ADDITIONAL STATEMENTS

HONORING HAYS, KANSAS,
PRINCIPAL ALAN PARK

• Mr. BROWNBAC. Mr. President, I rise to recognize an outstanding elementary school principal from Hays, Kansas. Alan Park, through dedication and hard work, has created an excellent after school program that has profoundly changed the lives of many young children in a positive way. The "Serve Our Children" program at Washington Elementary School has connected economically disadvantaged students with vital community services. The beneficial results are numerous: free child care, extensive leadership development opportunities, and many tutorial programs. Not only has Mr. Park integrated the use of computers within the school, he has helped pass a district bond to create a new addition to the school.

Mr. President, I am proud to recognize the outstanding accomplishments of this elementary school principal.

Mr. Park is an exemplary role model for young people in Kansas as well as our nation. I congratulate Mr. Alan Park for all he has done for Washington Elementary School and the community of Hays, Kansas.●

COMMENDING THE STUDENT INVESTMENT FUND

● Mr. MURKOWSKI. Mr. President, I rise today to commend the students of the University of Alaska-Fairbanks, School of Management, Student Investment Fund, who have invested an original stake of \$100,000 into stocks and CDs and now have a portfolio valued at over half a million dollars.

With the money earned while learning, the students participating in the Fund have donated \$8,000 in scholarships to UAF students. They have created two scholarship funds, the Michael L. Rice Scholarship and the Vanna K. Husby Scholarship, which are awarded to students who are in the School of Management and are enrolled in the Student Investment Fund for the following academic year. They have also donated \$4,000 to the UAF National Merit Scholarship to encourage talented students to attend the University of Alaska-Fairbanks.

The class began in 1991, when then Chancellor O'Rourke transferred \$100,000 of University endowment money into the Student Investment Fund at Dean Witter. The account has been wholly managed by the students since its inception. Only during the first year of the fund did it fall below a value of \$100,000. It has grown every year since and has a return of 71 percent.

This class and its philanthropy are wonderful examples of how higher education can benefit not only students, but the entire community.●

THE PRESIDENT'S EDUCATION BUDGET

Mrs. MURRAY. Mr. President, I have come to the floor today to talk about the budget the President has presented to Congress this year. Every budget is a statement of priorities, and I wanted to share with my colleagues how this

budget matches up with the priorities of the people I represent. I will spend a moment talking about how we should consider budgets in this remarkable period of economic strength.

The President's FY 2001 budget comes at a time of great prosperity and also great challenges. I take the budget decisions we will make this year very seriously. We have an historic opportunity to meet our long-term commitments and make vital investments. In looking at the budget, I am focused on two priorities.

First, we cannot squander the surplus. It has been too hard to reach this point of progress. When I came to the Senate in 1993, our fiscal house was a mess. But we made the tough, fiscally responsible decisions that have brought us to this point. The surplus is not here by accident. We made very difficult choices, and now is not the time to abandon our steady, responsible approach.

We have a responsibility to use the surplus in ways that will meet our long-term commitments and continue our economic growth. We know that Social Security and Medicare are running out of money. These are promises from one generation to the next. And it would be wrong—fiscally and morally—not to save those programs while we have the chance.

We should also remember that these surplus projections are just that—projections. I worry that some of the projections my Republican colleagues have used are too rosy—in part because they are based on faulty assumptions, and they do not account for any slowing down of our economy. I think we should use the most realistic estimates available.

Second, we have to continue to make the responsible investments that will help our economy grow. We must maintain our investments in areas like education, R&D, infrastructure, criminal justice, agriculture, and defense. We must strengthen Social Security and Medicare. And we must provide targeted tax relief. I am pleased that the President has presented a responsible plan for meeting those objectives.

One important investment is paying down the debt. We are responsible for paying down a major portion of the public debt. A commitment of \$2.5 trillion over ten years—as called for by the President—would make us debt free within 13 years. Mr. President, now is the time to pay down the debt—while the economy is strong.

I know there will be a lot of debate over tax cuts this year. There is room for tax cuts—but they need to be responsible. We should remember that just last year Republicans were pushing an irresponsible, \$790 billion tax cut. I am glad the American people rejected it. And this year, some presidential candidates appear willing to roll the dice on even riskier schemes.
