such entries (Case No. A-427-801).

(b) PAYMENT OF AMOUNTS OWED.—Any amounts owed by the United States pursuant to the liquidation or reliquidation of an entry under subsection (a) shall be paid by

(B) In addition, the United States Customs Service has determined that the value of prototypes is to be included in the value of production articles if the prototypes are the result of the same design and development effort as the articles.

(4)(A) Assessing duty on prototypes twice, once when the prototypes are imported and a second time thereafter as part of the cost of imported production merchandise, discourages development and testing in the United States, and thus encourages development and testing to occur overseas, since, in that

case, duty will only be assessed once, upon the importation of production merchandise.

(B) Assessing duty on these prototypes twice unnecessarily inflates the cost to businesses, thus reducing their competitiveness.

(5) Current methods for avoiding the excessive assessment of customs duties on the importation of prototypes, including the use of temporary importation entries and obtaining drawback, are unwieldy, ineffective, and difficult for both importers and the United States Customs Service to administer.

(b) PURPOSE.—The purpose of this chapter is to promote product development and testing in the United States by permitting the importation of prototypes on a duty-free basis.

SEC. 1413. AMENDMENTS TO HARMONIZED TARIFF SCHEDULE OF THE UNITED STATES.

(a) HEADING.—Subchapter XVII of Chapter 98 is amended by inserting in numerical sequence the following new heading:

“ 9817.85.01	Prototypes to be used exclusively for development, testing, product evaluation or quality control purposes	Free		The rate applicable in the absence of this heading ”.
--------------	--	------	--	---

(b) U.S. NOTE.—The U.S. Notes to subchapter XVII of chapter 98 are amended by adding at the end the following:

“6. The following provisions apply to heading 9817.85.01:

“(a) The term ‘prototypes’ means originals or models of articles that—

“(i) are either in the preproduction, production, or postproduction stage and are to be used exclusively for development, testing, product evaluation, or quality control purposes; and

“(ii) in the case of originals or models of articles that are either in the production or postproduction stage, are associated with a design change from current production (including a refinement, advancement, improvement, development, or quality control in either the product itself or the means for producing the product).

For purposes of clause (i), automobile racing shall not be considered to be “development, testing, product evaluation, or quality control.”.

“(b)(i) Prototypes (as defined in paragraph (a)) may only be imported in limited non-commercial quantities in accordance with industry practice.

“(ii) Prototypes (as defined in paragraph (a)), or parts of prototypes, may not be sold (including sale for scrap purposes) after importation into the United States or be incorporated into other products.

“(c) Articles subject to quantitative restrictions, antidumping orders, or countervailing duty orders, may not be classified as prototypes under this note. Articles subject to licensing requirements, or which must comply with laws, rules, or regulations administered by agencies other than the United States Customs Service before being imported, may be classified as prototypes, provided that they comply with all applicable provisions of law and otherwise meet the definition of ‘prototypes’ under paragraph (a).”.

SEC. 1414. ENTRY PROCEDURES.

The Secretary of the Treasury shall establish regulations for the identification of prototypes at the time of importation into the United States in accordance with the provisions of this chapter and the amendments made by this chapter.

SEC. 1415. EFFECTIVE DATE.

This chapter, and the amendments made by this chapter, shall apply with respect to—

(1) an entry of a prototype under heading 9817.85.01, as added by section 1413(a), on or after the date of the enactment of this Act; and

(2) an entry of a prototype (as defined in U.S. Note 6(a) to subchapter XVII of chapter 98, as added by section 1413(b)) under heading 9813.00.30 for which liquidation has not be-

come final as of the date of enactment of this Act.

CHAPTER 3—PROHIBITION ON IMPORTATION OF PRODUCTS MADE WITH DOG OR CAT FUR

SEC. 1421. SHORT TITLE.

This chapter may be cited as the “Dog and Cat Protection Act of 2000”.

SEC. 1422. FINDINGS AND PURPOSES.

(a) FINDINGS.—Congress makes the following findings:

(1) An estimated 2,000,000 dogs and cats are slaughtered and sold annually as part of the international fur trade. Internationally, dog and cat fur is used in a wide variety of products, including fur coats and jackets, fur trimmed garments, hats, gloves, decorative accessories, stuffed animals, and other toys.

