

Coffin but to know him personally. He has had an extraordinary impact on his community, his state, his country, and the world. His conscience is like a beacon, which challenges and guides us all.

Not long ago, I celebrated my 60th birthday. I hope that 15 years from now I will be able to look back at my own life, and look forward to the days ahead, with the sense of accomplishment, pride, and commitment to equality, justice and peace that William Sloane Coffin should feel on the occasion of his 75th birthday.

Happy birthday my friend.●

NATIONAL GRANGE WEEK

● Mr. GRAMS. Mr. President, I rise today to pay tribute to the Minnesota members of the National Grange. This week is Grange Week, which celebrates the oldest U.S. rural community service, family-orientated organization with a special interest in agriculture. In recognition of its members in Minnesota, and across the United States, I want to take this time to reflect on the accomplishments of the National Grange during the past 133 years.

Organized in 1867, the National Grange assisted farmers who were trying to dig out of financial troubles that plagued them after the Civil War. Today, this organization continues to advance the best interests of agriculture and promote the family values that are rooted so deeply in rural America.

This commitment is easily seen in the Grange's involvement in many local service projects, such as organizing community response teams to cope with disasters, assisting in community development revitalization, volunteering at local schools, and promoting farm and home safety, along with other important activities.

In my home state of Minnesota, the State Grange has been influential in the development of many key projects and services since 1867. Around the turn of the century, the State Grange played a crucial role in helping farmers and people in rural areas get home delivery of their mail and take part in rural electrification projects. They also helped form the University of Minnesota School of Agriculture.

Mr. President, because its members understand the importance of the family farm and the communities they reside in, it is easy to see why the Grange has been so successful in its many endeavors. I am pleased to make this statement on behalf of the Minnesota Grange, and I wish them well and commend them for their many hours of volunteer service—service that is vital to all our communities.●

LARRY COOKE

● Mr. JEFFORDS. Mr. President, I rise today to pay tribute to an outstanding Vermonter and good friend, Larry Cooke, who recently died after a long illness. Born and raised in Vermont,

Larry's love and devotion to his state and home town of Brattleboro framed all of his actions. We in Vermont are saddened by his loss but heartened by the legacy that he leaves behind.

Larry's dedication to public service began early in his life. As an eighth grader, he was elected president of his class and never looked back. Like many of an earlier generation, Larry was a self-made man, going to work for his father immediately after graduating from Brattleboro Union High School.

Demonstrating a devotion to his country that would extend throughout his life, Larry joined the Army and served in Germany before coming home to earn his real estate license. In this profession that he found his true calling, and it is here that he leaves his biggest footprint on the town of Brattleboro.

Larry devoted his career to affordable housing and environmentally friendly developments. His most important projects have included renovating historic buildings to their original condition while making them viable for modern day usage.

Larry was a consistent and important champion of affordable housing, taking the lead on the issue at the age of thirty as a candidate for Brattleboro town selectman. He then went on to serve on the Brattleboro Housing Authority for two decades, building and renovating affordable housing and apartments throughout the area.

As if his professional and private life did not take up enough of his time, Larry was active in every aspect of town affairs. He has served as president of the Kiwanis Club and as a corporator of Brattleboro Memorial Hospital. Among other activities too numerous to mention, Larry was a Mason, a member of the American Legion, the Shriners, and the Elks.

Before he died, this close friend of mine gave one last gift to his community. Larry donated a historic home in the center of Brattleboro to the town's historical society for use as its headquarters and museum. Although only a small part of Larry's life-long contribution to Brattleboro, the home will stand as a lasting monument to a man who devoted his life to the betterment of his community.

It has been said that we live in deeds, not years. While Larry died young, his accomplishments rival those of the oldest of men. He will be missed not only by Brattleboro and Vermont, but also by this country, where his life stands as a shining example for us all. My deepest condolences go out to Larry's devoted Wife, Kathleen, and his four daughters.●

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mr. Evans, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting a withdrawal and sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

[NOTE: The following message was signed by the President on Tuesday, April 25, 2000 and received in the Senate on Wednesday, April 26, 2000.]

REPORT OF THE VETO OF THE NUCLEAR WASTE POLICY AMENDMENTS ACT OF 2000—MESSAGE FROM THE PRESIDENT—PM 101

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States; which was ordered to be spread upon the Journal.

To the Senate of the United States:

I am returning herewith without my approval S. 1287, the "Nuclear Waste Policy Amendments Act of 2000."

