

Congressional Conversations on Race program and its Congressional Civil Rights Pilgrimages to Alabama. We are indebted to Mrs. Robertson for being such an exceptional teacher and mentor. It is with great pleasure and appreciation that we wish her a very happy 100th birthday on January 11, 2002.

TRIBUTE TO ROBERT LAWRENCE
COUGHLIN, JR.

HON. F. JAMES SENSENBRENNER, JR.

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 19, 2001

Mr. SENSENBRENNER. Mr. Speaker, it is with sadness that I note the death of a former colleague and a great Pennsylvanian, Mr. Robert Lawrence Coughlin, Jr., who passed away last month.

Larry grew up on his father's farm near Scranton, Pennsylvania. But he was no farmhand. Making the most of his opportunities, Larry graduated from the Hotchkiss School in Connecticut in 1946, he received an Economics degree from Yale in 1950, a Masters degree in Business Administration from Harvard, and a law degree from Temple University's law school in 1958. While at Temple, Larry attended classes at night, and was a foreman on a steel assembly line during the day.

This "steely" resolve served him well throughout his career. As a Marine, Larry fought in the Korean War, and was aide-de-camp to Lt. General Lewis B. "Chesty" Puller. When he was elected to Congress, he was Chairman of the Capitol Hill Marines, which represented Members who had been in the Marine Corps.

Larry was first elected to the U.S. House of Representatives in 1968. He came from a family that had some experience in the field of public service as his uncle, Clarence Coughlin, was a former Republican Representative. Representing a wealthy suburb of Philadelphia from 1969 to 1993, Larry was so popular personally and politically, that he was almost always easily elected. It wasn't until after he retired that Democrats were able to field significant competitors for that seat.

A tall and authoritative man, Larry always had a way with people. With his military background and penchant for bow ties, Larry came across—rightfully so—as a gentleman and a scholar. While he briefly served on the House Judiciary Committee, he spent most of his career on the Appropriations Committee. Although I never had the opportunity to directly work with him on the Judiciary Committee, I did work with him on several issues. The nation lost a good legislator when Larry resigned, and on November 30, the world lost a good man.

It is with a heavy heart that I say good-bye to Larry. My wife Cheryl and I would like to express our condolences to his wife Susan, and the entire family, in this time of sorrow and sadness. They will be in our prayers.

HONORING R. LAWRENCE
COUGHLIN, JR.

HON. WILLIAM J. COYNE

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 19, 2001

Mr. COYNE. Mr. Speaker, I rise today to join in this special order honoring our former colleague, R. Lawrence Coughlin. I want to thank Mr. GEKAS for organizing this special order.

Larry Coughlin represented a suburban Philadelphia district in the House of Representatives for 24 years. He was a gracious gentleman who represented his constituents with integrity and wisdom.

Mr. Coughlin had a remarkable background. Raised on a farm in Pennsylvania, he earned a degree in economics from Yale and an MBA from Harvard. He subsequently attended night school at Temple University to get his law degree while working during the day as a foreman in a steel plant. His academic accomplishments speak to his energy and ability.

Mr. Coughlin was also a dedicated public servant. He served in the Marines in Korea during the Korean War as a aide-de-camp to legendary Marine Lt. General Lewis B. "Chesty" Puller. He served ably in the Pennsylvania House of Representatives and Senate before running for—and winning—a seat in Congress in 1968.

During his 12 terms in Congress, Representative Coughlin served on the House Judiciary Committee, the House Appropriations Committee, and the House Select Committee on Narcotics Abuse and Control. He was particularly active in working to increase federal housing and transportation assistance to our nation's cities. Mr. Coughlin understood that even affluent suburbs like the ones he represented depend upon central cities for their continued economic well-being. Our nation is healthier and more prosperous as a result of his service in Congress.

Larry Coughlin was always a quiet, upbeat, courteous man. It was an honor and a pleasure to serve in the House of Representatives with him. I join my colleagues in mourning his passing.

HONORING RACHEL WALSH FOR
RECEIVING A RHODES SCHOLARSHIP

HON. JAMES R. LANGEVIN

OF RHODE ISLAND

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 19, 2001

Mr. LANGEVIN. Mr. Speaker, I rise to pay tribute to Rachel Walshe, who hails from my hometown of Warwick, Rhode Island, and is the first woman from a New England public university to receive a Rhodes Scholarship.

Rachel was selected for the prestigious Rhodes Scholarship from among 925 applicants from across the nation for her leadership potential, academic achievement, and personal integrity. Throughout her 23 years, Rachel has consistently demonstrated all of these characteristics. Graduating last year from the University of Rhode Island with highest honors, she focused on the philosophy of religions, a major she crafted to explore her

interest in understanding human motivation. While a student at the University of Rhode Island, she fought to affect public policy, founding the URI Chapter of the Campaign to End the Death Penalty, volunteering with America Reads and mentoring children in Head Start. In her spare time she mastered equestrian arts and Tai Kwan Do kickboxing.