(2) The United States represents one of the largest markets for the sale of fur and fur products in the world. Market demand for fur products in the United States has led to the introduction of dog and cat fur products into United States commerce, frequently based on deceptive or fraudulent labeling of the products to disguise the true origin of the fur.

(3) Dog and cat fur, when dyed, is not easily distinguishable to persons who are not experts from other furs such as fox, rabbit, coyote, wolf, and mink, and synthetic materials made to resemble real fur. Dog and cat fur is generally less expensive than other types of fur and may be used as a substitute for more expensive types of furs, which provides an incentive to engage in unfair or fraudulent trade practices in the importation, exportation, distribution, or sale of fur products, including deceptive labeling and other practices designed to disguise the true contents or origin of the product.

(4) Forensic texts have documented that dog and cat fur products are being imported into the United States subject to deceptive labels or other practices designed to conceal the use of dog or cat fur in the production of wearing apparel, toys, and other products.

(5) Publicly available evidence reflects ongoing significant use of dogs and cats bred expressly for their fur by foreign fur producers for manufacture into wearing apparel, toys, and other products that have been introduced into United States commerce. The evidence indicates that foreign fur producers also rely on the use of stray dogs and cats and stolen pets for the manufacture of fur products destined for the world and United States markets.

(6) The methods of housing, transporting, and slaughtering dogs and cats for fur production are generally unregulated and inhumane.

(7) The trade of dog and cat fur products is ethically and aesthetically abhorrent to United States citizens. Consumers in the

United States have a right to know if products offered for sale contain dog or cat fur and to ensure that they are not unwitting participants in this gruesome trade.

(8) Persons who engage in the sale of dog or cat fur products, including the fraudulent trade practices identified above, gain an unfair competitive advantage over persons who engage in legitimate trade in apparel, toys, and other products, and derive an unfair benefit from consumers who buy their products.

(9) The imposition of a ban on the sale, manufacture, offer for sale, transportation, and distribution of dog and cat fur products, regardless of their source, is consistent with the international obligations of the United States as it applies equally to domestic and foreign entities. Such a ban is also consistent with provisions of international agreements to which the United States is a party that expressly allow for measures designed to protect the health and welfare of animals and to enjoin the use of deceptive trade practices in international or domestic commerce.

(b) PURPOSES.—The purposes of this chapter are to—

(1) prohibit imports, exports, sale, manufacture, offer for sale, transportation, and distribution in the United States of dog and cat fur products, in order to ensure that United States market demand does not provide an incentive to slaughter dogs or cats for their fur;

(2) require accurate labeling of fur species so that consumers in the United States can make informed choices and ensure that they are not unwitting contributors to this gruesome trade; and

(3) ensure that the customs laws of the United States are not undermined by illicit international traffic in dog and cat fur products.

SEC. 1423. PROHIBITION ON IMPORTATION OF PRODUCTS MADE WITH DOG OR CAT FUR.

The report shall include an analysis of the training of Customs Service personnel to identify dog and cat fur

(a) IN GENERAL.—The United States Customs Service shall treat the chemical N-cyclohexyl-2-benzothiazolesulfenamide and the chemical N-tert-Butyl-2-benzothiazolesulfenamide as “commercially interchangeable” within the meaning of section 313(j)(2) of the Tariff Act of 1930 (19 U.S.C. 1313(j)(2)) for purposes of permitting drawback under section 313 of the Tariff Act of 1930 (19 U.S.C. 1313).

When such services have been provided on a fee-for-service basis for at least 2 years and the commercial consumption entry level reaches 29,000 entries per year, the Commissioner of Customs shall continue to provide cargo clearance, inspection or other customs services, and no charges, other than those fees authorized by section 13031(a) of the Consolidated Omnibus Budget Reconciliation Act of 1985 (19 U.S.C. 58c(a)), may be collected for those services.

SEC. 1441. TREATMENT OF CERTAIN MULTIPLE ENTRIES OF MERCHANDISE AS SINGLE ENTRY.