The overriding goal of the Federal Government's high-level radioactive waste management policy is the establishment of a permanent, geologic repository. This policy not only addresses commercial spent nuclear fuel but also advances our non-proliferation efforts by providing an option for disposal of surplus plutonium from nuclear weapons stockpiles and an alternative to reprocessing. It supports our national defense by allowing continuing operation of our nuclear navy, and it is essential for the cleanup of the Department of Energy's nuclear weapons complex.

Since 1993, my Administration has been conducting a rigorous world-class scientific and technical program to evaluate the suitability of the Yucca Mountain, Nevada, site for use as a repository. The work being done at Yucca Mountain represents a significant scientific and technical undertaking, and public confidence in this first-of-a-kind effort is essential.

Unfortunately, the bill passed by the Congress will do nothing to advance the scientific program at Yucca Mountain or promote public confidence in the decision of whether or not to recommend the site for a repository in 2001. Instead, this bill could be a step backward in both respects. The bill would limit the Environmental Protection Agency's (EPA) authority to issue radiation standards that protect human health and the environment and would prohibit the issuance of EPA's final standards until June 2001. EPA's current intent is to issue final radiation standards this summer so that they will be in place well in advance of the Department of Energy's recommendation in 2001 on the suitability of the Yucca Mountain site.

There is no scientific reason to delay issuance of these final radiation standards beyond the last year of this Administration; in fact, waiting until

next year to issue these standards could have the unintended effect of delaying a recommendation on whether or not to go forward with Yucca Mountain. The process for further review of the EPA standards laid out in the bill passed by the Congress would simply create duplicative and unnecessary layers of bureaucracy by requiring additional review by the Nuclear Regulatory Commission and the National Academy of Sciences, even though both have already provided detailed comments to the EPA. This burdensome process would add time, but would do nothing to advance the state of scientific knowledge about the Yucca Mountain site.

Finally, the bill passed by the Congress does little to minimize the potential for continued claims against the Federal Government for damages as a result of the delay in accepting spent fuel from utilities. In particular, the bill does not include authority to take title to spent fuel at reactor sites, which my Administration believes would have offered a practical near-term solution to address the contractual obligation to utilities and minimize the potential for lengthy and costly proceedings against the Federal Government. Instead, the bill would impose substantial new requirements on the Department of Energy without establishing sufficient funding mechanisms to meet those obligations. In effect, these requirements would create new unfunded liabilities for the Department.

My Administration remains committed to resolving the complex and important issue of nuclear waste disposal in a timely and sensible manner consistent with sound science and protection of public health, safety, and the environment. We have made considerable progress in the scientific evaluation of the Yucca Mountain site and the Department of Energy is close to completing the work needed for a decision. It is critical that we develop the capability to permanently dispose of spent nuclear fuel and high-level radioactive waste, and I believe we are on a path to do that. Unfortunately, the bill passed by the Congress does not advance these basic goals.

WILLIAM J. CLINTON.
THE WHITE HOUSE, April 25, 2000.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, which were referred as indicated:

EC-8649. A communication from the Office of Regulatory Management and Information, Office of Policy, Planning and Evaluation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Fenpropathrin, Pesticide Tolerance" (FRL # 6554-4), received April 18, 2000; to the Committee on Agriculture, Nutrition, and Forestry.

EC-8650. A communication from the Office of Regulatory Management and Information,

Office of Policy, Planning and Evaluation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Thiabendazole; Extension of Tolerance for Emergency Exemptions" (FRL # 6554-6), received April 18, 2000; to the Committee on Agriculture, Nutrition, and Forestry.

EC-8651. A communication from the Office of Regulatory Analysis and Development, Policy and Program Development, Animal and Health Inspection Service, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Change in Disease Status of Japan Because of Rinderpest and Foot-and-Mouth Disease" (Docket # 00-031-1), received April 13, 2000; to the Committee on Agriculture, Nutrition, and Forestry.

EC-8652. A communication from the Office of Regulatory Analysis and Development, Policy and Program Development, Animal and Health Inspection Service, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Change in Disease Status of the Republic of Korea Because of Rinderpest and Foot-and-Mouth Disease" (Docket # 00-033-1), received April 13, 2000; to the Committee on Agriculture, Nutrition, and Forestry.

