At least one-half of the non-Federal matching funds shall be from the business or businesses or business-related nonprofit organizations involved. Consideration in the award of grants shall be given to applicants that provide a specific commitment or commitments of resources from other public or private sources, or both, so as to demonstrate the long-term sustainability of the training program or project after the grant expires.

Such training is not limited to skill levels commensurate with a four-year undergraduate degree, but should include the preparation of workers for a broad range of positions along a career ladder. Consideration shall be given to the use of grant funds to demonstrate a significant ability to expand a training program or project through such means as training more workers or offering more courses, and training programs or projects resulting from collaborations, especially with more than one small business or with a labor-management training program or project. "(B) DESIGNATION OF RESPONSIBLE FISCAL AGENTS.—Each partnership formed under subparagraph (A) shall designate a responsible fiscal agent to receive and disburse grant funds under this subsection.

United States. The total amount of grants awarded to carry out programs and projects described in paragraph (1)(A) shall be allocated as follows:

“(i) At least 80 percent of the grants shall be awarded to programs and projects that train employed and unemployed workers in skills that are in shortage in high technology, information technology, and biotechnology, including skills needed for software and communications services, telecommunications, systems installation and integration, computers and communications hardware, advanced manufacturing, health care technology, biotechnology and biomedical research and manufacturing, and innovation services.

“(C) DURATION OF START-UP PERIOD.—For purposes of this subsection, a start-up period consists of a period of not more than 2 months after the grant period begins, at which time training shall immediately begin and no further Federal funds may be used for start-up purposes.

“(4) TRAINING OUTCOMES.—

“(A) CONSIDERATION FOR CERTAIN PROGRAMS AND PROJECTS.—Consideration in the awarding of grants shall be given to applicants that provide a specific, measurable commitment upon successful completion of a training course, to—

“(ii) include an agreement that the program or project shall be subject to evaluation by the Secretary of Labor to measure its effectiveness.

“(5) MATCHING FUNDS.—Each application for a grant to carry out a program or project described in paragraph (1)(A) shall state the manner by which the partnership will provide non-Federal matching resources (cash, or in-kind contributions, or both) equal to at least 50 percent of the total grant amount awarded under paragraph (2)(A)(i), and at least 100 percent of the total grant amount awarded under paragraph (2)(A)(ii). At least one-half of the non-Federal matching funds shall be from the business or businesses or business-related nonprofit organizations involved. Consideration in the award of grants shall be given to applicants that provide a

specific commitment or commitments of resources from other public or private sources, or both, so as to demonstrate the long-term sustainability of the training program or project after the grant expires.

“(6) ADMINISTRATIVE COSTS.—An entity that receives a grant to carry out a program or project described in paragraph (1)(A) may not use more than 10 percent of the amount of the grant to pay for administrative costs associated with the program or project.”.

“(C) DEMONSTRATION PROGRAMS AND PROJECTS TO PROVIDE TECHNICAL SKILLS TRAINING FOR WORKERS.—

“(1) IN GENERAL.—

“(A) FUNDING.—The Secretary of Labor shall use funds available under section 286(s)(2) of the Immigration and Nationality Act (8 U.S.C. 1356(s)(2)) to establish demonstration programs or projects to provide technical skills training for workers, including both employed and unemployed workers.

“(B) TRAINING PROVIDED.—Training funded by a program or project described in subparagraph (A) shall be for persons who are currently employed and who wish to obtain and upgrade skills as well as for persons who are unemployed. Such training is not limited to skill levels commensurate with a four-year undergraduate degree, but should include the preparation of workers for a broad range of positions along a career ladder. Consideration shall be given to the use of grant funds to demonstrate a significant ability to expand a training program or project through such means as training more workers or offering more courses, and training programs or projects resulting from collaborations, especially with more than one small business or with a labor-management training program or project. All training shall be justified with evidence of skill shortages as demonstrated through reliable regional, State, or local data.

“(2) GRANTS.—

“(A) ELIGIBILITY.—To carry out the programs and projects described in paragraph (1)(A), the Secretary of Labor shall, in consultation with the Secretary of Commerce, subject to the availability of funds in the H-1B Nonimmigrant Petitioner Account, award—

or rural area (such as rural telework programs) basis.