(a) IN GENERAL.—Section 484 of the Tariff Act of 1930 (19 U.S.C. 1484) is amended by adding at the end the following:

“(1) is shipped in an unassembled or disassembled condition in separate shipments due to the size or nature of the merchandise, or

“(2) is shipped in separate shipments due to the inability of the carrier to include all of the merchandise in a single shipment (at the instruction of the carrier),

the Customs Service may, upon application by an importer in advance, treat such separate shipments for entry purposes as a single transaction.”.

(2) report to the Congress, not later than 180 days after the date of enactment of this Act, on changes that should be made to reduce reporting and record retention requirements for commercial parties, specifically addressing changes needed to—

(A) separate fully and remove the linkage between data reporting required to determine the admissibility and release of goods

and data reporting for other purposes such as collection of revenue and statistics;

(B) reduce to a minimum data required for determining the admissibility of goods and release of goods, consistent with the protection of public health, safety, or welfare, or achievement of other policy goals of the United States;

(C) eliminate or find more efficient means of collecting data for other purposes that are unnecessary, overly burdensome, or redundant; and

(D) enable the implementation, as soon as possible, of the import activity summary statement authorized by section 411 of the Tariff Act of 1930 (19 U.S.C. 1411) as a means of—

(i) fully separating and removing the linkage between the functions of collecting revenue and statistics and the function of determining the admissibility of goods that must be performed for each shipment of goods entering the United States; and

(ii) allowing for periodic, consolidated filing of data not required for determinations of admissibility.

(b) SPECIFIC MATTERS.—In preparing the report required by subsection (a), the Secretary of the Treasury shall specifically report on the following:

(1) Import procedures, including specific data items collected, that are required prior and subsequent to the release of goods or conveyances, identifying the rationale and legal basis for each procedure and data requirement, uses of data collected, and procedures or data requirements that could be eliminated, or deferred and consolidated into periodic reports such as the import activity summary statement.

(2) The identity of data and factors necessary to determine whether physical inspections should be conducted.

(3) The cost of data collection.

(4) Potential alternative sources and methodologies for collecting data, taking into account the costs and other consequences to importers, exporters, carriers, and the Government of choosing alternative sources.

(5) Recommended changes to the law, regulations of any agency, or other measures that would improve the efficiency of procedures and systems of the United States Government for regulating international trade, without compromising the effectiveness of procedures and systems required by law.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Illinois (Mr. CRANE) and the gentleman from Michigan (Mr. LEVIN) each will control 20 minutes.

The Chair recognizes the gentleman from Illinois (Mr. CRANE).

GENERAL LEAVE

Mr. CRANE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on H.R. 4868.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. CRANE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 4868 would make miscellaneous and other technical and clerical corrections to the trade laws. The Committee on Ways and Means favorably reported the bill on July 19, 2000.

This bill contains over 155 provisions temporarily suspending or reducing duties on a wide variety of chemicals, including drugs used in the battle against HIV/AIDS and anticancer drugs, environmentally friendly herbicides and insecticides, and many organic dyes.

In each instance, there is either no domestic production of the product involved or the domestic producer supported the measure.

By suspending or reducing these duties, we can enable U.S. companies that use these products to be more competitive and cost efficient. This would help create jobs for American workers as well as reduce costs for consumers.

Also, the bill includes two other important provisions which I introduced earlier in this Congress. The first provision would reduce the duty rate, returning travellers pay to an amount more in line with the average duty rate of imported commercial merchandise. My second provision would provide

duty free treatment to participants and individuals associated with all international athletic events held in the United States.

The bill also contains a ban on the import of products made from dog and cat fur and provisions that would help simplify customs entry processing.

This package of trade bills has been thoroughly evaluated and commented on by all concerned parties, including the U.S. Customs Service, the International Trade Commission, the United States Trade Representative, and firms which may be affected by tariff suspension on a product they produced domestically. The suspensions and duty reductions that remain on the bill are completely noncontroversial.

Mr. Speaker, I include for the RECORD the following exchange of letters:

COMMITTEE ON WAYS AND MEANS,
U.S. HOUSE OF REPRESENTATIVES,
Washington, DC, July 18, 2000.

Hon. TOM BLILEY,
Chairman, Committee on Commerce, U.S. House of Representatives, Washington, DC.