EC-8653. A communication from the Office of Regulatory Analysis and Development, Policy and Program Development, Animal and Health Inspection Service, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Pseudorabies in Swine; Payment of Indemnity" (Docket # 98-123-6), received April 13, 2000; to the Committee on Agriculture, Nutrition, and Forestry.

EC-8654. A communication from the Office of Regulatory Analysis and Development, Policy and Program Development, Animal and Health Inspection Service, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Mexican Fruit Fly Regulations; Removal of Regulated Area" (Docket # 99-075-3), received April 13, 2000; to the Committee on Agriculture, Nutrition, and Forestry.

EC-8655. A communication from the Office of Regulatory Analysis and Development, Policy and Program Development, Animal and Health Inspection Service, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Importation of Wood Chips from Chile" (Docket # 96-031-2), received April 24, 2000; to the Committee on Agriculture, Nutrition, and Forestry.

EC-8656. A communication from the Office of Regulatory Analysis and Development, Policy and Program Development, Animal and Health Inspection Service, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Change in Disease Status of the Republic of South Africa Because of Rinderpest and Foot-and-Mouth Disease" (Docket # 98-029-2), received April 19, 2000; to the Committee on Agriculture, Nutrition, and Forestry.

EC-8657. A communication from the Office of Regulatory Analysis and Development, Policy and Program Development, Animal and Health Inspection Service, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Change in Disease Status of the Republic of Korea Because of Rinderpest and Foot-and-Mouth Disease" (Docket # 00-003-1), received April 19, 2000; to the Committee on Agriculture, Nutrition, and Forestry.

EC-8658. A communication from the Office of Regulatory Analysis and Development, Policy and Program Development, Animal and Health Inspection Service, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled

"Pseudorabies in Swine; Payment of Indemnity" (Docket # 98-123-6), received April 19, 2000; to the Committee on Agriculture, Nutrition, and Forestry.

EC-8659. A communication from the Office of Regulatory Analysis and Development, Policy and Program Development, Animal and Health Inspection Service, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Mexican Fruit Fly Regulations; Removal of Regulated Area" (Docket # 99-075-3), received April 19, 2000; to the Committee on Agriculture, Nutrition, and Forestry.

EC-8660. A communication from the Office of Regulatory Analysis and Development, Policy and Program Development, Animal and Health Inspection Service, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Change in Disease Status of Japan Because of Rinderpest and Foot-and-Mouth Disease" (Docket # 00-031-1), received April 19, 2000; to the Committee on Agriculture, Nutrition, and Forestry.

EC-8661. A communication from the Regulations Unit, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Market Segment Specialization Program Audit Techniques Guide—Child Care Providers", received April 19, 2000; to the Committee on Finance.

EC-8662. A communication from the Regulations Unit, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Market Segment Specialization Program Audit Techniques Guide—Garden Supplies", received April 19, 2000; to the Committee on Finance.

EC-8663. A communication from the Regulations Unit, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Market Segment Specialization Program Audit Techniques Guide—Alternative Minimum Tax for Individuals", received April 19, 2000; to the Committee on Finance.

EC-8664. A communication from the Board of Trustees of the Federal Hospital Insurance Trust Fund, transmitting a report relative to the 2000 annual report of the Board; to the Committee on Finance.

EC-8665. A communication from the Commissioner of Social Security, transmitting, pursuant to law, a report relative to disregards under the Old Age and Survivors Disability Insurance and Supplemental Security Income programs; to the Committee on Finance.

EC-8666. A communication from the Executive Office for Immigration Review, Department of Justice transmitting, pursuant to law, the report of a rule entitled "Executive Office for Immigration Review; Board of Immigration Appeals, 21 Board Members" (RIN 1125-AA28), received April 25, 2000; to the Committee on the Judiciary.

EC-8667. A communication from the Regulations Policy and Management Staff, Food and Drug Administration, Department of Health and Human Services, transmitting, pursuant to law, the report of a rule entitled "Clinical Chemistry Devices; Classification of the Biotinidase Test System" (Docket No. 00P-0931), received April 20, 2000; to the Committee on Health, Education, Labor, and Pensions.

EC-8668. A communication from the Regulations Policy and Management Staff, Food and Drug Administration, Department of Health and Human Services, transmitting, pursuant to law, the report of a rule entitled "Medical Devices; Reclassification and Codification of the Nonabsorbable Expanded Polytetrafluoroethylene Surgical Suture" (Docket No. 94P-0347), received April 25, 2000;