“(B) DESIGNATION OF RESPONSIBLE FISCAL AGENTS.—Each partnership formed under subparagraph (A) shall designate a responsible fiscal agent to receive and disburse grant funds under this subsection.

“(C) PARTNERSHIP CONSIDERATIONS.—Consideration in the awarding of grants shall be given to any partnership that involves and directly benefits more than one small business (each consisting of 100 employees or less).

“(D) ALLOCATION OF GRANTS.—In making grants under this paragraph, the Secretary shall make every effort to fairly distribute grants across rural and urban areas, and across the different geographic regions of the United States. The total amount of grants awarded to carry out programs and projects described in paragraph (1)(A) shall be allocated as follows:

“(i) At least 80 percent of the grants shall be awarded to programs and projects that train employed and unemployed workers in skills that are in shortage in high technology, information technology, and biotechnology, including skills needed for software and communications services, telecommunications, systems installation and integration, computers and communications hardware, advanced manufacturing, health care technology, biotechnology and biomedical research and manufacturing, and innovation services.

“(ii) No more than 20 percent of the grants shall be available to programs and projects that train employed and unemployed workers for skills related to any H-1B skill shortage.

“(E) H-1B SKILL SHORTAGE.—In subparagraph (D)(ii), the term ‘H-1B skill shortage’ means a shortage of skills necessary for employment in a specialty occupation, as defined in section 214(i) of the Immigration and Nationality Act.

“(B) EXCEPTION.—In the case of partnerships consisting primarily of small businesses, not more than 10 percent of any single grant, or \$150,000, whichever is less, may be used toward the start-up costs of partnerships or new training programs and projects.

“(C) DURATION OF START-UP PERIOD.—For purposes of this subsection, a start-up period consists of a period of not more than 2 months after the grant period begins, at which time training shall immediately begin and no further Federal funds may be used for start-up purposes.

“(4) TRAINING OUTCOMES.—

“(A) CONSIDERATION FOR CERTAIN PROGRAMS AND PROJECTS.—Consideration in the awarding of grants shall be given to applicants that provide a specific, measurable commitment upon successful completion of a training course, to—

“(i) hire or effectuate the hiring of unemployed trainees (where applicable);

“(ii) increase the wages or salary of incumbent workers (where applicable); and

“(iii) provide skill certifications to trainees or link the training to industry-accepted occupational skill standards, certificates, or licensing requirements.

“(B) REQUIREMENTS FOR GRANT APPLICATIONS.—Applications for grants shall—

“(i) articulate the level of skills that workers will be trained for and the manner by which attainment of those skills will be measured; and

“(ii) include an agreement that the program or project shall be subject to evaluation by the Secretary of Labor to measure its effectiveness.

“(5) MATCHING FUNDS.—Each application for a grant to carry out a program or project described in paragraph (1)(A) shall state the manner by which the partnership will provide non-Federal matching resources (cash, or in-kind contributions, or both) equal to at least 50 percent of the total grant amount awarded under paragraph (2)(A)(i), and at least 100 percent of the total grant amount awarded under paragraph (2)(A)(ii). At least one-half of the non-Federal matching funds shall be from the business or businesses or business-related nonprofit organizations involved. Consideration in the award of grants shall be given to applicants that provide a specific commitment or commitments of resources from other public or private sources, or both, so as to demonstrate the long-term sustainability of the training program or project after the grant expires.

“(6) ADMINISTRATIVE COSTS.—An entity that receives a grant to carry out a program or project described in paragraph (1)(A) may not use more than 10 percent of the amount of the grant to pay for administrative costs associated with the program or project.”.

SEC. 2. FINDINGS.

Congress finds the following:

(1) Physicians, providers of services, and suppliers of medical equipment and supplies that participate in the Medicare program under title XVIII of the Social Security Act must contend with over 100,000 pages of complex Medicare regulations, most of which are unknowable to the average health care provider.

(2) Many physicians are choosing to discontinue participation in the Medicare program to avoid becoming the target of an overzealous Government investigation regarding compliance with the extensive regulations governing the submission and payment of Medicare claims.