DEAR MR. CHAIRMAN: Thank you for your letter regarding your Committee's jurisdictional interest in H.R. 4868, the "Miscellaneous Trade and Technical Corrections Act of 2000."

I acknowledge your Committee's jurisdiction over this legislation and appreciate your cooperation in moving the bill to the House floor expeditiously. I agree that your decision to forego further action on the bill will not prejudice the Commerce Committee with respect to its jurisdictional prerogatives on this or similar legislation, and will support your request for conferees on those provisions within the Committee on Commerce's jurisdiction should they be the subject of a House-Senate conference. I will also include a copy of your letter and this response in our report on the legislation and as part of the Congressional Record when the legislation is considered by the House.

Thank you again for your cooperation.

Sincerely,

BILL ARCHER,
Chairman.

U.S. HOUSE OF REPRESENTATIVES,
COMMITTEE ON COMMERCE,
Washington, DC, July 18, 2000.

Hon. BILL ARCHER,
Chairman, Committee on Ways and Means, Washington, DC.

DEAR BILL: I am writing regarding H.R. 4868, the Miscellaneous Trade and Technical Corrections Act of 2000. As you know, section 1423 of this legislation prohibits the importation and other commerce in products containing dog and cat fur. The Committee on Commerce has jurisdiction over this provision pursuant to its authority over interstate and foreign commerce generally pursuant to clause 1 of Rule X of the Rules of the House of Representatives.

However, in light of your desire to have the House consider this legislation expeditiously, I will not exercise the Committee on Commerce's right to act on the legislation. By agreeing to waive its consideration of the bill, however, the Commerce Committee does not waive its jurisdiction over this bill. In addition, the Commerce Committee reserves its authority to seek conferees on any provisions of the bill that are within the jurisdiction during any House-Senate conference that may be convened on this or similar legislation. I ask that you support our request in this regard.

I ask that you include a copy of this letter and your response in your committee's report on the legislation and the RECORD during consideration of the bill on the House floor. I remain,

Sincerely,

TOM BLILEY,
Chairman.

Mr. Speaker, I reserve the balance of my time.

Mr. LEVIN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 4868. This bill reflects a bipartisan effort. It reflects the input of individual Members as well as the administration. The rule of thumb in putting this bill together, as in the past, was the provisions should be noncontroversial and carry a minimal cost. That rule was followed here.

As the title suggests, the provisions in this bill are of a technical nature, but these technical changes can have a real concrete impact on U.S. businesses, farmers, workers, and consumers.

For example, the bill suspends or reduces import duties on over 150 items. This improves the competitiveness of domestic manufacturing by reducing the price of inputs. It also provides a benefit to consumers by reducing the price of goods not produced in commercial quantities in the U.S., including anti-HIV/AIDS drugs.

The bill also includes an important provision to encourage product development and testing in the United States. It makes the importation of prototypes for development, testing, product evaluation, or quality control purposes duty free.

Currently, the value of such prototypes is effectively taxed twice, once when the prototype was imported for testing and again as part of the value of the finished product. This bill would eliminate that double dip which discourages testing and development of products in our country.

The bill also includes important provisions to streamline import processing. This will alleviate some of the administrative burden that can delay the shipment of goods from port to consumer.

Finally, I would like to mention that, thanks to the hard work of the able gentleman from Wisconsin (Mr. KLECZKA), my friend and colleague, the bill contains a prohibition on importation of goods made from dog or cat fur. This is a significant provision that serves a humane consumer protection purpose, and we are very pleased to be in support of it.

I urge my colleagues to support passage of this bill.

Mr. Speaker, I reserve the balance of my time.

Mr. CRANE. Mr. Speaker, I yield 2½ minutes to the distinguished gentleman from Florida (Mr. SHAW), a member of the committee.

Mr. SHAW. Mr. Speaker, I thank the gentleman from Illinois for yielding me this time.

Mr. Speaker, this bill, a portion of this bill, requires that the Commissioner of Customs enter into a fee-for-service agreement to provide international air cargo customs service at the Fort Lauderdale-Hollywood International Airport.

Because of the difficulties that the airport has experienced in establishing the fee-for-service arrangements, the airport recently lost significant international air cargo business at its facility.

