

(B) has access to local television broadcast signals from not more than one commercial, for-profit multichannel video provider.

(4) COMMON TERMS.—Except as provided in paragraphs (1) through (3), any term used in this Act that is defined in the Communications Act of 1934 (47 U.S.C. 151 et seq.) has the meaning given that term in the Communications Act of 1934.

SEC. 09. AUTHORIZATIONS OF APPROPRIATIONS.

(a) COST OF LOAN GUARANTEES.—For the cost of the loans guaranteed under this title, including the cost of modifying the loans, as defined in section 502 of the Congressional Budget Act of 1974 (2 U.S.C. 661(a)), there are authorized to be appropriated for fiscal years 2001 through 2006, such amounts as may be necessary.

(b) COST OF ADMINISTRATION.—There is hereby authorized to be appropriated such sums as may be necessary to carry out the provisions of this title, other than to cover costs under subsection (a).

(c) AVAILABILITY.—Any amounts appropriated pursuant to the authorizations of appropriations in subsections (a) and (b) shall remain available until expended.

PRIVILEGES OF THE FLOOR

Mr. DORGAN. Mr. President, I ask unanimous consent that floor privileges be granted to two members of my staff, Justin Walker and Kristin Hedger, today.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, I ask unanimous consent that Bob Herbert, a fellow in my office, be granted floor privileges during the consideration of the Defense appropriations bill.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. STEVENS. Mr. President, I ask unanimous consent that Michael Daly of Senator ABRAHAM's office be granted floor privileges during the consideration of this bill.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BROWNBACK. Mr. President, I ask unanimous consent that Dan Hodges from my staff be allowed floor privileges.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDERS FOR MONDAY, JUNE 12, 2000

Mr. STEVENS. On behalf of the leader, I ask unanimous consent that when the Senate completes its business today, it stand in adjournment until 12 noon on Monday, June 12. I further ask that on Monday, immediately following the prayer, the Journal of proceedings be approved to date, the morning hour be deemed to have expired, the time for the two leaders be reserved for their use later in the day, and the Senate then begin a period of morning business until 2 p.m., with Senators speaking therein for up to 10 minutes each with the following exceptions: Senator DURBIN, or his designee, from 12 to 1 p.m., Senator THOMAS, or his designee, from 1 to 2 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. STEVENS. For the information of all Senators, the Senate will convene at 12 noon on Monday and be in a period of morning business until 2 p.m. Following morning business, the Senate will resume consideration of the Defense appropriations bill. Amendments will be offered, and it is expected the two managers will agree to exchange a list of amendments at 2 p.m. Monday.

ORDER FOR FILING OF AMENDMENTS

Mr. STEVENS. With that in mind, I ask unanimous consent that all first-degree amendments to this bill must be filed by 3 p.m. on Monday.

The PRESIDING OFFICER. Without objection, it is so ordered.

VITIATION OF ORDER

Mr. STEVENS. Mr. President, I ask unanimous consent that the previous order with respect to rule XVI regarding the Defense appropriations bill be vitiated.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. STEVENS. Mr. President, in addition, any votes regarding those amendments will be scheduled to occur on Tuesday morning, June 13. As a reminder, Senators should inform the bill managers, Senator INOUE and myself, if they have amendments to the Defense appropriations bill. It is my hope we will have an announcement on Monday that any amendments that are stacked on Tuesday will commence very early in the day.

ORDER FOR ADJOURNMENT

Mr. STEVENS. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that the Senate stand in adjournment under the previous order following the remarks of Senators DASCHLE, ENZI, DORGAN, and BROWNBACK.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. STEVENS. I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. THOMAS). The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DASCHLE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

CONGRATULATING NOFAS ON 10 YEARS OF PROGRESS

Mr. DASCHLE. Mr. President, 10 years ago, I met with an extraordinary group of people in the basement of a home in suburban Maryland, just outside Washington, DC. They came from

all kinds of backgrounds and fields, but they were united by one common desire, and that was to try to prevent fetal alcohol syndrome and help children and families who are living with its consequences.

The other night, I saw some of those same people again at a reception celebrating the 10th anniversary of NOFAS, the National Organization for Fetal Alcohol Syndrome.

Born in that suburban Maryland basement 10 years ago, NOFAS is now the world's leading clearinghouse for information on fetal alcohol syndrome and fetal alcohol effects. I am proud to say that my wife and I serve on its board of directors.