At Oxford, Rachel will study English and theater history, and when she returns she hopes to direct theatrical performances. Already, Rachel has shared her talent with Perishable Theater in Providence where she works full-time.

I know my colleagues understand the high honor that the Rhodes Scholarship bestows. It signals tremendous achievement and even greater promise. On behalf of the entire Second Congressional District of Rhode Island, I want to express our pride in Rachel's success. Her example is inspiring and her future is overflowing with possibility. I just hope she comes home once in awhile to remind all Rhode Islanders that the smallest of states can produce the biggest of successes.

BEST PHARMACEUTICALS FOR
CHILDREN ACT

SPEECH OF

HON. SHEILA JACKSON-LEE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 18, 2001

Ms. JACKSON-LEE of Texas. Mr. Speaker, I rise in support of S. 1789, the Best Pharmaceuticals for Children Act. As Chair of the Congressional Children's Caucus, the welfare of children has always been a top priority for me. The bill before us today is reauthorizing legislation designed to ensure that more medicines are tested for children and that useful prescribing and dosing information appears on labels.

Under a 1997 law, pharmaceutical companies that test drugs on children at the request of the FDA are given an extra six months of exclusive marketing rights. This law was aimed at encouraging drug companies to test their products on children so that a pediatrician would be able to prescribe appropriate doses for children. As a result of this law, we have seen more drugs for children on the market that have a label telling how they can be used, and even more basic information for pediatricians.

The difficulty of prescribing medicine for children results from various factors: a child's weight and metabolism, the quick metamorphosis of a child's body, and a child's inaccurate information about how medicines are affecting them.

A recent six-week study done in Boston found that over that time, 616 prescriptions written for children contained errors. Of those, 26 actually harmed children. Of the errors that were caught before the medication was administered, 18 could have been fatal. Medication errors in hospitals occur three times more often with children than with adults. This bill can help prevent such mistakes by prescribing adequate testing and proper labeling.

Mr. Speaker, S. 1789 also requires that the General Accounting Office (GAO) study the inclusion of children of ethnic and racial minorities in drug studies. Ethnic and racial minorities make up a substantial percentage of our

population, yet many studies do not reflect the multi-cultural and multi-racial fabric of our society.

Mr. Speaker, S. 1789, which reflects a consensus of the sponsors of both the earlier House and Senate passed bills, is a good bill. It is a necessary bill—necessary to protect the welfare of our nation's children.

TRIBUTE TO HABITAT FOR HUMANITY IN SPRINGFIELD, MISSOURI

HON. ROY BLUNT

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 19, 2001

Mr. BLUNT. Mr. Speaker, I rise today to pay tribute to a group in Southwest Missouri that intends to turn a careless act of pollution into hope for families. Part of the American dream is buying a home for your family. Home ownership in America is at record levels. Two of three families owns or is buying their primary residence. But for many families that dream is beyond reach.

Working with Habitat for Humanity, the House of Representatives has supported in word and deed a commitment to home ownership for low-income families. Members of this body have assisted in raising funds and working on homes that are "dreams come true" for many disadvantaged families. In Southwest Missouri I have assisted in putting up the walls on four homes in what has become an annual event that my staff and I look forward to. Habitat for Humanity is a charity that has been instrumental in helping thousands of families find permanent and affordable shelter. Home ownership contributes to building strong families. It inspires a family's desire to improve and protect it's personal stake in the community as well as promotes civic participation and involvement.

More importantly today, I am pleased to announce that Habitat for Humanity of Springfield, Missouri has received a grant from the Corporation for National Community Service specifically to fund a service event on the Martin Luther King Jr. holiday this coming year. The \$7,500 grant will be used to fund the organization's kick-off of their new program "Aluminum Cans Build Habitat Houses." On Martin Luther King Jr. Day 2002, hundreds of youth will be working throughout my district picking up and recycling aluminum cans. The money raised from collecting the cans will be used to build Habitat houses and also to provide a scholarship for a high school student in our district.

I commend my local chapter for its continued involvement in Southwest Missouri and its proactive efforts to engage young people in public service. Those of us who have been privileged enough to help on Habitat projects have seen the unity that this organization can bring to our communities. Few things are more inspiring than witnessing people from vastly different backgrounds and ethnic heritages working together to help a family achieve their dream.

It is fitting that this grant, given in honor of Martin Luther King Jr., be used for a project that unifies. I can think of no better way to honor the legacy of a man who sought to sweep away the barriers that kept all Americans from pursuing the American dream.