The provision of cargo clearance, inspection and other Customs services is a fundamental governmental function.

Once Customs cargo inspection services have been provided under a fee-for-service agreement for 2 years, and the Airport has established air cargo business of at least 29,000 commercial consumption entries a year, the Commissioner will provide Customs services to the Airport without requiring additional fees for those services.

□ 1945

This will merely put the Ft. Lauderdale-Hollywood International Airport on the same basis as other airports of similar size where such Customs services are already available.

Another portion of this bill, which I was pleased to sponsor, provides for customs fees on arrival of ferries. The Consolidated Omnibus Budget Reconciliation Act of 1985 precluded Customs from charging customs user fees for passengers on ferry boats. This has prevented Customs from issuing landing rights to ferries arriving in South Florida and its coastal region.

To correct this situation, COBRA is amended to permit the collection of customs user fees to enable Customs to issue landing rights to ferries operating in South Florida. Ferries will now be able to operate between the United States and other Caribbean countries, provided they are within 300 miles of the United States. This will help promote tourism and trade.

Another area which I am hopeful will become a part of this bill before it is finally enacted into law was a provision I was working on with the gentleman from New York (Mr. RANGEL), and that is the question of prohibiting the sale of gray market cigarettes. These are cigarettes that are produced in the United States for export into other countries but somehow find their way back into this country.

The presence of these cigarettes is going to cost my own State of Florida about \$100 million a year, and it is time we act on this and stop the reimportation of these cigarettes that are produced for the foreign market.

Mr. LEVIN. Mr. Speaker, I yield 3 minutes to the gentleman from Wisconsin (Mr. KLECZKA).

Mr. KLECZKA. Mr. Speaker, I rise in strong support of this bill, and I would like to acknowledge my friend, the gentleman from Illinois (Mr. CRANE), and also the gentleman from Michigan (Mr. LEVIN) for agreeing to include in

this bill a ban on the importation, exporting and interstate commerce of items of clothing or toys, children's toys, made from dog and cat fur.

The issue was brought to my attention by the Humane Society of the United States, who, for over 18 months, conducted an undercover investigation of not only the conditions of animals but the slaughter of these animals, and then finally the products that were made from the animal fur and shipped into this country. They handed their investigation and the results of their investigation over to the Dateline NBC program, which about a year and a half ago broadcast a long segment on the clothing that is being sold here in this country and the toys being sold to our children made from dog and cat fur.

After working with Senator ROTH in the other body, we did introduce legislation in both Houses to ban this practice. This legislation, I am happy to say, includes that ban.

Mr. Speaker, here in this country, in the United States, over 65 million households have pets, either cats or dogs; and clearly I find it and they find it very deplorable that the clothing they might buy at their local store or the toy they might buy for their children is made in another country from the hide of a domestic dog or a domestic cat. This bill, as I indicated, will ban this abhorrent practice.

Again, I want to thank not only the chairman and ranking member, but I also want to publicly acknowledge the hard work of the Humane Society of the United States, which worked tirelessly to bring this to a halt, and I think tonight's action on this bill and subsequent Senate action will do just that.

Mr. CRANE. Mr. Speaker, I yield 2 minutes to the gentleman from Arizona (Mr. HAYWORTH).

(Mr. HAYWORTH asked and was given permission to revise and extend his remarks.)

Mr. HAYWORTH. Mr. Speaker, far from the roar of the grease paint and the smell of the crowd when we enter a political season where we accentuate our differences, it is very easy to lose track of those areas where the real work of government occurs. Such is the case with this bill, H.R. 4868, the Miscellaneous Trade and Technical Corrections Act of 2000.

I am pleased to rise and speak in favor of this legislation because it will temporarily suspend the duty on dozens of items that are not produced in the United States and consequently have to be imported. They include drugs, as the gentleman from Michigan (Mr. LEVIN), the ranking member of the Subcommittee on Trade, mentioned, drugs used in the fight against HIV-AIDS and environmentally friendly herbicides and insecticides.

