

past that all other specialties have enjoyed at the teaching hospitals. We finally corrected that last year with a \$235 million fund, and that, too, is under target.

So when one talks about a budget that is providing for our needs and wants, not leaving any child behind, what one sees is that this big tax cut has even shoved the most critical and sensitive programs on the back burner.

Mr. KIND. Mr. Speaker, I want to thank the gentleman from South Carolina (Mr. SPRATT) for his insight tonight, his expertise, the work product that he has been able to produce in the alternative budget resolution. Hopefully it is opening up a lot of eyes in regards to what the majority party is offering, the promises that they are making, and the lack of details that they are providing right now. I thank the gentleman for his work.

Mr. Speaker, I yield to the gentleman from New Jersey (Mr. HOLT).

Mr. HOLT. Mr. Speaker, I thank the gentleman for yielding to me.

Mr. Speaker, I would like to follow on some of the things that our distinguished ranking member has covered. In addition to some of the things that the gentleman from South Carolina (Mr. SPRATT) has talked about, the Republican budget would result in cuts in the following programs: the Environmental Protection Agency; the Department of Agriculture, including field offices; the National Aeronautics and Space Administration; Renewable and Alternative Energy, which is critically important, we have been reminded recently; Army Corps of Engineers; Federal support for railroads; the Small Business Administration; Community Development Block Grants; the Department of Justice. We had talked earlier about the hit that the community-oriented policing program would take. Legal Services Corporation, and on and on.

Something that troubles a lot of us a great deal is what would happen to environmental initiatives and land use initiatives. President Bush has made two environmental promises. One is to provide \$900 million or what is called full funding for the Land and Water Conservation Fund. This is a fund for acquiring open space and parks and recreation and to eliminate \$4.9 billion of maintenance backlog in the National Park Service. However, with his funding totals, he can only live up to these promises by consulting other vital environmental and natural resource programs.

So the Republican budget does not add up. The Republican budget would shorten the solvency of Medicare as the gentleman from South Carolina (Mr. SPRATT) and others have pointed out. The Republican budget would not live up to our obligations in education and would fall short of our obligations in providing health care for veterans.

All of this is because, seen from a 10-year projection, it looks like there is so much money that it seems possible

to offer a two point something trillion dollar tax cut. Well, it is not possible if we are going to do these other things, if we are going to meet our obligations, if we are going to be fiscally disciplined so that we can have consumer confidence and investor confidence and a sound economy.

Mr. KIND. Mr. Speaker, I thank the gentleman from New Jersey (Mr. HOLT) for joining us here this evening.