REMEMBERING MARSHA HANLEY

HON. BRIAN D. KERNS

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 19, 2001

Mr. KERNS. Mr. Speaker, today I rise to recognize a great Hoosier, a great American—Marsha Hanley. Marsha wore many hats during her lifetime—wife, mother, grandmother, volunteer, community leader, and an advocate for homeless children.

On this day, Marsha Hanley was laid to rest by her husband, Harold, children, family, and friends after leaving our world this past Sunday. The manner in which she led her life—her kindness, her love of country, her devotion to her family—serves as an example for others to follow.

A life-long Republican, Marsha cared deeply about her community and country. She followed the issues closely with great interest and was not afraid to express her opinion.

Mr. Speaker, I would like to have been home in Indiana to pay my respects, but as you know—and as I am sure she would understand—we have important legislation before us in Congress on this day. While my heart is with Marsha and her loved ones in Indiana, my duties keep me in our nation's Capitol.

We are all richer for having known Marsha, and the lives of so many others have been enriched because of her good work. While we will miss her, we take comfort in the knowledge that she is now in a better place and with our Father in heaven.

God bless you Marsha Hanley.

IN RECOGNITION OF MARY DANIELS ON HER RETIREMENT

HON. JAMES R. LANGEVIN

OF RHODE ISLAND

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 19, 2001

Mr. LANGEVIN. Mr. Speaker, I am pleased to recognize one of my constituents, Mary Daniels of Cranston, as she begins her retirement at the impressive age of eighty-four.

On Friday, December 7, Mary completed her final day of work at Leviton, an electrical equipment manufacturer that is one of the largest employers in Rhode Island. For thirty-seven years, Mary served as a dedicated and diligent worker, completing any task that was put before her. She will be remembered by her coworkers for her kindness to her friends and family, her impressive work ethic, and her strong character.

After many years of working to support her family, Mary may now take full advantage of her retirement. I am certain that she will enjoy these golden years, as her strong spirit will keep her active. Her four children and eight grandchildren are also certain to benefit now that she has more time to prepare family meals and her famous lemon meringue pie.

I encourage Mary to take full advantage of her retirement years, to spend more time with her loved ones, and to pursue all of her dreams. I now ask my colleagues to join me in congratulating this impressive woman on her notable achievement.

H.R. 3178, WATER INFRASTRUCTURE SECURITY AND RESEARCH DEVELOPMENT ACT

SPEECH OF

HON. SHEILA JACKSON-LEE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 18, 2001

Ms. JACKSON-LEE of Texas. Mr. Speaker, I am pleased that "H.R. 3178, Water Infrastructure Security and Research Development Act" and the Development of Anti-Terrorism Tools for Water Infrastructure was brought to the floor today.

Mr. Speaker, the nation's water supply and water quality infrastructure have long been recognized as being potentially vulnerable to terrorist attacks of various types, including physical disruption, bioterrorism/chemical contamination, and cyber attack. Interest in such problems has increased since the September 11, 2001 attacks on the World Trade Center and the Pentagon. Damage or destruction to these systems by terrorist attack could disrupt the delivery of vital human services, threatening public health and the environment, or possibly causing loss of life.

Water infrastructure systems include surface and ground water sources of untreated water for municipal, industrial, agricultural, and consumer needs; dams, reservoirs, aqueducts, and pipes that contain and transport raw water; treatment facilities that remove contaminants; finished water reservoirs; systems that distribute water to users; and wastewater collection and treatment facilities. Across the country, these systems comprise more than 75,000 dams and reservoirs, thousands of miles of pipes and aqueducts, 168,000 public drinking water facilities, and about 16,000 publicly owned wastewater treatment facilities. Ownership and management are both public and private; the federal government has responsibility for hundreds of dams and diversion structures, but the vast majority of the nation's water infrastructure is either privately owned or owned by non-federal units of government.

Mr. Speaker, the federal government has built hundreds of water projects over the years, primarily dams and reservoirs for irrigation development and flood control, with municipal and industrial water use as an incidental, self-financed, project purpose. Because of the size and scope of many of these facilities, they are critically entwined with the nation's overall water supply, transportation, and electricity infrastructure. Threats resulting in physical destruction to any of these systems could include disruption of operating or distribution system components, power or telecommunications systems, electronic control systems, and actual damage to reservoirs and pumping stations. A loss of flow and pressure would cause problems for water customers and also would drastically hinder firefighting efforts. Bioterrorism or chemical threats could deliver massive contamination by small amounts of microbiological agents or toxic chemicals and could endanger the public health of thousands.

Water supply was one of eight critical infrastructure systems identified in President Clinton's 1998 Presidential Decision Directive as part of a coordinated national effort to achieve