Mr. Speaker, I would be remiss if I did not mention now and thank the chairman of the Subcommittee on Trade, the gentleman from Illinois (Mr. CRANE), for including in the package

several bills I introduced to suspend the duty on certain chemicals, chemicals vital to American industry and to our quality of life. Let me also commend the subcommittee chairman, Mr. Speaker, for including legislation introduced by our colleague, the gentleman from Georgia (Mr. COLLINS), legislation of which I am a cosponsor, that reduces the duty on steam generators, as we work on an energy policy for our Nation.

All of these provisions further the sound trade policy the chairman always tries to pursue because these products are not manufactured anywhere in the United States and, consequently, it makes no sense to tax their importation.

This is an excellent package of non-controversial items. It offers the best examples of what we can do working together, and we rise not in partisanship but in progress with this legislation. Accordingly, Mr. Speaker, I urge my colleagues to support it.

Mr. LEVIN. Mr. Speaker, I yield 3 minutes to the gentleman from Michigan (Mr. STUPAK).

Mr. STUPAK. Mr. Speaker, I thank the gentleman for yielding me this time, and I rise today to support this bill and to thank the leadership of the Committee on Ways and Means, both Democrats and Republicans, for inserting my provision in H.R. 4868 that extends Trade Adjustment Assistance to former copper mine employees in White Pine, Michigan.

White Pine is located in Michigan's Upper Peninsula, a region famous for its vast quantities of copper and timber. In 1995, the Copper Range Company in White Pine extracted its last pieces of copper. The Department of Labor concluded that increased copper imports from Canada resulted from NAFTA were directly responsible for the mine's demise.

The ensuing mine closure left many of its employees with an uncertain future as they contemplated career changes or leaving the area. While some former employees chose to leave the area in search of new jobs, others sought Trade Adjustment Assistance for worker retraining. Almost 89 percent of the Copper Range employees were laid off in September of 1995. I led the fight to make sure that they were all deemed eligible for TAA benefits by the Department of Labor.

Meanwhile, the company retained fewer than 20 employees for an environmental remediation of the mine. This work will be finished next year. Unfortunately, the employees who stayed behind to help clean up the mining site have been deprived of TAA benefits. They were denied by the Department of Labor because they did not perform a job that supported the production of copper.

However, under TAA standards, all employees of a company which closed because of NAFTA are eligible for Trade Adjustment Assistance, whether they are security guards, secretaries

or, in this case, miners. It only makes sense that the employees providing environmental remediation at Copper Range should receive the same TAA benefits that their coworkers received in 1995.

This legislation, with the help of members of the Committee on Ways and Means, will correct this oversight. The passage of this legislation ensures that these employees, with assistance under TAA, will find future employment. The passage of this legislation ensures that all employees will continue to provide for their families while they explore their employment opportunities.

It is only fair to provide these workers with access to the TAA benefits they rightfully deserve, and I urge my colleagues to support this legislation.

After we pass this legislation, I know there is companion legislation in the other body, so, hopefully, we can correct this and pass this legislation this year to help all these employees and to provide the other benefits found in H.R. 4868. I urge my colleagues to support the bill.

Mr. CRANE. Mr. Speaker, I yield 2 minutes to the gentleman from Pennsylvania (Mr. ENGLISH).

Mr. ENGLISH. Mr. Speaker, I rise to salute the chairman and members of the Ways and Means Subcommittee on Trade and to rise in strong support of H.R. 4868, the Miscellaneous Trade and Technical Corrections Act.

This is good legislation which represents an important piece of housekeeping in our national trade policy. It is legislation which includes numerous noncontroversial trade provisions. This legislation provides for temporary duty suspensions on a variety of products, including environmentally friendly herbicides and fungicides.

Frequently, Mr. Speaker, Congress needs to make technical changes to our trade laws to suspend or reduce tariffs on certain products or chemicals which are not produced domestically. This process is done through the voluntary submission of requests to the Subcommittee on Trade by the administration, by Members of Congress, and by the public, which is then vetted through a public comment period. The subcommittee has done excellent due diligence in producing this product. Should any opposition arise regarding a specific trade provision, they set it aside; and they have presented here a consensus piece of work.