At the reception the other night, I was asked to say a few words about why I support NOFAS. I could have cited its pivotal role in the significant advances in our understanding of fetal alcohol syndrome and fetal alcohol effect. Ten years ago, we knew very little about fetal alcohol syndrome or fetal alcohol effects, its only slightly milder version. Today, we know that as many as 40,000 children are born each year in this country with FAS and other alcohol-related conditions, costing Americans more than \$3 billion a year in direct health care expenses.

We know that fetal alcohol syndrome is the leading known cause of mental retardation among children. We know that FAS and FAE are both 100 percent preventable when pregnant women abstain from alcohol. And we know now that there is no safe level of alcohol use during pregnancy. That is progress, and it is possible we still would not know these things today were it not for 10 years of diligent and dedicated work by the National Organization for Fetal Alcohol Syndrome. Instead, I talked about two other reasons that I support NOFAS. Those reasons are Karli Schrider and Lucy Klene. If you ever drop by the NOFAS office in Washington on a Friday afternoon, there is a good chance you will run into Karli. She volunteers at NOFAS every Friday stuffing information packets. It is one of her many volunteer jobs.

Twenty-eight years ago, when Karli's mother, Kathy, was pregnant with Karli, it was not uncommon for expectant mothers to be told to "drink a beer a day for a fat, healthy baby." Women who were in danger of miscarrying were sometimes hospitalized and given alcohol intravenously for 5 or 6 hours in the mistaken belief it would prevent miscarriage. Back then, it never crossed Kathy's mind that her occasional glasses of wine might be harming her unborn child. Besides, just the year before, Kathy had had another baby who was perfectly healthy, and she drank during that pregnancy, too. The first time Karli was misdiagnosed, she was an infant. A doctor attributed her developmental delays to chronic ear infections.

When he was 4 years old, a psychologist offered another explanation for Karli's difficulties. He said she was

being “willfully disobedient.” When Karli was 8, a team of specialists misdiagnosed her again with cerebral palsy. Eight years later, when Karli was 16, Kathy was training to be a substance abuse counselor. As part of her training, she attended a conference on crack babies. Sitting in the audience, she was stunned. Every characteristic of crack babies the lecturer described, Karli had. But Kathy had never used crack. She tracked down the few studies that had been done at that time on the effects of alcohol on fetuses. Again, she saw the same list of symptoms.

Years later, researchers would announce that most of the symptoms they originally thought were the result of fetal exposure to crack were actually the result of fetal alcohol exposure, and that alcohol is much more devastating to fetuses than crack or any other drug. That was 11 years ago, before NOFAS was born. Learning the real cause of Karli’s special challenges has not erased those challenges. FAS and FAE are lifelong conditions.

But knowing the truth has enabled Kathy—and others in Karli’s life to focus less on Karli’s deficits, and more on her strengths. One of those strengths is Karli’s extraordinary kindness and empathy. In addition to her volunteer work at NOFAS, Karli also volunteers to help people with cerebral palsy and the elderly. Two years ago, she was named one of America’s “Thousand Points of Life” by former President Bush. She is an inspiration to everyone who meets her, and one of the reasons I believe so deeply in the work NOFAS does.

Another reason I believe in NOFAS is because of a pint-sized little girl named Lucy Klene. Lucy is 4 years old. She spent the first two years of her life in an orphanage in Russia. When she was 2, she was adopted by Stephan and Lydia Klene, of Herndon, VA. The Klenes also adopted a son from Russia, Paul, who is 3 years old and has no apparent fetal alcohol effects. Within a month after bringing Lucy and Paul home, Stephan and Lydia began to suspect that Lucy had special challenges. Over the next 16 months, Lucy was evaluated eight times by pediatricians and other specialists. Not one of them recognized the symptoms of Lucy’s fetal alcohol effects. Finally, scouring the Internet, Stephan stumbled on the truth. He and Lydia took their research to Lucy’s pediatrician, who read it and confirmed their hunch.

Today, Lucy is a talented little gymnast who attends special education preschool. While it is still too early to know for sure, her doctor and parents think there is a good chance she will be able to live an independent and productive life when she grows up. Together, Karli and Lucy illustrate some of the progress that has been made in the 10 years since NOFAS was born. We still have a long way to go. Today children with FAS and FAE are being diagnosed earlier. That means they are getting help earlier, which means they have a

better chance at full and productive lives.