(3) Health Care Financing Administration contractors send post-payment review letters to physicians that require the physician to submit to additional substantial Government interference with the practice of the physician in order to preserve the physician's right to due process.

(4) When a Health Care Financing Administration contractor sends a post-payment re-

view letter to a physician, that contractor often has no telephone or face-to-face communication with the physician, provider of services, or supplier.

(5) The Health Care Financing Administration targets billing errors as though health care providers have committed fraudulent acts, but has not adequately educated physicians, providers of services, and suppliers regarding Medicare billing requirements.

(6) The Office of the Inspector General of the Department of Health and Human Services found that 75 percent of surveyed physicians had never received any educational materials from a Health Care Financing Administration contractor concerning the equipment and supply ordering process.

(8) PowerUp: Bridging the Digital Divide is an entity comprised of more than a dozen nonprofit organizations, major corporations, and Federal agencies that have joined together to launch a major new initiative to help ensure that America's underserved young people acquire the skills, experiences, and resources they need to succeed in the digital age.

(9) Bringing PowerUp into the Boys and Girls Clubs of America will be an effective way to ensure that our youth have a safe, crime-free environment in which to learn the technological skills they need to close the divide between young people who have access to computer-based information and technology-related skills and those who do not.

(E) a plan for assuring that program activities will take place in a secure environment that is free of crime and drugs;

(F) a plan outlining the utilization of content-based programs such as PowerUp, and the provision of trained adult personnel to supervise the after-school technology training; and

(G) any additional statistical or financial information that the Boys and Girls Clubs of America may reasonably require.

(e) GRANT AWARDS.—In awarding subgrants under this section, the Boys and Girls Clubs of America shall consider—

(1) the ability of the applicant to provide the intended services;

At least one-half of the non-Federal matching funds shall be from the business or businesses or business-related nonprofit organizations involved. Consideration in the award of grants shall be given to applicants that provide a specific commitment or commitments of resources from other public or private sources, or both, so as to demonstrate the long-term sustainability of the training program or project after the grant expires.

At least one-half of the non-Federal matching funds shall be from the business or businesses or business-related nonprofit organizations involved. Consideration in the award of grants shall be given to applicants that provide a specific commitment or commitments of resources from other public or private sources, or both, so as to demonstrate the long-term sustainability of the training program or project after the grant expires.

At least one-half of the non-Federal matching funds shall be from the business or businesses or business-related nonprofit organizations involved. Consideration in the award of grants shall be given to applicants that provide a specific commitment or commitments of resources from other public or private sources, or both, so as to demonstrate the long-term sustainability of the training program or project after the grant expires.

SECTION 1. FINDINGS.

Congress finds that—

(1) there is a continuing need for reconciliation between Indians and non-Indians;

(2) the need may be met partially through the promotion of the understanding of the history and culture of Sioux Indian tribes;

(3) the establishment of a Sioux Nation Tribal Supreme Court will promote economic development on reservations of the Sioux Nation and provide investors that contribute to that development a greater degree of certainty and confidence by—

(A) reconciling conflicting tribal laws; and

(B) strengthening tribal court systems;

(4) the reservations of the Sioux Nation—

(A) contain the poorest counties in the United States; and

(B) lack adequate tools to promote economic development and the creation of jobs;

(5) the establishment of a Native American Economic Development Council will assist in promoting economic growth and reducing poverty on reservations of the Sioux Nation by—

(A) coordinating economic development efforts;

(B) centralizing expertise concerning Federal assistance; and

(C) facilitating the raising of funds from private donations to meet matching requirements under certain Federal assistance programs;

(6) there is a need to enhance and strengthen the capacity of Indian tribal governments and tribal justice systems to address conflicts which impair relationships within Indian communities and between Indian and non-Indian communities and individuals; and

(7) the establishment of the National Native American Mediation Training Center, with the technical assistance of tribal and Federal agencies, including the Community Relations Service of the Department of Justice, would enhance and strengthen the mediation skills that are useful in reducing tensions and resolving conflicts in Indian communities and between Indian and non-Indian communities and individuals.