In some cases, American companies and farmers clearly need products or chemicals which are not produced in the United States. Under those circumstances, it does not make sense for us to apply tariffs in those situations. Since these products are not manufactured in the U.S., and their sale will not harm any domestic industry, it is neither necessary nor desirable to maintain these tariffs on such goods. A temporary duty suspension makes products more competitive and helps reduce costs for the farmers and the

consumers who utilize these product or chemicals.

I urge my colleagues to support this miscellaneous trade bill. We think that this is an important addition to our trade policy, and our hope is that this Chamber will embrace this legislation and send it forward.

Mr. LEVIN. Mr. Speaker, I yield 4 minutes to the gentleman from Ohio (Mr. KUCINICH), a very active Member of this House.

Mr. KUCINICH. Mr. Speaker, I thank the gentleman for yielding me this time, and I want to begin by thanking the chairman, the gentleman from Illinois (Mr. CRANE), and the ranking member, the gentleman from Michigan (Mr. LEVIN), for their leadership on this in the Ways and Means Subcommittee on Trade.

I would like to bring to the attention of my colleagues an important provision in the Miscellaneous Trade and Technical Corrections Act, which prohibits the importation of products made with dog and cat fur into the United States. This provision is from H.R. 1622, the Dog and Cat Protection Act, a bill which has broad bipartisan support and 93 cosponsors.

A local television station, Channel 8 in my district, in Cleveland, Ohio, recently aired an investigation on the dog and cat fur industry. After that program aired, people called me in tears, in tears, to think that dogs and cats, God's creatures, defenseless animals that we love, could be treated with such cruelty, killed for their fur. My constituents were outraged that this practice was allowed to occur and deluged the station with over 3,000 phone calls expressing their shock, and asking what could be done to end this horrible trade.

Since the airing of the program, my office has received over 700 calls, letters, and e-mail messages from constituents who are very concerned about the mistreatment of dogs and cats and who support a prohibition on the importation of products made from dog and cat fur.

Mr. Speaker, I would like to commend Dick Goddard, Channel 8's respected weatherman, and the entire Channel 8 news team for their work in bringing awareness of this cruelty to the people of northeast Ohio. I want to thank also the Humane Society of the United States, which conducted an 18-month investigation which uncovered the international trade and products made from dog and cat fur. They discovered that dog and cat fur products are in widespread use overseas in a variety of garments, including coats, hats, and gloves and animal figurines. It was even discovered that one of the largest clothing retailers in the United States was unknowingly selling products made with dog fur.

When dog and cat fur is dyed, it is nearly impossible to distinguish it from other fur species. Fur companies purposely mislead consumers by not labeling or mislabeling their products.

The only accurate way to determine fur species is through DNA testing.

□ 2000

An estimated 2 million dogs and cats are killed each year for their fur as part of an international fur trade. The animals are kept in deplorable conditions and are brutally killed by a number of inhumane methods, including clubbing and skinning alive.

Now, Americans love their pets. I remember our own family dogs, Spotty and Daisy, who gave us so much joy. And I know why Americans feel so strongly about animals. I also know that over 65 million households have a dog or a cat and many people consider their pets to be members of the family.

Americans deserve to be protected from unknowingly participating in this gruesome practice. I fully support this ban. I believe we must work to provide humane treatment for all animals. I urge my colleagues to support strong legislation to protect American consumers from unknowingly supporting an industry that involves the brutal slaughter of dogs and cats.

When I first heard about this, Mr. Speaker, I told the people of Cleveland that Congress would respond. Congress has responded. I want to say that again. When I first heard about this and the TV station received thousands of calls and my office received hundreds of calls, I told the people to have confidence that Congress would respond.

The gentleman from Illinois (Mr. CRANE) and the gentleman from Michigan (Mr. LEVIN) have answered that with a ringing support for the concerns of the people. I thank them on behalf of all the people in my district and also on behalf of all pet lovers in this country.

Mr. LEVIN. Mr. Speaker, I yield 2 minutes to the gentleman from Texas (Mr. GONZALEZ).

Mr. GONZALEZ. Mr. Speaker, today H.R. 4868 will, in part, designate San Antonio's International Airport as a point of entry.

Later today in this Chamber we will congratulate Mexico on its recent democratic elections, making this airport designation a timely one due to the City of San Antonio's close cultural and business relationship with Mexico.