It took Karli’s family 16 years to get a correct diagnosis. It took Lucy’s family 16 months. That is progress. Eleven years ago, when Karli was diagnosed, there was very little research on the effects of alcohol on fetuses. Ten years later, Lucy’s father was able to find an enormous amount of information on the Internet. Slowly but surely, the studies are being done and the information is reaching the people who need it. That is real progress. When Karli was diagnosed, there were few, if any, people Kathy could turn to for support and advice. Today, Stephan and Lydia attend a NOFAS support group for parents of children with FAS and FAE, and they know they are not alone. That, too, is progress.

At the reception the other night, we celebrated an incredible milestone, the 10th anniversary of NOFAS. But next Thursday, June 15, will mark another milestone. At the urging of Stephan and Lydia, in Fairfax, VA, the school district will hold its first ever meeting to help preschool teachers recognize FAS and FAE and help children and families living with this challenge each and every day. And NOFAS will conduct the training. That is real progress.

I hope everyone today will recognize how fortunate we are—those of us lucky enough to be born healthy, those of us lucky enough to be born without fetal alcohol syndrome or fetal alcohol effect.

I hope everyone will congratulate those who have worked so diligently over the course of the last 10 years to make NOFAS what it is today, and to recognize NOFAS for the difference they are making in the lives of Karli and Lucy and hundreds of thousands of others who live with the challenges of FAS and FAE, and for millions of babies who have been born healthy these last 10 years because of NOFAS. May their next 10 years be even more remarkable.

I yield the floor.

THE PRESIDING OFFICER. The Senator from Kansas.

THE HOUSE THE SENATE BUILT

Mr. BROWNBACK. Mr. President, today the Senate has resolved to embark upon a unique partnership with Habitat for Humanity International. That is what I want to speak about this morning. In honor of National Homeownership Week, which concludes tomorrow, the Senate will resolve today to lend its support and its elbow grease to a project we call “The House the Senate Built.”

The idea of this project is to bring Members of the Senate, their staffs, local Habitat affiliates, volunteers, and sponsors together to build simple and decent, affordable housing for low-income families in all 50 States and the District of Columbia, and to do this by the end of 2001.

The project will begin with a “model build” right here in Washington, DC, slated to begin before National Homeownership Week in 2001. Following this event, Habitat for Humanity International will link Senators with local Habitat affiliates in their respective States. The Senators will then work with these local affiliates to build at least one Habitat house in their States during 2001.

So we are going to have 51 houses built by the Senate before the end of 2001.

For over 24 years, Habitat for Humanity International has been at the forefront of turning the American dream of owning a home into a reality. Founded by Millard Fuller in 1976, Habitat for Humanity is an ecumenical Christian housing organization to eliminate poverty housing, end homelessness worldwide, and make a decent shelter a matter of conscience and action.

Since its inception, Habitat has built over 80,000 homes that have housed over 400,000 people worldwide. This September, Habitat will build its 100,000th home, and they seek to build another 100,000 by 2005. So they started 24 years ago. By September they will have built their first 100,000. In the next 5 years, they hope and anticipate building their next 100,000 homes.

I have talked personally and visited a number of times with Millard Fuller. I have had him out to Kansas and hosted him there. He is quite a dynamic individual. He has a great heart and wants to see people around the world living in good housing. And he is getting there, one home at a time, but they are building up fast.

Habitat for Humanity relies solely on volunteer labor to build their homes. The remarkable success of Habitat is in large part attributed to the tireless efforts of its founder, Millard Fuller, to continually bring new building partners on board.

Over the years, Millard has enlisted the services of foreign Ambassadors, former Presidents—President Carter probably being the most noteworthy and most frequent builder—and even the House of Representatives has helped to aid in building homes at various sites across the country. This year, Millard Fuller has turned to the Senate to build some houses.

I ran into Millard as I was waiting to catch my flight back home at the airport in Kathmandu, Nepal, this past January. Sitting there in a small waiting room, thousands of miles away from home, Millard shared with me the vision he had for bringing the Senate together with Habitat for Humanity International.

He was in Nepal, building houses and announcing a program there, but at the same time he was also thinking, what could he do to build some through the Senate? That is where we discussed this program.

The “House the Senate Built” project that was born out of this vision
