

and producers into believing that low prices will always be there, but now we know that is not true.

MUHAMMAD ALI

(Ms. CARSON of Indiana asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. CARSON of Indiana. Mr. Speaker, I rise today almost 1 week after the 34th anniversary of Muhammad Ali's conviction for draft evasion. Muhammad Ali sits on anyone's short list of the greatest athletes of the 20th century. In fact, Time Magazine recently listed Ali among the top 20 heroes and icons of the 20th century.

Perhaps Ali's greatest testament was the only fight in which he declined to participate. With the war in Vietnam dragging on, the draft call was expanded, and the heavyweight champion of the world was reclassified as 1A, eligible for military service.

Ali was told the news at a training camp in Miami, and, badgered all day by the press, he came out with the now famous line, "I ain't got no quarrel with them Viet Cong."

It may have been a spontaneous remark, but he stuck by his word with courage, conviction and stood out against the conflict in Vietnam. His courage to stand by his belief in the years when the war was still favored by the majority of Americans will stand as a testament to those who protested.

I would encourage, Mr. Speaker, my colleagues in joining, along with the other 40 cosponsors, in awarding Muhammad Ali a Congressional Gold Medal. Please sign up.

CONGRATULATIONS TO CHARLTON "CHEWY" JIMERSON, THIS YEAR'S OUTSTANDING PLAYER AT UNIVERSITY OF MIAMI

(Ms. ROS-LEHTINEN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. ROS-LEHTINEN. Mr. Speaker, I congratulate the University of Miami baseball team and its exceptional coach Jim Morris for the flawless performance that enabled them to win the College World Series. The Hurricanes celebrated their 12-to-1 win over Stanford, and this victory marks their second annual title in 3 years.

Professional teams have drafted 11 talented Hurricanes, but it is Charlton Jimerson who won this year's Outstanding Player Award.

Chewy, as he is called by his teammates, survived an unstable childhood. He was raised by his sister Lanette, who inspired confidence so that he would achieve success. By writing a letter, Chewy invited himself to play at the University of Miami, and today this fifth-round draft choice of the Houston Astros is described as the emotional fuse for a dynamite team.

I ask my congressional colleagues to join me in commending outstanding

player Charles Jimerson, his talented coach Jim Morris, and the amazing University of Miami baseball team for an outstanding victory once again.

FINGERPOINTING MAY WIN POLITICAL POINTS AT HOME BUT IT DOES NOT SOLVE OUR NATION'S ENERGY CRISIS

(Mrs. MYRICK asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. MYRICK. Mr. Speaker, during this current energy situation, there has been a lot of pointing of fingers of blame in this Chamber. That may win political points at home, but it sure does not solve the problem.

President Bush has put forth a very responsible plan to solve our energy problem. He has taken the lead. It is a balanced plan that stresses conservation as well as increased supply. We, of course, want to protect the environment and be responsible with the plan. There is no question in that.

We also need to reduce our dependency on foreign sources of supply. It is time that America is in charge of our supply of energy, not Saddam Hussein.

IT IS DEMOCRATS WHO HAVE PUT CALIFORNIA INTO THIS ENERGY MESS

(Mr. SAM JOHNSON of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SAM JOHNSON of Texas. Mr. Speaker, I am sick and tired of being sick and tired; sick and tired of hearing Democrats complain about the energy crisis. The last time I checked, the Democrat Governor Gray Davis was and is in charge of California. The last time I checked, Democrats also controlled the White House for 8 long years and did nothing. Bill Clinton and Al Gore had plenty of time to examine and solve the energy crisis in California while they were out there visiting Buddhist temples, but they did not. Instead, Democrats like DASCHLE and GEPHARDT just play the blame game.

Democrats are blaming George Bush and DICK CHENEY for the California energy problem. They must have forgotten this administration just took office. If the Democrats had been wise, they would have been drilling for oil, building new energy plants and building new transmission lines. That is what it takes to solve the problem is finding resources. In short, it is the Democrats who put California into this mess. Americans do not want, need or deserve the California energy problems.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. ISAKSON). The Chair would remind

Members that it is not in order to address members of the other Chamber.

PRICE CONTROLS, THE EVIDENCE IS THEY DO NOT WORK

(Mr. PETERSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PETERSON of Pennsylvania. Mr. Speaker, wholesale electric price controls do not work. What better example of this than California? Leading energy experts have been saying for months that one major reason California is in its current energy mess is because of price controls. Now we have further evidence that the price controls are not the answer.

Last week the Department of Energy released a report indicating that if Governor Davis gets his way and a cost-plus-\$25 price cap is implemented, Californians will be literally in the dark.

The Department of Energy report concludes that Governor Davis' price caps would result in the delay or abandonment of about 1,300 megawatts of capacity scheduled to be constructed in the State. What does this mean to Californians? It means that 90,000 additional households could be affected.

As Pennsylvania learned, deregulation can be implemented with success, but price caps and unnecessary government regulations result in shortages and higher prices. We in Pennsylvania know that. The Department of Energy concurs.

HARD-WORKING AMERICANS DESERVE ANSWERS AND THEY DEMAND A SOUND ENERGY POLICY

(Mr. GIBBONS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GIBBONS. Mr. Speaker, our economy over the last year has showed signs of slowing. Energy prices are already too high, and they are going higher. Much of our country faces either energy shortages, blackouts or both. Major energy shortages are expected throughout the summer for most of the West. Gas prices there top \$2.25 a gallon at the pump. Hard-working Americans deserve answers, and they demand a sound energy policy.

Mr. Speaker, our Nation's energy problems demand multifaceted solutions, including increased supplies of traditional fossil fuels and alternative sources of energy as well as improving energy conservation and efficiency. It will not be easy, and it will not be quick, but we have the technology and the resources to meet our energy needs for decades, even centuries, to come, while ensuring a clean environment as a legacy for our children as well.

We need to work with President Bush to create a balanced, comprehensive national energy policy that meets our energy challenges today and provides for our needs well into the future.

ARTISTIC HOMES, A WAY TO CONSERVE OUR ENERGY RESOURCES

(Mrs. WILSON asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. WILSON. Mr. Speaker, on Saturday afternoon I was on the west side of Albuquerque at Artistic Homes. Artistic Homes have changed the way they build homes in order to reduce utility bills.

I met a first-time buyer family that is going to buy one of those homes. They were signing the papers that day. They currently pay \$160 a month for their electric and gas bill, and they expect that bill will be \$20 a month when they move into this new home.

That experience reinforces why conservation must be a part of our energy agenda. We have an energy problem in this country. It is toughest in the West, but it affects us all. There are not going to be any quick fixes. We need a balanced, long-term approach to give us the stability and the energy that we need. This is too important to do anything but the right thing.

We need to start with conservation. We have made tremendous progress in this country over the last 20 years. We are not going back, and nobody wants to. We need a balanced mix of new supplies of energy, and we have to bring on the next generation of new supplies of energy. It is time to pull together and lead, to give us real answers for our energy problems.

THE TIME HAS COME TO CHANGE THE OUTDATED DAVIS-BACON ACT

(Mr. BALLENGER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BALLENGER. Mr. Speaker, I would like attention to be directed to one of many problems on the outdated Davis-Bacon Act of 1931. As my colleagues know, this law requires the State and local construction projects receiving over \$2,000 in Federal aid must adhere to the Federal prevailing wage, which on average is 17 to 22 percent higher than the State level. Because of these higher wages, State and local construction projects can cost up to 38 percent more than they would have without the act.

This enormous waste of taxpayers dollars is proof that the Davis-Bacon Act should be modernized. In the 70 years since its introduction, the act has never been adjusted for inflation and has not been amended according to current construction standards. Meanwhile, inflated Davis-Bacon costs continually hinder emergency relief efforts and federally-assisted construction projects because of the additional costs communities must pay if they receive a mere \$2,000 in Federal aid.

Because this \$2,000 minimum was set in 1931 and has never been adjusted, the gentleman from North Carolina (Mr.