This airport designation is important to my city so that it can further develop its business ties with Mexico that have already expanded since the approval of NAFTA.

However, significant barriers exist for the private aircraft operator that result in extra time and cost due to interim stops that must be made for Customs processing before coming to San Antonio.

Both business and trade leaders have indicated that business will be helped if San Antonio could receive non-commercial aircraft from Mexico on short notice. Several of San Antonio's large corporations have expanded business trade with Mexico and fly private aircraft into Mexico on a regular basis.

Finally, San Antonio is well equipped to handle a point-of-entry flight, as U.S. Customs has a significant presence at the San Antonio International Airport.

In closing, I want to express special thanks to all members of the Committee on Ways and Means for making this a reality for San Antonio and their assistance.

Mr. LEVIN. Mr. Speaker, I yield 1 minute to the distinguished gentleman from West Virginia (Mr. WISE) my colleague and classmate.

Mr. WISE. Mr. Speaker, I thank the gentleman for yielding me the time.

Mr. Speaker, I thank the members of the majority and minority on the Committee on Ways and Means for bringing this bill to the floor.

In a lot of times in the sweeping debates on major trade policy a bill will pass, and then it is necessary to go back and realize there were certain situations that were not dealt with or perhaps the law of unintended consequences took effect. That is what this bill is about.

I just want to say that there are provisions in this bill that are important to working men and women across our country, certainly in my State of West Virginia. I am very grateful to the chairman and ranking member of the Committee on Ways and Means for putting this bill together, for bringing it to the floor, and for recognizing sometimes the law of unintended consequences and working to make our working men and women much more competitive.

So I think this is an important bill. I rise strongly in support and urge its adoption tonight.

Mr. LEVIN. Mr. Speaker, I yield back the balance of my time.

Mr. CRANE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I urge my colleagues, in conclusion, please, as we can see clearly, this is a bill that is noncontroversial. We enjoy good, strong bipartisan support. I ask all my colleagues to get on board and vote for H.R. 4868.

Mr. MANZULLO. Mr. Speaker, last March, I introduced a miscellaneous tariff correction bill (H.R. 3715) to help keep the remaining cathode ray tube and computer display screen manufacturers in the United States. After careful review by the Administration and the Ways and Means Committee, this bill was changed to provide a 3-year duty suspension on monochrome glass envelopes. Also, my office has been given assurances that the permanent removal of the tariff on monochrome glass envelopes will be an item of discussion during the next round of global trade talks.

Monochrome glass envelopes are used to make cathode ray tubes that provide the "light" behind the computer monitor. When the tariff on monochrome glass envelopes was first proposed, there were American manufacturers of this product. But over the last few years, the final American manufacturer of monochrome glass envelopes decided to get out of the business. Thus, the tariff duty designed to provide a modest level of protection for U.S. makers of monochrome glass enve-

lopes no longer serves its purpose. In fact, the import duty is now hurting the international competitiveness of U.S. cathode ray tube and computer display screen manufacturers.

Other foreign competitors are able to purchase monochrome glass envelopes without this tariff. Thus, they are able to price their computer monitors in the U.S. more competitively than U.S. manufacturers of equivalent product. Mr. Speaker, there should not be a U.S.-government imposed incentive for Americans to buy foreign computer display screens! That's why I ask my colleagues to support the Miscellaneous Trade and Technical Corrections Act of 2000 because section 1247 of this legislation waives the import tariff on monochrome glass envelopes for three years. We need to remove the import tariff on monochrome glass envelopes so that American manufacturers of cathode ray tubes and computer monitors can compete on a more equal footing with their foreign counterparts.

Finally, I want to thank the chairman of the Ways and Means Trade Subcommittee, Mr. CRANE, the ranking minority member, Mr. LEVIN, and the staff of the subcommittee for all the hard work that went into including the 3-year duty suspension of monochrome glass envelopes in H.R. 4868.

Mr. CRANE. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. HUTCHINSON). The question is on the motion offered by the gentleman from Illinois (Mr. CRANE) that the House suspend the rules and pass the bill, H.R. 4868, as amended.

The question was taken.

Mr. LEVIN. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE
