In this Act—

LAKE TAHOE RESTORATION ACT

The Senate proceeded to consider the bill (S. 1925) to promote environmental restoration around Lake Tahoe basin, which had been reported from the Committee on Energy and Natural Resources, with an amendment as follows: (Strike out all after the enacting clause and insert the part printed in italic)

SECTION 1. SHORT TITLE.

This Act may be cited as the “Lake Tahoe Restoration Act”.

SEC. 2. FINDINGS AND PURPOSES.

(a) **FINDINGS.**—Congress finds that—

(1) Lake Tahoe, one of the largest, deepest, and clearest lakes in the world, has a cobalt blue color, a unique alpine setting, and remarkable water clarity, and is recognized nationally and worldwide as a natural resource of special significance;

(2) in addition to being a scenic and ecological treasure, Lake Tahoe is one of the outstanding recreational resources of the United States, offering skiing, water sports, biking, camping, and hiking to millions of visitors each year, and contributing significantly to the economies of California, Nevada, and the United States;

(3) the economy in the Lake Tahoe basin is dependent on the protection and restoration of the natural beauty and recreation opportunities in the area;

(4) Lake Tahoe is in the midst of an environmental crisis; the Lake’s water clarity has declined from a visibility level of 105 feet in 1967 to only 70 feet in 1999, and scientific estimates indicate that if the water quality at the Lake continues to degrade, Lake Tahoe will lose its famous clarity in only 30 years;

(5) sediment and algae-nourishing phosphorous and nitrogen continue to flow into the Lake from a variety of sources, including land erosion, fertilizers, air pollution, urban runoff, highway drainage, streamside erosion, land disturbance, and ground water flow;

(6) methyl tertiary butyl ether—

(A) *has contaminated and closed more than 1/3 of the wells in South Tahoe; and*

(B) *is advancing on the Lake at a rate of approximately 9 feet per day;*

(7) *destruction of wetlands, wet meadows, and stream zone habitat has compromised the Lake’s ability to cleanse itself of pollutants;*

(8) *approximately 40 percent of the trees in the Lake Tahoe basin are either dead or dying, and the increased quantity of combustible forest fuels has significantly increased the risk of catastrophic forest fire in the Lake Tahoe basin;*

(9) *as the largest land manager in the Lake Tahoe basin, with 77 percent of the land, the Federal Government has a unique responsibility for restoring environmental health to Lake Tahoe;*

(10) *the Federal Government has a long history of environmental preservation at Lake Tahoe, including—*

(A) *congressional consent to the establishment of the Tahoe Regional Planning Agency in 1969 (Public Law 91-148; 83 Stat. 360) and in 1980 (Public Law 96-551; 94 Stat. 3233);*

(B) *the establishment of the Lake Tahoe Basin Management Unit in 1973; and*

(C) *the enactment of Public Law 96-586 (94 Stat. 3381) in 1980 to provide for the acquisition of environmentally sensitive land and erosion control grants;*

(11) *the President renewed the Federal Government’s commitment to Lake Tahoe in 1997 at the Lake Tahoe Presidential Forum, when he committed to increased Federal resources for environmental restoration at Lake Tahoe and established the Federal Interagency Partnership and Federal Advisory Committee to consult on natural resources issues concerning the Lake Tahoe basin;*

(12) *the States of California and Nevada have contributed proportionally to the effort to protect and restore Lake Tahoe, including—*

(A) *expenditures—*

(i) *exceeding \$200,000,000 by the State of California since 1980 for land acquisition, erosion control, and other environmental projects in the Lake Tahoe basin; and*

(ii) *exceeding \$30,000,000 by the State of Nevada since 1980 for the purposes described in clause (i); and*

(B) *the approval of a bond issue by voters in the State of Nevada authorizing the expenditure by the State of an additional \$20,000,000; and*

(13) *significant additional investment from Federal, State, local, and private sources is needed to stop the damage to Lake Tahoe and its forests, and restore the Lake Tahoe basin to ecological health.*

(b) **PURPOSES.**—The purposes of this Act are—

(1) *to enable the Forest Service to plan and implement significant new environmental restoration activities and forest management activities to address the phenomena described in paragraphs (4) through (8) of subsection (a) in the Lake Tahoe basin;*

(2) *to ensure that Federal, State, local, regional, tribal, and private entities continue to work together to improve water quality and manage Federal land in the Lake Tahoe Basin Management Unit; and*

(3) *to provide funding to local governments for erosion and sediment control projects on non-Federal land if the projects benefit the Federal land.*

SEC. 3. DEFINITIONS.

(1) **ENVIRONMENTAL THRESHOLD CARRYING CAPACITY.**—The term “environmental threshold carrying capacity” has the meaning given the term in article II of the Tahoe Regional Planning Compact set forth in the first section of Public Law 96-551 (94 Stat. 3235).

(2) **FIRE RISK REDUCTION ACTIVITY.**—

(A) **IN GENERAL.**—The term “fire risk reduction activity” means an activity that is necessary to reduce the risk of wildlife to promote forest management and simultaneously achieve and maintain the environmental threshold carrying capacities established by the Planning Agency in a manner consistent, where applicable, with chapter 71 of the Tahoe Regional Planning Agency Code of Ordinances.

(B) **INCLUDED ACTIVITIES.**—The term “fire risk reduction activity” includes—

(i) *prescribed burning;*