COBLE) and I have introduced H.R. 2094, the Davis-Bacon Modernization Act, which would increase the threshold from \$2,000 to \$100,000. While many of my colleagues believe this number is not high enough, I believe it is a good start. Let us make this law more reasonable and, above all, helpful. I urge my colleagues to help communities across the country to get more bang for their buck. Cosponsor and support the Davis-Bacon Modernization Act.

THE AGRICULTURAL SUPPLEMENTAL RELIEF ACT

(Mr. POMEROY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. POMEROY. Mr. Speaker, it is another tough year for the farmers of this country. Commodity prices once again are below the cost of producing the crop. Imagine the frustration of investing one's heart and soul and extending virtually everything they own to grow a crop that when it is harvested and it is taken to the elevator, the money that is received does not even cover the costs they had of growing it. That is, of course, if the production season is a good one and a crop is actually gotten.

Yesterday I was in fields in North Dakota that have been totally devastated by hail. There will be no crop for these farmers. There will be no income of any kind at the elevator. I raise this to everyone's attention because in a few minutes we are about to consider the Agricultural Supplemental Relief Act. Unfortunately, the Committee on Agriculture brings forward a proposal that reduces by about 15 percent the amount of relief and support we gave to farmers last year.

Now farmers' inputs have gone up. It is costing more to grow the crop. The prices are still lousy. It is no time to cut relief for our farmers. Reject this and increase assistance.

NORTH KOREA

(Mr. PITTS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PITTS. Mr. Speaker, I recently met with a German doctor, Dr. Norbert Vollertson, and talked to him about his experiences during his 18 months living in North Korea.

□ 1100

The stories of suffering and the photos of starving children and adults were deeply moving. Dr. Vollertson made a strong statement that should spur the international community to action.

When comparing the North Korean prison camps to Nazi concentration camps, Dr. Vollertson said, "No journalist, nobody wanted to believe that Hitler is so cruel, that the German government is so cruel. I think it is my duty as a German to learn from his-

tory, to not make the same mistake twice."

He said what is happening in North Korea in the concentration camps, in his opinion, is as bad as what happened during the Second World War. It is the duty of the international community not to make the same mistake again, to ignore the plight of thousands of people in North Korea who are starving and in terrible prison situations where they are beaten and tortured and executed in horrific ways.

Mr. Speaker, I call on this body and the administration to act on behalf of the people of North Korea, to act to ensure that the regime in North Korea is no longer allowed to continue destroying its people.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. SHIMKUS). Pursuant to clause 8 of rule XX, the Chair announces that he will postpone further proceedings today on each motion to suspend the rules on which a recorded vote or the yeas and nays are ordered or on which the vote is objected to under clause 6 of rule XX.

Any record votes on postponed questions will be taken later today.

RECOGNIZING OUTSTANDING AND INVALUABLE DISASTER RELIEF ASSISTANCE PROVIDED DURING TROPICAL STORM ALLISON

Mr. COOKSEY. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 166) recognizing the outstanding and invaluable disaster relief assistance provided by individuals, organizations, businesses, and other entities to the people of Houston, Texas, and surrounding areas during the devastating flooding caused by tropical storm Allison.

The Clerk read as follows:

H. RES. 166

Whereas during June 2001 tropical storm Allison brought catastrophic flooding to Houston, Texas, and surrounding areas;

Whereas this disaster tragically and suddenly took the lives of 21 people;

Whereas this disaster injured countless other people, uprooted families, and devastated businesses and institutions;

Whereas the State of Texas has been declared a Federal disaster area, and individuals and families in 28 Texas counties are eligible for Federal assistance;

Whereas numerous individuals and entities have selflessly and heroically given of themselves and their resources to aid in the disaster relief efforts; and

Whereas the catastrophic injury, death, and damage in Houston, Texas, and surrounding areas caused by tropical storm Allison would have been even worse in the absence of local relief efforts: Now, therefore, be it

Resolved, That the House of Representatives recognizes, for outstanding and invaluable service during the devastating flooding caused by tropical storm Allison in Houston, Texas, and surrounding areas, the following:

(1) the American Red Cross service centers located at Sunnyside Multi-Service Center,
